Arabella, Lyndhurst, Mrs. Jones, Kriemhilde, Sylvia and Storm King. Asters continue very good and are the mainstay where good stock is wanted in quantity. Carnations are getting a little better; but they are still far from occupying an important place in the market. There are some pretty good American Beauty roses arriving from local sources which are all right except in color. In the latter respect the Eastern grown stock is still much brighter. Mrs. Aaron Ward and Prince of Bulgaria are pleasing additions to the regular list of roses, and seem to meet with good sale. Lily of the valley and longiflorum lilies are in fair demand and of excellent quality. There is plenty of both. The receipts from the gladioli farms have slackened up very considerably and we do not look to have these with us much longer. Orchids are still very scarce. Tritomas are in evidence but there is not much demand for these as yet. Their turn will come later. Greens very slow.

ST. LOUIS With the two dull months gone the local trade is looking for more steady trade and they surely need it as the last two months have been mighty dull with them. The wholesalers are looking for a better market from now on as stock is coming in of better quality. The market is in about the same condition as the week previous as to stock, prices and demand. Only the very best quality of roses finds any demand. Beauties are plentiful. There is plenty of asparagus and ferns to be had at usual prices.

The sale of stalls of the Boston Flower Exchange, held September 2 was the most successful in the history of the market, almost every stall being sold, and prices ruled the high on record. This market is receiving an abundance of almost every kind of stock but demand is light.

ST. LOUIS NOTES.

Mrs. C. A. Kuehn with her two children has returned from her summer trip north, visiting Detroit and Milwaukee.

C. C. Sanders' place on Clara avenue is nearly completed, since the new building collapsed a few weeks ago. They expect to open the new store about Sept. 15th.

Miss M. S. Newman has returned from her summer trip East and has again opened her store, which was closed during July and August.

L. Zimmer, the Biddle Market florist, has returned after a two months' trip to his home in Hamburg. His store was closed during his absence.

J. F. Windt, for many years a retail florist on Bayard avenue, has sold his business to the firm of Windt & Heitmann, who will run a general retail business at the old stand. Mr. Windt, who is well on in years and well off in the world's goods, will retire.

The second Sunday opening of Shaw's Garden to the public was on Sept. 3. The day was most beautiful and over 12,000 people took advantage of the opportunity. Supt. Irish was all smiles. A large force of students took the visitors in groups and showed them through the garden. The will of the late Henry Shaw reads that the public is only to be admitted on two Sundays in each year.

J. J. Beneke says that the bowlers among the florists are beginning to look to the opening of the season this week. Messrs. Beneke and Ryan will bowl in the Royal Arcanum league, Carl Beyer with the Western Rowing Club league and Messrs. Kuehn, Schrieffer and Wibling with the Manufacturers' league, and it is possible that these six will form a team after the regular season and compete for prizes at the Chicago convention next August.

Visitor this week: A. Cowan, representing the Geo. Wittbold Co., Chicago.

Buyer's Directory and Ready Reference Guide

Advertisements under this head, one cent a word. Initials count as words.

Display advertisers in this issue are also listed under this classification without charge. Reference to List of Advertisers will indicate the respective pages.

Buyers failing to find what they want in this list will confer a favor by writing us and we will try to put them in communication with reliable dealers.

Little Ads Bring Big Returns

Little ads in our Classified Columns bring big returns to both advertiser and purchaser.

Anything that can be sold to florists, gardeners, park and cemetery superintendents, etc., can be sold through this medium in this department, and at very small cost.

Don't fail to read them each issue, for you will find one or more that will prove profitable to you.

They Cost Only One Cent a Word Undisplayed

In writing to Advertisers kindly mention Horticulture

THE NEW MINERAL FERTILIZER

Will produce

MORE

and

LARGER FLOWERS

and of better color than any plant food ever put on the market.

Contains all of the original elements of virgin soil

The above cut shows hollyhocks, nine feet six inches high, with more blossoms and of better color than ever produced by any other fertilizer.

Write for catalogue and testimonials.

Will

DESTROY

all

INSECT LIFE

that preys on plants under glass.

It is a plant food and not a stimulant

Aphine

The Insecticide that kills plant Lice of every species

Destroys green, black and white fly, red spider, thrips, mealy bug, brown and white scale, and all soft-bodied insects. An excellent cleanser for decorative stock. Used as a spray, you can rely on it for positive results, without fear of failure or dissatisfaction.

\$2.50 per gallon, \$1.00 per quart.

"FUNGINE"

An infallible remedy for mildew, rust and other fungus diseases. A clean, safe and easily applied spraying material. It has no equal for destroying mildew on roses, and carnation rust.

\$2.00 per gallon, 75c. per quart.

FOR SALE BY SEEDSMEN.

Send for name of nearest selling agent. Our products are not alone endorsed, but are continuously used by leading commercial growers, professional gardeners, park departments and state colleges of the country. Aphine and Fungine can be used in house or field.

NEWS NOTES.

Kalamazoo, Mich.—The Central Nursery & Floral Co. has retired from business.

Owasso, Mich.—John Schleider has sold the Sunnyside Greenhouses to M. A. Herrick of Durand, Mich.

Denver, Colo.—Greenhouses at 2122 Hooker street have been leased by James Hamlin, who will start business there.

Newark, N. Y.—The Jackson & Perkins Co. is contemplating a 60x160 frost-proof warehouse for storage of nursery stock.

Hot Springs, Ark.—J. F. Howard has sold his greenhouses and other property on Harrell avenue to the C. H. Johnson Floral Co.

Madison, Wis.—The Capital City Greenhouse Company has filed an amendment increasing its capital stock from \$15,000 to \$50,000.

Stouffville, Ont., Can.—The Stouffville Floral Co. has purchased the business of Brillinger & Meader. Robert Rae is manager of the new company.

Addison, Ill.—It is reported that a Hinsdale nurseryman has purchased 80 acres of land south of the town upon which he will erect an extensive range of greenhouses.

Pittsfield, Mass.—An elaborate Italian garden is to be constructed for William H. Walker, on his Brookside estate. \$50,000 or more is to be expended, mainly for marble fountains and other stone work. F. Vitale, of New York is the architect.

Wayland, O.—Among the most successful gladiolus growers in the country is Mrs. A. H. Austin of this town. From a very small start a few years ago Mrs. Austin has developed her business until the number of bulbs now growing exceeds a million. The bulbs are grown in rows three feet apart and about fifty rods in length. The stock this year includes a large number of seedlings from hand-fertilized seed. The soil is a clayey loam which has been farmed for about 100 years.

We learn from the Bulletin of Foreign Plant Introductions issued August 25, 1911, by the Bureau of Plant Industry at Washington, that Frank N. Meyer, the noted explorer and plant collector arrived at Omsk, Siberia on July 2, after a trip into the Altai mountains where he had collected a quantity of material for the Agricultural Department.

DREER'S "Riverton Special" Plant Tub

No.	Diam.	Each	Dos.	100

What the Users Say

KROESCHELL BOILER

Half the Coal and Half the Work.

"Your No. 13 boiler is carrying 25,000 sq. ft. of glass and I can keep it at 60 degrees in the coldest weather without any trouble. I have three other types of boilers also heating a range of 25,000 sq. ft. of glass, but the No. 13 Kroeschell Boiler **ONLY TAKES HALF THE COAL** and half the work to get the same results."

J. G. FRISZ, Vincennes, Ind.
P. S.—Mr. J. G. Frisz, of Vincennes, Ind., has the largest range of glass in Indiana devoted to vegetable forcing.

And This Is That Snug Little House on Mrs. C. A. Armstrong's Grounds at Greenwich, Conn. Alexander Shaw Is The Gardener

YES, it is right handy by the residence—not more than 100 feet from it. And say what you will, that's the way it should be, when conditions make it possible. What's the use of having an inside garden way off out of reach? You don't locate the outdoors flower garden that way.

We come out strong on this nearby locating opinion, because we believe that it is not only an advantage to the owner, but a decided one to the gardener.

It's only plain common sense that your employer will keep up a stronger interest in you and what you are doing if it is but a step to run in and look through the house. The more interesting you make it for him, the more interested he will be in you; the more valuable you become, and the surer are your chances for advance and the securing of more houses. (Read that again.) And it's every gardener's ambition to secure both. When it comes to making such additions you will particularly need our services. Need them because a house located near the residence requires careful designing and plan-

ning, else it will be a hotch affair. It is surprising, for example, what an attractively designed hood entrance will do to set a plain house off, if it be rightly placed and consistently handled. But these and the hundred and one other things that go to make up a successful greenhouse can't be secured from builders with but a few years' experience. You know that well enough. You also know that when you tell your gardener friends that yours is a "Lord & Burnham house," it means something. It means you have the very best house money can buy. If this were not so, then why do the new concerns so often refer to their houses as "just as good as any L. & B. house?" Ever think of that side of it before? It simply means, our constructions are the standard constructions now, just as they have always been for half a century and more.

Send for the catalog (that new 100 pages in colors). It's a conclusive bit of evidence. We will send one to your employer if you say so.

LILIUM HARRISII

(The Bermuda Easter Lily)

LET US supply your wants in Lilies this season

We think we can make it to your advantage to do so, as regards both quality and price.

The stock that we offer is not gathered indiscriminately from all kinds of sources, but is grown for us by a few selected growers, whose stocks have been worked up from the true, original stock. In order to ensure the health of the product, the bulbs are not grown on the same field oftener than one season, other crops being grown on the field the preceding year. The ground is thoroughly manured when the previous crop is grown, leaving it in a high state of cultivation, and when the lily bulbs are planted no fresh manure is used, and this prevents disease and ensures a crop of strong, healthy bulbs.

In addition to this, we do not dig our bulbs as early as they are usually dug, but leave them in the ground until they are thoroughly ripened and matured. When Harrisii is good, it leaves little to be desired. There is very little, if any, stock obtainable as good as the stock that we are offering. We are supplying only this one grade of selected stock, and when this is disposed of, we shall have no more to offer.

While the quality of the stock that we offer is of the highest, our prices are as low as, or lower than, the prices of those who offer the ordinary stock gathered from indiscriminate sources. We are sure buyers will find our stock very satisfactory, and much more so than the Japan-grown *ongiflorum*, which has badly deteriorated in recent years.

Bear in mind that we were the original introducers of Harrisii in Bermuda, and that we have exceptional facilities for obtaining our present supplies. Also take note that the smallest bulbs that we offer are 6-7 inch bulbs, not 5-7 inch, as usually offered.

6-7 inch bulbs, 335 to the case, \$15.00 per case; full thousand lots, \$40.00 per 1,000.

7-9 inch bulbs, 200 to the case, \$16.00 per case; full thousand lots, \$75.00 per 1,000.

9-11 inch bulbs, 100 to the case, \$18.00 per case; full thousand lots, \$175.00 per 1,000.

FERNS

We have an exceptionally nice lot of ferns in the following varieties,—good, bushy, well-grown plants that will please the most critical buyers. Plants have been grown in pots, and are thoroughly well established and nicely finished.

Nephrolepis Bostoniensis and *Piersoni*, 6-in. pots.....\$0.50 each

Nephrolepis Elegantissima, *Piersoni*, *Bostoniensis*, and *Harrisii*, heavy 8-in. plants.....\$1.00 to 1.50 each

Nephrolepis Elegantissima, *Bostoniensis*, and *Harrisii*, heavy 10-in. plants 2.50 each

Boddington's Quality Christmas and Winter-Flowering Sweet Peas

A

As the true stocks of Winter-Flowering Sweet Peas will be scarce this season. Some varieties are a total failure, owing to the exceptional season in California this Spring. We can make immediate delivery of the varieties marked with a star (*), the balance we are expecting from our grower in California at any time. Our advice to intending planters is to order early.

Our stocks of Christmas-Flowering Sweet Peas have stood the test for years, and we can refer you to the largest growers of this increasingly popular flower, as to the trueness and quality of our seed, earliness of blooming period, and strength and habit of plants.

The following varieties are the "best by test" and include Zvolanek's and our own introductions, grown from seed from selected stocks by the leading California Growers and Specialists of Sweet Peas. Our output last year was nearly 6000 lbs. No kicks and plenty of testimonials as to quality, germination and trueness to type.

BODDINGTON'S QUALITY WINTER-FLOWERING SWEET PEAS

At the Exhibition and Convention of the National Sweet Pea Society of America, July 12th and 13th, 1910, we again won the C. C. Morse & Co's Silver Cup for the finest and best collection of Sweet Peas open to the trade only

***BODDINGTON'S EXTRA EARLY CHRISTMAS WHITE SNOWBIRD.** An exceptionally early Sweet Pea for indoor flowering; will bloom six weeks after sowing. Color clear white, upon long stems; habit fairly dwarf and of exceptionally free-flowering qualities. Without doubt, the finest early white for indoor planting. We sell one grower in Pennsylvania 35 lbs. of this variety every year, name on application. Oz., 30 cts.; 1/4 lb., 85c.; 1/2 lb., \$1.50; lb., \$2.50.

***BODDINGTON'S CHRISTMAS PINK.** This is the earliest and most profitable and useful Sweet Pea in cultivation, as by sowing the seed under glass in latter part of August flowers can be cut from Thanksgiving on during the Winter months. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

***BODDINGTON'S CHRISTMAS WHITE.** A competitor to our Christmas Pink. Just as free and profuse a bloomer. Oz., 15 cts.; 1/4 lb., 50 cts.; 1/2 lb., 85 cts.; lb., \$1.50.

***BODDINGTON'S CANARY.** Similar to the above, but flowers of an exceptionally good yellow. Oz., 35 cts.; 1/4 lb., \$1.00; 1/2 lb., \$1.75; lb., \$3.00.

***BODDINGTON'S FLAMINGO.** Color scarlet; free-flowering and early. Oz., 50 cts.; 1/4 lb., \$1.50; 1/2 lb., \$2.75; lb., \$5.00. **Christmas Meteor.** Scarlet; fine open red flower. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00. **Christmas Captain.** Blue and purple. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

***Florence Denzer.** Pure white. Oz., 15 cts.; 1/4 lb., 50 cts.; 1/2 lb., 85 cts.; lb., \$1.50. **Le Marquis.** This is the same color as Princess of Wales, violet; has very large flowers. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

***Miss Helen M. Gould.** White, open flower; standard lilac, marbled. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

***Miss Josey Reilly.** Lilac; very large flowers. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

***Mrs. E. Wild.** Carmine or dark pink. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

***Mrs. George Lewis.** Large, pure white wavy flower. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

Mrs. W. W. Smalley. Satiny pink. Oz., 35 cts.; 1/4 lb., \$1.00; 1/2 lb., \$1.75; lb., \$3.00.

Mrs. F. J. Delansky. Daybreak pink. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

***Mrs. Chas. H. Totty.** Sky-blue; late. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

Mrs. Zvolanek. Blue, variegated; good for variety. Oz., 50 cts.; 1/4 lb., \$1.50; 1/2 lb., \$2.75; lb., \$5.00.

***Watchung.** Pure white. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

***Wm. J. Stewart.** Blue self. Oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.25; lb., \$2.00.

All other varieties of Winter and Summer-flowering Sweet Peas supplied. Write for quotations.

Seasonable Notes on Culture of Florists' Stock

CHRYSANTHEMUMS

If you want to grow your plants to the best possible advantage give them an application of liquid manure once or twice a week, as the beds will be full of roots and in a condition to stand liquid feeding. The best principle to follow in feeding is to give a little at first and increase gradually until they are getting it twice a week. This feeding can go on with all varieties until the buds show color; after that it tends to make the flowers soft and of poor keeping quality. Less spraying of the plants will now be necessary as the days are growing cooler which makes evaporation less. When the bud is taken and the stem shows signs of thickening, give less water at the roots and keep the atmosphere of a dryer nature, but this doesn't mean to let them suffer for a sufficient amount to keep them in good health. Where immense flowers of fine depth and finish are wanted, they can only be obtained by getting the wood into the right condition of ripeness. If the temperature of the house falls below 45 degrees at night it is better to have a gentle warmth in the pipes, and keep a couple of inches of air on the top ventilators than to close the house up tight. See that you have all the fly disposed of before the flowers show color.

DUTCH BULBS

To be successful in forcing these bulbs, you want a good compost. Any good loam three parts, to one part of dry cow manure, and enough sharp sand to make the compost open will grow good flowers. Where the above mentioned compost is not handy, of course old carnation or rose soil that has some fresh loam and old manure added to it will answer. Don't leave your bulbs lying around for days, but box or pot them up as soon as they arrive. When this has been done give them as much water as the soil will take; this will plump the bulbs up, and put them in the right condition to start and make roots. Store them away in some coldframe or—what is better—a bulb cellar, and keep dark and moist until they have advanced far enough with root growth. It takes about five weeks to root tulips, narcissi, and a week longer to root hyacinths, and a longer time will give you a more perfect bloom. All the foregoing bulbs can be forced in from five to seven weeks. It is well to remember that all bulbs should be finished in a cooler temperature of from 48 to 55 degrees, which gives the flowers more substance, and better lasting quality.

GETTING READY FOR FROST

Frost may be expected at any time now, so prepare by lifting all stock of a tender nature from the field rows and have them potted or boxed up. Take in all palms and foliage plants that are in pots and tubs that have been standing around for decoration. See that green houses, frames, and sash to be used for storing

such material are thoroughly overhauled and put in order. Clean out all rubbish and have all repairs, such as carpentering, painting and glazing attended to without delay. Frames that are holding such stock as cinerarias, calceolarias, cyclamen, primulas, etc., should have their sashes in readiness now for immediate service to prevent any damage by cold winds or frosts. Lift a good many stock plants of abutilon, acalypha, fuchsia, heliotrope, lantana, salvia, etc., pot them up, and place in a cool house for stock later on.

PLANTING AND CHOOSING OF PERENNIALS

In order to end right with your planting first make a drawing of proposed beds and specify each plant's respective position on this drawing. Give study to the proper mingling of colors, thus avoiding mistakes that would necessitate replanting. To provide for an equality of bloom in the border throughout the season, the date at which the different types flower should also be taken into account. Another thing to remember is not to make the common mistake of planting them too close together. Give each plant sufficient room so that it can develop to its full size. Plants that grow a foot high should be set approximately from 8 to 10 inches apart, two feet high 14 to 16 inches, three feet high 18 to 20 inches and four feet high 22 to 24 inches. These show borders should form a distinct feature not less than 10 feet in width, and backed up with a background of evergreens.

The following is a good list to plant. For the front row *Achillea* The Pearl and *tomentosa*, *Arabis alba*, *Alyssum saxatile*, *Campanula carpatica*, *Heuchera sanguinea*, *Iberis sempervirens*, *Lychnis Viscaria*, *Sieboldi* and *Haageana*, *Phlox amoena* and *sublata alba*, *Primula veris*. For the second row *Anemone Honorine Jobert*, *Kriemhilde*, and *Whirlwind*, *Aquilegia canadensis*, *chrysantha alba* and *nivea grandiflora*, *Campanula calycanthema* in colors and *Medium*, *Chrysanthemum maximum* in varieties, *Coreopsis lanceolata*, peonies, hardy phlox, delphiniums. All these should be about two feet in height. For the third row you can select varieties that grow about three feet high of any of the foregoing. For the fourth row *Aconitum Fischeri*, *Cimicifuga racemosa*, *Bocconia cordata*, *boltonias*, *Digitalis gloxiniflora*, hollyhocks, *helianthus*, *Eupatorium purpureum*, *Hibiscus moscheutos*. These are good for the last row.

PROPAGATION

Those who do a big spring bedding business should now propagate *alternanthera*, *achyranthes*, *begonias*, *coleus*, *feverfew*, *heliotrope*, *double alyssum*, *Lobelia* Kathleen Mallard, *Perilla nankinensis*, etc. After they are rooted pot up all except the *alternantheras* which are better to be put in flats. The others can be grown on in order to furnish cuttings later for the next year's supply.

STEVIAS

Plants that are planted out should be lifted now and potted into 6 or 8-inch pots, but let them stand outside where they can be protected from any frost as it will make them more robust. When you have to take them in give them as cool a house as possible with lots of light and air.

John J. M. Farrell

Mr. Farrell's next note will be on the following: Care of Roses, Forcing Tulips, Hardy Phlox, Mignonette, Orchids, Smilax

 This year's
 tulip bulbs

Mention is made in our bulb trade notes this week of the fact that many tulip bulbs are tender-skinned this year and advising care in handling them. The weather is probably responsible largely for the conditions complained of but the question of soil has, as we understand it, much to do also with the matter. Tulips from the north of Holland where cabbages are grown and the soil is sandy do not show much of the defect mentioned, the skins being good and firm. Bulbs grown in the peat soil of southern Holland are the more likely to have cracked skins for they ripen later and a rainy spell at the ripening season, as was the case this year, finding them with a frail and tender skin, is liable to cause the trouble, which, however, is not at all serious if they are carefully handled. Certain varieties are known to all bulb experts to be thin-skinned, one of the worst being Pottebaker White which, no matter where it is grown, will crack its skin. We have heard it asserted that tulips from sand or clay soil make the best for forcing, but that for garden planting there is no advantage either way.

 "Killing
 with kindness"

Our news items from several sources this week seem to emphasize the truth that there is yet plenty to be learned and that our most cherished cultural methods and beliefs are often far from being sound. In the notes on the recent exhibition in Horticultural Hall, Boston, special mention is made of the fact that some of the finest fruit shown came from the far extremity of Cape Cod. Who ever imagined that this sandy strip of old Massachusetts had any exceptional qualifications as a peach growing country? Yet, there was the evidence, indisputable. Again, take *Adiantum Farleyense*, that pampered denizen of the sweltering stove house. One gardener has had the temerity to give it cool treatment and is consequently able to expose it in the most draughty spot in a cold hall for three days without showing any ill effects. "Killed with kindness" is the epitaph which might with exact truth be inscribed over the grave of many a misjudged acquisition. It is common knowledge that some of our most reliable garden plants were for a long period treated as greenhouse subjects. No doubt there are many things that would succeed better with less coddling than we have been giving them.

 Neglected
 details

The exhibition season is now in full swing and our columns for the next two months will, as in past seasons, teem with accounts of the triumphs, big and little, of ambitious rivals and accomplished experts in the art of growing and showing their productions. One great and almost universal fault in the reporting and recording of these affairs is the failure to state the principal points of merit and in many cases, to even give the name of a winning variety. To make merely the barren statement that Mr. A. took first prize in the red

class or the blue class, as the case may be, may tend to please Mr. A., but, in fact, it is of no great interest to the majority of readers and is absolutely useless as a matter of information or education, which is or should be the great end and aim of a flower show. The correspondent is not the only one at fault always. Indeed, it is rarely that the judges trouble to fill in anything but a check-mark or brief word sufficient to identify on the record the winning exhibit. We think there is room for much improvement in this respect and feel sure that our readers would welcome the opportunity to learn something of the basis of award and the points which establish superiority in a new introduction or otherwise notable exhibit, even if the laboriously extended lists of second and third prize winners in the lesser classes, which very few care to read, should be crowded out thereby.

The public and pure seed

Whatever the loss and annoyance may amount to in the seedsman's business and peace of mind, in consequence of the widespread agitation over seed

inspection and purity legislation, it becomes evident that the indirect effect, thus far, is not wholly bad. No seed house with any self-respect has ever preferred to send out seed of inferior quality and where this has been done it has been because of the failings of the producer from whom he got his supply or of the unwillingness of his customers to pay a sufficient price to assure high quality. This latter was in a large degree due to ignorance, on the part of the public, of the facts as to seed quality and the consequences of planting low grade rubbish. Seedsmen are now greatly encouraged by the very evident awakening of the people to the situation and the increasing disposition to insist upon high quality and an acceptance of the fact that although it is going to cost more it is by far the cheapest in the end, a condition due in a large degree to the publicity given this subject in recent years. One unfortunate feature of the situation up to the present time is, however, the immunity allowed the farmers in that in most of the pure seed laws they are exempted from the restrictions placed upon the dealers and can and do still continue to handle large quantities of the most miserable grade of uncleaned, weedy and immature seed. Let us hope that the time is now near at hand when, backed up by a discriminating public, the dealer may be enabled to make it so unprofitable and uncomfortable for the rubbish-producing class that they will be exterminated, regardless of the special leniency so often accorded them, for obvious reasons, by those in authority.

A Correction

In our editorial notes last week an error stole through which should be corrected. *Buddleia "amabilis"* should have been *Buddleia asiatica*. This is a white flowered species and tender. It is admirably adapted in all respects for use as a florists' flower and would take, we believe in the cut flower markets.

Lilies in a Chinese Garden

The accompanying picture shows *Lilium leucanthum* growing in the garden of Dr. Davidson at Chentu, Western China, from bulbs presented by E. H. Wilson, the famous plant collector, in the autumn of 1910.

To this eminent physician and missionary Mr. Wilson is undoubtedly indebted for the saving of his leg after his unfortunate accident in the Chinese mountain passes in September, 1910.

Deutzia discolor major

Our cover illustration depicts one of the many new *Deutzias* recently introduced from China through E. H. Wilson, and one of the largest-flowered members of the family, the individual flowers measuring an inch and a half or more in diameter and borne in very large axillary and terminal clusters. The plant grows to a height of five or six feet and is broader than it is high. It flowers in June and gives every evidence of being quite hardy in the vicinity of Boston. Nurserymen who propose to be in line to supply the demand which is sure to materialize as soon as these new Chinese introductions become known should be on the alert to secure stock at the earliest possible opportunity. They can be seen and studied in their season at the Arnold Arboretum.

TO OUR READERS.

You, no doubt, enjoy and profit by what your fellow horticulturists have contributed to these columns, of their views and experience. Reciprocity is popular now-a-days, and the old adage, "One good turn deserves another" always holds true. So bear in mind that you can do something in return for the benefits you enjoy through the liberal spirit displayed by others, by telling them your experiences as they have given you theirs. Our columns are open always for that purpose.

GARDEN NOTES FROM TIDE-WATER VIRGINIA.

With the increasing prosperity of the south, more attention is being paid to garden making. This is especially true of the section about Norfolk, Va. In this tide-water plain with the tall cypresses growing in from Hampton Roads and Elizabeth River with a sky line of southern pines in the distance, is a setting for the garden beautiful.

When tide-water Virginia learns to depend on the flora of her woods and uses it as Olmsted and Elliot have used the native flora of New England in the parks about Boston, and a Professor Sargent gathers from the four corners of the globe the flora adapted to this region, Norfolk will be to the plant lover one of the most interesting cities on the Atlantic coast.

One does not realize how rich the garden flora of this section is until he has spent a year or two studying it. There is not a month in the year that flowers cannot be found in the open garden. The roses bloom until late in December to commence again in April and continue at intervals throughout the summer. In January and February the winter jasmine, (*Jasminum nudiflorum*) brightens the garden with its yellow flowers, and the bush honeysuckle (*Lonicera fragrantissima*) fills the air with its fragrance. Before these have ceased to bloom the rosemary lifts its spikes of lavender flowers above the dark silvery gray leaves, which give off that delightful aroma that reminds one of a well-filled linen chest of long ago. Although one may feel the need of furs and overcoats in the damp sea air, there is not a day from November until April that in some sheltered nook the purple violet does not lift its head with a promise of the spring days when the yellow and brown wall-flower will vie with the narcissus and primrose in transforming the garden into a mass of golden bloom.

And if one goes to the woods in these sunny spring days he will find the air fragrant with the southern jasmine, (*Gelsemium sempervirens*) which adapts itself so readily to the garden and is not only beautiful when in flower but adds to the winter landscape with its garlands of bronze-green leaves and clusters of flower buds ready to burst into yellow bells with the first warm days of spring.

For backgrounds there are many broad-leaved evergreens to choose from

both indigenous and exotic. The native holly when left untrimmed becomes a small tree. At the edge of the salt marshes the bays with their long fragrant leaves are almost as beautiful as the magnolia. Among the sand dunes we see the live oak with its twisted and fantastic branches and the beautiful yupon (*Ilex vomitoria*) with its rose red berries. I never shall forget the first time I saw this shrub used as a window decoration in Norfolk, and the trip out into the country on the day before Christmas to see it growing in the yard where it had been planted a hundred years before, not only as a thing of beauty but that its leaves might be used for tea. The sight of the glossy green leaves always reminds me of the good-natured colored folks, returning, from town, their baskets filled with a heterogeneous mixture of toys and groceries for the Christmas holidays.

The laurel-leaved cherry, (*Lauro-cerasus caroliniana*), with its dark green lustrous foliage and racemes of white flowers in earliest spring is a

of the shrubs that can be used to produce evergreen effects, and give a continual bloom during the summer. As it roots so readily one can have them by the hundreds, and in a year's time have plants larger than camellias that have been growing for four or five years.

There are numbers of broad-leaved evergreen shrubs that are but little known, among them the evergreen privets from China and Japan, with their shining green leaves and spikes of cream white flowers in June and July that remind one of the white lilacs of New England. *Viburnum tinus* attains the height of ten feet. The flowers are creamy white, produced from February to April, but the flower buds are bright pink and begin to show in November, making the shrub conspicuous throughout the winter. And the beautiful *Abelia grandiflora* blooms from June until November, when the leaves become the most beautiful shades of dark green bronze.

Of the exotic deciduous shrubs the crape myrtle (*Lagerstroemia indica*)

GROUNDSEL ON HAMPTON CREEK IN DECEMBER

small tree of great beauty at all seasons and a fit companion for two beautiful evergreens from Japan, the holly-leaved olive, (*Osmanthus aquifolium*) with its fragrant white flowers in January and the loquat (*Eriobotrya japonica*) with its long leathery leaves and great bunches of fragrant flowers which bloom at intervals throughout the winter; although the fruit does not mature as far north as Virginia it is a small tree that has its place in the backgrounds of a shrubby border. The queen of all the broad-leaved evergreens of the south (*Magnolia grandiflora*), with its great white wax-like blossoms in June is quite at home in this tide-water plain.

Of the evergreen flowering shrubs, none can rival the *Camellia japonica* when in March and April a good sized specimen is laden with hundreds of waxy blossoms and the cape jasmine (*Gardenia florida*), soon follows to continue until frost with its fragrant creamy white flowers. It is only in the coldest winters that the oleander is cut to the ground. Although it does not attain the size that it does farther south, it should be considered as one

is one of the most beautiful as well as one of the most common. It is hard to imagine a plant more beautiful than this shrub when in bloom from July to October. There is a great variation in color from white to shades of purple red but if care is taken in selection fine color effects can be produced, as some of the flowers are of the most exquisite shades of pink. As far as I know there are no named varieties, the only division in the nursery catalogues being *L. alba* and *L. rubra*. If one orders ten plants of *L. rubra* from a nursery, he may get anything from the most offensive shades of purple to the most beautiful shades of pink. I have found the most satisfactory way is to tag the plants I want when in bloom or to take suckers from an old shrub of the desired shade. As plants bloom when small the latter method is quite satisfactory.

One of the most conspicuous shrubs in May is the pomegranate with its double scarlet flowers like great carnations against the dark glossy green leaves. Care must be taken not to set them near the crape myrtle as they continue to bloom for some time

AMERICAN HOLLY

and a worse combination of colors cannot be imagined than the scarlet of the pomegranate and rose shades of the crape myrtle. There are both yellow and white varieties of the pomegranate also a single scarlet variety that to me is fully as pleasing as the double although it does not seem to be as free a bloomer. A number of shrubs that are half hardy farther north are especially adapted to this section. Varieties of spirea, deutzia and forsythia that are often killed to the ground, grow to giants in this climate and are among the most useful spring-flowering shrubs.

Of the native shrubs the groundsel (*Baccharis halimifolia*) also hardy north, is one of the most showy for autumn effects with its white feathery appendages to the seeds. Like many of our American shrubs it is neglected for those that are not nearly as good. It will grow in the wettest or driest ground and when used against a background of dark foliage in large masses in a border shrubbery, is especially effective. It is dioecious and a few of the staminate plants should be set with the pistillate. Another effective autumn shrub that is worthy of introduction to the garden is the bush mulberry (*Callicarpa americana*). Its pink flowers in midsummer are inconspicuous, but the violet purple berries which follow and last until early winter are a sight not to be forgotten, as the graceful sprays literally bend with fruit.

CLARENCE FOWLER.

Fortress Monroe, Va.

TWO LONG ISLAND BULB FARMS.

E. S. Miller.

E. S. Miller, Wading River, N. Y., is an address familiar to most readers of HORTICULTURE'S advertising columns as well as to all the leading seed and bulb interests generally for the past few years. Mr. Miller gave up his position at Floral Park where he had been for many years, nine years ago, and started the enterprise in his native place, Wading River, 70 miles east of New York City, on the Long Island railroad. He has thirty acres under cultivation, of which fully one-half is devoted to gladioli. In this specialty seedling raising is his great hobby, and one of the best evidences of his success in this line is the fine variety recently introduced by Peter Henderson & Co., under the name of Fascination. At the present time he has more than 300 selected seedlings under number the product of several generations of selections from the progeny of the finest named varieties of American and foreign origin. The three sections—*Gandavensis*, *Lemoinei* and *Childsi* are kept apart and distinct in the fields. In the true *Childsi* no yellows have thus far appeared, and whites are rare, but in the other sections both these colors are freely produced. Mr. Miller has one white of which he has great hopes. It is practically pure white and stays so, showing none of the pink tint with age which is found in *Augusta* and other standard whites and has from five to eight flowers open at a time.

Mr. Miller does not regard the cutting of the flower stalks as necessary to the welfare of the bulbs unless they start to set seed pods. All such are

amputated as soon as there is evidence of seeding.

A large space is given up to seedlings and young planting stock of lilies which, as is generally known, are a leading specialty with Mr. Miller. Of *tenuifolium* there are no less than 150,000 and of *Henryi* 50,000. *Elegans* is represented by many varieties, few of which can equal for sturdiness and beauty the variety Leonard Joerg which was raised and named by Hallock. Peter Barr is a recent *elegans* introduction which is still high in price. It is an orange yellow, brighter in color than any other yellow *elegans* except *Alice Wilson* which is a very weak grower. *Lilium davuricum* is fine as is also *Thunbergii Sanguineum*. Marhan is about all dead from disease, which is greatly to be regretted, as this is a very fine cross between *Martagon* and *Hansonii* with the color and odor of the former and the other qualities as in the latter. *Hansonii* is in the same predicament, being badly killed out by the fungous disease, a remedy for which is still unfound. Between the two white speciosums—*Kraetzerei* and *praecox*, Mr. Miller states that he sees no difference except in the color of the anthers and he agrees with the views of A. S. Burns, Jr., as expressed in these columns recently as to the difficulty of distinguishing between *straight rubrum* and "*magnificum*" as found in commercial stocks.

The present has been a bad season for lilies and there has been a very poor set of seed. Replying to a question Mr. Miller stated that he could see no difference in any respect between lilies propagated by offsets and those raised from seed.

Of callas there is a wide assortment—seedlings and otherwise. *Elliotiana*—which is still the best—Mr. Roosevelt, *Pentlandii* and other yellows are seen in quantity. *C. Rehmannii* is a very pretty little rosy pink flowered one. *Hastata* as seen here is diseased and not worth growing. Several oxalises make a gorgeous effect in long solid rows, *O. Deippi rosea*, with nodding pink flowers borne high above the massed foliage having the effect of a good bedding begonia. This with *O. lasandria* are valuable subjects for use in long borders especially on large estates.

Mr. Miller confesses to being a sort of "crank" on odd things, and devotes considerable room and time to a variety of bulbous material not often seen in nurseries. *Clidanthus fragrans*, which might be described as a yellow zephyranthes, but it does not flower very freely. There is also *Zephyranthes sulphurea*. *Z. candida* blooms profusely all summer until frost. Its hardiness is not yet proven, but as a hardy bulb it would be a great acquisition.

John Lewis Childs.

Although far removed from the well-known headquarters at Floral Park and the great central market of New York, John Lewis Childs' big new establishment at Flowerfield, Long Island, is well worthy of a visit and will fully repay the visitor for the time and trouble taken. It is under the charge of Leonard Joerg who has been eighteen years in the employ of Mr. Childs, and was previously with Hallock, Son & Thorpe for nineteen

years, and is looked upon as the best informed man on the gladiolus in this country.

Flowerfield is a seemingly boundless expanse of color; field after field all aglow with bloom. Mr. Joerg says "at least 150 acres of bulb plantations, mainly gladioli." After a drive around and among them one is not disposed to question his estimate. There are 800 acres all told in this vast flower and vegetable farm which was acquired only two years ago, the first planting being done a year ago last spring. A prodigious amount of work has been done within that brief time—clearing, plowing, planting, manuring, harvesting, road building, etc., and is still being prosecuted. Fifty-four men, Mr. Joerg says, is the full quota of help, which seems almost insignificant when the extent of territory covered and the excellent condition of everything are considered. Eight men are kept busy most of the time during the flowering season, cutting gladiolus stalks and getting them ready for shipment. From fifteen to twenty-four thousand spikes are shipped daily—mostly to New York. They are practically a "by-product," as the plants are grown for the bulbs, but the net income from this item averages one hundred dollars a day during the blooming season. The spikes are cut as soon as the lower buds are ready to open and before any flowers have expanded. The removal of the spikes is regarded as beneficial to the bulbs.

The new buildings on the place are an ornamental railroad station and a storage shed, 90x200, with cement walls and floor and a basement 40x90. Here the cut flowers are packed and shipped and extensive storage facilities for bulbs are provided. A glass-roofed building for storage and spring starting of roots such as cannas, etc., is now being erected. In the gladiolus section over 1100 named varieties are under cultivation. Many acres are also devoted to cannas, dahlias, montbretias, zephyranthes, crinum, tritomas, tigridias, ismenes, irises, etc. The culture of squash, cabbage, melons, lettuce, corn and many other vegetable crops for seed production is also extensively carried on.

AT WABAN CONSERVATORIES.

Alexander Montgomery is very much pleased with the performance thus far of his seedling rose, *Virginia Burrage*, which might be described as an improved *Wellesley*, having all the satiny pink lustre of that variety without its defect of excessive thorn production and being entirely free from "bull-heads." A quantity which will be immediately appreciated by the rose growing fraternity is the absence of any necessity for "pinching," all the growths being long and straight, and thus much labor and fully three weeks' time in bringing out a crop are saved. Mr. Montgomery has other seedlings going through their lessons which will be heard from later on. There is a double *Richmond* sport which should find a welcome when it is disseminated. Among the recent introductions the most charming of all is *Lady Hillingdon*. As grown here it is worth going a long way to see.

CLUBS AND SOCIETIES

MASSACHUSETTS HORTICULTURAL SOCIETY.

The general autumn exhibition of this Society was held at Horticultural Hall, Boston, on September 8, 9 and 10. It was extensive and fairly good as to dahlias, grand as to gladioli and magnificent in extent and quality of the fruit and vegetable displays.

The finest feature in the hall was the collection of orchard-house fruits shown by James Marlborough, gardener to Thos. E. Proctor, Topsfield, Mass. This superb exhibit of the gardeners' skill included, besides cut grapes and other fruits, potted trees of apple, pear and plum bearing ripe fruit. The tender grapes included Muscat of Alexandria, Mrs. Pearson, Golden Queen, Chasselas, Napoleon and others in whites, and Black Hamburgh, Black Alicante, Gros Maroc, Appley Towers, etc., in black. A gold medal was given this display. All the fruit classes were well filled with well-grown specimens and attracted much attention. Some of the finest apples and peaches ever shown here came from the extreme end of Cape Cod, where, a few years ago, it would have been thought impossible to grow peaches. Reverting to Mr. Proctor's display, special mention should be made of the *Adiantum Farleyense* plants, which Mr. Marlborough used as a decorative adjunct. There were half a dozen specimens in 12-inch pots which were as luxuriant and beautiful as any grown under the high temperature culture usually followed, but which stood without being affected in the slightest degree by the cold draughts from the doors near which they were located because of the cool temperature in which they had been grown.

The dahlias were as usual shown in great numbers, but there were few novelties and little evidence of advancement over existing varieties. The quality throughout was not remarkable as compared with the displays of recent years, the peculiar weather conditions having been, no doubt, responsible for this fact. The principal prizes were won by J. K. Alexander, W. D. Hathaway, W. P. Lothrop, Mrs. L. A. Towle, Forbes & Keith and Mrs. L. M. Towle. Certificates of merit were given to J. H. Flint for seedling Decorative Dorothy Flint and Forbes & Keith, seedling Cactus Rosy Pink; honorable mention to Geo. B. Gill for seedling Cactus Mrs. E. M. Gill and J. H. Flint for seedling Decorative Hetta.

B. Hammond Tracy showed a remarkably large and splendidly grown group of gladioli. The arrangement, which we believe was the work of Mrs. Tracy, was artistic and beautiful and the entire display was well worthy of the silver medal bestowed. Other awards were: Certificate of merit to Walter Hunnewell for *Laelio-Cattleya Gottoiana* var. *Wellesleyensis*; honorable mention to Mrs. Frederick Ayer for *Cibotium Schiedei*, R. & J. Farquhar & Co. for exhibit of lilies and B. Hammond Tracy for *Gladiolus primulinus*. Also a certificate of merit to James S. Bache for seedling tomato, *Bache Abundance*.

The Farquhar exhibit comprised

mainly *Lilium auratum*, Henryi and leucanthum. It might be well to state here that this last named lily has been known both as leucanthum and leucanthemum. It has now been decided by the proper authorities that leucanthum is the better form, and that name will consequently be used henceforth.

Special Vegetable Exhibition.

On September 21-24, inclusive, an extensive vegetable exhibition will be held at Horticultural Hall. In addition to the premiums offered by the Massachusetts Horticultural Society, \$500 has been contributed in prizes by the Boston Market Gardeners' Association. The prizes for collection of twenty kinds of vegetables are \$100, \$60, \$40 and in this, as in other notable classes, lively competition is assured.

CHICAGO FLORISTS' CLUB.

The regular monthly meeting of the Chicago Florists' Club was held Thursday, September 7th, at the Union Restaurant, President Philpott in the chair. There was a large attendance and nine applications for membership were filed as follows: Dominick Freres, Paul Weiss, Arthur Schmidt, Henry Meyer, Paul Amling, Wm. Berschof, Walter Amling, Wm. Lorman, W. H. Mann.

Allie Zeck, chairman of the sports committee, reported that the new Bessinger alleys had been secured for the season and all further arrangements for the winter's bowling were left by vote of the club to the sports committee. A report of the Baltimore convention was made by Geo. Asmus, who also recommended a letter of thanks to the Baltimore Club. After some discussion it was voted that all committees for the entertainment of the S. A. F. in Chicago in 1912 should be appointed by the club president and read at the next meeting. A. T. Pyfer, A. Zeck, A. C. Kohlbrand, H. N. Bruns and E. C. Amling were appointed a committee to provide entertainment for the next meeting, October 5th, which will be in celebration of the 25th anniversary of the club, which occurs November 3. It was also voted to have a banquet, October 5th, which should include the ladies. C. W. Johnson was appointed manager of the Chrysanthemum Show to be held by the club on November 2nd.

GARDENERS' AND FLORISTS' CLUB OF BOSTON.

The next regular meeting of the Club will be held at Horticultural Hall, Tuesday evening, September 19, at 7.30 o'clock. There will be no regular speaker, but several members, including Thomas Pegler, T. J. Grey and W. J. Collins will give short accounts of recent European trips. As there is considerable business of importance to transact the hour set for the meeting is earlier than usual.

It is desired to have a short session and join with the Vegetable Growers' Association of America whose convention opens at Horticultural Hall the same evening, and which the Club is invited to attend. It is hoped there will be a large attendance at this meeting. W. N. CRAIG, Sec.

NEW YORK FLORISTS' CLUB.

The opening meeting of the New York Florists' Club for the season was held on Monday evening, Sept. 11, at the Grand Opera House and was attended by a representative assemblage of about sixty members. The recent death of their fellow member, John Birnie, was a leading topic. President Nugent spoke in kindly vein in memory of this useful and loyal man and was followed by C. H. Totty who read the report of the committee appointed to present resolutions, the members standing during the reading. Messrs. Berry, Bunyard, Weathered and others added words of tribute and it was voted to have a copy of the resolutions engrossed and sent to Mrs. Birnie. J. Austin Shaw read resolutions on the death of Charles R. Armitage and H. A. Bunyard on the death of the little daughter of Charles Schenck.

Resolutions of thanks were passed to the Society of American Florists and the Gardeners' and Florists' Club of Baltimore for kindness and sympathy displayed on the occasion of Mr. Birnie's death and to the latter club for hospitable entertainment extended throughout the convention. A motion was passed authorizing the exhibition committee to purchase tables and vases for the club's use.

F. H. Traendly reported for the transportation committee, mentioning particularly the courtesies extended by the B. & O. R. R. on the Baltimore trip.

The question of the next National Flower Show was brought up by F. H. Traendly, with the statement that the New Grand Central Palace will be the finest hall in the country for such an exhibition, and recommending that the New York Florists' Club get in first with an invitation to the S. A. F. Flower Show committee to hold the next show in New York in 1913. R. M. Schultz, C. B. Weathered, W. C. Rickards, H. A. Bunyard, R. E. Berry, W. J. Elliott and others followed with enthusiastic approval of the proposition, and a motion extending the invitation accordingly offered by C. H. Totty was unanimously carried.

On the exhibition tables were 33 named varieties of gladioli from John Lewis Childs, conspicuous among which were the following varieties: Cardinal, Wm. Falconer, Scribe, Baron Hulot, Blanche, Spot, America, Dawn, Attraction, I. S. Hendrickson, Dorothy, Burnham, Princeps, Sulphur King, Sunshine, Triton and Pfizer. From E. S. Miller came Fascination, White 88 and several other seedling gems under number. From Frank Banning, Kinsman, O. there were Panama and No. 1900 a fine red seedling. Wm. Tricker showed pot plants of *Vinca minor aurea*. The awards committee gave cultural certificates to Messrs. Childs and Banning and vote of thanks to the others. As a mark of respect to the late John Birnie an early adjournment was taken.

NEW JERSEY FLORICULTURAL SOCIETY.

After an intermission of two months the New Jersey Floricultural Society held their regular monthly meeting, Friday evening, September 8th, in Lindsley Hall, Orange. This being gladiolus night, John Lewis Childs, Floral Park, L. I., offered a silver cup for the best 24 spikes of gladiolus, four or more varieties, which was won by Charles Hathaway, gardener Max Schneider. A. B. Jenkins, gardener Fritz Berglund was second. William Tricker was present with a fine collection of outdoor roses, *Buddleia variabilis magnifica*, and *vinca minor aurea* which attracted a great deal of attention.

John R. Le Count of Maplewood, N. J., donated a handsome silver cup. It will more than likely be competed for at the chrysanthemum show in November. The Society will hold their annual dahlia show afternoon and evening, September 30th.

The judges, George B. Wilson, Charles W. Ashmead and Arthur T. Caparn made the following awards:

Brasso-Laelia Veitchii, Lager & Hurrell, 92 points; *Dendrobium formosum*, Thomas Jones, 85; Dahlias, Fritz Berglund, 70; Asters, Max Schneider, 86. Cultural certificates to Lager & Hurrell for orchids, and Max Schneider for fruit. First class certificate to Wm. Tricker for outdoor roses and rare plants. WM. REID, Sec'y.

Orange, N. J.

WESTCHESTER AND FAIRFIELD HORTICULTURAL SOCIETY.

At the meeting on Friday evening, September 8, the exhibition committee reported on final schedule for the fall show and have provided many classes for the large and small growers with substantial prizes for both. Three honorary and two active members were elected and eight propositions accepted. B. W. Popp gave interesting talk on his experience with the culture of dahlias. J. M. Brown, honorary member, entertained with a review of his recent three months' trip through Great Britain. M. C. Ebel of Madison, N. J., was present and spoke about the National Gardeners' Association and Morris County Horticultural Society exhibition this fall.

The judges awarded cultural certificates to P. W. Popp and A. Whitlaw for dahlia displays, vote of thanks for a seedling *Lælio-Cattleya* from Carrillo & Baldwin and highly commended a display of apples from Alex Geddes.

J. B. McARDLE, Sec'y.

THE BERNARDSVILLE SHOW.

The second annual exhibition given by the Horticultural and Agricultural Society in the Auditorium, September 6-7, was a complete success in every way. Competition was very keen, particularly in the classes for cut flowers and vegetables. The judges, Messrs. Arthur Herrington of Madison, Jos. O'Brien of Mount Kisco, Wm. Walls of Katonah, Robert Seymour of Bernardsville, gave entire satisfaction. The numerous entries made the work of judging hard and the excellent quality of both vegetables and fruit

was very gratifying, especially when the dry season is considered.

A feature of the exhibition was samples of field corn of the Long-fellow variety, with stalks 14 feet long carrying ears that measured 16 inches in length, grown by Wm. Elias, superintendent for M. P. Bliss.

The centre of attraction in the hall was a mound of *Dendrobium Sanderæ* with foliage plants, a splendid group staged by Wm. Duckham, gardener at the James estate, Madison, and an easy winner for the prize offered by Lord & Burnham Co.—a gold watch.

M. Linton, gardener to M. P. Bliss, was first in cut flowers with a fine collection of lilies, dahlias and annuals. W. A. Manda, South Orange, N. J., staged a choice collection of foliage plants, not for competition.

CINCINNATI FLORISTS' SOCIETY.

A well-attended meeting of the Florists' Society was held on Monday at the club rooms in the Flower Market. An invitation from the Chicago Florists' Club was referred to the secretary and the secretary of the bowling club to find out the number of members who would attend and see if a bowling team could be obtained for a tournament there. The Flower Show committee reported that they had everything well in hand and stated that they would like to know if possible, what prospective exhibitors intend to stage. Immediately before adjournment Al. Heckman on behalf of himself and the other four men, viz., C. E. Critchell, Capt. Wm. Schumann, Al. Horning and R. C. Witterstaetter, who formed the team that represented Cincinnati at the recent convention at Baltimore, presented Chas. H. Hoffmeister with a silver shaving set as a token of their appreciation for his part in getting the team together to go East and for his successful management of the outing and bowling the past year.

CLUB AND SOCIETY NOTES.

On Friday, September 8, Christopher Clarke of Northampton entertained a party of members of the Eastern Branch of the American Association of Park Superintendents at the Summit House on top of Mt. Holyoke, Mass.

The annual meeting of the Bar Harbor Horticultural Society was held Thursday evening, Sept. 7, in the Main street store of the Mt. Desert Nurseries, when the following directors were chosen for the coming year: Hon. Francis Burton Harrison, John H. Stalford, Clarence E. Dow, Edward Kirk and A. E. Chilman. At the meeting of the board of directors, held immediately afterwards, the following officers were elected: Hon. Francis Burton Harrison, president; Louis B. McCagg, first vice-president; William Miller, second vice-president; William T. Burton, third vice-president; Charles Shand, recording secretary; Clifford F. Came, financial secretary; William T. Burton, treasurer; and John H. Stalford, sergeant-at-arms. The reports of the officers and standing committees were all very satisfactory and showed an excellent condition of the affairs of the association. There are now 160 members in good standing.

DURING RECESS.

Chicago Bowlers.

The Chicago Florists will open the bowling season Sept. 27th, at the new Bensinger's Alleys, 29 W. Randolph street. The new place is very desirable, having a seating capacity of 500.

New York Bowlers.

On Monday afternoon, September 11, previous to the meeting of the New York Florists' Club the following scores were recorded:

Manda,	144	176	Ebel,	129	125
Scott,	118	126	Roehrs,	112	106
A. Rickards,	147	109	Shaw,	...	109
Chadwick,	177	158			

St. Louis Bowlers.

Reports have been making the rounds that a bowling league will be organized composed of the employees of the four wholesale houses and the four bosses, Messrs. Kuehn, Smith, Berning and Augermuller will be asked to donate prizes and assist them in organizing the teams. Those eligible are: Will Ossick, G. Schriefer, P. Patton, Al. Gums, Arthur Meyer, H. Schlechter, Fred. Alves, F. Windler, Otto Bruening, Oscar Kuehn and Wm. Mitthoefer. This will promote good fellowship and a pleasant time at least one night each week.

Bar Harbor Outing.

The annual field day of the Bar Harbor (Me.) Horticultural Society was held on Sept. 5, at Robin Hood Park and there was a big attendance of gardeners and their wives and families. This event has been a regular one looked forward to with expectation by the club members and everybody was out for a good time. A programme of all sorts of sports was arranged and the speedy as well as the muscular had an opportunity of proving their prowess. Last year the sports were held at Eden, but this year it was decided to hold the affair a little nearer home.

ST. LOUIS NOTES.

Alex Johnson, the Wellston florist, has added two new greenhouses to his already large plant. He is using his cut at his Wellston retail store.

Miss Matilda Meinhardt has returned from her summer trip in Europe. The Ladies' Home Circle of which she is secretary, met in her honor at Chautauqua, Ill., on Tuesday, Sept. 12.

A young man by the name of E. R. Methudy reports that he will start to build a greenhouse plant on his 65-acre ground in St. Louis County with at least 20,000 feet of glass for a starter. Mr. Methudy's present address is 5943 Eastern Ave.

Andrew Frick, foreman at the C. Young & Sons' greenhouse plant on Waterman Ave., shot and killed himself and wife one day last week. It is said that he was crazed by the heat. They leave five children. They came here from Paducah, Ky., a few years ago.

Harry Young & Son will open a retail flower store at 4651 Maryland Ave. Mr. Young was until recently connected with the firm of C. Young & Sons at the greenhouses. He is treasurer of the St. Louis Horticultural Society and well-known in local trade circles.

DECORATIVE STOCK AT DREER'S.

It having been whispered that there were many new and interesting things to be seen at Dreer's that the readers of HORTICULTURE would be glad to hear about, we put a pedometer in our jeans, took Sawbones Lane along as a germ protector, and tackled the job. After six hours of strenuous work, tagging after Mr. Betz, the pedometer burst, and the doctor had arrived at the saturation point. One of the first vistas to greet us was a block of fifty thousand *Areca lutescens* three plants to a pot a bigger one in the center. It developed in the course of conversation that the best demand for areca is in the southern states. It seems to fit conditions down there better than any other variety, but it is not so popular in the north as formerly.

A good idea of the relative importance of *Kentia Belmoreana* and *K. Forsteriana* may be gleaned from the fact that here we find the former in three-inch pots two million strong, whereas the latter is only grown about one-eighth as many, or one-quarter million. *Belmoreana* is the popular palm idol of the day, and a close second is the dainty *Cocos Weddelliana*, a block of which covering some twelve thousand square feet of space, was a sight to make one dance with pure joy. Like all the palms at Dreer's these are clean foliaged, shiny and perfect. Last year's seed came up well, quite a contrast to two years ago, when, out of a lot of two hundred thousand seeds, only seventy-five plants resulted. The regular expectation is from sixty-five to seventy per cent. It is surmised that the trouble two years ago lay with the unconscionable scoundrels in Buenos Ayres, shipping old seed; or else that the seed got damaged on the steamer. The Dreers have one block of three hundred thousand this year (in addition to the stock mentioned above) being grown along, and strictly reserved as a nucleus for next year's sales.

Now come eight more houses—a vista of *Belmoreana*, *Forsteriana* and *lutescens*—six, seven, nine-inch, many in tubs—they look better in tubs although they don't seem to cost any more. We saw some nine-inch *Forsteriana* with a fine spread and good finish, for only four dollars. Again, as showing how values go, we saw splendid arecas in seven-inch pots for two dollars that would appeal to the ordinary observer as easily worth five. And there are still other houses of palms, big specimens—the ten to twenty-five dollar kinds.

Now we move out of the palm groves and strike into other scenes, the first being something we can't see the sense of until it is carefully explained to us, an acre or so of roses in pots, big plants, 2-year, 3-year or as maybe. But why under glass? Why not out in the open field, getting ripened up? The explanation that they can be better handled; that they are moved outside by and by and get frozen, and then come back again under glass for spring sales may be all right; but to our dense understanding there seems something more to be explained. There are all kinds of them: Hybrid Teas, Bourbons,

Ramblers, Remontants; and we get a nice bunch of bloom to take home on the train. But we are not at all satisfied in our own minds that we have this thing down fine. One must dig sometimes and be even rude in questioning to get anywhere. We saw our old friend *Gloire de Dijon* and are told that this one does well here as an outdoor summer rose, but that *Marechal Neil* under similar conditions is no good.

Pot-grown *Hiawatha*, *Dorothy Perkins* and all the other popular Rambler varieties are here in trained specimens, four to eight feet, and in all shapes. We can readily understand the reason for these being in pots and in frames, as they are obviously intended for winter and Easter forcing and are no doubt much better than outdoor stock for that purpose.

We glance in passing at a block of fifteen thousand thrifty giant-flowering cyclamen under slats, that are being grown on for Christmas. They are Dreer's own strain seed saved from selected plants—the kind that George D. Clark would describe perhaps as the "unsurpassable."

The *Araucaria* department is partly in the open—that is, the structures are not greenhouses but composed of lath giving partial shade and plenty of air; 75,000 in one block—*excelsa*, *excelsa glauca*, *robusta compacta* and *plumosus*. We are invited to pick out which we would prefer as between *robusta* and *plumosus* and were unlucky enough to prefer the wrong one. *Plumosus* is the deeper green, while we preferred the lighter green of *robusta* we were assured that that is not the general verdict—just the opposite, *plumosus* being by far the best seller and comparatively scarce on that account.

Camellia japonica—a nice lot well set with buds. This old favorite of fifty years ago is regaining some of its ancient popularity, and the demand the past few seasons has been quite considerable. *Begonia Duke Zeppelin* and *Lafayette* are flowering profusely in frames at present. They are the leftovers of these magnificent bedding varieties from spring sales and are making fine stock for next season.

Now we come to a few frames of ferns that are the special pride of James Clark, the fern expert.

Todea Africana is not new, but a species whose value as a house plant has not until recently been recognized. It is especially pretty as here seen in six-inch pans as a table fern, of a rich, deep green color, and when produced in quantity should also prove valuable as a dish-fern in small sizes. *Scolopendrium officinarum undulatum* is a variety of the evergreen British Harts-tongue in which the foliage is deeply undulated or wavy. It is a favorite in a shady corner of the rockery and perfectly hardy but as grown here in four or five-inch pots, it should find a place among decorative ferns and will make a fine subject for window boxes for the winter in a protected position.

Dracena fragrans, *Massangeana*, and *Linden* show up in large blocks and in fine condition. *Cocos flexuosus* is a very graceful plant. There is considerable demand for it for decorative purposes and it is grown here quite extensively. This variety and *plumosus* are used in Florida and California for outdoor planting. *Kentia Sandariana* we find in limited quantity.

This is a dwarf grower of elegant and graceful habit. Beautiful bright green. Rather high-priced as yet but desirable as a novelty where something extra choice is wanted.

Returning to the fern kingdom, passing a house of *Adiantum Farleyense* we now come to the sensation of the visit which our guides have evidently been holding back until the last minute—*Adiantum Farleyense*, *Glory of Moordrecht*. The despair of the fern growers of the world heretofore has been to get *Farleyense* to seed. How this clever Dutchman at Moordrecht managed to find one that did—nobody knows. We compared *Glory* with *Farleyense* in all stages and it is absolutely the same—only it gives fertile spores, and that is a fact of immense importance. We can now have this recognized aristocrat of the fern family by the million. The first importation of plants received at Dreer's last summer seeded nicely and by next spring they will have at least twenty thousand young plants out of one small batch. This variety is known as the *Glory Fern* in London and other places (*Adiantum Farleyense gloriosa*) but it is the same thing—*Glory of Moordrecht*. All the good things that have been said of it we believe to be quite true and well authenticated by Mr. Clark and other fern experts. The *Glory of Moordrecht* is undoubtedly the fern sensation of the day. The sporty *Nephrolepis* has held the center of the stage these many years, but the new and brilliant star outshines it in all directions.

Another sensational new thing—only in a slightly lesser degree than the *Glory Fern*—is the *Cyrtomium Rochfordianum*, a crested form of the old favorite, "Holly Fern." Last spring what few plants were to offer in 8-inch pots were quickly disposed of at \$5 each and many more could have been sold. The pinnæ are deeply cut and undulated and the color is also much deeper and glossier. It is excellent, not only for fern pans but also for specimens. We understand that by the 1st of November a splendid batch will be ready in six-inch pots that can be offered as low as a dollar each. Of *Cibotium Schiedei* here there must be nearly an acre. We never saw so many of this magnificent decorative fern together before and they were worth going a long way to see.

Ananas sativa variegata is a name easily remembered—it sounds so like *Ananias*. Of course this is the variegated pine apple, and a splendid batch of several thousand plants are to be seen here. This pine apple in richness and variety of coloring far outshines *Pandanus Veitchii* and the only reason it has not been the leader was the higher price. But that is past now. Fine plants in from four to six-inch pots are offered at from 50 cents to \$1.50 this year.

Many more things we saw in ferns and foliage plants—*alocassias*, *marantas* and so forth, but our story is already long enough and we must regretfully bid good-bye to a most engrossing topic with which we could fill several numbers of HORTICULTURE. Peonies, phloxes and Japanese iris are now going out by the million. Our field days on these ought to have come earlier.

GEORGE C. WATSON.

Dreer's Imperial Japanese Iris

Our stock of these beautiful Japanese Iris is not only the most extensive in the country, but is also the largest assortment of home grown varieties offered and can be relied upon to be true to name and color.

September and October are the best months to plant. We supply strong liberal divisions of the most satisfactory planting size.

DOUBLE FLOWERING OR SIX PETELED JAPANESE IRIS

- No. 3 **Kosul-No-Iro.** Light violet with white veins.
 4 **Yomo-No-Umi.** A fine free flowering early double white.
 5 **Koki-No-Iro.** Rich royal-purple with white veinings.
 8 **Taihetaku.** Ten petals, crimson-purple with yellow centre.
 20 **Kuma-Funjin.** Silvery-white, with a broad border of magenta-llac veined with white.
 22 **Sano-Watashi.** White, with canary-yellow centre.
 24 **Gosetsu-Mai.** White, veined and traced throughout with aniline-blue.
 26 **Uchiu.** Bright purple with crimson sheen.
 44 **Yoshimo.** Very large flower; creamy-white, delicately veined with violet.
 47 **Renjo-No-Toma.** Petals peculiarly fluted, light violet with white halo and light veinings.
 49 **Wakamurasaki.** Crimson purple with dull lilac shadings at base of petals.
 57 **Hodai.** Silvery-gray, suffused and densely veined with violet purple.
 58 **Muna-Dsuru.** A fine, late flowering white.
 65 **Ho-O-Jo.** Rich velvety purple with crimson sheen.
 68 **Fuji-Mine.** White, veined with deep purple.
 69 **Waku-Hotel.** Pure white, veined throughout with purple; fine late flowering variety.
 71 **Geisho.** Eight to ten petals; bright crimson-purple with white veinings; full double flower.
 72 **Uji-No-Hotaru.** Bright violet-purple, shaded blue.
 91 **Kan-Kan.** White; densely veined with rich violet-purple.
 95 **Raiden.** White ground, densely dotted and blotched violet.
 105 **Nagano.** Rich violet purple, shaded with blue.
 108 **Shimosa.** White ground, minutely and densely spotted throughout with bright violet-purple.

SINGLE FLOWERING OR THREE-PETALED JAPANESE IRIS

- No. 1 **Iso-No-Nami.** Silvery white, veined with violet.
 2 **Tora-Odori.** White, faintly traced with violet.
 6 **Date-Dogu.** Rich violet purple with metallic sheen.
 11 **Hano-No-Nishiki.** Bright violet-purple, veined with white.
 12 **Shippo.** Light lilac; densely veined with purple.
 15 **Gekka-No-Nami.** A very early pure white.
 18 **Meiran.** White, densely marbled and veined with light violet.
 23 **Yedo-Kagami.** Magenta lilac, veined with white.
 43 **Shi-Un-Kyo.** Greyish white, deeply and densely veined and suffused with violet.
 62 **Misumoshito.** Violet purple, marbled with white.
 67 **Kigan-No-Misao.** A late flowering pure white.
 70 **Kimi-No-Megumi.** White, densely veined with purple; late-flowering variety.

- No. 73 **Shirataki.** Silvery-white, border of petals suffused with light Parma-violet.
 76 **Mine-No-Yuki.** White, veined and dotted throughout with violet-purple.
 77 **Yayaura.** White, occasionally marbled with light violet.
 80 **Bunbudo.** Bright violet-purple with darker veinings.
 82 **Ari-Ake.** Violet purple, marbled with white.
 96 **Tebotan.** White ground, with prominent violet-blue veinings.
 97 **Shiro-Fungen.** Light ground, suffused throughout with bluish-violet.
 98 **Osakazuki.** Light violet mauve with lilac shadings.
 99 **Komanyo.** Bright violet, shaded with blue, numerous white veins and markings.
 100 **Yomo-Zakuru.** Light ground color, densely veined and suffused reddish purple.

Price, any of the above named varieties, \$1.25 doz.; \$8.00 per 100; \$70.00 per 1000.
 Unnamed mixed varieties 85 cts. doz.; \$6.00 per 100; \$50.00 per 1000.

For the most Complete List of Hardy Perennial Plants as well as all other Seasonable Stock
 See our current Wholesale List issued September 1st.

HENRY A. DREER, Inc., 714 Chestnut Street, Philadelphia, Pa.

The above prices are intended for the trade only.

NEWS NOTES.

Des Moines, Iowa.—J. W. Rudebeck, 3523 University avenue, is no longer in business.

Melrose Highlands, Mass.—The Tuttle greenhouses have been purchased by Charles Rapp, who intends to make a specialty of carnations.

Fort Wayne, Ind.—A three-eighths interest in the greenhouse of Ernsberger & Moses has been purchased by Dale Moses. E. S. Moses will continue the management. This firm are

wholesale growers of flowers, cucumbers and lettuce.

Terre Haute, Ind.—The greenhouse property of Otto Heini has been purchased by Thos. Stevenson, who took possession August 31. Mr. Heini has accepted a position as superintendent of a section of fruit land at Hermiston, Ore., and has purchased land for raising apples.

Oakland, Cal.—While running his automobile at a high speed near Cornwall, endeavoring to deliver an order

on time, J. Campiano, florist, and his companion were thrown out by the breaking of a pin in the steering wheel. Neither was much hurt, but the flowers were not delivered.

Sheridan, Wyo.—A half acre tract of land on Beaver street near Pioneer Park has been purchased by the recently organized Sheridan Greenhouse Co., upon which they will erect a greenhouse plant. Additional ground for a nursery will be purchased later. The members of this firm are S. L. Caple and H. A. Loucks.

Obituary

Lewis Chase.

Lewis Chase one of the pioneer nurserymen of Rochester, N. Y., and head of Chase Brothers Company, died at his home on Sept. 7. Mr. Chase was born January 22, 1830, at Chase Mills, Me. He began the nursery business in Maine in 1857 with two brothers, Ethan A. and Martin Van B. Chase, and in 1868 he and his brother Ethan went to Rochester, leaving Martin in charge of the Maine establishment.

Here the two brothers were pioneers in the establishment of nurseries along with Patrick Barry and George Ellwanger, the original members of the firm of Ellwanger & Barry. In 1878 Martin Chase retired from business, leaving affairs of the firm to the management of his two brothers, who soon took out a certificate of incorporation under the firm name of Chase Brothers Company. At the time of the incorporation Lewis Chase was elected president of the company, which office he retained until his death. In 1895 Ethan Chase sold his interest in the firm and moved to California, leaving his brother, Lewis, as the only original member of the firm.

On September 6, 1855, at Sidney, Me. Mr. Chase married Edwina G. Dyer, who died May 5th of this year. Five children, two of whom died in infancy, were born to them. There are still living three children, Charles H. Chase, Mrs. William Pitkin and Mrs. Arthur H. Dudley, all of Rochester. Ten grandchildren and two great-grandchildren. Mr. Chase was a member of the American Pomological Society, American Association of Nurserymen and several other trade organizations.

Francis O. Canning.

Francis O. Canning, aged 44, of Villa Nova, Pa., died on Sept. 1st from accidental poisoning by mushrooms. They were gathered by one of the men employed under him and given to his wife to cook without his looking them over. Few gardeners knew the edible kinds better than he.

Deceased was born in England and served his apprenticeship in the gardens of the Duke of Rutland, Belvoir Castle, Grantham. He came to this country twenty-two years ago and for six years was in charge of the propagating and plant houses at Fairmount Park, Philadelphia, Pa. He was then engaged as superintendent of S. T. Bodine's estate at Villa Nova and after serving there some six or seven years was called to be Instructor of Horticulture at the Mass. Agricultural College, which position he held four years. He then returned to Villa Nova in the same capacity, as superintendent of Mr. Bodine's magnificent gardens and grounds until his untimely death. The funeral was held in the Church of the Redeemer, Bryn Mawr, and was largely attended. Interment was in Westminster Cemetery.

He is survived by his wife, a sister and his brother, Edward J. Canning of the Botanic Garden of Smith College, Northampton, Mass.

Linnaeus Cox.

Linnaeus Cox, grower of carnations and roses at Wissinoming, Philadelphia, died on September 7th, aged 45. Mr. Cox was highly respected by all who knew him and was an all-round good citizen. His widow will continue the business. Three new Lord & Burnham houses are in course of construction, 140 x 28, as an addition to the place. It is not thought that the passing away of the proprietor will alter the plans he had laid out. (See HORTICULTURE, March 25, page 416.)

E. R. Meserve.

E. R. Meserve, of the Los Angeles Flower Market, Los Angeles, Cal., died on August 31st, aged 42 years. He was a native of California and had for some years grown greens for the Los Angeles market. With Charles Morton last October he opened the Los Angeles Flower Market, which business will be continued by Mr. Morton. He leaves a wife and two children. The Los Angeles Flower Market was closed from Thursday until Sunday.

Patrick Maier.

Patrick Maier, well known as a florist at Woodville, Pa., for the past fifteen years, died on September 3rd of cancer. He leaves a widow and seven children.

ROOT-GRAFTING STRAWBERRIES.

Editor HORTICULTURE:
I wrote you last year regarding an experiment I made in root-grafting of strawberries. You advised testing it still further. I have done so, with similar results. You may remember that I grafted together two pistillates and the plant lived and bore several berries. After bearing I lifted the plant and set it in another place where it blossomed and fruited again and made several runner plants. This spring both parent plant and runner plants blossomed and fruited, but the exceedingly dry and extremely hot weather injured both plant and berries. It has proved to be a fall-bearing variety, but I cannot say much in its favor. There are fall-bearing varieties that far surpass it. Yet the novelty—and what is very difficult to understand—is that the plants grafted were both pistillates and the plant resulting is a staminate. Last August I grafted the same varieties—Fendall and Autumn—and again the plant produced is a staminate, and is now in blossom, although not put out until after fruiting season. I grafted several other varieties and they bloomed and fruited, but at the time I was ill and cannot say what the fruit was like. The plants are doing well, but I must wait until another fruiting season for results. In one case, however, Fendall pistillate and Pan American staminate were grafted together and the plants produced are fall-bearing, and are at present in bloom with fruit, both green and ripe. They, too, will require another season for perfect results.

I cannot say that any advantage over old methods will grow out of it. The method is new, however, and to me interesting. There is much to be learned—the best varieties to graft, the best method of grafting, the best time to graft, spring or fall, and if of any real value to berry producers,

and whether the same method can be applied to other products. I am too aged and feeble to do much in any direction. Possibly others may become interested and take it up.

DR. J. H. THOMAS.

Wyoming, Del.

PERSONAL.

Harry A. Bradt, formerly with F. A. Danker, Albany, N. Y., is now employed by Mark Aitken, Springfield, Mass.

Gustav Noack, florist, Bank Street, Batavia, N. Y., and Miss Adelaide C. Beye of Rochester were married on August 23.

D. Cameron, American representative of F. Sander & Son, St. Albans, Eng., will sail for New York on September 20.

Phil. Kessler of New York has gone to the White Mountains, accompanied by John Donaldson, for relief from his annual visitor, hay fever.

Jackson Dawson of the Arnold Arboretum starts for Halifax, Nova Scotia on Friday of this week and expects to spend a fortnight in that neighborhood.

Announcement is made of the marriage, on September 6, of Gertrude Izette Roy, daughter of Mr. and Mrs. David F. Roy, to Wm. Edmund Hooke, at Marion, Mass.

A. T. Boddington is again at his desk in New York and hustling business along after his vacation, which was somewhat of a discouragement owing to the seven days' rain which it included.

Michael F. Ruane, florist, 121 Moody street, Waltham, Mass., while coming out of Plymouth Cottage, Lake Boone, on September 9, slipped and broke his leg. He was taken to the Marlboro hospital.

John Medernach, the aged florist in the employ of the Lehigh Valley Railroad, at Allentown, Pa., stepped on a piece of glass recently and sustained a gash on his foot which required five stitches to close.

John J. Connolly, formerly for a number of years head gardener to W. O. Blake, Hingham, Mass., and for the past four years in the employ of the late Geo. H. Morgan, Lenox, Mass., has accepted the position of head gardener in charge of the greenhouses and gardens of Mr. J. Henry Hammond, Mount Kisco, New York.

Visiting Boston—Sir Frederick Moore, curator of the Dublin Botanic Gardens at Glasnevin, Ireland, arrived in Boston on the Franconia, September 13, to study American horticultural conditions and will spend the next few days in Boston giving particular attention to the Arnold Arboretum.

New York visitors.—J. C. Vaughan, Chicago; Robert Craig, Philadelphia; H. A. Barnard, representing Stuart Low & Co., England; E. Allan Peirce, Waltham, Mass.; Louis J. Reuter, Westerly, R. I.

Monrovia, Cal.—C. A. Brunger, formerly of Washington, who came to Monrovia after severing his connection with the Agricultural Department, has bought out the Floral Company of Los Angeles and opened a branch store at 337 South Spring street in Los Angeles, where he will dispose of his wares from the large nursery he has established in this city on East Greystone avenue.

PRIMULA MALACOIDES

"The Glorified Baby Primrose,"

Offered for the first time in America. This variety will continue sending up a succession of blooming spikes (color, beautiful lilac), giving the appearance of a shower of blooms.

The individual flowers are much larger than P. Forbesi and infinitely more freely branched. It is highly recommended either for cut flowers or for plants, which sell readily on sight. Per trade pkt., \$1.00; ½ pkt., 60c.

Our Fall Bulb Catalogue of Quality Bulbs, etc., now ready
A post card will fetch one by return mail.

Arthur T. Boddington, Seedsman, 342 W. 14th St., New York

PHILADELPHIA NOTES.

The Leo Niessen Co. will move to their new building at 12th and Race Sts. on the 18th inst.

J. Liddon Pennock, Leo Niessen, Wm. Thompson, Raymond Kister and others made a congenial party in Mr. Pennock's "Winton Six" to the dahlia belt around Hammonton, N. J., on the 13th inst. Inspection of the dahlias was the principal object.

Albert Jones, of the Pennock-Meehan Co., has just returned from a three weeks' vacation—we look for business to boom from now on. Canada, Maryland, "York State," and Pennsylvania—successively—took up the attention of this keen hunter after the latest and best. For some time now, you may look for bargains—and the smile that doesn't come off.

Charles Moorby, lately a prominent figure in the retail and wholesale life of Philadelphia, has transferred his energies to the south. He is now in charge of the retail cut flower department of the J. Van Lindley Nursery Co., Greensboro, N. C. We recently had the pleasure of a visit from Mr. Moorby—accompanied by Paul Van Lindley—and the mutual exchange of greetings was heartfelt and sincere. We congratulate the firm on the acquisition of a first-class man.

Dr. John H. Washburn and Farmer Howard M. Earl gave a lunch on Thursday, Sept. 14th, at Farm School, Doylestown, to a select dozen of the wits, poets and philosophers of that great horticultural center, Dooner's, Philadelphia. Among the honored were Tom Daly, Dr. Bedloe, Louis Boss, Frank Dooner, George J. Brennan, C. Howard Reed, William Dooner, George C. Watson, John Gorman, W. Atlee Burpee and John H. Ainslee. The party made a day of it—the program including inspection of the Farm School and of Fordhook Farms, then lunch and, after this, the prize colliers, chickens and other horned cattle at both places were inspected. A delightful and memorable occasion. As for the hosts the fish they caught, the ducks they killed, and the potatoes they dug—were something prodigious—for this baker's dozen of guests! One would have imagined they all had appetites of the Dr. Samuel Johnson order.

Visitors: Messrs. Jones and Russell of the Jones-Russell Co., Cleveland, O.; Mr. and Mrs. James Brown, Coatesville, Pa., on a trip westward of from four to six weeks; P. Downs, representing Charles Allen, Fall River, Mass.; S. B. Dicks, London, Eng.; H. L. Holmes, Harrisburg, Pa.

Fall list ready in August.

**E. S. MILLER
Wading River, N. Y.**

Great Barrington, Mass.—Dolby Bros. have recently purchased two iron-frame greenhouses from M. Pendergast at Griswold Lodge Farm, and are rebuilding them on their place on Humphrey street.

Our position in the trade is somewhat like that of an umpire of a base ball game. We get cussed a good deal and of course, have some enemies, for no man can have friends without enemies. However, we go right along pounding stone and doing what we believe is right, whether it be for our own good or for the good of the hive in general. We make mistakes to be sure, but ultimately we hope to be better understood and want the good will of all. Now there is one secret we have and we're going to let you in on it. It's a sort of woman's secret though, and you know a woman has only two views of a secret—either it's not worth keeping or it's too good to be kept. Our secret is too good to keep so you may tell it to anyone you want, and it's just this, that Horseshoe Brand Lily Bulbs have honestly got most other brands skinned a mile. More care and labor is expended upon them than you have any idea of. Nothing that human hands can do is left undone to make them better bulbs. They are priced as reasonable as we can afford to sell them. Try them if you don't know them—they are money-makers.

Prices upon application

WHOLESALE BULB CATALOGUE NOW READY,

HENRY F. MICHELL CO.

518 MARKET STREET

PHILADELPHIA

Seed Trade

Albuquerque, N. M.—A new packing shed with side track is being built for the Roswell Seed Co.

Latest advices are to the effect that on pea deliveries the European seed pea contractors will be able to do about 10 per cent.

There is a decided shortage of some kinds of tulips in Holland. Darwins are especially inadequate for the heavy demand this year.

Among the many garden seeds which are reported as scarce in Europe are the French radishes, of which American seed houses have been able to secure only light deliveries and in some cases none at all.

We learn that the present season of unparalleled drought which has swept over the British Isles has proved very trying to producers of vegetables. This scarcity was apparent at the recent annual show of the National Vegetable Society in London, also at an exhibition arranged in connection with the Smallholding Section of the Festival of Empire, Crystal Palace.

A western concern asserts that timothy ought to be half the price of clover. Why? What is the relative cost of production? To our mind timothy has always been too low. It is nearer its proper level now than at any time we can remember in the last thirty years. Why look aghast at fifteen cent timothy? We ought to call it reasonable at twenty—all other things considered. If there ever was

a case of getting something for nothing it has been timothy seed and lots of other seeds.

Many tulips have very tender skins this year, on account of the unkind weather in Holland. They should be kept in the bags as much as possible and not exposed to light and air more than necessary. Seedsmen who deal in bulbs are taking the precaution to advise their customers to this effect as careless handling resulting in scratching or bruising of the exposed bulb flesh is sure to cause decay and loss.

CATALOGUE RECEIVED.

E. S. Miller, Wading River, N. Y.—Trade Price-List of Bulbs and Hardy Plants for Fall of 1911. In another column we have given some notes on Mr. Miller's bulb farm at Wading River. This catalogue presents, in detail, lists of the lilies, irises, peonies, etc., grown there, and wholesale prices to the trade.

NEWS NOTES.

Watseka, Ill.—M. E. Wyatt has purchased the Wyatt greenhouse plant from his aunt, Mrs. S. M. Wyatt.

Loveland, Colo.—A third interest in the Northern Colorado Nursery has been purchased by J. W. Pulliam.

Central City, Colo.—Mrs. Morrison, proprietor of the Central City greenhouses, is succeeded by Mary A. Weisbeck.

Bloomington, Ill.—Bernard and Harry Hempstead will now carry on the business of their father, W. T. Hempstead, he having retired.

INCORPORATED.

Columbus, Ohio—Wagner Park Nursery Co., capital stock \$100,000. Incorporators, B. P. Wagner and others.

Chicago, Ill.—Adams-Robertson Co., general nursery business; capital stock \$5,000. Incorporators, Walter F. Butler, E. A. McClintock, William K. Robertson.

CHICAGO NOTES.

Business Revival.

A decided change is springing up in all lines of the florists' trade. Since the opening of the schools, which has brought back to the city many old customers, the retailers have enjoyed an increase in their sales. The florists' supply houses are daily receiving large orders from all over the country and the general feeling prevails that a good season is now opening up. The plant growers are coming in for their share of the business, for the retailers have overhauled their stores and plants are now a necessity in all first-class retail flower stores. Some very beautiful effects with artificial flowers and foliage are seen in the fall decorations of the big stores and Chicago is now quite a center for the manufacturing of these goods.

Coming Show.

The fall show at the Art Institute given by the Horticultural Society of Chicago, September 21-22, is expected to be of a high order as asters and dahlias are just in their prime and all perennials have had a fairly good season. There are many fine places in this vicinity whose owners take great pride in them and a first-class exhibit is looked for.

Trade Notes.

The E. H. Hunt Co. is putting on the market the Noxall Hose Coupler. This is an improvement over the well-known Acme Coupler and which has long been recognized as the best coupler ever on the market. The Noxall is similar with changes enough to bring it up-to-date. Their Noxall Hose has met with great success during the two years they have handled it and the coupler will no doubt meet the same hearty response.

Quite a number of florists will embark in the retail business for themselves this fall. Duncan Robertson and W. C. Adams, for several years with the E. Wienhoeber Co., have sent out cards announcing their opening, October 1st, at Bellevue place and Rush street. This is in a fine residential district and the two will make

a strong team in pulling for their share of the North Side trade.—Chas. Erne severs his connection with the E. H. Hunt Co., September 16th, and will then decide between the different stores available and make ready for an immediate start.—The Briggs House Florist has opened another store on Van Buren street, between State and Dearborn streets.—E. Leslie will open a store on the corner of Randolph and State streets.

Personal.

Miss Wolf, for many years bookkeeper for J. A. Budlong and who has lately returned from the West, has taken a position with Zeck & Mann.

Mrs. Harry Reeser of Springfield, Ohio, has been visiting her sister, Mrs. Youngstrand, of Glenview, Ill., the past two weeks. Mr. Reeser is a florist at Springfield and Mr. Youngstrand is a landscape gardener and nurseryman at Glenview.

William Allen, who has charge of the conservatory at Schiller's on West Madison street, has had something on his mind lately and all his leisure hours have been spent in preparing a flat for a mysterious someone who arrived from the East Monday, accompanied by relatives. Further details will be revealed next week.

Mr. and Mrs. C. H. Fisk returned on the 7th inst. from a six weeks' tour of the West. Going by the southern route and returning by the northern one they visited Old Mexico and all the principal cities on the Pacific Coast and have some thrilling tales to tell of their mountain ride in the Canyon of the Colorado and other experiences.

OUT OF THE GINGER JAR.

A certain supply house advertises that their sales were 71 per cent ahead of last August. That does not prove anything of value. Buncombe don't go with the florists. They are all from Missouri! Your sales may have been next to nothing the August before. A cent's worth sold last year and two cents' worth this year—100 per cent increase. Bum argument. Better change your professor of publicity. You are no doubt paying good money for the space. We are sorry for you. As a good model for an adv. on that kind of goods, what's the matter with the "Rice Standard."

Of all the little presents and mementos of wooden, tin, silver and golden weddings, of send offs, of tributes of sympathy, of hurrahs—of all the common things that make up our common lives—not one has ever brought the glisten to the eye, the hand clasp, the lump in throat as does a box of flowers—so far as my thirty years' experience of these things goes. Especially with the ladies. I really believe they would rather have a bunch of American Beauties at just the right time than a six-cylinder automobile. So, you retailers, get your enthusiasm up a little when a lady comes in! Put some life and heart into it. It's wonderful how different you can be if you really try.

GEORGE C. WATSON.

Kennett Square, Pa.—Charles S. Swayne, proprietor of the "Slope" greenhouses, has disposed of his plant to L. M. Parker, who will devote them to sweet peas.

WASHINGTON NOTES.

Willet M. Hayes, assistant secretary of agriculture, has purchased the residence of the late E. F. Droop in Rockville, Md.

F. H. Kramer has been offering a handsomely engraved copy of the Declaration of Independence, suitable for framing, with each purchase amounting to a dollar or more.

The building and land located at Thirteenth and F Streets, N. W., known as the Thompson property and in which is located the store of the Washington Florists Co., was last week sold at a reported price of nearly half a million dollars.

F. H. Kramer, 916 F street, N. W., is looking for the arrival of a shipment of bulbs from La Garde & Speelman of Ollioules, France, consisting of 100,000 paperwhite grandiflora and 40,000 Grand Soleil d'Or. These will be planted in the Anacostia houses.

The will of the late Joseph R. Freeman has been entered for probate in the local court. The estate is valued at about \$150,000. The store at 612 13th street, N. W., is valued at \$75,000; the business at \$10,000, the balance being in real and personal property. Mrs. Freeman is appointed administratrix and practically the sole beneficiary.

One of the handsomest bouquets of the season was that furnished by Gude Bros. and presented last Saturday night to the members of the troupe, who for five months entertained the public at the Columbia Theatre. This was no corsage bouquet but a bunch of American Beauties nine feet in height and five feet in diameter. Each actress was also presented with bunches of American Beauties and other roses. This was the company's farewell appearance.

The Cosmos Theatre, a popular-priced vaudeville house celebrated its third anniversary by giving to its lady patrons corsage bouquets consisting of from four to six fresh cut roses. On Labor Day about 2000 bunches were thus distributed and an average of 1200 per day during the remainder of the week. This proved a business getting souvenir and members of the local trade benefited by the sale of the goods. The theatre itself was decorated with palms, ferns and cut flowers.

MOSS

**Extraordinary Offer of
Sphagnum Moss. Your
Opportunity to Buy Cheap.**

Having our own men in Jersey who gather and bale the moss, we are in a position to make the following extraordinary low prices.

Per 7 bbl. bale, \$2.25; 10 bale lots at \$2.00 each.

Per 10 bbl. bale, \$3.50; 10 bale lots at \$3.15 each.

This special offer is good only for a limited time. It is therefore important that orders be placed at once; even if you do anticipate your wants ahead of actual necessity.

Each bale is covered with burlap, thus insuring cleanliness around the store and no waste.

FIELD GROWN CARNATION PLANTS

See our advertisement in *Horticulture* of Sept. 2.

We still have some fine plants of most of the varieties to offer.

Distributing Agents for the great new roses for 1912.

Flower Market Reports.

BOSTON Business is in a waiting mood and the outlook from day to day is as uncertain as the "in agin, out agin" vote of the state of Maine. Carnations are getting better and as soon as the asters get out of the way the carnation may begin to look up. Small roses are too plentiful still; it is next to impossible to find a market for them. American Beauty is notably deficient in finish, not one-quarter of those sent in as specials being worthy of the classification. A few chrysanthemums, Golden Glow are in now. Among roses the variety Radiance is making a grand record as a long-distance shipper.

BUFFALO Very little doing, much less than was expected the past week especially for a September week when weddings are looked for. There was plenty of material to fill all orders, and no line was scarce of anything. Asters galore; too many of the ordinary, which blocked the sale of the good ones. The cemetery florist is looked for by the dealer, but he only replies that his customers are supplied by their gardens. There has been a slight decrease in the supply of gladioli, though they are still plentiful and good. In the rose line Beauties are only fair in quality, other roses good and increasing in supply daily. Some choice lilies and lily of the valley are bad, and have shared in the small demand. Greens have shortened somewhat, though not scarce.

CHICAGO Some are inclined to attribute all the troubles in the flower business

this year to the over-production of asters. Certain it is that they have flooded the market for many weeks and the end is not yet in sight. This week, it is impossible to sell good asters for more than two cents and altogether too large a proportion of the cut is still going into the barrel. Where these flowers are so cheap it cuts into the sales of other flowers and especially is this true when the "improved back yard" idea has been put into effect and a home-grown crop, as of asters, produced. Between the big crops of gladioli and asters the demand for roses is bound to diminish. Beauties are selling fairly well and stock is good. Carnations are fine for the season. Some excellent

Killarneys and Brides are seen about the market each day and an especially fine lot were noticed at Hoerber Bros. this week. Green in general is plentiful. Smilax is the only kind that is scarce and this is easy to get if the buyer pays the price. Tube roses are among the flowers that are side-tracked this year; the demand for them is apparently lacking. Autumn leaves in profusion are now coming in and the window decorations are beautiful.

The first day of this week started with a rush. The supply was larger than the call, which was not small by any means. The activity

Flower Market Reports

(Continued from page 400)

or rather the lack of activity on the part of the buyers on Tuesday, however, showed that this spurt was only a replenishing, and that business was not as bright as was anticipated. Still during the past fortnight, though the quantity of the offerings increased daily, most that was worth while sold, while the poorer stock was a positive drag on the market. At the time of this writing asters and gladioli are somewhat more than sufficient for request. Roses and carnations, too, are coming in stronger. Lilies have shaded slightly in price and are in good supply. Cosmos is offered in small quantities and is snapped up quickly. As a whole where the offerings and sales are considered the prices brought are fair. The quality of almost everything is all an exacting buyer might desire at this time of the year. The green goods market is ample.

As to the present market

DETROIT situation the least said the better. It is not different from any other year and to the one who dislikes fakirs it is even better because there are none at the present. Trade is of a very unsteady condition and the prevailing warm spell will keep it so for a while to come.

The tendency to multiply the number of varieties of roses grown as standard stock for the cut flower market is seen in the product from young planted stock of this season on the benches of the wholesale dealers. For many years the roses that could be regarded as staples never exceeded half a dozen but, if

signs count for anything there will be no cause for complaint henceforth as to the limited number of rose varieties open to selection by the cut flower buyer. And among the newcomers no variety is so generally liked and favorably commented on as the beautiful yellow Lady Hillingdon. All roses have greatly improved in quality during the past week, American Beauty especially so, but there is no prospect of any immediate advance in price, and there is an enormous avalanche of small short-stemmed stuff of the Killarney sorts which, although bright colored and clean, has to be disposed of at a few cents a hundred. Richmond is slowly improving, but the weather is still too warm for this popular variety. The markets are still loaded down with asters—most of them of medium or mediocre quality. Gladioli are not yet lightened up perceptibly and dahlias are beginning to accumulate. Until this outdoor material is cut off any general improvement in the underglass department is not to be expected. Generally speaking trade is irregular—some days developing quite a hopeful ac-

tivity which, however, seldom lasts over forty-eight hours. A few chrysanthemums are seen here and there.

We believe that **PHILADELPHIA** on the whole there was a larger volume of business here last week, but there was such an increase in the quantity of stocks arriving that prices broke considerably on many items, and there was a good deal of unsold surplus. So the feeling in the wholesale market is rather grumpy. If demand had only responded to the increased supply everything would have been lovely—but it didn't. Asters and dahlias are coming in in immense quantities. Both are good but there is no chance of absorbing half of them at any kind of paying price to the growers. As one wholesaler put it: "We can see trouble ahead now for the next six weeks." What he meant was that the chrysanthemums would be piling in very soon on top of this already congested condition and would be making the situation still worse. Another heart breaker is the cosmos.

HELP WANTED

WANTED—Good, single greenhouse assistant on private place. Apply to R. & J. Farquhar & Co., 6 South Market St., Boston, Mass.

FOR SALE

FOR SALE—Fresh from factory, new 10 x 12, 16 x 18, 16 x 24, double thick, A and B qualities. Market dropped. Now is the time to buy and save money. Parshelsky Bros., Inc., 59 Montrose Ave., Brooklyn, N. Y.

FOR SALE—Two water tube boilers, 100 H. P. each, Helme type; three tubular boilers, 66 inches by 18 feet; perfect condition and cheap. Armstrong Mfg. Co., Springfield, O.

FOR SALE—One of the largest and oldest wholesale-retail floral businesses in Denver—a money maker. Long term lease on \$100,000 property. Owner retiring on account of age and plenty. If you have \$25,000 your profits will only be limited by your ability. For particulars, address M. H. Leonard, 1226 East 22nd Ave., Denver, Colo.

MISCELLANEOUS

WANTED TO RENT: Greenhouse, with some land in good town in Northern Ohio, Indiana, or Illinois; not too far from railroad. Will lease for term of years with privilege of buying. Kindly give full particulars in first letter. Address "Florist," 908 Church St., Flint, Mich.

PARTNERSHIP OR SALE OF GREENHOUSES.

Would like to arrange with good man (grower) who might join me in half ownership of greenhouses, which can be purchased on liberal time and at great sacrifice, regardless of cost. Situation could be no better. About 40,000 feet of glass. Will be glad to entertain some proposition. John F. Bowditch, 166 Commercial St., Boston, Mass.

branch to their original line and are doing well at it. Most of our new retailers also have chosen to locate in this outer circle of retail activity.

FRANK DANZER.

The Cincinnati Cut Flower Exchange at 24 Third avenue, East, opened on Saturday, September 9th. Alex. Ostendarp and Al. Heckman, two young hustlers, are the proprietors. If the auspicious opening is any omen at all the new firm is booked for a most successful career.

DETROIT NOTES.

The Flower Shop will soon move into a new store at 37 Grand River East, opposite the new Broadway Market and this will prove an ideal location.

E. A. Feters has got through with his vacation having had a very pleasant trip. While apparently in an out of the way location Mr. Feters has built up a very good trade in a few years.

Mrs. J. F. Sullivan surprised many by coming to the store a few days ago but she is still too weak to stay long and it will be several weeks before she can appear at her accustomed post regularly.

With our city growing as fast as it has the local retail section can be divided in two parts. First, those who for more or less years have maintained centrally located stores and which are composed of the old established firms with a very slight sprinkling of new ones. Second: A regular "belt line" of stores about two miles from the old centre composed mostly of such florists as in years gone by were growers only but becoming surrounded by houses with the consequent retail demand they have added this

THE NEW MINERAL FERTILIZER

Will produce

MORE
and
LARGER
FLOWERS

and of better
color than any
plant food ever
put on the mar-
ket.

Contains all of the
original elements
of virgin soil

The above cut shows hollyhocks, nine feet six inches high, with more blossoms and of better color than ever produced by any other fertilizer.

Write for catalogue and testimonials.

Flower Market Reports

(Continued from page 411)

Wagon loads of it—and no chance of a market for more than ten per cent. American Beauty roses have taken a big slump. The local growers are now in with their crops, and they are good. They may not be so bright in color yet as the eastern grown, but otherwise quite equal, and a few cool nights will bring them right up to standard even as to color. So down goes the price. All other roses are vastly improved as to quality and quantity. Carnations still rather short in the stem but otherwise very satisfactory. The orchid scarcity seems to be over. Plenty for all demands this week, labiata mostly. Tritomas are selling well; lilies a little scarcer. Items not on regular price quotations are the following: Roses—Prince de Bulgarie, \$6.00 to \$8.00; Perle, \$3.00 to \$5.00; Mrs. Aaron Ward, \$3.00 to \$5.00; Melody, \$4.00 to \$6.00; Tritomas, \$3.00; Tuberoses, \$4.00; Cosmos, 60c. to \$1.00; Sweet Alyssum, 25c.; Petunias, dbl. white, \$1.00; Candytuft and Feverfew, bunch, 25c.; Delphinium, 35c.; Ageratum, 25c.; Hydrangea, \$5.00; Golden Glow, dozen bunches, \$2.00.

The market had plenty of good stock during the last week. White flowers had the call. The warm weather of late has put a stop to much sale over the counter. Roses are in abundance in all colors. Carnations too are coming in better each day. Asters are still quite a glut and only the best are selling at all. Gladioli are shortening up as are tuberose spikes. Dahlias are now coming in in large lots. There is still a lot of outdoor truck coming in, with small demands.

WASHINGTON The market is the same as is usual at this time of year although there was a noticeable change for the better during the past week, a finer class of flowers being called for. American Beauties found an almost ready sale with some calls for gardenias, orchids and lily of the valley. However, the supply of the cheaper stock such as asters, dahlias, snapdragons and other out door flowers as are retailed at five cents the bunch and up, were plentiful.

A. H. Langjahr has at last got settled down into his new wholesale cut flower store at 130 West 28th Street, New York. This is located in the centre of the new wholesale section and is new throughout, well equipped and spacious, there being over 4000 sq. ft. of floor space in main floor and basement. Large flower storage boxes are being erected and every facility for handling flowers expeditiously will be supplied.

PIPE CARRIERS

We have a large stock of pipe carriers ready for immediate shipment.

They are not the kind that break. They are made of good substantial steel.

See that your pipes are supported in a safe manner before winter sets in.

Write for descriptions and prices.

LILIUM HARRISII

(The Bermuda Easter Lily)

LET US supply your wants in Lilies this season

We think we can make it to your advantage to do so, as regards both quality and price.

The stock that we offer is not gathered indiscriminately from all kinds of sources, but is grown for us by a few selected growers, whose stocks have been worked up from the true, original stock. In order to ensure the health of the product, the bulbs are not grown on the same field oftener than one season, other crops being grown on the field the preceding year. The ground is thoroughly manured when the previous crop is grown, leaving it in a high state of cultivation, and when the lily bulbs are planted no fresh manure is used, and this prevents disease and ensures a crop of strong, healthy bulbs.

In addition to this, we do not dig our bulbs as early as they are usually dug, but leave them in the ground until they are thoroughly ripened and matured. When Harrisii is good, it leaves little to be desired. There is very little, if any, stock obtainable as good as the stock that we are offering. We are supplying only this one grade of selected stock, and when this is disposed of, we shall have no more to offer.

While the quality of the stock that we offer is of the highest, our prices are as low as, or lower than, the prices of those who offer the ordinary stock gathered from indiscriminate sources. We are sure buyers will find our stock very satisfactory, and much more so than the Japan-grown Longiflorum, which has badly deteriorated in recent years.

Bear in mind that we were the original introducers of Harrisii in Bermuda, and that we have exceptional facilities for obtaining our present supplies. Also take note that the smallest bulbs that we offer are 6-7 inch bulbs, not 5-7 inch, as usually offered.

6-7 inch bulbs, 335 to the case, \$15.00 per case; full thousand lots, \$40.00 per 1,000.

7-9 inch bulbs, 200 to the case, \$16.00 per case; full thousand lots, \$75.00 per 1,000.

9-11 inch bulbs, 100 to the case, \$18.00 per case; full thousand lots, \$175.00 per 1,000.

FERNS

We have an exceptionally nice lot of ferns in the following varieties,—good, bushy, well-grown plants that will please the most critical buyers. Plants have been grown in pots, and are thoroughly well established and nicely finished.

Nephrolepis Bostoniensis and Piersoni, 6-in. pots.....\$0.50 each

Nephrolepis Elegantissima, Piersoni, Bostoniensis, and Harrisii, heavy 8-in. plants.....\$1.00 to 1.50 each

Farquhar's RARE LILIES FROM CHINA

Hardy, Beautiful, Fragrant. The Finest Novelties Extant

Lilium myriophyllum

AWARDED SILVER MEDAL BY MASSACHUSETTS HORTICULTURAL SOCIETY, JULY 15, 1911.

LILIAM MYRIOPHYLLUM Mr. E. H. Wilson, the famous plant collector, collected for us the bulbs now offered, in North-western China. He considers this the finest of all lilies. It is absolutely hardy, and is excellent for forcing. It has been predicted that this will become the Easter Lily of the future, and being so hardy, may be grown at home. The flowers are white, slightly suffused with pink, and with a beautiful shade of canary yellow at the centre and extending part way up the trumpet. It is delightfully perfumed, reminding one of the osage and lacking the heavy oppressive odor of most lilies. Blooms out of doors early in July.

orders will not go for October delivery. Bulbs each, \$1.50; dozen, \$15.00.

LILIAM SARGENTIAE (Hitherto known as *L. leucanthum* or *leucanthemum*.) Awarded a Silver Medal by the Mass. Horticultural Society, August, 1911.

The bulbs offered were also collected by Mr. Wilson. This is one of the strongest growing lilies. Properly offered, a height of six to eight feet. The flowers vary in number from five to ten on a stem, and in size and shape resembling *Lilium Harrisii*. The flowers are greenish white shaded purple on the outside, and in the throat white within, with a tint of orange in the centre. The flowers have a pleasing fragrance. This lily will undoubtedly be largely used for outdoor planting as well as for forcing. Many consider it the best of all tubed red-wood lilies. It flowers somewhat later than *Lilium myriophyllum*, and being of later growth, has a distinct place.

orders will not go for October delivery. Bulbs each, \$1.50; dozen, \$15.00.

R. & J. Farquhar & Co.

SEEDSMEN AND NURSERYMEN

6 AND 7 SOUTH MARKET ST., BOSTON

Mrs. Sargent's Lily (*Lilium Sargentiae*)

This fine new lily was first discovered by me in Western China in 1903-04, when collecting for Messrs. Veitch. Bulbs were sent to England and when the plant flowered it was considered to be *Lilium Browni* var. *leucanthum*. Under the abbreviated name of *Lilium leucanthum* it received a First Class Certificate of Merit from the Royal Horticultural Society of London on Aug. 29, 1905, and bearing this name was subsequently distributed by Messrs. Veitch.

Under this name (*L. leucanthum*) this same lily is referred to and figured in *HORTICULTURE*, Vol. XI, page 105, and many times subsequently in the same paper up to as late as last week (Vol. XIV, page 39).

When collecting in China for the Arnold Arboretum I secured a large consignment of this lily (and several others) expressly for Messrs. R. & J. Farquhar & Co., Boston, Mass. This firm received them from me as *L. leucanthum* and, acting in perfect good faith, have exhibited, (awarded silver medal Mass. Hort. Soc., Aug. 1911), advertised and catalogued the lily under this name or that of *L. leucanthum* (the latter spelling being an obvious clerical error).

On my return to this country the other day, I had occasion to look into the matter of Chinese lilies and their names. To my great surprise I found the lily named above had nothing whatever to do with true *L. Browni* var. *leucanthum*, it being in truth, very much superior. The differences are numerous and of first importance. To mention one which all cultivators will appreciate, the bulb of our new lily is always *dark-red purple* and pointed at the summit; the bulb of the true *L. Browni* var. *leucanthum* is *always white*, flattened on top and usually with centre depressed. Again, the flowers of our new lily are *always* more or less suffused with *red* or *mauve-purple* outside. Those of the true *L. Browni* var. *leucanthum* are *greenish-white* outside, *never* colored *red* or *purple*.

One always has great reluctance in interfering with an established name but there are times when this is impossible to avoid and this lily is such a case.

A detailed study of all the described species of lilies from China proved conclusively that the lily under discussion is an entirely new and undescribed species. A complete, technical description has been drawn up and under the name of *Lilium Sargentiae* this will in due course appear in a proper place.

It affords me the keenest pleasure to associate this noble lily with that charming lady, Mrs. Charles Sargent of Houn Lea, Broom's Barn, Mass.

S. W. Wilson.

Arnold Arboretum, Sept. 19th, 1911.

Summer Blooming Lilacs

In a large portion of the west and north-west the vulgaris family will be caught by late frosts so they cannot bloom. Here with us the old-fashioned kinds our mothers raised will bloom once in about five years. There are now over 100 of the vulgaris family, but most of them try to bloom too early and are caught. Emile Lemoine, Eugene Bar and Charles Jolly are exceptions as they bloom later.

The tree lilacs are June bloomers. These are well known in the east and have lately been introduced in the west where they are very popular. These are not shrubs but trees. We have them on our grounds 4 inches through and 15 feet tall and in spring covered with a flood of bloom.

The Emodi is from the Himalayas, the home of many of our choice shrubs. I have received three kinds from France under this name, one a slow growing variety, rather tender; another has a beautiful variegated foliage but is altogether too tender for our climate. The other is the kind so generally grown by our nurserymen sometimes labeled Emodi villosa and is often sent out by our leading nurserymen as genuine villosa. This is entirely wrong. It bears no resemblance to that wonderful variety. This sort has immense leaves as large as a lady's hand and you would not think it could be a lilac until you saw it in bloom. Though the foliage is dissimilar, yet the flowers in color and form much resemble those of the Bretschneideri, often known as Emodi rosen. The latter is a marvelous bloomer. They flower about the first of June. This year we had one bush 2 feet high which had fifty fine flowers. A clump or mass of them is a wonderful show. They are packed and crowded with masses of blooms. They are usually on hand for Decoration Day, which gives them additional value. The villosa is much like the Bretschneideri. It has narrower leaves and the blooms are much like the old vulgaris in color. As a bloomer it is equal to the Bretschneideri. Taken all around I think it is rated as the finest in the world. I have seen bushes 4 feet tall simply overwhelmed by such masses of bloom they seemed like single bouquets on the largest scale. Though they are from Japan, they seem very hardy. I saw them growing in Manitoba. They are rare and come high—selling from \$2 to \$5, according to size. The trouble is to secure the genuine. These, like the snowball, can be propagated by layering. Dig a trench, pull down a branch and cover it about 4 inches deep, leaving the top out and you are sure of a good plant.

The Josikea or Hungarian lilac also belongs to the large-leaved summer blooming family. It does not propagate so readily, or bloom so freely as the other sorts. I have been thus careful in describing these varieties because I deem them such an addition to our ornamentals, especially in the west.

forth in Mr. Wilson's statement appearing on the opposite page, has been known hitherto as *L. leucanthum* or *leucanthemum*. Under this name it has been exhibited, has received meritorious awards, and has been sold both in England and this country. Only recently it has been found to be a new species quite distinct from and much superior to *L. leucanthum*. We heartily commend Mr. Wilson in his choice of a name in honor of Mrs. C. S. Sargent, for this superb lily.

A New England fruit show

Much interest is manifested in the second Bi-Annual New England Fruit Show which is to be held in Horticultural Hall, October 23-28, as an annex to the Industrial and Educational Exposition of the Boston Chamber of Commerce at Mechanics Building. Symptoms of a general awakening of commercial vitality throughout the New England section are unmistakable. The people are apparently in the right frame of mind to take up and enthusiastically support any movement which appears to promise a substantial advance in product and trade and in no respect more so than in the development of New England as a fruit growing country. The superior quality of New England-grown fruit is universally acknowledged, but better methods of production and marketing are indispensable and brains and capital are just as essential as in manufacturing development. The schedule of rules, premiums, etc., which has now been issued gives evidence that the plans for the big show have been laid with a due sense of the magnitude of its possibilities and an intelligent purpose to utilize and develop them in the most practical direction and to the fullest extent. As being interested in the advancement of each and every branch of horticultural industry we are pleased with the outlook and take opportunity here to extend most cordial good wishes for the success of this laudable enterprise. That it is under the direction of Chester I. Campbell whose efficient management helped so materially towards the success of the National Flower Show last spring is not the least among the good omens for this undertaking.

A dilemma

The florist will soon have one more hardship added to his load if recent doings in Chicago count for anything. It appears that they have a Gardeners' and Florists' organization in the Federation of Labor in that city, and the president of the flower unionists made a protest recently against the admission of flower pieces lacking the union label to funerals of union men in that jurisdiction. The result was the adoption of a motion to the effect that funerals of deceased union men must be conducted on a strictly union basis or no death benefits will be paid and the eight "unionized" flower shops in Chicago are duly elated. It is evident that for the union man "a rose by any other name" does not "smell as sweet" and according to the views of a young lady of the Bindery Girls' Union, the discrimination against non-union flowers should not be confined to the pillow and the gates-ajar, but to the posies for the wedding as well, which, she added was "a much more important affair than the funeral." We can see lots of trouble ahead if the fuss thus started is carried to its logical conclusion. If "it's enough to make a union man turn over in his coffin to have non-union flowers laid on it" as the spokesman for the measure asserted, the sensations of a live union young lady going to her wedding holding a non-union bouquet would be perhaps better imagined than described. "Ain't it awful, Mabel."

A new lily

Lilium Sargentiae is the name now given to one of the new lilies introduced from Western China by Mr. E. H. Wilson.

This lily, the subject of our cover illustration, as set

Seasonable Notes on Culture of Florists' Stock

CARE OF ROSES

The days are now becoming shorter and from now on the temperature is liable to frequent and quite low drops, so see that there is always a little heat in the pipes to keep the air of the house circulating, and thus prevent condensation. Give plenty of air on all clear days, for this is especially necessary to keep the growth from becoming soft, but guard against any strong or cold draughts striking the plants. Keep the temperature anywhere from 72 to 75 degrees during sunshine, and during cloudy weather 65 degrees will do, with from 55 to 58 degrees at night. Examine the beds very carefully from now on for when more heat is used the benches will dry out on the bottom first, while the surface will seem to be wet enough. Syringing should be done only on bright days and in the morning only, but should be done thoroughly on the under side of the leaves so as to keep red spider in check. When examining the benches if you find the feeding roots near the surface give them a light mulch of well-rotted cow manure two parts, loam one part, and a six-inch pot of bone meal to every barrow load as a mulch; use it about half an inch deep. Keep the benches clean and the plants disbudded regularly. Fumigate for the aphid weekly.

GROWING TULIPS

The forcing of tulips does not differ much from that of other bulbs. The principal point is to treat them so that they will make plenty of active roots in their flats, pans, or pots before they are brought into heat. To excite top growth without this is to spoil all chance of success. Those that are intended for inside should go into flats as soon as received. Use any good loam with one-third of well rotted manure. When the flats are filled they can go outside and receive a thorough watering. Place them where they can remain until wanted for forcing and cover with at least six inches of soil. Add a covering of some coarse manure deep enough to prevent the surface from freezing up hard. In conclusion, there are three things to be considered in having good tulips. First, secure bulbs of the best quality; second, flat them up early, and third, leave them outside until the bulbs are well rooted, otherwise they will be a failure.

HARDY PHLOX

One of the most useful of all flowering perennials. In planting phlox some consideration should be given in the preparation of the soil. They like a good strong loam above a clay subsoil which always keeps their roots rather moist. It pays to trench your ground well for this perennial, and have plenty of well decomposed manure thoroughly incorporated with the soil. Proper drainage is essential to the welfare of nearly all plants, and phloxes are no exception to the rule. Phlox can be planted anytime from now until the middle of October, which will leave it time to become well rooted before

cold weather. Plant the clumps 18 to 20 inches apart, and before the hard weather sets in throw around the roots a mulch of old manure. Every three years after they are in full flower they should be lifted and separated into clumps of three or four stalks each and replanted. By making a judicious selection of varieties a continuity of bloom can be had from June until late fall.

MIGNONETTE

From now on mignonette should be encouraged in every way to make a rapid growth. Give beds that were planted in July a light mulch of rotted cow manure and loam using two of manure to one of soil, but before the manure is put on a dusting of some fine bone should be applied to the beds. This mulch helps to keep the beds from drying out so rapidly and at the same time furnishes food, which is gradually washed down into the soil. Disbudding is very necessary work. See that plants are gone over at least once a week. The matter of supports is of the greatest importance and should not be left till they begin to fall over. A great many devices are used, but it all tends to the same purpose in keeping each plant confined in an upright position. To keep the green worm in check dust the plants with Slug Shot or spray with a teaspoonful of paris green in a common pail of water. Keep the atmosphere as cool as possible and give a free circulation of fresh air.

ORCHIDS

Now that we are coming into the short days watering should be very carefully regulated. Where the plants are not in immediate need of water, it is well to let them remain until the next day. As a guide, as to when to give water, it is well to wait for a sign of slight dryness before watering so as to wet the whole mass. This even applies to such plants as cypripediums, aerides, phalænopsis, odontoglossums, miltonias, masdevallias, vandas, etc. It is advisable now to modify the temperature in the various divisions, so as to meet the conditions which tend to make root action less, thereby producing a more restful stage. The warm house should be kept during the day with sun 72 to 78 degrees, without sun 62 to 68 degrees, and night about 65 degrees. For the intermediate house with sun 60 to 65 degrees, night 55 to 60 degrees. The cool house 55 to 60 degrees with sun, without sun 58 degrees, night 50 to 55 degrees.

SMILAX

Be always very particular when watering smilax. It is better to look over the benches before you begin and locate the dry and wet spots which will enable you to keep the bench at an even moisture and thus ensure a more even growth through the beds. When the strings are cut don't allow the young growth to ramble and become tangled before giving them a string to run on. Give them a mulch of pulverized cow or sheep manure mixed with an equal quantity of loam about half an inch deep. Syringe once or twice a day, as the weather will allow. A night temperature of about 60 degrees suits them, and should always be maintained. Attend well to ventilating so as to admit air without cold draughts.

John J. M. Farrell

Mr. Farrell's notes will be on the following: Autumn, Poinsettias, Lilacs, Pot Plants for Christmas, Roses, Violets, etc.

VEGETABLE GROWERS' ASSOCIATION OF AMERICA

Fourth Annual Convention, Boston, Mass, Sept. 19, 20, 21, 22, 1911

OFFICERS 1911.

President, R. L. Watts, State College, Pa.

Junior Ex-President, C. W. Waid, New Carlisle, O.

Vice-President, H. F. Hall, Brighton, Mass.

Secretary, S. W. Severance, Louisville, Ky.

Treasurer, M. L. Reutenik, Cleveland, O.

Directors: T. C. Johnson, Norfolk, Va.; Eugene Davis, Grand Rapids, Mich.; W. J. Ritterskamp, Princeton, Ind.; W. H. Weinschenk, New Castle, Pa.; Richard Hittinger, Belmont, Mass.; E. A. Dunbar, Ashtabula, O.

The fourth annual convention of this young and prosperous organization opened in Boston on Tuesday afternoon, September 19, at Horticultural Hall. Several hundred were in attendance and the hall was well

"This body of gardeners," he said, "represents the backbone of vegetable growers of America on whom 9,000,000 American people depend for their fresh vegetables, and we should feel keenly our responsibility in growing and supplying only the best that we can."

"The past season has been, on the whole, very unfavorable to market gardeners, and gardeners, like the rest of mankind, have their ups and downs in full-season or partial crops even here in Massachusetts. In the long run, however, we should consider this fortunate, for everyone who goes through such a season of depression and disappointment learns to maintain a stouter heart and will emerge from the condition with a firmer grip, a clearer vision and a stouter courage to meet all future contingencies which we may be called upon to face in our business."

dresses on "The French and English Systems of Vegetable Forcing," illustrated, by David Lumsden of the New Hampshire College of Agriculture at Durham, N. H., and "Marketing," by Paul Work of the Cornell College of Agriculture at Ithaca, N. Y.

On Wednesday forenoon the session was devoted to the following program.

Question Box.

Address.—"The Horticultural Organizations of Ontario."—J. Lockie Wilson, Secretary Ontario Vegetable Growers' Association, Toronto, Can.

Address.—"Pre-cooling and Cold Storage of Vegetables."—Representative of U. S. Department of Agriculture.

Topic for Discussion.—"Irrigation."

The afternoon was spent in visiting some of the market gardens and greenhouses in the suburbs, by auto and trolley under the guidance of the

HORTICULTURAL HALL

filled when President R. L. Watts of State College, Pa., called the meeting to order and after a few preliminary remarks introduced Acting Mayor Walter Collins.

Mr. Collins in extending the welcome of the city said that though it was the fourth convention and the first time that the members had met here, he hoped that it would not be long before they returned for another convention. For New England, at least, Boston is a city around which cluster many large tracts devoted to market gardening, and he mentioned especially such places as Arlington, Belmont and Lexington. He referred to the value of co-operation, through which the interests of communities can best be conserved. Conventions such as these, he said, serve a useful purpose in disseminating knowledge of the business, the advantage of which many persons receive.

President H. F. Hall, of the Boston Market Gardeners' Association, welcomed the visitors in the name of the local gardeners. He said that the Boston organization felt honored in having the members of the national body with them.

The response to Mr. Hall's address was made by E. A. Dunbar of Ashtabula, O., and then President Watts of the national organization read his annual address. He dwelt upon some of the achievements of the past year, referring, as did Mr. Hall, to the unfavorable conditions of the summer.

Sec. S. W. Severance of Louisville, Ky., reported 24 states and provinces represented in the association, the membership being 214. He urged that more members be secured, especially in New England.

The report of the state vice-presidents was given by President Hall of the local body. Reports were also submitted by several standing committees; transportation rates by J. H. Rice of Ashtabula, O.; membership by H. F. Tompson of Attleboro, and legislation by T. C. Johnson of Norfolk, Va.

During the forenoon the executive committee held a session at the Copley Square Hotel, which is the convention headquarters.

In the evening another session was held at which many members of the Gardeners' and Florists' Club of Boston were present. There were ad-

local reception committee consisting of J. P. Esty, H. F. Thompson, F. Wheeler, R. Hittinger, A. Wilson, W. L. Hooper and Dana Hyde. The women's committee was made up of Mrs. J. B. Shurtleff, Jr., Mrs. H. L. Cox and Mrs. E. F. Skahan.

On Wednesday evening the program included addresses on "Greenhouse Construction and Heating," illustrated, by W. R. Cobb, Irvington-on-Hudson, N. Y., an abstract of which appears in this issue, and "Open Air Opportunities," illustrated, H. B. Fullerton, Medford, L. I., N. Y.

Thursday's program, which is being carried out as we go to press, is as follows:

9.00 a. m.

Question Box.

Address.—"Truck Crop Rotations as Practiced by Hotbed Growers of Norfolk, Va."—Mr. Burte C. Haines, Norfolk, Va.

Topic for Discussion.—"Good Seed for Market Gardeners."

Address.—"What Experiment Stations are Doing for Vegetable Grow-

ers."—Mr. C. W. Waid, New Carlisle, O.

1.30 p. m.

Visit to Horticultural Establishments and Points of Historic Interest.

6.00 p. m.

Annual Banquet.

The basement halls were used for the trade exhibits and were quite a centre of interest. Following is a list of the exhibitors:

Fottler, Fiske, Rawson Co., Boston, a fine showing of vegetables grown from their seed; also garden implements.

J. J. H. Gregory & Son, Marblehead, Mass. A splendid table of melons, squash, corn and beets, and a large collection of seed samples in glass jars.

D. Iliffe, Boston, greenhouse heating and ventilating apparatus.

Watts Bros., Kerrmoor, Pa. New process straw mats.

Bowker Insecticide Co., Boston. Lime-sulphur and other sprays.

Perth Amboy Chemical Works, New York. Formaldehyde.

Vreeland Chemical Co., New York. "Electro" arsenate of lead.

Maple Ridge Farm, Constable, N. Y. Langdon's Earliana Tomato.

Johnson Seed Potato Co., Richmond, Me. "Bug Death."

Market Supply Co., Boston. Market boxes, barrels, etc.

Stimpson & Co., Boston. Paper and twine.

Benj. Hammond, Fishkill-on-Hudson, N. Y. Slug Shot and other Hammond specialties.

A. T. Stearns Lumber Co., Neponset, Mass. Greenhouse building material.

The Advance Co., Richmond, Ind. Improved ventilating apparatus.

Geo. M. Garland Co., Des Plaines, Ill. Greenhouse building material.

Kroeschell Bros. Co., Chicago. Greenhouse boilers and heating apparatus.

Skinner Irrigation Co., Troy, O. Sprinkling device.

Means & Thatcher, Boston. Paints. American Implement & Seed Co. A fine display of agricultural seeds.

Goulds Mfg. Co., Boston. Spray pumps.

The special vegetable exhibition of the Massachusetts Horticultural Society, in connection with this convention, which opens today (Thursday) and will continue until Sunday night, is the finest display of its kind ever seen here. Every available space in the various halls is occupied and the quality of the material shown is superb. The Boston Market Gardeners' Association appropriated the sum of \$500 towards the prize schedule.

Detailed account will appear in next week's issue.

PENNSYLVANIA HORTICULTURAL SOCIETY DAHLIA AND PERENNIAL SHOW.

The principal features of this exhibition were the displays of W. Atlee Burpee & Co., in dahlias and Joseph Hurley in perennials. The Peacock Dahlia Farms came in at the eleventh hour, and put up a good collection of their best dahlias.

In the Hurley collection we noted *Begonia gracilis*. Besides being a good bedding plant this is excellent as a cut flower for table decoration. St.

Bridgid anemone was also well shown in its various colors. *Amaranthus tricolor* was another good thing—good for decorative effects when cut. The balance of this good collection was made up of fall asters, gladioli, zinnias, sage, helianthus, marigolds and roses.

Burpee put up probably the most artistic dahlia exhibit that has ever been seen here. It was not only artistically arranged in flat and pyramidal masses—with a background of *Eulalia Japonica zebrina* and fall foliage, but it contained quite a number of new and unique varieties of dahlias that have never before been seen in this country. George W. Kerr, who is an old experienced hand in exhibition work in the great shows of the old world, as well as the new, is Mr. Burpee's expert in the growing and staging of these (as he has also been in sweet peas and other things in the past few years), and he points out some wonderful new varieties which we have not before seen exhibited. One of the most conspicuous is Golden West, a cactus, and one of the best we have seen; Mrs. Reginald Bailey, rich claret, cactus, rounded petals, free, open and graceful—a lovely flower which will yet be heard from; David Burpee, a magnificent decorative, yellow flushed with rose. Other good ones in this collection were Flag of Truce and Snowden—both of the cactus type. One of the loveliest pinks was Mrs. McMillan and for an old-rose shade Daisy Staples shone out conspicuously. Of the fine old English show varieties that have seldom if ever been displayed here before we may mention David Saunders, Mrs. John Downie and Daniel Cornish. These were centers of attraction to many of the old-time gardeners. While the "Golden West" variety was perhaps the star attraction of this fine exhibit the two varieties at each side of the center—Ethel Maule, white, and Jack Rose, crimson, stood out very conspicuously. The Peacock Century novelties and their Dorothy Peacock and others were staged in fine condition and received much favorable comment.

R. & G. Rosbach of Pemberton, N. J., staged a nice little collection of some fifty varieties, these being under the personal supervision of Mrs. Rosbach. W. F. Bassett of Hammononton, N. J., sent in eight of his new seedlings. These were mostly single. The best one was a crimson edged with gold, medium size, magnificent texture and substance, fine form and charming color; ought to make a good shipping variety—therefore, valuable commercially, and that after all is the final test. Some of the loveliest productions of flower breeders have gone by the board for lack of this great essential.

In the aster exhibit, Semple, Peerless, and Electric were the principal varieties. They call for no special comment as none of them were beyond the average in any way. Messrs. Morrow, Little and Aiken were the chief prize winners.

Roberts took first for zinnias of the new Haageana type. This was a Dreer premium. Can't see much in this Haageana thing, but have great respect for Dreer's and Roberts' judgment. If we can enthuse later if we

see it better—nobody will be more enthusiastic than yours truly. John McCleary sent a collection of vegetables. They won a prize.

There was very little competition in this show. Many of the classes were not entered for at all. Maybe it was the season. Maybe anything. Anyway, we have told the story and leave comments to those better informed than your correspondent. If it hadn't been for Burpee and Peacock and Hurley it would have been no show at all. What's the matter with Philadelphia, horticulturally? We leave the answer to Robert Craig and J. D. Eisele.

NEW ENGLAND DAHLIA SOCIETY.

The interior of Horticultural Hall, Boston, presented a scene of remarkable beauty to the crowds who visited the fourth annual exhibition of the New England Dahlia Society, which was opened on the afternoon of Friday, September 15, and closed on Sunday night. There were many fine displays not in competition which do not appear in the list of awards. Altogether the show was a very creditable one considering the very unfavorable weather this season.

J. K. Alexander of East Bridgewater showed nearly 1400 blooms.

The Fottler, Fiske Rawson Company had a fine showing of seedlings, and other exhibitors were George L. Stillman of Westerly, R. I., George H. Walker of North Dighton, the Henry F. Michell Company of Philadelphia, whose exhibit was raised on the Peacock Dahlia Farms, E. F. Dwyer of Lynn, Mrs. L. A. Towle of Everett, Henry R. Wirth of Providence and James M. Adie of Marblehead.

Following is the list of awards:

PROFESSIONAL CLASS

Twelve Named Cactus Dahlias—First, George L. Stillman; second, E. F. Dwyer.

Twenty-Four Named Cactus Dahlias—First, George L. Stillman; second, C. Lindvall & Co.

Twelve Named Decorative Dahlias—First, W. D. Hathaway; second, C. Lindvall & Co.

Twelve Named Show Dahlias—First, George L. Stillman; second, Mrs. L. A. Towle; third, C. Lindvall & Co.

Twenty-Four Named Show Dahlias—First, W. D. Hathaway; second, George L. Stillman.

Twelve Named Pompon Dahlias—First, George L. Stillman.

Vase of Eighteen Blooms Red Cactus Dahlias—First, C. Lindvall & Co.

Vase of Eighteen Blooms Cactus Dahlias, "Mary Service"—Second, C. Lindvall & Co.

General Display of Dahlias, all Classes Admissible—First, J. K. Alexander; second, Mrs. L. A. Towle.

Award of recognition for new seedling dahlias, for Henry R. Wirth and E. F. Dwyer.

First-class certificate of merit for new seedling dahlias—Mrs. L. A. Towle, for white decorative dahlia, "Ernest E. Towle"; George B. Gill, for red cactus dahlia, "Mrs. E. M. Gill."

AMATEUR CLASS.

Six Named Cactus Dahlias—First, Herman L. Winter; second, Parker A. Mansfield; third, John E. Stokes.

Twelve Named Cactus Dahlias—First, Herman L. Winter.

Six Named Decorative Dahlias—First, Herman L. Winter; second, Parker A. Mansfield; third, John E. Stokes.

Six Named Show Dahlias—First, Parker A. Mansfield; second, John E. Stokes.

Vase of Twelve Bloom Red Dahlias—First, George B. Gill; third, Herman L. Winter.

Vase of Twelve Bloom Maroon Dahlias—First, Herman L. Winter.

Vase of Eighteen Blooms (a combination of classes and colors)—First, George B. Gill; third, Herman L. Winter.

NEWPORT HORTICULTURAL SOCIETY.

This Society held its autumn exhibition Sept. 16, 17 and 18, and in spite of adverse conditions of the season many excellent exhibits were staged. The main exhibitors were James Boyd, gardener for J. J. Astor; C. M. Bugholt for Miss Fanny Foster, Wm. Grey for Mrs. Wm. B. Leeds, John A. Forbes for August Belmont, John Mahan for H. D. Auchincloss, John Fletcher for Captain P. W. Hourigan, S. Speers for W. B. Green, Wm. Barclay for H. A. C. Taylor and J. Robertson for Mrs. T. O. Richardson.

James Boyd was the most extensive exhibitor, especially in the classes for plants, and had to his credit the first prize in the classes for specimen palm, collection of table plants, six dracaenas, twenty-five gardenias, six nectarines and six peaches. C. M. Bugholt was the main exhibitor in the dahlia classes and was awarded the blue card in almost every exhibit, his collection of twelve cactus varieties being noteworthy. They were as follows: Glory of Wilts, Snowdrift, Australian, Johannesburg, Marathon, C. H. Curtis, H. H. Thomas, Mrs. T. W. Willis, Snowstorm, Rev. T. W. Jamieson, Lady Fox and Gwendolin Tucker. Sisson & Thurston, representing the commercial growers, had also an excellent collection of fifty varieties for which they were awarded the R. & J. Farquhar prize. Single dahlias were also well represented by J. Robertson. A new white variety named "The Bride" was said to be the best seen here. John A. Forbes was the winner of the Mrs. Goellet prize for a table of outdoor flowers tastefully arranged, and was also first in other important classes. The silver cup offered by Henry A. Dreer for collection of hardy perennial flowers was awarded for the second year to John Mahan, who also won the Joseph Breck & Sons' silver cup for best collection of annuals. The silver cup donated by Stumpp & Walter Co. for collection of twelve species of vegetables was awarded to Wm. Grey, John Fletcher being a close second in the class. Mr. Grey was also the winner of the E. J. Berwind prize of \$25 for a table decoration showing originality. His floral arrangement was a representation of a May pole with the base and top widened out and decorated with asparagus Sprengeri, Clematis paniculata, stemmed flowers of the Mrs. Francis King gladiolus and streamers of narrow pink and white ribbon, all bringing out an effect that caused much favorable comment. The table decorations for the R. L. Beeckman prizes proved to be the hardest task the judges had to decide on, they taking over an hour to select a first out of four that all seemed nearly perfect in every detail, one being equipped with a gold service valued at several thousand dollars with a centre piece of cactus dahlias nearly matching in color; but another with a brighter setting of silver and china and a centre piece of the pink single dahlia Imperialino was finally awarded the blue card, the first described taking second place. Mrs. Herbert Coles is the winner of the first prize and her husband the second, the third was won by Hugh Meikle, assistant gardener at the H. M. Brooks estate.

Other fine awards are as follows: For table decorations by commercial

florists, Mrs. B. Hammond Tracy. Dish of Adiantum Farleyense, John A. Forbes. Dish of foliage plants, J. A. Forbes. Kentia in twelve-inch pot, J. Robertson. Centre piece of dahlias, Jas. Sharkey, gardener for Mrs. E. H. G. Slater. Fancy basket of dahlias, A. S. Meikle. Fancy basket of outdoor flowers other than dahlias, Mrs. B. H. Tracy. Six vases outdoor flowers, Mrs. B. H. Tracy. Collection seedling dahlias, A. Alderson. Collection seedling dahlias by amateurs Harry V. Mayo.

Special awards—First class certificate of merit to B. Hammond Tracy for display of gladioli. Honorable mention for display of gladioli and first class certificate for gladiolus Panama to J. Lewis Childs. Certificate of merit for Asparagus elongata to J. Robertson. Cultural certificate for eighteen varieties of apples and bronze medal for vegetables to Wm. Barclay. Cultural certificate for collection of peaches to H. Thurston. Cultural certificate for collection of southern fruit to Charles Newton. First class certificate for white seedling cactus dahlia "Danny Boy" to C. M. Bugholt. Honorable mention for seedling dahlias to Alex. MacLellan. Among the visitors were: Maurice Fuld, representing the H. Michell Co.; Joseph Manda, P. J. Van Baarda, Mr. and Mrs. B. Hammond Tracy and John Lewis Childs.

The judges were Richard Gardner, James McLeish, J. J. Sullivan, C. D. Stark, Stewart Ritchie and Paul Valquardsen, and Mrs. B. H. Tracy assisting in judging table decorations.

The attendance was somewhat better than at some previous exhibitions and fine weather favored all.

HORTICULTURAL SOCIETY OF NEW YORK.

The Horticultural Society of New York held a small but most interesting exhibition of autumn flowers in the Museum building of the Botanical Gardens, on Sept. 16 and 17. Stormy weather for several days previous and on the morning of the opening day was responsible for many absentees, both as regards exhibits and attendance, nevertheless, 'twas well worth seeing from many points. James Stuart of Mamaroneck, N. Y., won five first prizes in the classes for asters. They formed a pretty table of well-grown blooms. P. W. Popp, also of Mamaroneck, won eight first prizes in dahlias. They were a remarkably fine lot of flowers considering the season we have had, and Mr. Popp deserves much credit for the quality, variety and extent of his exhibit. Mr. Stuart won a first for his vase of single dahlias. John Lewis Childs put up a good exhibit of dahlias, tritomas and montbretias, not for competition, and there was a very interesting exhibit of berried shrubs and hardy flowers from the grounds of the Botanical Gardens. Richard Richter was manager of the show. A meeting of the society was held in the afternoon and plans perfected for the Chrysanthemum Show to be given in November.

George V. Nash delivered a splendid illustrated lecture on the fruit orchards of the northwest. Mr. Nash has recently returned from an extensive tour of the orchards of the state of Washington, and is well able to describe them from every point of view. There was a large attendance.

ROCHESTER (N. Y.) FLOWER SHOW.

The attitude of the Rochester public toward the flower shows that have been given by the Rochester Florists' Association has caused some doubts to arise in the minds of some of the members as to the advisability of holding a show this year. The matter is left in the hands of the Exhibit Committee.

Should this committee, which is made up of C. H. Vick, F. J. Keller, A. H. Salter, E. P. Wilson, E. R. Frey, F. R. Schlegel, J. M. Keller, R. Ballantyne, C. B. Ogston and Charles Suhr, decide that the association will again undertake a show, then it will be held in November. The committee will meet this week and will report to the association at a special meeting to be called within two weeks.

Last year 28,000 people attended the show during the five days it lasted; the year before 22,000 attended during three days. The first figure should read 40,000, if the Rochester people were doing what they should. If the committee could be convinced that the 40,000 mark could be reached this year, it would probably have no hesitancy in declaring itself in favor of a 1911 show.

THE VINCENT FLOWER SHOW.

The Maryland State Horticultural Society on September 26 will hold a meeting at the Vincent Farm, Cowenton, Md., in connection with the Fifth Annual Dahlia and Flower Show given by Mr. Vincent.

The whole of the property will be thrown open to the inspection of the guests. They will be able to see forty acres of dahlias in full bloom, ten acres of cannas and five acres of perennial phlox. In addition an inside exhibition of dahlias will be given, showing effects in arrangement, and there will be displays of farm and household produce. The show will continue to September 29. The following schedule of trains are given for the information of those desiring to attend: Special trains will leave Camden Station at 12.40 p. m., stopping at Mount Royal and Gay Street stations. Returning, leave Cowenton 6 p. m. Regular trains will leave Camden Station 8.15 a. m., 2.10 and 5.00 p. m. Last train will leave Cowenton for Baltimore at 7.17 p. m. Train No. 517 leaving Philadelphia 8.15, Wilmington 8.50, Newark, Del., 9.09, will stop at Cowenton at 10.27 each day of the show. Cowenton is located on the Baltimore & Ohio R. R. line. The show will be open daily until 8.00 p. m. with the exception of September 29, when the closing time has been set for 10.00 p. m.

EXHIBITION SCHEDULES RECEIVED.

Connecticut Horticultural Society.—Chrysanthemum Exhibition, Putnam Phalanx Hall, Hartford, Conn., Nov. 8-9, 1911. Secretary's address, George W. Smith, Melrose, Conn.

Morris County Gardeners' and Florists' Society, Sixteenth Annual Flower Show, Assembly Hall, Madison, N. J., Thursday and Friday, October 26 and 27, 1911. Secretary, Edward Reagan.

Huntington Horticultural and Agricultural Society.—Ninth Annual Exhibition, Trade School Building, Huntington, L. I., N. Y., September 29 and 30, 1911. Secretary, A. H. Funnell.

CLUBS AND SOCIETIES

GARDENERS' AND FLORISTS' CLUB
OF BOSTON.

The first meeting of the season of this club was held Tuesday evening, September 19, in Horticultural building. The little hall where the meeting was held seats 175 people, and practically every seat was occupied—a pretty good showing for a starter.

Not much business was done it being the desire of many members to attend the session of the Vegetable Growers' Association in the lecture hall. Resolutions on the recent deaths of F. R. Mathison and John Flood were presented and adopted. Three of the members, Thomas J. Grey, Thomas Pegler and Wm. Collins, who have been abroad this summer, were severally called upon and related their experiences and their views on the various countries they visited. Mr. Grey was particularly eloquent in his praise of England and Scotland, and did not overlook Ireland, in all of which places he visited the botanic gardens and other horticultural places. France he found terribly dried up. Mr. Pegler said that at Belfast he saw the finest sweet peas he had ever seen, and the tuberous begonias impressed him greatly. He predicted some surprises in the near future in the way of Dickson roses. Kew showed the effect of the dry season.

A vote of sincere thanks was extended to the Gardeners' and Florists' Club of Baltimore for courtesies extended to Boston visitors at the recent S. A. F. Convention in that city.

Prof. White of Amherst addressed the meeting, urging that the club get into closer touch with the Agricultural College and endeavor to secure the services and co-operation of this state institution on behalf of floriculture in equal measure with the fruit and market garden and other interests. Agreeably to Prof. White's suggestion, President Miller appointed Messrs. John K. M. L. Farquhar, Robert Cameron, Wm. Sim, Eber Holmes, Peter Fisher, J. A. Pettigrew and Thomas Roland a committee to act on the lines proposed.

The exhibition table was nicely filled. From W. W. Edgar Co. there was a nice show of seasonable plants—Lorraine, Turnford Hall, and Glory of Cincinnati begonias, cyclamens from Grey's seed, etc. R. & J. Farquhar & Co. showed *Viola cornuta purpurea*, a splendid dark flower, perfectly hardy; also some herbaceous flowers.

AMERICAN ROSE SOCIETY.

At the convention of the S. A. F., held in Baltimore, a joint conference meeting of the American Rose Society, the Carnation Society and the Sweet Pea Society was held. The subject under discussion was an early spring show of all these societies. It was determined to try to unite the carnations and the roses in one exhibition, to be held January 10, 1912. At its regular meeting the American Rose Society ratified this action. The Carnation Society having made a date later in the month, awaited final action by its board of directors, which is given. So

that the dates of January 10, 11, 12, 1912, are fixed for the annual exhibition of the two societies, to be held in the city of Detroit. Hon. Philip Breitmeyer has given assurance that everything possible will be done locally to make the exhibition successful.

Detroit is a city of homes and door-yards, and is sure to give a large attendance. The Prize Schedule of the Rose Society will be prepared and published without delay. The two medals of the American Rose Society awarded to the Minneapolis Rose Society and at the Annandale Rose Show have been properly inscribed, cased and delivered.

The gold medal voted to Mr. M. H. Walsh of Woods Hole, Mass., in recognition of work done by him in the development of the climbing rose, is under way. This is the second gold medal awarded in the history of the American Rose Society.

BENJAMIN HAMMOND,

Secretary.

Fishkill-on-Hudson, N. Y.,

ST. LOUIS FLORIST CLUB.

The September meeting of the Florist Club was fairly well attended. President Cannon, who had presided over the meetings for the past year, opened the meeting. The auditing committee reported that the books of the secretary and treasurer were in first class shape. Letters were read from the Chicago Florists' Club inviting the members to attend the next meeting, October 5th, and help them celebrate their 25th anniversary, which was accepted and the chair appointed as a committee W. C. Smith, J. J. Beneke, D. Geddes and A. S. Halsted to make arrangements for the trip. The appointment of a committee to assist the Retail Florists' Association to further their bill to prohibit crepe pulling, which is now before the House of Delegates, was laid over for the next meeting.

Messrs. Guy, Ammann and Fillmore acted as installation officers. President-elect Windler had not yet returned from his wedding trip, so they proceeded to install Vice-President-elect F. Vennemann, who at once took the chair and was followed into office by Secretary Beneke, Treasurer Smith and Trustee Frank A. Weber.

The opening of the question box found a number of questions on which lively discussions followed.

MORRIS COUNTY GARDENERS'
AND FLORISTS' SOCIETY.

The Morris County Gardeners' and Florists' Society held its monthly meeting Sept. 13. About 40 members were present to discuss the schedule and make final arrangements for the show. The schedule will have over 80 classes in it when the new special prizes are put on. The National Gardeners' Association are to hold their convention in Madison this year and at the time of the Flower Show. Many of them are to exhibit here as well—to make their expenses you know. The prizes will be here and we want to give all an equal chance.

E. R.

NASSAU COUNTY HORTICUL-
TURAL SOCIETY.

The regular monthly meeting of this Society was held in Glen Cove, Wednesday evening, September 13. The judges for the exhibits were Messrs. Cliffe, Johnson and Marshall, and their decisions were as follows: Society's prizes—Corn, F. Petroccia; potatoes, H. Boetther; melon, S. J. Trepess; honorable mention to E. Brown for peaches; thanks to F. Petroccia for Brussels sprouts.

Henry Gaut on behalf of Mrs. H. L. Pratt, offered a silver cup as a special prize for the coming fall show. A. Walker on behalf of Mr. R. C. Smith, offered \$15 as a special prize for a vase of chrysanthemums, 8 blooms, one variety, for the fall show. These donors were both accorded a unanimous vote of thanks.

J. N. Hoff of the Alphano Humus Co., gave a very interesting talk on "Humus, and the Benefits to Be Derived from Its Use on All Soils," and was given a very hearty vote of thanks.

The competition in October will be for three heads of celery, vase of pink cosmos and three heads of cabbage.

E. W.

CLUB AND SOCIETY NOTES.

The Chicago Florists' Club have decided to place the cost at \$1.50 per plate for the banquet to be given Oct. 5th.

The second annual flower show of the allied associations at Andover, Mass., was held on September 2, and was as good as, if not better than that of last year, notwithstanding the very unfavorable weather conditions.

Members of the Indiana State Florists' Association are planning to charter a special car to go to Newcastle, to attend the meeting of the organization, Oct. 3. A. F. J. Baur, the secretary, says it is expected that twenty-five florists from Indianapolis and other cities will compose the party.

The New Haven County Horticultural Society held a dahlia exhibition at Harmonie hall, New Haven, Conn., Wednesday and Thursday, Sept. 6 and 7. The managers were John H. Murray, William H. Beattie, David Kydd, John C. Morton, John N. Champion, Frederick H. Writz, Robert Paton, James Kydd and R. Bell, and the exhibition was in charge of John H. Slocombe, chairman, and an efficient committee.

THE CARNATION GROWERS'
FRIEND.

The Fisher Carnation Clip, advertised by E. H. Hunt in this issue, is the best device ever offered to the carnation grower for the purpose intended. As well stated it is a great saver of time, expense and bother and is also economical for it will last a life-time. Read what they say about it.

DISASTROUS EFFECT OF DROUGHT IN EUROPE:

Later detailed advices more than confirm the discouraging reports we have previously published regarding the disastrous effect of the hot summer weather and long continued drought in Europe upon growing crops. In England, and many parts of France and Germany there have been no effective rains for over three months, and in places where stock could not be artificially watered the growing crops are shrivelling up.

Of Manetti roses, which come principally from England and France, in both countries there will be less than half a crop. The grade of those shipped will necessarily be inferior. Practically all of the available crop was bought up before June. It is doubtful if American buyers will get more than 60 per cent. of their requirements; then only where they ordered before June.

In Germany the season was the hottest and driest they have had for 73 years. The effect upon the crop of lily of the valley pips is problematical, though it is almost sure that the product will be inferior to former seasons. As a precaution most firms are refusing to book further orders except at a considerable increase in price.

France is particularly unfortunate. They grow for export millions of young fruit and ornamental stocks. Even artificial watering is ineffective, as the wells are dry. Prices rule much higher than usual and there will be many shortages on orders.

Belgium has not suffered so much, as their export stock is all artificially watered, but the exceptionally hot summer weather shows its effects in the azaleas there. They will be smaller and more stunted in growth than usual. Crop is up to normal, though the varieties Mad. Van der Cruyssen, Mad. Petrick, Simon Mardner and Vervaeneana remain scarce, and most growers are limiting orders to percentages of these varieties.

PERSONAL.

Robert Wallis is now employed by the Erie Floral Co., Erie, Pa.

William Jurgens, of Newport, R. I., will sail on September 28th for a two months' trip in Europe.

John McKenzie, of North Cambridge, Mass., has returned from a two months' visit to Scotland, very much pleased with his trip.

Miss Minnie Barth, manager of a floral shop in Elkhart, Ind., just for fun registered for the Minot, North Dakota, land drawing, and drew 160 acres.

Bert Woods is now employed as packer by the Chicago Flower Growers' Association, Chicago, Ill. He was formerly employed in the Chicago market.

Thomas J. Grey arrived in Boston via Montreal on the 7th inst. from his European trip. He found every place scorched up by the heat and drought except Scotland and Ireland, both of which countries were vividly green and beautiful. Mr. Grey looks well and greatly improved by his summer outing.

James A. Budlong, of Auburn, R. I., one of the most widely known florists in the country, last Tuesday positively

LILIUM HENRYI.

A splendid lily of recent introduction from Northern China. Sometimes called "The Yellow Speciosum." Flow-

ers apricot yellow, spotted with chocolate. The illustration shows a field of this lily at the nurseries of R. & J. Farquhar & Co.

declined to accept the Republican nomination for the Mayor of Cranston, the "baby city" of Rhode Island. The citizens of Auburn, where Mr. Budlong is located, as well as other parts of the city, feel that he would be an exceptionally strong candidate. Last year an attempt was made to induce Mr. Budlong to enter the political arena without success.

Visitors in Boston: James Currie, superintendent of parks, Milwaukee, Wis.; Carl Jurgens, Newport, R. I.; Hugh Medcalf, park department, Rochester, N. Y.; Prof. E. A. White, Amherst, Mass.; H. C. Neubrand, Providence, R. I.; L. J. Reuter, Westerly, R. I.; David Smith, Stranraer, Scotland.

PROVIDENCE NOTES.

J. Kopelman has just completed many improvements in his store on Washington street.

Nathan D. Pierce, manager of the Norwood Floral Company and Home Nursery at Norwood, R. I., returned Saturday from New York, New Jersey and Philadelphia on a business trip.

Johnston Bros. furnished a very handsome floral slipper for the opening of the shoe department of one of the large department stores this week. The slipper was made entirely of lilies of the valley and orchids.

Albert Holscher of Hartford avenue, is contemplating a trip to Argentine Republic for the purpose of securing a stock of orchids with which to stock a new house built for that purpose in addition to his present range.

Walter S. Nichol of Hamden Meadows, Barrington, met with a considerable loss last week when a tornado swept over that place lifting the roofs

of several of his houses. Between 500 and 600 panes of glass were broken.

While at work trimming trees in Swan Point cemetery, Otto Carlson, an employe of the Everett Forestry Company, fell from a big elm dislocating both wrists. He was rushed to the Memorial Hospital, Pawtucket, for treatment and later conveyed to his home. Some of the cords were torn, and a small bone was fractured in the right wrist.

Patrick J. Henry, Jr., of this city, has brought suit against George Johnson & Son in the Superior Court, seeking damages to the amount of \$1,500 as a result of injuries received while in the employ of the defendant. The plaintiff was at work trimming trees, when it is alleged that the ladder on which he was standing gave way precipitating him to the ground several feet below. The suit is based on defective apparatus.

Work on the new flower market organized two weeks ago, is being pushed rapidly at the new quarters on Washington street, opposite the City Hall, an ideal location for a market place. It is the intention of the directors to have the store completed and ready for business, October 1. The directors of the new organization are: John A. Macrea, 1255 Smith street, Alexander Macrea, 1138 Smith street, both of Providence; J. H. Cushing, Quindnick, R. I.; Walter S. Nichols, Hamden Meadows, R. I.; and Fred Hoffman, of Pawtucket, R. I. The following persons were elected officers of the association: President, John A. Macrea; vice-president, Walter Macrea; secretary, E. E. King; treasurer, Olney H. Williams.

GREENHOUSE CONSTRUCTION AND HEATING

An Illustrated Address before the Vegetable Growers' Association of America at Boston, Mass., by W. R. Cobb of the Lord & Burnham Company.

The subject which I have been assigned to speak on this evening, is a most interesting and extensive one. It is so extensive that it is impossible in one evening to touch other than briefly on the various parts and the part each of the various details plays in the finished structure of an up-to-date greenhouse. Each of these parts, such as the superstructure, ventilation, plant benches and heating, are capable and worthy of considering separately.

But as it is not possible for us to have more than one session, I shall try to cover the subject in a general way and trust that our time together may be profitable. I shall not try to go into mathematics and other of the various sciences which are called into requisition in designing an up-to-date greenhouse, but simply present in a pictorial way, the results that have been obtained and progress made.

The Old Type of Greenhouse.

It is a long step from the cumbersome greenhouse of 50 years ago, to the modern cobwebby structure of today. The illustration which we have before us on the screen, is typical of the early greenhouse. They were generally built against a high wall, the wall being on the north side. This wall was quite a factor in supplying heat during the night. You know how a piece of masonry will absorb heat with the sun shining on same, and how it feels warm for a long time after the sun has ceased to shine upon it. So these high walls absorbed the heat and gave it up to the greenhouse during the night. In those days, the only method of heating was to have a stove or a long flue either of pipe or masonry running the length of the greenhouse, through which heated air generated by a furnace was attempted to be carried.

Now as the construction of the superstructure, a heavy wooden sill was placed on top of the front wall. Heavy wooden rafters were placed about 3 feet apart and sash glazed with glass only 6 inches wide, were placed in the roof. The top sash was arranged to slide down for ventilation and was operated with a system of ropes and pulleys.

The crops raised in houses of this type were far from satisfactory as you can readily realize, as with the amount of wood used in their construction and the narrow glass the percentage of light admitted was very small, to say nothing of the cold air admitted through imperfect construction.

Later, full span houses were built of similar construction.

Mr. Lord, who was the founder of the L. & B. Co., was a great lover of flowers and also a thorough mechanic. He had a small greenhouse in his yard built similar to the last one I have shown you. Mr. Lord became dissatisfied with the results obtained and made up his mind that if horticulture

was to make any progress it would be necessary to greatly improve the construction of the greenhouses, so he built himself a house which proved to be so far ahead of anything yet built, that his services were soon in demand among the local community. It was not long before the success attained in these new houses spread beyond these narrow limits and the greenhouse business, as a business by itself, was launched. It has continued from that time to grow until it has reached its present proportions. The outlook for its continued expansion, improvement and stability is bright.

Construction and Principle.

The house adopted and built by Mr. Lord was the same as is universally used today, namely building the roof as a permanent sash, with separate small ventilating sash at the ridge. This method increased the amount of light in the greenhouse as well as furnishing a weather proof construction. Methods of supporting the roof members are today numerous, but they all are simply a means of making the principle stated above, stable and lasting. In the early days there was no glass on the sides. Walls of brick or stone were built and the roof sprang directly from the top of these walls. The inside level of the greenhouse was generally on a lower level than the outside grade. This was done so as to reduce the surfaces exposed to the outside air as much as possible. Most of the houses were narrow and the plant benches were so close to the glass that it was impossible to grow plants of any size except on the outer edge of the benches.

The next step forward was to make the roof curved instead of straight.

The roof was constructed with two radii, the lower one being about 8 feet radius, the upper 45 feet. This gave more room for the plants on the outside of the plant beds. The glass was not bent, but short lights were used and as the radius was large compared to the length of each light, the difficulty was solved the same as in building a curved part to a brick house with ordinary straight bricks.

With the introduction of hot water and steam as a heating medium, it became possible to increase the width of greenhouses, and houses of 20 to 25 feet in width became common. This gave room for a centre plant bench.

Then came the introduction of glass on the sides increasing the height from the walk level to the gutter line. By doing this it was possible to build the roofs without the curves and still have room on the side benches for medium sized plants. The masonry wall was cut down to almost grade and wooden vent panels about two feet high placed on the sides below the top of the plant bench. This in a measure is an ideal way of ventilating a house where side ventilation is required, as the cool air from outside has to first pass over and around the heating pipes, which takes the sting from the air.

Iron Construction Introduced.

At this time commercial houses were built with locust posts set about

three feet in the ground and four feet above, and boarded up to the eaves. As the tendency towards wider houses increased and wood decreased in quality it became necessary to find some construction that would take the place of that then in use. The use of iron as a building medium was at this time attracting attention, and to this metal attention in the construction of greenhouses was turned. Cast iron sills were substituted for the three-piece wooden sill and iron rafters and purlin.

The first iron frame greenhouses to be built were those for Mr. Jay Gould, at Irvington, N. Y. Here a cast iron sill capped the masonry walls and iron rafters and purlins capped with wood were used to support the superstructure. The principle of this construction today is still used in all iron or steel greenhouses. The details may be changed but the principle of having the iron or steel framework on the inside of the greenhouses, while all members which receive the glass are of wood. This construction after repeated experiments has proved the most suitable to our variable climate and has stood the test well.

The next important step in the construction of commercial houses was the introduction of what is known as the Cast Iron Foot Piece Construction. A post or foot piece made of cast iron was placed in the ground about 30 inches, and to these the steel rafters were bolted. The sides up to within two feet of the eaves, were built of two thicknesses of boards with paper between. This made a cheap and substantial construction.

Next wooden gutters and eave plates were dropped out and angle iron used in their place. The bars and rafter caps were fastened to this angle iron with a small cast iron fitting. The eave plate having part of its surface exposed to the inside temperature of the greenhouse conveys the heat to the outside surfaces and to a certain extent prevents the formation of icicles on the outside. Certainly it was and is a great improvement over the wood plate and gutter, which were the first members in a greenhouse to decay.

Use of Concrete and Hollow Tile.

Concrete and hollow tile are now being used for the sides instead of double boarding. Where hollow tile is used, it is necessary to plaster the outside and inside surfaces of same with Portland cement mortar. Then, too, the tile have to be cut, and it requires more or less time and ingenuity to use the tile to the best advantage without waste. From observation and tests it seems as if concrete made with clean cinders was the cheapest and best to use. The cinders being more or less porous, makes a concrete full of air cells which accomplishes the same results as the hollow spaces in the tile. The walls need only to be four inches thick, and when a light cast iron sill is placed on top of same you have a construction which is practically indestructible, and as the upkeep is small, this form of construction is the cheapest in the end.

During all this time, the distance between the rafters has steadily increased, the wood members made smaller and the width of the glass increased. From glass six inches wide to 24 inches is the history, although for many reasons of economy, glass 16 inches wide has been and is generally used.

Ventilating sash are now made continuous instead of a number of separated sash.

As the glass has increased in width, so has the width of the houses, so that now houses 30, 40, 55, 60 and 75 feet are common. Some have been built over 100 feet, but it is doubtful if houses as wide as this are a success unless built on a slope so that the roof can have sufficient slope to properly shed the water and not have a shower on the inside as well as the outside. A pitch of 32 degrees in houses up to 30 feet in width is preferable, and from 30 to 50 feet 28 degrees have been found a good angle for roofs, but 26 degrees is all right for houses 50 feet and over.

Now as to Supports.

30 foot houses require no columns.	
35 " " " "	two columns.
40 " " " "	two columns.
55 " " " "	four columns.
60 " " " "	four columns.
70 " " " "	six columns.

There are several firms building greenhouses in which the principle of construction is to truss the roofs, thus eliminating columns to a great extent. This would be all right if the trusses were constructed on a compression basis, but they are constructed to a large extent on a tension basis and depend upon all members being constantly in tune, as it were. Now there is considerable vibration in a greenhouse roof and the constant movement is bound to stretch the light rods, etc., which are used in the construction. As soon as one member loses its tune it puts all the others out also, and I believe that a greenhouse constructed on this principle will deteriorate more rapidly than one supported by columns or with columns and compression trusses. Time will tell, but if you compare two houses of the same age I know that the house constructed on the compression principle will be in better shape than the one constructed on the tension principle.

Semi-Iron Frame Construction.

We have been considering what is known as the iron frame greenhouse construction. There is another type known as pipe frame or semi-iron construction. The difference between the two is not very great, the difference being that the steel rafters are omitted, the roof bars, etc., are supported by longitudinal purlins made of pipe. These purlins are in turn supported by pipe columns. The painting, glazing and heating in this construction are the same as in the houses where rafters are used. There is a slight saving in the cost of this house as the steel used is less and the parts require less mill work. All parts both iron and wood are given three coats of paint, one before shipment, one after the framework is erected and before the glass is set and a finishing coat after the glass is set and the other parts finished.

The majority of houses are glazed with double thick quality "A" glass in

16 inch widths and 24 inch lengths. The joints are lapped about $\frac{1}{4}$ inch and the glass bedded in putty. The use of glass 24 inches wide has been quite extensive and, inquiring among the florists and gardeners, the additional light and results obtained by using glass 24 inches wide instead of 16 inches wide are not appreciable. It seems on first thought, that there must be considerable advantage and lightness obtained by using the wider glass, but the bars and other members are so small in an up-to-date house, that eliminating every other bar does not appreciably increase the growing qualities of a house. There are some structural drawbacks to wide glass, and the consensus of opinion is that 16 x 24 inch glass is commercially the best.

As to the Width of Houses.

The width and lengths of houses have steadily increased until now they are only governed by the length and width of a man's pocketbook. Formerly, 18 and 20 feet were the most popular widths, but today few growers consider anything under 30 feet; 40, 50, 55, 60, 70 feet and so on are common. Several vegetable growers have built houses between 40 feet and 45 feet wide and have figured out this width as the most practical and economical width, but others build wider and almost each one has ideas of his own, which it is the greenhouse builder's pleasure to design and construct.

Houses of the $\frac{3}{4}$ span shape are built, but not as extensively as in former years. The long slope faced south and consequently they were supposed to receive a greater amount of sunlight. I have seen full span and $\frac{3}{4}$ span houses built beside one another with the same plants growing in both. No difference could be observed in the plants and there was no appreciable difference in the financial returns.

With the light construction now used, I do not believe it makes any difference whether a house is built facing south, east or west, providing there are no trees, hills or other objects to shade same. The topographical conditions of the site play an important part in the location, as these vary in each case, and each case requires individual consideration.

Ventilation.

Houses intended for the growing of vegetables should have four lines of ventilation. This is accomplished by placing a line of continuous sash on each side of the ridge and one line on each of the vertical sides. The sash are from 30 inches to 36 inches wide and up. These sash are opened and closed with machinery specially designed for this purpose. There are numerous types of machines on the market but they all are constructed on about the same principle, namely a continuous shaft of pipe or steel rod to which are attached arms and rods which in turn are fastened to the sash. A gear of the self-locking design and operated by hand power is arranged to turn the shaft which communicates its power to the rods and arms causing the sash to open and close.

The use of solid plant beds in commercial greenhouses is rapidly taking the place of raised plant benches. Many vegetable growers plant directly in the ground, plowing the ground

and working the crop the same as out of doors. Where beds are used they are not built over 12 inches above the grade and the soil confined with planks or light concrete walls.

Heating.

The heating for greenhouses is certainly one of the most important features of same. It is here that one shovels his dollars into a furnace. Too much attention cannot be given to the installation and management of the heating system. At the present time there are two mediums employed, steam and hot water. Both have advantages, but it is pretty well established that heating by hot water produced the best results. Hot water produces a condition more like the heat generated by the sun. Steam gives a more intense heat. While it has proved satisfactory, it is a fact that the large florists are more and more reverting to hot water as a heating medium. Whether hot water or steam is used, the method of piping the house is the same. If steam is used, the pipes are $1\frac{1}{4}$ -inch, and if hot water, either 2-inch or $1\frac{1}{2}$ -inch. The pipes are placed along the sides of the house hung to the side walls. There should also be some pipe laid through the centre of the house. Just how and where to place these pipes varies with the conditions to be met. The number of pipes depends on what temperature is required, the amount of glass surface, the extreme average temperature of the locality in winter, the exposed or protected situations of the greenhouse, the good or bad construction of the greenhouse itself, and many other small details which are used in designing a successful and economical heating system.

If steam is used, it should be a low pressure system as the wear and tear on the pipes should high pressure be used, would be great, to say nothing of the too intense heat generated. The boilers may be set in a cellar the level of which is considerably below the level of the greenhouse. In such a case, the condensed water is returned to the boilers by gravity. If the boilers are on the same level as the greenhouse a pump of some kind must be used to return the condensation.

It is the same with hot water. In a hot water system, there are two ways employed in generating the heat. The first and one most used, is to heat the water directly in a boiler and circulate same through the pipes in the greenhouse; the other, is to heat the water in tanks using exhaust or live steam to heat the water. In the latter case, the steam passes through a coil in enclosed tank, the water surrounding the coil. The steam in the coil imparts its heat to the water, which in turn leaves the tanks, circulates through the pipe returning to the tank to be again heated.

Forced Circulation.

There are two other methods used to circulate the water, other than by the gravity method. One is to have an accelerator connected to the mains. This device is simply a propeller turned by an engine of some kind. The propeller hastens the speed at which the water circulates, helps it over many declivities and returns it at a higher temperature to the boiler. The other method is what is known as

Forced Circulation. This method requires the service of a pump of some kind. The water is heated and then forced by the pump through the pipes in the greenhouse and back to the boiler. The pump may be operated by steam, electricity or gasoline. The old fashioned plunge steam pump is, I believe, the most reliable, but pumps driven by the other methods that I have mentioned have proved satisfactory. There are several advantages of heating by forced circulation and I believe it is the method which will be used in all large plants in the future. In the first place, the size of the pipe used for the mains and heating coils, can be smaller than in a gravity system. The water returns to the boiler at a higher temperature and it is possible to heat a house more evenly. I am sorry that I have not more time at my disposal to go into the subject of heating more fully. It is one that is full of pitfalls, even to the initiated. What I have said, outlines the general principle. The ratio of determining the number of pipes to the glass surface, the size boiler required, the distribution and grading of pipes, size of mains, etc., are really up to the heating engineer, but if growers knew more about these, they would not be apt to have a heating apparatus designed and installed which will prove far from satisfactory and not what was desired.

The more one knows about everything that is used or in use in one's business, and that knowledge used wisely, just so much more successful will the business become.

A few years ago, growing vegetables under glass was almost unknown. Now the cultivation of vegetables in greenhouses is increasing rapidly and as time goes on, I expect and predict that the industry of growing vegetables in greenhouses would have reached such proportions that we shall be supplied with vegetables in winter, as in summer, and the cost not much greater than growing vegetables out of doors.

Vegetables and fruit grown under glass have a finer flavor than those grown out in the open.

There is no country in the world that offers the opportunities that ours does, and it behooves us all to make the best of these opportunities in what ever line we may be engaged.

UNIQUE WHITEWASH USED IN URUGUAY.

(From Report of Consul Frederic W. Goding, Montevideo.)

When traveling through the rural districts of Uruguay, one's attention is attracted to the fine white color of the farm buildings, even during the wet season. To obtain this neat effect a whitewash is used which is made with the sliced leaves of the common cactus, macerated in water for 24 hours, producing a solution of creamy consistency; to this lime is added and well mixed. When applied to any surface, be it of wood, brick, iron, or other material, a beautiful pearly white appearance is produced which will endure through storms and frosts for many years. In sections of the United States where the cactus is a nuisance, the plant might be utilized in the manner suggested.

STEVENSONIA GRANDIFOLIA.

A beautiful stove palm; not new but uncommon. Offered by Direct.

GREENHOUSES BUILDING OR CONTEMPLATED.

Eugene, Ore.—R. Rae, addition.

Rochester, N. Y.—H. P. Neun, one house.

Haverstraw, N. Y.—John J. Coonan, addition.

Lexington, Ky.—Miss Fannie White, one house.

Evansville, Ind.—Louis Fritsch, house 14 x 60.

Elmhurst, Calif.—G. Ukai, carnation house 25 x 100.

Southington, Conn.—William Fischer, one house.

Northboro, Mass.—Dr. J. M. Stanley, house 42 x 200.

Greenwood, Mass.—John Barry, Main street, one house.

Grand Rapids, Mich.—Freiling & Mendels, range of houses.

Buffalo, N. Y.—Park Commissioners, Delaware Park, one house.

Grants Pass, Ore.—E. Mayer and B. Nyberg, range of houses.

Providence, R. I.—The Westminster Greenhouse, Inc., addition 30 x 35.

West Medway, Mass.—Robert Doherty, carnation house 24 x 100.

Jackson, Mich.—Burt & Coggin, formerly at Kalamazoo; range of houses, 20,000 ft.

Des Plaines, Ill.—Warren Garland, carnation and sweet pea house 25 x 225. Sol Garland, carnation house 25 x 225. Grant Wilkin, one house.

Erie, Pa.—Edward Lichtinger and Charles Wells, West 26th street, range of houses, to be known as Cherry Hill Greenhouses. Jesse Frost, Caldwell street, one house.

Reports have come that Salzer Bros.' greenhouses at La Crosse, Wis., were totally wrecked by a recent storm which was so severe that north windows were broken all over the city.

DETROIT SCHOOL FLOWER FESTIVALS.

A very interesting event was the annual Flower Festival brought into being by the Twentieth Century Club. School children who got seeds from this club last spring bring their product to their respective schools, and keen indeed was the competition for the many prizes. Ladies of the club and the following florists acted as judges: M. Bloy, F. Danzer, F. Holz-nagle, M. Sullivan. Twenty-five schools participated.

The most interesting display and the one receiving first prize was arranged in the kindergarten room of the Wingert school. The whole room represented a back yard with a summer house in the far off corner in which a tea party was in progress. A serpentine walk bordered with red and white asters led up to this, while beds of other flowers in artistic color combinations were distributed over the lawn. On the other side of the hall boys busied themselves hilling corn, and girls took care of beds of zinnias and marigolds.

Many of these exhibits showed very practical lessons and some of the flowers and their style of arrangements, as also some vegetables, would have been a credit to a professional.

FRANK DANZER.

Lowell, Mass.—All the florists in the city have been notified of an action taken by the police board relative to Sunday business. Many of the florists, it seems, have somewhat watched the rule that allowed them to keep their shops open until Sunday noon, so that hereafter no such thing will be allowed. They may receive orders up till late Saturday night, and make up and deliver these until 11 a. m. on Sunday, but the shops must not be open at all on Sunday, except to fill the orders.

A FARMER'S DINNER.

To enter, for one thing, emphatic protest against the proposition that the farmer has no compensating advantages for all his troubles as compared with the city dweller, and for another, to show that those high-toned places like the Union League, Dooner's, The Bellevue-Stratford, et al, with their million-dollar buildings and regal salaried chefs, can never reach the highest pinnacle of viandic freshness, fragrance and perfection, two Bucks County farmers, Dr. John H. Washburn of the agricultural college known officially as the National Farm School, and Howard M. Earl of Fordhook Farms, invited a select party of city men—scoffers, bon vivants, philistines, poets, philosophers and unbelievers—for the purpose of giving them an object lesson, Sept. 14, 1911, to a farmers' dinner at Farm School, Bucks County, Pa. (Whew! That's a long sentence. We shall be aspiring to the Gladstone and Cleveland hilltop if we can sustain a gait like that and still be understood without putting in a full stop.)

They made a day of it—and what a day! Brilliant sunshine, a crisp, clear September day, their hosts to meet them at the station, a drive through the college grounds, then over to the Fordhook Farms adjoining, a drive through these and inspection of the brilliant fields of scarlet sage, zinnia, marigold, phlox, and scores of others, for testing, some for seed saving, then down to the farm buildings and a look through the model arrangements for the care and increase of the world-famous Burpee pedigree stocks of chickens, collies, and other pet and useful "horned cattle." In passing the Burpee residence, who should appear smiling on the porch but "the big chief" himself, and nothing would do but that the party must disembark and come inside for a brief rest. Those who know Burpee know what a prince he is at doing the honors. Of course there was the usual chat and rest, then the jest and repartee and general wakening up, after which Everett, the English butler and body squire of the chief, with all his h's and courtly ways still hanging to him, appeared noiselessly from some mysterious source, bearing cheer and comfort and leaving in his wake golden smiles.

Mr. Burpee joined the party for their further adventures, which included the inspection of a peach orchard adjoining Farm School and Fordhook, and where young trees (seven thousand of them), planted about two years ago and now from five to eight feet high, show up in fine shape and are expected year after next to give their first crop, estimated at seven baskets per tree. That ought to bring fifty thousand dollars, which is going some for a fifty-acre farm in four years. The cost of cultivating, spraying, etc., is largely covered by the corn and turnip crops grown in between. After the first of July all the surplus moisture and fertility possible is taken up by these side crops so as to make the peach trees stop growing and ripen up good and hard to stand the winter. Even the weeds are allowed to riot after the first of July with the same object in view.

Returning, more of the Farm School stock and operations are seen, explained and discussed. Every phase

of agriculture and horticulture is carried on, the work being all done by the students as part of their studies in their four-year course, and the visitors were greatly impressed with the fine appearance of everything. Dr. Washburn and his able staff of professors in all departments certainly deserve great credit for the excellent showing.

By this time it was one thirty and a bell rang at the doctor's residence intimating that dinner was ready. Tom Daly called that bell "the Jewish Angelus." It certainly did not sound like the usual merry jingle of a dinner bell. Very discouraging for men with appetites whetted by five or six hours of country air! But the clouds were soon dispelled. What a dinner! Words fail us. Here is the menu:

WASHBURN AND EARL'S FARMERS' DINNER.

Thursday, September 14, 1911.

Cooking by Washburn.

Eats by Earl.

AN APPETIZER!
Guess what it is?

OLIVES.

Home made from Farmers' Grape-vine.

COMPOST.

SOUP.

Better than Dooner's.

FISH.

From Lake Rosenthal.

SWEETS.

DUCK.

That Earl swiped from the cradle.

APPLE SAUCE.

To be eaten through a straw.

SWEET CORN.

Washburn's Folly.

LIMA BEANS.

Burpee's Best.

TATERS.

Not marbles.

ONIONS.
Without odor.CELERY.
"Boughten"

WOLFF'S CLEAR CIDER.

MYSTERY SALAD.

The ingredients have been accumulating all summer.

RAT-TRAP CHEESE.

ABERNETHY BISCUITS.

BLACK WALNUTS, from Farm School woods.

FORDHOOK CHICORY.

HOT WATERMELON. DYSPEPSIA PIE.

If "eats" are unsatisfactory please make complaints in writing to Dr. John H. Washburn, Farm School, Bucks Co., Pa.

After about two hours of most scandalous demolition from beginning to end, those who were still able to talk voted unanimously "A farmer's life for me," and those who were too full for utterance went out and stretched themselves under the pear trees.

Then came more sight seeing. Bye and bye came another impromptu meeting at the Burpee residence, which had some speech-making and almost developed into a little home concert. Conspicuous features of the day's speeches, megaphone and otherwise, were Attorney Louis Boss's appreciation of the merits of Wolff's sweet cider, and Editor George Donnelly's dissertation on the virtues of "Swiss chard" as compared with spinach. The latter was most sincerely convinced that his mission in life had at last been struck. That Mr. Earl and others might hint that they had been telling the American people that very thing for thirty years and more, made no impression on George Donnelly. He was in the full gallop of the new discoverer. A secret came out about the ladies of the Washburn and Earl families. They had disguised themselves in neat waitress uniforms and most of the guests being

strangers they had great fun at getting in touch with a lot of men folks in the abandon of a stag dinner. Fortunately everybody behaved well. There was no flirting and the only cuss word we remember came from the only clergyman in the party.

In his own inimitable way Mr. Burpee made the speech of thanks to the ladies. Dr. Daly gave some of his wonderful stories and recitations. These have made him famous on almost every stage all over the United States and Canada. Two of the Emperor William prize tenors, C. Howard Reed and T. Frank Dooner, gave a sample of their quality to please Mrs. Burpee and the other ladies present. When train time came it was the most chastened, subdued and admiring lot of city men that bade adieu to their hospitable, able and wonderful hosts. Happy to meet—sorry to part—happy to meet again.

GEORGE C. WATSON.

[P. S.—To Our Readers: A clever man (we think it was Charles Dudley Warner) once said that the next best thing to having a garden of one's own was to read about one. We may emphasize that by saying, the next best thing to attending a farmer's dinner is to read about one. We trust our readers will enjoy at second-hand this veracious account of our correspondent who seems to have been there.—Ed.]

NEWS NOTES.

Middletown, N. Y.—Robert Crawford, florist, Cottage street, was cut and bruised in an automobile accident at Newburgh on Sept. 8.

Akron, Ohio.—H. Heepe, florist, has sued O. C. Barber of Akron for \$822 for material alleged to have been furnished Barber's country home.

Grants Pass, Ore.—Five acres of land near the city park have been purchased by E. Mayer and B. Nyberg of Seattle, who will put up a greenhouse plant and engage in the florist and nursery business. The concern will be known as the Grants Pass Floral and Nursery Co.

HERBERT, ATCO, N. J.
DAHLIAS Every Day in the Year

Boddington's Quality Christmas and Winter-Flowering Sweet Peas

ALL true stocks of Winter-Flowering Sweet Peas will be scarce this season. Some varieties are a total failure, owing to the exceptional season in California this Spring. We can make immediate delivery of the varieties marked with a star (*), the balance we are expecting from our grower in California at any time. Our advice to intending planters is to order early.

Our stocks of Christmas-Flowering Sweet Peas have stood the test for years, and we can refer you to the largest growers of this increasingly popular flower, as to the trueness and quality of our seed, earliness of blooming period, and strength and habit of plants.

The following varieties are the "best by test" and include Zvolanek's and our own introductions, grown for seed from selected stocks by the leading California Growers and Specialists of Sweet Peas. Our output last year was nearly 6000 lbs. No kicks and plenty of testimonials as to quality, germination and trueness to type.

BODDINGTON'S QUALITY WINTER-FLOWERING SWEET PEAS

At the Exhibition and Convention of the National Sweet Pea Society of America, July 12th and 13th, 1910, we again won the C. C. Morse & Co's Silver Cup for the finest and best collection of Sweet Peas open to the trade only

***BODDINGTON'S EXTRA EARLY CHRISTMAS WHITE SNOWBIRD.** An exceptionally early Sweet Pea for indoor flowering—will bloom six weeks after sowing. Color clear white, upon long stems; habit fairly dwarf and of exceptionally free-flowering qualities. Without doubt, the finest early white for indoor planting. We sell one grower in Pennsylvania 35 lbs. of this variety every year, name on application. Oz., 30 cts.; ¼ lb., 85c.; ½ lb., \$1.50; lb., \$2.50.

***BODDINGTON'S CHRISTMAS PINK.** This is the earliest and most profitable and useful Sweet Pea in cultivation, as by sowing the seed under glass in latter part of August flowers can be cut from Thanksgiving on during the Winter months. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***BODDINGTON'S CHRISTMAS WHITE.** A companion to our Christmas Pink. Just as free and profuse a bloomer. Oz., 15 cts.; ¼ lb., 50 cts.; ½ lb., 85 cts.; lb., \$1.50.

***BODDINGTON'S CANARY.** Similar to the above, but flowers of an exceptionally good yellow. Oz., 35 cts.; ¼ lb., \$1.00; ½ lb., \$1.75; lb., \$3.00.

***BODDINGTON'S FLAMINGO.** Color scarlet; free-flowering and early. Oz., 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00. **Christmas Meteor.** Scarlet; fine open red flower. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00. **Christmas Captain.** Blue and purple. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Florence Denzer.** Pure white. Oz., 15 cts.; ¼ lb., 50 cts.; ½ lb., 85 cts.; lb., \$1.50. **Le Marquis.** This is the same color as Princess of Wales, violet; has very large flowers. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Miss Helen M. Gould.** White, open flower; standard lilac, marbled. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Miss Josey Reilly.** Lilac; very large flowers. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Mrs. E. Wild.** Carmine or dark pink. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Mrs. George Lewis.** Large, pure white wavy flower. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

Mrs. W. W. Smalley. Satiny pink. Oz., 35 cts.; ¼ lb., \$1.00; ½ lb., \$1.75; lb., \$3.00. **Mrs. F. J. Delansky.** Daybreak pink. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Mrs. Chas. H. Totty.** Sky-blue; late. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

Mrs. Zvolanek. Blue, variegated; good for variety. Oz., 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00.

***Watchung.** Pure white. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Wm. J. Stewart.** Blue self. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

All other varieties of Winter and Summer-flowering Sweet Peas supplied. Write for quotations.

PHILADELPHIA NOTES.

C. H. Grakelow is running for councilman in his ward on the republican ticket.

S. B. Dicks was the guest of W. Atlee Burpee at the Union League on the 13th inst.

Harry Berger, of Berger Bros., reports a very enjoyable ten weeks up the Penobscot beyond Bangor, and returns to business with his health entirely restored.

Samuel S. Pennock and family reached Lansdowne last Monday and S. S. P. got back to the store on Wednesday. Now things will begin to happen—the boss is on his job again.

The builders fell down on their expectations for the new Niessen building—and the Leo Niessen Co. were unable to move in on the 18th inst. as expected. The event is now scheduled for September 25th.

Mrs. John H. Dodds has returned from a visit to the seashore, feeling greatly improved in health. Some serious surgical operations of the past few years on a wrong diagnosis seriously impaired the patient's health—and it is gratifying to learn that at last there is good news.

Good packing is a feature of the dahlia shipments coming from the Peacock Farms to Niessen's this year. Single layer boxes containing 100, 150 or 200 blooms are sold unbroken as they stand—thus saving much labor and insuring more presentable flowers. Dorothy Peacock is one of the most charming of the new ones and finds ready sale at good figures. Jack Rose is another in the same category.

Michell's will hold a Dahlia Show, September 26, 27, 28 and 29. There are ten classes and first and second prizes (cash) are offered in each. Private gardeners only allowed to compete. All flowers to be delivered not later than 5 p. m. of the 25th. The arrangements of the flowers and the general management of the exhibits are under the direction of Philip Freud. As an adjunct a fine showing of perennials, gladioli, bay trees, palms, etc., will be staged. The judges of the dahlias are W. C. Herbert, A. L. Turney, L. K. Peacock and Maurice Fuld.

CINCINNATI NOTES.

Frank Farney, representing M. Rice & Co., Philadelphia, called on his trade last week.

The Hyde Park Rose Company at their recent annual meeting re-elected Gus Meier president and elected Ben Sonnenberg secretary and treasurer to succeed Al. Sunderbruch, who resigned as such.

Max Rudolph and Henry Schwarz have returned from Europe. Max says the only thing he missed was the pleasure of seeing his fellow-traveler seasick while Henry states that they overlooked nothing.

C. E. Critchell a day before he was to depart from the Snows for home had the misfortune to fall and cut a gash in his leg, from below the knee to the ankle. Other voyagers who have returned are: B. P. Critchell, from Benton Harbor; Gus Adrian,

PRIMULA MALACOIDES

"The Glorified Baby Primrose"

Offered for the first time in America. This variety will continue sending up a succession of blooming spikes (color, beautiful lilac), giving the appearance of a shower of blooms.

The individual flowers are much larger than P. Forbesi and infinitely more freely branched. It is highly recommended either for cut flowers or for plants, which sell readily on sight. Per trade pkt., \$1.00; ½ pkt., 60c.

Our Fall Bulb Catalogue of Quality Bulbs, etc., now ready.
A post card will fetch one by return mail.

Arthur T. Boddington, Seedsman, 342 W. 14th St., New York

NEWS NOTES.

Winchendon, Mass.—W. W. Rhuland is about to give up his River street greenhouses.

Chicago, Ill.—Chappel, the florist, on 53rd street, who started in business last fall has closed his store.

Great Neck, N. Y.—Robert Thomas, gardener to Mrs. Eldridge, has obtained a pure white seedling Amaryl-lis. The seedling is very strong and handsome, quite an acquisition.

Bowling Green, O.—Hiram Waifel, of the Waifel Floral Co., Muncie, Ind., has leased the florist business of Mrs. George Mercer. He intends to do a wholesale as well as retail business.

Barrington, R. I.—A small tornado visited this town Monday, wrecking greenhouses, uprooting trees, blowing down signs and breaking hundreds of windows. The storm lasted for ten minutes only and cut a swath 50 feet wide and about a mile and a quarter long.

Baltimore, Md.—W. E. McKissick, of the S. S. Pennock-Meehan Co., visited a number of the Maryland growers last week. He reports stock to be in excellent shape and making a good appearance. The rains of the past few weeks have aided the dahlia crop and other outdoor flowers wonderfully.

Dreer's Imperial Japanese Iris

Our stock of these beautiful Japanese Iris is not only the most extensive in the country, but is also the largest assortment of home grown varieties offered and can be relied upon to be true to name and color.

September and October are the best months to plant. We supply strong liberal divisions of the most satisfactory planting size.

DOUBLE FLOWERING OR SIX PETELED JAPANESE IRIS

- No.
- 3 Kosui-No-Iro. Light violet with white veins.
 - 4 Yomo-No-Umi. A fine free flowering early double white.
 - 5 Koki-No-Iro. Rich royal-purple with white veinings.
 - 8 Tathelraku. Ten petals, crimson-purple with yellow centre.
 - 20 Kuma-Funjin. Silvery white, with a broad border of magenta-lilac veined with white.
 - 22 Sano-Watashi. White, with canary-yellow centre.
 - 24 Gosetsu-Mai. White, veined and traced throughout with outline-blue.
 - 26 Uchiu. Bright purple with crimson sheen.
 - 44 Yoshimo. Very large flower; creamy-white, delicately veined with violet.
 - 47 Renjo-No-Toma. Petals peculiarly fluted, light violet with white halo and light veinings.
 - 49 Wakamurasaki. Crimson purple with dull lilac shadings at base of petals.
 - 57 Hodai. Silvery-gray, suffused and densely veined with violet purple.
 - 58 Mana-Isuru. A fine, late-flowering white.
 - 65 Ho-O-Jo. Rich velvety-purple with crimson sheen.
 - 68 Fuji-Mine. White, veined with deep purple.
 - 69 Waku-Hotei. Pure white, veined throughout with purple, fine late flowering variety.
 - 71 Gelshol. Eight to ten petals; bright crimson-purple with white veinings; full double flower.
 - 72 Uji-No-Hotaru. Bright violet-purple, shaded blue.
 - 91 Kan-Ran. White; densely veined with rich violet-purple.
 - 95 Raiden. White ground, densely dotted and blotched violet.
 - 105 Nagano. Rich violet-purple, shaded with blue.
 - 108 Shimosa. White ground minutely and densely spotted throughout with bright violet-purple.

SINGLE FLOWERING OR THREE-PETALED JAPANESE IRIS

- No.
- 1 Iso-No-Nami. Silvery white, veined with violet.
 - 2 Tora-Odori. White, faintly traced with violet.
 - 6 Dairi-Dogu. Rich violet-purple with metallic sheen.
 - 11 Hano-No-Nishiki. Bright violet-purple, veined with white.
 - 12 Shippo. Light lilac; densely veined with purple.
 - 15 Gekka-No-Nami. A very early pure white.
 - 18 Meiran. White, densely marbled and veined with light-violet.
 - 23 Yedo-Kagami. Magenta lilac, veined with white.
 - 43 Shi-Un-Ryo. Greyish-white, deeply and densely veined and suffused with violet.
 - 62 Misutmoshito. Violet purple, marbled with white.
 - 67 Kiguan-No-Misao. A late-flowering pure white.
 - 70 Kimi-No-Megumi. White, densely veined with purple; late flowering variety.

- No.
- 73 Shirataki. Silvery white, border of petals suffused with light Parma-violet.
 - 76 Mine-No-Yuki. White, veined and dotted throughout with violet-purple.
 - 77 Yayaura. White, occasionally marbled with light violet.
 - 80 Bunbudo. Bright violet-purple with darker veinings.
 - 82 Ari-Ake. Violet purple, marbled with white.
 - 96 Tebotan. White ground, with prominent violet-blue veinings.
 - 97 Shiro-Fungen. Light ground, suffused throughout with bluish-violet.
 - 98 Osakazuki. Light violet mauve with lilac shadings.
 - 99 Komanyo. Bright violet, shaded with blue, numerous white veins and markings.
 - 100 Yomo-Zakura. Light ground color, densely veined and suffused reddish purple.

Price, any of the above named varieties, \$1.25 doz.; \$8.00 per 100; \$70.00 per 1000.
 Unnamed mixed varieties 85 cts. doz.; \$6.00 per 100; \$50.00 per 1000.

A FRIEND'S TRIBUTE.

Editor HORTICULTURE:

On my return from a short vacation, I was very sorry to learn through a note in HORTICULTURE, of the death of Mr. Archibald Smith, Oxford, England.

Those of the older generation in Boston will remember Mr. Smith as a kindly generous-hearted man, but with a faculty for direct, unequivocal, and exact statement, which, in these days of popularity seeking, is rare.

Mr. Smith's training as a seedsman was of the most practical kind; literally he knew the business from the ground up. While he was in Boston, it was my pleasure to listen to a talk he gave to a number of gardeners and others, on "Seeds," in which it was agreed he displayed a knowledge of both the practical and technical sides of the business, so intimate that it is attained by few.

The qualities of his heart and head endeared him to many of us, and the world can ill afford to lose such men.

J. C. SCORGIE.

Mt. Auburn Cemetery, Cambridge, Mass.

Andover, Mass., Sept. 19, 1911.

HOW MANY BULBS TO THE ACRE?

Editor of HORTICULTURE:

In Mr. Newell's article in HORTICULTURE of Sept. 9, he seems to regard the account of a gladiolus grower planting 200,000 bulbs to the acre as a "lot of rot." Now if he will take a trip to Orange, I will show him how first size bulbs are planted in my field at the rate of 110,000 to the acre, and the smaller blooming sizes can be planted so that 200,000 can easily be planted on an acre. It is not necessary to plant gladioli six inches apart in single rows, nor is it practical, or economy for the commercial grower to waste valuable land in this way.

Regarding what he says about mulching his gladioli to protect them against the cold ground and weather, this was altogether unnecessary, for I have had my plantings covered with snow and a frozen crust on the surface of the ground after my gladioli were four inches high, with absolutely no harmful results.

L. MERTON GAGE.

NEWS NOTES.

Temple, Texas.—J. R. Boyd, of Cleburne, has established a greenhouse plant upon a site in the northern part of the city.

Grand Rapids, Mich.—Wealthy Ave. Floral Co. have just completed office and workroom in cement blocks and contemplate rebuilding a large part of their greenhouse plant in the spring.

Detroit, Mich.—A heavy gust of wind on September 18, wrecked the scaffolding around J. A. Stahelius' new chimney, demolishing 50 feet of an adjoining greenhouse at the same time.

Seed Trade

Pea Estimates and Deliveries.

Two weeks ago we stated that one or two of the pea growers had been induced to submit estimates of their expected deliveries on contracts, but their example does not seem to have been followed up to this time by the majority of the growers. At least we have not learned of any. Beyond doubt, however, estimates from practically all may be expected about the first of October, if not before. It seems to be exceedingly difficult for the growers to size up conditions this year and naturally they are reluctant to over-estimate, while at the same time conditions are so bad that they do not want to represent them as worse than they are. Many seedsmen and canners will have heart failure when the estimates are received by them even when the best possible showing is made; but, as stated previously in these columns, we believe that the general average of deliveries on peas will be better than a year ago, and particularly on such varieties as Gradus, Thomas Laxton, Sutton's Excelsior, Nott's Excelsior, Gems, Telephones, and in fact nearly all of the large-podded varieties. It may be well to remark here, however, that readers should not have their expectations raised too high, as the deliveries might be disappointingly low and still be better than last year's.

The Sweet Corn Outlook.

We have stated on information heretofore received that there was likelihood of a considerable shortage in the crop of early sweet corn, but that the later varieties would make a better showing. From the latest advices received we find that it is necessary to reverse this order, as we are now informed that the early varieties will do considerably better than was expected a month or two months ago.

Fall list ready in August.

E. S. MILLER

Wading River, - - N. Y.

Q You are mostly interested in business propositions that you can make money by. Occasionally there is a rare bargain in bulbs of quality, but not often. This week we have one for you and one that is worth while. The reason is owing to unusual crop conditions in France, compelling Mr. Martial Bremond to receive late deliveries unexpectedly. Last week we did not dream that it would be possible, but here goes. We offer you the true Paper White Grandiflora Bulbs 13 cm upward at \$6 per 1,000; \$55 per 10,000; or \$500 per 100,000. Roman Hyacinths 12 to 15 cm at \$18 per 1,000; \$170 per 10,000 and \$800 per 50,000. Paper Whites are packed 1250 and 1350 per case and Romans 2000 per case. Less than case quantities at 10 per cent advance prices. The prices are duty paid, f.o.b. cars New York City too and delivery immediately; or later upon payment of 25 cents per month per case storage and 25 cents per case cartage. Terms are three months net to those in good credit standing or cash with order from unknown parties. No counter offers will be answered and nothing less than quantities mentioned will be sold at prices given. This is an opportunity that does not occur every year and is a strictly bona fide sale of real high grade products. Immediate orders requested.

Not how cheap
But how good
Still how cheap
And how good

Fresh arrivals of Formosas ready for immediate delivery — good selected stock.

while the condition of the late varieties has deteriorated considerably. Recent severe frosts throughout Connecticut and New England have considerably damaged corn, but the extent of the damage has not as yet fully materialized. We shall probably know more about this in another week. Up to the present time the western crop has escaped any serious damage by frost, which has been a very material help to the late varieties, and will greatly increase the yield. It is, of course, appreciated by all that the corn crop has reached the stage where there is no possible chance for further improvement, but unlimited opportunity for damage. It is hoped, however, the damage account may be a very small one.

Beans.

By the way, a few of the pea and bean growers have thought it advisable to send out their estimated deliveries on beans of the 1911 crop. In view of the fact that bean harvesting has barely commenced, this seems a little previous, and especially in view of the fact that the same growers have not given any estimates on peas, although the latter have been practically all harvested for a month past. Speaking of beans, we learn that there has been considerable inquiry from Germany, particularly for the wax pod variety, and that sales of considerable quantities have been consummated at strong prices. This would seem to indicate that our Teutonic friends are very much on the short side of the bean question. It may be added that inquiries for peas are even more numerous, but very few have been in the position to quote anything in garden peas.

Potato Prices.

The situation affecting seed potatoes and the potato crop in general has been rather fluctuating. Last week there was a decided slump in prices, but this week they have firmed up again, and we are believers in ultimately higher prices for this year's crop than have yet been realized.

New Seed Houses.

Some months ago we announced that Mr. F. A. Sherman, formerly of Sherman & Eberle, Auburn, N. Y., who sold out two years ago this fall to his partner, had decided to again engage in the seed business, and had organized a new company under the name of Houghton & Sherman Company. Mr. Sherman has advised us that all preparations have been made to carry on an aggressive campaign in the seed line during the fall and winter, and he hopes that many of his old acquaintances will remember him with at least a portion of their business.

The Wiseman & Downs Company, of Baltimore, has been launched and fully incorporated. We extend them congratulations and best wishes, but it is now already fully supplied with seed houses, energetic and highly intelligent action will be needed to achieve success. The Wiseman & Downs Company know this and have undoubtedly discounted all possibilities. We expect to have some further

information regarding Baltimore within the next week or two.

Quotations.

W. A. B.—“We have at last got a cabbage that fills all requirements and in honor of that wonderful achievement we propose to name it after one of the greatest of restaurateurs, Frank Dooner. We call to our assistance, in this deserved compliment, apt alliteration's artful aid, and we propose to call this great cabbage—“Dooner's Dreadnought.”

G. C. W.—“Very good! What a saving this will be in writing labels, reports and things, when it becomes so familiar as to reach the abbreviation stage! Just say D. D. cabbage.”

T. Frank Dooner.—“Doesn't that D. D. sound like a cuss word? Besides, couldn't Mr. Burpee find something else rather than a cabbage to put my name on?”

Tom Daly.—“Sit down, you foolish person! D. D. means Doctor of Divinity, and has nothing to do with cuss words.”

Final Outcome of Natural Grass Seed Crops.

Stated in brief, may be summed up as follows:

Steady—*Cynosurus cristatus*, *Dactylis glomerata*, *Poa trivialis*.

Higher—*Agrostis stolonifera*, *Agrostis canina*, *Alopecurus pratensis*, *Anthoxanthum Puelli*, *Festuca elatior*, *Festuca tenuifolia*, *Festuca pratensis*, *Festuca rubra*.

Lower—*Aira flexuosa*, *Anthoxanthum odoratum*, *Avena elatior*, *Festuca duriuscula*, *Festuca ovina*, *Poa nemoralis*, *Lolium perenne*, *Lolium Italicum*.

Notes.

Ocala, Fla.—Baxter Carn, seedsman, is succeeded by his brother, W. D. Carn.

S. B. Dicks, of Cooper, Taber Co., sailed for home on the Lusitania, Wednesday, September 20.

New Albany, Ind.—The New Albany Supply Co. has succeeded the Brown Seed store. John Zahnd will be manager.

Champaign, Ill.—A store at 10 East University avenue has been opened by the Champaign Seed Co. Cut flowers and nursery stock will also be carried.

The Kingston, N. Y., papers have been giving generous space in recent issues to David Burgevin of the firm of Valentine Burgevin's Sons, florists. This firm has a range of 22 modern houses and the finest salesroom along the Hudson. David is in charge of the sales end and his brother George looks after the greenhouse department.

A USEFUL DECORATIVE PLANT.

In the course of a conversation on the subject of decorative foliated plants for florists' use, P. M. Koster on his recent visit to this country mentioned as a subject especially deserving of attention the beautiful variegated maple, *Acer Negundo* foliis alba variegata. It is used with lovely effect abroad, he said, for June weddings and such affairs in conjunction with palms, in dark surroundings, being grown in pyramid form, about five feet high. They are cheap, strong plants costing about \$30 per 100.

CHICAGO NOTES.

Severe Storm.

A very severe rain storm, accompanied by a wind that was little short of a cyclone, passed through Chicago early Monday morning, Sept. 18, and did considerable damage. The only wonder is that more florists were not heavy losers, but the path of the storm was from the northwest to the southeast and fortunately the losers were few in number. Peter Reinberg lost heavily and at this writing no accurate estimate can be given, but it is safe to say that several houses will have to be rebuilt and that glass is broken over the entire plant. At George Reinberg's one section of houses was torn down by the wind and the stock destroyed by the falling glass, while every house will need to have more or less repair. The Schaeffer place, six large houses just north of the Reinbergs, which is rented by Charles Handel, is a complete loss. All the houses are down and the stock ruined. This place was directly in the line of the storm and received its full force. The trees all over the city were damaged, many broken down or torn up by the roots. In places hail fell, and outdoor stock is now considered out of the question for this season. Frank Beu's place was close to the path of the storm but fortunately escaped. A barn came sailing by but considerably alighted on some vacant ground instead of on the glass. The Chicago Carnation Co.'s plant at Joliet was uninjured by the severe storm of Monday morning. The government recorded six inches of rainfall. The aster plants were all down and Mr. Pyfer is rejoicing that his carnation plants are far ahead of the season.

A Prosperous Young House.

The A. Henderson Co. have completed their office and have everything in fine shape for handling their trade. A second shipment of Dutch bulbs is expected this week.

Personal.

T. E. Waters is now with the Poehlmann Bros. in their wholesale store. Chas. Erne severed his connection with the E. H. Hunt Co. Sept. 16, and

Robt. Gorcke, known as "Jack," is temporary assistant.

Edward Armstrong, of the firm of A. Lange, is taking a week's vacation in Michigan.

William Allen of Schiller's and Margaret Wagoner of Hudson, N. Y., were married at St. Margaret's church Sept. 11th. Mr. and Mrs. Allen have gone to housekeeping at 19 N. Albany street. On the 26th will occur the marriage of Herman Schiller and Helen Gaerty, and on Nov. 22nd Frank W. Paszkiet of Wiltor Bros. and Martha Robakowski will embark on matrimonial seas.

Visitors:—G. E. Dallam, Lyons, Iowa; W. P. Craig, Philadelphia, Pa.; J. J. Karins, of Dreer's, Philadelphia; S. W. Pike, St. Charles, Ill.; H. M. Burt of Burt & Coggin, Jackson, Mich.; Mr. Freiling, of Freiling & Mendels, Wealthy Ave. Floral Co., Grand Rapids, Mich.

WASHINGTON NOTES.

Earl Barlow, with Z. D. Blackistone, has returned from a six weeks' visit to his home town, Newport, R. I.

Mrs. McCabe, wife of Mr. M. J. McCabe of the Centre Market, is spending some time in New York and other cities adjacent thereto.

Mrs. Schattmier, wife of Mr. J. G. Schattmier, with Z. D. Blackistone, has left for an extended visit to her old home in Newark, N. J.

Miss Louise Daugherty, bookkeeper at the store of George C. Shaffer, has returned from her vacation which she spent in New York state.

J. M. Hammer & Son are refitting their houses at Second and Florida avenue, N. E. They are placing new roofs on three of their seven houses.

J. C. Powell is spending a two weeks' vacation at Atlantic City, while Miss Grace Powers is whiling away a little time at Richmond, Va. Both are employed at the F Street store of F. H. Kramer.

Fred Gust, well known to the trade, is about to sever his connection with the Washington Florists' Co. to accept a position with the Fernery at Seattle, Wash. The best wishes of the trade accompany Mr. Gust.

W. E. McKissick, of the S. S. Pen-nock-Meehan Co., made one of his regular trips among the Maryland growers. He reports that Maryland stock is coming along in fine shape. roses and carnations being very good.

F. H. Kramer has some very fine long-stem Richmonds from three-year-old bushes. They are really remarkable and when the season is over the plants will be given a fourth chance in the hope of another season's success.

F. H. Kramer reports finding it difficult to have the large smokestack at his plant in Anacostia kept in proper repair, it being difficult to get men to go up to such a distance. He is, therefore, replacing the iron stack with one of brick.

George Augle, manager of the Philadelphia Cut Flower Co., Philadelphia, Pa., spent his vacation in this city, as did also William Dunning, another Quakerite, manager of the Julius Wolff store. Mr. Dunning was accompanied by his family.

The Brookland Brotherhood held its annual horticultural show in the Lord Memorial Hall of the Brookland Baptist Church, Twelfth and Newton streets, on September 19 and 20.

Prizes were awarded for the best cut flowers, potted plants, etc.

The Washington Florists' Club are in receipt of an invitation from R. A. Vincent, chairman, to attend the fifth annual dahlia and flower show, September 26 to 29, and many of the members will, no doubt, accept this invitation as in the past, when good-sized delegations of Washingtonians have made the trip.

W. F. Gude has been appointed grand marshal of the escort in the Veiled Prophets' parade, September 26. Florists of Washington who are taking an active part in the arrangements are F. H. Kramer, George E. Cooke, W. W. Kimmell, J. Henry Small, Jr., E. C. Mayberry, O. A. C. Oehmler, E. S. Schmid, A. Gude, W. F. Gude, and others.

CLARENCE L. LINZ

ST. LOUIS NOTES.

Chas. Young is back from a trip to Harrisburg, Pa.

C. C. Sanders left Monday for a week's stay at West Baden Springs.

Mr. and Mrs. R. J. Windler are expected home this week from their bridal trip.

C. Young & Sons Co. will build a large retail place on Waterman avenue adjoining their greenhouse plant. The store is to have a 30-foot front and a 35-foot show house on each end, making it 100 feet long.

It is not regarded as quite certain that there will be a fall flower show by the St. Louis Horticultural Society. The meeting of the executive committee next week will decide for the present. The board is divided on the question.

The greenhouses of James L. Shields at 7227 Florissant avenue, near the Bellefontaine Cemetery, were damaged \$4000 by the wind Friday night. Last spring nearly every glass in the greenhouses was broken in the hailstorm which damaged much St. Louis property. Shields' loss at that time was several thousand dollars.

Visitors: Paul Berkowitz, of H. Bayersdorfer & Co., Philadelphia, Pa.; Julius Dillhoff, representing Schloss Bros., New York; Arnold Ringier, representing W. W. Barnard Co., Chicago.

Flower Market Reports.

BOSTON Conditions generally in this vicinity may be said to be fairly satisfactory. The sales are holding up well, and as compared with last year are favorable in aspect. The aster situation has moderated somewhat, due in part to the devastation of the outdoor crop by recent heavy rains, but there is still an ample supply of them. Carnations are just beginning to assert themselves; the flowers are good but stems are short yet. The situation is satisfactory, quality having improved materially along the line. The novelties, such as Radiance, Hillingdon and Taft are in the lead of the older favorites in interest, and as they are all good shippers the wholesalers have yet to hear the first complaint concerning them. The supply of lily of the valley is ample and quality excellent. Giganteum lilies are in fair call and not overabundant. Golden Glow is the only chrysanthemum as yet. It is only within the last few days that it has been possible to fill calls for cattleyas.

BUFFALO Only a very slight improvement in the market the past week.

There was still plenty of everything, and at prices that are not encouraging to the grower. Asters are still with us though the receipts are not half as heavy, but again no outlet that would clean up the market. Gladioli are in good supply and quality good, and are moving to better advantage than a week ago. Roses are improving daily, and extras and selects are becoming more plentiful. Also in the carnation line there is much now to be had—some choice White Perfection, Winsor and Enchantress—and each day brings the quality better and the demand growing. Golden Glow chrysanthemums only in slight demand.

CHICAGO The big storm of Monday morning has played an important part in the question of stock. The high wind, the excessive rainfall and in some localities the hail have laid low the late asters and gladioli. There was a marked difference in the looks of the tables in the wholesale stores the morning following the storm and those who do not favor the aster when the market is overfilled with them are now rejoiced at their absence. All plant stock left in the fields has also suffered. Beauties are excellent and are moving satisfactorily. Chrysanthemums are daily more in evidence and where quality is right buyers look

with favor on them, but no one wants to pay the difference in price when large, well grown asters are to be had in competition with inferior chrysanthemums. Carnations cut from the field will now be fewer in quantity and not wholly out of the market. Those from under glass are fully up to the season and in many cases far beyond. There is a sufficient supply of green to meet the demand and the quality is good. On the whole, business for the first half of September is better than that of August.

CINCINNATI This week business started out fairly well just as a week before, and it is to be hoped that the close will not show the same dull balance of the week that the preceding one displayed. The local buyers are cautious and complain of slow business, especially a scarcity of funeral work. The out-of-town buyers are very active. The supply in all lines easily meets all calls and might even meet more if they were apparent. The feature is a tremendous influx of good lilies. At the time of writing this article there are more of them than will move with any degree of rapidity. The supply of roses and carnations grows larger each day. Most of them are of excellent quality too. Among the former the Beauties and Tafts deserve special mention while the others are not by any means outdistanced. The close of last week saw more or less of a glut in carnations. Choice asters are not as easy to obtain as at the last writing. Many of these blooms arriving bespeak the close of the season. The same is true of gladioli. Cosmos is very popular and consequently takes the better eyes and unties their purse-strings.

ST. LOUIS There was a great deal of business done here the past week among the retailers, but it was nearly all for novelties. They say that is about all the business that is going on at present, and as the weather continues very warm there can hardly be much improvement in other work until it becomes cooler and the retailers can display cut stock in their show windows. The market, though, has abundance of stock in almost anything the trade demands. Carnations are good but stems short.

WASHINGTON Roses are coming in quite plentifully but there is hardly enough demand to move the stock along to advantage. Carnations have sold well at \$1 to \$1.50 per hundred, and lily of the valley at \$4; asters last week were quite plentiful and were of good, clean-cut stock, bringing from \$1 to \$1.50. Considerable of the out-of-town shipments arrived in a bruised condition, and this damaged stock was sold to the street men at a low figure. The aster season, locally, is about at an end, but with the carnations, dahlias and other stock coming in, these can well be dispensed with. Greens have moved well in small quantities. Cattleya labiata have started to come in good shape.

Detroit, Mich. With continued warm weather and little call from the retailers, the wholesalers are saturated with flowers, all of which show a great improvement in quality. This week has the car marks of a more general activity and a much better report will be due one week hence.

Flower Market Reports

(Continued from page 1)

NEW YORK That the harvest time in floral circles is not yet here is evidenced by the abundance of material in the wholesale establishments and the sporadic nature of the buying. While the tone is undoubtedly better, yet there is nothing thus far to boast about. The quality of stock is, however, greatly improved and it is a pleasure to look over the product of some of the careful growers. Roses are especially gaining in quality from day to day and the select grades are saleable at a correspondingly better price than prevailed hitherto.

Things picked up a little towards the end of the week; but on the whole trading was very sluggish. Stocks have improved very materially both in quantity and quality, the most noticeable advance being in roses and carnations. American Beauty roses now arriving are mostly from local growers—the eastern product which up to last week was of better color being now displaced. Dahlias have improved greatly and are now much superior as to stem and many of the choicer varieties that do not flower early are to be seen. Carnations also are beginning to look something like a flower. The only gardenias coming in are outdoor stock. They are pretty fair. The indoors will not be along for some little time yet. Plenty of cosmos of excellent quality; meets with ready sale but at very moderate price as a rule. Oak leaves with a good tinge of brown are in, showing that Jack Frost has "arriven" and that the tritoma and oak foliage combination will now be in order. Early chrysanthemums have appeared, the variety Golden Glow being the principal one so far. These meet with pretty good sale. Hydrangea is now showing its lovely bronze shadings and is in much demand. Lily of the valley and lilies are both excellent and abundant and the market for these remains steady with rather an upward tendency for local grown lilies. The New York and other distant longiflorums bring as a rule two to five cents less than the home product. Asters are still good and will probably continue a strong factor in the market for some time yet.

The market during the past week has been sluggish, the disappearance of the outdoor flowers combined with the scarcity of indoor blooms being in the main responsible for the conditions. Asters have been very short, choice stock bringing \$2.00 per 100, nearly all indoor-grown stock. A few chrysanthemums have appeared in the market bringing \$2.50 a dozen. Roses have been plenty. Carnations are short at \$1.50 per 100 and the supply is only fair. The first killing frost of the season swept over many sections of the state a week ago Wednesday night, dealing death to plants and flowers of a tender nature that had been left out by the unsuspecting growers. Thus far no serious losses have been reported. With the disappearance of the many private outdoor gardens in the urban sections florists look to see an increase in the business

Carnation Special

New crop now arriving. Very good as to size and substance for the season. Such varieties as Mrs. Ward, Dorothy Gordon, White Perfection and Beacon are very good, and are the leaders in this market. The best stock of the best growers is what we offer—in all the staple varieties.

Per 100: Fancy, \$3.00; Extra, \$2.00.

SPECIAL OFFER: In lots of 500 or over, we make a special offer of Carnations for this week; our selection as to colors and varieties; Fancy Quality at \$20.00 per 1000. Our special offers are designed as "opportunities for live business men." Wonderful values. Try a sample box and judge for yourselves. Perfect packing for express shipment, our specialty.

New and Choice Roses

In addition to our regular list of all the leading roses, please note that we are receiving regular supplies of new and choice varieties, such as Double Pink Killarney, Melody, Prince de Bulgarie, Mrs. Aaron Ward, etc. This week's quotations on these are as follows:

Per 100	Fancy	Extra	First
Double Pink Killarney	\$10.00	\$8.00	\$6.00
Melody	6.00	4.00	3.00
Prince de Bulgarie	8.00	6.00	5.00
Mrs. Aaron Ward	5.00	3.00	2.00

Welcome novelties these—that will please your customers.

ROSE SPECIAL: In line with our carnation special (mentioned above) we offer for this week, standard varieties of roses, our selection as to colors, etc., in lots of two hundred or over, at \$3.00 per 100.

FIELD GROWN CARNATION PLANTS

See our advertisement in Horticulture of Sept. 2.

We still have some fine plants of most of the varieties to offer.

FISHER Carnation Clips

Save carnation growers the expensive job of stringing their plants. With the Clip one-fourth the time is sufficient and the work is done better. No string to buy each season and the Clips will last a lifetime.

NOTICE THESE SIMPLE DIRECTIONS:— Stretch No. 18 galvanized wire lengthwise between the rows of plants using No. 10 wire for the two outside rows. Cut cross wires of No. 18 and fasten Fisher Clips on either end. Let two men walk on either side of the bench and quickly slip the Clips over the side wires and work is done till the plants are tall enough to need a second support, when proceed as before.

Prices Per 100, 60c; Per 1000, \$5.00

They are indispensable to quick work and furnish a better support than any other device now on the market

E. H. HUNT, 131 North Wabash Ave., CHICAGO

GENERAL AGENTS

Obituary

Louis Nadig.

Louis Nadig, florist, North Manchester, Ind., died suddenly on September 4, of Bright's disease. He was a Swiss, 44 years of age, and without relatives in this country.

John E. Haines.

John E. Haines, widely known as a carnation grower and hybridizer, died at his home in Bethlehem, Pa., on September 10, after a long illness of consumption. His age was 66 years.

Clement Denaiffe.

Clement Denaiffe, senior member of the firm of Denaiffe & Son, Carignan, France, and one of the oldest seed growers in Europe, died after a short illness on August 31. He was seventy-six years of age.

Adam Fischer.

Adam Fischer, formerly florist at the Soldiers' Home, Dayton, O., committed suicide on the night of September 13, at the home of his uncle, Michael Teufel, in Cincinnati. Despondency over rheumatism which prevented him from doing garden work was the motive for the act.

John Leavy.

John Leavy, florist, and one of the founders of Greeley, Colo., died on September 1, aged 80 years. He was born in Ireland, and located in New York in the early 60's, finally going to New Jersey, thence to Greeley. He frequently lectured before the State

Normal School. Three children survive him.

Charles A. Robinson.

The death is reported of Mr. Charles A. Robinson, 67 years of age, a member of the firm of C. N. Robinson & Bro., Baltimore, Md., dealers in farmers' supplies. He was engaged in business in Baltimore for the past thirty-five years, previous to which time he was, for five years, principal of the Forest Home Academy in Anne Arundel County. He is survived by five daughters and a son.

Joseph Lapeno.

All the Chicago wholesalers were kept busy last Monday making up floral emblems for "Little Pete," as Joe Lapeno was familiarly called. He has been a daily visitor to the market for the past twenty years and his death will be felt by many in the older houses who frequently employed him to help out with the Italian trade. Joe was taken to the County Hospital a few days ago, where he died Sept. 14th. He made his home with a sister on Ohio street and was about 45 years old. He had many friends in the trade who will miss him.

John R. Burfeind.

On September 11, John R. Burfeind, of the firm of John R. Burfeind & Son, Scarsdale, N. Y., died at his home in Scarsdale. He was about sixty years of age. At the age of seventeen he entered the employ of Chas. Ammann at 120th street and 7th avenue, New York, where he remained for 35 years, leaving there to become superintendent of the Thos. Watt estate at

Scarsdale. About ten years ago, after a service of over five years at the Watt estate, he engaged in business for himself. He leaves a wife and five children. His eldest son will continue the business.

Nicholas P. Reddy.

Nicholas P. Reddy, who had been identified with the florists' business in Fall River, Mass., for the past 40 years, died at his residence, 32 Laurel street, on Sunday morning, Sept. 17, following a brief illness. Mr. Reddy was born in Dublin, and learned the florist business at his home while still a young man. He came to Fall River about 40 years ago and was in the employ of the late Dr. Durfee for some time before starting in business on his own account. Because of ill health he turned his business over to his two sons about two years ago.

He is survived by his widow, Mrs. Mary E. Reddy, nee Keough, and by two sons and three daughters. The sons are Edward J. and John F. Reddy, and the daughters are Mrs. M. J. Logan, Miss Mary L. Reddy and Miss Jennie Reddy. The funeral was held at St. William's church on Wednesday morning.

ASTERS Hammond's Slug Shot

A Noticeable Station on the Central New England Railroad
In Dutchess County, N. Y.

MR. BRUNDAGE TAKES MUCH PRIDE AND PLEASURE IN THE DISPLAY.

My Aster beds are a strip of ground along the railroad track of the Central New England. For years it has been my pleasure to have a grand show. The most troublesome annoyance which I have had is the **BLACK BEETLE AND THE STRIPED BUG**—these pests will skin the whole bunch if we let them alone, but we don't let them alone, for as soon as the plants are grown I just take **HAMMOND'S SLUG SHOT** and a bellows and go over the whole. **ON A STILL DAY DUST SETTLES EVERYWHERE.** Then when the blooms begin to open we give them another dose, and we have the flowers. This year we let them go and the bugs or beetles got a start and we started for them but they did us damage. Now for a good many years I have known **SLUG SHOT** and used it and there is no use trying to raise flowers, fruit of vegetables without you watch them, because as sure as the sun shines you have Bugs, Lice or Beetles which you must get rid of. Now on Cucumbers the Striped Bugs play havoc. You told me once to put some **SLUG SHOT** in water and sprinkle the rows. When that is done the Cucumbers grow. The Cherry trees will curl their leaves with lice; if you can blow **SLUG SHOT** over these and the **SLUG SHOT** sticks to the sticky mess which comes where these lice are and they do not spread.

Billings, N. Y.

Yours respectfully,

LUTHER BRUNDAGE.

Hammond's Paint and Slug Shot Works

Fishkill-on-Hudson, New York

To-Bak-Ine Products Kill Bugs

You can buy it in Liquid Form, Fumigating Paper, Fumigating Powder and Dusting Powder (Booklet—Words of Wisdom—free).

Use any form you choose but buy it of

E. H. HUNT, 131 N. Wabash Avenue, Chicago

NIKOTEEN The most effective and economical material there is for spraying plants and blooms. **NIKOTEEN** Skillfully extracted from leaf tobacco, and carefully refined, it is clean and easy to apply. **NIKOTEEN** Does the work when vaporized either in pans, on pipes, or over a flame. Full Pint Bottles, \$1.50.

NIKOTEEN APHIS PUNK

Specially prepared for fumigating closed houses. It vaporizes the Nicotine evenly and without waste. Nothing keeps a house free from Aphids so cheaply.

Price \$6.50 per case of 12 paraphrased boxes. All Seedmen.

Just the remedy for the black aphids on chrysanthemums—red spider and thrips on carnations—green fly on roses—mealy bug on gardenias and crotons—scale on ferns, palms and other decorative stock.

\$2.50 per gallon, \$1.00 per quart.

FUNGINE

Fungine has no equal for carnation rust, rust on chrysanthemums and mildew on roses.

\$2.00 per gallon, 75c. per quart.

There is but one convincing way for you to become familiar with the merits of Aphine and Fungine, and that is—test them out yourself—it will prove worth your while.

Mastica is elastic and tenacious, admits of expansion and contraction. Putty becomes hard and brittle. Broken glass more easily removed without breaking of other glass as occurs with hard putty. Lasts longer than putty. Easy to apply.

In ordering goods please add "I saw it in HORTICULTURE."

What the Users say

KROESCHELL BOILER
Half the Coal and Half the Work.

"Your No. 13 boiler is carrying 25,000 sq. ft. of glass and I can keep it at 80 degrees in the coldest weather without any trouble. I have three other types of boilers also heating a range of 25,000 sq. ft. of glass, but the No. 13 Kroeschell Boiler **ONLY TAKES HALF THE COAL** and half the work to get the same results."

J. G. FRISZ, Vincennes, Ind.

P. S.—Mr. J. G. Frisz, of Vincennes, Ind., has the largest range of glass in Indiana devoted to vegetable forcing.

Get This Loose Leaf Book Now We Send It Free

From these open pages shown, you would think it a book on boilers; but it's more—a lot more. It's a Florists' Supply Book of Greenhouse Materials. The first half is devoted to greenhouse heating. Not just boilers, pipes and fittings, but pages of useful information that you have wanted time and time again. There are 66 pages in the book now, but it's made loose leaf fashion, and we are going to add at least another 66 before the book is completed—maybe more. It works like this: We send you the book of 66 pages now; and then every once in a while (perhaps oftener) we will mail you additional pages all ready for putting right in the book. All you have to do is simply turn back a couple of fasteners and in the pages go. Every time we get out a new thing of importance, we will promptly print up some pages about it, and mail them to you. You can see that such a book will be invaluable to you, because it will always be kept right up-to-date. Send for a copy right now while it's on your mind. Don't put it off till tomorrow, for day after tomorrow you may need it badly.

The Bar That
Makes U-Bar
Greenhouses the
Famous Green-
houses they Are.

NOTHING elaborate just a straight away practical layout that fits successfully into the space that was available. If the Work Room could have been placed at the end of the palm house and connected by a glass passage or propagating house, it would have had the advantage of a more central location. However, the question of plan is always a debatable one, and it comes to the best curved U-Bar construction all argument is at a stand-still. The U-Bar is the best. Just why it is, we can prove to your entire satisfaction. Let us send you a catalog or come and talk it over. Write.

Which Pile of Sash Do You Want?

Here is a chance for you to get our "Sash That Last" at a special price. A price that will last for exactly 15 days and not a day longer. If your order comes a day late, you must expect to pay the regular price.

These special prices in lots of 25, 50, or 100 are for single light each unglazed and unpainted. For double light add 25 cents to each price.

Now a word about the sash themselves. Peter Henderson has some at his place in Jersey City that have been in use for, this is the twenty-second year. From the way they look you would declare them good for another ten.

Up at Stamford, Conn., the other day we came across a lot that have been standing the racket for 35 years.

Of course, in both these cases,

the sash have been kept well painted, but you always keep yours painted and you might just as well paint good sash while you are about it, and even if you didn't paint them, there isn't a sash made that will come anywhere near beating "Sash That Last" for endurance.

What's the use of buying rough heavy sash with open mortise joints, when for only a few cents more you can get Lord & Burnham "Sash That Last" with their blind mortise weather tight joints, steel dowel pins, steel cross brace and smooth workmanlike finish?

And that isn't all—we guarantee them—a guarantee that means something—a guarantee that says: **"If they are not the best sash you ever saw, and in every way exactly as we have told you—then notify us and we will send you shipping directions and pay the freight charges both ways ourselves."**

So far we have never had to pay any freight—a fact which tells its own conclusive story.

This offer is good for only 15 days—so you better order right now, before it slips your mind and you wake up to find it's too late to get in on the special price.

LILIUM HARRISII

(The Bermuda Easter Lily)

LET US supply your wants in Lilies this season

We think we can make it to your advantage to do so, as regards both quality and price.

The stock that we offer is not gathered indiscriminately from all kinds of sources, but is grown for us by a few selected growers, whose stocks have been worked up from the true, original stock. In order to ensure the health of the product, the bulbs are not grown on the same field oftener than one season, other crops being grown on the field the preceding year. The ground is thoroughly manured when the previous crop is grown, leaving it in a high state of cultivation, and when the lily bulbs are planted no fresh manure is used, and this prevents disease and ensures a crop of strong, healthy bulbs.

In addition to this, we do not dig our bulbs as early as they are usually dug, but leave them in the ground until they are thoroughly ripened and matured. When Harrisii is good, it leaves little to be desired. There is very little, if any, stock obtainable as good as the stock that we are offering. We are supplying only this one grade of selected stock, and when this is disposed of, we shall have no more to offer.

While the quality of the stock that we offer is of the highest, our prices are as low as, or lower than, the prices of those who offer the ordinary stock gathered from indiscriminate sources. We are sure buyers will find our stock very satisfactory, and much more so than the Japan-grown Longiflorum, which has badly deteriorated in recent years.

Bear in mind that we were the original introducers of Harrisii in Bermuda, and that we have exceptional facilities for obtaining our present supplies. Also take note that the smallest bulbs that we offer are 6-7 inch bulbs, not 5-7 inch, as usually offered.

6-7 inch bulbs, 335 to the case, \$15.00 per case; full thousand lots, \$40.00 per 1,000.

7-9 inch bulbs, 200 to the case, \$16.00 per case; full thousand lots, \$75.00 per 1,000.

9-11 inch bulbs, 100 to the case, \$18.00 per case; full thousand lots, \$175.00 per 1,000.

FERNS

We have an exceptionally nice lot of ferns in the following varieties,—good, bushy, well-grown plants that will please the most critical buyers. Plants have been grown in pots, and are thoroughly well established and nicely finished.

Nephrolepis Bostoniensis and Piersoni, 6-in. pots.....\$0.50 each

Nephrolepis Elegantissima, Piersoni, Bostoniensis, and Harrisii, heavy 8-in. plants.....\$1.00 to 1.50 each

Boddington's Quality Christmas and Winter-Flowering Sweet Peas

ALL true stocks of Winter-Flowering Sweet Peas will be scarce this season. Some varieties are a total failure, owing to the exceptional season in California this Spring. We can make immediate delivery of the varieties marked with a star (*), the balance we are expecting from our grower in California at any time. Our advice to intending planters is to order early.

Our stocks of Christmas-Flowering Sweet Peas have stood the test for years, and we can refer you to the largest growers of this increasingly popular flower, as to the truthness and quality of our seed, earliness of blooming period, and strength and habit of plants.

The following varieties are the "best by test" and include Zvolanek's and our own introductions, grown for seed from selected stocks by the leading California Growers and Specialists of Sweet Peas. Our output last year was nearly 6000 lbs. No kicks and plenty of testimonials as to quality, germination and truthness to type.

BODDINGTON'S QUALITY WINTER-FLOWERING SWEET PEAS

At the Exhibition and Convention of the National Sweet Pea Society of America, July 12th and 13th, 1910, we again won the C. C. Morse & Co's Silver Cup for the finest and best collection of Sweet Peas open to the trade only

***BODDINGTON'S EXTRA EARLY CHRISTMAS WHITE SNOWBIRD.** An exceptionally early Sweet Pea for indoor flowering—will bloom six weeks after sowing. Color clear white, upon long stems; habit fairly dwarf and of exceptionally free-flowering qualities. Without doubt, the finest early white for indoor planting. We sell one grower in Pennsylvania 35 lbs. of this variety every year, name on application. Oz., 30 cts.; ¼ lb., 85c.; ½ lb., \$1.50; lb., \$2.50.

***BODDINGTON'S CHRISTMAS PINK.** This is the earliest and most profitable and useful Sweet Pea in cultivation, as by sowing the seed under glass in latter part of August flowers can be out from Thanksgiving on during the Winter months. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***BODDINGTON'S CHRISTMAS WHITE.** A comparison to our Christmas Pink. Just as free and profuse a bloomer. Oz., 15 cts.; ¼ lb., 50 cts.; ½ lb., 85 cts.; lb., \$1.50.

***BODDINGTON'S CANARY.** Similar to the above, but flowers of an exceptionally good yellow. Oz., 35 cts.; ¼ lb., \$1.00; ½ lb., \$1.75; lb., \$3.00.

***BODDINGTON'S FLAMINGO.** Color scarlet; free-flowering and early. Oz., 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00. **Christmas Meteor.** Scarlet; fine open red flower. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

Christmas Captain. Blue and purple. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Florence Denzer.** Pure white. Oz., 15 cts.; ¼ lb., 50 cts.; ½ lb., 85 cts.; lb., \$1.50. **Le Marquis.** This is the same color as Princess of Wales, violet; has very large flowers. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Miss Helen M. Gould.** White, open flower; standard lilac, marbled. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Miss Josey Reilly.** Lilac; very large flowers. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Mrs. E. Wild.** Carmine or dark pink. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Mrs. George Lewis.** Large, pure white wavy flower. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

Mrs. W. W. Smalley. Satiny pink. Oz., 35 cts.; ¼ lb., \$1.00; ½ lb., \$1.75; lb., \$3.00. **Mrs. F. J. Delansky.** Daybreak pink. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Mrs. Chas. H. Totty.** Sky-blue; late. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

Mrs. Zvolanek. Blue, variegated; good for variety. Oz., 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00.

***Watchung.** Pure white. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

***Wm. J. Stewart.** Blue self. Oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.25; lb., \$2.00.

All other varieties of Winter and Summer-flowering Sweet Peas supplied. Write for quotations.

In writing to Advertisers kindly mention Horticulture

A New Berry

At the vegetable show in the Massachusetts Horticultural Hall, last week, Mr. Bayard Thayer of South Lancaster, Mass., was awarded honorable mention for cut sprays of a new berry from China, named *Rubus innominatus*, which promises to be a useful autumn fruit and may be of great value to the breeder. The fruits, which are borne in large, terminal thyrsoid panicles 18-30 inches long under favorable conditions, are red or orange-red with a black dot in the centre, of medium size and agreeable sub-acid flavor. The plant is a vigorous grower, making shoots 6 to 8 feet long

in a season. These shoots are densely clad with short, velvety pubescence and have relatively few scattered prickles. Leaves large, 3-5 foliolate, dark green above, covered on underside with greyish-white felt. The flowers are insignificant, but in September, when in full fruit, the plant is exceedingly ornamental. *Rubus innominatus* is one of my recent introductions from China to the Arnold Arboretum where it has survived unprotected the last two winters outside.

E. H. WILSON.

Arnold Arboretum.

Seasonable Notes on Culture of Florists' Stock

AZALEAS

Just as soon as you get the new importations from Europe unpack and give each plant that has a dry root ball, a dipping in a tub of water long enough to thoroughly saturate the ball; don't overlook this for it is very important in starting your azaleas after they have been boxed up from three to four weeks. Pot them into as small pots as possible, using loam and leaf mold in equal parts, with enough sand to let the water pass freely. See that there is good drainage provided, and be sure to pot firmly. For a few days place them in a house that is shaded and keep rather close. Give a daily spraying and gradually let them get used to the sun and when they will stand full sun place them in a cool house with plenty of air. The early varieties, such as Apollo, Deutsche Perle, Simon Mardner, etc., that are wanted for Christmas blooming can be kept in a temperature of about 50 degrees as it helps the buds to develop gradually. It takes from 6 to 8 weeks to force them into flower with a temperature from 60 to 65 degrees.

FORMOSA LILIES

These lilies are very useful commercially and should be more grown, for they produce flowers of a fine type, with excellent texture, which makes them ideal for a good many uses. The potting soil should be a good fresh loam, to which has been added a fourth of some old and well rotted manure. One good watering should carry them over until the bulbs are well rooted. Place them in a frame where they will be all right for some weeks to come. These lilies are very variable in growth; while some will be only coming through the soil, others will be 8 or 10 inches, or more in height. These earlier ones should be picked out and given a place as near the glass as accommodation will permit in a house of about 60 degrees at night and they will be useful during January and February when flowers are not so plenty. Keep down the aphids by fumigating frequently but moderately once a week. When the buds show give them some liquid manure once a week.

IRISES

The Iris family includes a large number of beautiful kinds. While they will grow in any good deep loamy ground that has a cool moist subsoil, it is well to use some care in the preparation of the iris bed. Give them a good start by enriching the soil with such fertilizers as well-decomposed manure, bone meal, etc., that has been well pulverized and deeply dug in and in a fully exposed sunny situation. Fall-planted irises produce better flowers the first season than if transplanted in spring. Irises increase rapidly and should be lifted and divided and replanted every three or four years. They can be planted from 12 to 18 inches apart each way. A collection of German, English and Japanese iris will give a succession of flowers of exquisite colors and ferns.

POT PLANTS FOR CHRISTMAS

There is every reason to believe that a larger pot plant trade than ever will be done this coming holiday season and now is the time to figure on what you will need. If you are short of stock now is the time to buy. You will find the best and most reliable dealers by a glance through the advertising columns of HORTICULTURE. All such plants as araucarias, Begonia Lorraine, Jerusalem cherries, lilies, Roman hyacinths, paper-white narcissi, poinsettias, Erica melanthera, primulas, azaleas such as Firefly, Mme. Petrick, Deutsche Perle, Simon Mardner, Apollo and Vervaeana, zonal geraniums, ferns, palms, etc., should have the closest attention from now on. See that the ventilation has careful management for the outside condition of the weather is uncertain. At this period of the year generally speaking, all plants need very careful watering. See that they are kept clean by proper fumigation and occasional sponging of all decorative plants.

RAMBLER ROSES

Those who grow their ramblers in the field may lift them any time now, taking care to preserve as many of the roots as possible. Use any good rose soil for potting, pot firmly and give them good drainage. Place the plants anywhere outside for the present and give them a thorough watering. The earlier you attend to these plants now the better they will be, for they will have more time to form roots before hard weather sets in. There is no need for pruning the wood back at this time. Those that are pot-grown all summer should by this time have completed their growth. Decrease the water supply to assist the wood in becoming ripe, but don't let them become dust dry as this would shrivel up the wood rather than harden it. In two or three weeks or when the wood is well ripened they should be laid on their sides, as the heavy rains would have a tendency to keep the wood soft.

VARIEGATED VINCAS

These plants that have been planted out should now be lifted and potted. A 4 or 5-inch pot is a very good size. Use a good loam with a third of well-rotted manure. Pot quite firmly and then give enough water to penetrate the soil through. If you have a bench in a cool house where they can stand close to the edge so their long growths can hang down, this will make good quarters for them for the winter and they will grow into splendid and very useful plants for vases and veranda boxes, by next spring.

John J. M. Farrell

Mr. Farrell's next notes will be on the following: Antirrhinums; Bulb Planting Outside; Care of Vandas; Fall Care of Violets; Treatment of Nymphaeas; Rooting Cuttings of Hardy Shrubs.

Fruit and Vegetables under Glass

STRAWBERRIES

The hot weather of August and early September was very trying to strawberry plants growing in pots, and in many cases growth was not so rapid as it has been in the last few weeks. Cooler days and evenings with heavy dews are welcomed by these moisture-loving plants. Every encouragement must be given them now they are growing and there are yet a few weeks left for them. Pick up the surface soil periodically removing any dead or useless foliage and runners. Now that the pots are filled with roots, feeding with quick-acting manures (liquid cow or sheep manure is fine), will assist the plants to build up a good plump crown which is essential if good berries are to be had later. Never allow the pots to become real dry. Syringe the plants morning and afternoon in fine weather taking care that they are dry again before six o'clock.

VINERIES

Vineries which have had a crop cleared off should be thrown wide open, any shading which may have been used on the glass removed and the vines given every opportunity to ripen up their wood. Any growths which have been allowed to "run" to encourage root action can now be shortened back, as also can laterals which bore no fruit. By so doing the base eye is plumped up and this is what we look for when pruning on the short-spur system. Many good eyes, per force, have to be pruned away and this is where advocates of the long-spur system try to get one on us, but by shortening some of the laterals back now a good base eye is obtained. Should the foliage be at all dirty it is a good plan to syringe with some approved insecticide weekly. This will greatly facilitate the winter cleaning. As long as the foliage lasts hose well every morning in fine weather. This helps to beat off insect pests and also encourages the buds to swell.

PEACHES AND NECTARINES

Any new trees which it is contemplated to plant or use as pot trees should be selected and ordered at once, if this has not been already done so. In previous issues HORTICULTURE has given space to listing varieties suitable for early and late use and also a combination for succession in one house. These lists have been compiled after watching and studying a quantity of varieties growing under ordinary greenhouse conditions in America. Yet there may be meritorious ones omitted, but these mentioned will be found good enough to fill the bill in their various classes. Where pot trees are grown, pots and potting material should be got in readiness. Half-decayed loam, lime rubble and charcoal constitutes a good mixture. A little lime rubble mixed in with the borders as root pruning and renovating is proceeding is good. Procure and store all possible of this valuable asset.

MELONS FOR CHRISTMAS

Melons sown September 1st will now be established in the beds. Keep a moist atmosphere and syringe

twice daily on all fine days. This is the greatest preventive against red spider which later on will be troublesome, if allowed any leeway, when more fire heat has to be used. Any sowings which are made after this should be grown throughout in pots.

MUSHROOMS

Many beds will have been made up already, but by proceeding at once there is plenty of time to have one bearing for Christmas. Get as much fresh horse manure from the stables as possible at one time, so that your heap is accumulated in a few days, which is an advantage as it cures evenly. This heap should be placed under cover in a cool place and spread out to a thickness of one foot and turned over each morning and night, taking out any long straw as you proceed. This will help the manure to dry a little and also even the heating properties. Each day the manure will become quite hot and in turning so much ammonia will be lost until a uniform temperature is maintained. Probably it will take a week or ten days to attain this stage. Experience is the only teacher as to when a bed is ready to be made up, but look for the manure to be about the same each time of turning. Before transferring to benches add a little fine soil to the manure which is a preventive of over-heating. Make as firm as possible and finish with an even surface. By means of a proper thermometer watch the temperature of the bed gradually rise—if properly made it will touch 100 or 110 and then gradually recede. When it has gone down to 85 or 80 insert the spawn, breaking the bricks into pieces about the size of a small hen's egg and press the manure firmly around each piece. In about a week or ten days when the temperature has gone down to about 70 cover the whole surface of the bed with about an inch and a half of virgin soil and press gently down. Keep a moist atmospheric temperature of 55 and in about six weeks a first cut should be made.

WINTER LETTUCE

Winter lettuce will now be growing nicely in the frames. Keep the surface soil well cultivated and a sharp look-out for caterpillars and other insects. A fine spray over mornings and early afternoons will be beneficial. Keep protection handy in case of sudden frost coming down. Successive sowings for growing on in vegetable houses can be made at intervals. Keep the seedlings near the glass and give plenty of air.

BEANS

Dwarf or bush beans are appreciated through the winter months and are easily grown in pots or benches. The latter is the most profitable, finer beans being produced with less trouble. Fill the benches with good rich soil and scoop out the rows an inch deep and eighteen apart; this allows for a double row to be sown. Insert the seeds singly, about two inches deep. As the seedlings come through draw the soil about them. Syringe well to keep down spider and maintain a night temperature of 55 to 58, with the usual advance by day. By making a sowing every week or ten days a supply can be kept up the winter through.

Crops from improved backyards

A complaint comes from a western city that the exploitation of the "improved backyard" idea in that neighborhood had resulted in the launching of a lot of amateur florists whose consignments of asters and other flower garden products to the wholesale markets had of late materially contributed to the demoralization of established florists on these things. Looks like "a tempest in a tea

pot" doesn't it? It is up to the florist to keep ahead of the backyard amateur. If he can't produce something which the latter cannot produce and a better and more saleable quality, he must take the consequences. Long live the "improved backyard" and if it did nothing more than to force the straggling tailenders in the florist procession to "get a move on" it has certainly served a very useful purpose not exactly contemplated by its promoters.

About exhibition reports

The vegetable growers of New England have won the congratulations of the profession at large by the superb exhibition of vegetables staged at Horticultural Hall, Boston, Mass., last week. It was a vast and comprehensive display of the choicest products of the vegetable garden, grown to perfection by expert gardeners despite the almost uncontrollable drawbacks of the worst season in many years. Again the superiority of the Lenox gardeners has been demonstrated in the arrangement of a splendid vegetable display and after these repeated demonstrations of their abilities in this line they must be recognized as about invincible. One objection we would submit in regard to the judges' report in this as in very many other shows is the failure to record the names of winning varieties under the classes for "any other variety." Recording and publishing the names of growers winning first, second and third in the standard varieties listed in the schedule is all right and necessary but it carries little or no educational value. In classes where unlisted and often obscure varieties are pitted against one another, however, there is much to be learned as to comparative qualities which is, of course, open to the observant visitor but is lost to the vast number of interested persons who were not present, unless noted by the judges. Without such comparative trials many worthy varieties not yet widely known or generally grown would often be left in undeserved obscurity and we believe it is a great mistake to omit mention of them in the prize reports.

An apparent injustice

Last year and the year previous, the U. S. custom house authorities at the various ports of entry collected \$2.50 per thousand on all hyacinth bulbs imported to this country during that time. It then came to light that the tariff law had been misinterpreted by the collectors and that according to the tariff law the duty should be only fifty cents per thousand and under this latter figure hyacinths are being admitted this year. It would seem reasonable to expect that the government would at once refund to the importing florists and others the \$2.00 per thousand bulbs which had been illegally imposed. This rebate, however, it seems can only be collected by those importers who entered their goods under protest through an attorney with an agreement to give up fifty per cent of the amount refunded to the attorney in case of a successful outcome for the protest. So it stands, under the position which the government assumes, that all importers of these bulbs who, in good faith, paid the duty demanded, without protest, have no recourse and those who did enter a protest will get their money back, but are obliged to give half of the refunded money to the lawyers. To the unprejudiced observer it does appear that the government has in this instance been taking an unfair advantage of a technicality. As a matter of simple justice the excess money which, it has been acknowledged, was exacted in error should, as it appears to us, be at once returned in full to the people to whom it rightfully belongs.

PROVIDENCE WHOLESALE FLOWER MARKET, INCORPORATED.

Articles incorporating the Providence Wholesale Flower Market were filed by Alexander Macrae, John A. Macrae and Joseph Kopelman, all of Providence, R. I., with the Secretary of State, on September 27, and they were granted a charter authorizing them to engage in the wholesale and retail flower business in accord with the General Laws of that state. The capital stock of the concern is \$5,000, divided into shares of \$25 each. The show and salesrooms on Washington street are nearly completed and the doors will be thrown open to the trade on October 1.

The provisions of the charter granted are as follows:

Said corporation is constituted for the purpose of engaging in the business of raising, growing, purchasing or otherwise acquiring, holding, owning, mortgaging, selling, leasing, assigning, transferring or otherwise disposing of, investing in, trading in, or dealing with any and all kinds and varieties of trees, shrubs, vines, plants, flowers, seeds, or any other goods, wares or merchandise whatsoever;

Of manufacturing, purchasing or otherwise acquiring, holding, owning, mortgaging, selling, leasing, assigning, transferring or otherwise disposing of, investing in, trading in, or dealing with any and all kinds of florists' supplies, tools or any other goods, wares, or merchandise whatsoever;

Of carrying on generally a wholesale and retail business in any and all of the above articles;

Of owning, leasing or otherwise acquiring, holding, leasing, renting, selling, mortgaging, or otherwise disposing of lands, tenements, buildings or stands of whatever nature or description, for any or all of the above purposes, or for purpose or purposes incidental thereto.

And this corporation shall have the power to acquire the good will, rights, property and effects of all kinds, and to undertake the whole or any part of the liabilities of any person, firm, association, or corporation on such terms and conditions as may be agreed upon, and to pay for the same in cash, stocks, or other securities of this corporation or otherwise;

To apply for, purchase or otherwise acquire and hold, use, sell, assign, mortgage or otherwise dispose, and grant licenses in respect of and otherwise turn to account all and any trade marks, trade names, inventions, formulas, and processes used in connection with its business, or held, owned, or controlled by it;

To purchase, lease or otherwise acquire and to sell, mortgage, or in any other wise dispose of all or any horses, wagons, motor wagons, or other vehicles of whatever nature and description for use in the business or incident to the business of this corporation; to enter into, make, perform and carry out contracts with any person, firm, or corporation relating to any matter of business of this corporation in which it may be interested; to do all and everything necessary or convenient for the accomplishment of any of the purposes or objects and powers above mentioned.

S. A. G.

The John Deere Plow Co. of Baltimore, will shortly have a large increase in their floor space, the property, 213 West Pratt street, having been purchased with a view to the destruction of the present building now located at that address, and the erection of one of concrete, stone and pressed brick, five stories high, and the same used in connection with their present quarters which adjoin. This new building will measure 38x150 feet and will be equipped with electricity, steam heat and elevator service.

McHutchison & Co., the New York plant importers, report the third shipment of azaleas already in and it is expected that by next week the entire importation will have been received. This is considerably earlier than ever before.

A PERENNIAL BORDER.

Superintendent Pettigrew of the Boston Park System has added a much-appreciated feature to the attractions of Franklin Park in the form of a perennial border. This border, as shown in part, in our cover illustration this week, is serpentine in outline, skirting the edge of a rolling meadow for a distance of 1400 feet, and set off by a background of trees and close shrubbery, the latter not yet grown to its full intended effect.

The border is not literally a perennial border, for much of its radiant color effect is attained by the use of Countess of Elmsmere petunias, cannas, antirrhinums, gladioli, pentstemons, dahlias, cosmos, salvias, poppies, verbenas and other annual material, but as the perennial plantations attain their maximum growth the necessity for annual fillers will be proportionally lessened. As seen in the picture presented—which was taken in late September, the hardy asters are in the height of their glory. Of these so-

called "Michelmas Daisies," Mr. Pettigrew has acquired a magnificent collection, including all the novelties from foreign sources, and in another year they will make a magnificent display. None, however, can excel our own *Aster Nova Angliae*, with its rich outburst of purple and amethyst. *Heleniums*, *chelonas*, *rudbeckias*, *heli-anthus*, *boltonias*, *phloxes*, *veronicas*, *violas* and *lilies* are among the most brilliant factors in the autumn show. The spring outburst is ushered in by masses of early and late flowering tulips, narcissi, etc., and peonies, irises, campanulas and other spring and summer favorites follow along in brilliant array, there being at all times an abundance of seasonable bloom. The masses of color are boldly blended and contrasted, and the public have displayed much interest in this excellent object lesson in the art of garden making.

Next year some lily ponds and Victoria pools are to be constructed in the foreground meadow.

A MODEL ESTATE.

A few hours spent on the estate of Mrs. J. B. Converse, Greenwich, Conn., known as "Stanwich House" under the able guidance of Wm. Graham, superintendent, proved most interesting and pleasurable. Mr. Graham studied his work at the Wayside Farms and Conservatories of Milton, Mass., under the skilful training of Geo. M. Anderson. After completing his apprenticeship there, when a lad of 17, he took the selling end of the business, and after five years became foreman. Later he took charge of the rose growing establishment of H. F. Crawford & Co., staying with this firm for three years or until the dissolution. He then accepted his present position where he has succeeded in converting a run-down farm into a modern country estate which

at the present time can equal any in the Greenwich section although it is only four years old. On the day of the writer's visit Mr. Graham was busy superintending the laying out of a large rose garden, and dynamiting numerous boulders preparatory to converting a piece of marshy land into a lake and finally to become a formal garden. There is no glass on the place yet but plans are already out for a range after the bulk of the landscape work is completed. The vegetable garden is laid out artistically. On each side of the white sand-stone walks are beds of herbaceous flowers. In the center is a clipped evergreen flanked by crescents of salmon geranium. The fruit garden is a model. The original apple trees have been pruned into shape and sprayed back to life and now are hanging with fruit of good quality.

CLUBS AND SOCIETIES

WESTERN DAHLIA AND GLADIOLUS SOCIETY.

The initial meeting of the Western Dahlia and Gladiolus Society was called to order at the Denison Hotel, Indianapolis, Ind., at 1.30 P. M., Tuesday, September 26th, President Barnes of Spencer, Ind., in the chair. The exhibition at Wiegand's dividing the attendance adjournment was made to that establishment to meet at 8 P. M. Director E. E. Stewart presided at the evening meeting in the absence of President Barnes, who was called home because of illness in the family. Homer Wiegand was made secretary pro tem. Eleven new members were recorded, which included prominent growers in the middle west. President-Elect Vincent of the S. A. F. wrote expressing regret at his inability to attend and asked that his name be recorded as a member. Committees were appointed to take up in the immediate future the most pressing work of the new organization—first, on co-operation for the Chicago show in August; second, on nomenclature; third, on premiums and specials for the Chicago meeting. A rising vote of thanks was extended A. Wiegand & Sons for their courtesy in supplying exhibition space, assistance in staging and entertainment of the officers. After further discussion and examination of exhibits the convention adjourned subject to call of President Barnes.

As early as 6 A. M. Messrs. Stewart, Barnes and others representing various exhibitors were on hand at the big Wiegand conservatory on North Illinois street. On account of late arrival of some exhibits the staging was somewhat delayed; however, the exhibition was ready by noon. President Barnes supplied something like 5,000 blooms of dahlias in many types and forms. W. E. Stewart staged seventy-five varieties of gladioli which came through in fine condition and showed up well considering the lateness of the season. One of his new ones, somewhat resembling Mrs. Frances King, is called Michigan. He also showed President Taft and Golden Queen. Vaughan's seed store sent from Western Springs, dahlias and gladioli in about thirty kinds. The latter included Mastodon and Chas. L. Hutchinson. Wiegand & Sons had advertised the event in the daily papers and the attendance of the general public and amateur growers of these flowers was good both in afternoon and evening.

H. L. WIEGAND.

CHRYSANTHEMUM SOCIETY OF AMERICA.

President Elmer D. Smith announces the following committees to examine new chrysanthemums for the ensuing year:

Boston—Wm. Nicholson, chairman; James Wheeler, Alex. Montgomery. Ship flowers to Boston Flower Exchange, C. Park street, care of chairman.

New York—Eugene Dailedouze, chairman; Wm. H. Duckman, A. Harrington. Ship flowers to New York Cut Flower Co., 55 26th street, care of chairman.

Philadelphia—A. B. Cartledge, chairman; John Westcott, S. S. Pennock. Ship flowers to A. B. Cartledge, 1514 Chestnut street.

Cincinnati—R. Witterstaetter, chairman; James Allen, Henry Schwarz. Ship flowers to chairman, Jabez Elliott Flower Market, care janitor.

Chicago—J. B. Deamud, chairman; E. A. Wood, T. E. Waters. Ship flowers to J. B. Deamud, 51 Wabash avenue.

Shipments should be made to arrive by 2 P. M. on examination days to receive attention from the committee. Must be prepaid to destination and an entry fee of \$2 should be forwarded to the secretary not later than Tuesday of the week they are to be examined, or it may accompany the blooms. Seedlings and sprouts are both eligible to be shown before these committees provided the raiser has given them two years' trial to determine their true character. Special attention is called to the rule that sprouts, to receive a certificate, must pass at least three of the five committees. The committees will be in session to examine such exhibits as may be submitted on October 7, 14, 21 and 28, and November 4, 11, 18 and 25.

CHAS. W. JOHNSON.

Morgan Park, Ill.

TEXAS NURSERYMEN'S ASSOCIATION.

The eleventh annual meeting of this association was held at Waco, Texas, on September 12 and 13. There were many interesting papers and discussions. Officers were all re-elected, as follows

President, J. R. Maysew, Waxahachie; vice-president, J. R. Downing, Wichita Falls; secretary-treasurer, J. S. Kerr, Sherman.

A vote was passed approving of the establishment of a U. S. parcels post.

A resolution approving the proposed national inspection law, with the exception of paragraph 7, was adopted. A committee composed of C. C. Mayhew, E. W. Kirkpatrick and R. H. Bushway was appointed to confer with the committee from the American Association of Nurserymen, relative to the revision of this law as regards paragraph 7.

The next meeting place will be determined at the Farmers' Congress in July.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

Public notice is hereby given that Loyd C. Bunch, of Fredonia, Kansas, offers for registration the Begonia described below. Any person objecting to the registration or to the use of the proposed name, is requested to communicate with the Secretary at once. Failing to receive objection to the registration, the same will be made three weeks from this date.

Description.—Sport of Feastii, habits of growth etc., identical with Feastii with the exception that the edge of the leaf is crested or fluted around the entire circumference of leaf.

Name, "Feastii Bunchii."

H. B. DORNER, Secretary.
Sept. 21, 1911.

CONNECTICUT HORTICULTURAL SOCIETY

At the dahlia show in Hartford, last week, the following special prizes were awarded:

C. H. Sierman prizes, \$15, for best specimen dahlia plants in pots not exceeding ten inches in diameter—best ten plants, \$10, J. A. Weber, Hartford; best five plants, \$5, A. Righanzi, Hartford.

Arthur T. Boddington prizes, \$10, for collection of vegetables, twelve species—First, \$6, J. A. Weber, Hartford; second, \$4, John F. Huss, Hartford.

Henry A. Dreer prizes, \$5, for three blooms of dahlias Rheinkönig and Philadelphia—First, \$3, William F. Jost, East Haven; second, \$2, not awarded.

Pittsburg Steel Company prizes, one ten-rod roll of special poultry and garden fencing (value \$6), for best collection of fruit, George W. Smith, Melrose.

O. V. Zangen prize, \$5, for best vase of twenty-five cactus dahlias to consist of at least twelve commercial varieties—John H. Slocombe, New Haven.

In the regular prize list John H. Slocombe, J. F. Huss, J. A. Weber, N. Nelson, Geo. W. Smith and W. F. Jost figured among the winners of first premiums.

RHODE ISLAND HORTICULTURAL SOCIETY.

The Rhode Island Horticultural Society held an interesting meeting in the public library at Providence, Wednesday evening, September 20. A new seedling decorative dahlia originated by Harry V. Mayo of Bristol and named Nettie V. Mayo, was on exhibition at the meeting and on the recommendation of the committee on awards the society voted a certificate of merit. It has long, incurving petals lemon yellow with carmine tips. The flower was first exhibited at Newport a year ago this fall where it was awarded a premium. The subject of discussion for the evening was "Growing and Packing of Fruit," by A. Warren Patch of Boston. The society voted to become a member of the State League of Improvement Societies of Rhode Island. At the next meeting a lecture upon "Flowering Bulbs for the Garden and Home" will be given by W. N. Craig of North Easton, Mass., followed by a discussion by the members. S. A. G.

GOOD TIME COMING

Acceptances have been received from the florists' clubs of Milwaukee, Detroit, St. Louis and Cincinnati to the celebration on Oct. 5th, of the 25th anniversary of the organization of the Chicago Club. The large dining room adjoining the club room at the Union Restaurant will be used for the banquet and will be fittingly decorated. F. F. Benthey, oldest living past president of the club will be toast-master and Elmer D. Smith of Adrian, Mich., will read a paper on Chrysanthemums.

EXHIBITION GROUP OF VEGETABLES, FRUIT AND FLOWERS.

By Messrs. Webb, at Shrewsbury Show, England.

VEGETABLE GROWERS' ASSOCIATION OF AMERICA.

The concluding session of this Association at Boston last week maintained the interest evidenced in the opening meetings and the visitors were especially enthusiastic over the great vegetable show put up by the Massachusetts Horticultural Society.

That present railroad rates discriminate unfairly between fruit and vegetable growers to the advantage of the former, and against the short as opposed to the long haul was contended in the discussion on this topic. Much evidence on the point has been contributed to the secretary, and it will appear in a report shortly to be presented to the interstate commerce commission, with a petition that conditions be amended.

Another matter that occupied the attention of the association was the standardization of packages. There is a growing tendency among vegetable men to forward their goods in free non-returnable packages.

VEGETABLE SHOW AT BOSTON.

The vegetable growers of Boston and contiguous territory certainly put up a magnificent exhibition, under the auspices of the Massachusetts Horticultural Society at Horticultural Hall, Boston, last week. Every available corner in the big building was utilized and in the majority of classes, all three prizes were awarded and in many classes there were a large number of entries besides. Ed. Jenkins of Lenox, Mass., took the big prize for best collection, Frederick Mason winning second place and Allen Jenkins third. The list of winners in the regular classes was legion and space will not permit our recording them here. Honorable mention was given to the Johnson Seed Potato Co. for new potato Brunswick.

J. E. Murphy for new potato Canasota; V. Buitta for collection of unusual vegetables and Bayard Thayer for *Rubus innominatus*, a picture of which appears elsewhere in this issue. David Lumsden was given a certificate of merit for new seedling orange-fleshed melon. On account of the great interest shown by the public in this exhibition it was kept open until 10 o'clock Sunday night.

AMERICAN ROSE SOCIETY.

Mrs. Burke-Roche of Newport, R. I., authorizes the offering of a prize of \$50 for a new yellow rose—to be competed for any time after June, 1912. The said new rose to resemble as nearly as possible in color the Marshal Niel but with a strong upright stem. Another prize which will be coming along soon is the Mrs. Gertrude M. Hubbard Gold Medal to be awarded once in five years. This medal is to be given to the originator of the best rose of American origin introduced within five years—the year will be 1914.

An executive meeting will be held in New York City, Sept. 28th, to consider arrangements for the Detroit exhibition. This meeting will be followed by a conference in Detroit to determine upon the detail work. The Rose Society will ask its friends to subscribe a guarantee fund so that the Society may be able to offer an excellent list of prizes, and be assured of financial support. The Rose Society has passed the \$3000 permanent investment fund from its life membership fees, this fund is invested in guaranteed mortgages of New York, the securities are those in which the State Savings Banks are authorized to invest.

BENJAMIN HAMMOND,

Secretary.

Fishkill-on-Hudson, N. Y.

CLUB AND SOCIETY NOTES.

The executive committee of the American Sweet Pea Society will hold a meeting in Boston, Mass., on October 18 to 22.

On account of the lateness of dahlias this year the Dahlia Show of the Nassau County Horticultural Society is postponed to Oct. 11th.

The Tenth Annual Convention of the National Nut Growers' Association will be held at Mobile, Ala., on October 5, 6, 7, 1911, with headquarters at Battle House.

The Florists' Club of Philadelphia will celebrate its 25th anniversary next Tuesday evening, October 3, with a dinner. It will be election night, too. *Verb. sap.*

Growers who propose to compete for prizes at the 1912 spring shows should take a look at the fancy grade hyacinths and other bulbs at A. T. Bodding's specially selected for the purpose of exhibition forcing.

John J. Butler, a wellknown gardener of Newport, and for many years an active worker and former secretary of the Newport Horticulture Society, has been appointed a member of the Newport Park Commission by Mayor Boyle. Commissioner Butler succeeds H. W. H. Powell who declined a re-appointment. It has been the custom of Mayor Boyle to appoint a gardener on the park commission whenever a vacancy occurs and the selection of Mr. Butler is in keeping with his established policy. Mr. Butler attended the first meeting of the commission and was placed on two committees.

Obituary

General Samuel C. Lawrence.

Horticulture and many of its allied interests has suffered a loss in the death of this distinguished citizen of Medford, Mass. Although never taking any active part in any of the organizations for the promotion of knowledge along gardening lines, few men loved the native flowers of America any better than he did and by his generosity in allowing his large private estate in Medford to be a daily playground for the public, he proved it in a manner that so very few of the wealthy do, the privacy of his residence not even being respected by a too eager public, who often take the advantage of a privilege granted by a large hearted man such as he was, and one day a short time before he was taken sick, on being remonstrated with by a member of his family for allowing the public so much freedom, he replied in the hearing of the writer, "well, you know, we that have the privilege of having these things cannot afford to be selfish about them." Many years ago General Lawrence acquired about three or four hundred acres of woodlands adjacent to the Middlesex Fells reservation, and built roads and other conveniences all through it, also an observatory on Rams Head Hill, the highest point of it, which commands one of the finest and far-reaching views in the vicinity of Boston. The fight that this public-spirited gentleman put up against the gypsy moth and other insect pests is a matter of the history of these scourges in Massachusetts and need not be dwelt on here. As an employer he was beloved by all his employes, and I will add that the writer has been employed by the rich for about thirty years, and has had the privilege of coming in personal contact with royalty and other titled nobility of the old land, but for all the qualities that make a true gentleman none could surpass this distinguished son of Massachusetts.

Genl. Lawrence spent his winters in Miami, Fla., and at the time of his death was developing an estate of one thousand acres for the production of fruit and flowers suitable to that growing winter resort. He was a distinguished free mason having a short time ago resigned from being Sovereign Grand Commander of the Supreme Council of the Ancient and Accepted Scottish Rite. He was also a veteran of the Civil War, being severely wounded at the first battle of Bull Run. General Lawrence was much interested in educational matters, being a graduate of Harvard in 1855, keeping up his interest in that line by serving for many years as trustee of the Public Library of Medford, contributing many valuable books to it each year. He is survived by a widow, a son and daughter, and a brother and sister. His philanthropy was done quietly not allowing his name to be mentioned, and many will mourn his loss along these lines.

GEORGE F. STEWART.

Isaac L. Powell.

Isaac L. Powell, superintendent for Mr. Samuel Thorne of Millbrook, N. Y., died on Thursday morning, September 21st, of pneumonia, after being

ill but one week. Just one week before his death he attended a meeting of the Y. M. C. A., of which he was president, and in which he always took an active part, especially the boys' branch. The writer could not but notice his untiring efforts in this particular work, often walking several miles to and from the meeting place in order to be with the boys, sometimes to deliver a lecture on some fitting subject that would educate them in the better and higher things of this life, other times to instruct them in the athletic work of the association. He was for many years a member of the Society of American Florists and The New York Florists' Club. Mr. Powell was born in Pemberton, N. J., and when quite young entered the employ of John G. Gardner at Jobstown, N. J., on the Rancocas Stock Farm, of which Pierre Lorillard was proprietor, and after serving his apprenticeship was engaged as head gardener to John Wyeth at Westtown, Pa. From there he entered the employ of Thorley, the New York

ISAAC L. POWELL.

florist and afterward to Tuxedo Park as gardener to Pierre Lorillard, also as superintendent of the park. Twenty years ago he entered the employ of Mr. Samuel Thorne of Millbrook as superintendent of his estate known as The Crest, which position he has faithfully filled, always working for the interests of his employer with that untiring zeal which characterized his whole life.

Mr. Powell was an expert chrysanthemum grower and was often sought to act as judge at the fall exhibitions and being so well qualified to fill this office that every exhibitor always seemed satisfied to abide by his decision. He has just finished a book on the culture of the chrysanthemum which should be in every gardener's library.

Funeral services were held in the Thorne mansion on Sunday, the 24th, when between four and five hundred people attended to pay their last tribute of respect to the deceased. The floral tributes were many and beautiful, among the most noticeable being a large wreath of Richmond roses from the New York Florists' Club, gates-ajar from garden employes, large cross, six feet high, of lilies, gardenias and asters from house em-

ployes and a beautiful standing wreath of roses and orchids from the Y. M. C. A. The bearers were Frank Silcox, George Stewart, Peter Duff, William Smith, Joseph Manda, W. C. Russell

Sebastian P. Fischer.

Death claimed one of the youngest men in the florists' business, Sept. 21st and the news of his sudden death was a shock to the trade who did not generally know of the illness of Sebastian P. Fischer of Evanston, Ill. Just a week prior to his death he was taken to St. Francis Hospital and but one day previous to that he was in the market buying flowers but complained of not feeling well and typhoid fever had even then its hold upon him.

Sebastian P. Fischer was born in Trier, Germany, 27 years ago and with his parents came to this country in childhood. With his father and brother John, he was in business in Evanston, but two years ago the boys started for themselves and were building up a good business, the management of which was directed by Sebastian, John having charge of the growing and a sister, Paulie, the retail store on Dempster Avenue. On the last day of his life, feeling that he could not get well, he planned the future of the business and gave helpful advice to those left. His father, Fred C. Fischer, brother and sister survive. He was a member of the Catholic Order of Foresters, Knights of Columbus and of the Evanston Business Men's Association.

A. A. Hixon.

Adin A. Hixon, aged 68 years, 6 months and 8 days, the librarian and secretary of the Worcester County Horticultural society for 20 years, died on the night of Sept. 25 at his home in Worcester, Mass., from pernicious anemia after a long period of ill health. For 10 months he was confined to his home. He leaves a widow and one son.

Mr. Hixon was a most devoted horticulturist, a companionable gentleman and efficient official. Few men were better known throughout horticultural New England than A. A. Hixon.

Mrs. A. J. Dorward.

Andrew L. Dorward, second vice-president of the Newport Horticultural Society, has lately been the recipient of expressions of sympathy from his many friends for the loss of his wife, who recently died in Kirriemuir, Scotland, where she went a year ago for the benefit of her health.

George M. Langbridge.

W. C. Langbridge, who represents The Jerome B. Rice Company among the American seed trade, was called suddenly to New York on account of the illness of his brother, George M. Langbridge, who died on September 15 of bronchial pneumonia and heart failure.

Mrs. John Geib.

Mrs. Geib, wife of John Geib, florist, died at her home in Long Island City, N. Y., on Saturday, September 23.

Mrs. A. J. Vescelius.

A. J. Vescelius of Paterson, N. J., mourns the loss of his wife, who died on Friday, September 22, after a long illness with cancer of the stomach.

DREER SEASONABLE SPECIALS

Special circulars offering the following seasonable stocks have recently been mailed to the trade. If you are interested and have not received copies, write to us.

Japanese Iris

Japanese varieties, but not Japanese mixtures. 150,000 home-grown plants, true to name. Forty-four of the finest varieties ever brought together. Now is the time to plant.

Paeonies

Now is the time to plant. We have just harvested 150,000 roots, strong divisions, four, five and more eyes. Many of the standard sorts at particularly interesting prices.

Hardy Perennial Phloxes

More than half-a-million plants are now in bloom at our Locust Farm Nursery. The best varieties only and we can ship at once.

Dahlias, Field Grown Roots

We have issued a special catalogue of these in which we offer 200 standard up-to-date varieties. You should consult this list before making up your catalogue for 1912.

Araucarias

Thirty thousand plants now in stock. Prices lower than ever offered. This is for early delivery only and it will pay you to cover your requirements for the coming season now. Get our special circular offering these plants.

For a complete line of all seasonable Florists' Stock, Hardy Perennial Plants, Bulbs, Seeds and Sundries, consult our Current Wholesale List, issued September 1st.

HENRY F. MICHELL CO.

518 MARKET STREET

PHILADELPHIA

MICHELL'S DAHLIA SHOW.

This was something of a departure from the usual trade exhibition which is usually given for advertising purposes exclusively, but in this case the element of competition came in, and that is of educative value. No tradesman can give a show on the same basis as a society; but as far as they could the promoters in this instance made as good an imitation as is possible—while at the same time frankly owning up to the advertising part of it. The Horticultural Society of this city is at such a low ebb that an affair of this kind—even if it is a trade proposition—assumes more than usual importance. That, and the competitive element is the reason why we devote space to more than the usual passing notice.

The extent, quality and variety of the exhibits; the arrangement; the auxiliary decorative subjects; the general management; all were of a very commendable nature. The show held open four days—September 26-29, and the big store was crowded all the time, and the salesmen had their hands full. Extra flowers came in every day.

Among the decorative subjects outside of the dahlias may be mentioned Funkia cœrulea, Sedum spectabile, Tritoma, Zla Japonica variegata, Salvia splendens, Amaranthus, Zinnia, Helenium autumnale, African marigold, Aster Nova Belgae, Eupatorium Frazeri, gladioli, ferns and palms.

The chief prize winning vase was cleverly placed in the street doorway, and ranged back of same were the other prize winners along the center aisle. The crowds were attracted in,

and the rest was a matter of insidious politeness.

The general manager was Philip Freud, one of the best in the business and a genius in that line. The judges were W. C. Herbert, A. L. Turnley, L. K. Peacock and Maurice Fuld.

Your correspondent encloses the prize list herewith:

Vase, 6 flowers, Delice—first, Chas. Bustard, Chestnut Hill, Phila., Pa.; second, Thomas Holland, Berwyn, Pa.

Vase, 6 flowers, Jack Rose—first, Chas. Bustard; second, Wm. Robertson, gardener to J. W. Pepper, Jenkintown, Pa.

Vase, 12 flowers, William Agnew—first, Thomas Holland; second, James Bustard, gardener to G. L. Harrison, Germantown, Pa.

Vase, 12 flowers, C. W. Bruton—first, William Robertson; second, Thomas Holland.

Vase, 6 flowers, Mrs. Roosevelt first, Thomas Holland; second, Wm. Robertson.

Vase, 6 flowers, Pink Pearl first, Chas. Bustard; second, Robt. Morrow, gardener to G. I. Bodine, Chestnut Hill, Phila.

Vase, 50 flowers not less than ten varieties, any type first, Robt. Morrow; second, James Bustard; honorable mention, Thomas Holland.

The trade contributors got paid by Michell in good iron dollars for their shipments, so we will not give them this free mention this time. Ha, ha. Let the galled jade wince—for once!

GEORGE C. WATSON.

INCORPORATED.

Merchantville, N. J.—Amon Heights Nurseries, Incorporators: J. Newlin Wilkins, Israel C. Townsend of Merchantville and Florence M. Cole, 630 Philadelphia Bourse, Phila., Pa.

Chicago, Ill.—Percy Jones, florist, nursery, commission and mercantile business, capital stock \$10,000. Incorporators: Henry Van Gelder, Fred Wittbold, Robert D. Elder.

DURING RECESS.

Newport Horticultural Society Ball.

The annual ball of this society was held September 20th, with a good attendance of dancers, under the management of Vice-President Wm. Mackay, who led the grand march with Miss Elaine Meikle, daughter of the president. The committee of arrangements was headed by Wm. F. Smith as chairman, Wm. Grey as secretary, and their work was rewarded with the greatest financial success the society has ever enjoyed from any similar function.

Cincinnati Bowlers.

The Bowling Club has its first meet early in October. Members will be notified by Chas. H. Hoffmeister as to when and where. Any desiring to join should advise Mr. Hoffmeister. They are assured of a cordial welcome.

Gustave Ober, of Baltimore, is one of the representatives of the National Fertilizer Association at the Third National Conservation Congress which convened on Monday last in Kansas City. Wilbur W. Hubbard of Chestertown, Md., is the president of this association, and in naming Mr. Ober as chairman of the delegation also appointed Messrs. Frederick Mayer of St. Louis, Mo., C. V. Albright of Raleigh, N. C., Professor Henry G. Bell of Chicago, Ill., W. G. Welsh of Columbus, Ohio and W. G. Sadler of Nashville, Tenn., as members.

PRIMULA MALACOIDES

"The Glorified Baby Primrose"

Offered for the first time in America. This variety will continue sending up a succession of blooming spikes (color, beautiful lilac), giving the appearance of a shower of blooms.

The individual flowers are much larger than P. Forbesi and infinitely more freely branched. It is highly recommended either for cut flowers or for plants, which sell readily on sight. Per trade pkt., \$1.00; ½ pkt., 60c.

Our Fall Bulb Catalogue of Quality Bulbs, etc., now ready.
A post card will fetch one by return mail.

Arthur T. Boddington, Seedsman, 342 W. 14th St., New York

Large Arborvitaes, Hemlock and Norway Spruce.

PERSONAL.

A. Deisler, florist of Newark, N. J., is very sick with dropsy.

Wm. H. Siebrecht, Astoria, N. Y., has just returned from Europe.

A. Spencer who has lately been with Lubliner & Trinz states that the report that he will go into the retail business is a mistake.

Miss Susan H. Wiley and William Dunn, florist, of Fairhaven, Mass., were married on Sept. 20 at the residence of Rev. William J. Martin.

Herman Schiller, president of Schiller the Florist, 2223 West Madison street, Chicago, Ill., and Miss Pearl Yager were married on Sept. 28.

G. H. Pieser who has long been in poor health is expected home this week from Winnipeg where he went hoping to be benefited by the change.

Chester J. Hunn, of the U. S. Government Horticultural staff in the Sandwich Islands, is suffering from an attack of typhoid, so a recent cable says. He is the son of Professor C. J. Hunn of Cornell University.

Charles Millang, the New York wholesale florist, found, on his return from a short vacation with his family in the White Mountains, that his home in Bayside, N. Y., had been burglarized during his absence. Money and silverware were taken.

Benjamin Hammond, the esteemed secretary of the American Rose Society, has declined the nomination for Member of the Assembly from the first district of Dutchess County, N. Y., for business reasons. It is to be regretted that a gentleman of such geniality, ability and unswerving honesty should find it impossible to give to his district his services as its representative in the halls of legislation. In their desire to select him for this post his fellow-townsmen showed most excellent judgment.

Some men can never get out of their own way—they are pulling their own weight and don't know it. Cheap-price Buggaboo has a mortgage on their intellect at the rate of about 50% per annum. And these are the very fellows who kick the most—they couldn't kick more if they had their bed spread on a donkey-engine. They buy cheap stuff for little money and immediately forget what they pay but never forget how bad the stock is after it is forced. They have ingrown ideas of their own and you can't tell them anything nor reason with them. They are almost as bad as the professional canceller of orders—the worst and meanest kicker on the face of the globe. Just the kind that would insist upon a one-armed man to take up a church collection—they don't even trust themselves. They are so used to dealing with the Wooden-Shoe Hikers from Holland that they think there is no honor left in the world. So, when you buy bulbs for little money, expect little value and you will not be much disappointed; but if you pay a fair price and insist upon a good article, you will be better off. Then, remember that the profit in your business is not regulated by the amount of pot-wolloping you do but by the kind of pot-wolloping you can get others to do for you plus your ability to market the goods. For real good bulbs, particularly lily bulbs, write us.

Seed Trade

Seeds That Are Scarce

The following is an extract from a communication sent out under date of September 28, 1911 by W. Atlee Burpee & Co.

While garden peas and Golden Self-Blanching celery have been in extremely short supply for the past two years, yet never before in the history of the seed trade have there been so many nor such alarming shortages as in seed crops of 1911. There is "almost a famine" not only in peas and French-grown Golden Self Blanching celery, but also in nearly all the beets, mangels, carrots and parsnips, as well as in certain cabbages, radishes and turnips. Eastern-grown cucumbers are only one-fourth to one-half a crop. California sweet peas average little more than half a crop. Our crops of Connecticut-grown Red and Yellow Globe onions are also unfortunately short in yield of seed, while Gibraltar onion is almost a complete failure.

In our extensive travels the past summer (more than 30,000 miles), the only country in Europe where we found seed crops uniformly good was in Denmark. On some of the islands of Amager and Zealand the crops of cabbage and cauliflower were better than we have seen for years and the seed should possess unusual vitality.

Notes.

Among the items that show signs of under-supply for the prospective demand this fall are the Dutch bulbs, especially narcissi and astilbes.

Joliet, Ill.—The seed and agricultural business of Chas. S. Culver, 120 Jefferson street, has been purchased by Kaffer Bros. of Minooka. The business will be continued with John Kaffer as head.

We understand that it is the practice quite generally this year for some of the Holland bulb houses to "pad" their American orders on French bulbs, adding to each shipment a thousand or two more bulbs than the order calls for. The importer is, in a way, almost helpless in such a case as he must accept all or none and there are very few who would care to get into a controversy afterwards over so comparatively small a matter. Quite a good scheme for unloading surplus this year and increasing the size of your order next year.

Brownsville, Tex.—The Brownsville Growers' Association has been permanently organized here for the purpose of co-operative marketing and the buying of crates, seeds and other supplies. A. H. Darling was elected president; T. N. Randall, vice-president and J. S. Duncan, secretary-treasurer. The organization will be incorporated for \$2000 and a charter has already been applied for. The membership at present is about 125 farmers, all of this section, but it is the plan of the promoters to have the growers of the entire Rio Grande Valley affiliate. The directors as elected are: Randall Mathers, R. H. Senter, A. F. Pyatt, F. Rusteberg, H. H. Barber, W. K. Work, M. Lamb, A. C. Beebe and Peoth Hamlett.

PHILADELPHIA NOTES.

Maurice Fuld of Michell's has just returned from a tour of the New England flower shows. Among items worthy of mention he cites:—that Michell got a first class certificate on Kunderdi gladiolus at New York City; at Hartford; and at the New Haven shows; that C. H. Totty has the greatest new rose of the year in Sunburst; that at the Newport show the exhibit of Miss Foster was wonderful; and that Henry Wirth of Providence, R. I., an amateur who exhibited thirty seedlings of cactus dahlias of his own raising is a wonder and ranks with the best of the professionals.

We are glad to be able to announce that James Griffin, florist, of Frankford, who with his daughter were nearly killed in a runaway accident opposite the Michell farm at Andalusia about a month ago are on the mend and are able to be about again. How near a case it was may be imagined when we state that the young lady was unconscious for four days. Mr. Griffin was thrown twenty feet on the hard road and was unconscious for hours. This is rather a lonely stretch of pike and it was nearly twenty minutes before assistance came and the patients were rushed to the hospital.

Visitors: Mr. Greaves, Pittsburg, Pa.; G. B. Wiese, Buffalo, N. Y.; A. W. Smith, Jr., and A. Hall, of A. W. Smith & Co., Pittsburg, Pa.; Alex. Forbes of Peter Henderson & Co., and C. B. Knickman, New York.

PROVIDENCE NOTES.

The Rhode Island Horticultural Society has offered the Florists' and Gardeners' Club of Rhode Island \$150 to be used in premiums at the annual corn and chrysanthemum exhibition which is to be held in Elysium Hall, November 4 and 5. A special committee of the club on exhibitions will make a division of the money into various classes in a way designed to attract exhibits of the best growers.

Edward Brooks, manager of T. J. Johnston & Company, returned Thursday from a vacation in the country.

W. S. Pino started last Tuesday on a motoring trip through Vermont and he will be gone about a week.

NEWS NOTES.

Joliet, Ill.—Miss Carter is now sole proprietor of the Carter Floral Co., having bought out her partner.

Racine, Wis.—The greenhouses of M. Hanson, 1603 Winslow avenue, have been purchased by Sam Pezzlito.

Reed City, Mich.—T. H. Long, of Evart, has purchased the greenhouse formerly conducted by Jacob Noll and W. P. Pepler.

Chicago, Ill.—The greenhouses of Peter Reinberg at Foster avenue and Bowmanville road were ruined by the severe storm of Sept. 18. Much of the glass was broken and the wind scattered flowers over the surrounding country. The loss is placed at \$30,000.

WASHINGTON NOTES.

C. A. Shaffer & Co., of Alexandria, Va., are sending a good sized portion of their output to the Pennoek-Meehan Co.

William F. Marche injured his foot in a fall sustained when his motorcycle skidded, throwing him to the ground.

George C. Shaffer, Fourteenth and Eye streets, N. W., will make a number of minor repairs and will repaint the interior of the store.

The Brookland flower show held in the Lord Memorial Hall last week brought forth some very creditable specimens of cannas, dahlias in many varieties, roses and geraniums.

J. A. Phillips, proprietor of "The Flower Store," at 2926 Fourteenth street, N. W., last week opened up a branch in the Arcade Market at Fourteenth street and Park Road, N. W.

The Joseph R. Freeman store at 612 Thirteenth street, N. W., is receiving a new coat of green paint on the outside and one of ivory white on the interior in preparation for fall business.

Marche & Co., 735 Fourteenth street, N. W., have repainted the interior of their store and further improved it by the addition of lattice work on the walls and at the rear of the display window.

Fred Michell, of the H. F. Michell Co., and I. Rosnosky representing the same firm were in town last week. B. Eschner also called on the local trade in the interest of M. Rice & Co., Philadelphia.

Z. D. Blackistone has the Fourteenth street side of his store all boarded up preparatory to the installation of a new front. Upon the completion of alterations Mr. Blackistone will have

IN THE SWIM

*I must be in the swim,
You might forget my name,

Tel. Wellesley 44-1 and 2. Night 44-3

one of the show places of the city.

Wallace W. Kimmel, 1131 Fourteenth street, N. W., with a party of friends is doing his utmost to remove the finny denizens of the water surrounding Blackistone's Island, Md. Anyhow they are having a very good time from all accounts.

Mr. C. J. Saunders recently removed his store from 1411 to 1415 U street, N. W., at which latter address he has more space and a store more nearly fitted to the requirements of a growing business. The stand is well located, being near the transfer station at Fourteenth and U streets. He is one of the recently elected members to the Florists' Club of Washington.

It has been reported that the partnership which heretofore existed between J. Harry Ley and J. J. Bickings has been dissolved. They have been doing business during the past six years under the title of Ley & Bickings. The former will continue at the old stand while the latter will re-engage in the two new houses, on adjoining land, which have just been completed.

The Washington Florists' Co., Thirteenth and F streets have perhaps the best display window in the city this week, decorated in the honor of the convention of the Veiled Prophets. As a setting for a display of lurid Satanic scenes and emblems the window is filled with scarlet geraniums, cannas, golden rod and ferns, and at the back is a large model of the Washington monument, painted red in spots, and representing "A Hot Old Time."

Florists in Anacostia, D. C., where there is a large area devoted to hot-houses, are enlarging their facilities, and those who have not added to their equipment are expected to do so shortly. Two modern hot houses have been recently constructed for Fred H. Kramer at his establishment in Good Hope road. Others have been built at the gardens on the Bickings estate at Good Hope, and James F. Pierce is modernizing part of his equipment on the Bowen road. Alexander B. Garden is having similar work performed at his Minnesota avenue plant.

Visitors.—Sidney Bayersdorfer, of H. Bayersdorfer & Co., Philadelphia, Pa.; Robert H. C. Bard of Bard & Davis, Syracuse, N. Y.

CLARENCE L. LINZ.

CHICAGO NOTES

Henry Kruchten is again at the store for the busy season which seems must be now at hand.

Theodore Vogel, formerly at Kennicott's, has joined the ranks of the retailers, taking a position at the Alpha.

The Chicago Carnation Co., is cutting carnations now with 18 in. stems. There are none finer in quality in the market.

W. H. Hilton of 1220 E. 63rd street has opened a second store on 53rd street. It will be in charge of his daughter.

Jos. Brooks of Morton Grove is completing the addition to his range of houses and in another week will have everything in order.

The mail order business already in for the Fisher Plant Clip is very encouraging to the E. H. Hunt Co. who are handling it. Last week's issue contains full description with illustrations.

The flower show given by the Horti-

cultural Society of Chicago at the Art Institute last week was not taken hold of very enthusiastically by growers in general. The space was nearly all taken by a good exhibit from Vaughan's Seed Store and in most entries there was no competition.

G. Redburn has just returned from a western trip which extended as far as Portland, Ore., and found business very encouraging. Mr. Redburn represents the A. Henderson Co., whose advertisement appears in another column and whose second shipment of Formosum and first of Multiflorum are due this week.

A trip to the George Wittbold's plant at Edgebrook is a pleasure, for the young stock is in excellent condition and being rapidly shipped out. Work in the nursery will be in order soon and a fine lot of iris, cut-leaf sumach mulberries, snowberries, box elders, etc., are ready for shipping. Otto Wittbold is still wrestling with hay fever but never loses a day.

Visitors: W. H. Hart of Clinton Falls Nursery Co., Owatonna, Minn.; R. Karlstrom, representing W. A. Manda, South Orange, N. J.; Geo. M. Brinkerhoff, Springfield, Ill.; J. Papadakis, Kansas City, Mo.; Mr. Stuppy, of Stuppy Floral Co., St. Joseph, Mo.; C. E. Gullett, Lincoln, Ill.; Mr. and Mrs. Chas. Sherwood, Waterloo, Ia.; Louis Turner, Kenosha, Wis.

ST. LOUIS NOTES.

Wm. P. Craig, of Robert Craig Co., Philadelphia, spent a few days here the past week calling on the different plantmen.

There is some talk of organizing a union among the florists. This talk comes from those who solicit funeral orders and want to make a bit with the local unions.

President Taft's visit last week brought some extra work for the local florists. At every place the President visited flowers were prominent. Beauties were largely used on all occasions.

The Wm. C. Smith Wholesale Flower Co., with their employes, spent Sunday afternoon, September 24, at Kirkwood. They came back with a great load of crawfish. There were five ladies in the party.

Flower Market Reports

BOSTON At present writing much lower temperature prevails than during the past few days, and killing frosts are a possibility at any moment almost. Carnations are responding to the better environment, and are increasing in quantity and improving in quality. Lily of the valley and cattleyas are in excellent demand, and the quantity of the latter is thus far below the needs of the market. Chrysanthemums are mainly confined to the Golden Glow variety, but a large vase of October Frost made its appearance at Welch Bros. this day. Asters are pretty near their finish, the bulk of the late bloom having been badly injured by the frost which came some ten days ago. Roses are getting solidly and finish, and each day sees them more deserving of attention from the flower buyer.

BUFFALO With the outdoor material drawing close to the end, prospects for new life in business is looked for at an early date. There was a slight frost some few nights ago, but no injury reported to any extent. Short-stemmed roses and carnations are gradually filling the market, and the warm days have a tendency to bring them on faster. Gladioli are shortening in supply, also asters, and they will not be missed until they are over with. Summer roses still are had in good supply, and there are some choice Kaisersins and President Carnots. Bon Silenes are gradually coming forward and violets have made their appearance.

CHICAGO The change in the market conditions is coming gradually and trade has not experienced the sudden revival that many anticipated when September came. All lines of stock are selling as well as is usual before a frost, even the few flowers left in the gardens affecting the local market somewhat. The opening of the various clubs in the city begins this week and adds considerably to the demand for Beauties and other roses. Asters are still with us and the season will close as it began with a few good ones and many poor ones, the former from the greenhouses and the latter from the rain-soaked fields. Carnations are showing up well for the season, stems fully up to the average and blooms large and perfect. The first violets are straying in and orchids are more than able to meet the demand this week. Gladioli will soon be of the past and give way to the chrysanthemums, now coming in more freely and selling readily for September. Of roses, the variety is complete and the quality excellent, while prices vary accordingly. Shipping trade is quite good; the best roses are practically used up each day. There is a good supply of green of all kinds.

CINCINNATI This week business started with a rush that was most gratifying. The close of last week was also very satisfactory. The market, with the passing of asters and gladioli, is tightening and some lines already bring a slightly higher price. The shipping business is good especially in greens, and includes also practically

CATTLEYAS

Splendid large flowers, \$6.00 per doz. In lots of 50 or over \$5.00 per 100. All specimens at this price, smaller flowers at less money.

VALLEY

Special, \$4.00 per 100. Extra, \$3.00 per 100. In any quantity on short notice, our usual P.M. quality which means the best on the market.

all lines of offerings in flowers. Local business, too, seems brisker than for a fortnight. The supply of roses of all kinds continues strong and of excellent quality. The carnations, especially the lighter and white shades, are rapidly rounding into shape. Lilies have become very good stock and prices have improved. Some very good

dahlias meet with a not over good market but as soon as the asters are completely out should sell better. A few chrysanthemums have put in an appearance and cleaned up quickly at high prices. The lily of the valley offered is good. "Sufficient" gives the green goods market in a word.

Flower Market Reports.

(Continued from page 477)

DETROIT Many extensive store decorations for fall openings and weddings kept most of the stores very busy and put a more healthy price on cut flowers. It looks as though we may look forward to a short supply for a few weeks in the near future. A very encouraging report comes from Mt. Clemens where the majority of our wholesale growers have some very up-to-date ranges.

NEW YORK The genial weather continues to exercise its uncongenial influence on the flower trade, and so long as dray loads of dahlias, cosmos and other garden products are a daily spectacle in the wholesale district not much change in conditions may be looked for. The same warm autumn sunlight which brings the dahlias into bloom is also at work on the indoor crops, and roses are responding to its influence with an exuberance which brings dismay to the man whose business it is to find a purchaser for the heaped up consignments. The cattleyas, likewise, are hurrying in on the market and where, a couple of weeks ago none were obtainable, today the dealer is sorely puzzled as to how to get rid of them. Violets have added their quota to the general accumulation. They are blooming more freely than would be expected under the circumstances, but are very pale in color, and there is very little demand for them. Carnation gradually improving and chrysanthemums getting more in evidence every day. Asters slackening up and gladioli near their end.

PHILADELPHIA We are passing through a transition period at present. The summer doldrums are over, of course, and the sanguine looked for the brisk fall business to commence at once. But the brisk fall business holds off. For a day or two, off and on, we imagined that the brisk "brown clad lad" was with us—and then we awakened to the sad fact that it was only a dream, due to the wish being father to the thought. Last week we had flowers to burn and no takers. The past week was only a sample of the condition. For four days it was "nothing doing"—then Friday and Saturday saw a pretty good clean-up on everything except roses. The latter, especially in pinks and whites, went a-begging; a big surplus. The red roses like Richmonds and Beauties fared better.

Some blamed the weather but while that was not ideal it was not so bad. The demand simply was not there in any department—that is all. The majority of the carnations are pretty short-stemmed and such stock hangs fire. Really good carnations meet with ready sale, but these are few. Dahlias are very plentiful and excellent. All things considered it is surprising how these clean up when the enormous quantity coming in daily have to find a market—or the dump. Of course the prices on these are very moderate and this has its effect on all other flowers. Asters and gladioli on the wane. Orchids more plentiful and a big drop. The only chrysanthemums arriving so far are early yellows and these find a fairly good market.

PROVIDENCE

The general tone of the market during the past has shown a slight improvement and the trade is in a very expectant mood. Outdoor flowers are practically extinct and as a consequence the hot-house products are in demand. The prospects for a prosperous season appear very bright. Already many "coming outs" are scheduled, society is planning for a busy time this winter and many entertainments are on the program. With this outlook the florists are feeling jubilant and their only hope is that they can supply the demand. Carnations are coming slow and the demand far exceeds the supply. The quality is fair, but the stems are short and the average price is \$1.50. Chrysanthemums of a very fair quality are on the market, bringing from \$2 to \$3 per dozen at wholesale with a good demand. Roses of a fine quality are very plentiful. Many of the florists are showing a fine crop of violets for this time of the year and they are worth a cent apiece at wholesale. Some very fine cattleyas are available at \$6 per dozen. Asters are running very poor, there is little demand for them.

ST. LOUIS During the past week there was a great deal of stock in at any of

the four markets with hardly enough demand to dispose of it and the warm days did no good to a left-over stock. Prices have been very cheap all week and in some cases the thousand-lot prices were so very low that we will not record them. A few chrysanthemums are coming in, and sell well at from \$1.50 to \$3 per dozen. These from now on will become more plentiful each week and stay with us in abundance for the next two months.

Next week we are looking forward to as quite a busy one. The fall festivities begin with the Veiled Prophets' Ball which generally uses up a lot of extra fine stock. There will also be a lot of fall opening decorations to be made for the large department stores downtown.

WASHINGTON The Jewish holiday caused a little flurry in the market

Thursday and Friday last week but Saturday was almost flat in comparison. There was plenty of good clean stock to cover all demands. Roses are even more plentiful than the week past. Lilies selling slow at \$8 to \$10 per hundred; lilies of the valley are going fairly well at from \$3 to \$4 per hundred; dahlias have been quite plentiful at from 75 cents to \$1.50. There were probably more carnations in the market last week than were needed, and they were sold at from \$1.00 to \$1.50 per hundred. The pinks and whites seem to go quite well, but there is little demand for reds. Cattleyas are more plentiful and are offered at \$6 per dozen, with little demand in some cases as low as \$35 per hundred. The above quotations apply to first-class stock only, the poorer grades being sold to street men at much lower figures. There seems to be an increased number of street men and an increased demand for the class of goods they carry.

THE NEW MINERAL FERTILIZER

Will produce

MORE

and

**LARGER
FLOWERS**

and of better
color than any
plant food ever
put on the mar-
ket.

Contains all of the
original elements
of virgin soil

The above cut shows hollyhocks, nine feet six inches high, with more blossoms and of better color than ever produced by any other fertilizer.

Write for catalogue and testimonials.

Will

DESTROY

all

**INSECT
LIFE**

that preys on
plants under
glass.

It is a plant food
and not a stimulant

Just the remedy for the black aphid on chrysanthemums—red spider and thrips on carnations—green fly on roses—mealy bug on gardenias and crotos' scale on ferns, palms and other decorative stock.

\$2.50 per gallon, \$1.00 per quart.

FUNGINE

Fungine has no equal for carnation rust, rust on chrysanthemums and mildew on roses.

\$2.00 per gallon, 75c. per quart.

There is but one convincing way for you to become familiar with the merits of Aphine and Fungine, and that is—test them out yourself—it will prove worth your while.

MANUFACTURED BY

**APHINE MANUFACTURING COMPANY
MADISON, N. J.**

Imp Soap Spray

Clean and odorless. Forms invisible films.
Non-corrosive. Usual effective
strength, one to thirty-two.

Single gallons, \$1.50
In barrels, \$1.00

THE NIESSEN OPENING.

We wish we had a picture of that fine new eight-story building at Twelfth and Race that the Niessens have put up and have just moved into. It is an ornament to the city and a monument to the enterprise of this progressive concern. The migration took place as scheduled, Sept. 25th. Ever since the firm has been busy shaking hands and reading letters of congratulation. We hasten to place ourselves in line and to wish our friends health, wealth and prosperity and we rejoice with them in this outward token that merit has met its just reward. Leo Niessen the founder of the business, is so blushingly modest that we refrain from throwing at him the usual bouquets. Arthur Niessen, one of the brothers who has had a big lot to do in building up the business, we would like to say some nice things about but he gives out the old and is deathly afraid of compliments. The minute you expend your warm smile on him he blushes up and nothing, but you can wait a moment means "there's that start after a compliment." So we will say nothing about him either.

There's the other brothers, and Clarence and the captain, that we don't talk about, and Charlie and Herman, and Cy Morgan also, but those are such gluttons at swallowing compliments and anything else that comes their way that we must pass them up as inappropriate matter for this article. The only thing left outside of foolish statistics to speak about is the

Landscape Gardening

PROF. CRAIG

A course for Home-makers and Gardeners taught by Prof. Craig and Prof. Batchelor, of Cornell University.

Gardeners who understand up-to-date methods and practice are in demand for the best positions. A knowledge of Landscape Gardening is indispensable to those who would have the pleasantest homes.

MISCELLANEOUS

TO EXCHANGE OR SELL 2 in. 2 1/2 in. 3 in. Primulas and Spargeri Seedlings, or 2 1/2 in. for well grown Vinca var. Primula chinensis, Violets or Gladiolus bulbs. The East Lawn Gardens, Urbana, Ohio.

WANTED TO RENT: Greenhouse, with some land in good town in Northern Ohio, Indiana, or Illinois; not too far from railroad. Will lease for term of years with privilege of buying. Kindly give full particulars in first letter. Address "Florist," 808 Church St., Flint, Mich.

free light of the sun that is let in on the buying floor. No more passing off pink for orange. No more substituting the "just as good," no matter how plausible the salesman. And no cunning on the part of the grower with rubber bands and invisible wires will go undetected on split carnations. The "Daylight Store" has at last arrived. G. C. WATSON.

NEWS NOTES.

Boston, Mass.—H. M. Robinson & Co. have installed new ice chests and renovated their establishment throughout.

Waukesha, Wis.—The Milwaukee Electric Railway and Light Co. have purchased the greenhouses and property of Thos. Weaver & Son.

Harrisburg, Pa.—The Building Committee of State College has rejected all bids for construction of the new horticultural building at the college, as the appropriation had been exceeded. New bids will be asked.

New York, N. Y.—A. J. Gorman has reentered the wholesale cut flower business at 55 and 57 West 29th street.

The Wilson Plant Oil & Fertilizer Co. will soon remove its office from 150 Nassau street, New York City, to Springfield, N. J.

What the Users say

KROESCHELL BOILER

Half the Coal and Half the Work.

"Your No. 13 boiler is carrying 25,000 sq. ft. of glass and I can keep it at 60 degrees in the coldest weather without any trouble. I have three other types of boilers also heating a range of 25,000 sq. ft. of glass, but the No. 13 Kroeschell Boiler ONLY TAKES HALF THE COAL and half the work to get the same results."

J. G. FRISZ, Vincennes, Ind.
P. S.—Mr. J. G. Frisz, of Vincennes, Ind., has the largest range of glass in Indiana devoted to vegetable forcing.

GOOD JOBS FOR GOOD MEN

THE growing importance of the horticultural trades is strikingly shown by the demand for trained men who are familiar with the greenhouse, nursery and seed businesses. We could use, or place with our clients, at least a dozen good men if we knew where to find them. Some of the openings that offer unusual opportunities, details concerning which can be obtained by writing us, are as follows:

COPY MEN. For our own staff. The first requirement is the ability to write clear, concise, convincing English and consequently experience on a daily paper is almost necessary. Another essential is love of the things that grow and a successful record in growing plants, trees and shrubs, commercially or otherwise. Further, it is highly desirable to have had training in the sales department of some business—preferably, of course, in one the product of which is sold to the classes of people who buy fruits or ornamentals. Only young men can be considered, and good health, clean habits, ability and willingness to do a lot of hard work, are some of the necessary qualifications.

PARTNER IN NURSERY. For one of the best greenhouse and nursery plants in the country 50,600 feet of glass and 130 acres. A competent man who possesses good business ability will be sold a half interest at a fair price and on reasonable terms. Locality is unexcelled for growing many kinds of nursery stock.

CORRESPONDENCE CLERK.—For leading nursery, growing fruit and ornamental trees, etc., in large quantities, and selling both at retail and wholesale. The business of this firm is growing by leaps and bounds, and there is no better opening for a young man of energy, adaptability and some experience in the right line.

OFFICE MANAGER.—For another prominent firm of nurserymen. A man who knows book-keeping, office systems, filing methods, etc., and who is thoroughly up-to-date, will find this the chance of a lifetime. "Has beens" and fellows who know it all need not apply, however,—a "live wire" with executive ability is required.

SHIPPING FOREMAN. For great eastern fruit-tree nursery. A fine position for men of good habits and clear record. No booze-fighters or lazybones will be considered. Knowledge of varieties and of good and bad trees an absolute essential—also ability to handle and hustle men.

Write us fully if any of these openings appeal to you.
Your communications will have prompt attention.

Seasonable Notes on Culture of Florists' Stock

ANTHRIMUMS

One of the best crops to follow the early and medium chrysanthemums is a strain of the improved large-flowering snapdragons. Plants propagated from cuttings or seed last spring and occasionally shifted into larger pots will make promising stock for indoor planting. Where they have been grown under field culture the sooner planted now the better. After planting be particular to give sufficient water to wet the ball thoroughly. In a week or ten days they will be making new and active roots in the bench so it is essential to keep the soil evenly moist. The beds should be slightly loosened up and entirely free of weeds at all times. Disbudding and keeping the shoots supported to ensure straight stems should receive attention as soon as they require it. Give them a temperature as near 50 degrees at night as possible and let them run up to 65 or 70 degrees in the day time with sunshine. The aphids must be kept in check for they are very difficult to eradicate when once they get the upper hand, so give light and regular fumigation. Ventilate as much as possible day and night until cold weather.

BULB PLANTING FOR OUTSIDE

The planting of hardy bulbs can be done any time from now until the middle of November. In the more northern States the earliest date is the best, but in the latitude of Massachusetts and Connecticut from October 10th to the 20th will be sufficiently early, and for further south correspondingly later will do. All bulbs with but few exceptions, like well drained soil. Any beds or borders with ten to eighteen inches of good soil will grow fine flowers. Use plenty of well-decayed manure, always avoiding fresh manure. To prevent successive freezing and thawing give them a mulch of leaves or straw manure and lay on a few evergreen boughs so it will not blow away.

CARE OF VANDAS

These orchids will need the utmost attention now in the way of ventilation. At this season there will be times which will deprive them of much ventilation, so give them all possible when climatic conditions are right outside. Keep reducing your shading so that by November they will be having the direct solar rays which are so essential for their welfare. These orchids will require quite a supply of water even during the winter and should on no account suffer from drought. Now that fire heat will be needed see that the atmosphere does not become too arid or dry, for in their native habitats during the resting or dry season they are refreshed by heavy dews at night. At this period of the year syringe them overhead on all bright mornings so that they will have time to dry out before the afternoon. Vandas will stand a high temperature, but if during the winter they are held from 60 to 65 at night, with ten degrees higher during the day, they come out with better tissue and constitution.

VIOLETS

There is no cut flower crop so apt to be ruined in so brief a space of time as the violet. We should now re-

double watchfulness to meet any sudden rising or falling in temperature, cold rains, shifting winds, chilly or overwarm nights. Watering should always be done in the morning and only on bright days, so that the foliage may be dry before night, for if the water lies on the foliage over night the leaves will become the seat of a fungous growth that will ruin your crop. Give the beds an interval of time between waterings to ensure drying out of the soil, and sweetening by stirring and a couple of days exposure to the sun and air. Keep the plants free of dead or diseased leaves and insects.

NYMPHÆAS

All tender nymphæas should be taken indoors and kept in a temperature of 55 to 60 degrees; this will keep them in a semi-dormant state until spring. Where the hardy nymphæas and nelumbiums are growing in natural ponds having water of sufficient depth that freezing will not reach the crowns, they are perfectly secure for the winter. Those that are grown in tanks or tubs can have the water drained off. Cover with boards and on this place enough of leaves or litter to keep the frost out.

ROOTING CUTTINGS OF HARDY SHRUBS

Most of the shrubs which are of value to the florist lend themselves freely to fall propagation. Select the ripened shoots of the past summer's growth, but the cuttings should neither be taken from the very small twigs nor from the thickest growth, but just the medium. Cut into lengths of from 8 to 12 inches and insert in freshly dug soil, choosing a warm sheltered aspect. Where the soil is of a heavy clayey nature a little sand should be placed in the bottom of the trench opened for the reception of the cuttings. Place the cuttings well down—even if the top is covered it will be all the better. By the middle of December cover the beds with some rough litter 6 or 8 inches in thickness, which can be taken off in the spring as soon as the weather will permit.

John J. M. Farrell

Mr. Farrell's next notes will be on the following: Amaryllis; Care of Ardisias; Chrysanthemums for Exhibition; Campanulas; Lorraine Begonias; Planting Lilies Outside.

Decorative Dahlia Golden West

This superb novelty, which forms the subject of our cover illustration this week, was one of three new dahlias exhibited for the first time at the Dahlia and Perennial Show in Horticultural Hall, Philadelphia, on September 19 and there awarded certificates of merit by the American Dahlia Society. This variety was mentioned in our notes on the show in issue of September 23, but incorrectly classed as a "Cactus." We think Mr. Burpee is justified in his claim that "it is undoubtedly the finest yellow in cultivation, regardless of type."

Clematis *confertifolia* coming at will over rhododendrons and adorning the dark foliage with its airy white festoons makes a lovely picture in late September and seems to have no ill effect on the rhododendrons. Indeed, it is a possible benefit to these shade loving plants if it does not grow too rampant.

Some Autumn Flowering Shrubs

Although the large majority of flowering shrubs produce their blossoms during the spring and early summer months there is also a considerable number which are not seen at their best until the fall, and when one considers what a large number of people there are who spend this season of the year at their country estates it is surprising that this section is not given more attention.

Hardy flowering shrubs are undoubtedly becoming every year more popular, a step certainly in the right direction, and they possess many advantages over the softer bedding plants heretofore so much employed. These, though useful and beautiful in their season, are only good for a short time and demand a considerable amount of attention, whereas flowering shrubs when established may be considered permanent and necessitate but little labor to maintain them in good condition.

The varieties mentioned here include some of the best for park and garden use and all of them may be considered perfectly hardy as far north as Magnolia, Mass. North of this it is probable that some might require slight protection in winter but I shall make special reference to these and even if it should prove necessary to propagate them annually they are such beautiful additions that all who appreciate their value would willingly perpetuate them.

To E. H. Wilson we are indebted for a large number of new and meritorious Chinese shrubs and it is very gratifying to find that many of these now in cultivation at the Arnold Arboretum flower during the late summer and autumn months. The most remarkable of these are the varieties of *Buddleia variabilis* and for ornamental planting either on a large or small scale no more beautiful shrubs exist. Some members of the genus *Buddleia* have been known in gardens for many years, one species having been introduced to Europe almost a century and a half ago, but few of them were sufficiently hardy to become generally cultivated out-of-doors in this country. The genus is a very interesting one and geographically covers a wide range, some members being found in America, Asia, Africa and elsewhere. As greenhouse plants some are of great merit, two or three from Central China discovered by Mr. Wilson being specially valuable, and I hope to refer to these in the near future.

A form of *Buddleia variabilis* with pale purple flowers and prostrate growth has been known to science for some years but as a garden plant it is of little value. Wilson's form of this is a very superior shrub with upright habit and long cylindrical tails of bloom and is the forerunner of several remarkable varieties. Those that have received names up to the present time are *magnifica*, *Veitchiana*, *Wilsoniana* and *superba*. Though all of these are equally meritorious the first named is perhaps the most noteworthy on account of its remarkable color. The individual flowers in all the forms of *Buddleia variabilis* are quite small, not measuring more

than an eighth of an inch in diameter but they are produced in great profusion at the terminal of the main stems and the numerous side branches. The flowers of *magnifica* are bright rosy-purple with a conspicuous orange eye and the edges of the petals are reflexed. It commences to flower about the middle of August and continues till the end of September. *Veitchiana* flowers a week or so earlier and grows a foot or so taller, with a more upright habit, but the stems droop gracefully when the flowers commence to open. These are a deep lavender shade and the center bright orange.

Wilsoniana is an exceptionally fine variety from five to seven feet in height and the flowering portion of the stem is frequently from thirty to forty inches in length. The color is rosy-lilac with a deep orange eye. The other variety—*superba*, though not so tall-growing as the preceding, is of exceptional merit. The side stems are produced freely from the ground and each terminates in a rounded tail of bright rose flowers, which contrast very effectively with the deep green foliage.

Buddleia albitlora, another species from Central China, resembles *B. variabilis* and grows from five to eight feet in height. The foliage is dark green above and silvery grey beneath and the flowers, in spite of the specific name, are lilac in color with an orange throat and sweetly scented. It commences to flower in July, but the numerous side branches maintain a succession of bloom well into September.

Buddleia nivea from Western China is not ornamental from a flowering standpoint but is worth growing for its ornamental foliage. The stems and under side of the leaves are densely clothed with white, silky hairs which make the plant quite attractive. It will grow seven feet high and the flowers are pink in short racemes.

The four varieties of *B. variabilis* mentioned above are all extremely easy to cultivate, a good loamy soil and open sunny position with plenty of water in the growing season suiting them to perfection. Although the stems frequently die down to the ground in winter this is no draw-back for if they do not it is advisable to prune them right down in the spring so that an annual growth is obtained. North of Magnolia I would advise taking up the roots in winter and storing them in a cool cellar.

Propagation is very simple either by cuttings inserted in September, which make nice flowering plants the following year, or by seed sown any time after it is ripe, in a gentle heat. To perpetuate these varieties cuttings must be employed as *B. variabilis* varies considerably from seed. As these plants have great potential value the raising of seedlings is to be recommended as varieties differing widely in color and time of flowering are certain to be evolved. As bees are very partial to them and they hybridise freely the best colors only should be kept so that inferior ones do not detract from them. As single specimens or for bedding in parks and open spaces few plants are superior to these and there is undoubtedly a great future before them.

Arthur. E. Thatcher

Fruit and Vegetables under Glass

LATE VINES

Late vines that are just finishing up their fruit will need every care to enable them to hang on as long as possible. Should the fruit still require a little longer to "finish," maintain a night temperature of 65 to 70, advancing to 70 to 75 by day and 85 with sun heat. Always admit as much air as possible and keep a buoyant atmosphere. The pipes must be kept warm at night and also through the day when the sun is not shining. Be governed by outside climatic conditions as to how much moisture to keep in the house. On bright days the house will probably stand for damping three or four times but should it be damp outside keep the vinery dryer. Maintain a dry atmosphere at night and do not allow any condensed moisture to be on the berries in the mornings. Never shut the house up entirely; a crack of air is indispensable for ripening grapes.

Rats and mice will be seeking shelter now and a vinery seems to be an ideal place for them (not a grower's opinion). Keep all doors closed at night as a precaution, and lose no time in trapping or poisoning the vermin as once in a house they soon wreck a quantity of bunches.

POT TREES

Pot trees of all kinds will now be resting and should not be neglected even though their requirements at present are few. In fine weather continue to give them a syringe every morning and water the roots, should they be on the dry side. After peaches and nectarines cast their leaves is their most critical time. If allowed to dry out they will cast their fruit buds and a season is lost. Avoid over-watering or roots will go rotten. This also applies to cherries, plums, pears and apples in a lesser degree, the two latter being the easiest to winter. Figs in pots or tubs that are also resting will be all right outside until severe frosts make an appearance, but after a few degrees they must be housed. They will take more water than the other subjects as long as they have their foliage.

STORING APPLES AND PEARS

This is an item which commands considerable attention as when properly stored the "home" supply is augmented for months. Storing apples in quantity from the orchards is a different proposition from handling a few. So much then depends on the quantity. I am not going to advocate any one system of storing as there are so many and so much depends on what accommodation there is at one's disposal. Care in gathering is one of the chief points as bruised fruit will not keep for any length of time. When a quantity of late dessert apples is to be kept a properly constructed fruit room is advisable. One, to maintain a uniform temperature in extreme weathers, should have extra thick walls and a non-conducting roof. Shelves can be arranged in tiers which has the advantage of allowing the fruit to be looked over at intervals and any decayed ones re-

moved. Some fruit rooms are built for ornamental buildings. Where a special room is not available, cellars, garrets and spare rooms can be used. Avoid a very dry place, as the fruit will shrivel quickly in such. Keep an even temperature near 40 without excessive dampness or dryness by artificial heat. Apples have been stored on cellar floors (where no fire was) with clean straw thrown over them to keep out the frost.

SPINACH

This is a useful vegetable to include in the winter house for you can "cut and come again." If sown now in drills one foot apart a nice growth will be obtained before the severe weather sets in. Use any well enriched soil and after the seedlings are through keep the surface soil loosened up to encourage root action. If over crowded in the rows thin out when large enough to handle or the best results will be lost. Maintain a night temperature of 50 and syringe well to keep clean. New Zealand spinach produces more than its relative and if this variety is accepted in the kitchen it should be grown in preference as so much more can be cut off any given bench room.

WINTER CUCUMBERS

If not already in, a batch of winter cucumbers should be sown at once. The English forcing varieties alone should be grown; these are better used to these conditions. Improved Telegraph and Rochford's Market are of the best; other good varieties are Satisfaction and Perfection. Sow seeds singly in three inch pots in a light compost, leaving it loose, as the water will settle it about the seed. Place in a temperature of 70 degrees. When seedlings have filled these pots with roots, plant them out on the benches, making the mound just large enough to nicely cover the tails, and as roots appear on the surface add top dressings of soil. This helps the plants along with new food as they require it. A compost of two parts loam, one leaf soil and one spent mushroom manure with a little sand, will be found suitable for them. Keep a night temperature of 70 degrees. Syringe morning and afternoon if fine and shut up early enough to run the house up to 90 degrees with sun heat.

PARSLEY

Parsley is a thing which is always called for through the winter and some late sown plants should be lifted or make a fresh sowing now. If bench room is scarce for a time pot or box them up until there is room. Parsley will adapt itself to varying temperatures if supplied with water as it needs it, 50 to 55 degrees at night suiting it best.

George H. Benson

Somerville, N. J.

We are informed that in England the hardy asters (Michaelmas Daisies) have suffered greatly in the tropical heat of the past season and are practically a failure in many districts.

The elections

The season for annual meetings is now approaching and in all organizations where there is "something doing" and good active red blood circulating, contests for official honors are a foregone conclusion. Mark that society or club as deficient in vigor and thread-bare in outlook where placid tranquility is the long suit and nobody takes the trouble to stir up a little healthy rivalry as regards policies and leaders. A little periodical agitation in the way of partisan enthusiasm is as wholesome a stimulation in the life of an association as is an occasional indulgence in outdoor sports for the man tied down to business drudgery and even a little turbulence is much to be preferred over apathetic indifference whether it be in an organization or in a man, so long as personalities and abuse are omitted.

The "good loser"

We are all more or less liable to fall into the error of assuming that an institution will "go to the bows" if our favorite candidate is not elected or the policies that we support are defeated. Human nature has no more common delusion. The worst course a defeated candidate or his friends can possibly adopt is to display resentment and temper by "quitting the game." We have known of instances where memberships have been withdrawn for this cause. As a rule a man hurts himself more than he does anyone else by such procedure. The world means to be fair, take it all in all, and there is nothing it admires more than it does a good loser. An honorable defeat is sometimes the greater victory. You may feel that the man who has won is not equal to the position, but perhaps he'll prove otherwise. Give him a chance, yes, do more than that: get in and help him and even if he doesn't finally measure up as the prodigy which his friends predicted, bear in mind those truthful lines by Pope:

"Whoever thinks a faultless piece to see,
 Thinks what ne'er was, nor is, nor e'er shall be."

A commendable Newport cult

That's quite an interesting new project which has been launched among the society ladies of Newport as described in our news columns this week. It sounds worthy and looks good as a general proposition although there may be some differences of opinion as to the desirability of certain of the objects as outlined. Any movement tending to a more intelligent understanding of real garden art and a deeper popular appreciation of floral and sylvan beauty deserves to succeed, for, as has been intimated, the American people are far, very far behind the European in this respect. Let us hope that the movement now so jauntily inaugurated may turn out to have been something more than a transient plaything, to be soon cast aside among other fads that have had their little day. In working to advance the art of gardening in America, however, while there is much to be learned through a study of European standards and achievement, it will be necessary to watch out and see that mere imitation is not mistaken for education. As to the avowed purpose to establish direct relations with foreign sources of seed supply, the American seedsman is likely to have views of his own and we may safely leave it to him to see that the smoke continues to "go up the chimney, just the same," as John Westcott would say.

EDUCATION IN FLORICULTURE.

Mr. Editor:

Prof. White, in his desire to cooperate with practical gardeners and florists on behalf of floriculture at Amherst, displayed a creditable breadth of view and earnestness for the advancement of horticulture in this state, and, I think if your valuable paper were used as a means for discussing the best way to train young gardeners and florists he would gain a good deal of help in that direction. My own view is that his department should be so constructed that it would not lean too much to either the commercial or what is called private gardening. The European apprenticeship system is very good, but in my day it had a great defect, in not having the time or facilities for study which is so necessary to keep any one from falling into a rut or getting set in his ideas.

Amherst, I think, should secure those intending to follow horticultural pursuits at fifteen or sixteen years of age about the time they finish grammar school, as from my observation and experience (for I have children in high school) after a boy has gone two years or more to high school he will very often not care to knuckle down to that manual labor which is necessary in training anyone to be a good practical gardener or florist. The course should be at the very least three years and four would be better; one year at outdoor vegetable and fruit-growing, a second in what might be called flower garden work and a third in the greenhouses, but it would better be two years in the greenhouses as indoor fruit culture is beginning to come to its own in this country, and one year should be devoted to it.

There should be a good collection of fruits, vegetables and plants, both outdoors and in the greenhouses, but not many varieties of any species, for if one knows how to grow one rose or carnation or tomato, for instance, he will by experience soon learn the peculiarities of the several varieties of either. I see no sense in a horticultural school going into a series of experiments with the different varieties of carnations or roses about how many flowers per plant they will produce in a given time, as the majority of new varieties have a comparatively very short life and it is waste of time and public money, if the institution is supported by the state.

The members of the committee chosen by Pres. Miller of the G. & F. Club of Boston, are men of wide experience and success in gardening matters, and we ought to see our state college do some good work for horticulture through their efforts in co-operation with Prof. White.

GEORGE F. STEWART.

Medford, Mass.

BRITISH HORTICULTURE.

A Dahlia Display.

The season of drought caused a falling off in the quality and quantity of the exhibits at the annual show of the National Dahlia Society at the Crystal Palace, on Sept. 7th and 8th. The novelties were also fewer in number. First class certificates were granted to the following new varieties: Maurice Rivoire—an attractive addition to

the collarette varieties; Uranus, a cactus variety, mottled and striped scarlet, on a white ground; Miss Stredwick deep pink cactus, with pale yellow centre. In the non-competitive section the leading dahlia specialists made admirable displays. Messrs. Hobbies, Ltd., of Dereham, Norfolk, had a well arranged and comprehensive group, which secured the only large gold medal awarded. Messrs. H. Cannell and Sons, of Swanley, Kent, had a good selection of cactus, single, and paeony-flowered varieties, which were arranged to the best advantage, and received a gold medal. Messrs. Keynes, Williams & Co., Salisbury, made an effective display of cactus varieties, prominent varieties being Conquest, Johannesburg, Joan of Arc, Mrs. Chas. Wyatt, Cavalier, etc. Other firms who included awards for varied and interesting collections included Mr. J. B. Riding, Chingford, Essex; Mr. John Walker, Thame, Oxon; Mr. J. T. West, Tower Hill, Brentwood, Essex; Mr. M. V. Seale, Sevenoaks, Kent; Chas. Turner, Slough, Bucks; Carter & Co, Raynes Park, Surrey.

Trade Society Meeting.

The Horticultural Trades' Association which is doing excellent work in the interests of British nurserymen and seedsmen, held its annual meeting recently at Exeter, under the presidency of Mr. Peter Veitch, of that town. At the business meeting a satisfactory report of the Association's work was presented, recording the continued usefulness of the Society's operations. In addition a number of matters of moment to the trade were fully discussed. The remainder of the time was spent in sight-seeing. Several of the chief nurseries in the district were visited. On the second day a visit was paid to Bicton, through the kindness of Lord Clinton, where a magnificent collection of conifers, rare plants and flowers were the chief attraction. A very enjoyable time was spent on the water in exploring the delightful scenery of the West Country. Mr. A. W. Paul of Waltham Cross, was elected as the President for the ensuing year.

W. H. ADSETT.

RUBUS INNOMINATUS.

Editor HORTICULTURE:

Seeing a cut of the new berry "Rubus innominatus" in your issue of Sept. 30 I write for particulars. Is the plant for sale? How long after being planted before it fruits? I am 82, but would like to see it growing and fruited.

Yours truly,

DR. J. H. THOMAS.

Wyoming, Del.

In reply to Dr. Thomas' query and incidentally several other inquirers. Mr. Wilson informs us that Rubus innominatus will fruit in the third year from seed and the second year from cuttings. The only firm offering it in this country, so far as we know, is R. & J. Farquhar & Co. of Boston, who will no doubt give prices and other information on request.

Greencastle, Pa.—The Troxell & Shake greenhouses have been taken in charge by George D. Reid. It is expected they will eventually purchase the plant.

FRUIT AND VEGETABLE NOTES FROM MIDDLE WEST.

Strawberries have made a little better growth than usual this year and will go into the winter with more plants set and developed ready for next year's fruiting than they usually have. The acreage for this coming year will not be quite as large as what has just fruited.

There appears to be less anthracnose on the raspberry canes this year with some growers than there has been for several seasons, but generally speaking, there is more, and the reason is not apparent.

Onions are all out of the field and mostly sold. Some have been shipped this year in the car loose, but generally it will pay the shipper to have them sacked before they are loaded. The price is around \$1.75 to \$2.00 per 100 lbs. and there is not much chance of its being lower for a few months. Yellow Globe is most largely grown.

Apples and pears are a slow sale at any price but stay around 75c. The crop is not big yet most trees have some on them that are salable.

Peaches are plenty, yet the price is \$1.25 to \$1.50 and up for the fancy ones. Banked trees are safer for the winter and are doing better producing this year than the ones not so treated.

County fairs have shown more fruit on display this year than ever before. The size was a little above the ordinary, but the most specimens have more or less scale spots on them.

A NOVEL GREENHOUSE FEAT.

An event of great interest to the florists' took place a few days ago when Mr. Stahelin moved a block of four houses, 35x173 each, over a field of 29,000 carnation plants which had been cultivated there all summer long. The houses are just like any other houses except that they have no benches, of course, and the heating is all overhead. As the carnations are planted in the field, they make one house each of Winsor, White Enchantress, May Day and Beacon.

The supporting posts of the houses have heavy wheels inserted in their base which run on steel rails; these again are supported by concrete posts eight feet apart. It took five men six hours to move them into place but Mr. Stahelin expects to move them in 30 minutes next year.

Next season the place over which these houses were built will be cultivated and planted with carnations and the houses moved back on again. For the heating of these houses Mr. Stahelin made provisions by erecting a concrete boiler house, 30x42, with two boilers of 100 horsepower each, and a smokestack 80 feet high with a 50 inch flue. Although this entirely new method is more or less of an experiment, nevertheless, Mr. Stahelin has certainly opened up a new line of thought.

FRANK DANZER.

Savanna, Ill.—Joe Dunn has purchased John Lambert's interest in the Savanna Greenhouses and is now sole owner of the business. Mr. Lambert expects to go on the road as representative of a bulb firm.

25th ANNIVERSARY FLORISTS' CLUB OF PHILADELPHIA

This historical and important event came off in due form on the 3rd inst. The meeting of the Club in its regular monthly session took place half an hour previous and elected J. Otto Thilow for their new president and continued George Craig as treasurer and David Rust as secretary for another year. The banquet followed in the main hall. President Heacock occupied the chair and in due course introduced Wm. B. Smith as toastmaster. The latter gentleman has done this honorable function for twenty-five years and fine as he was at the beginning he has mellowed with age and is now finer than ever. There were 149 ladies and gentlemen around the tables and, as William F. Gude said, they formed "the most distinguished assemblage in any one club ever seen in the country (wouldn't that jar you?). The Philadelphia Club has the distinction of being the first of the many similar organizations that have sprung up in every part of the country.

Secretary Rust read letters from all the leading lights in the business conveying their cordial regards and best wishes. The list given below gives a good idea of the speeches. This program was more or less closely followed and where one or another was not there—there was always somebody to take their place. And, so we mark another milestone in the history of our business.

THE TOASTS.

Joseph Heacock, Chairman, President Florists' Club of Philadelphia.

Toastmaster Hon. Wm. B. Smith.

1. Our Club. Robert Craig
2. The Ladies. Wm. F. Gude
- Song. Arthur Seymour

JOSEPH HEACOCK
President.

3. The Society. Wm. F. Gude
4. The Society of America. J. Otto Thilow
- Song. R. M. A. Vincent, Jr.
5. The Horticultural Society. Mrs. Mary Pack
- Song. Arthur Seymour
6. The Ladies. J. Otto Thilow
7. The Mothers. S. M. S. Pack
- Song. M. M. S. Pack
8. The Ladies. Albert M. Herr

In addition to the list of artists announced on the official program Wil-

liam Wunder gave two of his humorous recitations. Those who remember this genial soul and how he has entertained us in the past—can appreciate how this feature enlivened

J. OTTO THILOW
President-elect.

the occasion. He helped to take the chill off the cold water quite considerable. And another good feature not on the official list was a couple of songs by Horace Dumont. Horace vamoosed the ranks but is still with us in spirit.

Decorations were contributed by Arthur Niessen, Robert Craig Co., Robert Kift and Habermehl's. The arrangements were superintended by Robert Kift. A fine collection of dahlias was contributed by R. Vincent, Jr.

We hear much praise also for the able assistance of the secretary of the Club, David Rust, who worked most energetically with the committee in carrying out the arrangements. The president, Joseph Heacock, was also an earnest worker.

The committee on banquet was composed of Thomas W. Logan, George Burton, Arthur A. Niessen, Robert Kift and John F. Sibson.

Invited guests were present as follows:

William F. Gude, Washington, D. C.; William R. Smith, Washington, D. C.; Richard Vincent, Jr., White Marsh, Md.; James Dean, New York; William B. Smith, Camden, N. J.; Arthur Seymour, Jacksonville, Fla.; and friend; Mrs. Mary Pack, Jacksonville, Pa.; and friend; Edwood Dooner, Philadelphia.

Others present were the following:

Mr. and Mrs. Thomas Logan, Mr. and Mrs. Wm. Klemm, Mr. and Mrs. E. A. Harvey, S. S. Shubert, Mr. and Mrs. Charles S. Menden, John G. Whilden, John R. Ardie, Mr. and Mrs. Jno. F. Sibson, Henry F. Mitchell, Mr. and Mrs. Fred J. Mitchell, Mr. and Mrs. Joseph Heacock, and three friends, Mr. and Mrs. James W. Heacock, Mr. and Mrs. George Burton, Miss Elizabeth Burton, Mr. and Mrs. Robert Kift, Mr. and Mrs. William K. Harris, Mr. and Mrs. M. L. P. Mills, William H. Vance, George D. Clark, Mr. and Mrs. David Rust and son, Mr. and Mrs. John C. Guey, Fred Adolfer, Mr. and Mrs. Victor Gresham, Mr. and Mrs. John Westcott, Charles Sun, Richard E. Lange, John Welsh Young, Mr. and Mrs. Adolph Farnwald, George Craig, August Lutz, Albert M. Herr, J. D. Fisch, Theodore Shober,

Walker E. Bancourt, Xavier E. E. Schmitt, Alphonse Perlent, Martin Sauman, Eugene Reinheimer, Mr. and Mrs. P. M. Cutcheon, Harry S. Betz, Howard M. Earl, Joseph Myers, George E. Campbell, Mr. and Mrs. Andrew Graham, George C. Watson, H. C. Gelger, Mr. and Mrs. Paul Huebner, Carl F. Corts, H. I. Faust, John P. Habermehl, John A. Ruppert, Mr. and Mrs. Robert Craig, Mr. and Mrs. Robert A. Craig, Mr. and Mrs. William P. Craig, Mrs. Lank, Mr. and Mrs. J. F. Graeff, Mr. and Mrs. Samuel S. Pennock, Mr. and Mrs. Edward Towill, Clarence Upton, H. Bayersdorfer, Mr. and Mrs. Clarence W. Moore, Mr. and Mrs. Stephen Mortensen, Edward A. Stroud, J. W. Prince, C. E. Larzalere, John Aschmann, Godfrey Aschmann, John H. Dodds, Louis A. Couche, George S. Faulkner, Mrs. William K. Harris, Sr., Mr. and Mrs. William Wunder, J. Otto Thilow and daughter, Mr. and Mrs. Alfred M. Campbell, Joseph H. Sperry, Dennis T. Connor, Mr. and Mrs. Julius Wolff, Jr., A. E. Wohler, Mrs. Hinzey, Mr. and Mrs. Daniel Donoghue, Horace F. Dumont, A. R. Jones, Rev. R. E. Johnson, Frank Ramsey, M. D.

The only fault we can find with this successful affair is that it was made too much of a social function. The Florists' Club is a business organization, and it seems to be drifting further and further from its moorings. It could do a whole lot of good if wisely handled. Robert Craig was dead wrong in praising it as an athletic organization. We think Robert was just hunting around for nice things to say—and you all know his inimitable way of making the worse appear the better reason. If the business is going to get any better through the Florists' Club it will not do it with songs and jollity and athletics. The problem is much more serious and hasn't really been tackled yet notwithstanding this our twenty-fifth anniversary. So we say to the younger generation—forget

DAVID RUST
Secretary.

all these platitudes of the orators and start in and do something. Athletics and jollity are fine as an adjunct—but we want to broaden the business. The sugar coating to the pill may be fine—but it isn't the pill. Of course I put on my swallow-tail like the rest of them but I'm not especially proud of it.

G. C. WATSON.

CLUBS AND SOCIETIES

NEWPORT'S NEW GARDEN ASSOCIATION.

The Garden Association in Newport is the name of a society recently organized by wealthy summer residents and owners of important estates. Its officers are: President, Mrs. I. Townsend Burden; vice-president, Mrs. W. Storrs Wells; secretary, Mrs. Charles F. Hoffman; executive committee, Mrs. I. T. Burden, Mrs. Lewis Cass Ledyard, Mrs. Hope Slater, Mrs. Hugh D. Auchincloss, Mrs. Hamilton Fish Webster, Mrs. Frank K. Sturges, Mrs. Van Allen, Mrs. W. Storrs Wells, Mrs. C. Hoffman, Mrs. French Vanderbilt, Mrs. E. B. Andrews, Miss Edith Wetmore, Mrs. George L. Rives, Mrs. D. B. Fearing and Miss Mary Gwynn.

The objects as appears in the official circulars are—First: To increase the knowledge of owners of gardens in Newport by means of lectures and practical talks in the garden during the summer months by well known authorities. Second: To provide a corresponding secretary who will keep the association in touch with the development of new ideas and improvements in the varieties of flowers among the seedsmen and gardens of France, Germany, England and the east. Third: To establish a bureau where the seeds of novelties from abroad can be obtained. Fourth: To develop by means of illustrated lectures on the gardens of England, Italy and other countries more art, individuality, sentiment and variety in the planting of flowers, shrubs, etc. Fifth: To increase the practical knowledge of the care of trees and plants by demonstrating the methods used in Europe in the cultivation of flowers, fruit and vegetables and in forestry.

The gardening craft within the influence of this association, especially those in charge of estates expect that much good may be done by the new movement, anticipating that owners of estates will have more of their attention directed to horticultural pursuits with the result that gardeners will get more assistance and encouragement in their work than is the rule at present, so the outlook points to a mutual benefit.

JAMES ROBERTSON.

Newport, R. I.

FLORISTS' CLUB OF WASHINGTON.

The October meeting of the Florists' Club of Washington was held in the store of Gude Bros., 1214 F street, N. W., Tuesday last, with President Mayberry in the chair. The committee having in charge the matter of obtaining new quarters reported that the Moose Hall on Twelfth street, N. W., was available for the purpose and there were other halls equally favorable. They were granted an extension of time until the next meeting, at which a full report may be expected. Other matters of local interest only were brought up for discussion, following which an adjournment was taken.

The members then broke up into smaller groups to discuss such matters as interested them individually and later, upon suggestion of Mr.

Schmid, they went in a body to inspect the Moose Hall, referred to earlier in the evening. This was found to consist of two exceptionally large rooms, one for business purposes, the other for the preparation of such refreshments as may be furnished from time to time, or as a banquet hall. The members were favorably impressed with this and action will be taken at the November meeting of the club.

CLARENCE L. LINZ.

ELBERON (N. J.) HORTICULTURAL SOCIETY.

A regular meeting of this Society was held in Fireman's Hall, Elberon, N. J., on Monday evening, October 2nd, with President James Kennedy presiding. This being the meeting for nomination of officers for the ensuing year, brought a very large attendance. There were three new applicants elected members of the Society.

The judges of the monthly exhibits were Wm. Tricker, August Grieb and Peter Murray and their decisions are as follows: To A. Bauer, for *Cattleya labiata*, 80 points; D. C. Kelly, for *Leek American Flag*, 75; and Wm. Seymour, for *Sanseveria zealanica*, 85. The Chrysanthemum Show was discussed and it was decided to hold it in the casino at Asbury Park, instead of in Long Branch as in former years. The dates are changed from November 1-2 to November 7-8.

WM. R. SEYMOUR,
Cor. Sec'y.

HORTICULTURAL CLUB OF BOSTON.

This new organization held its October session at the Parker House on Wednesday evening, 4th inst. Among the gentlemen present from a distance were W. A. Manda, South Orange, N. J., Judge C. W. Hoitt, Nashua, N. H., F. R. Pierson, Tarrytown, N. Y., and F. Gomer Waterer, Bagshot, England, the latter gentleman being the especial guest of the club. A stirring communication from Professor Charles Sargent was read. Its keynote was the desirability of a closer sympathy and co-operation between the scientific institutions and the commercial horticulturist and this timely subject elicited some ringing speeches in approval. New lilies and new hardy chrysanthemums adorned the banquet table.

NEW YORK FLORISTS' CLUB.

Resolutions on the death of John Birnie, adopted at the September meeting:

Whereas, We, the members of the New York Florists' Club, are overwhelmed with sorrow by the loss of our friend, John Birnie, who died of heart failure at 10:20 A. M. 15th Sept. 1911, and in recognition of the activities of the annual convention of the Society of American Florists in the City of Baltimore, Md., we deplore the passing of this organized body who for many years has been an honored member of this organization and one of its most earnest supporters. Mr. Birnie's interest in the welfare of the New York Florists' Club was ardent and his repeated and steadfast refusal the highest honors in the gift of the club. He was beloved by the friends who knew his ready wit, his qualities of mind and heart, his noble forms of pretense, his friendly interest in

the club and deed, and to those who had known him he gave a friendship that was valued by all. His success in business was founded on a thorough knowledge of his calling and ability to accomplish results and a probity of character that commanded the respect of his friends.

Therefore be it resolved, That we, the members of the New York Florists' Club, with a keen sense of the loss we have sustained, desire to tender our deep sympathy to Mrs. Birnie and family in this hour of their bereavement, and ask that a copy of these resolutions be submitted to them and a copy spread upon the records of the club.

CHARLES H. TOTTY,
HARRY A. BUNYARD,
WALTER F. SHERIDAN,
Committee.

CLUB AND SOCIETY NOTES.

The St. Louis Retail Florists' Association will hold a regular monthly meeting on Monday night, October 9th, in the Knights of Columbus Hall.

The Chrysanthemum Exhibition of the Elberon Horticultural Society will be held at the Casino, Asbury Park, New Jersey, Nov. 7-8, 1911. Particulars of Wm. Seymour, West End, N. J.

The St. Louis Florist Club will hold its meeting on next week Thursday afternoon, October 12th, at 2 o'clock. All the new officers will be at their posts and the trustees have arranged for a pleasant afternoon.

The executive committee of the St. Louis Horticultural Society have decided that the flower show will be held in the Coliseum building the first week in November. In conjunction with the usual Shaw prizes a liberal amount was put aside for awards. The Chrysanthemum Society of America will meet here in the same week.

Thomas J. Grey of Boston talked before the New Bedford Horticultural Society on Monday evening, October 2, on his recent trip to various countries of Europe. Mr. Grey was the guest of the society and had a most hearty reception. He is booked for a similar talk at the meeting of the North Shore Horticultural Society on Friday evening of this week.

The Cincinnati Florists' Society will hold a grand chrysanthemum and flower show in Horticultural Hall, Music Hall, November 13 to 18, at which \$5000 in prizes will be given.

An illustrated lecture by Richard Vincent of White Marsh, Md., on his trip through Holland showing the bulb fields in full bloom will be delivered. The Cincinnati Commercial Association and the Cincinnati Passenger committee of the railroads will assist to bring the show.

The fall show of the Florists' and Gardeners' Club of Rhode Island was discussed at a meeting of the members Saturday evening, and action taken on a communication from the Rhode Island Horticultural Society. An offer of \$150 was made by the Horticultural Society to encourage the exhibition of flowers by the club and it was accepted. William Hill, Alexander Macrae and E. A. Appleton were appointed a committee to confer with the Horticultural Society. The committee will meet Oct. 20.

THE VINCENT DAHLIA SHOW.

Richard Vincent, Jr., & Sons Co., of White Marsh, Md., held their fifth Annual Dahlia Show Sept. 26-29, 1911. The first day was known as Maryland Horticultural day and there was a good attendance of members of the State Society. In addition to dahlias there was a good exhibition of farm and garden products. These were judged by Prof. Thomas Symons, Geo. O. Brown and Alex H. McCormick. Wednesday, Sept. 27, was Gardeners' & Florists' day, and large delegations of the Baltimore and Washington clubs were present. The mayor of Baltimore and other politicians were on hand Thursday. The Messrs. Vincent have 40 acres of dahlias, and the varied colors present a most beautiful sight. Fifteen acres of cannas, with eight or ten rows of the different colors planted side by side across the fields make a mammoth high-colored ribbon effect contrasting effectively with their foliage backgrounds. Crowds went down on the extra trains daily, and they were people who appreciated the wondrous sight. Richard Vincent, Jr., was simply delighted to see the people enjoying themselves. Thousands returned home with a huge armful of dahlias. The immense packing and potting rooms were transformed into a spacious flower show, exclusively of dahlia blooms in endless varieties, effectively arranged. Beside those with stems, shown in vases, there were blooms bedded close together in masses of one color, in boxes holding 20 or more blooms. These showed to perfection the types and charming colors. Among some of the most striking specimens were Cactus dahlias, Alpha; Aurora, Britiannia, Countess of Lonsdale, Fairy, Floradora, and Juliet, Mrs. F. Gremsted, Mrs. G. Stevenson, Mrs. H. J. Jones, Phoenix (a wonderful production), Royal Scarlet, Thuringia. Among decorative varieties: Fire Rain, Jack Rose, Jean Charmant, John Elitch, Madam Uvan den Dael, Mme. A. Lumier, Sour deGustave Douzan. Show

A DAHLIA FIELD AT VINCENT'S

varieties: Bon Ton, Cuban Giant, David Johnson. Among the many singles shown the writer considered Ami Barillet, St. George, Rebecca Mayhew and John Downie wonderful varieties. Of the fancy varieties Fern-leaf Beauty and Olympia were greatly admired. Of the numerous "Centuries" and "Colarettes" there were so many grand ones it was difficult to express preferences.

A GARDENER HONORED.

Herbert Clark, formerly at West Manchester, Mass., has returned after several years at Southampton, Long Island, to take charge of the Denegre estate, a place on which, by the way, he had been the first superintendent. On Friday night of this week a warm greeting was extended to Mr. Clark by his old and new fellow-gardeners of the North Shore Horticultural Society

at their regular meeting in Manchester.

Last week Saturday, previous to his departure from Southampton, Mr. Clark was tendered a farewell banquet by the Southampton Horticultural Society, of which he was a founder and its first president, and a loving cup suitably inscribed was presented to him with many cordial and sincere wishes for his prosperity. Among the leading addresses was one by Peter M. Miller, of the firm of Thos. J. Grey Co., Boston, president of the Gardeners' and Florists' Club of Boston.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

Registration of Roses.

Public notice is hereby given that Jackson & Perkins Company, of New-ark, Wayne County, N. Y., offer for registration the roses described below. Any person objecting to the registration or to the use of the proposed names, is requested to communicate with the Secretary at once. Failing to receive objection to the registration, the same will be made three weeks from this date.

Descriptions.

ORIOLE.—Seedling from Yellow Rambler, crossed with pollen from an unnamed seedling which was itself the result of the crossing of Multiflora with various Tea Roses. Holds its yellow color better than any other yellow Rambler in commerce. Remontant.

GENEVIEVE CLARK.—Deep pink when the flowers first open, changing to a clear shell-pink as they grow older; the covered and shaded portions of the petals being almost white. For bedding and forcing in pots.

SUNSHINE.—Yellow Dwarf Polyantha; same habit of growth and bloom as Mrs. Cutbush; deep golden yellow in bud, changing to a lemon yellow as the flowers open.

H. B. DORNER, Secretary.

September 28, 1911.

PART OF FLOWER DISPLAY IN VINCENT DAHLIA SHOW

Obituary

Miles Stowe.

On September 22nd, Miles Stowe, well-known as an onion seed and sweet corn grower, died at Milford, Conn.

Henry J. Schmidt.

Henry J. Schmidt, gardener for many years in New Orleans, La., died on September 13. He was 76 years of age and came to New Orleans from Prussia in 1854.

Orlando F. Casteen.

Mr. Orlando F. Casteen died at his home, Kansas City, Kas., on Sept. 18, and in his will he left \$3000 for the erection of a greenhouse and floral planting in Forest Park Cemetery, Anthony, Kan.

George W. Caldwell.

George W. Caldwell, of Evergreen, Ala., died of tuberculosis on September 5. He was well known throughout the country as, "Caldwell, the Woodsman" from his business of gathering and shipping evergreens and other wild green products.

William Kiss.

Falling asleep while a lighted pipe was in his mouth, William Kiss, a Manchester (N. H.) florist, was suffocated in a room of the Lincoln House on the evening of September 27. Kiss was dying when discovered by the proprietor. A physician, who was summoned, found life extinct. Mr. Kiss was for many years in the florist business at Fitchburg, Mass.

Robert Laird.

A leading Scottish horticulturist has lately passed away in the person of Robert Laird, of the well known firm of Messrs. Laird and Sons, Ltd., nurserymen and seedsmen, of Edinburgh. Mr. Laird was well known and respected throughout the seed trade north of the Tweed; he took a very prominent part in the affairs of the Royal Caledonian Horticultural Society, and the Scottish Horticultural Association, having for ten years been secretary of the latter organization. He was also closely identified with the Royal Scottish Arboricultural Society. He will be greatly missed.

South Freeport, Me.—Superintendent J. J. Turner of Casco Castle Park has resigned his position there to accept the position of general manager for the Southworth Brothers nurseries at Beverly, Mass. The beautiful grounds at Casco Castle have been for the past nine years in charge of Mr. Turner, and he will be greatly missed, not only at Casco Castle where he leaves many friends, but at the various Maine fairs where he has been yearly a leading exhibitor, winning in the last four years 164 blue ribbons and several special prizes. Mr. Turner was born in Boston, and was graduated from Harvard in 1876, after which he took a two years' course in botany and landscape gardening. He laid out many fine estates in New York and New Jersey and was connected with the Chicago park system for a number of years.

CHICAGO NOTES.

Trade Jottings.

John W. Madden of Pittsburg is now with the E. Wienhoeber Co.

C. Kohr of St. Louis, Mo., is now with Geo. Weiland of Evanston, Ill.

Homer L. Metz is the latest addition to the force in the supply department of the E. H. Hunt Co.

A. C. Spencer is again with the wholesale end of the business having a position with Kyle & Foerster.

Mrs. H. Simpson, of West Ogden Ave., has lately purchased the property which she has previously leased.

Wm. Abrahamson, formerly in the wholesale flower department of the E. H. Hunt Co., and for the past two years in Denver, Colo., is now with the Chicago Flower Growers' Association.

Word has come from Fred Longren who is on the road for the E. H. Hunt Supply House that in this southern trip he has made a record of taking orders at every call in the three states he has traveled through.

Among the exhibitors at the state fair held this week at Springfield, Ill., Schiller, the Florist, will compete for honors in artistic arrangement and Herman Schiller and Miss Schiller are there in charge. Two years ago their exhibit under six numbers was awarded six first prizes. George Asmus leaves for Springfield tonight. This firm also exhibited plants this year.

Personal.

Miss M. Russell, bookkeeper for J. A. Budlong will spend a few days at her home in St. Louis, Mo.

Among the old faces in new places are seen Fred Strail with the Briggs' House Florist on Van Buren street, and Henry Munn with Canger & Gormley.

Among the visitors last week were Mr. and Mrs. J. F. Johnson of Fort Smith, Ark., who were heavy losers by hail last spring. On account of a technicality in the law of that state which has since been repealed, they were not able then to carry hail insurance.

As announced last week the marriage of Herman Schiller and Pearl Yager took place Saturday evening at the home of Mrs. Hilliar, the groom's sister, at 2207 West Madison street. The wedding was a quiet one only immediate relatives being present. Mr. and Mrs. Schiller went to housekeeping at once at 446 S. Irving avenue and have the best wishes of their many friends.

Visitors: Mr. and Mrs. J. T. Johnson, Fort Smith, Ark.; A. R. Leidiger, of Edlefsen, Leidiger Co., Milwaukee, Wis.; R. R. Davis, Morrisson, Ill.; E. Dailedouze, Flatbush, N. Y.; A. Iralson, Wendell, Idaho; Chas. Koelker and daughter, Toledo, O.; Paul J. Howard, Los Angeles, Cal.; Mr. and Mrs. Geo. Papadakis, Kansas City, Mo.

Following an assault with intent to kill Frank Hammond, the superintendent of the J. G. Harrison & Sons' nurseries, the police of Berlin, Md., cleaned out the Italian camp there, arresting sixteen of the twenty inhabitants, and they are being held without bail awaiting the result of the injuries of their victims. It is alleged that grubbing axes were used in the assault upon Hammond, with the result that he is in a very critical condition.

WASHINGTON NOTES.

Alvah Godding, landscape gardener in the employ of the government, has returned to Anacostia, D. C., after a month's trip through Maine and Massachusetts.

William F. Gude is the florist member of the committee appointed to receive the delegates to the National German-American Alliance convention being held here this week.

David G. Fairchild of the Department of Agriculture will give the members of a newly-formed class of consuls and consular assistants now in session at the State Department, an illustrated lecture on the assistance which they can, as consular officers, render the Agricultural Department and through that department the country at large in connection with the introduction of plants.

There has been a rumor in the newspapers to the effect that a movement has been started to have the grave of Nicholas Studer, the pioneer florist of the District of Columbia, suitably marked through the erection of a monument. Mr. Studer died some twelve years ago and it is stated that the body lies in an unmarked grave. He was a native of Switzerland. Gude Bros. now own the place formerly conducted by him.

Charles Kohen, the proprietor of the cut flower stand at Ninth and D streets, N. W., was recently the victim of an assault made by two night watchmen. Between them they took Kohen to the police station, using him quite roughly on the way. Upon being recognized by one of the sergeants at the station he was released some time later. The watchman who first accosted him was in court adjudged guilty of assault and fined \$10.

Gude Bros., and Fred H. Kramer each held a very successful sale of palms and ferns last week. Their stores were crowded and neither firm had cause for a cry of "dull business." At the Kramer store a large quantity of bulbs were also offered and disposed of. Many schools and clubs took advantage of low prices to secure these plants for decorative purposes, and in every instance both the customer and the firm making the sale were pleased.

Visitors: Charles E. Meehan of the S. S. Pennock-Meehan Co., Philadelphia, Pa.; C. H. Sieck of C. Smith & Co., Baltimore, Md.; H. T. Potter, Wilmington, Del.

PHILADELPHIA NOTES.

C. H. Grakelow wins in the primary election for his ward. We regret to learn that the campaigning has proved rather a severe strain on such a fine wire. That he may speedily be restored to his old self is the earnest wish of all. We understand that a serious hemorrhage came as a result of his strenuous efforts—on top of the condition caused by the attack of pneumonia from which he suffered last winter.

Visitors: Arthur E. Holland, representing R. & J. Farquhar & Co., Boston, Mass.; B. B. Carpenter, Pittston, Pa.; T. F. McAndrew, representing T. J. Clark, Boston, Mass.; Daniel Gorman, Williamsport, Pa.; Mr. and Mrs. C. D. Mills, Jacksonville, Fla.; Mooney & Weir, Wilkesbarre, Pa.

PERSONAL.

Prof. C. S. Sargent started Tuesday, Oct. 3, for a two week's trip to the west.

On Saturday, September 30, Miss Alice Burton, daughter of John Burton, Chestnut Hill, Pa., was married to Mr. Finley, junior member of the lithographing firm of Craig, Finley & Co., of Philadelphia.

A host of warm friends will be pleased to learn that Col. W. W. Castle of Boston, who has been very ill since last Easter, has recovered and states that he feels better than at any time within the past two years.

Charles Millburn, gardener and florist at Hillcrest Farm, the property of Mr. A. M. Lothrop, has resigned his position with the latter and will enter the employ of J. H. Small & Sons, Washington, as a decorator on October 16.

William R. Nicholson of South Framingham, Mass., and Miss Juva G. Harrington were married at York Harbor, Me., on Saturday, September 30. The Boston florist fraternity are wishing William all kinds of happiness. The young couple took to the woods, following the ceremony, but were heard from on Wednesday at Poland Springs.

Jackson Dawson, of the Arnold Arboretum, Boston, has just returned from an enjoyable two weeks' holiday in Nova Scotia, in time to take note of his seventieth birthday, October 5, and to welcome his daughter, Minnie (Mrs. Blossom) and his little granddaughter, who have just come home from California after a year's absence.

Visitors in New York: P. Welch and J. K. M. L. Farquhar, Boston.

Visitor in St. Louis—J. J. Karins, representing H. A. Dreer, Philadelphia, Pa.

Visiting Newcastle, Ind.: P. J. Ohlinger and Charles Jones, of Cincinnati, O.

Visitors in Boston: F. Gomer Waterer, Bagshot, Eng.; D. Cameron, representing F. Sander & Son, St. Albans, Eng., and Bruges, Belgium; W. A. Manda, South Orange, N. J.

PROVIDENCE NOTES.

Carl O. Keiffer, 36 years old, pleaded guilty to the charge of passing a forged check when arraigned on October 2, and was bound over to the Grand Jury in \$3,000 surety. The name of N. D. Pierce, a well-known florist at Norwood, R. I., was signed to the check. Keiffer was employed by Mr. Pierce in his nursery last summer and was discharged about the middle of August. Shortly after his disappearance from Norwood the worthless check appeared. He was traced to Chicago and brought to Providence without being extradited.

The firm of Smith & Berker of North Broadway, East Providence, doing a general florists' business, has dissolved its partnership under the date of September 26. Gabriel C. Berker has withdrawn and the business and all obligations have been taken over by Frank W. Smith. The firm recently constructed an elaborate greenhouse, 30 x 106, on North Broadway. The foundation and walls of the house are of cement concrete. Mr. Smith will grow strawberries this winter, following which he will put the entire house to lily of the valley.

A NEW ENTERPRISE.

R. J. Irwin, formerly of the Skidelsky & Irwin Co., Philadelphia, Pa., has started in business for himself in New York City, and intends carrying on the same line, handling seeds, bulbs and plants.

Mr. Irwin started with Pitcher & Manda, Short Hills, N. J., in 1891, at

R. J. IRWIN

the age of fifteen years, being employed in the greenhouses doing general work. In 1893, with the desire of learning the seed and bulb business, he entered the employ of J. M. Thornburn Co., New York City, where he stayed for seven years, working himself up to a salesmanship and then accepted a position with Vaughan's Seed Store, New York, as traveling salesman, holding this position for the ensuing seven years. In 1907 he became connected with the H. H. Berger Co., New York, acquiring an interest in that concern. During the fall of 1908, he started in business with Mr. S. S. Skidelsky, under the name of Skidelsky & Irwin Co., Philadelphia, with which concern he has just severed his connection.

We extend best wishes for the success of the new business.

CONSTRUCTION AND COST OF CHIMNEY.

For my new houses I have to build a new heating plant, with a chimney of about two feet inside diameter, and about thirty to fifty feet high. Which is the best, an iron, brick or cement chimney, and what is the difference in prices of material and construction?

F. S.

It would be almost impossible to give any satisfactory answer to an inquiry so indefinite in its terms but as near as I can get to it, a brick chimney such as your subscriber wants would cost about \$200, and an iron one of the same size \$150. On a cement chimney I could not approximate any figures. The only party I know of that has a cement chimney is E. G. Hill.

ALEX. MONTGOMERY.

TWO MT. CLEMENS GROWERS.

Fred. Breitmeyer's plant, the most extensive of Mt. Clemens (Mich.) places, looks full of promise for not only a large but also a very good cut in roses. These include Lady Hillingdon, Melody, Canadian Queen, which he cuts with stems three and four feet long, Killarney and American Beauties. The large range of older houses is planted for summer Beauties. One large house is entirely devoted to *Adiantum cuneatum* and *Croweanum* and there are many houses of chrysanthemums from a "Baby" or pompon to show blooms. Carnations will be a little late, just about as last year, but with some varieties such as White Wonder having stems two feet long already.

Robert Klagge, his neighbor, is a master in rose-growing and there are splendid looking houses of Rhea Reid, La Detroit, Kaiserin, Killarney, Maryland, Maman Cochet and Mrs. Aaron Ward. His carnations are simply exquisite and some of them planted last May have stems 2½ feet and longer. The varieties grown comprise: Pink Delight, Enchantress, Winsor and Mayday. Mr. Klagge has his own cold storage place and no less than 600,000 bulbs have been planted this fall. *Lilium lancifolium* and *Lilium longiflorum* are principal among them. Lily of the valley is also grown in quantity.

DURING RECESS.

Cincinnati Bowling Club.

The Bowling Club at a meeting on Monday at the Cincinnati Cut Flower Exchange decided to roll at Wielert's this winter on the first and third Mondays of each month. Chas. H. Hoffmeister was again chosen secretary and treasurer.

Chicago Bowling League.

The bowling season opens October 4th at the new Bensinger alleys on West Monroe street. At a meeting held at Zeck and Mann's, Monday evening, Allie Zeck was unanimously chosen treasurer of the league, a tribute to his faithful work in the interest of the game. Among the prizes offered were a silver cup by Zeck & Mann, six umbrellas by John Michaelson of the Amling Co., and four scarf pins by the A. L. Randall Co. Cash prizes will also be given.

The names of the teams are the same as in other years and the membership starts out as follows:

ROSES.		CARNATIONS	
A. Fisher	W. Wolf	A. Zeck	J. Lorman
J. Schlossman		E. Winterson	
A. Scrunemann		E. Schultz	
B. Connors		M. Fink	
VIOLETS.		ORCHIDS.	
V. Bergman	A. Cole	J. Zeck	J. Huebner
J. Friedman		E. Farley	
F. Lieberman		W. Graff	
J. Byers		O. Goerisch	

Newport, R. I.—Much interest is being taken here in the offer of prizes recently accepted from Mrs. Burke Roche by the Horticultural Society for its June show of 1912. The offer as accepted is \$30 for a new yellow rose to be an improvement over Marechal Niel, and \$15 for a new yellow carnation, and we learn that the donor is to increase her offer to \$50 for the rose and \$25 for the carnation; the competition to be open to all comers.

PRIMULA MALACOIDES

"The Glorified Baby Primrose"

Offered for the first time in America. This variety will continue sending up a succession of blooming spikes (color, beautiful lilac), giving the appearance of a shower of blooms.

The individual flowers are much larger than P. Forbesi and infinitely more freely branched. It is highly recommended either for cut flowers or for plants, which sell readily on sight. Per trade pkt., \$1.00; ½ pkt., 60c.

Our Fall Bulb Catalogue of Quality Bulbs, etc., now ready.
A post card will fetch one by return mail.

P. OIJWERKERK, 216 Jane St., Weehawken Hgts
P. O. No. 1, Hoboken, N. J.

The word "Sincere" literally means 'without wax' and originated in olden times when wax was used to cover defects in pottery. Whenever a piece of pottery was genuine or free from deception it was said to be "sincere". Horseshoe Brand Giganteum are sincere bulbs because there is no deception in their makeup or marketing. They are grown by experienced lily growers, not amateurs; cultivated and fertilized very carefully; graded in sizes and quality; packed properly and shipped after they are fully matured. Everything done to promote quality that we know of. It is only natural as a consequence of this extra care that Horseshoe Brand Giganteum cost a little more than most brands; and to offset this extra cost they are worth in flowering value all and more than you pay for them. It's the old story of the cheap and the high-priced chisel—ask the carpenter, the man who knows chisel values, which he buys. Same in the bulb business.

Seed Trade

Crop Report from Copenhagen.

Hjalmar Hartmann & Co. report under date of September 25, as follows:

Cauliflower. The prospects are for a good middle crop. If the weather had not been continually dry in July and August the crop would have been abundant.

Cabbage, white and red. The prospects are for a fair crop. Wintering was very favorable owing to the mild winter and practical absence of frost, so that only 5 to 10 per cent of the late cabbages and about 20 per cent. of the early cabbages were lost. The fine spring and good weather in April and May contributed to this favorable result and except in some places where green lice infected the flowering in May, the growth until the ripening was very good. "Copenhagen Market" proves to be only a very poor yielder, as owing to its smoothness and fine quality of heads these are inclined to rot. The general condition of heads for planting for 1912 crop is middle. The plants have suffered through drought and attacks of worms.

Turnips and Swedes. Crop very good.

Mangolds. Crop middle but prices exceedingly high owing to failure in Germany.

Carrots. Crop short.

Grass seed. *Dactylis glomerata*, *Festuca pratensis* and *Poa trivialis*, crop very good and fine qualities; prices high.

Denmark has a large demand for cabbage heads this year as German customers pay 2 cts. per lb. for the same or 10 cents per head. To produce 1 lb. of seeds needs ten heads, on an average. Consequently the stock for growing 1912 seeds approximates about \$1 per lb. already, and there must be added to this growing costs for one year. Wherefore, the crop of 1912 will certainly be scarce, and of named crop there will be only seeds to sell of this year's production provided same not contracted for in advance.

Against Free Seeds.

The paternal interest of the congressmen in their constituents, as manifested by the distributing of free vegetable and flower seeds, does not seem to be truly appreciated by the Vegetable Growers' Association of America, which has just held its annual session at Boston.

Strange to say the president of this influential organization, in his program of work for the year, was so ungrateful as to include a campaign for abolition of free seed distribution by congressmen, and the use of the same money for agricultural development.

The sending around yearly of 40,000,000 packets of free seeds has been one of the most efficient and economical methods of building political ties ever devised by our ingenious seniors.

The receipt of such a packet gives the recipient not merely the same sense of pleasure that comes from a mention of his name in the local newspapers, but it adds to his feeling that his representative is faithful on the job and is trying daily to advance the interests of a property owner and citizen.

So much for the political viewpoint. But the layman has always been strongly against the subsidies granted by the local market, it costs to produce and distribute these seeds.

A seed of a mother plant has been truly called nature's jewel casket. In its silent heart is locked a promise of wealth. In the microscope of science between a good and a poor seed lies the difference between agricultural wealth and poverty. If this governmental distribution had the

farmers to learn the advantages of well selected seed, the money would be well spent.

But the men who are acquiring high cereal yields through attention to the choice of seed, don't probably get their information from the government. Nor would they, unless the government went into the business of seed farming on a vast scale.

Instead they ally themselves with some good seed producing house, many of which are doing such remarkable work. We know of one such that never sends out a seed unless it has tested 86 per cent. of germinations, and the average runs 90 to 95 per cent.

Were all our farmers to use such seed as this, there would not be the pathetic naked spots in our grain fields, which mean half filled barns and high priced bread for the people.—Cairo (Ill.) Bulletin.

Notes.

Baltimore, Md.—Wiseman & Dowece is a new seed firm who have opened a seed store on Pratt street.

Columbus, Ohio—The Meier-Shoemaker Seed Co. have reduced their capital stock from \$50,000 to \$10,000.

Milwaukee, Wis.—Hunkle's seed store has filed an amendment changing its name to the H. G. Hunkle Co.

Mr. Einar Knutsson, representing Hjalmar Hartmann of Copenhagen, is visiting at present the seed trade in the United States and Canada, and will stay two or three months here.

West Hoboken, N. J.—Hans P. and Johanna Irven, doing business as the Beule Seed Store, filed a petition in voluntary bankruptcy on September 26th. Liabilities, \$4,995.11; assets, \$1,900.00.

INCORPORATED.

Portland, Ore.—Articles of incorporation have been filed by the Clackamas Greenhouse Co., capital stock, \$20,000. Incorporators, F. Niklas, Albert Herbert and William Lawrence.

New York, N. Y.—D. J. Pappas, to deal in natural and artificial flowers, shrubs, etc., capital stock \$10,000. Incorporators: Demetrius Pappas, Mamie A. Pappas, Nicholas C. Koutsoukos, all of 275 Broadway.

Sherman, Texas.—Early Wheeler Orchard Co., capital stock \$20,000. Incorporators: T. H. Smith, T. E. Goff, W. W. Rodgers, H. R. Wallace and C. C. Mayhew of Sherman, L. M. Morehead of Dallas, and J. E. Wallace of Fort Worth.

London, Ont., Can.—F. Dick, carnation grower, has bought out the store of Miss Wert on Dundas street and will now retail his own stock.

Jersey City Heights, N. J.—The flower store of Herman J. Bauriedl, 489 Central avenue, was entered by a sneak thief on Sept. 18 and a diamond ring and some change taken from the cash drawer.

Cincinnati, O.—D. Rusconi, dealer in bulbs and plants, 128 West Sixth street, in passing his store on Sunday night, Sept. 24, noticed his safe had been removed. He entered in time to hear the thieves run away, but an examination of the safe showed the contents intact.

Boston, Mass.—Julius A. Zinn reports that business is exceptionally good. This week, owing to the orders he has received for the wedding of one of Denver's prominent citizens to a member of the Castle Sq. Opera Co., he will be more than busy.

Penn., of Bromfield street, is also unusually busy this week and judging from the air of hustle in and about his remodelled store the flower business of Boston is in a very healthy state for so early in the season.

NEWS NOTES.

Detroit—The McHugh Floral Co. has added a good sized conservatory to their store.

M. Rice & Co., of Philadelphia report very heavy receipts of beech sprays, moss wreaths and cypress leaves. Shipments of general florists' supplies and ribbons to the trade during September were the biggest in the 26 years' experience of the firm.

AN UP-TO-DATE RIBBON HOUSE.

When you say "ribbons" you think of Wertheimer, don't you? It is rarely that one visits that busy place on Broadway, New York, that he is not shown something new, something better for the florists' special use than was ever offered before. Calling on them a few days ago we were shown two beautiful new productions—"Silverine" ribbon, silver in effect and tarnish-proof, and "Autumn-leaf" ribbon in all autumn tints, especially appropriate for use during the next few weeks. Then there's a radically new chiffon, pattern 891, which as soon as it is let out promises to be the talk of the retail trade. Write and ask, "What is it?"

We were much interested in the many devices for encouraging the wearing of corsage flowers by ladies. It is no small service these brothers are doing for the florist trade—especially the growers of rare and high-class flowers—in making possible a revival of the time-honored fashion of decking the gown with fresh flowers, without injury to the fabric. Some criticism was made over the award by the S. A. F. of certificates of merit in the florists' supply department at Baltimore, but there are several standpoints from which to consider these things and we can see how in awarding certificates to Wertheimer's corsagette and "Werbro" corsage shields the judges didn't go so very far wrong even from the point of view of the flower grower. The corsage shields are transparent celluloid cut into proper shape and with apertures for the insertion of pin and ribbon. The corsagettes are dainty, lacey things and are provided in all colors, to match dress, etc. There are no less than fifteen different new styles of corsage ribbon of indestructible waterproof material and your lady customers only need, like the man from Missouri, to be shown.

NEW FLOWER STORES.

Terre Haute, Ind.—Charles Erne.
Minneapolis, Minn.—Willard Secor.

New York, N. Y.—Craig Muir, Forty-second street, between Fifth and Sixth avenues.

A HOLIDAY.

Correspondents will please note that as Columbus Day, which is a legal holiday, falls upon our regular publication day next week—Thursday, October 12 we shall go to press on Wednesday and consequently all news matter, advertisements, etc., intended for that week's issue should be mailed one day earlier than usual.

CINCINNATI NOTES.

Geo. Mack, who was seriously ill, is reported as much better.

Harry Sunderhaus is now with C. E. Critchell's clerical force.

E. G. Gillett and E. A. Foster went to New Castle, Ind., on Tuesday.

J. Chas. and Louis Murphy lost their father by death last week. They have the sincerest sympathy of their many friends.

Bloomhurst Floral Co. are cutting a most excellent crop of Tafts. This rose has surely demonstrated that it is the best summer pink rose on the market.

The Flower Show Committee have, in addition to their own efforts, the co-operation of the Cincinnati Convention Association, and the many railroads running in all directions from this city. The committeemen are very confident of the success of the affair and feel that all that is necessary now to make it a success is the coming out in force of exhibitors, for the crowd and money is assured. Advertising matter is being put out as fast as it leaves the press.

Visitor: Hollingsworth, the Florist, of Atlanta, Ga.

THE NEW BREITMEYER STORE.

Following a cordial invitation of Mr. Breitmeyer many of the Detroit florists availed themselves to visit and inspect his new store with their wives. The store proper is entirely fireproof and measures 44 feet wide, 73 feet 5 inches long, with a conservatory of the same width and 37 feet 9 inches long extending back to the alley. A full sized basement gives still more room for working and the storing of the many things which make up his full compliment of an up-to-date store.

No expense has been spared to make the store attractive and practical to turn out big work in a short time. The store is occupied now but the official opening will be Saturday, Oct. 7.

Flower Market Reports

BOSTON The present week seems like an old fashioned revival in the flower trade in Boston market. The receipts have shortened up in quantity, especially on garden stock, and a good clear field is left for anyone having a present crop of nice indoor material of any sort. This is not likely to be a very permanent condition, though, as the chrysanthemum incursion will make short work of it as soon as it begins in earnest. Roses and carnations are doing finely this week. Cattleyas are having the advantage of a busy market, and although coming in with great rapidity the supply is nicely absorbed. Violets begin to make an impression. They are single varieties as a rule, and quality is excellent for so early a date.

CHICAGO Fifteen rainy days in the month of September naturally made the trade anticipate a change with the coming in of October. So far, however, they have been disappointed and the retailer especially is finding trade business very dull in consequence. The wholesaler who has a shipping trade is not affected by the rain except in the quality of his stock, which is about up to an average year, notwithstanding. Carnations are not coming in quite as strong as when brighter weather prevails, but many excellent ones are seen. Beauties are fast going off crop at some of the houses. There is a good demand for them and none go to waste. Killarneys are excellent and the supply covers all lengths. Melody shows up a deep yellow in spite of the dark days and those who are trying this rose seem well satisfied with its behavior. Chrysanthemums are fast becoming queen of the day. October Frost, Golden Glow and Smith's Triumph are the three varieties now in, with the yellows outselling the white. Asters are not considered a very good commodity now, though good ones usually find sale. Dahlias packed in special boxes make fine counter display, but are not general favorites with the trade. As if the wholesalers did not have enough troubles of their own, asters are now coming in from Massachusetts (?). With the abundance of white chrysanthemums now in the market asters are not selling particularly well and the quality of the eastern stock is not in the "fancy" class.

As the cooler weather approaches the market approaches the busy season aspect. Roses and carnations rather than asters and gladioli are the popular blooms. The season of the latter two has been somewhat different than in the past. Both came in later than usual and at first brought the very highest prices. Then early asters soon were in a glut. This glut lasted through mid-season, until the late ones came in. These were in larger quantities than ever before and naturally brought only bottom prices. The gladioli held at their high prices for a time and soon were glutted and remained that way, off and on, for the balance of the season. Roses of all kinds are in strong supply and while last week the demand was erratic, this week, up

till the end of the first half cleaned up nicely. The carnations are good. Lilies are bringing better prices than a few weeks ago. Chrysanthemum offerings include white and yellow and so far have been mostly all choice. More lily of the valley might be used. The late crop of cosmos is now being cut.

It is hard to explain the choked up, encumbered condition of the wholesale market here at certain periods other than on the assumption that the growers and shippers of dahlias and other easily grown material have multiplied and the ex-

Flower Market Reports.

(Continued from page 10)

pert underglass growers have at the same time become more expert in the production of early crops. With such a congestion as prevailed here last week it could hardly be expected that any great change for the better could come so long as heavy, killing frosts hold off. Yet the unexpected has happened, and there is a sudden clamor on all sides which has put joy into the hearts of the grower and stiffness into the wholesaler's backbone. Hope it will last a little while.

There was a **PHILADELPHIA** distinctly improved tone to the market here last week. Business has really set in at last. Stocks continue plentiful in nearly all lines, and on the whole are of excellent quality. We have not seen the dahlia in better shape than it has been this year, and they have sold surprisingly well. The asters suffered from the drought early in the season, and the fall rains did not come in time for them (as they did for the dahlias), so that the quality of the crop was below previous standards. Polly Rose has made its appearance, and this with the two previous varieties, Golden Glow and Montmort, gives enough variety to make them a factor. These have been going in many cases where choice stock was required, in place of American Beauty roses which have been rather scarce the past week. Heavy supplies are arriving of cattleyas, dendrobiums and oncidiums. The demand is rather spasmodic, and the price tendency is much in favor of the buyer. Gardenias have ceased for the time being. Heavy arrivals of lily of the valley of most excellent quality. Cosmos now at its best. Bouvardia is in.

The between-season **PROVIDENCE** lull was never more strikingly felt than during the past week and the market has been practically dead. Very fine roses are now being shown and the prices range from \$10 to \$12. Carnations stiffened in price the middle of the week with a strong demand. The supply is short and quality fair, choice flowers bringing as high as \$2.50 per 100. The chrysanthemums, although very limited in quantity, have been of fine quality for the early season. The better grades are bringing from \$2 to \$3 per dozen. Violets have been coming rather slow and the quality has not been such as to excite trading in this particular line. Asters

have bid farewell and the market is bare.

ST. LOUIS

The flower market last week was quite good in both demand and consignments. Some of our leading retailers say that they expect the business to improve daily from now on and that this week there have been a lot of orders booked for work of all kinds. What should be of some help to all in the trade is that the market affords most anything the buyer wants and reasonable prices. There are very few asters. Gladioli and tuberose stalks are still coming in but the season on them is about ended.

WASHINGTON

Stock was very plentiful in the local market last week, so much so that the demand was great enough to allow of the disposal of all offered. The latter part of the week was somewhat livelier than has been the case lately, due in part to cooler weather. Roses are improving in quality but the output greatly exceeds the demand. Cattleyas remain about the same. Greens are moving well and the prospects for increased sales look good. Early yellow chrysanthemums (Golden Glow) seem to be at an end, and the early white ones have not as yet made their appearance in any great quantities. Carnations are improving in quality. The public seem to be shy on the reds as this color moves much more slowly than the other varieties. Dahlias are more plentiful, but there is much poor stock among the shipments. Cosmos is plentiful, but does not sell well. Business in the Center Market the latter part of last week showed a slight increase. A. S. Burns & Co., of Spring Valley, N. Y., are shipping some exceptionally good lines into this market.

PROVIDENCE FLOWER MARKET.

The opening of the Wholesale Flower Market at Providence, R. I., which was to have taken place last

Monday, has been postponed to October 16th, a scarcity of flowers being responsible for the change at the last minute. With the exception of roses there is very little on the market and the growers decided that it was useless for them to attempt to start the new project unless they had sufficient stock to make a good showing. The sale of the stalls was opened last Saturday afternoon with W. E. Chappell, Secretary of the Florists' and Gardeners' Club, as auctioneer. There are 28 stalls completed and the rental fee was fixed at \$52 per annum, payable in advance. A premium of \$21 was paid by O. H. Williams & Sons for the first choice. The bidding at first was brisk, but soon ceased and the minimum was reached at \$3.

The purchasers of stalls were: O. H. Williams & Sons, Wm. Hoffman, F. Macrae & Sons, W. S. Nichol, Geo. Jansen, J. A. Macrae, Burke Rose Co., Inc., G. H. Cushing, H. A. Burlingame, Jos. Kopelman & Co., Albert Holscher, E. E. King and John Marshall.

Four applications have been made for the position of manager. The market will be open from 7 a. m. to 5 p. m.

BOSTON MARKET NOTES.

George McAlpine who started rose-growing at Exeter, N. H., early this year, is already cutting some fine stock.

William Patterson of Wollaston, Mass., has an excellent supply of the hardy chrysanthemum Brown Betty, which has been especially popular with the trade in this vicinity.

A. Leuthy, proprietor of Perkins Street Nursery, Roslindale, Mass., has just received a shipment of over 20,000 azaleas and among them are many novelties that will be shown for exhibition purposes this year, and which will later be offered to the trade. He also states that the kentias he has received are about the best he has ever placed upon the market.

**MASTICA**

FOR Greenhouse Glazing

USE IT NOW.

F. O. PIERCE CO.
12 W. BROADWAY
NEW YORK

Mastica is elastic and tenacious, admits of expansion and contraction. Putty becomes hard and brittle. Broken glass more easily removed without breaking of other glass as occurs with hard putty. Lasts longer than putty. Easy to apply.

KROESCHELL BOILER

Half the Coal and Half the Work.

"Your No. 13 boiler is carrying 25,000 sq. ft. of glass and I can keep it at 60 degrees in the coldest weather without any trouble. I have three other types of boilers also heating a range of 25,000 sq. ft. of glass, but the No. 13 Kroeschell Boiler ONLY TAKES HALF THE COAL and half the work to get the same results."

J. G. FRISZ, Vincennes, Ind.
P. S.—Mr. J. G. Frisz, of Vincennes, Ind., has the largest range of glass in Indiana devoted to vegetable forcing.

The Answer To Your Questions

THE palm house is 20×22 and the wing house at the rear out of sight is 20×25.

It's iron frame construction, just as you thought. Yes it is mighty attractive.

Now that we have answered your questions, let us ask just one; are you thinking of building?

That's good. We are glad to hear it.

That means you will want our new catalog right away and as soon as you can get things lined up you will want to see some one of us and talk things over.

Better have us come right to your grounds and look over the location. That's by far the most satisfactory way.

Hitchings & Co.

Spring and Louisa Streets, Elizabeth, N. J.

LILIUM HARRISII

(The Bermuda Easter Lily)

LET US supply your wants in Lilies this season

We think we can make it to your advantage to do so, as regards both quality and price.

The stock that we offer is not gathered indiscriminately from all kinds of sources, but is grown for us by a few selected growers, whose stocks have been worked up from the true, original stock. In order to ensure the health of the product, the bulbs are not grown on the same field oftener than one season, other crops being grown on the field the preceding year. The ground is thoroughly manured when the previous crop is grown, leaving it in a high state of cultivation, and when the lily bulbs are planted no fresh manure is used, and this prevents disease and ensures a crop of strong, healthy bulbs.

In addition to this, we do not dig our bulbs as early as they are usually dug, but leave them in the ground until they are thoroughly ripened and matured. When Harrisii is good, it leaves little to be desired. There is very little, if any, stock obtainable as good as the stock that we are offering. We are supplying only this one grade of selected stock, and when this is disposed of, we shall have no more to offer.

While the quality of the stock that we offer is of the highest, our prices are as low as, or lower than, the prices of those who offer the ordinary stock gathered from indiscriminate sources. We are sure buyers will find our stock very satisfactory, and much more so than the Japan-grown Longiflorum, which has badly deteriorated in recent years.

Bear in mind that we were the original introducers of Harrisii in Bermuda, and that we have exceptional facilities for obtaining our present supplies. Also take note that the smallest bulbs that we offer are 6-7 inch bulbs, not 5-7 inch, as usually offered.

6-7 inch bulbs, 335 to the case, \$15.00 per case; full thousand lots, \$40.00 per 1,000.

7-9 inch bulbs, 200 to the case, \$16.00 per case; full thousand lots, \$75.00 per 1,000.

9-11 inch bulbs, 100 to the case, \$18.00 per case; full thousand lots, \$175.00 per 1,000.

FERNS

We have an exceptionally nice lot of ferns in the following varieties,—good, bushy, well-grown plants that will please the most critical buyers. Plants have been grown in pots, and are thoroughly well established and nicely finished.

Nephrolepis Bostoniensis and Piersoni, 6-in. pots.....\$0.50 each

Nephrolepis Elegantissima, Piersoni, Bostoniensis, and Harrisii, heavy 8-in. plants.....\$1.00 to 1.50 each

Nephrolepis Elegantissima, Bostoniensis, and Harrisii, heavy 10-in. plants 2.50 each

CHRYSANTHEMUMS

Having Disposed of Our Surplus Stock Plants of ADVANCE, We Are Now in Position to Take Orders for Young Plants for January or February Delivery of the Three Following:

SMITH'S ADVANCE.—The earliest large flowering white, a fine companion of Golden Glow. Can be had from July onward according to date of planting and selecting buds. Being more dwarf and flowers more double than October Frost, is a decided improvement on that variety. It has been so well received by all purchasers this season, we predict a very heavy demand.
PRICE: \$1.20 per Ten; \$10.00 per Hundred.

YAKA. This variety has sustained our best year description. Being a strong grower with perfect stem and foliage, a fine incured bloom of a pleasing shade of pink and maturing the first week of October, places it foremost among early plants. In fact there is no other good pink to compete with it at this date.
PRICE: \$1.20 per Ten; \$10.00 per Hundred.

CHRYSOLOREA. This variety is about 15 days earlier than Col. D. Appleton, is of larger size, stronger stem, not as tall, its color is intermediate between this variety and Major Bonaparte. This with its excellent keeping qualities, places it in the front ranks of the Commercial sorts.
PRICE: \$3.00 per Ten; \$25.00 per Hundred.

PLACE YOUR ORDERS EARLY.

IMPORTANT NEW SWEET PEAS FOR 1912

New Spencer, — Vermilion Brilliant "The most brilliant iridescent scarlet Spencer yet produced!"

This genuine novelty, which has been much admired both at our Fordhook Farms in Pennsylvania and Floradale Farm in California, as well as in Great Britain, originated with our friend, Mr. HUGH DICKSON, of Newtownards, County Down, Ireland, who wrote: "After most careful, critical comparison with every scarlet Spencer we could procure, including several new seedlings and selections not yet introduced, VERMILION BRILLIANT stood out so prominently that we offer it with every confidence of confirmation by all Sweet Pea planters as the most brilliant, iridescent scarlet Spencer yet produced."

Vermilion Brilliant produces vines that are strong, short jointed and very floriferous, bearing on stout stems, twelve to fifteen inches in length, three and four artistically placed flowers. When well grown the plants are noteworthy in that, unlike all other scarlet Spencers, the stems frequently produce FOURS.

The flowers are of perfect form. The bold, erect standard is well waved and fluted in true Spencer style, of large size, beautifully rounded and finishing well below the keel. The wings are of the same intense pure scarlet as the standard, making a uniform self-color throughout and absolutely sunproof. For exhibition or garden decoration we are confident that this sterling novelty will take a prominent and lasting place in the esteem of all lovers, growers and exhibitors of Sweet Peas.

In sealed packets containing twelve seeds each: Per pkt. 15c.; \$1.00 per dozen pkts.; \$7.00 per 100 pkts. In lots of 500 packets or more, \$6.25 per 100 pkts. (Cable word, VERMILION.)
In sealed packets containing twenty-five seeds each: Per pkt. 25c.; \$2.00 per dozen pkts.; \$13.75 per 100 pkts. In lots of 500 packets or more, \$12.50 per 100 pkts. (Cable word, BRILLIANT.)

VERMILION BRILLIANT was awarded the Silver Cup given by the Philadelphia North American at the National Sweet Pea Society's Show in Philadelphia, June 29 and 30, 1911, for the best variety not yet in commerce.

Pearl-Gray Spencer. PEARL-GRAY is truly a descriptive name. The nearest to this same color that has existed heretofore is the Grandiflora *Lady Nina Balfour*. It is certainly a most lovely and distinct shade that might be described as a pearl or dove-gray, suffused with light rose, showing a trifle more of the delicate rose shading in the standard. The flowers, borne in clusters of three and four, are of the largest size and uniformly of true Spencer type, being well waved in both standard and wings. In sealed packets of same sizes and at same prices as VERMILION BRILLIANT.

Irish Belle, or "Dream." A superbly beautiful variety that shows quite a new shade in Sweet Peas. The coloring is uniform in both standard and wings,—a lovely rich lilac, flushed with pink, which gives a very distinct and soft tone throughout the entire flower. Of finest Spencer type, waved in both standard and wings, the flowers are of large size and well placed on long stems. Throughout the season, even during the extreme heat and drought of July, the flowers came invariably three and four to a stem. Many Sweet Pea enthusiasts pronounced this,—next to Vermilion Brilliant,—to be the finest novelty in our trials at FORDHOOK FARMS the past season. It was certificated by the National Sweet Pea Society of America, June 29, 1911.

In sealed packets of same size and at same prices as VERMILION BRILLIANT.
"Captivation Spencer" This is a really giant flowered Sweet Pea of true Spencer type, both standard and wings being well frilled and waved. The beautiful self-colored flowers are of a rich rosy wine-red throughout. The plant is robust and very floriferous, bearing three and four of the extra large flowers well placed on long, strong stems.

In sealed packets of same size and at same prices as VERMILION BRILLIANT.

A Distinct Type of Sweet Peas for 1912

The New "Duplex Spencer" Sweet Pea

The "Best of All" Pink Sweet Peas for Bouquets

"Duplex." This is different from former so-called double Sweet Peas. It has persisted for four years in giving a large percentage of fine double-standard flowers. They are produced on almost every plant—four-bloom sprays giving two and sometimes three of the flowers double, and smaller sprays in same proportion. The twin or triple standards are well placed, so that the flowers have no appearance of coarseness. The color is a rich cream-pink. When bunched it is most effective, the effectiveness being enhanced by the bright lemon keel appearing to great advantage. It is an extra strong grower and we are certain it will take rank at the very top as a market variety, besides being fit for any first prize stand. Messrs. Lowe & Shawyer, Ltd., of Uxbridge, England, who had an advance trial, say it is "the best pink Sweet Pea we have yet grown on our place."—Description of Messrs. DOBBIE & CO., with whom this sterling novelty originated.

In sealed packets containing fifteen seeds each: Per pkt. 15c.; \$1.00 per dozen pkts.; \$7.00 per 100 pkts. In lots of 500 pkts. or more, \$6.25 per 100 pkts. (Cable word, DUPLEX.)
In sealed packets containing thirty seeds each: Per pkt. 25c.; \$2.00 per dozen pkts.; \$13.75 per 100 pkts. In lots of 500 pkts. or more, \$12.50 per 100 pkts. (Cable word, DOUBLE.)

New Sweet Pea,—"Rainbow Spencer"

This striking novelty we have a great advance in the striped section. The flowers are of a most generally produced three and four on a stem. They are nicely placed, with wings being well up in front of the standard; in fact, the flower proportions are perfect. The ground color is ivory-white, flaked and lightly streaked with rose. The flowers are magnificently waved, and the variety, which originated with our friends, Messrs. C. C. MORSE & CO., was thoroughly fixed both in California and in our trials at FORDHOOK. It has rightly been designated "a glorious Spencer." In sealed packets of same size and at same prices as DUPLEX SPENCER.

W. ATLEE BURPEE & CO., PHILADELPHIA, PA.

Fruit and Vegetables under Glass

POT VINES

Pot vines now ripening up outside should be kept a little on the dry side, but not allowed to "flag." There is no need to hurry these inside as most of the varieties suitable for pot work will stand eight or ten degrees of frost without harming them, but they must be housed before any severe weather sets in or the pots are liable to be broken by the expansion of the soil as it freezes. Feeding should now cease and the canes encouraged to rest, those for starting the first of December having only six weeks to prepare.

MELONS IN POTS

Melons in pots are fickle things to handle through the winter months, every care being necessary to bring them through successfully. The object for advocating pots for winter work instead of benches is each plant is confined to itself and can be given separate treatment if such is needed. Pots will dry out oftener through the dull weather and will be less liable to canker and other diseases. Sow the seeds singly in three-inch pots; when the seedlings have filled these with roots pot into six-inch transferring from these to their final destination when ready. The final pots must not be less than "fourteens" and should be filled about one-fourth with drainage. The soil for pot work should contain more lime rubble or other opening material than is used in the benches as a melon at all times likes a firm soil and if this is not added water will have a difficulty in passing through. As a preventive to canker raise the ball high enough so that the base of the stem is level with the top of the pot, then when water is given the plant, the stem is kept quite dry. Keep a minimum night temperature of 70 degrees, advancing by day, also keep the house well moist and syringe every clear morning. One or two fruits will be sufficient for each plant to carry. Hero of Lockinge is undoubtedly the best variety for all winter and very early work.

FIG HOUSES

Fig houses having finished fruiting will need similar treatment to a vinery, perhaps taking a little more water as long as they have their foliage. Any that are still ripening a few fruits can have the night temperature kept up to 65 and a more humid atmosphere by day. Do not allow a sudden frost to hit the trees; gradually harden them to it, and then only allow a few degrees. Where additional or new borders of any kind are contemplated the quantity of loam necessary should be figured out and got together at once, stacking it in some convenient spot near where it is to be used. In late houses this work will have to be delayed sometime, probably until winter, in which case it will be advisable to cover the whole heap over with leaves and long manure before any severe frosts set in. This can be removed at anytime and the work proceeded with even though the ground is frozen up.

WINTER TOMATOES

The first batch of winter tomatoes will now have got away in the benches. Remove all side growths, keeping them to a single stem. No feeding will be necessary until two trusses of fruit are set and swelling; until then keep the surface soil cultivated; should the plants lack vigor a little soot can be worked in. Tomatoes resent syringing over head. Keep enough moisture in the house by damping the walls and walks about three times a day. White fly is about the most troublesome pest these plants are subject to, but this can be successfully exterminated by fumigating with

Cyande of Potassium. A cool night must be selected for this as the temperature should never be higher than 60 degrees at time of fumigating. If a degree or two below, so much safer. Tomatoes can be fruited in pots varying in size from six to twelve inches. Seed can still be sown for this work.

CAULIFLOWERS

Cauliflowers are an acceptable vegetable through the winter and can be easily grown in the vegetable house or any house having a night temperature of 55. Solid benches are preferable to raised ones, as they keep cooler and moister, the roots having more room to move about in. The plants are best potted on into "fourts" before transferring to the benches, but do not get them pot bound or when in the benches they will only "button in" on you (i. e., turn in a small useless head at once). Cauliflowers like a naturally rich soil. Organic manure will sometimes cause them to come blind or clubfoot. Give plenty of water while growing and fumigate on first appearance of fly. Quick maturing varieties such as Early Snowball and First and Best are best for this work.

RADISHES

Radishes are a useful addition to salads and can be grown without much trouble in deep flats or benches. Sow the seeds thinly in drills six inches apart and thin out to allow each plant room enough to develop. A night temperature of 50 to 55 will suit them. Use the early turnip shaped varieties in preference to the larger ones. They develop quicker and are more solid.

George H. Benson.

Somerville, N. J.

Eremurus

To those who enjoy the variety of a well furnished herbaceous border, and the bold effects produced by planting in groups, the Eremurus will be especially attractive, its distinctiveness being a delightful change from the ordinary occupants of the border, peerless in its majestic magnificence, compelling admiration by its gigantic proportions and the sweetness of its perfume,—a plant not easily forgotten when seen well-grown.

It is a hyacinth-like perennial starting growth quite early in the spring making it necessary to slightly protect the young tender leaves from early frosts, with a light covering of straw or leaves. Coming from a cold country it is perfectly hardy, but enjoys good rich soil, and responds handsomely to liberal treatment.

E. Himalaicus has white star shaped flowers, and throws up a spike two or three feet high, but the real aristocrat is E. robustus, with peach colored flowers, throwing a spike eight to nine feet high, with from three to four feet of flowers, a delightful shade of pink lasting a long time in perfection, and by a judicious choice of background it can be made particularly pleasing and attractive.

The genus comprises some eighteen varieties, but the two above mentioned give the most gratifying results.

"Fall Openings" have begun and for

Fall Openings a period will be a frequent item of

interest in our weekly news columns.

Whether they are the enterprises of large department stores and similar establishments in which the florist is

called in to adorn the surroundings with his beautiful and fragrant wares or are the florists' own home display for the purpose of attracting visitors and giving fall business a start these affairs are equally praiseworthy and should be encouraged and promoted in every possible way. We cannot have too many of them for when well done they are in the first rank as up-to-date business developers and the good they do is felt all through the season.

A situation of large opportunity

The talk by Mr. Farquhar at the New York Florists' Club meeting last Monday evening, which we have recorded on another page of

this paper, deserves careful perusal by everyone whose interests are identified with horticulture in any of its departments. After hearing the lecture one gentleman well qualified to judge was overheard to say that it was the best address ever listened to by the New York Florists' Club. The lecturer's statements were straight-forward and keen cut and his deductions and advice such as might be expected from a man who has taken full advantage of the opportunities presented by a widely diversified experience and a position for observation such as but few are favored with. It is much to be regretted that time for discussion of the points brought forward was not available and there is abundant material in the paper for discussion which might be advantageously followed up in all the floricultural organizations throughout the country for the entire season. A situation of large opportunity certainly confronts us. Shall we take intelligent advantage of it or let it slip by unimproved?

Now for serious business

There are many indications that thinking men here and there, other than the gentleman referred to in foregoing notes, are awake to the unprecedented situation which now begins to loom up in our horticultural world and are out to sound the call for a virile onward movement which will place the gardener and florist in a position higher and better than he has heretofore occupied. The terse comments by G. C. Watson in another column of this paper touch upon the forces which, in our club and society existence lead to prosperity or to decadence and indirectly tend either to vitalize or to emasculate our commercial progress. "The Elevation of Our Business" is a topic which on various occasions during the past twenty-five years has appeared on the convention programs of the S. A. F. and elsewhere, but the field for exploitation has since broadened out immeasurably and the time is now here when it becomes the first and most urgent duty of every organization, national and local, to arouse its members and to concrete the best and most serious thought on the immediate means for elevation and business development in line with the opportunities presented. In the selection of officers for the coming term it will be well to make qualification for such work a first requisite. The social phases of club activity may, without any injurious effect, be given secondary prominence for a while or even entirely suspended while we give undivided attention to the more serious and vital problems which now press for consideration.

Seasonable Notes on Culture of Florists' Stock

AMARYLLIS

Nearly all the numerous hybrids of *Hippeastrum vitatum* that are showing new growth after a complete rest, should be repotted into new soil. The Amaryllis delights in a good light turfy loam three parts, well-rotted cow manure one part. See that pots are well drained with potsherds, so that the water may pass off readily. Place them in a warm and sunny house on a bench close to the glass, and resume regular waterings with overhead sprinklings. Give them a steady temperature of from 60 to 65 degrees with plenty of moisture as active growth starts. When the plants are in full leaf they will want a plentiful supply of water at the roots and any neglect at this stage will greatly impair their growth. When the pots are filled with roots they will be benefited by a frequent supply of manure water—that is, not too strong. It takes from eight to ten weeks from the time new growth begins to push forth until the flowers are at their perfection, and with good treatment they will last in good condition for three or four weeks.

ARDISIAS

Give these plants a place where they will have plenty of sunlight which will give the berries a good bright tint. Go over your plants frequently and turn them around so as to keep them in a well balanced shape. Give water as soon as the ball of roots shows a sign of dryness, for the supply of water must be regulated according to the demands of the plants to ensure healthy root action. Now with the increased fire heat and very changeable and trying weather from this out, keep up constant watchfulness in damping, ventilating and watering. A temperature of 55 degrees is about right for all those plants that have a good size to their berries. Too great a heat is very liable to prematurely force out a new growth, which would be undesirable. Keep a watchful eye for scale and mealy bug.

CHRYSANTHEMUMS FOR EXHIBITION

The height of the chrysanthemum season is now approaching. Keep your plants cool, for heat is not desirable or rational in any stage of their culture. The purpose of fire heat is to prevent the temperature from dropping below 45 degrees and to keep the air from becoming too moist. When your flowers are coming out use a movable light shade on very bright days. It will help to keep the temperature from running up too high, and will be of especial service for advance crop of flowers protecting them from getting burned, bleached or otherwise damaged from too bright sunshine. Use great care in watering now so as not to have any more moisture among the plants than is necessary. Go over the benches early in the day and carefully examine the condition of the soil and only apply water where needed. Feeding should cease just as soon as the flowers are expanded enough to show color, for when feeding is carried on too long the flowers will be of poor quality with soft petals and as a whole lacking in substance. Keep the ventilators open even on frosty nights by turning on during the night a little heat. Keep your plants free from aphid so as to get highly finished flowers.

CAMPANULAS

Now is a suitable time to lift plants of *Campanula Media* and its sub-variety *calycanthema*. The plants that are lifted and potted now have a chance to make new roots before the winter sets in, which also makes

them better for forcing. Pot them into 5, 6 or 7-inch pots, or whatever size will hold the roots. They like a rich soil to grow in, say turfy loam three parts, and manure one part. Press the soil around the plants firmly and give them a good watering and place in a frame where they can be shaded and sprayed for a few days in order to counteract any wilting until they are established. They can stay here until sharp frost, when they will need some protection. When hard weather comes they can be brought into a cool house that gets plenty of light and forced very slowly. These plants should never be started until about the new year and then in a temperature of 50 degrees at night.

LORRAINE BEGONIAS

Keep these plants in shape now by giving them supports in the way of stakes. Small wire cut into the right length and painted green will be just the thing. Attend well to the temperature now by ventilating so as to avoid any cold draughts, but still so as to provide a proper circulation of fresh air. Plants will now be advancing very rapidly and should be examined each day to see which ones need watering, as some will require a more liberal supply than others. By going over them this way you will never have plants in a saturated condition or others that are very dry. See that the plants are placed now and then so as to give them more space and so that all sides can receive an equal amount of light and air. Those that have their pots well filled with roots will stand weak liquid manure once or twice a week, which will prove very helpful. Plants that are now coming on for the holiday trade should have a temperature of about 60 degrees, but when they are in full bloom 50 to 55 degrees will give the plants and flowers more substance.

PLANTING LILIES OUTSIDE

Those who intend to make or replant a lily bed should commence now. Throw out the soil to the depth of 14 or 16 inches, and then place a 6-inch layer of sand and leaf mold on the bottom; this will provide good drainage and help to keep the roots cool in summer. On this you can place enough of good loam and very old manure, so as to have your bulbs set six inches deep and twelve inches apart. When planting the bulbs, always place an inch of sand both above and below the lily bulb, which will keep any manure from coming in contact with it and also prevent any stagnant moisture around the roots. After placing the bulbs it is very important that the soil you use above be made very rich, as they emit roots along the stem above the bulb. This explains why lilies often suffer so much in summer from drought, because these roots are coming so near the surface. Before the ground freezes hard give them a mulch of three or four inches of forest leaves and about three inches of strong manure, which will keep the leaves from being blown away. The following can be recommended as good: *Lilium auratum* in variety, *L. Bate-manni*, *L. candidum*, *L. elegans* in variety, *L. giganteum*, *L. Humboldtii*, *L. longiflorum*, *L. Martagon*, *L. speciosum* in variety, *L. tigrinum* in variety, and *L. Wallacei*.

John J. M. Farrell

Mr. Farrell's lectures will be on the following: Cymbidiums; Ericaceae; Lilies for the Holidays; Poinsettias; Sweet Peas; Wintering Cammas and Dahlias.

CLUBS AND SOCIETIES

CHICAGO FLORISTS' CLUB.

The Chicago Florists' Club celebrated its silver anniversary Thursday, Oct. 5, and the event went on record as one of the best times ever enjoyed by the club since its organization a quarter of a century ago. President Philpott quickly despatched the routine business. After the business meeting, 136 guests, members, their wives and sweethearts, sat down to a banquet, which was enjoyed by all. At its close, President Philpott introduced F. Bentley, oldest living past president of the club, who, with his usual happy faculty of expressing himself, entertained the club and called on the various speakers to respond to the toasts. J. C. Vaughan, W. N. Rudd, Geo. Asmus, A. C. Kohlbrand and Phil Foley were among the representatives of the Chicago club to be called upon, while President Windler, of the St. Louis club, and H. Balsley, of the Detroit club, made fitting remarks of congratulation. In behalf of the Milwaukee Florist Club, President Hunkle presented the Chicago club with a large and handsome silver loving cup, taking the latter club completely by surprise, but who keenly appreciate this token of their regard.

The men who are to handle the meeting of the Society of American Florists in Chicago in 1912 are appointed and will begin at once to plan for that event. Twenty-five years ago the society was entertained here in a way that has not been forgotten, and those in charge for the silver anniversary of that event will try to make the coming meeting no less of a success.

H. N. 'Bruns heads the executive committee, with H. E. Philpott, A. C. Kohlbrand, A. Ringier, A. Henderson, E. C. Amling, M. Barker, E. F. Winterson, P. J. Foley, A. T. Pyfer and F. Lautenschlager able assistants.

A. C. Kohlbrand is chairman of the entertainment committee, A. Henderson of souvenir album, H. E. Philpott, finance; Arnold Ringier, reception; M. Barker, press and advertising; Louis Wittbold, decorations; Fred Lautenschlager, allied trades; E. F. Winterson, sports; P. J. Foley, treasurer; E. C. Amling, badge; A. T. Pyfer, hotel.

BUFFALO FLORISTS' CLUB.

At the last regular meeting of the Buffalo Florists' Club a good turnout was seen, the weather being cooler and the boys being more inclined to attend meetings. Business of importance was transacted, and as there will be no flower show this fall, it was decided to hold an open night in November, at which there will be an exhibition and a general good time to follow. A committee was appointed to report at the meeting. The bowling committee report that they will begin the fall and winter season of bowling in a short time, and that this season should turn out some champion bowlers. Much interest has been taken so far, and the able Jos. Streit is steadily taking applications for new members.

E. C. B.

SOCIETY OF AMERICAN FLORISTS

President Asmus has appointed: Charles H. Totty, chairman; W. A. Manda, W. N. Rudd, Thos. Roland, W. P. Craig and J. A. Valentine members of the National Flower Show Committee.

Registration of Rose.

Public notice is hereby given that S. J. Reuter & Son, Inc., of Westerly, R. I., offer for registration the Rose described below. Any person objecting to the registration or to the use of the proposed name, is requested to communicate with the secretary at once. Failing to receive objection to the registration, the same will be made three weeks from this date.

Description: A pure white sport from the Waban strain of White Killarney. Much larger bud, double the size of the ordinary White Killarney. Stronger and more vigorous growth making a large plant with heavy deep colored foliage. An excellent Summer white also having the necessary body with good keeping qualities and pure white color. Being an improvement over the ordinary White Killarney in growth, vigor and size; it is the ideal white for Winter.

Name. "Double Improved White Killarney."

Registration of Althea.

Public notice is hereby given that Henry A. Dreer, Inc., of Philadelphia, Pa., offer for registration the Althea described below. Any person objecting to the registration or to the use of the proposed name, is requested to communicate with the secretary at once. Failing to receive objection to the registration the same will be made three weeks from this date.

Description: A new single white variety, an improvement on Althea Totus Albus with flowers nearly double the size of this last named sort.

It is a seedling raised by Mr. John Clark, assistant superintendent of the United States Botanic Gardens at Washington, D. C.

Name. "Althea Wm. R. Smith."

H. B. DORNER, Secretary.

GARDENERS' AND FLORISTS' CLUB OF BOSTON.

The next regular meeting of the club will be held at Horticultural Hall on Tuesday evening, Oct. 17, at 8 o'clock. There will be talks on bulbs for forcing, bedding and naturalizing by Messrs. Wm. Patterson, Robert Cameron, John G. Duguid and others, which should prove timely and interesting.

Exhibits of early chrysanthemums and other flowers are promised and the exhibits table will be unusually attractive. Eight new members were added at the last meeting and there will be a considerable further addition on Oct. 17. A cordial invitation is extended to all lovers of bulbous flowers to attend this meeting. It makes no difference whether they are club members or not, they will be made heartily welcome. A few more names sent in for the landscape gardening class will enable its being started at once.

W. N. CRAIG, Secretary.

NEW YORK FLORISTS' CLUB.

The October meeting of this organization last Monday night was well attended and proved to be so interesting that it was close to the midnight hour before it disbanded. After the usual routine business J. Austin Shaw announced that the next meeting would be Ladies' Night, on which occasion J. Otto Thilow of Dreer's, Philadelphia, would give an illustrated lecture on "His Travels in the West." Election of officers would be the principal business at the December meeting. For the meetings of the new year, R. Vincent, Jr., on "Experiences in Dixie," H. A. Bunyard on "Sweet Peas," and Geo. V. Nash on the "Apple Industry in the West," will severally be heard.

A discussion on the all-important question of efficient greenhouse help and adequate pay was precipitated by some remarks by Charles Lenker, who asserted with truth that "we cannot all be captains of industry." J. K. M. L. Farquhar called attention to the fact that labor conditions had greatly changed in twenty-five years. The standard in England, from which, he said, some of our best gardeners had come is not now what it was a generation ago. W. A. Manda and C. H. Totty followed, the latter pertinently inquiring, "What can you expect for nine shillings a week?"

J. Austin Shaw, A. L. Miller and J. A. Manda were appointed a committee on the death of I. L. Powell.

Secretary Young made some eloquent and very appreciative remarks in gratitude for the club's part in electing him secretary of the S. A. F. at Baltimore. \$10 a month was voted for the use of the bowling club. J. K. M. L. Farquhar was the lecturer of the evening, his subject being The Horticultural Outlook. The paper appears on another page of this issue. Charles Schenck and Patrick O'Mara then entertained the members with accounts of their observations horticulturally during their recent trips abroad.

C. H. Totty exhibited for E. G. Hill Co. a vase of magnificent blooms of the new rose Sunburst. It was awarded 89 points. W. A. Manda was given special mention for seedling dahlias. H. F. Michell Co. and Chas. Lenker also showed dahlias of merit and Buddleias from Michell were especially admired.

HUNTINGTON HORTICULTURAL AND AGRICULTURAL SOCIETY.

The ninth annual exhibition of the Huntington (N. Y.) Horticultural and Agricultural Society was held Sept. 29 and 30. The exhibition was of good quality throughout. The leading features were dahlias and apples, the latter being abundant and fine. W. J. Matheson, James Kirby, gardener, was the largest exhibitor of dahlias, with a fine collection of newer varieties, capturing first for collection, first for double, and the Stafford cup for 12 varieties. R. R. Conklin, E. S. Smith, gardener, also exhibited a fine collection, winning second for collection and first for single.

A. H. FUNNELL, Sec.

THE HORTICULTURAL OUTLOOK

An Address by J. K. M. L. Farquhar, Boston, Delivered Before the New York Florists' Club, October 9, 1911.

Retrospect.

In looking backward thirty years or more one is very forcibly impressed with the advancement made in nearly every department of horticulture. Any amplification of this statement would be superfluous to this audience; rather would I speak briefly of some of the agencies which have been working for the unprecedented progress of the past ten years or so.

Agencies of Advancement.

Foremost of these agencies I place the automobile, which of itself has been the means of greatly changing the habits of the American people. The limit of suburban residence has extended from about twenty miles to a hundred, and the houses and grounds have increased in importance and area in like proportion.

The larger country estate is of greater interest than was the smaller one, and the time-saving automobile gives the owner more time in which to enjoy it, and, furthermore, having his own comfortable and ever-ready means of transportation, he goes to it earlier in the season and stays later than formerly, when his sojourn in the country depended upon railroad timetables.

The telephone, the electric lamp, and recent inventions for water supply and heating have all contributed to make life on the country estate much more enjoyable than in the immediate environment of the large city, where only such comforts and conveniences of life as were obtainable in the cities themselves could be had formerly.

The automobile, too, has lessened the owner's interest in horses; the time and much of the money spent on horses are now frequently bestowed on the garden and grounds.

Another agency has been the periodical press, which, with beautiful illustrations, has done much to arouse and develop interest in gardening. The articles published have been incentives to many to make their home grounds beautiful as well as to lead them to give attention to providing home supplies of flowers, fruits and vegetables, rather than to depend upon city markets, as in the past.

I might mention many other agencies which have been instrumental in bringing so many of our people to a greater appreciation of, and interest in horticulture, but I content myself with calling attention to the influence of the country clubs. Not only have the social influence and health-giving recreations of these institutions proved beneficial, but the well-kept fair-grounds and putting-grounds have led many a country clubman to improve his own lawn and grounds.

Wealth and Travel.

Millionaires and multi-millionaires are much more numerous now than they were a generation ago. Luxuries to them are now necessities, and horticulture has its share in supplying them. They have traveled abroad

where they have seen things which have appealed to them, pictures, sculptures and other works of art, great houses with rich and rare furnishings and fine old gardens, with beautiful trees, shrubs, vines and flowers—and they want them all. The gardens give us our opportunity; opportunity many times greater now than ever before in this country; opportunity greater in this than in any other country; opportunity greater than we realize and which will grow beyond our most sanguine expectations if we horticulturists to whom it comes do our part. To be successful we must seek success, not alone for ourselves but for our clients as well, and I shall aim to point out, briefly, how each one of us in his own particular branch may cultivate and propagate this present phenomenal propensity of our people for gardens and garden things.

The Private Gardener.

To the private gardener I would say: Make yourself master of your calling. If possible specialize in some branch of it; it will distinguish you to do so, just as it distinguishes a physician to specialize in some department of medical science. Like him, you are really a scientific man; your calling makes you one. Yours is a long training, in fact it is never done; but let not that fact discourage you. Not only should you learn to till the ground, how to produce crops of flowers, fruits and vegetables, both under glass and out of doors, how to use, understandingly, fertilizers, fungicides and insecticides, how to lay-out, make and plant a garden, from shade trees to water lily, how to build drains, garden walks and greenhouses, but a hundred other things. Learn it all—the art of gardening—so far as is possible, and then render to your employer the best service you can and insist upon getting equitable compensation. The demand for men who are gardeners of high grade was never so large as it is now, and such men can command good salaries. The great trouble is that too many important positions are held by incompetent men who are willing to work for compensation which would not attract a capable man.

You should endeavor to meet the wishes of your employer. Have a clear understanding with him as to what he wishes, then let him know that you must have a free hand in your work for results. Regard your garden and greenhouses as a manufacturer does his mill. Buy enough material to keep your plant running at full capacity, but do not buy anything you do not need. Do not try to return the favor of a nurseryman or seedsman who may have placed you in a position by giving him an order for supplies you do not actually require. Study the interests and wishes of your employer—he is entitled to consideration and if he is the right sort of man he will appreciate and recognize your efforts.

The Florist.

To the florist, I would say: Broaden

your business. There is opportunity to do it and you will be obliged to do it to prolong your success. Have you ever tried to add to your customers from among the middle classes? Their trade is solicited when they are in want of funeral pieces, but rarely at any other time. Yet, I believe there are thousands of people of moderate means who would gladly step into a flower store on Saturday and buy a dozen carnations, with a little asparagus foliage, or a few fern fronds with which to brighten their homes on Sunday and through the week, if such trade were encouraged. Of course, it would never do to sell to such people flowers that were about to go to sleep; they would have to be fresh and likely to keep good for several days. The feeling that the street vendor is the proper person to care for the middle class trade will bar progress in this direction. The florist should endeavor to diversify the attractions he offers; comparatively little is done with flowering plants in pots. If the very dwarf antirrhinums in pink, white, yellow, etc., were planted in pans like tulips, they would be much more attractive and more lasting. Dwarf wallflowers might be similarly used; not only would they be novel and beautiful, but their delightful, mild fragrance would be appreciated. Small pots or pans of forgetmenots, mignonette, sweet alyssum, rhodanthe, and numerous other flowers might be tried at small expense.

You have still much greater opportunity to broaden your business. Within a decade, or less, you will be furnishing pot-grown fruit trees and vines for dining room decoration. Apples, pears, plums, peaches, with from two dozen to half a hundred choice fruits on a tree; pot-grown grape vines, with half a dozen or over clusters of luscious fruit. You may even be selling in the spring or early summer the fascinating little cherry tree, in fruit, of the gay Parisian cafes.

The Seedsman.

Every seedsman should endeavor to educate his customers to the use of high grade seeds and bulbs; he will serve his own best interests in doing this. He should push and encourage the sale of the best varieties, and discourage or discard those that have been superseded.

It is but fair to the seedsman to state that he has had to struggle against adverse conditions. He has been forced to compete with irresponsible dealers who sold inferior seeds or rubbish. It is safe to say that, on the whole, the seedsman has never received the return he has deserved in this country—nothing like what his brother dealer in Europe has received. Compare the prices of the best European houses with those of any house in this country! Conditions are better than they were a dozen years ago—quality is being appreciated more generally—but many buyers still hesitate to pay a proper price for high grade seeds.

This has been especially true of

Dutch bulbs. A Keizerskroon tulip weighing an ounce and a half or an ounce and three quarters has been put in competition with others weighing from five eighths to three quarters of an ounce. The seedsman cannot do much for the upbuilding of his business by buying and selling the cheapest, meanest stock to be obtained. In doing this he fools himself, injures his customer, and in the end loses his trade. What I have said to the private gardener about learning his calling applies still more forcibly to the seedsman. Too many seedsmen do not know their business. The Holland bulb men are aware of this and are still taking unfair advantage of the situation. It is well known in Holland that the favorite single blue Hyacinth Charles Dickens has become so deteriorated by disease that it is no longer fit to be grown. Yet it is listed and sold to this country by the Holland growers who usually send for it "Marie," a cheap, inferior sort. We have seen the beautiful pure white La Grandeessie substituted with La Française, a bluish sort having a purple skinned bulb. Standard Silver and Standard Gold tulips have also deteriorated, yet these are regularly listed by many seedsmen, who in most cases receive substitutes such as Cottage Boy, Arms of Leiden, or other inferior sorts.

The Nurseryman.

Nurserymen, as a rule, have been progressive, more so, perhaps, than those engaged in other lines of horticultural industry. Still, there is much for them to do. Too frequently they are more anxious to sell stock than to assure themselves that the stock sold will be well planted, that the ground will be suitably prepared, and that the after-care it receives will be such that the purchasers' success with it will bring the vendor future orders. In the long run it would not hurt the nurseryman to inform a client that the cost of preparation of ground and planting, if done properly, will equal or exceed the cost of the stock. Great ignorance prevails as to the conditions under which nursery stock will thrive, especially of the more common shade trees, which are often planted in gravel.

Nurserymen should endeavor to diversify plantations; there is ample material with which to do this and their clients would welcome the variety. New material, too, is at hand and the nurseryman has a thousand or more new trees, shrubs and vines recently brought from Western China and elsewhere with which to augment his already large variety of available material.

Many of the nurserymen are making better terms on their stock, or allowing larger discounts to the so-called landscape architects than they do to private gardeners. This practice is to be regretted. It puts the gardener at a disadvantage, which is unfair to him. Why should the so-called landscape architect, who often has no practical horticultural knowledge, and, perhaps, nothing more than a short course in drawing, and another in reading Downing, Mawson, and a few other authors for his stock in trade—be accorded trade courtesies which give him advantage over the

FIELD OF SPECIOSUM LILIES

At Flowerfield Farm of John Lewis Childs

trained gardener who has spent fifteen or twenty years of his life in acquiring his practical knowledge. Choose ye this day whom ye will serve, brother nurserymen; but as for me, and my house, we will stand by the gardener! I will not see him superseded and supplanted by a man much his inferior in horticultural knowledge and ability.

New York Horticulturists.

New York horticulturists: Yours is the largest opportunity. You have the wealth of the country about you. You have the finest estates within a hundred miles of your doors. It is your duty to see that horticulture grows, not only in your vicinity but also throughout the country, for are you not located on the country's greatest thoroughfare? It is your duty to so serve those who come to you that they will be encouraged to become larger patrons of horticulture; and if you do this you will undoubtedly reap the benefit.

You are planning to hold the third National Flower Show in this city. If you make the success of it of which you are capable it will prove a great stimulus for horticultural trade in New York. To do this you must get to work at once. Your schedule should be out not later than January 1. Get busy at once, gentlemen! this is your opportunity.

TAXING POT PLANTS.

Springfield, O.—Backed by all the local florists, the George H. Mellen Company has filed an injunction suit to restrain the country treasurer from collecting taxes to the amount of \$250. They raise the point that flowers taken from the ground and placed in pots should be classed as real estate instead of personal property. The point is one that will be watched with interest by all florists.

WHITHER TENDING?

There are some who say that the recent quarter centennial banquet of the Florists' Club of Philadelphia was a big success because out of 149 present there were 49 ladies. We are not finding any fault either with the committee or the ladies, and nothing personal is intended. The question is, how did the banquet compare with similar events of the past 25 years? Only about one-third of the membership attended and the missing majority embody some of the finest and most progressive brains in the business. Why were they absent?

Banquets are organized as a rule with some object in view outside of the "Eats" and the sociability. When our forefathers blazed the way into the wilderness they took their lives into their hands. These were the men who made our country. Are we come to the pass now where the cigarettes and the frou frous are to shape club policy and aims and replace the men of initiative, of courage and of far-seeing business ability?

It would look that way, but it is not really so. If, however, the Florists' Clubs let the men frou frou then (there are male as well as female frou frous), there will be a galloping consumption—and after that a chance for a new and virile organism. "Whom the gods would destroy they first make mad." As before said, there is nothing personal in this. Our plea is for the broader view of things, the more tolerant spirit and the revival of the old-time nerve and enthusiasm.

G. C. WATSON.

North Easton, Mass.—John McFarland has a new garden hybrid orchid *Cattleya McFarlandii* Dowiana which he exhibited at Horticultural Hall, October 7. Last March he exhibited one from the same batch of seedlings, and won a silver medal. The present seedling is very distinctly different, however.

AMERICAN TOMATOES IN ENGLAND.

(From report of Consul Charles N. Daniels, Sheffield.)

A sample shipment of American tomatoes was recently unpacked in Sheffield and the fruit was found to be in a very satisfactory condition. Only one tomato showed any sign of a bruise. The variety that appeared to meet with the most favor was the "Stone." The consignee stated that the "Globe" and the "Buckeye" were too large for the English market and also showed some blemishes. Tomatoes are usually eaten raw here or used in salads, and more often than not are served without peeling, so that a smooth skinned tomato without blemishes has the preference. Any mark, as an insect sting or a crack that has healed and left a scar, serves to lower the grade of the tomato in the market.

The condition in which this shipment arrived is proof that tomatoes could be shipped to England from Florida and find a market at seasons of the year when the home-grown article is not plentiful. A tomato to suit this market should run from 1½ to 3 in. in diameter, should ripen to a good color, have a smooth skin, and when packed should be carefully graded, the perfect ones being separated from those showing even the slightest mark on the skin. The mixing of the two grades would result in the lowering of the grade of the whole.

If a tomato like the "Stone," with its firm pulp and fine flavor, could be grown in size to suit this market, there is no reason why it should not find a ready sale. The condition in which those sent arrived shows that they will stand the transportation all right. One of the partly ripe "Buckeyes" showed a tendency to rot before the ripening was completed. Whether this was due to some bruise received in transportation or to the fact that it was not cut at the right time is a question. The proper stage at which they should be cut could be determined by experiment. In the opinion of the dealer it would be better to ship them in tight boxes, thus keeping the air away from them, rather than in open crates. The fact that the "Stone" tomatoes sent were each wrapped in paper bears out this idea. This close package is the one in use by the French growers, and it is also used by a firm shipping Canary tomatoes. The Bordeaux shippers pack the fruit in a flat paper-lined box without wrapping the tomatoes separately, but the Canary tomatoes are each wrapped in paper and then packed in peat moss, which is sent from England for that purpose. The dealer is inclined to think that this paper wrapping tends to ripen the fruit better.

There appears to be two kinds of the "Stone," one inclined to be flat and the other longer and more pointed at the blossom end. The flat ones would be better suited for this market. Both kinds, however, appeared to stand transportation equally as well. The manager of the leading retail grocery sampled the "Stone" and pronounced it superior in every way to the Canary tomatoes he handles. He added that if this tomato could be grown in a size to suit this market and could compete with the Canary fruit in price, it would

undoubtedly find a sale, in fact he stated that he would give it the preference for his own trade, which is the best in the city.

BRITISH HORTICULTURE.

Another Batch of New Dahlias.

Some attractive dahlias were recently on view at the fortnightly meeting of the Royal Horticultural Society. Notable amongst the good whites were Mrs. Shoemith, White Lady and Snowdon. There were some interesting exhibits at the second show of the National Dahlia Society, held at the Royal Botanic Gardens, London. In the nurserymen's classes, for three vases of cactus dahlias, put into commerce for the first time in 1909-10, Mrs. M. V. Seale, of Seavenoaks, Kent, was first with excellent vases of Prima Donna, Mary Purrier and Johannesburg. In the principal cactus class for twelve bunches, six blooms of each variety, Messrs. J. Stredwick & Son, of St. Leonards, Sussex, won premier honors with Indomitable, Olympic, Orion, Elite, Golden Wave, Miss Stredwick Uranus, Snowdon, Satisfaction, Jupiter, Mrs. D. Fleming and H. H. H. Thomas. For six blooms of any one show or fancy seedlings, Mr. S. Mortimer of Rowledge, Farnham, Surrey was first with Edward Lee, a meritorious variety of deep crimson tint. There were some fine samples of paeony flowered dahlias, which are steadily increasing in popularity. First-class certificates were awarded to the following novelties: Golden Wave, pure yellow cactus, Frederick Wenham, apricot, yellow centre, Sunlight, yellow, tinted apricot, Messrs. J. Stredwick & Son; Florrie Wells, pure red, shaded violet, Mr. H. Shoemith, Woking, Surrey; Diadem, deep rose pink, white collar, Messrs. Dobbie & Co., Edinburgh; Mahdi, dark reddish maroon, Messrs. J. Cheal & Son, Lowfield Nursery, Crawley, Sussex.

Autumn Roses.

The autumn show of the National Rose Society exceeded the anticipations of the promoters as regards the quality. In the nurserymen's classes, which were well filled, for 36 distinct varieties, the first prize fell to Messrs. Hugh Dickson, of Royal Nurseries, Belfast, who had some splendid samples of Mme. Joseph Courbet, Charles J. Grahame, Hugh Dickson and Leslie Holland. Some pleasing effects were produced in the class for a group of roses arranged on the floor in a space not exceeding 150 square feet. Messrs. Paul & Son, The Old Nurseries, Chesham, Herts, the first prize winner made a bold display with some exceptional blooms. The representative group of cut roses also attracted considerable attention, Messrs. W. & J. Brown, of Peterborough, securing the chief award. As is usually the case the dinner tables decorated with cut roses proved a popular feature with the visitors. For the best blooms the following were the awards in the nurserymen's section: Hybrid perpetual, Gloire de C. Guinoisseau, Hybrid tea, Earl of Warwick, both exhibited by Messrs. Cocker & Sons, of Aberdeen; tea, Molly Sherman Crawford, Messrs. Adam & Craigmile, of Aberdeen. There were several novelties submitted

for adjudication, but only one was considered sufficiently meritorious for an award. This was Mrs. Muir Mackean, a shapely hybrid tea. It is a self-colored crimson, of a deeper shade in the bud, and is likely to prove a useful addition to the H. T. section. A silver gilt medal was awarded to the exhibitors, Messrs. S. McGredy & Son, Portadown, Ireland.

W. H. ADSETT.

LOUISIANA AROUSED.

The State of Louisiana with many million acres of now uncultivated but highly productive soil, a mild climate which permits a series of crops to be grown on the same land each year, and a net work of navigable canals and streams which insures cheap transportation, will bid for the immigration Canada is now getting from the United States. In order to make the bid most effective, a Louisiana Agricultural Exhibit Commission has been appointed by the Governor, and supplied with funds by the Parishes, or Counties of the State, for the purpose of gathering exhibits and data concerning agricultural production, cost and profits, health and market conditions, character of soil and climate, etc., and thus equipped meet the people of the North and West face to face.

The Commission will demonstrate that with only about 5,000,000 acres in cultivation out of 27,000,000 acres comprising the State, the people of Louisiana have prospered, her planters have enjoyed wealth and affluence, and her farmers have never known want. The plantation or overlord system, is now rapidly disappearing, and the great estates are being sub-divided and cultivated by smaller independent farmers. The cut-over forests are being cleared and opened up to settlement. The wet alluvial lands are being drained and made available to the plow. In this manner new tracts of virgin lands are being made available and the State in its official capacity is taking time by the forelock, and is going after farmer families to occupy these lands.

The first exhibit the Louisiana Commission will give will be at the United States Land and Irrigation Exposition, at Chicago, November 18 to December 9. Others will follow later. The object of the Commission is to exhibit average rather than abnormal products, so that the farmer seeking accurate information may learn exactly what the soils of Louisiana produce under normal conditions. No land will be sold at these exhibits, no private enterprise will be exploited and no information will be given out except such as has been carefully investigated and compiled by the Commission itself.

The Chairman of the Commission, Dr. W. R. Dodson of Baton Rouge, is the Dean and Director of the State College of Agriculture and Agricultural Experiment Stations. Other members are: Robert Glenk, New Orleans, Curator Louisiana State Museum; Louis N. Brueggerhoff, Shreveport, the active head of the Louisiana State Fair Association; M. Leigh Alexander, of Alexandria, who represents the Agricultural interests of North Louisiana, and A. B. Graves of New Orleans, who represents the Agricultural interests of South Louisiana.

A FIFTIETH BIRTHDAY

Early last week it was whispered about among the numerous friends of George C. Watson in Philadelphia that that eminent seedsman, writer, and critic and dispenser of Philadelphia good cheer would pass the half-century mark on Friday, October 6, and it was proposed to waylay and kidnap the gentleman and give him a grand blow-out at Dooner's famous hostelry on that evening. The kidnapping business was entrusted to W. C. Langbridge, who did not make a "howling success" of it, but the rest of the program was carried out in great style, and fifty adherents of the fifty-year-old, including a few from Boston and New York who had been let into the secret, had the time of their lives on that memorable Friday night.

The program of the jollification was an elaborate production, the joint achievement of Howard M. Earl and George W. Kerr, the latter producing a galaxy of Burns' quotations suitable to the occasion. The menu—well, that was Dooner's part and nobody can improve on Dooner when it comes to catering. The banquet hall was beautifully decorated, under the loving hand of John Westcott. The head table was richly adorned with croton foliage and flowers. The four other tables were made to represent the four seasons—the spring table being decorated with baskets of lilies, daisies and pansies; summer with roses and other appropriate material; autumn with chrysanthemums, dahls and golden foliage, and winter with dark green foliage weighted with materials simulating frost and snow. On a large easel the inscription 50 was worked out in scarlet flowers and the open spaces about the room were filled with palms.

W. Atlee Burpee presided with rare affability. Robert Craig asked a blessing in the oft-quoted stanza from Burns. Mr. Burpee's address was very clever and witty, and his introductions of the various speakers were veritable gems. It transpired that the idea of this banquet had originated with Mr. Burpee's California manager, Edwin Lonsdale, and a toast to Lonsdale was enthusiastically drunk.

Robert Craig next spoke eloquently recounting the companionable traits and sturdy character of the guest of the evening, concluding with a wish for his long health and happiness. Wm. J. Stewart followed and expressed his pride at being able to join in such a tribute of love and respect in appreciation of Mr. Watson's noble qualities of mind and heart and his unique personality.

Hon. John Lamb, the distinguished counsel for the Reading R. R., followed in a humorous arraignment of the guest, giving as his excuse the words in the middle of the menu, "Punch Watson." Then came H. A. Bunyard, who asserted that there is not a hall anywhere big enough to hold G. C. Watson's friends.

John Westcott, the hard working chairman of the committee, was the next speaker and his "I love everybody when I know their heart is all right," struck a responsive chord in every heart. John Westcott himself

is all heart. Louis Boss, treasurer of the occasion, followed with a most witty talk and then came S. S. Pennock, who in presenting Mr. Watson with a copy of Charles Dudley Warner's "My Summer in a Garden," read an apt quotation from that deliciously naive and humorous book—the application of which to the guest of the evening being instantly appreciated by all present.

Then came the guest himself, George C. Watson, who received an ovation such as is seldom accorded to anyone. And here is what he said:

Well, boys you've got me in a cavity this time. If I run away I'll fall down, and if I stay I'll get roasted. I can't run away without offending the kindly spirits who have put up this feast, and if I stay I'll get roasted. I can't sass back, under these peculiar circumstances; so, as I say, you have me in a cavity. You have me completely bottled up whichever way I turn, so I suppose I will have to stand

GEORGE C. WATSON

for it as well as I can. My friends, Doc Lane, Ed Flood and John Westcott, were in great glee last Sunday because they got me out in a rough sea and made me sea sick. The reason they gave for their enjoyment of that was, that they had George speechless for three hours anyway. Well, this occasion is not quite so bad as the sea sickness, but to a modest kid like yours truly it has some resemblance because it at least makes me speechless, and I suppose there are many of my friends here who are glad of a chance to get a word in edgewise, and maybe that thought was back of their heads as well as in their hearts a lot of warm friendship. It would be unbecoming in me not to express my appreciation of the kindly hearts who have thus made me their victim. I truly do, and I thank you from my heart. This is my first birthday party. That is rather remarkable that a man should live to be fifty before he had a birthday party. Jack Dunham has about fifty a year. This is my first. I have often wondered what it felt like. Now I know. It is a cross between not do mer, hot January cock-a-lekie, roast turkey, Abernethy biscuits, and Tamblin' Jimmie. It's a tough proposition, but on the whole I think I like it.

John Burton then gave his experiences with Mr. Watson as a traveling companion and J. K. M. L. Farquhar on his old friendship for Mr. Watson extending back to the time when George as a boy from Scotland began his career in Boston in the American seed trade. P.

Welch, the next speaker, was eloquent in his testimonial to his friend of many years and W. C. Langbridge followed in a witty speech.

Then Howard M. Earl took the floor and presented to Mr. Watson a handsome gold watch from his friends as a memento of this delightful occasion. Mr. Watson responded appreciatively. Then all joined in "Auld Lang Syne."

During the evening, verses written for the occasion by Prof. L. C. Elson of Boston were read, also a congratulatory telegram from J. C. Vaughan, W. N. Rudd and Michael Barker. Prof. Elson's poem was as follows:

An elderly and distant party
Begs to send greetings warm and hearty,
And wishes that he there might be
To pledge you in the Barley Bree.
All are aware there are no blots on
The scutcheon of our George C. Watson,
And he's so active, bright and sporty,
You'd scarcely take him to be forty.
Altho' a friend of moral suasion,
He can be tart upon occasion.
It's strange a man so very witty
Should live in William Penn's slow city.
But then he gives his wits a rub
By often visiting "The Hub,"
But wheresoe'er his journey tends
He makes a host of loyal friends.
Old comrade from the land o' Burns,
I wish you many glad returns.
You're not a bit of molly coddle;
May years sit lightly on your noddle.
An ancient friend sends you this blessing,
Who is it? Well, I'll keep you guessing!

Mr. Watson dictated the following telegram:

Edwin Lonsdale, Burpee Seed Farms,
Lompoc, Cal.

My heart goes out to you as yours has gone out to me across seas and continents on this and many other occasions. Your good will and good wishes are very precious to me. My fiftieth has been made to me by a host of warm friends a most memorable and unforgettable occasion. I am still dazed with the magnificence of it, and have only words enough to say "God Bless Us All." Love and greetings from your old friend on his fiftieth birthday celebration.
GEORGE C. WATSON.

Interspersed between the speeches was solo singing, tenor, bass and baritone—the best we have ever listened to at a banquet anywhere on any occasion. The gentlemen who sang were all warm friends of Mr. Watson. They were: Theodore H. Bird, Daniel Houseman, Thomas F. Hogan, E. M. Tyrrell, E. J. Dooner, George W. Kerr, and they contributed very greatly to the enjoyment of the occasion.

Following are a few quotations from the various speeches:

Sure Louis! I'm more than glad to cheer poor old George on his way; but why in the name of the Holy Roman Empire did you select a Friday?—Tom Daly.

I am not at all surprised that George feels like eighty-five! I have an attack of lumbago myself!—Alexander Forbes.

My sincere regards to the venerable George. May he not be wrecked on Rye Beach before I get there to keep him company!—John F. Gorman.

There will be two of us at the celebration if I can get away; but anyway—reserve accordingly.—Wm. Henry Maule.

I have come a long way in order to testify my appreciation—and hope his stay here on earth may extend—to these many years! P. Joseph Lynch.

I hope we will have George with us for another 50 years, for nobody leaves his company with a grouse on!—Daniel C. Donoghue.

Sit down Louis! There you are—all

three of you, on your feet at once! And all three of you, lawyers! You talk, and you talk, and you talk; but you don't say anything! Not one of you! Sit down; all of you! —Paul Huebner.

Isn't it about time Louis was reading those letters again? —John Burton.

As we go to press the following communication reaches us and we give it place as a good ending to the account of this memorable event:

The Sinner's Reflections on the Great Event.

If I had made or inherited a lot of money I can imagine lots of them coming forward to say nice things. But having done neither, the conclusion is irresistible. The boorah must have been genuine. That is a thought that ought to give me much satisfaction and it does. And the notion has gone forth that the average American loves and worships the dollar, and the dollar only. Here is at least one instance to the contrary. The American people, I believe, are just as human as the rest of the world. They are keen for the dollar but they are also warm-hearted human beings. I have sojourned among them twenty-seven years, and have, every minute, more and more realized that fact. I hope to live and die among them. Greatest people on earth, and getting bigger every minute!

GEORGE C. WATSON.

WASHINGTON NOTES.

Walter Kimmel has returned from a very pleasant fishing and camping trip on Blackstone's Island.

Leapley & Meyer, 905 G street, N. W., are in the midst of a very successful fern, palm and bulb sale.

The new store on King street, Alexandria, Va., to which Mr. Charles Kramer recently removed is far superior to the store formerly occupied by him, and it is reported that he is doing nicely.

It is with regret that we have to report that George H. Cooke has suffered a breakdown following his recent attack of blood poisoning. Earlier in the year Mr. Cooke ran a thorn into his hand causing the poison and his health since that time has not been of the best. His very many friends here wish him a speedy recovery and the return of his usual good health.

The local organization of architects, at their meeting held last week, appointed a committee of three to investigate the advisability of taxing bay windows. As bay windows and display windows are one and the same, such taxation will hardly be favorably considered by the trade in this city. Should this become a law, those owning would be obliged to pay taxes according to their frontage, and those hiring quarters will be no doubt, called upon to pay an increased rental to make up whatever charges are assessed.

The Department of Agriculture announces that they have discovered a method of so treating persimmons as to remove the "pucker" therefrom. This is said to be due to the presence of soluble tannin which becomes insoluble when the fruit gets ripe, but this condition may be removed by subjecting the fruit to a diluted solution of alcohol and the use of carbon dioxide and starch in the processing compartments instead of allowing the air to reach the fruit while undergoing treatment. Thus the fruit may be pared and eaten while firm.

PHILADELPHIA NOTES.

Whoever lost a half ticket for Baltimore and Philadelphia can get a refund by applying to John Westcott. Found on the boat trip down the bay. Address John Westcott, Ridge and Lehigh avenue, Philadelphia.

We understand that Mack Richmond of Baltimore is contemplating a new deal. He is now a free lance, the Halliday's having sold their greenhouses of which he was foreman for so many years. Nothing definite has yet been decided on.

A pleasant meeting took place at Dooner's on Thursday between those two veterans, W. R. Smith and Robert Craig. From time to time old friends dropped in and greeted them. The "senator" looks hale, hearty and rugged. Age cannot wither nor custom stale.

The grand show that can be inexpensively made with the dahlia was well illustrated at the recent Florists' Club dinner here. The Niessen growers sent in liberally (without thought of reward) and put up a splendid advertisement for an even more liberal use of this fine flower in the future.

M. Rice & Co. have added to their salesforce Mr. John E. Scolley who will call on the Philadelphia trade. Mr. Scolley is one of the store boys—well trained and promising for the future. Has been with the firm four years. Came to them from high school when 17—so is still a young man with his spurs to win. We wish him well.

The big steamers Frankfurt, Graf Waldersee, Manitou and Taormina each brought heavy shipments of imported baskets, novelties, etc., for M. Rice & Co. They report sales exceedingly brisk. In their warehouses, packing and shipping departments it was necessary to keep the employees working nights to keep up with the orders.

Montague Wright, a former Philadelphia boy, who has for the past six years been one of Lord & Burnham Company's New York representatives, is now associated with Dennis & Co. in the company's Philadelphia office. Mr. Wright will give special attention from this office to the handling of the southern territory—a field which he has been in close touch with for several years.

Visitors: Mack Richmond, Baltimore, Md.; W. F. Gude and W. R. Smith, Washington, D. C.; W. C. Lang bridge, Cambridge, N. Y.; John F. Horn, of J. F. Horn & Bro., Allentown, Pa.; Charles Vorkeller, Co. Bethlehem, Pa.; William F. Gude, Washington, D. C.

Baltimore—A shipment from Holland consisting of something like 225,000 bulbs has just been received by the park commissioners to be set out in the local parks. The consignment was under the supervision of Herman Rynveld of Hillegom, Holland, and he has come to this city to instruct those in charge how best to take care of them. In the shipment were 10,000 Murillo, 10,000 Imperator Rubrorum, 10,000 Couronne d'Or, 60,000 Montresor, 75,000 Belle Alliance and 60,000 Potebakker.

ST. LOUIS NOTES.

Henry Young & Son on Maryland avenue had their opening last week. The store was crowded daily.

C. Young & Sons' new show room and store on Waterman avenue is nearly completed and the opening will be made a feature.

The Sanders' Nurseries new retail establishment on Clara avenue is nearly completed. They expect to open November 1st.

There were quite a lot of large plant decorations last week at the large department stores down town. Chas. Beyer, C. A. Juengel, Wm. Schray & Sons, and Bruning were kept busy with this kind of work.

The St. Louis delegates who went to Chicago to attend the 25th anniversary of the Chicago Florists' Club numbered fourteen. All arrived home on Saturday and report a splendid time and a fine entertainment.

It's only a few more weeks now until the Fall Flower Show opens in the big Coliseum building and which promises to be the best and largest the Horticultural Society has yet attempted. Entries are coming in daily for space.

Ostertag Bros., at Washington and Jefferson avenue, also have an opening all week, celebrating their 25th year in business. Flowers and handsome souvenirs were given to all lady visitors. The place is known as the "House of Flowers."

Visitors: A. Tomaszewski and Tim. Waters, both of Chicago.

DETROIT NOTES.

Miss Holzhauer is fully settled in her new commodious flower shop.

The Michigan Cut Flower Co. has seven million choice ferns stowed away, and they keep coming.

Mr. Harry Breitmeyer, son of genial Phil Breitmeyer, will marry Miss Bamlet, Oct. 10, and spend their honeymoon on an eastern trip.

J. F. Sullivan has gone east on a short business trip, and Mrs. Sullivan, although still showing the effects of her long illness, is hustling in the store.

Schroeter's annual fall decoration for the Necomb, Endicott Co., used up 1500 Beauties, about 4000 roses, 26 fancy baskets and over 100 palms.

FRANK DANZER.

PERSONAL.

Sedalia, Mo.—C. A. Claison has been appointed superintendent of Floriculture at the Missouri State Fair.

E. Westergard, gardener for S. W. Winslow, North Beverly, Mass., left October 13 to take head gardener's position on the estate of C. Howard Clark, Devan, Pa.

Visiting Cincinnati—George E. Kessler, landscape gardener, St. Louis Mo.

Visiting New York: Alexander Dallas, Waterbury, Conn.; M. E. Estep, Spokane, Wash.

Visiting Boston: Walter Mott, representing Wm. Elliott & Sons, New York; W. P. Craig, Philadelphia, Pa.

DREER SEASONABLE SPECIALS

Special circulars offering the following seasonable stocks have recently been mailed to the trade. If you are interested and have not received copies, write to us.

Japanese Iris

Japanese varieties, but not Japanese mixtures. 150,000 home-grown plants, true to name. Forty-four of the finest varieties ever brought together. Now is the time to plant.

Paeonies

Now is the time to plant. We have just harvested 150,000 roots, strong divisions, four, five and more eyes. Many of the standard sorts at particularly interesting prices.

Hardy Perennial Phloxes

More than half-a-million plants are now in bloom at our Locust Farm Nursery. The best varieties only and we can ship at once.

Dahlias, Field Grown Roots

We have issued a special catalogue of these in which we offer 200 standard up-to-date varieties. You should consult this list before making up your catalogue for 1912.

Araucarias

Thirty thousand plants now in stock. Prices lower than ever offered. This is for early delivery only and it will pay you to cover your requirements for the coming season now. Get our special circular offering these plants.

For a complete line of all seasonable Florists' Stock, Hardy Perennial Plants, Bulbs, Seeds and Sundries, consult our Current Wholesale List, issued September 1st.

CHICAGO NOTES.

An Anniversary Cup.

The handsome silver loving cup presented to the Chicago Florists' Club is calling forth many words of admiration. It is on exhibition at the office of the Chicago Carnation Co., whose popular manager, A. T. Pyfer, is club secretary. The cup is about 14 inches high without the base, and on the side is beautifully engraved Chicago Florists' Club Silver Anniversary, from the Milwaukee Florists' Club. Oct. 5, 1911.

The Chicago florists are greatly moved over this expression of the good will that prevails between the Milwaukee Club and their own.

Illinois State Fair.

Chicago florists who attended the State Fair at Springfield, Ill., last week speak in highest praise both of the exhibition and the management of the floricultural part. Poehlmann Bros. Co., the Chicago Carnation Co. and the Albert T. Hey Co., all had large exhibits from this vicinity and carried off their full share of the prizes. Out of the nine entries made by the Chicago Carnation Co., five first prizes and four seconds were won. List of awards is quite lengthy. Schiller, the Florist, had some fine decorative work there and carried off several prizes. The Albert T. Hey Co., of Maywood also did some very creditable work.

Trade Jottings.

The A. Henderson Co. are as busy as bees these days and the amount of bulb stock that has come and gone during the past month is very large. Azaleas are expected in this week.

Blooming plants are now few. The varieties of early chrysanthemums suitable for cut flowers, as a rule, do not make a growth suitable for pot plants, but there are a few varieties that can be used in this way and they are now showing color. Cyclamen and primroses are coming in in very limited quantity, but are not far enough out to make good offerings for high-class trade. Celestial peppers and Jerusalem cherries (solanum) will very soon be ready for the counters, some few plants being already in the stores. The retail men are still depending on the old standbys, Boston and Whitmanii ferns, pandanus, dracaenas, etc., for background in window displays, varied by the autumn foliage now offered in great quantities.

The fall openings were unusually attractive, a profusion of color and a vast amount of material being used in windows, columns and overhead trimming. The cutting out of all cut flowers, except Beauties and a few chrysanthemums, is more noticeable than ever this year and less artistic skill is shown in the handling of the artificial materials. Vines, by the hundred, all of the same pattern, no matter how beautiful, do not lend themselves to graceful effects as naturally as the growing vines, but their lasting qualities more than make up for it. The producer of prepared or artificial stock seems to have gotten a little ahead of the one who handles it.

Personal.

H. Anderson has been added to the E. H. Hunt office force.

Edward Armstrong of A. Lange's

and Maggie Maloney were married at St. Joseph, Mich., Sept. 23rd.

Mrs. E. H. Horton of Bassett & Washburn's office force is ill at her home in Evanston.—C. M. Dickinson is still confined to his home.—G. H. Pieser continues very ill.

Visitor—M. S. Crozer, Cedar Rapids, Iowa.

BOSTON & MAINE R. R. STATION PRIZES.

An order has been issued by Superintendent Lee of the Boston & Maine Railroad awarding cash prizes for flower displays at the stations of the company. The committee which examined these displays found that 256 stations had been competing for honors during the summer. Fourteen of the displays were found to be commendably well kept, but were awarded no prizes because they were cared for by the roadway department. Beverly

THE NEW BREITMEYER STORE.

An event of much interest to the craft was the opening of the new Breitmeyer store in Detroit last week. It is built on a lot 44 x 111 and is of the type of a Haarlem home, two show windows below and three large and one small window above. Four columns topped with jars holding pyramidal box extend above the roof and there are window boxes filled with box and ivy at each of the windows. The exterior finish is stucco in light green, with window and door frames and lettering in verde antique.

The store interior is in ivory-yellow, with verde antique ceiling and red tile floor. Out of this opens a conservatory, 44 feet wide, with arched roof and fountain. The refrigerator is 22 feet long and cooled artificially. The

AN ELECTRIC DELIVERY AUTO

was found to be very attractive; Montserrat quite handsome, especially with the posts of the train shed covered with Virginia creeper. Lyndonville is in fine trim; Hoosick Falls charming; Charlestown well kept; the entire premises at Newport, Vt., and at Lakeport have been vastly improved. Woodsville excels them all, with its flower beds surrounded with whitened stones, and laid out in excellent taste.

The awards in the first four classes are as follows:

First Class—Prize \$50. Nashua, Main street, N. H.

Second Class—Prize \$40. Concord, N. H.; Hill Crossing, Mass.

Third Class—Prize \$25. Brattle, Mass.; Pike, N. H.; Riverview, Mass.

Fourth Class—Prize \$20. Cliftondale, Mass.; Marlboro, Mass.; Merrimack, N. H.; Newport, N. H.; Waltham Highlands, Mass.; Webb, N. H.

There were 24 awards in the fifth class, prize \$15, 60 in the sixth class, prize \$10, and 113 in the seventh class, prize \$5.

wainscotting is of marble. All the appurtenances and adornment of the establishment are artistic, rich and appropriate. The plant tables and shelves are of slate. The lighting is by three chandeliers and groups of electric lights. The lights in the conservatory are made to produce a mellow moonlight effect.

As a fitting adjunct to such a handsome floral emporium the delivery auto, of which an illustration is here given, has been added to the Breitmeyer equipment. It is a "Detroit Electric," manufactured by the Anderson Electric Car Co., of Detroit, and its beauty and practicability for a high-class florist outfit is our reason for illustrating it here. The carrying space is ample and sliding doors connect the carrying space with the driver's seat. The electrical equipment consists of an Edison 60-cylinder A4 battery developing a speed of fourteen miles and running fifty miles on one charge. The car has a capacity of 1000 pounds.

McHutchison & Co. 17 Murray St.
New York, N. Y.

Nothing is more subject to mistake and disappointment than anticipated judgment concerning the easiness or difficulty of any undertaking; whether your opinion be formed from the performance of others, or from abstracted contemplation of the thing to be attempted. Whatever is done skilfully appears to be done with ease; and art, when it is once matured to habit, vanishes from observation.

Lily growers who have an idea that it's a snap to grow lilies properly will do well to consider what they really know about it. It is easy enough for those who already know because they have acquired that skill through careful study and experience. After you have acquired the same ability, of course, it is easy and habit will take the place of art; but don't think just because your neighbor knows that you do too. The far off fields always look green but when you reach them they are the same old brown that you find around home on a hot summer's day. The wise thing to do then is to be careful—be attentive, work, use your reasoning faculties and above all have good tools to work with. The principle tool in the lily business is a good bulb—it's an absolutely essential tool and no grower, no matter how good, can do without it. Horseshoe Brand Giganteum will eclipse anything on the market for productiveness and all around satisfactory service. Try them.

FUNGINE

Fungine has no equal for carnation rust, rust on chrysanthemums and mildew on roses.

\$2.00 per gallon, 75c. per quart.

There is but one convincing way for you to become familiar with the merits of Aphine and Fungine, and that is—test them out yourself—it will prove worth your while.

NEWS NOTES.

Knoxville, Tenn.—The Peters Nursery Co. was adjudged bankrupt on Sept. 28.

Milwaukee, Wis.—The Lake Geneva Horticultural Society have increased their capital stock from \$10,000 to \$20,000.

Alameda, Calif.—The Japanese Nursery, H. Hayashi & Co., proprietors, have moved from 1703 Park avenue to 73rd avenue and Thomas street, Elmhurst.

Molson, Wash.—A branch of the Wenatchee Valley Nursery Co. will be established here for the growing of young stock. The main nursery is at Wenatchee.

Boston, Mass.—The Beacon Flower Store, 2 Beacon street, has secured an opening into Houghton & Dutton's department store, thus giving patrons easy passage from one store to the other.

Elmira, N. Y.—The greenhouses of H. N. Hoffman, Clinton and Hoffman streets, have been leased by Robert Klebert, who will carry on a florist's business there. Mr. Hoffman will devote his time to the nursery business and landscape gardening.

Grand Rapids, Mich.—C. M. Norton has given an option for the sale of his greenhouses and twelve acres of land on Plainfield avenue opposite the Kent Country Club grounds to J. Bakker, a market gardener, at \$8000 and it is likely the deal will go through.

Richmond, Va.—The four-story building occupied by the Richmond branch of the International Harvester Company was gutted by fire on Satur-

Write to

**P. R. Palethorpe Co.
OWENSBORO, KY.**

day last, causing a damage estimated at between \$250,000 and \$300,000. The fire was one of the most disastrous in the city's history. The fire spread rapidly through the brick structure at 1000 Gary street, the harvester plant, following a deafening explosion. The origin is unknown.

Cattle Manure in Bags Shredded or Pulverized

Pure—dry—uniform and reliable. The best of all manures for the greenhouse. Florists all over the country are using it instead of rough manure.

Pulverized Sheep Manure

Absolutely the best Sheep Manure on the market. Pure manure and nothing else. The best fertilizer for carnations and for liquid top-dressing. Unequalled for all field use. Write for circulars and prices.

Crop Conditions.

Crop conditions have now reached a stage where growers both in this country and Europe must show their hands, or in other words must furnish their customers with some sort of estimate of what they expect to deliver on contracts. We are rather inclined to sympathize with the grower who resists pressure requiring him to furnish estimates while his crops are in the field and not matured, and the grower who refuses to submit estimates until his crops are ready for shipment goes to the opposite extreme, and is liable to find himself with reduced patronage or perhaps none at all.

Peas and Beans.

Most of the pea and bean growers have now sent out their preliminary estimates and these fully bear out the rather pessimistic reports we have been furnishing to the readers of HORTICULTURE since midsummer. As a matter of fact, they are worse than we were willing to believe. Here are some of the figures representing the high and low of different growers, the average being about midway between: Alaskas, 25 to 50 per cent.; Extra Earlies, 8 to 40 per cent.; Alderman, Duke of Albany and Telephone, 12 to 30 per cent.; Ameer, 20 to 50 per cent.; Gems, 7 to 30 per cent.; Am. Wonders and Notts Excelsior are running neck and neck, 8

to 30 per cent.; White and Black Eye Marrowfats, 12 to 50 per cent.; Canada Field, 10 to 40 per cent.; Carters Daisy, 0 to 20 per cent.; Dwf. Champion, 10 to 30 per cent.; Everbearing and Yorkshire Hero, 10 to 35 per cent.; Gradus, 0 to 30 per cent.; Advancers, Horsford's Market Garden, 20 to 35 per cent.; Champion of England, 0 to 30 per cent.; Heroine, 20 to 35 per cent.; Sutton's Excelsior, 10 to 25 per cent.; Telegraph, 9 to 35 per cent.; Pride of Market, 0 to 50 per cent.; Imp'd Stratagems, 8 to 50 per cent.; Thos. Laxton, 9 to 25 per cent.; Admiral, 15 to 40 per cent. There are several less important varieties ranging from 0 to 40 per cent., and among these may be mentioned the Sugar or Edible Pod sorts.

Beans will not turn out so large a crop as predicted by many some weeks ago, and most of these bounding optimists now admit this, but it is quite in line with the crop news furnished by HORTICULTURE from last mid-summer. We predicted, however, that there would be no famine in Beans, and this still holds good. To begin with, too large a quantity of beans were carried over to permit of a famine. Three or four of the wax and two or three of the green pods are liable to be short enough to arouse interest, but while prices will be firm, there are no indications of any abnormal scarcity. Lima beans, both Pole and Dwarf, are now practically a full crop, barring damage by wet weather, and by the way, it should not be forgotten that no bean crops are secure until safely under cover.

It is now generally thought that

sweet corn has made a fair crop, though there are reports from the west that late varieties are short. We look for a firm market on seed corn, but no extravagant prices. The recent heavy frost which visited New England and which was so disastrous to tobacco, contrary to general expectations, did but little damage to corn, if we are correctly informed, and we have no reason to question the accuracy of our information.

Cucumber and Other Vine Seed.

Cucumber seed will be in good demand at fair prices, and New York state grown seed will be at a premium. The crop of Washington County, N. Y., will not be above 25 per cent. on the acreage. Had the severe frost which visited that section of New York state about the same time New England's vegetation received its quietus, held off two weeks, the cucumber seed crop of Washington County would have been above average. Owing to the heat and drouth of mid-summer the vines ceased to grow or set fruit, but when the rains came in August the vines started a fresh growth and new fruit was set in great quantities, and it was this that was killed by the early frost. The western crop, we hear, will be fair, but the carry over will be small and we believe in good prices and a firm market for cucumbers. Musk melons will be short, as we learn the Kansas crop will be largely a failure. Quite a number of varieties will be very hard to secure at any price, but we are unable to give specifications at this time. Squashes are in much better shape than a year

ago from all reports, though there will be no surplus to depress legitimate market values.

Root Crops.

Garden beets and carrots are the shortest crop in 50 years, contract deliveries ranging from 0 to 10 and 15 per cent. Mangels are only a shade better and scarcely purchasable at any price. To give some idea of values we are reliably informed that a private stock of Crosbys Egyptian Beet was sold at \$1.25—300 lbs. Melipse, Blood Turnip, Long Blood and other ordinary varieties have sold at 60c. Mangels have sold as high as 25c., while carrots are quoted from \$1.00 to \$1.75, and we have heard of some Danvers being sold at the latter figures.

Spinach, Parsley and Parsnips.

Spinach is short, particularly the Savoy leaved, and it is hard to secure it in quantities. It is now offered gingerly at 12 to 15c.

Parsley is very scarce and not procurable in quantities. Parsnip is also short, but what's the use is there anything in seeds this year that is a good crop? Of what avail is the rain and mild weather after the heat and drouth have ruined vegetation? Of what avail the sunshine and calm atmosphere after the tornado has wrecked and destroyed everything? It looks as if this old earth had to take pot luck with no particular care or attention from any source. Many good people act as if they thought this speck in the great universe was all that interested celestial attention. "What fools these mortals be."

Latest Market News.

Wholesale prices continue to soar. Beet seed is changing hands in 1000 pound lots at 85 cents a pound and will go to \$1. Carrot seed is being sold at \$2 a pound and there is nothing to indicate that this establishes the limit. It is liable to go much higher as the demand seems to far exceed the available supply.

Notes.

Mr. Jerome B. Rice has been ill enough to take to his bed for the past two weeks, but is now convalescent.

Peter Henderson, son of the late Alfred Henderson of New York, who is in his senior year at Yale, has been elected chairman for Class Day.

Tucson, Ala.—The Tucson Seed Co. has been incorporated, capital stock \$10,000. Incorporators Henry B. Langers, Thomas V. McCauley and Iva Langers.

Frank C. Woodruff, whose term as a member of the state senate of Connecticut is soon to expire, is to be given the honor of having his portrait as president of the senate and acting lieutenant-governor, hung in the state capitol at Hartford.

A wail is going up from the pea growers that they can't get farmers to grow pea seed for next year and one or two of the pea growers are threatening to sell their seed stock and quit. This will receive attention in our next "notes."

A MODEL STORE.

Twenty-five hundred cards were sent out announcing the opening of the new retail store under the name of Adams & Robertson, at Bellevue place and Rush street, Chicago, on Oct. 2d. The place is ideal in location, and fitted up in good taste, everywhere, harmony and soft coloring prevailing. Light blue and white is the color scheme in the walls and floors, and the flower boxes are of the same. A small office, mapping room and cashier's desk are at the rear of the large room, and a large workroom is in the basement. Both members of the firm are former employes of the E. Wienhoeber Co., and are well known to the trade, who wish them success in their new enterprise.

NEWS NOTES.

Northampton, Mass.—M. B. Kingman has reopened his flower store in Hunt's block.

Stamford, Conn.—Alexander Mead & Son, florists, moved into their new building on Greenwich avenue Sept. 30.

Boston—H. E. Hartford and Thos. A. McDonough have started in the florists' greens business at 70 Pemberton Sq.

Ansonia, Conn.—The Ansonia Floral Co., T. J. Mooney, proprietor, has moved to 158 Main street from their old location at 124 where they have been located for several years.

Toronto, Ont., Can.—Fire in a shed in the rear of the florist store of S. A. Frost on College street did \$200 damage. The business of Mrs. Thomas Plumb, North Yonge street, has been

purchased by J. S. Simmons who will run it in connection with his store at 266 Yonge street.

New York, N. Y.—The Manhattan Plant and Flower Company has been incorporated with A. Hanig, president, and Hugh Nelson, secretary and treasurer. The company has acquired spacious accommodations on the first floor of the Coogan Building.

Flower Market Reports

BOSTON The demand with the wholesaler has been quite brisk the past week. Stock is not over plentiful. Only a limited number of early varieties of chrysanthemums are in flower. The Golden Glow, October Frost, Polly Rose and Rievère are the list thus far. Carnations are high in price considering the poor grade of flowers obtainable. Violets, single, are getting better quality and increasing in supply. Lily of the valley in excellent quality and selling well. Prices on all goods are about the same as last week. The newer varieties of roses are called for and selling at fair prices, while the Bride, 'Maid and Richmond are moving slowly.

Recent frosts have practically cut off the outdoor stock and the effect is noticeable on indoor, the demand growing steadily for carnations, roses and other flowers. Chrysanthemums are coming in more plentifully each day, though only Golden Glow, October Frost and Smith's Advance have been had, but a few days of bright weather will bring on Pacific, Polly Rose and Halliday. Roses shortened somewhat in supply, and selected stock was not over-abundant, there being too many Richmonds of all grades, with light demand for them. Carnations are in good supply, especially Enchantress and Beacon. Some good White Perfection are seen and have had a good call. Dahlias are among the daily receipts and so far have taken well. Lilies are in fair supply, also lily of the valley and violets.

CHICAGO Even the most pessimistic now admit that there is a stir in the flower market. Wholesalers are selling pretty close to the end of the supply day by day and even the retailer who has formed the "no business" habit now smiles occasionally and owns up to better times. Weddings are largely responsible for this state of affairs, one retailer reporting eleven on Saturday and four on Sunday, all of which called for the elaborate use of flowers. Another has two out-of-town decorations in the near future, both chrysanthemum weddings calling for hundreds of those favorites with brides. The coming in of chrysanthemums seems to have marked the change from summer to fall and a welcome change it is. Violets can hardly be said to be in yet as the sales are so slow. Doubles in most instances remained unsold but singles sold for 75c. last week, few wholesalers carrying them. Cosmos are much in evidence and sell fairly well. Asters, gladioli and other evidences of summer are still here and sell better than a few weeks ago. Roses of all kinds are plentiful and no fault can be found with the quality, the occasional sunshine helping out wonderfully. Carnations are unusually fine for the season; fine long stems and large full blooms are seen in many places. There is an abundance of green of all kinds.

Supply has been rather scarce for a few days, during which the demand was very brisk. Out-of-door flowers have been ruined by excessive-

Just the Thing for
Chrysanthemum Season

FLORISTS' GALVANIZED BUCKETS

Hand made; of the best galvanized iron; far more durable, and will wear four times as long as any other vase on the market; more easily handled and when not in use can be stacked, taking up very little room. Do not break, do not rot, do not chip, do not wear out. And, best of all: flowers keep longer.

ly heavy and frequent rains. Carnations are coming in more freely, but quality is rather low. The same may be said of single and double violets.

NEW YORK The upward turn in market values which we noted last week has moderated somewhat and with a series of bright warm days crops are

being pushed along rapidly and outdoor flowers have taken on renewed vigor. The receipts of dahlias are particularly heavy. Carnations are still lagging in coming forward and are still selling at the enhanced prices of last week. Another very ambitious

Flower Market Reports.

(Continued from page 541)

item is the longiflorum lily which has suddenly shortened up in supply and buyers have to pay nearly double the figures prevailing of late. O. cattleyas, the growers whose houses came in early have passed the heaviest stage of the crop, but there are other growers who are only beginning to cut labiata and the outlook is for an abundance for some weeks to come. Oncidiums are beginning to assert themselves and Vanda coerulea is also in evidence. Gardenias are very scarce and violets are resentful of the summery temperatures of the past few days.

A combination of **PHILADELPHIA** cool, clear, crisp weather and an unusually good crop of October weddings, had an excellent effect on the local situation, and have trading quite lively during the past week. Both local and shipping demands were quite active and there was no really first-class material but found a market. The dahlias are still fine and immense quantities of these were disposed of for decorative work. They are more than ever a great flower for fall work and have taken a distinctly forward stride this year. There have been two slight frosts already but not enough to hurt. In a week or so, however, the chrysanthemum will be so strong that probably it will be just as well for all concerned if the dahlias are over. In addition to the chrysanthemums reported last week, namely, Golden Glow, Peony Rose and Montmorency, this week sees the advent of Montmorency, Glory Pacific, Smith's Advance and Unaka. All are fine stock and meet with ready sale. The market on American Beauty roses eased up on larger receipts. Supplies were especially strong on the long-stemmed grades. Kalamay is exceptional in good and one of the most satisfactory lotus. Mrs. Ward leads in carnations. All carnations have improved a little and keeping qualities are better. Gardenias scarce and below par as to quality. The demand for orchids has improved considerably with receipts abundant and of fine quality. Violets are in but they are not much to speak of yet, especially the doubles. The latter are very poor.

The last week was not so good as expected.

ST. LOUIS The cut flowers demand was considered dull. The markets were well supplied with some excellent

NEW YORK QUOTATIONS PER 100. To Dealers Only

stock from both local and outside growers. A good frost should clean up the outside truck that has been coming in quite heavy. The shipments during the week of roses were large at all the markets and Beauties sold cheap. Chrysanthemums are becoming quite plentiful. Dahlias and cosmos are still with us.

PROVIDENCE Very little change took place in the market here during the past week, which still remains dull and uncertain. Carnations soared in price, with choice stock bringing \$2.00 per 100, with the demand in excess of the supply. At least a part of the shortage is due to the fact that some of the dealers are sending their stock to Boston and getting \$3.00 per 100. Roses of many varieties are very flush, bringing from \$10.00 to \$12.00. There are plenty of violets on the market, but the demand is slow at 50 to 75 cents per 100. Chrysanthemums are coming in slow, and the demand is light with the prices ranging from \$2.00 to \$3.00 per dozen. There is a good supply of green stuff on the market.

WASHINGTON Roses are moving much better than they have been, and there is still a large supply of the cheaper grades on the market, selling at from \$2.00 to \$3.00 per hundred, with a lesser price in thousands. The latter part of last week brought forth an increased demand for lily of the valley, as was also the case with longiflorum lilies. Greens are still moving good and Adiantum labe lili is in better demand. The numerous fall weddings and social events is the cause. Choice Cattleya labiata is in. Yellow chrysanthemums are coming in in better shape, and there is a ready demand for them; the white variety are more plentiful and bring less. Carnations are improving in quality and quantity, although there is still room for improvement. Radiano roses are coming in fine, and are worth from

\$6.00 to \$10.00, according to length of stems. "Mrs. Taft" are equally good and Richmonds are coming better. There is a plentiful supply of violets and good stock is being sold to the stores at \$1.00, although the price in quantities is somewhat lower. The funeral of Admiral Schley greatly enlivened business last week, as did that of Curtis, the newspaper correspondent. Gude Bros., Kramer's, Cooke's, Blackstone's, Shaffer's Small's and others all had a share in the work. The masonic festivities and the convention of the German-American Alliance, which called for banquets, visitations, etc., also used up a large number of set pieces and enormous quantities of cut flowers. To finish up the week there were several large weddings and the usual trade which comes to the local florists at this time of the year.

Obituary

John A. Dow.

John A. Dow died at Hampton Falls, N. H., on Sept. 23, aged 71 years. He was formerly in the florist business.

Winthrop Hoxie.

Winthrop Hoxie died at his home, Chiltonville, Mass., on October 7, aged 41 years. He was formerly in the florist business in Plymouth, Mass.

William Spatz.

William Spatz, retired florist and former resident for forty years of Astoria, N. Y., died Oct. 5, in Bushwick. He was born in Germany eighty-five years ago.

Isaac Gillett.

Isaac Gillett, Troy, N. Y., died on Sept. 22, at the age of 68 years. He for many years carried on a florist business at Eighth avenue and Fifteenth street.

Mrs. Thornton.

Thornton Bros., florists, of Lawrence, Mass., mourn the death of their mother who died October 6, at a very advanced age. This venerable lady was greatly beloved by all, and her declining years have been made very happy by the devotion and affection of her children and grandchildren. She had been ill for several months.

NEWS NOTES.

New Cumberland, Pa.—The greenhouse formerly owned by John Kepner has been purchased by Hanson & Martin of Reading.

Melrose, Mass.—A. M. Tuttle, the sale of whose greenhouses to Charles Rapp was reported in the Sept. 16 issue of HORTICULTURE, is still carrying on his nursery business at 11 Sargent street.

A SOCIETY NOTE.

Dear Editor, an item:

My last, perhaps, this year I'm keen enough to write 'em, But news is scanty here.

Society's news foundless

Are growing very dry:

There's nothing in the mountains

But silence, rocks and sky.

Yet by the smug torches

That on the hillside dance

Late gossip on the porches

Spy out one last romance

The beautiful Belle Summer

Who's flirted here since June

Has met a bold new-comer.

And she'll surrender soon.

For though by height or hollow

Seclusion she may seek,

Rogue Jack is sure to follow

And feed upon her cheek,

Rose-branded by his kisses,

Her spinsterhood is lost,

Miss Summer now is "Mrs."

Her married name is Frost.

—Tom Dalgren, *Cathart. Standard*, Oct. 11, 1911.

Landscape Gardening

A course for Home-makers and Gardeners taught by Prof. Craig and Prof. Batchelor, of Cornell University.

Gardeners who understand up-to-date methods and practice are in demand for the best positions.

A knowledge of Landscape Gardening is indispensable to those who would have the pleasantest homes.

KROESCHELL BOILER

Half the Coal and Half the Work.

"Your No. 13 boiler is carrying 25,000 sq. ft. of glass and I can keep it at 60 degrees in the coldest weather without any trouble. I have three other types of boilers also heating a range of 25,000 sq. ft. of glass, but the No. 13 Kroeschell Boiler ONLY TAKES HALF THE COAL and half the work to get the same results."

J. G. FRISZ, Vincennes, Ind.

P. S.—Mr. J. G. Frisz, of Vincennes, Ind., has the largest range of glass in Indiana devoted to vegetable forcing.

KROESCHELL BROS. CO., 466 W. Erie St., Chicago, Ill.

GLASS

Cheap as Dirt

Have you had any prices on greenhouse glass, lately?

Write us at once for our quotations. We'll surprise you.

Take advantage of the drop and book orders for future deliveries.

Our glass all new and fresh from factory.

Hot-bed sash and greenhouse material, dropped too.

PARSHELSKY BROS., CO.
59 Montrose Ave., BROOKLYN, N. Y.

Mastica is elastic and tenacious, admits of expansion and contraction. Putty becomes hard and brittle. Broken glass more easily removed without breaking of other glass as occurs with hard putty. Lasts longer than putty. Easy to apply.

Special Extension of Sash Offer For Ten Days

NO doubt you think such an extension is rather peculiar after our flat-footed statement that "the offer would last only until October 6th, and not a day longer."

But listen! The last few days' mail brought in a large number of letters "kicking" about the short time limit put on the offer. Practically every one of the letters stated that the offer had not been seen until too late.

We didn't pay so much attention to the first few protests, but when they began to pile up, it became clear enough to us that the offer had either not been advertised broadly enough, or the time limit was too short.

So in all fairness to our protesting friends, we are going to give them—and you—another chance to buy 25, 50 or 100 of our "Sash That Last" at the Special Prices named below.

Now get busy and send your orders!

On Tuesday, October 24th, you will have to pay the long price.

25 for \$1.05 each 50 for \$1.02½ each 100 for \$1.00 each

This is the U-Bar.
The Bar That
Makes U-Bar
Greenhouses the
Famous Green-
houses they Are.

AT a glance that's apparent. The reason is, the U-Bar. To put it another way; you can put a gold plated harness on a heavy draft horse and hitch him to a swell little runabout—but with all his trappings he ambles along draft horse fashion just the same. So by the same token, putting a curved eave on a greenhouse does not make it a U-Bar curved eave house. It only looks something like it from the outside. A U-Bar house is distinctly different and it's the U-Bar that makes it so. Send for the catalog and find out just why.

CANADIAN OFFICE, 10 PHILLIPS PLACE, MONTREAL

LILIUM HARRISII

(The Bermuda Easter Lily)

LET US supply your wants in Lilies this season

We think we can make it to your advantage to do so, as regards both quality and price.

The stock that we offer is not gathered indiscriminately from all kinds of sources, but is grown for us by a few selected growers, whose stocks have been worked up from the true, original stock. In order to ensure the health of the product, the bulbs are not grown on the same field oftener than one season, other crops being grown on the field the preceding year. The ground is thoroughly manured when the previous crop is grown, leaving it in a high state of cultivation, and when the lily bulbs are planted no fresh manure is used, and this prevents disease and ensures a crop of strong, healthy bulbs.

In addition to this, we do not dig our bulbs as early as they are usually dug, but leave them in the ground until they are thoroughly ripened and matured. When *Harrisii* is good, it leaves little to be desired. There is very little, if any, stock obtainable as good as the stock that we are offering. We are supplying only this one grade of selected stock, and when this is disposed of, we shall have no more to offer.

While the quality of the stock that we offer is of the highest, our prices are as low as, or lower than, the prices of those who offer the ordinary stock gathered from indiscriminate sources. We are sure buyers will find our stock very satisfactory, and much more so than the Japan-grown *Longiflorum*, which has badly deteriorated in recent years.

Bear in mind that we were the original introducers of *Harrisii* in Bermuda, and that we have exceptional facilities for obtaining our present supplies. Also take note that the smallest bulbs that we offer are 6-7 inch bulbs, not 5-7 inch, as usually offered.

6-7 inch bulbs, 335 to the case, \$15.00 per case; full thousand lots, \$40.00 per 1,000.

7-9 inch bulbs, 200 to the case, \$16.00 per case; full thousand lots, \$75.00 per 1,000.

9-11 inch bulbs, 100 to the case, \$18.00 per case; full thousand lots, \$175.00 per 1,000.

FERNS

We have an exceptionally nice lot of ferns in the following varieties,—good, bushy, well-grown plants that will please the most critical buyers. Plants have been grown in pots, and are thoroughly well established and nicely finished.

Nephrolepis Bostoniensis and *Piersoni*, 6-in. pots.....\$0.50 each

Nephrolepis Elegantissima, *Piersoni*, *Bostoniensis*, and *Harrisii*, heavy 8-in. plants.....\$1.00 to 1.50 each

Nephrolepis Elegantissima, *Bostoniensis*, and *Harrisii*, heavy 10-in. plants 2.50 each

CHRYSANthemUMS

Having Disposed of Our Surplus Stock Plants of ADVANCE, We Are Now in Position to Take Orders for Young Plants for January or February Delivery of the Three Following:

SMITH'S ADVANCE.—The earliest large flowering white, a fine companion of Golden Glow. Can be had from July onward according to date of planting and selecting buds. Being more dwarf and flowers more double than October Frost, is a decided improvement on that variety. It has been so well received by all purchasers this season, we predict a very heavy demand.

PRICE: \$1.20 per Ten; \$10.00 per Hundred.

UNAKA.—This variety has sustained our last year description. Being a strong grower with perfect stem and foliage, a fine incurved bloom of a pleasing shade of pink and maturing the first week of October, places it foremost among early pinks. In fact there is no other good pink to compete with it at this date.

PRICE: \$1.20 per Ten; \$10.00 per Hundred.

CHRYSOLOREA.—This variety is about 15 days earlier than Col. D. Appleton; is of larger size, stronger stem, not as tall, in color is intermediate between this variety and Major Bonaffon. This with its excellent keeping qualities, places it in the front ranks of the Commercial sorts.

PRICE: \$3.00 per Ten; \$25.00 per Hundred.
PLACE YOUR ORDERS EARLY.

LILIUM HARRISII

(The Bermuda Easter Lily)

LET US supply your wants in Lilies this season

We think we can make it to your advantage to do so, as regards both quality and price.

The stock that we offer is not gathered indiscriminately from all kinds of sources, but is grown for us by a few selected growers, whose stocks have been worked up from the true, original stock. In order to ensure the health of the product, the bulbs are not grown on the same field oftener than one season, other crops being grown on the field the preceding year. The ground is thoroughly manured when the previous crop is grown, leaving it in a high state of cultivation, and when the lily bulbs are planted no fresh manure is used, and this prevents disease and ensures a crop of strong, healthy bulbs.

In addition to this, we do not dig our bulbs as early as they are usually dug, but leave them in the ground until they are thoroughly ripened and matured. When *Harrisii* is good, it leaves little to be desired. There is very little, if any, stock obtainable as good as the stock that we are offering. We are supplying only this one grade of selected stock, and when this is disposed of, we shall have no more to offer.

While the quality of the stock that we offer is of the highest, our prices are as low as, or lower than, the prices of those who offer the ordinary stock gathered from indiscriminate sources. We are sure buyers will find our stock very satisfactory, and much more so than the Japan-grown *Longiflorum*, which has badly deteriorated in recent years.

Bear in mind that we were the original introducers of *Harrisii* in Bermuda, and that we have exceptional facilities for obtaining our present supplies. Also take note that the smallest bulbs that we offer are 6-7 inch bulbs, not 5-7 inch, as usually offered.

6-7 inch bulbs, 335 to the case, \$15.00 per case; full thousand lots, \$40.00 per 1,000.

7-9 inch bulbs, 200 to the case, \$16.00 per case; full thousand lots, \$75.00 per 1,000.

9-11 inch bulbs, 100 to the case, \$18.00 per case; full thousand lots, \$175.00 per 1,000.

FERNS

We have an exceptionally nice lot of ferns in the following varieties,—good, bushy, well-grown plants that will please the most critical buyers. Plants have been grown in pots, and are thoroughly well established and nicely finished.

Nephrolepis Bostoniensis and *Pierstoni*, 6-in. pots.....\$0.50 each

Nephrolepis Elegantissima, *Pierstoni*, *Bostoniensis*, and *Harrisii*, heavy 8-in. plants.....\$1.00 to 1.50 each

Nephrolepis Elegantissima, *Bostoniensis*, and *Harrisii*, heavy 10-in. plants 2.50 each

Fruit and Vegetables under Glass

MADRESFIELD COURT AS A LATE GRAPE

Madresfield Court is a grape of many peculiarities all its own. The shape of bunch and berries, flavor, growth, and its fruiting properties, are all very noticeable. The nature of its origin has been given in varying ways, but Barron's Book on Vines gives it as, "A hybrid raised by the late Mr. Cox, gardener to the Earl of Beauchamp, Madresfield Court, Worcester, England, by crossing Muscat of Alexandria with Black Morocco," and this parentage can be traced in the offspring. It has decidedly a Muscat flavor and shape of berry and is very fruitful, nearly every lateral showing a flower truss. The color of the berry and the way the foliage dies off seem to be the chief identifications of the other parent—Black Morocco. This latter is a late grape and when Madresfield Court was first sent out, it, too, was included as a late variety and grown as such for a time. Some gardeners today include it in a late

advantage of being in danger of getting bruised when watering and syringing. No. 2 is pear Conference, carrying twelve fruits, a big crop for a twelve-inch pot. No. 3 is apple Cox's Orange Pippin, with twelve fruits; never a large apple, but splendid for dessert.

STORING ONIONS

The keeping properties of onions are greatly decreased by improper storing. Having been grown and housed they should receive enough attention to ensure a minimum loss until used. Onions are best laid thinly on shelves made of laths or narrow boards with a division between each so that the air has a chance to get all around, or tied on to strings—"traced," as some term it—and suspended from the roof or ceiling, a job which will often give employment on some wet day. Onions like a nice dry atmosphere where all frost is excluded.

ENDIVE

Endive is very similar to lettuce to cultivate, the blanching only being different. Treat as lettuce until plants are grown, when it will be necessary to darken

No. 1—Pear Pitmaston Duchess

No. 2—Pear Conference

No. 3—Apple Cox's Orange Pippin

house, but it is a mistake to grow it as a "keeper;" in fact it is an early grape and it is more profitable to grow it as such. The chief points which are against it for late work are a great liability to crack if not properly handled, if given too much fire heat the berries will soon shrivel, and after retaining its color for a week or so it will often go back to a reddish black instead of having the deep bloom it should. It has many points in its favor for early work, viz., very easy to grow, always fruitful, easy to set and splendid flavor. When all is considered and the points weighed up, the balance will be in its favor for early instead of (as some still think) for late work. This variety is always very partial to air and where possible should be given more than other vines, especially so when being grown as a late variety, this treatment helping to prevent cracking.

POT FRUIT

The pictures above show three pot trees as grown this season. No. 1 shows Pitmaston Duchess pear carrying seven fine fruits. The crop here is rather low down, owing to a scarcity of flowers, and has the dis-

advantage of being in danger of getting bruised when watering and syringing. An inverted pot can be placed over each, or part of the bench or frames covered over. It is better to do a portion at a time as the plants will keep longer when the leaves contain their usual quantity of chlorophyll.

RHUBARB

Rhubarb intended for forcing can be lifted as soon as the early frosts have cut down the top growth and placed in some exposed position with a little straw around them to keep free sun's rays from the roots. By so doing the later frosts will take more effect and the roots will be in a better condition for early forcing. See that they do not suffer for want of water when applying it do so early in the morning when the sun is shining so that they are dry before night.

Seasonable Notes on Culture of Florists' Stock

ERICAS

Ericas such as *Erica melanthera*, *E. hyemalis* and *E. gracilis*, that are wanted for Christmas, should be run anywhere from 45 to 50 degrees at night, but at no time should this temperature be exceeded, for they resent any extremes such as are used to force other plants into flower. In ventilating beware of all piercing winds that we are bound to have at this changeable part of the year, but always try to keep the atmosphere from becoming in any way stuffy or stagnant, a condition which is very injurious to this class of plants. Keep your air in a buoyant condition and you will greatly assist them in warding off an attack of mildew. When this disease shows itself on any plant remove the plant at once as it is very contagious, and blow sulphur through and over the plants until the attack is checked.

LILIES FOR THE HOLIDAYS

Plants of *Lilium Harrisii* that are wanted for the Christmas trade should be pushed from now on. Where you have lilies that have their pots well filled with roots and are in a healthy condition, you can force them hard, say anywhere from 65 to 70 degrees at night, with ten to fifteen degrees higher during the daytime with sunshine. Give them a bench where they will be as near the glass as possible. Lilies delight in atmospheric moisture, so it is advisable to thoroughly damp down your house twice a day, especially in bright weather, so as to prevent a harsh and dry atmosphere; also give them free syringing overhead on all good days. To enlarge the flowers and give color to the foliage, apply liquid manure twice a week. To keep the aphids from getting a hold fumigate once a week. Now that days are growing shorter, and with the solar heat on the decline, you should be able to count the buds the first week in November, if you want to be sure of your lilies being on time for the holidays. It is a very easy matter to hold them back at this season of the year.

POINSETTIAS

When the bracts begin to form they will need an advance in the temperature, say to about 60 degrees at night. These plants soon impoverish the soil, so just as soon as the bracts can be seen give them manure water twice a week, but only in moderately weak doses, for if made too strong it will cause them to lose their foliage. Keep them nicely tied up. Pay attention to watering now, for an even amount of moisture at the roots is necessary if you want good foliage and intensity of color in the bracts. Where you are troubled with mealy bugs, be careful not to apply quite a strong force of water in dislodge them, for this is the only means to keep down this pest. In order to have cut poinsettias in a presentable shape for decorative purposes, they should, immediately after they are cut, be immersed for about an inch of the ends in boiling water for a minute or so; this does not prevent the absorption of water by the stems, and the foliage as well as the bracts are consequently preserved fresh.

SWEET PEAS

To grow sweet peas successfully, ventilation is one of the first points to be observed. Now that the cool nights have arrived, run a little heat running through the house and at the same time keep the ventilators open a little at the top; this will give them a cool dry

atmosphere which is a good preventive for the dropping of buds. To ensure a free healthy growth it is always better during spells of rainy or misty weather to have a little heat and ventilation at the same time. Don't run your sweet peas too high, which only leaves them weakened in constitution, from which they do not easily recover. Keep them anywhere from 45 to 50 degrees at night and during sunny days 65 to 70, which will allow them to develop gradually in their proper temperature. Keep them well supported from time to time so as to have nice straight growth later on. As the days grow shorter the utmost attention should be paid to watering. While they always like plenty of moisture at the roots they will not stand a continual over-moist condition at the roots, so let them dry out once in a while. Make a sowing now in 4-inch pots; these will bring you a crop in February which will last for about three months if cared for properly.

WINTERING CANNAS AND DAHLIAS

When storing these roots away you cannot use too much care in having the different varieties labeled and placed by themselves, so when you need them again you will know just what they are and where they are. Leave all the soil that will cling to roots of cannas and they will keep in a much better condition for it. They will keep fine on boards beneath a carnation bench. When lifting dahlia roots choose as dry a day as possible and shake most of the soil off, then turn them upside down to allow any water to run off the crowns before storing them away. They will keep in a cool, dry cellar that is secure from frost.

John J. M. Farrell

Mr. Farrell's next notes will be on the following: Care of Roses; Cymbidiums; Callas; Ferns for the Table; Freesias for Christmas; Lifting Shrubs for Forcing; Primulas for the Holidays.

Cypripedium x Mabeliae

This beautiful cypripedium is a hybrid between *C. Rothschildianum* and *C. superbians* and is fairly intermediate between those two species. The ground color is white, suffused with greenish yellow towards the center. The many spots on the petals and the lines on the dorsal sepal are deep purple, and the lip is suffused with dull purple on a pale green ground. As to size and shape of the flowers, the picture speaks for itself being just a trifle under life size. The flowers are carried on a stout, hairy scape a foot or more in length and last a long time in perfection. The leaves are broad, shiny, bright green beautifully tessalated with a darker shade of green. It is a free grower and well worth a place in any collection of orchids.

This fine hybrid was first raised and exhibited by W. R. Lee (England) in 1894. It has since been raised in several other places and has been exhibited under at least seven or eight different names; *Cypr. W. R. Lee* and *C. Lord Derby* are perhaps the two most common names for it. *Cypripedium Mabelianum*, *C. Massaianum*, *C. Andronicus*, *C. Mrs. Harry Smith*, *C. Rothshildsiano*—*superbiens* are other names for the same hybrid.

M. J. O'Keefe

Naugatuck, Conn.

For Closer Relations Between Commercial Horticulture and Scientific Institutions

A Communication from Professor Charles S. Sargent to the Horticultural Club of Boston.

Mr. John Farquhar, President, Horticultural Club of Boston:

My Dear Mr. Farquhar: The formation in Boston of a Horticultural Club, which is intended to be National in its membership and in its field of operation, is a matter of public importance and public interest. For the first time in this country it affords opportunity for concentration and effective effort in several directions. To speak only of one of the benefits to the country, which the community has a right to expect from such an organization as you propose, it should be able to bring Commercial Horticulture in closer touch with Science.

In most European countries are nurserymen and seedsmen whose names are known and respected by everyone who cultivates plants. These firms, for generations sometimes, have kept themselves in constant communication with the great National Scientific Gardens. They have often rendered these Gardens important services, and through their enterprise, intelligence and forethought, have done much for the world, and made themselves rich and powerful. Some of the most important botanical discoveries have been made by European nurserymen, who with rare sagacity and business good sense have hunted the world over for new plants. The remarkable increase of sugar in the beet and the greater product of the wheat field are due to the labor of a Paris firm working patiently from generation to generation along scientific lines. Such firms are looking everywhere for improvement and novelty. The principle which underlies their effort is not to supply the public with cheap and inferior material, but to find or create better material, and then teach the public to appreciate and buy it.

In this country, however, Commercial Horticulture is slow to take advantage of its opportunities for its own improvement and that of the public. To illustrate this, I need only refer to the Arnold Arboretum. This is a museum of trees and shrubs and a station for increasing the knowledge of such plants, by study, experiment and explorations. It has now for many years been active in the botanical exploration of North America, and more recently it has worked in Japan, Korea, Manchuria, eastern Siberia and western China. It contains the largest collection of trees and shrubs in North America, and few European collections are richer. It is well known in Europe: the heads or the principal officers of some of the National Gardens have found it worth their while to cross the Atlantic to visit it: it is in constant correspondence with the principal nurseries of Europe, to which the Arboretum is greatly indebted. Every tree lover, professional or amateur, who comes to America soon turns his steps towards Forest Hills. To American Commercial Horticulture, the Arnold Arbor-

etum however, is hardly more than a name. Occasionally an American nurseryman passes an hour there, generally in the middle of a hot summer day, and then goes on his way. I do not believe there is a single one of them who knows the collection or its richness in commercial possibilities. What is true of American nurserymen is true of many American park superintendents, and of most American landscape gardeners. This is a cause for general and national regret. The Arboretum fails of its duty and of its purpose, if it fails to make known to the country generally the value contained in its collection. This can only be done by nurserymen. A plant taken up by the trade in the course of a few years becomes known to thousands of people in different parts of the country, who might never have the opportunity to see the Arboretum.

I have realized for several years the necessity of closer relation between the Arboretum and the important nurserymen of the country, but our efforts to bring this about have not met with much success. A few years ago, at his request, we sent to a prominent American nurseryman a collection of rare plants, selected by himself, with the understanding that he was to propagate them and put them on the market. A few months later I found that he had sold the collection as he had received it, to one of his customers. To another firm even better known than the last, the Arboretum once sent a collection of plants from northern China, which were quite unknown at that time. A few years later, I found them in the row where they had first been planted, crowded together, choked by grass and ruined. Some of the same plants sent at the same time to European nurserymen, judging by the way they have been advertised, have produced considerable sums of money.

Hardly a week passes that does not bring letters to the Arboretum asking where plants seen there can be bought. In nine cases out of ten, we are obliged to send in reply the name of a European nurseryman. This usually means that the would-be purchaser goes without his plant, for it is not easy to import a single plant, or even a half-dozen, and to persons not accustomed to doing business in Europe it appears more difficult than it really is.

Here then seems to be one field of usefulness, that the Horticultural Club can properly enter, the bringing about of a better appreciation than now exists, of the necessity of a closer relation between American Commercial Horticulture and the Scientific Gardens and Experiment Stations of the country, of which the Arnold Arboretum is only one, and the most limited of them all in scope, as it deals with only two classes of plants.

Wishing you every success in your new efforts for the advancement of Horticulture, I am,

Very truly yours,

C. S. Sargent

Greenhouses Building or Contemplated.	581

New England is the date for the opening of the New England Fruit and Vegetable Show, to be held at the Horticultural Hall, Boston, on October 21st. The show will be a most interesting and profitable one, and will be a great help to the horticulturists of the New England States. The show will be a most interesting and profitable one, and will be a great help to the horticulturists of the New England States. The show will be a most interesting and profitable one, and will be a great help to the horticulturists of the New England States.

Boston Chamber of Commerce enlisted, something broadly practical is sure to come out of the present agitation. The Industrial and Educational Exposition at Mechanics' Building, of which this fruit display at Horticultural Hall is only one department, is the largest affair of its kind ever held in New England. If it results, as hoped, in diverting to local development some of the capital and brains which New England men have ever been ready to lavish on remote enterprises, this stupendous undertaking will have well-repaid the work of its promoters.

Plant bulbs early

Comparatively few persons, even amongst horticulturists, realize that it is unnatural for bulbous and tuberous-rooted plants to be out of the ground at all. Under natural conditions, hyacinths, tulips, narcissi, crocus, scillas, snowdrops and other such plants, begin to make new roots and upward growth very early in the autumn. Even the latest flowering tulips, the Darwins, which may have remained in the ground since last spring will be found to have made roots several inches long and shoots from the top of the bulbs an inch or more in length. Such bulbs will bloom earlier and produce stronger flowers than freshly imported bulbs of the same varieties planted now. It is better that all Holland bulbs be planted as soon as possible after arrival in this country. When planted early they immediately begin to send out roots, and if an abundance of these are developed before cold weather the bulbs are in better condition to survive the winter and will produce stronger blooms in proportion to the greater amount of root growth. Crocus corms are more affected by being kept out of the ground than are most of the real bulbs. They deteriorate very rapidly when kept in a dry state. Not only will the purchaser of bulbs be benefited by early planting, but the dealer will gain materially by getting this stock off his hands at the proper season.

Wise counsel

In our editorial observations last week we took occasion to call our readers' attention to the situation of large opportunity so admirably presented by Mr. Farquhar in his address at New York on the Horticultural Outlook. It is our privilege to place in the hands of the thoughtful horticulturists of the country, in this issue, another notable contribution to the fund of wise counsel to which, at the present juncture, we believe the commercial horticulturist should give heed—this time from the pen of Professor Charles S. Sargent. "To see ourselves as others see us" is always helpful and when Prof. Sargent calls attention to the "enterprise, intelligence and forethought" of foreign nurserymen and places in comparison the slowness hitherto of the American trade and their apparent indifference to the profit and honor which are within their reach it behooves us to give more than passing thought to the admonition. It is conceded, of course, that general conditions in this country are vastly different from those prevailing abroad and that the actual state of the nursery business has not been such as to encourage such enterprise in the finer fields of horticultural development. But a servant just now sees the opening of a new era and the men who desire to take advantage of it and to better themselves by doing so, rather than to wait and see what the future may bring. We certainly hope that Professor Sargent's plea may have the effect of awakening a deeper interest in these things among the commercial horticulturists of our country.

Obituary

J. A. McKee.

J. A. McKee, nurseryman, of King's Mountain, Ky., died recently at the age of 84. One son and a daughter survive him.

Bert Anderson.

Bert Anderson, formerly a florist at Greeley, Colo., died in Chicago on September 23, and was buried from the home of his sister in Davenport.

Mrs. Letitia Peel.

Mrs. Letitia Peel, who for twenty-six years has conducted a florist establishment on old Lawrence street, Flushing, N. Y., died on October 12, aged 78 years.

Mrs. Mary Therese Russell.

Mrs. Mary Therese Russell, widow of Thos. L. Russell, died on Oct. 14 at her residence, 132 Seventh avenue, Brooklyn, N. Y., aged 47 years. She was for some years a florist in South Brooklyn and her late husband was a traveling representative for the Florists' Exchange for some years, writing over the name of Peripatetic. Mrs. Russell was born in Ireland. Two sons and one daughter survive her.

Patrick Kelly.

Patrick Kelly, 60, for years in business as a gardner on the East Side, Providence, R. I., was found dead in bed at the home of James W. Collins, 11 Howell street, on October 16. The bedroom was filled with gas, pouring from open jet, but a wide-open window at the head of the bed indicated that death was due to accident. It was also found the gascock was loose. Kelly was last seen by members of the Collins family on Saturday night. He had been employed by numerous residents of College Hill.

Thorwald Jensen.

This well-known florist died at his home, Mamaroneck, N. Y., on October 9, aged 67 years. Interment was at Rye Cemetery, October 11. Mr. Jensen was a very successful carnation grower for the New York market, especially in the days when Lady Emma and Portia were in their prime of popularity as scarlet varieties. He grew them in large quantities and high qualities. He has been located in Mamaroneck for about thirty years. Mr. Jensen was a companionable gentleman and leaves a large number of friends to mourn his loss.

Nanette Huebner.

Nanette Huebner, niece of Mrs. Frank Ben, Chicago, with whom she had made her home for four years, died suddenly, September 29th, after an illness of but a few hours. She was born in Beyreuth, Germany, 20 years ago and came to this country to make her home with and assist Mr. and Mrs. Ben in the greenhouses and had made many friends among the young people. The funeral was held from the residence, October 2nd, six young ladies acting as pallbearers. Her death occurred four years from the day she arrived. Interment was in Montrose Cemetery.

The accompanying picture shows the two roses sent out by Peter Henderson & Co. in 1910—Silver Moon and Dr. Van Fleet—growing in Mattapoisett, Mass., at the residence of Miss Alice Stackpole. They were purchased on the strength of HORTICULTURE'S description of them and planted in May, 1910. The photograph was taken July 3, 1911. Miss Stackpole, in an interesting letter concerning these roses, writes as follows:

The first year their canes were ten or twelve feet long, and I wrote to Henderson to ask if they were really hardy. They answered that they had not been tested north of New Jersey, so I earthed them up

eight inches and gave the canes a light covering of straw. Very little of the wood was lost. One plant of Dr. Van Fleet I left in an exposed place and only put dressing around the roots. The wood was killed back so far that I shall protect it this winter. A neighbor has both these roses on a stone wall and they went through the winter without protection.

The Silver Moon is the nearest rose Dr. Van Fleet is on the two centre pillars, and the rose at the farthest corner is Ard's Pillar, and all have now reached the upper story. These roses are not only lovely in bloom, but have beautiful glossy foliage. Silver Moon is quite four inches across, and Dr. Van Fleet, while not very full, is an exquisite shade of pink and lovely in the house.

It is a pleasure to find roses that are quite all they are described, and I hope Christine Wright will turn out as well

Robert MacMillen.

Robert MacMillen died at his home in Greenwich, Conn., on October 9, aged 51 years. Mr. MacMillen took sick June 2, but recovered so far as to go to Babylon, Long Island, for a few weeks, but after his return he seemed to grow weaker and the end came

ROBERT MACMILLEN

very peacefully, Oct. 9th. He had an abscess on the brain which was hopeless from the first. He was buried in Putnam Cemetery, Greenwich. The funeral services were from his late residence, 60 Arch St., Thursday, Oct. 12. He is survived by his wife. Mr. MacMillen was a native of Scotland,

coming to this country and reaching Boston when in his 22nd year. When we first knew him a quarter century ago, he was a grower of miscellaneous stock in Pearl River, New York, where he had a small range of greenhouses. Four years ago he started a retail flower business in Greenwich and has been doing well. He was a very skillful and tasty decorator and, as a man, was respected and beloved by a large circle of friends in the business.

Charles A. Fox.

It is with deep regret that we have to publish the news of the death of Charles A. Fox, one of Baltimore's oldest florists, who passed away on Saturday last at his late residence, 1202 Bolton street. Death was caused by the infirmities of old age. Mr. Fox having seen eighty milestones pass him on the way. He had been located at Bolton and Dolphin streets for the past fifty years or more and was one of the foremost of the florists and ornamental horticulturists of the city. His widow, Mrs. Eliza Fox, two sons, William J. and Charles A. Fox Jr., and three daughters, Margaret, Jane and Nellie Fox, survive him. He was a lifelong member of the Church of the Immaculate Conception and from here he was buried on Tuesday last in the Bonita Park Cemetery. He leaves behind him a host of saddened friends for Mr. Fox was ever well-liked and his passing away is a matter of deep regret.

CLUBS AND SOCIETIES

NEW JERSEY FLORICULTURAL SOCIETY.

The New Jersey Floricultural Society held their sixth annual Dahlia Show in Lindsley Hall, Orange, N. J., Friday afternoon and evening, October 13th. On account of the dahlias being so late in flowering this year, there were not so many entries as usual, but the quality of the exhibits was excellent and the show was well patronized by the public. Lager & Hurrell, Summit, Joseph A. Manda, West Orange, and Thos. Jones, Short Hills, put fine displays of orchids, Joseph A. Manda receiving first-class certificates; Lager & Hurrell, cultural certificate. William Tricker, Arlington, N. J., showed a fine collection of outdoor roses, for which he received a first-class certificate. He also showed *Aconitum Fischeri* and *Actea japonica*, and was awarded cultural certificate.

Walter M. Gray, Maplewood, N. J., carried off the gold medal offered by Lord & Burnham Co. for the best 60 dahlias, Show, Decorative and Cactus, 20 flowers of each. He was also first for 12 Show, 12 Decorative, and 12 Cactus, each in three varieties, six pink Cactus in two varieties, and one Decorative. Charles Hathaway, Max Schneider, gardener, was first for six maroon; Manton B. Metcalf, Geo. Wraight, gardener, second; A. B. Jenkins, Fritz Berglund, gardener, third. M. B. Metcalf, first for six white Show; Charles Hathaway, second. M. B. Metcalf, first for six pink Show and six red Decorative. A. B. Jenkins, first for six red Show and for 50 Single. Thomas Edison, George B. Wilson, gardener, first for six Cactus. Mrs. Peirson, Charles Ashmead, gardener, first for seedling dahlias not yet disseminated.

Certificates of merit were awarded to A. C. Von Gaasbeck for dahlias; Mrs. Wm. Barr, Emuel Pannucka, gardener, for seedling dahlias; S. M. & A. Colgate, Wm. Reid, gardener, for *Begonia Gloire de Lorraine*, Killarney roses, dahlias, roses; Charles Hathaway, for chrysanthemums; Wm. Runkle, D. Kindsgrab, gardener, for dahlias and apples; Walter M. Gray, for dahlias; A. B. Jenkins, for orchid plants, and George M. Wardwell, for dahlias. Certificate of culture to A. C. Von Gaasbeck, John Derven, gardener, for Killarney and Bridesmaid roses.

In the monthly competition for points the following awards were made. Class A: S. M. & A. Colgate, vase carnations, 87; roses, 82; *Oncidium varicosum*, 93. Lager & Hurrell, *Laelio-Cattleya luminosa*, 94. Thos. Jones, *Cattleya labiata*, 92. Class B: A. B. Jenkins, vase roses, 87. Charles Hathaway, *celosias*, 85.

The judges were Arthur T. Caparn, Peter Duff, and James Carswell.

The Society is making arrangements for its annual Chrysanthemum Show to be held on Friday afternoon and evening, November 10th, at No. 240 Main street. The silver cup offered by John R. LeCount has been put up for the best display of orchids, space not to exceed 25 square feet, second prize to be given by friends of the Society. Three prizes are offered by the Society for the best 12 blooms of chrysanthemums, six varieties, two

blooms of each. Two special prizes have also been donated by Elmer D. Smith, Adrian, Mich., for the best vase of six novelty chrysanthemums of 1911.

WILLIAM REID, Sec'y.

WORCESTER COUNTY HORTICULTURAL SOCIETY.

At the annual fall exhibit of the Worcester County Horticultural Society in Horticultural Hall, Worcester, Mass., October 12, there was an excellent showing of fruit, also a display of hardy shrubs by William Anderson, gardener for Bayard Thayer of Lancaster and stove plants from George McWilliam, gardener for G. Marston Whitin of Whitinsville. These latter were arranged in a mound effect in the center of the hall, and made a pleasing contrast to the many colors of the fruit, arranged on the surrounding tables.

The platform of the hall was banked with palms from the H. F. A. Lange greenhouse.

The annual dinner at 12.30 o'clock was followed by a short program of speeches. President Edward W. Breed of Clinton presided, and spoke of the loss to the society in the death of Adin A. Hixon, who served for over 20 years as secretary and treasurer, and the company gave three minutes' silence in his memory.

J. Lewis Ellsworth, secretary of the state board of agriculture, spoke briefly of apple growing methods in the west.

W. D. Ross announced the awards on ensilage corn competition for which he had offered a premium of \$50 in gold. The award was won by Mrs. H. W. Harris of Adrian, Mich., who produced over 68 tons on an acre of ground.

Other speakers were J. K. Greene and Dr. Geo. E. Francis, and a demonstration of apple packing was given by J. B. Castner of Hood River, Ore.

CINCINNATI FLORISTS' SOCIETY.

The October meeting of the Cincinnati Florists' Society was well attended. The executive committee of the flower show reported that J. M. McCullough's Sons Co., J. Chas. McCullough and R. Witterstaetter had donated silver cups for prizes. Messrs. Phil. Breitmeyer, Otto Koenig and I. Bertermann have consented to act as judges. Wm. Sunderbruch, Jr., Chas. Witterstaetter, Jos. Beran, Emmet Suttmiller, Ed Bossmeyer and Harry Sunderhaus were, under a suspension of the rules, elected to membership by acclamation. A committee consisting of C. E. Critchell, P. J. Olinger and C. H. Hoffmeister was appointed to submit plans for entertaining visiting florists.

The invitation of A. Ostendarp and A. C. Huhman, Jr., of the Cincinnati Cut Flower Exchange, to hold the meeting on Saturday, November 11th, at their place of business was accepted. A special meeting will be held at the club rooms on October 23rd.

E. G. Hill of Richmond, Ind., was on hand. He showed a vase of his yellow rose Sunburst, that gained the admiration of all by its fine points. Mr. Hill also talked entertainingly of European shows, especially in "merrie olde England."

GARDENERS' AND FLORISTS' CLUB OF BOSTON.

This club held its second meeting of the season on Tuesday evening, the 17th and there was a large attendance of members. After the minutes of the last meeting had been approved J. K. M. L. Farquhar made some very interesting remarks respecting the closer affiliation of the club with Amherst College and reported what the committee had done with regard to the suggestion from Prof. White that the committee spend three days in inspecting the greenhouses and other work. Mr. Farquhar thought that a sub-committee of three members should be appointed and it would be possible for them to see and report upon all there was to be seen at Amherst in a much shorter space of time. It was resolved that further time be allowed. Three new members were elected, and among the visitors was Mr. E. O. Orpet, Lake Forest, Ill.

The subject for the evening was bulbs, Wm. Patterson, Wollaston, Mass., being the first speaker. He emphasized the value of obtaining good hard bulbs and said that for pots and boxes the best compost consisted of two-thirds loam and one-third well-rotted manure. It is important to get the bulbs potted as soon as possible after arrival and not allow them to become hard frozen while in the open. The medium growing varieties, he said, were preferable to late growing ones for market work.

Robert Cameron read a very interesting paper on Bulbs for Bedding Purposes and referred specially to some of the more beautiful and uncommon sorts. He spoke highly of the naturalizing of bulbs which has been so successfully practiced in the park system of Boston and hoped this would be the means of inducing others to do likewise. Mr. Cameron mentioned the best varieties in each section but he referred particularly to the new Poetaz varieties and fully emphasized their value. This speaker made special mention of the fact that bulbs were generally kept much too dry in American seed stores and it was necessary to go to Europe to get the best. John Duguid of Natick, gave a talk on Planting Bulbs in Grass, etc., giving in detail the best methods of procedure.

Exhibits were not numerous but very noticeable were R. & J. Farquhar & Co.'s displays of *Viola cornuta* purplea, a fine rich purple variety and four vases of roses—viz. Radiance, Lady Hillingdon, Prince de Bulgarie and Mrs. Aaron Ward. From S. J. Goddard, Framingham, came carnations, the new White Wonder being very promising. Wm. Downs showed a fine branching specimen of *Celosia Thomsonii pyramidalis*, evidently a good type. Chrysanthemums in variety came from W. W. Edgar, Waverley, and from James Wheeler a fine vase of Enchantress carnation.

ST. LOUIS FLORISTS' CLUB.

The St. Louis Florist Club held a very interesting meeting on Thursday afternoon, Oct. 12th, in Odd Fellows' Hall. Vice-President Vennemann opened the meeting and Ex-President Fillmore at once proceeded to install President-Elect Robert J. Windler, who

at once took charge and handled the meeting like an old timer. After the opening preliminaries Secretary Beneke read a letter from the florists of San Francisco, Cal., saying that they were organizing a club and asking for a copy of the by-laws, which will be sent.

The next meeting comes in flower show week when the chrysanthemum society meets here. It was decided to entertain the visitors with a banquet. It was also decided to have an essay or discussion at each meeting hereafter. Dave Geddes then gave an interesting account of the recent Chicago trip and said the visitors were royally treated and all had a good time.

The queries from the question box brought, as usual, good and interesting questions which took up the greater part of the afternoon. After adjournment President Windler invited the members to a little spread at Lippi's where the balance of the evening was spent.

Next meeting Thursday afternoon, November 9th, at 2 o'clock.

NASSAU COUNTY HORTICULTURAL SOCIETY.

The annual Dahlia Show of the Nassau County Horticultural Society was held in connection with the October meeting in Pembroke Hall on Wednesday afternoon, October 11. The awards were as follows:

Dracer cup for collection of dahlias—Won by Mrs. E. M. Townsend, gard. James Duthie; 2nd, Mrs. H. J. Bucknell, gard. Geo. Rarton.

Stern Cup for collection 25 varieties, Mrs. E. M. Townsend; 2nd, James Kirby. Twelve Cactus dahlias, 12 vars., 1st, James Kirby, 2nd, Mrs. E. M. Townsend. Twelve Decorative, 12 vars., 1st, Mrs. H. J. Bucknell.

Twelve Single, 1st, Parker D. Haudy, gard. J. O'Brien; 2nd, Mrs. E. M. Townsend.

Twelve Cactus, long stems, 1st, James Kirby; 2nd, Mrs. E. M. Townsend.

Twelve Decorative, 1 var., 1st, Mrs. E. M. Townsend; 2nd, Mrs. H. J. Bucknell.

Peony Flowered, 6 vars., 1st, Mrs. H. J. Bucknell; 2nd, Mrs. E. M. Townsend.

Six Cactus, 1st, Emmett Queen, gard. Geo. Ashworth; 2nd, Mrs. D. F. Bush, gard. Ernest Westlake.

Twelve Mixed, 1st, Mrs. H. L. Pratt, gard. H. Gaut; 2nd, Mrs. F. S. Smithers, gard. V. Cleres.

Vase Pompons, 1st, J. Ingram; 2nd, Mrs. H. L. Pratt.

Vase Decorative, 1st, Mrs. D. F. Bush.

Vase cosmos, 1st, E. A. Reidenbach.

Vase cosmos, pink, 1st, Mrs. H. L. Pratt.

Vase gladiolus, 1st, Mrs. F. S. Smithers; 2nd, E. A. Reidenbach.

Honorable mention to J. O'Brien for seedling dahlias; A. Walker for vase of dahlias; James Duthie, vase of dahlias; Julius Roehrs, collection of orchids; Wm. Fitting, collection of vegetables.

The regular monthly meeting was held at 7 P. M.

The judges appointed for the monthly exhibits were Messrs. J. W. Everett, J. McDonald, P. Reul and their decisions were as follows: Celery—first, Jos. Robinson; cabbage—first, F. Petroccia; cosmos, F. Petroccia.

Julius Roehrs Co. offered \$10 for competition at the fall show and a letter was read from Vaughan's Seed Store offering a prize for the same show.

The president took occasion to present James Duthie with the silver cups he so decisively won with two splendid collections of dahlias.

The Society's prize in November will be for chrysanthemums, three white, three pink, three yellow.

E. WESTLAKE, Rec. Sec.

AMERICAN ROSE SOCIETY.

Arrangement has been made at Detroit for the joint exhibition in January, 1912, to be held in Wayne Pavilion adjoining the Michigan Central Union Station where trains from New York, Boston, Philadelphia, Pittsburgh, Washington, Cincinnati, Chicago, etc., come in. The hall is spacious, so arranged that ventilation is readily adjusted.

The effort will be to make this a great popular show. The trolley lines come to the corner from all the surrounding country. The effort is being made to put out a prize list of value. The American Rose Society asks of all its friends support for the prize list.

The Annual Bulletin for 1912 will be mailed by Christmas and contains much matter of interest. The Carnation Society exhibits in the same hall at the same time.

We would be glad to hear from any and all intending exhibitors at an early date. The Detroit people will do all possible to aid the exhibition.

BENJAMIN HAMMOND, Sec'y.
Fishkill-on-Hudson, N. Y.

DETROIT PREPARATIONS.

Representatives of the American Rose and Carnation Societies have been here inspecting local halls, and the Wayne Pavilion, the largest, best-located and in every respect the most desirable was selected for the January convention. At a special meeting a committee consisting of Messrs. Phil. Breitmeyer, Alb. Pochelon, M. Bloy, Thomas Brown and Wm. Dilger were appointed to form the necessary sub-committees and select their membership from among the club members. On the following Saturday evening tentative division of committees were made as follows, subject to change, if necessary:

Managers—Dilger, Wells, Pautke.

Finance—Breitmeyer, Holznagle, Flowerday, Taepke, B. Schroeter, Geo. Brown, Watson.

Publicity—Sullivan, Feters, Thos. Brown, H. Schroeter, Maynard.

Transportation—Sylvester, Miesel, Jr., Asman, Charvat, Becker, Rusch, Pickworth, Patterson, Plumb, Smith, Stevens.

Decoration—Pochelon, Danzer, Walling, Davidson, Tossy, Nall, DeCaterat, Hermann, Boehm, Iverson, Wendt, Deinzer, Gowanlock, Warnke, Smith, Mitchell, M. Sullivan, Rowland.

Entertainment—Thos. Brown, Rahaley, Walt. Taepke, Dunn, Hunter, Heilscher, Stahelin, Boeslager, Unger, Beard, Scribner, Stock, Jean, Miller, Seligman, Cairns.

There will be nothing too good for our visitors, and no detail will be overlooked to achieve both fullest result from the business point of a convention and all the comforts and pleasures possible. FRANK DANZER.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

Department of Registration.

As no objections have been filed, public notice is hereby given that the registration of the begonia, "Feastii Bunchii" by Lloyd C. Bunch of Fredonia, Kansas, becomes complete.

H. B. DORNER, Secretary.
October 12, 1911.

NATIONAL ASSOCIATION OF GARDENERS.

A meeting of the executive committee of the National Association of Gardeners was held in Horticultural Hall, Philadelphia, on Tuesday, the 10th inst., to complete arrangements for the forthcoming convention at Madison, N. J., on Friday, October 27th.

The convention will be called to order at 2 o'clock in the James Building. As this is the first convention since the association has been incorporated important business will come up, principally the adoption of a new set of by-laws to conform with the charter. An election of officers will also occur, and several subjects will be brought up looking to the future welfare of this organization, which has been making rapid strides within the past year.

It is expected that J. K. M. L. Farquhar, of Boston, will address the convention on the gardeners' opportunities in this country; and J. Otto Thilow, of Philadelphia, has also promised to talk. Charles H. Totty of Madison, who has just been appointed chairman of the National Flower Show Committee will talk to the gardeners to urge them to lose no time in preparing for the next national show, which it is expected and hoped will be held in New York City in March, 1913.

A large attendance is looked for, and as the annual show of the Morris County Gardeners' and Florists' Society occurs in Madison at the same time and place, an additional feature of interest is added to bring many gardeners together.

HORTICULTURAL SOCIETY OF NEW YORK.

The annual fall exhibition will be held in the American Museum of Natural History, November 3rd to 7th. A premium list carrying about \$1,500 has been prepared. A little over one-third of this amount is allotted to the chrysanthemum, covering bush, standard, grafted and single-stem plants, and cut flowers. Orchids have been provided for by many prizes for collections, novelties, individual plants in bloom and cut flowers. Roses, carnations, fruits and vegetables, and foliage and decorative plants are included in the premiums.

Prizes are offered for decorations and floral pieces, and it is hoped that those who make a business of such decorative work will take advantage of the opportunities offered at this exhibition. Thousands of people who appreciate to the full this class of work visit the exhibition.

The American Museum of Natural History, not only one of the finest public buildings in New York City but also in the world, is centrally located and readily accessible by surface cars, elevated and subway. The spacious halls are admirably adapted to the exhibition of plants and flowers and provide ample opportunity for the proper display of specimen plants; if such are crowded together much of the beauty of individual specimens is lost.

Schedules will be sent upon application to the secretary, George V. Nash, New York Botanical Garden, Bronx Park, New York City.

NATIONAL CHRYSANTHEMUM SOCIETY.

It is indicative of the severity of the summer heat in England this year, a rather uncommon occurrence, that at the last floral meeting of the National Chrysanthemum Society there was not a small flower staged for adjudication. On October 4th and 5th the society's first show of the season was held at the Crystal Palace, Sydenham—the show devoted to the early-flowering varieties—and here again we had abundant evidence of the effect of an almost tropical summer upon our popular autumn flower. The great trade groups were lacking in their usual attractiveness, a feature not to be wondered at when we say that after the hot season was over and only three days before the show a biting frost came to make the disaster complete.

In the great miscellaneous groups so grandly contributed by the trade and which always do so much for the general effect of the show we noticed particularly one from Norman Davis. For effect it was unique and unsurpassed, the greatest taste being displayed in its arrangement. Verbal description would be of little avail. In the back row were some fine sheafs of brightly colored Michaelmas daisies at intervals arranged in tall supports. Here and there palms lent variety. The front row was edged with choice greenery. Along the middle were some vases of handsome big blooms set up with a delicate arrangement of autumn foliage. At the right and left-hand sides choice little lots of earlies and decoratives. The piece de resistance of the entire composition was unquestionably a magnificent stand of fifteen colossal blooms of White Queen, set up with a taste seldom equalled. Here and there we notice charming little lots of earlies of medium size, while to give emphatic expression there were some fine vases of the "Big Brigade," such as Tom Edwards, Norman Davis, D. B. Crane, Col. Converse, David Ingamells, etc. A gold medal was awarded.

H. J. Jones' lot was A1. In big Japs White Queen reigned supreme, there being three grand lots in a dainty setting of an immense collection of brightly colored Michaelmas daisies. Another gold medal went to this old friend of the society.

William Wells was there too in full force. A fine long table display of undoubted merit brought him the award of the society's gold medal. Big Jap blooms, singles, earlies, decoratives, phlox, and Aster amellus, etc., made a fine show. We cannot name the varieties—their name was legion—but White Queen again was of immense size and as with the other exhibitors is evidently a rare "doer."

Frank Brazier had a large silver gilt medal for Michaelmas daisies, a prettily arranged group. A large silver medal was awarded to Cragg, Harrison & Cragg for a nice collection of early decoratives.

J. Carter & Co. had a silver gilt medal for a very excellent collection of dahlias set up upon a circular stand. Kochias and asters formed the lowest outer edge, then came cactus dahlias, surmounted with vases of peony dahlias. On the ground floor the exhibit was edged with green moss. A silver

medal was awarded to J. B. Riding for a collection of the collarette dahlias, mostly French. Arthur Edwards staged table and room decorations and in the floral art classes there were many nice lots in baskets, vases, eperques, and stands of various kinds. In the dinner table decorations were about twelve competitors.

C. HARMAN PAYNE.

London.

WESTCHESTER AND FAIRFIELD HORTICULTURAL SOCIETY.

Regular meeting held in Royal Arcanum Hall, Stamford, Conn., October 13, 100 members being present, eight new members elected and five applications for membership. A good record? There was an interesting discussion on the preventive of rust on celery and the beauty and value of berried shrubs at this time of year. The first annual exhibition will be held in Stamford, Conn., November 3rd and 4th. Members are enthusiastic and indications all point to a large and successful exhibition. President Stuart urged intending exhibitors to try to be prompt in staging exhibits. The final schedule and tickets are ready and can be procured by applying to the secretary.

The judges reported as follows on exhibits:

Cultural certificates to James Stuart for nerines and Alex. Geddes for seedling carnation. Certificate of merit to A. Whitlaw for *haemanthus*. Vote of thanks to Robt. Williamson for collection of berried shrubs, P. W. Popp for chrysanthemums, J. T. Burns for apples, Clapboard Hill Farm for celery and apples.

J. B. McARDLE, Sec'y.

NATIONAL FLOWER SHOW COMMITTEE.

The National Flower Show Committee appointed by President George Asmus held a meeting in New York at the office of Traendly & Schenck last Monday. There were present: Messrs. C. H. Totty, chairman; W. P. Craig, W. A. Manda and Thomas Roland. Messrs. Valentine and Rudd were absent. The session was devoted to a general discussion of the ways and means and outlook for the proposed exhibition in New York City in 1913. An inspection of the new Grand Central Palace was made. This building gives over 76,000 square feet of exhibition space exclusive of aisles, etc., but the space is divided into three floors. The general sentiment in the meeting was that the time is already very short in which to get the preliminary work under way and immediate activity is imperative.

NEWPORT HORTICULTURAL SOCIETY.

A much admired rose exhibit was the feature of the meeting of this society on the evening of Oct. 10. Charles H. Totty of Madison, N. J., showed a vase of the new yellow rose "Sunburst." The exhibit contained fifty excellent flowers on long stems making a very attractive vase which on being examined by a committee was awarded a silver medal, the highest award of the society. Mr. Totty also showed a vase of his new white carnation Wodenethe, which was awarded a first-class certificate. W. E. Tricker, manager for Mr. Totty, was in charge of the exhibits and favored the meeting with a very interesting talk on roses.

FRENCH CHRYSANTHEMUM SOCIETY.

The 16th congress of this society will be held on October 26 to 29, at Biarritz, in conjunction with an international horticultural show to be organized by the local society. The following questions are on the agenda paper for discussion; a pocket edition of the Color Chart, Best Time for Taking the Buds, Insects and Diseases, Manures for Chrysanthemums, Influence of Salts of Magnesia on Chrysanthemums, Classification of Chrysanthemums.

PENNSYLVANIA HORTICULTURAL SOCIETY.

The regular monthly meeting was held on the 17th inst.; matters pertaining to the fall show mostly. Some magnificent blooms of the new white chrysanthemum, Mrs. David Syme, were exhibited by Samuel Batchelor—for which he was awarded first prize.

CLUB AND SOCIETY NOTES.

The North Shore Horticultural Society will hold a Chrysanthemum Show, October 25th and 26th, at the Town Hall, Manchester, Mass.

The Executive Committee of the National Sweet Pea Society of America will meet at the Parker House, Boston, on Saturday, November 4th, at 12 o'clock. W. Sim, Pres.; H. A. Bunyard, Secy.

Asbury Park, N. J., is to have a new and very desirable attraction next month in the form of a chrysanthemum show at the Casino. The preparations are now being made by Publicity Director Deanegar, with the enthusiastic support of the Elberon Horticultural Society.

The Milwaukee Florists' Club will put up an elaborate show at the Auditorium this fall. From the local daily papers we learn that the ground plan shows a carefully arranged, systematic and symmetrical design, with winding walks, oddly shaped plants of green-sward, fountains, terraces, hedges, floral pyramids, pergolas, vined walls and rustic ledges. The stage will be terraced and hedged according to a unique idea, copied from a natural scene in the Vermont hills. A central walk, broad and straight in its lines, except at the center, where a circular plot with a rustic music conservatory breaks the regularity of the lines, leads to the plateau to the north. The walk passes through the rustic structure and continues to the hedged terrace. Walks circle the conservatory, and avenues lead to the east and west, passing pyramids of blooming plants.

MONUMENT TO ERNEST CALVAT.

We notice that the subscription list to raise funds for erecting a monument to the memory of the great French chrysanthemum raiser, Calvat, now reaches the sum of \$266. The list has been opened for a long time and has been slow in reaching that figure.

Hartford, Conn.—A. W. Vibberts has purchased the Bennett estate greenhouses and will make additions and improvements.

DREER'S SEASONABLE SPECIALS

COCOS WEDDELIANA

PALMS, FERNS, ARAUCARIAS, PANDANUS, ETC.

A special offer of the above has just been mailed to the trade. If you did not receive a copy and are interested write us.

DAHLIAS

A special catalogue offering 200 standard up-to-date varieties will be sent for the asking. It will pay you to consult this before making up your 1912 catalogue.

SPECIAL OFFERS OF JAPANESE IRIS, PAEONIES AND HARDY PERENNIAL PHLOXES are also still in force.

SPECIAL CIRCULARS offering **SEASONABLE STOCKS** are made throughout the season. If you are in the **TRADE** and do not receive copies write us and have your name on our mailing list.

For complete lines of Seasonable Florists' Stock, consult our current Wholesale List, issued September 1st.

WASHINGTON NOTES.

F. C. Bauer of Govanstown, Md., was in town last week visiting his brother, Otto Bauer, of the Washington Florists' Company.

S. F. Holland has opened a new store at Eighteenth street and Columbia road, N. W. Mr. Holland was formerly located at Fourteenth street and Park road.

The death of Justice Harlan of the Supreme Court of the United States called for some very artistic floral designs and added much to the activity of the week. Aside, however, from the commercial feature, his death was deeply regretted by many of the florists, as Justice Harlan had many friends among the trade.

The Washington Florists' Company, Eleventh and F streets, N. W., showed some very choice baskets of cut flowers last week. The baskets were filled with Killarney roses and purple asters. Golden Gate roses and asters formed another combination. The display was commented upon in the shopping column of a local newspaper.

The trade is warned against a new counterfeit ten dollar bill which has made its appearance. The bill bears the check letter "F," and the names of Charles H. Treat and W. T. Vernon as treasurer of the United States and register of the treasury, respectively. It is of the series of 1902-8 and is drawn on the Crocker Bank of San Francisco.

A device for the plucking of flowers is among the recent inventions. This article consists of a tube connected to a pair of shears. At one end of the tube is a forked shape part which slips beneath the flowers, holding them rigid, while a blade traveling beneath the fork cuts the stem, dropping the blossom into the tube and thence to a basket, or other receptacle, attached thereto.

Washington florists will be represented at the post-season championship baseball games being held between New York and Philadelphia by two staunch fans in the persons of Mr. Z. D. Blackistone and Mr. Milton Thomas, the latter a member of the firm of Thomas & Slye of the Center Market. These gentlemen are visiting both cities and will incidentally take a peep at the way out of town florists are handling their trade, etc.

Harry L. Robey, with A. B. Garden, Anacostia, D. C., has joined the ranks of the benedicts, having taken as his bride Miss Isabella Davidson. The ceremony was a very quiet one, and the news of the wedding, which was performed at the Garden home, was a very great surprise to the friends of both participants. A family reception followed. Mrs. Robey is the daughter of Mr. John Davidson of Shannelton Ord, Bamffshire, Scotland, and a niece of the Gardens.

Mr. and Mrs. William F. Gude last week celebrated the fifteenth anniversary of their wedding. Cards had been sent out announcing that they would be "at home," but no mention was made as to the occasion. It leaked out, however, and Mr. and Mrs. Gude were the recipients of fifty or more very handsome presents. The florists of Washington presented them with a

Charles Lenker and House of Robinson Chrysanthemums, Freeport, N. Y.

magnificent cut-glass punch bowl and the Board of Directors of the Lincoln National Bank marked the day with a most exquisite piece of cut glass in the shape of an "American Beauty" vase. Upwards of five hundred people called during the day. Their home at 3900 New Hampshire avenue was beautifully decorated with cut flowers.

CLARENCE L. LINZ.

PHILADELPHIA NOTES.

Some excellent Chateaux are coming in from John Burton, who has two houses of this rose.

The annual fall show of the Pennsylvania Horticultural Society is scheduled for Nov. 7, 8, 9 and 10. Copies of the premium list may be had from the secretary.

We welcome back home this week those genial knights of the road, Arthur Zirkman and Robert Schoch. They both seem to stand the strain of the strenuous life pretty well.

John E. Scalley of M. Rice & Co., made his maiden trip among the Philadelphia retailers last week. From all accounts the youngster did well as the firm asks your correspondent to return thanks for the many courtesies extended to this new field officer of theirs.

Alexander B. Scott thinks that the Killarney blood will be the basis of nearly all the good commercial cut-flower roses of the future. What Fisher did for the carnation may be paralleled by Dickson in the rose. Both struck a great strain and there is no telling how far-reaching the influence.

The Rice Standard Cycas seems to be taking well in all parts of the country. This is a great improvement over the ordinary painted natural frond—in fact, it is absolutely natural—while the invisible process has made it fadeless. We are told that the Rice people control the entire output of this new process.

There were doings at the National Farm School on the 15th. This was the program in part:

Speakers—Dr. Harvey W. Wiley, chief chemist of the department of agriculture, Washington, D. C.; Hon.

Edwin S. Stuart, former governor of the state of Pennsylvania; Hon. Harry Cutler, member of the Rhode Island Legislature of Providence, R. I.; Rev. Louis B. Michaelson, Trenton, N. J.; Rev. Dr. Joseph Krauskopf, founder and president of the school; reports by the president and directors of the school and officers elected; an exhibit of farm products.

The Henry F. Michell Co. has been so encouraged with the success of their free lectures during last winter that they are announcing a series of seven to be given during the winter of 1911-12, the first on Oct. 23d, by Maurice Fuld on "The Potting of Bulbs, as Done by the Amateurs."

The management believes that these lectures are a step in up-to-date business, and the attendance, which has always been above the average, shows they are appreciated by the public.

These lectures have been planned to cover almost the entire sphere of the business, such as gardening by amateurs, by farmers and truckers, by florists and flower growers and raisers of poultry. A special lecture, exclusively for florists, has been arranged for November, and further particulars will be announced later. Programs for the entire series will be ready at the first lecture and distributed widely among those who are interested.

Visitors: Will. Rehder, Wilmington, N. C.; Mrs. C. Kaizer, Fort Washington, Pa.; Z. D. Blackistone, Washington, D. C.; Mrs. John A. Cook, Beverly, N. J.

Lancaster, Pa.—Julius P. Siebold, 924 E. Orange street, writes HORTICULTURE that the two houses he is building are 26x108, abutting the old houses built five years ago. The new houses are of semi-iron construction, with concrete side walls and are about ready for glazing. He is so well pleased with the new houses that in another year or so he expects to rebuild the old houses in the same manner. A varied line of stock is grown inside and in the field, all for the wholesale trade. A quarter acre of salvia Zurich and Bonfire, made a glowing display this season.

A DAHLIA GROWER.

A number of Hartford's dahlia lovers made a pleasant journey last week to the large dahlia fields of John H. Slocombe, who is a successful grower of dahlias and who has originated many beautiful new varieties of this grand autumn flower. Over three hours were spent by the visitors in inspecting the beautiful show and J. W. Adams published in the Hartford Times an enthusiastic account of what they saw which should give a good lift to the interests of the dahlia and particularly as represented by Mr. Slocombe among the public of that section.

In answer to inquiries by the visitors as to his methods of treating dahlias (which have blossomed so sparingly in Hartford this season), he said he had no special way, except to mulch the ground around the plants. But the secret is evidently in the location and soil. Although on high ground the soil of Mr. Slocombe's place is moist and the field is protected on two sides by long stretches of alder, a small, clear stream bordering it on one side, and the cool, damp breezes from the harbor seem to be just what the plants need to make them thrive.

PERSONAL.

Aretas B. Chandler has resigned his position with W. W. Powers, florist, Nashua, N. H.

A. P. Dewar of R. & J. Farquhar & Co., Boston, is home from an extended European trip.

Donald Munsey has resigned his position with the Southworth Bros. nursery at North Beverly, Mass.

David McKenzie, formerly manager for the John Scott estate, Flatbush, L. I., New York, is now manager for A. M. Davenport, Watertown, Mass.

John G. Gardner, formerly employed in the greenhouses of the James J. Van Allen estate at Newport, R. I., has accepted a position in an orchid growing establishment in Los Angeles, Calif.

Mr. and Mrs. James H. Delay of Pomeworth street, Stoneham, Mass., celebrated their tenth wedding anniversary Oct. 10. Mr. Delay is engaged in the florist business in Stoneham and Boston.

Visiting Boston—J. J. Karins, representing H. A. Dreer, Philadelphia, Pa.; L. Merton Gage, Orange, Mass.

Worcester, Mass.—In its recommendation which will go to the Legislature next January the special commission appointed by Governor Foss to get opinions on the feasibility and probable cost of making Lake Quinsigamond and its shores a state reservation will report that Worcester and Shrewsbury are united in favor of the proposition and want to see a bridge span the causeway.

CINCINNATI NOTES.

Special club meeting at club rooms
on Monday, October 23rd, at 8 P. M.
Important.

Announcements tell of the coming marriage on December 6 of Miss Marie Scharstein and Jos. Maunders, the Newport (Ky.) florist.

Miss Lena Olinger of Aurora, Ill., is at the home of her brother and sister-in-law, Mr. and Mrs. P. J. Olinger, for a fortnight's visit.

If Bloomhurst's present cuts of roses are any kind of an omen of what they will be in the winter the market is due to receive some most excellent stock from that place.

The list of visitors is large and is as follows: O. C. Heberling, Georgetown, Ky.; Sidney Wertheimer, New York, N. Y.; Chas. Knopf and C. E. Rush, Richmond, Ind.; Louis D. Singer, Frankfort, Ky.; John Corbett, successor to Graeser & Humphreys, Mt. Sterling, Ky.

P. O. No. 1, Hoboken, N. J.

P **PRUDENCE** is of more frequent use than any other intellectual quality; it produces vigilance rather than elevation, rather prevents loss than procures advantages; and keeps a man on the safe side, inducing him to make a permanent investment, rather than a temporary speculation. A man need not be a miser to be prudent—a prudent man is one who is thoughtful and has the ability to foresee what is sensible, and then follow his own conclusions. Especially should a man be prudent in buying lily bulbs because it costs no more to force good bulbs than inferior ones, and since the real profit is not on the bulbs themselves, but on the prolific qualities of the bulbs; how costly inferior bulbs actually are must be manifest to all who think. The best lily bulbs you can buy are none too good, being a product of nature and subject to nature's whims, so buy the best you can get and you will be doing all mortal man can do toward success. Write for prices.

Ralph M. Ward & Co.

12 West Broadway

NEW YORK CITY

Not How Cheap
But How Good

Seed Trade

W. H. Grenell of Pierrepont Manor, N. Y. and Saginaw, Mich., has, after many efforts and changes of mind, decided to sell his seed stock and quit the seed growing business for a time at least. He has sent out a circular letter offering a large proportion of his seed stocks. His aim, we are informed, is to sell enough to realize \$100,000 to \$125,000, and reserve just enough to grow, sufficient to get into business again two years hence, as he will accept no contracts for crop of 1912. In view of the fact that Mr. Grenell claims to have a seed stock aggregating 25,000 to 30,000 bushels of peas and beans, he should quite readily be able to realize at prevailing values \$100,000 and have a very respectable nest egg left with which to develop a future seed stock. Mr. Grenell's large seed stock will indicate quite clearly the volume of business he has been doing, and the sudden elimination of 20,000 bushels from an already too small volume of seed is cause for anxiety among the large users of peas, both canners and seedsmen.

For several years it has been increasingly apparent that the seed stocks of peas were not keeping pace with the ever growing demand, and particularly in view of the well-nigh crop failures of the past three years. The villianous seasons have been particularly disastrous to peas in this country and Canada, and in fact we may not inappropriately include Europe, where nearly all seed crops have been as disappointing as peas. In this country the repeated crop failures have discouraged and disgusted the growers to such an extent that a very large percentage of them will not listen to a proposition to grow peas at any prices, while those who can be persuaded, demand what appear now like prohibitive prices, ranging from 75c. to \$1.25 per bushel over last year. Owing to the increased prices which growers have had to pay the farmers, and coupled with the increased cost of doing business, they have found it necessary to advance prices to seedsmen and canners from year to year until they have protested most strenuously, and many have threatened to grow their own seed. This threat is largely empty, as it will first be necessary for them to secure seed stocks, then it would be interesting to know by what process of reasoning they figure out that they would get crops where the seed grower fails. The fact that these persons are disappointed and disgusted is not to be wondered at, but the seed growers could wish them no worse business fate, than the kind of luck that has fallen to them for the past four or five years.

The present outlook is the most threatening the growers have ever faced, and it requires abounding faith to see any silver lining on this cloud. It is no wonder Mr. Grenell has decided to sell out, provided he does not repent of his decision. He will be able to see more real money than the growing of peas would bring him in many years.

Gustav Schott, Aschaffenburg, Bavaria, the large grower and exporter of natural grass seeds, is now represented by McHutchison & Co., 17 Murray street, New York, who can furnish

all information as to prices, samples, etc.

HOWARD M. EARL.

In issue of March 11 we showed a picture of Mr. Earl at the age of 16, the year in which he entered the seed store of W. Atlee Burpee & Co., with whom he has remained continuously ever since, and is now their general manager. His many friends will be charmed to see his latest picture here-

HOWARD M. EARL

with, at the age of 42. The photo is by Evans of Philadelphia. Mr. Earl is affectionately known among his more intimate friends as "The Little Cupid," "The Burpee Steam Tug," and "The Human Dynamo," all of which are descriptive and appropriate. Mr. Earl, may you live a thousand years. G. C. W.

Baltimore.—John F. Williams was appointed receiver for the S. L. Lamerd Company by Judge Dawkins in the Circuit Court Monday. In the papers it is shown that the assets of the company amount to \$58,700, while the liabilities are listed at \$27,747. The concern conducts a seed and agricultural implement business on Light street. The bond was \$30,000.

Mudge street, Lynn. He has moved from his Burrill street residence to 23 Thomas road.

Phoenix, Ariz.—G. Neumann has formed the Salt River Valley Floral Co., wholesale and retail florists, with office at Washington street and Cactus Way, and a branch office in the Adams Hotel. Mr. Neumann had the floral stand at Donofrio's previous to the fire there.

The store of Julius A. Zinn on Park street, Boston, was broken into and cash and other valuables taken from the money drawer. The safe was not molested.

The wagon of Penn, the Florist, Boston, was in collision with an auto at the corner of Beacon and Tremont streets, last Saturday. The wagon was damaged, but neither horses nor driver were hurt.

CHICAGO NOTES.

Trade Notes.

Hunt Bros. of Park Ridge are already cutting Christmas Pink sweet peas of good color.

Frank Oechslin had his first pot plants of chrysanthemums ready for the wholesale trade last week.

The E. Wienhoeber Co. is having a fall opening this week. A good custom and one which stimulates trade.

A \$10,000 addition to the office of the West Chicago Park Commissioners has been decided upon and plans approved.

Otto Wittbold reports light frosts two nights at their nurseries at Edgebrook. The busy season is on here and all hands are kept moving to fill orders.

Work is progressing finely on the new Foley houses now being erected for Wendland & Keimel at Elmhurst, Ill. Everything is of the latest design

Tel. Wellesley 44-1 and 2. Night 44-3

and the ten houses are expected to be completed before snow flies.

John Kidwell, president of the new Chicago Flower Growers' Association, says he is well pleased with the business so far. Business is rapidly picking up now.

Peter Pearson has his second house in his range at 5734 Gunnison street nearly completed. His place, which he purchased less than a year ago is nicely located and will be used for growing plants for the shipping trade. Boston ferns will be a specialty and a general line of bedding stock carried in season for the wholesale trade.

Almost every store in the downtown district is showing some attempt at fall decoration, and those who study them will gain many ideas on how to do and how not to do things. For how not to do, note the lack of variation, as in the flower to each suit in the men's clothing stores, and the over-crowding of vines and flowers as seen in the average department store decoration.

Personal.

G. H. Peiser remains in the same condition as during the past month. His condition is very serious.

Wm. Gray, formerly of Philadelphia, but for the past two years at Minneapolis, is now with Canger & Gormley, 187 North State street.

C. M. Dickinson, manager of the E. H. Hunt Co., is able to be back to the store after a serious attack of illness. A. F. Longren of this firm is in after a successful trip.

Visitors: C. H. Hudson, representing the Hammond Paint & Slug Shot Works, Fishkill, N. Y.; Edward Tatrow, Salina, Kas.; Mr. Hempstead, Jr., Bloomington, Ill.; Mr. Pillsbury, Jr., Galesburg, Ill.; Mr. Roth, Lafayette, Ind.

NEW FLOWER STORES.

Columbus, Ohio—Fulton Flower Shop, Fulton Market.

Detroit, Mich.—"Rackham the Florist," 422 Woodward avenue.

The carnation staples which are the specialty of I. L. Pillsbury, Galesburg, Ill., are getting a well-deserved popularity for their simplicity and usefulness in making defective flowers look presentable. They are money savers for those who use them

ST. LOUIS NOTES.

The Ladies' Home Circle gave a social meeting in which their husbands were permitted to take part on Tuesday evening, Oct. 17.

Miss Anna Bova of the Red Bud Floral Co., was married on Sunday, October 15th, to D. Mantia. A large number in the trade received invitations.

W. C. Smith and J. J. Beneke called on some of the growers in the county last week. They found Alexander Floral Company's place and Werner Bros. plant in fine shape. At the latter roses were specially good and a large cut of roses and carnations is in prospect.

The Retail Florists' Association held an interesting meeting on Monday night, Oct. 9. A committee was appointed to arrange for a booth at the coming fall flower show. The committee consists of Messrs. Schoenle, Windler and Bergestermann. The show will be held at the Coliseum this year.

Visitors: R. Karlstrom, representing W. A. Manda, Inc., South Orange, N. J.; E. J. Fancourt, representing S. S. Pennock-Meehan Co., Philadelphia. Mr. Newcomb of Vaughan's Seed Store

Flower Market Reports

This market shows a decidedly downward trend, due very largely to the influx of chrysanthemums, which in the past few days have been accumulating and now show every indication of an imminent glut. Quality is good and variety is widening. Then carnations, unfortunately, are moving along towards a full crop and the combination is more than the market is able to bear without weakening. Roses are in abundant supply also. Prices have dropped but even at the lower figures they are not moving very readily. Lilies are rather on the short side. Violets fairly abundant but rather poor so far this year. Altogether the market seems lacking in ambition.

The Chicago market is in very good condition. There is plenty of stock without being an oversupply in any line except for a day or two. Chrysanthemums of the medium grade are a possible exception to this, not being up to the standard in quality. Those who have a large shipping trade find it difficult to dispose of them and in some places an accumulation is seen. One of the largest growers says the sales of large quantities of first-class chrysanthemums is not up to the average October on account of the outdoor flowers, which are still in excellent condition. Salvia is exceptionally good and affords material for house decorations. Cosmos and dahlias, the latter coming in quantities from Michigan, and gladioli are all playing their part in the total sales. Violets, both doubles and singles, are more in evidence than desirable. The best ones sell, but prices are weak. Sweet peas are also here and like violets appear to have arrived too early for best results. Carnations are of excellent quality and inclined to be scarce so that price went up to three and four dollars on Saturday and Sunday, but dropped again on Monday as stock came in more plentifully. First-class green of all kinds is in. Some very fine asparagus sprays are now coming from the south.

The demand is holding up steadily and growing day by day. The supply of some lines is scarcely able to meet this demand while others, such as fall flowers are more than sufficient. Cosmos and dahlias are offered in very large quantities and the quality is so good that one call for them is better than at any other time in past years. They also tend to keep down the price of the smaller chrysanthemums. Roses are all of most excellent quality and clean up quickly every day. The supply of pink is somewhat shorter than that of white. In carnations the amount offered and the call for the same is about "horse and horse." The white and Enchantress predominate in numbers. On Monday of this week a large shipment of asters came into the market. Many of them were taken up at once. The lily market is tight. Chrysanthemum offerings include white, yellow and pink of all sizes and all have been finding a tolerably good market. The call for lily of the valley and cattleyas is good. The green goods line is

Just the Thing for
Chrysanthemum Season

FLORISTS' GALVANIZED BUCKETS

Hand made; of the best galvanized iron; far more durable, and will wear four times as long as any other vase on the market; more easily handled and when not in use can be stacked, taking up very little room. Do not break, do not rot, do not chip, do not wear out. And, best of all: flowers keep longer.

well supplied and enjoying a steady call. Shipping business is good.

A good supply and a brisk demand have created good feeling among both the wholesalers and retail dealers. Chrysanthemums are coming in more freely and while the weather is not cold enough to make quick sales

in them they clean up well at good prices. Notwithstanding several department store sales of ferns offering Amerpohli plants at 10 cents each, florists are experiencing much demand for Boston fern and its varieties at prices which have prevailed for years past.

Flower Market Reports.

(Continued from page 573)

NEW YORK The cut flower supply is rather top-heavy this week and stocks are moving reluctantly. Chrysanthemums are rapidly taking the place soon to be vacated by the dahlias as monopolizers of the counter space in the wholesale markets and as has been the case every year, are carrying everything else down to a lower level of value than reported last week. Roses are abundant in all varieties and also in all grades, particularly the inferior grades, and for the latter there is not much encouragement in the immediate outlook. Carnations, which are beginning to assert themselves and are really good in quality are naturally mixed up in the general slump which seems unavoidable. The buyer makes the price just now.

A general uplifting **PROVIDENCE** has marked the local market conditions during the past week and the increase in the supply of stock has been encouraging. With the increase in the supply a corresponding improvement has been noted in the quality and the demand has strengthened considerably. Chrysanthemums of a very good quality were shown this week and the choice flowers brought from \$10 to \$14 per 100. Carnations have improved both in quality and price since the last week, the best grades bringing from \$2 to \$3 per 100. Roses remain in large quantities. There have been many Richmonds on the market this week selling from \$8 to \$10. Violets are very plentiful at 50 cents per 100. Lily of the valley and orchids are very scarce, with little demand because of the lofty prices.

The market is in a somewhat better condition, fall weddings and various society events calling for a goodly supply of choice material, although everyone is hoping for the speedy death of all out-door stock. The market is flooded with dahlias in all varieties and myriads of cosmos. For these there is a much smaller demand than output. Violets are coming in better. Rhinoceroses and those grown locally are meeting with ready sale. Lily of the valley and yellow chrysanthemums are moving very well as is also Adiantum hybridum, but smilax is in little demand. Roses move along as well as they have been doing and are quite plentiful. Cattleyas are in better demand and there

.....	to	35.00	to	35.00
10.00	to	20.00	10.00	to	20.00

are enough gardenias grown locally to accommodate all calls. American Beauty roses, grown within the District of Columbia, are in exceptionally fine form. Richmonds are better and meeting with a ready demand. Carnations are much better than they have been although, of course, there is considerable room for their improvement. The condition of the weather has been so unsettled that the sale of flowers for personal adornment does not quite come up to expectations; in fact, the season may be considered quite backward.

The wholesale markets **ST. LOUIS** have had plenty of everything in season and prices away down from those usual at this season, prevail. Western men have not been any too busy and when trade is dull do not lay in quite so large a stock only when they can buy it cheap. Chrysanthemums are increasing in number.

PROVIDENCE NOTES.

The Providence Wholesale Flower Market made a successful opening in its new home on Washington street Oct. 16, and the trade for the first day was considered very fair. John S. Kelly, formerly with John F. Wood of this city, has been appointed manager. As heretofore the retailers have had their supply brought to their door it will take some time to educate them to visit the wholesale market. Much encouragement has been given the promoters for on each succeeding day the volume of trade has increased, and within three days retailers from places as far as Fall River and Woonsocket have visited the market and placed good orders.

N. D. Pierce of Norwood, R. I., manager of the Norwood Floral Company, suffered a painful injury last week while directing work in the nursery, when a heavy board fell on his foot inflicting bad bruises.

S. A. G.

NEWS NOTES.

Marseilles, Ill.—The Marseilles Cemetery Association has been dissolved.

Springfield, Ohio—The Springfield Cut Flower Co. will occupy the store recently vacated by H. N. Siegenthaler.

Providence, R. I.—Frederick B. Luther has closed his greenhouses on Atlantic avenue and contemplates building a range at Norton, Mass.

Welch Bros., wholesale florists, Boston, state that they have reason to believe that a portion of their mail which should have been delivered to them on Tuesday, Oct. 17, was either diverted or destroyed and they ask that any parties having mailed communications or remittances addressed to them at that time, to which no reply has been received, should write to them at once with full particulars.

SITUATIONS WANTED

FLORIST and LANDSCAPE GARDENER

wishes position on commercial or private place. 16 years of experience in Sweden and Germany. Able to take charge. For particulars address F. E., care of HORTICULTURE.

WANTED—Position as superintendent of an estate. Fully qualified and experienced as gardener and farmer. First class references. A. L. Marshall, 72 Cortlandt St., New York City.

SITUATION WANTED by an experienced rose grower, married and no children. Can take full charge of a first-class rose growing establishment. Am now in charge of the largest rose growing establishment around Boston. Come and look it over. Reasonable wages and permanent position desired. Wm. Anderson, Madbury, N. H.

FOR SALE

FOR SALE—Fresh from factory, new 10 x 12, 16 x 18, 16 x 24, double thick, A and B qualities. Market dropped. Now is the time to buy and save money. Parshelsky Bros., Inc., 59 Montrose Ave., Brooklyn, N. Y.

FOR SALE Greenhouse, 15 miles from Boston; 14,000 feet of glass, with good heating; 12,000 mums, 4,000 violets, 1,000 anemones, 500 stevias, lots of stock geraniums, also cuttings started, 1,000 snapdragons, some carnations and miscellaneous stock; 100,000 bulbs for forcing, 3 wagons 2 cultivators; everything goes with the sale. Almost new house, 9 rooms; 15 acres of land; 3/4 mile to station; good train facilities. Electrics pass the door. Step right in and make money. R. E., care HORTICULTURE.

GREENHOUSE PLANT—Two new houses, one 28 x 150, one 31 x 180, good dwelling, acre land, 12 miles from Boston. Attractive neighborhood, close to R. R. station. Frequent trains, and electric to Boston every 15 minutes. Ill health cause of selling. Joseph Farrell, North Woburn, Mass.

house, began business about ten years ago and now has a range of thirteen houses with an area of about 85,000 square feet of glass. His boiler plant consists of two 60 horsepower and one 300 horsepower steam boilers. Electricity is used for lighting.

Aldan, Pa.—Clarence Alwine, who was reported in the last issue of HORTICULTURE as building three greenhouses, each 25 x 100, states that he has changed his plans and two will be 23 x 135 each and one 25 x 100. Mr. Alwine is just starting business here and will raise cut flowers and pot plants for the wholesale trade.

GREENHOUSES BUILDING OR CONTEMPLATED.

Lowell, Mass.—D. J. Williams, house 40 x 200.
Washington, Conn.—R. S. Barnes, one house.

New Bedford, Mass.—Stephen Shaw, house 40 x 85.

Albert Lea, Minn.—Tigh High School, house 20 x 30.

Girard, Ohio—James Knapp, one house 26 x 100.

Norton, Mass.—Frederick B. Luther, range of houses.

North Olmsted, Ohio—Irving Dunford, house 28 x 100.

Norwood, R. I.—Home Nursery, house 35 x 200; one 28 x 118.

Seal Harbor, Me.—Mt. Desert Nurseries, range of houses.

Spokane, Wash.—H. A. White, 4214 East Cleveland avenue.

Pomona, N. C.—J. Van Lindley Nursery Co., house 43 1/2 x 500.

Hartford, Conn.—A. W. Vibberts, house 20 x 60; office 18 x 26.

Evansville, Ind.—Wm. Blackman Floral Co., addition of 10,000 feet.

Salem, Mass.—Henry T. Conant & Co., 129 Essex street, rebuilding range of houses moved from rear of Peck estate.

NEWS NOTES.

Fredonia, Pa.—Having sold his place in Pittsburgh, W. W. Little has moved his greenhouses here.

Danville, N. Y.—M. J. Schaaf, who was recently reported as erecting one greenhouse, writes HORTICULTURE that he is building four 18 x 75 King houses which will be ready for planting in about a week. Carnations mostly will be grown.

Northboro, Mass.—Ralph E. Wadsworth & Co., Pleasant street, who are building one greenhouse 42 x 200 feet, for wholesale flower growing, intend to extend the range of six houses, having 75,000 square feet in the future. Ralph E. Wadsworth and Dr. J. M. Stanley are the proprietors.

Norfolk, Va.—Bids were opened, October 1st, by the Board of Control for flower seed, trees and shrubbery to be planted in the city parks and at the city home. Following are the proposals: S. G. Harris, \$486.25; W. T. Hood & Co., \$617.50; J. Van Lindley Co., trees only, \$224; William H. Moon Co., \$686.25.

Dixon, Ill.—O. L. Baird has given Louis Knisel, who has been his grower for the past seven years, an interest in the business and will devote more of his own time to dairying and stock-raising. He reports carnations as in fine condition, but chrysanthemums not as good as usual, from the effects of the extremely hot summer.

Alexandria, Va.—David Grillbortzer, who is building a 50 x 150-foot green-

The Burnham

When you can buy a genuine greenhouse boiler made from top to bottom especially for greenhouse work—then why under heaven don't you buy it? What's the use of trying to make yourself believe that a boiler originally designed for residence heating can possibly give the height of economy for greenhouse work? You know the conditions are absolutely different. The residence boilers were designed to do heating with small pipes in a vertical position where rapid circulation is an easy thing.

Now put such a boiler to work in a greenhouse with horizontal piping and with a large mass of water to move and you have an entirely different proposition—the residence boiler has not the power to do it economically without forcing. And forcing a boiler means not only shortening its life, but you also drive a surprising amount of heat out the chimney. Heat that costs you hard dollars.

So go careful!

Make sure you are buying a Cast Iron Sectional Greenhouse Boiler made especially for greenhouse work.

The Burnham is that kind.

Seasonable Notes on Culture of Florists' Stock

CARE OF ROSES

By this time roses that are in good health and growth should have liquid manure once a week, and there is nothing better than fresh cow manure for making this liquid; half a bushel of manure to 50 gallons of water is about right. After each crop is cut a mulch will be found very beneficial to help the crop of flowers on. Mix equal quantities of pulverized cow manure and loam together and apply it about a half an inch thick. These lighter mulches are better than heavy ones. To ventilate is of great importance from now on; early in the morning when your temperature has a tendency to rise, begin by putting on a little air and increasing with outside conditions so that the rise will be gradual until the maximum of 75 degrees has been reached, and then when it shows a tendency to drop reduce the air the same way, leaving a little on as long as possible. Syringe thoroughly in the morning on all bright days to keep the plants clean of red spider. See that they are properly tied so as to form straight upright bushes, and disbudded as they may need it. To ward off mildew keep a thin sulphur wash on the heating pipes. Fumigate regularly.

CALLAS

Do not let the callas suffer for the want of water. Those that are growing in pots soon dry out now, so give them faithful attention in the way of plenty of moisture at the roots. Use the syringe freely on all good days. Damp down the walks two or three times a day, especially when the temperature goes up with the sun heat, for callas delight in a moist growing atmosphere. Have those that are in pots set on a bench so as to allow full circulation of air around each plant; it also lets the sun and light around all the foliage. These plants when grown in pots soon exhaust the soil of its nourishing elements and should have some liquid manure once or twice a week to avert actual deficiency of plant food in the soil.

Those that are grown in beds or benches will not need feeding as yet, but with the coming of spring when the beds are full of roots mulching and feeding must be resorted to in order to sustain the plant in its final and most strenuous efforts. Give them a temperature of not less than 60 degrees at night. Fumigate with regularity for fly and thrips for these are difficult pests to eradicate when they have secured a firm foothold.

FERNS FOR THE TABLE

See that you have a good lot of these ferns coming on for the holidays. Stock that is now in flats and beginning to crowd should be potted up in a liberally enriched soil with about one-fourth of leaf mold added, and enough sand to make the texture open. When potting, the soil should be made moderately firm, but not too hard, and immediately after the operation give them sufficient water to moisten the soil through. After this, watering should be done very carefully until the plants are rooting freely. From now on they should have a house or bench where they will have full light, as they will make a better and harder growth. Keep the atmosphere moist and give ventilation whenever possible, always avoiding any direct drafts over the plants. When the first fronds are fairly well formed

on your pans or flats they should be removed in clumps of five or six plants to other pans or boxes, using a compost that has been finely screened; soil one-half, leaf mold and peat one-half, and some sand, will suit. Give these young ferns a strong heat, anywhere from 65 to 70 degrees at night. Those who are sowing spores should bear in mind that the most desirable commercial varieties will take from 10 to 12 months before they are fit to pot.

FREESIAS FOR CHRISTMAS

The freesia, whether grown for cutting or as a pot plant, must have the fullest possible light and a temperature of 55 degrees at night will grow them better than a higher one. Now that the pots or benches are filled with a mass of hungry roots they will stand some weak liquid manure twice a week. It will make a big difference in the spikes, making them stronger and the flowers of a larger size. As growth advances they will probably need some support in the way of keeping them shapely. Where your plants are in good condition do all you can to keep them so by giving every chance for proper ventilation so as to prevent a soft growth. Where you have to fumigate do it lightly, as the points are easily burned by tobacco smoke.

LIFTING SHRUBS FOR FORCING

Quite a few florists grow a good many of their flowering shrubs themselves. Where these shrubs have been cultivated regularly and thoroughly they should have a good ball of roots for lifting now. Pot them into 9, 10 or 12-inch pots, as they may require. Use any good rose soil and pot firmly. When all are potted give them a thorough soaking of water and before hard weather comes give them a deep frame that can be covered with sashes later on, where they can remain until wanted for forcing. The shrubs that are arriving now should be unpacked and if the buds show signs of starting, which is often the case, due to the warm and sometimes close quarters they are kept in, they should on no condition be exposed to a hard frost. If the roots are dry, soak them for a few minutes in a tub and then heel them in a cold frame. Keep the tops from frost by giving them covering with sashes. These shrubs will include all such plants as azaleas, almonds, box, deutzias, lilacs, pyrus, rhododendrons, spireas, viburnums, etc. Pot when you have time.

PRIMULAS FOR THE HOLIDAYS

Give those plants that are intended for Christmas a temperature of about 50 degrees at night in a house or bench that is well lighted and they will do finely. Don't run them any higher for they will only spindle and draw up. See that they have enough of space and do not crowd one another. The larger ones can be given a place elevated on some inverted pots. Now that the pots are filled with roots they should have some weak cow manure with soot added, once a week; it will improve the flowers and foliage. When they are coming into full flower they do better in a temperature of from 42 to 45 degrees. Give these plants all the air that the weather will permit on bright days.

John J. M. Farrell

Mr. Farrell's next lecture will be on the following: Christmas; Christmas Trees; Christmas Cakes; Christmas Assistants; Christmas Ventilation; Pot Roses.

BOTANICAL
GARDEN

Fruit and Vegetables under Glass

ROOT PRUNING

At this season of the year early-forced fruit houses present a rather dismal appearance—cold, nothing growing, probably the first few leaves falling as the force of the hose sweeps across them, each morning, the autumn tints on the foliage of vines proclaiming that fall is with us. Now, from the inexperienced we should expect to hear such remarks as “Nothing doing here,” or “What desolate houses.” To the grower, however, this is one of the most important times of the year, for it is upon work done along now that much of next season’s crop depends. Once active growth commences little can be done to the borders, so all must be put right now. Peach and nectarine trees having shown signs of too much root action should now be root-pruned. This applies especially to young trees. Finding themselves in a newly made border, with lots of room to roam in, as compared with what they have been used to, they invariably “let it go” and as fall comes on we find we have a quantity of very strong growths to deal with. To cut this away without interfering with the root action would only invite still stronger wood for next year, consequently root pruning must be resorted to.

Vague ideas apparently exist with some as to the method of procedure and also of the object of root pruning. As we were proceeding to get around a peach tree a few seasons ago we were asked if the trench was to be filled in with manure! In another instance we were told we were killing the trees, which proved to be anything but true. Trees can receive a very severe check by overdoing the root-pruning and will lose their next season’s crop in consequence. The advantages outweigh all these drawbacks when it is properly done and no loss of time or crop should ensue. Old established trees which carried a full crop may not need pruning. Be governed by the wood grown during the past season. The safest time to proceed is as soon as the first few leaves commence to fall, signifying that growth is about finished and that the roots will soon be resting. By having some foliage on the tree at the time, the shock is not so great to the bud and the danger of dropping is reduced. To proceed, take out a trench about 10 in. wide at a fair distance from the tree; this can be done with a shovel and any strong roots encountered can be severed. Now, with a fork work the soil from between the roots carefully down, taking care not to damage the roots. When about two feet from the trunk the soil can be tamped under, being one-half foot long, and tamping it in again before doing the next trench. This keeps the tree in position and there is no danger of its breaking. Any roots having a tendency to grow straight down can be shortened right back; others should be cut at an angle out of the soil and being cut to about three inches of the surface. Fill in the soil again and tamp quite firm before laying the roots out. All strong roots should be shortened back, leaving all fibrous ones. Use a sharp knife and make a clean cut. Any root which may have been broken off or damaged during the operation, should also be cut clean as a clean cut heals so much quicker

than a bruise. Spread the roots out evenly over the surface and cover with soil ramming the whole firm and even. Take care that the roots are not left exposed for any length of time. Should they have to be left out over-long spray them and cover with old bags or blankets to keep them moist. Suckers can be traced down to their origin and taken off close to the root. Some roots are continually sending these suckers up and they are best amputated. If the tree has been subjected to a severe pruning and few fibrous roots are left, give a soaking of water and keep it syringed morning and noon in fine weather. Syringing will be beneficial on bright mornings during the whole dormant season as it keeps the buds soft and plump.

OUTSIDE VINE BORDERS

Outside vine borders are beneficial for late houses, keeping colder in the spring and consequently growth is deferred as late as possible. These will now have a crop of ripe fruit hanging and the roots will be active for awhile and needing protection from frosts and rain. A good thick layer of leaves spread over the top and covered with straw litter to prevent the wind from removing them will answer the purpose well. Shutters or spare sash can be placed over this to run off the rain as a preventive to cracking berries. An outside border lying wet and cold will often cause berries to crack or otherwise go wrong.

WORK IN THE GARDEN

With the approach of winter there is much preparation to be made in the kitchen garden. Much of course depends on the locality. Roots will have to be stored, celery protected so as to make winter digging possible and a quantity stored for immediate use. Globe artichokes will need protection to carry them through the winter. Asparagus for forcing must not be allowed to freeze too far down. Some frost into it is essential for good forcing. Leaves and other rubbish will accumulate and should be burnt preparatory to digging and trenching.

MUSHROOMS

Beds made up the first week in September will now be cropping. The atmospheric temperature has the greatest effect on the quality of mushrooms. Houses or cellars which are too warm never produce the thick-fleshed specimens one finds in a cellar having a normal temperature providing other conditions are right. This is the one great factor, as the life of the bed depends on it. After the spawn has run, bottom heat is not so essential as proper aerial heat. A temperature of 50 to 55 produces the best quality mushrooms and will keep the bed going well. Never advance more by artificial means; rather be on the cool side. A mushroom bed should not require watering until in an advanced stage; each time water is applied a quantity of the spawn fungi are lost rotting off in the soil. Beds should not be allowed to dry right out, or the crop will be checked. And to keep them moist, a clamping walls, walks and surface occasionally without soaking the bed. When watering is necessary use it at a temperature of 65 to 70 and soak the bed through.

George H. Benson

Mr. Benson's next notes will be on the following: Pruning and reporting pot trees, Melons for Christmas, Tomatoes in pots; Strawberries for forcing, Cucumbers in Crop.

Autumn Flowering Shrubs

In my last notes on this subject I referred entirely to the varieties of *Buddleia variabilis* and other species recently introduced to this country from China and I now propose to give a further selection of shrubs which can be recommended for beautifying gardens and open spaces. Some few of these are also new introductions from the far East but the majority, though far from being well-known in this country, are quite old inhabitants of European gardens. This is, no doubt, owing to the fact that horticulture in general and hardy plants in particular are more fully appreciated on the other side and the various nurserymen, who are largely responsible for their popularization, have been quicker to realize their value.

The opinion is often expressed that the climate is more temperate and suitable in Europe than here, but this is really not the case so far as the varieties mentioned are concerned; in fact, exactly the opposite obtains. Owing to the brighter summers and better general conditions for ripening the wood all hardy deciduous trees and shrubs flower and fruit much more freely here. In parks and open spaces where sufficient space is at command the practise of grouping many of these deciduous flowering shrubs has much to commend it as much finer effects are produced by massing one variety than by planting a single specimen. Very good examples of this method may be seen in the Arnold Arboretum and throughout the Boston Park System.

The *Sorbaria* section of the *Spiraeas* contributes largely to the number of fall-flowering varieties, and these have recently received two important additions from China, viz.: *S. arborea* and *S. arborea* var. *glabrata*. Although these two are in general respects similar the species is easily distinguished from its variety, being clothed with short hairs on the underside of the leaves. These both produce a large inflorescence of white flowers at the termination of the season's growth. *Sorbaria Aitchisoni*, a native of Afghanistan, is a very handsome species growing from eight to ten feet in height with dark red stems and white flowers. *S. asurgens*, *sorbifolia* and *stellipila* should also be included. All the *Sorbarias* are large-growing shrubs with fine pinnate foliage and require but little attention except that some of the old wood can be removed occasionally. Another handsome member of the *Spiraeas* is *Holodiscus discolor*, a native of N. W. America, which produces large numbers of loose racemes of creamy white flowers on gracefully drooping stems during August and is almost equally pretty in the seeding stage. As a specimen plant in the shrubbery or on grass this shrub is well suited and needs but little attention except to keep the old wood cut away.

One of the most important and useful of recent introductions from China is *E. scholera* Staunton, which was found growing along the Great Wall near Peking and introduced to the Arboretum by J. G. Jack. Here it proves sub-shrubby, but is perfectly hardy, making a bush from three to four feet in height with branching stems of showy rosy-purple flowers. It is easily propagated by cuttings, seed or by division of the roots, and

for planting in groups to produce a good display of color it is a most desirable plant.

Halemodendron argenteum, commonly called the Salt Tree, from Siberia, is a beautiful member of the Leguminosae deserving a place in all gardens, on account of its wealth of pink, pea-shaped blossoms which are produced in such profusion as to hide the branches. The foliage being silvery-grey contrasts very prettily with the flowers and the semi-pendulous habit makes it very attractive. It can be increased by seeds, which take two years to germinate, but the most satisfactory method is to graft in early spring using *Caragana arborescens* as a stock. *Lespedeza bicolor* is well-known as a graceful and pretty shrub for fall blooming. Another good species is *L. cyrtobotrya* and there are also several very promising new varieties among Mr. Wilson's Chinese introductions.

Vitex incisa, an uncommon shrub from the East, makes a pleasing bush from six to eight feet in height and has pretty blue and white flowers in light pyramidal spikes on the current season's growth. *Vitex Agnus-Castus* is not so tall growing as its congener but has larger foliage and deep blue flowers. There is also a good white form. Although both of these shrubs are, in this locality, more or less herbaceous in character, this is no drawback to them as they both grow freely from the base and make conspicuous bushes by fall. *Hibiscus syriacus* and its numerous varieties are among the best of shrubs for planting in sunny positions as they are able to withstand a considerable drought and never fail to produce a wealth of blossom. Very little attention is required, and in a few years they make good specimen bushes from six to eight feet in height. Among the numerous varieties there is a wide selection of color, some of the most desirable being *totus albus*, *Lady Stanley*, *Hamabo*, *paeoniflora*, *purpurea* and *violacea*.

A considerable number of *Spiraeas* flower during the late summer and autumn and the dwarfier-growing sorts are specially valuable, producing masses of color. *Spiraea Japonica* and its numerous varieties are the most desirable and these all grow from two to four feet in height, with quantities of flattened flower heads. To keep them vigorous the old flower stems should be removed at least every two years. *Anthony Waterer*, a variety with rich dark red flowers, is the best, but one should also include *alba Bumalda*, *ruberrima*, *caperea* and *Froebelii*.

The shrubby *Potentillas* are also valuable for grouping purposes. *P. fruticosa* is the best known, with bright yellow flowers. Its variety *micrandra* is dwarfier and the flowers are larger and brighter in color. *P. Freidrichseni* is extremely floriferous and the color primrose-yellow. *Veitchii* is perhaps the best and for this we have to thank E. H. Wilson. It grows about three feet high and produces great numbers of pure white flowers. *P. flavida* is also white with a very dense habit.

Several new *Clematisses* have flowered this autumn for the first time in the Arboretum and the most noteworthy at present is *C. nutans*. This is a tree growing variety well suited for climbing pergolas and other places where rapid effects are required. The flowers are produced in great numbers, are pale yellow in color and deliciously scented. This is also one of Wilson's finds.

Wants something cheap

"An American Gentleman," who affixes "Esq." to his signature, advertises in a London horticultural periodical for a gardener of high attainments, all of which desired qualifications are carefully specified (full charge of grounds, etc.) and the wages are stipulated at £8 per month, with cottage, etc. ! We hope the gracious gentleman will get his money's worth in a garden. We also hope that no English gardener will get his head turned by the munificent sum offered as wages, as is below common laborers' pay in this country. It must be remembered, the cost of living is very much higher than it is in Great Britain.

Qualified to teach

We commend to our chrysanthemum enthusiasts the paper in this issue by Elmer D. Smith. It is remarkable how excellent and educational a contribution he

has given us on a subject which, as he truly asserts at the outset, has already been treated from all sides and worn threadbare by repetition. But there is always something new and useful to be said by a devoted student and life-long specialist like Mr. Smith. We particularly recommend to the attention of the grower of chrysanthemums or of anything else the very sensible closing paragraph of Mr. Smith's paper. Prompt and intelligent attention to small details is the great secret of the success of every grower of high repute whose career we have ever had occasion to watch.

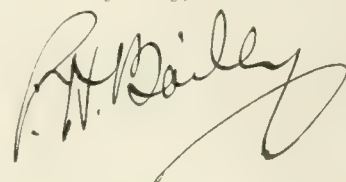

Yale's business venture

That fuss in New Haven over the inauguration of a "Flower Agency" at Yale College, under student management, seems something in the nature of a "tempest in a teapot." While we cannot blame the New Haven florists for resenting this attempt at interference with their business, yet anyone acquainted with the exactions of the retail flower trade as conducted in these days of keen rivalry and the peculiar conditions that appertain to dealings with the student element will readily understand that the element of danger to the established trade in the scheme in question is nothing very serious. We are pleased to notice that the newspaper comments on the situation are invariably in sympathy with the florists' interests, as they should be.

The "Conquest of New England"

Dear Mr. Stewart:—I am very much interested in the conquest of the surface of the earth. This conquest is to be accomplished largely by the engineer and the farmer. Heretofore we have considered the conquest to lie very largely in the new regions; but now that we have circumferenced the earth, we begin to realize that we must effectively conquer the regions that have been run over in times past. You are now coming to the real conquest of New England. New England is a newer country than most of us recognize. The influence of New England on the nation has not ceased. I am expecting that it will contribute a very important part to the re-direction of rural civilization. Therefore, I am interested very much in your Fruit Show and in every other enterprise that contributes to the awakening of a self-sustaining country life in the old states.

Yours very truly,

Cornell University,
Ithaca, N. Y.

The foregoing characteristic and inspiring communication from the honored Director of the New York State College of Agriculture is received with much gratification.

Two and three generations ago the eyes of the world were on New England for all that was worth seeing and knowing in advanced fruit culture. Of late years this industry in New England has lagged and in the meantime the hustler from the far west has been doing things. But New England's blood is up now, as the unparalleled apple display in Boston this week well attests. The big, far-seeing men in horticulture, like Dr. Bailey, realize what this means and can discern in the present awakening the promise of neglected fields and orchards once more made productive and yielding luxuriant and profitable crops of fruit of matchless quality.

FOUR GLADIOLI.

Scribe.

Wm. Falconer.

Irene.

Safrano.

Our illustrations show several of the newer gladioli most highly esteemed by John Lewis Childs, by whom they are offered.

Scribe needs no encomiums. Its splendid form and vigor are plainly shown in the picture. It is pink

marked on a white ground, variable as the portrait shows, and is a decided advance over that sterling old favorite Eugene Scribe.

Safrano is a Vilmorin production, a fine and fairly deep yellow, with a red mark in the throat. The individual flowers are very fine, but the straggly character of the spike is

likely to limit its popularity among gladiolus fanciers.

William Falconer is a fine representative of the Childsii type. It cannot now be classed as new, but it still holds its place as one of the very best pink varieties.

The other one, Irene, is a pink and white beauty, fine in every way.

PERSONAL.

A. J. Frazer succeeds J. C. H. Huntley in charge of the plant of the E. Gill Nursery Co., at Eden Vale, Calif.

Louis C. Stearns has been placed in charge of the new greenhouse at the Normal School at Bridgewater, Mass.

Arthur Crabb, son of Geo. Crabb of Grand Rapids, Mich., was married, October 18th, to Margaret Ryan, also of that city.

P. Papas is now proprietor of the floral department of Wabash Fruit & Flower Co.'s store, 502 South Wabash avenue, Chicago.

H. W. Field, florist, Northampton, Mass., has gone to Redlands, Cal., with his family for the winter in the hope to benefit his health.

Edward H. Dolby, who conducts a greenhouse at Great Barrington, Mass., and Miss Jessie Chase of North Adams, were united in marriage Oct. 19.

H. P. Hodgkins, formerly with R. & J. Farquhar Co., of Boston, is now New England representative of the Moore Seed Co., of Philadelphia.

E. P. Wallis has been appointed botanical instructor at the Oregon Agricultural College, Corvallis, Oregon. He was formerly at the Maryland Agricultural College.

William Swan, for many years superintendent of Rocky Point Farm, Plymouth, Mass., has resigned his position and will enter the real estate business as agent and representative of the Marden Co-operative Real Estate business of Washington, D. C., with office in Plymouth. Mr. Swan assures us that his heart will, however, still

be true to gardening in all its ways and interests.

We are pained to learn of the serious injuries sustained by J. H. Troy of The Rosary flower store, on Park avenue, New York, on Tuesday of last week. Mr. Troy is said to be on the road to recovery, at his home in New Rochelle, but still suffering much pain. HORTICULTURE joins with a host of anxious friends in the wish that he may speedily recover and be soon restored to his accustomed physical vigor.

James McGregor, treasurer of the North Shore Horticultural Society, was very pleasantly surprised at the meeting of the society on the evening of Oct. 20. The president, Alfred Parsons presented him, in behalf of the society and friends, a beautiful solid gold watch, suitably inscribed, as a token of the esteem in which he is held by the members.

Mr. McGregor, who has been a prominent worker in the society, has been the gardener for Miss Adele G. Thayer for the past 23 years, and is leaving Nov. 1 to take charge of her estate at Dublin, N. H.

St. Louis visitors: Martin Reukauf, representing H. Bayersdorfer & Co., Philadelphia, Pa.; R. Newcomb, representing Vaughan's Seed Store, Chicago.

Boston visitors.—Alfred Emmerich, representing Vilmorin & Co., Paris, France; E. O. Orpet, Lake Forest, Ill.; Frederic H. Evans, president American Institute, New York City; Ed. Roehrs, Rutherford, N. J.; W. C. Langbridge, representing Jerome B. Rice Co., Cambridge, N. Y.

A WEDDING ANNIVERSARY.

On Monday evening, Oct. 23, Mr. and Mrs. Peter Fisher opened their beautiful home at Ellis, Mass., to their friends in honor of the twenty-fifth anniversary of their marriage. It was a most delightful reception and said to be one of the largest affairs ever held at a private residence in Norwood. Friends in the town and friends from a distance, including many of the leading floricultural lights of Massachusetts filled the spacious reception room and affectionately clasped the hands of Boston's famed carnationist and the charming lady to whose companionship for the past quarter of a century so much of his success in life is due. The rooms were decorated in tasteful manner and a bountiful collation was served while the orchestra played. Congratulations and hearty good wishes for twenty-five years more of wedded bliss.

CATTLEYA × EDWARDI.

We are indebted to Ed. Roehrs, orchid expert of Julius Roehrs Co., for the fine photograph reproduced on our cover page. Cattleya Edwardi is a cross between C. Schilleriana and C. Warscewiczii, a very striking and beautiful flower with conspicuous purple markings on the white lip, as shown in the picture. The cross was first made, we think, by Sander in 1902, but has been done repeatedly by others since, including Julius Roehrs Company, who have fine plants of their own production as well as those of foreign origin.

CLUBS AND SOCIETIES

NORTHERN INDIANA FLORISTS' ASSOCIATION.

The Northern Indiana Florists Association held its quarterly meeting at Ft. Wayne, Ind., Oct. 18. A committee was appointed to draft program for next meeting which will be held at South Bend, Jan. 17th, 1912. The program prepared was to consist of the following papers:

System, W. W. Coles; How We Conduct Our Retail Business, J. S. Stuart; Carnation Growing, W. J. Vesey, Jr.

A poll was taken to ascertain the improvements made by members during the year which resulted as follows:

Conner & Uish, rebuilding, \$10,000; Muncie Floral Co., improvements, \$100; Ted Eyske, rebuilding, \$1,000; Jno. S. Leach, new houses, \$1,500; Frank & Sons, new houses, \$15,000; Henry W. Johnson, improvements, \$100; Berberick & Weber, new houses, \$600; Terrell & Son, new houses, \$500; King, Winona Lake improvements, \$200; W. W. Dederick, new house, \$800; Stuart & Haugh, rebuilding, \$3,000; W. H. Trever, new houses, \$8,500; W. J. Vesey, Jr., glass for next year, \$2,000; Wagoner Floral Co., improvements, \$500. Making a total of \$42,800.

The following resolutions were adopted:

Since death has claimed our brother and fellow florist, Mr. Clyde Isenberger; be it, therefore

Resolved, That in his death this society suffers a great loss and his wife a kind and intelligent husband.

Resolved, That we tender the widow our sympathy, a copy of these resolutions be placed on the minutes and a copy mailed to the widow.

Respectfully,
J. S. STUART, Com.

The committee on exhibition submitted the following report. In general and as a whole the display and arrangement made a fine showing.

Chrysanthemums—Vesey first on Mine Tausset, V. Poehlman and Omega. Miss Pink second on Omega. Muncie Floral Co. second on Mine Tausset.

Roses—Muncie Floral Co. first on Kilsom. Frank & Sons first on Richmond. Pink Killarney, White Killarney, Bride, Bridesmaid, Bassett & Washburn second on Kilsom. Pink Killarney, Vesey third on Richmond first on My Maryland; second on White Killarney, W. Kenyon second on Bride and Bridesmaid. E. G. Hill & Co. first on Mrs. Anna Ward and Sunburst.

Carnations—Vesey first on Enchantress and White Enchantress. Berberick & Weber second on Enchantress; first on Vesey. Trever third on Enchantress and White Enchantress. Frank & Sons second on White Enchantress. The latter showed White Perfection and White Wonder. In addition to the foregoing, Bassett & Washburn showed a vase of elegant American Beauty roses. Vesey a table of orchids, pots of Neph. Scholzei and Whitmanii and Boston ferns, pot chrysanthemums and decorative plants. Muncie Floral Co., poinsettias, asparagus plumosus and sprengrill, yellow primrose, pot covers and herbs. Willis Knapp, vases of mixed roses and chrysanthemums.

A. J. WAGONER, Sec.

AMERICAN INSTITUTE CHRYSANTHEMUM SHOW.

The annual exhibition of chrysanthemums, orchids, roses, carnations, ferns, palms and decorative plants generally will be held at the Berkeley Lyceum Building, 19 and 21 West 44th street, New York City, on Thursday and Friday, November 2nd and 3rd. A liberal prize list has been provided, covering all the foregoing and many other flowers and plants.

FLORISTS' AND GARDENERS' CLUB OF RHODE ISLAND.

The regular meeting of the Florists' and Gardeners' Club of Rhode Island was held on the evening of Oct. 23, with a good attendance. An important feature of the meeting was the report of a special committee including William Hill, Alexander Macrae and E. A. Appleton, which in substance was to the effect that the special appropriation of the Rhode Island Horticultural Society of \$150 for the annual show will be set aside wholly for premiums to be competed for by florists. This report struck a responsive chord, and many of the florists expressed their willingness to go in and revive the show which for the past four or five years has been sadly lacking in so far as they were concerned.

The principal topic under consideration at the meeting was the planting of trees. Many trees were planted in the public streets of this city during the past year, and the manner and season in which it was done, in some cases, failed to meet with the approbation of some of the members of the club, judging from the nature of their remarks.

At the next meeting of the club on Nov. 20, Michael Sweeney will read a paper on a topic of special interest to the members. The annual election will also occur on this date.

S. A. G.

RHODE ISLAND HORTICULTURAL SOCIETY.

William N. Craig, secretary of the Gardeners' and Florists' Club of Boston, was the principal speaker at the monthly meeting of the Rhode Island Horticultural Society, October 18, in the Public Library, Providence. He spoke on "Hardy Bulbs." After describing the various bulbs he told of the different species and how and when to plant them. A large delegation from the Florists' and Gardeners' Club of Rhode Island was present.

Notice was given of the annual fall exhibition of the society to be held Nov. 4 and 5, calling attention to the departure from previous years of having the exhibition on Saturday and Sunday.

The lecturer, Mr. Craig, was entertained at dinner at the Crown Hotel by President Thomas Hope, Secretary Arthur C. Miller and Treasurer Richard M. Bowen of the Horticultural Society and President Robert Johnston of the Florists' Club.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

Department of Registration.

As no objections have been filed, public notice is hereby given that the registration of the roses, "Genevieve Clark" and "Sunshine," by Jackson & Perkins Company of Newark, Wayne County, N. Y., becomes complete.

H. B. DORNER, Sec'y.

October 19, 1911.

MASSACHUSETTS HORTICULTURAL SOCIETY.

The annual meeting of the Massachusetts Horticultural Society for the election of officers for the ensuing year will be held at Horticultural Hall, Boston, Saturday, November 18, at 12 o'clock. The nominating committee of the Society has just posted the list of candidates to be voted upon at this meeting. Additional nominations can be made within two weeks by papers signed by fifteen members.

The list of regular nominations follows: For president, Charles W. Parker; vice-president (for two years) Walter Hunnewell; trustee (for one year) R. M. Saltonstall; trustees (for three years) four to be elected, Thomas Allen, F. L. Ames, Wm. H. Bowker, Peter Fisher, Harry F. Hall, Henry M. Howard, Thomas Roland, C. S. Sargent; delegate to State Board of Agriculture, Wilfrid Wheeler; nominating committee for 1912, Robert Cameron, Kenneth Finlayson, W. G. Kendall, C. Minot Weld, Frank Wheeler.

WM. P. RICH, Sec'y.

October 21, 1911.

DETROIT FLORIST CLUB.

The Committee on Fall Flower Show has sent out the following bulletin:

Dear Friend: Your duly appointed committee considers itself very fortunate to be able to arrange your Annual Fall Flower Exhibit in a much more convenient place than the salesroom of the Michigan Cut Flower Exchange has been in the past. The Twentieth Century Club, corner Withered and Columbia Sts., has offered us their building, free of charge, for the purpose of arranging a show on November 14th and 15th, 1911.

While profoundly thankful for the many favors shown us by the Michigan Cut Flower Exchange in the past years, we cannot help but cheerfully grasp the opportunity to display our product without crowding it together within a few square yards, and at the same time, we can ask the public to view our work by paying a small admission fee.

The name "Show" is perhaps too large a name to use because it shall be nothing but our Annual Fall Exhibition distributed over a larger space; in other words, this year will be an attempt to creep without any extra expense to speak of, but simply a lesson so we may be able to "walk" and have a real show in another year.

Prizes to be distributed will be primarily "Certificates," and the points will be so arranged that large growers and small growers have the same opportunity.

Considering that many friends in our trade as well as outside will be glad to offer prizes, your committee has decided to solicit the donations of "Cups" for which the same rules of competition pertain as for the Certificates.

Retailer please observe that several small rooms are at your disposal in this building to make any display you desire. Kindly post this committee as to your wants at an early date.

All of us remember November 14th and 15th.

Let us all help together and we are bound to succeed for the benefit of all.

CHICAGO FLORISTS' CLUB.

All flowers for the novelty exhibition of the Chicago Florists' Club should be shipped, express prepaid, to A. T. Pyfer, secretary, 30 E. Randolph street, Chicago, Ill., to arrive on the afternoon of Thursday, November 2nd.

C. W. JOHNSON,
Manager of Exhibits.

CHRYSANTHEMUM SOCIETY OF AMERICA.

The annual exhibition will be held at St. Louis, Mo., on November 7-11. Blooms must be staged by noon on November 8. Entries to be made to Otto G. Koenig, Sec'y St. Louis Horticultural Society, 6473 Florissant Ave., St. Louis, or to Chas. W. Johnson, Sec'y Chrysanthemum Society of America, Morgan Park, Ill.

Special prizes are offered as follows:

Chrysanthemum Society of America Prize—Best 10 blooms of any one variety, Silver Cup.

Jerome Jones Prize—10 blooms Mrs. Jerome Jones, 1st, \$15.00; 2nd, \$10.00.

Elmer D. Smith Prize—12 blooms in 12 varieties, introductions of 1910 and 1911, shown in separate vases, not less than 12-inch stem, 1st, \$15.00; 2nd, \$10.00.

William Wells Prize—3 blooms Mrs. G. C. Kelly, 1st, Gold Medal; 2nd, Silver Medal; 3rd, Bronze Medal.

William Wells Single Chrysanthemum Prize—6 sprays of Miss Hilda Wells, 1st, Gold Medal; 2nd, Silver Medal; 3rd, Bronze Medal.

Chas. H. Totty Prize—6 blooms F. E. Nash, 1st, \$15.00; 2nd, \$10.00.

Henry A. Dreer Prize—6 blooms yellow seedling of American origin, \$10.00.

Philip J. Foley Prize—6 blooms white seedling of American origin, \$10.00.

J. C. Vaughan Prize—10 blooms pink of American origin, Silver Cup.

Peter Henderson Prize—6 blooms Crimson or Bronze seedling of American origin, \$10.00.

Lord & Burnham Prize—10 blooms any color, never before exhibited in this country, Gold Medal or cash \$20.00. Open to all American or imported varieties.

E. G. Hill Prize—10 blooms Emberta, \$10.00.

E. G. Hill Prize—10 blooms Well's Late Pink, \$10.00.

E. G. Hill Prize—10 blooms Golden Gem, \$10.00.

Hitchings & Co. Prize—30 blooms 6 varieties, 5 blooms each, not less than 18-inch stem, Silver Cup.

Work of Committees.

Cincinnati, Ohio, October 14.—Sport of Glory of Pacific, Jap., color white, exhibited by Henry Weber Sons, Oakland, Md. Commercial scale; color 16, form 12, fullness 10, stem 15, foliage 13, substance 12, size 8; total 86.

Mad Michael Gorday, Jap., color pink, exhibited by E. G. Hill Co., Richmond, Ind., Commercial scale; color 15, form 13, fullness 10, stem 14, foliage 11, substance 14, size 8; total 85.

Sport Gloria, Inc. Jap., color white, exhibited by Elmer D. Smith & Co., Adrian, Mich. Commercial scale; color 16, form 12, fullness 8, stem 14, foliage 12, substance 10, size 9; total 81.

Chicago, Ill., October 14.—White Gloria, Inc. Jap. exhibited by Elmer D. Smith & Co., Adrian, Mich. Commercial scale; color 18, form 10, fullness 9, stem 13, foliage 13, substance 12, size 10; total 85.

CINCINNATI FLORISTS' SOCIETY.

There was a good attendance at the special meeting of the Florists' Society. The entertainment committee reported possible places for entertainment of visiting florists during the show. The time, place and affairs selected by the Society was a Dutch lunch and smoker at the Bismark, on Thursday, Nov. 16 at 8 P. M. Judging from the committeemen's promise that it will be the "best ever" we are sure to have something worth while. The Flower Show's executive committee reported that another silver prize cup had been given, and would be used for the table decorations. The Sefton Manufacturing Co. are the donors.

THE HITCHINGS CUP.

The accompanying cut shows the silver cup offered by Hitchings & Co., for award at the forthcoming exhibition of the Chrysanthemum Society of

America, to be held in St. Louis, Mo., on November 7-11, inclusive. The Hitchings cup is offered for the best thirty blooms of chrysanthemums, six varieties, five blooms each, not less than 18 inch stems.

WESTCHESTER AND FAIRFIELD HORTICULTURAL SOCIETY.

The first annual exhibition of this young and vigorous organization will be held on Friday and Saturday, Nov. 3rd and 4th, at the Casino, Stamford, Conn. We are informed that it will be something quite out of the ordinary and well worth a visit.

CLUB AND SOCIETY NOTES.

J. K. M. L. Farquhar of Boston gave a practical talk to the Civic Association of Gloucester, Mass., on Tuesday night, October 24, on Autumn Work in the Garden.

The topic for consideration at the meeting of the Horticultural Club of Boston, November 1, will be New Chinese Plants on which E. H. Wilson will give an address to be followed by discussion opened by J. A. Pettigrew and Jas. F. M. Farquhar.

The trade in Detroit are becoming very enthusiastic over the fall flower show, November 14 and 15th and everything points to a great success of this, the first show arranged in ten years. Many cups are being donated locally as well as by outsiders.

On Monday evening, October 23, J. K. M. L. Farquhar of Boston addressed the Connecticut Horticultural Society at Hartford on the subject of Horticulture in Japan, illustrated with numerous stereopticon views. The hall was well filled and the lecturer was given an ovation.

Chicago florists are looking forward to another treat at the next regular club meeting, Nov. 2, which will be Chrysanthemum Day. Among the guests expected is E. G. Hill of Richmond, Ind., who will be here in the double capacity of exhibitor and speaker. He will receive a hearty welcome.

Among the fine groups at the fall exhibition of the Lenox (Mass.) Horticultural Society on October 25, that contributed by Julius Roehrs Co. was

especially admired. Among the orchids included was the handsome new *Cattleya labiata* var. Lenox, white flower with dark lip. *Cattleyas*, Miss Williams, × Edward, × Portia, Dow-lana, superba and Bowringiana, Laelia Gouldiana and Vanda coerulea were all well displayed.

The Executive Board of the St. Louis Horticultural Society held a meeting, October 17th, and made all arrangements for the coming Flower Show to be held at the Coliseum, November 7th to 11th. The Chrysanthemum Society of America will meet the same week here, and the show promises to be a large one.

The officers of the St. Louis Florist Club met at R. J. Windler's residence on Monday night, October 23rd, to perfect arrangements to entertain the visiting florists during Flower Show week. Another meeting will be held by the officers before the next meeting of the club.

During Recess

New York Bowlers.

One needn't bowl at all—just sit or stand and watch the gyrations—the wireless idiosyncrasies—the hopes and valetudinations, the individual peculiarities of those who bowl, and one can have a good night's fun with a deep insight to the funnyisms of human nature.

But, above all, 'tis indeed good to meet and chat and forget the troubles connected with business. A new life seems to have given strength to the bowlingly inclined of this city, with Scott president, and Chadwick captain, and a jolly crowd of good fellows behind them with plenty of matches with local teams in prospect. We are sure to have many a merry night on the alleys this winter. The scores on last Friday night were:

Ch'dw'k,	206	179	212	Holt,	132	131	126
Manda,	165	162	155	Lenny'd,	101	179	157
Re'd's,	167	195	121	Nugent,	73	57	165
Scott,	169	83		Weston,		64	92
Shaw,	144	117	97	Pepper,		75	72
Keloid,	154	198	161	Irwin,		127	157
Young,	92	86	100	D'Alb's,		151	195

Why not have a series of challenge games between all the clubs? Have the games supervised and otherwise officially attended to same as in other sports or international games. A championship banner or trophies would be a great incentive. Think it over, boys! Games could be held on club's own alleys. DONLAN.

Chicago Bowling League, October 18.

ORCHIDS				VIOLETS			
Hobbs,	154	144	171	Reign'd,	145	161	206
Griff,	171	221	170	Hick'n,	142	160	180
Duggan,	120	153	147	Wh'f'r,	127	98	115
Barby,	133	133	179	Wh'man,	154	179	162
Zech,	162	189	149	Ryers,	156	198	160
ROSES				CARNATIONS			
O'Connor,	88	132	132	Loren't,	144	161	122
Stack,	122	169	179	Avros,	129	166	130
Schub'n,	121	108	106	Schub'n,	126	139	120
Hess,	145	155	141	Balloff,	145	147	152
Bocher,	155	170	185	A. Zech,	150	138	196

The schedule of the third annual tournament of the Chicago Florists' Bowling League, covering from Oct. 4, 1911 to May 15, 1912, is out. It has a tempting list of prizes in money, jewelry, umbrellas, etc., besides the silver cup offered by Zech & Mann for the individual champion.

CHRYSANTHEMUMS.

Read Before Chicago Florists' Club, October 5th, by Elmer D. Smith.

When I promised your worthy President a paper on Chrysanthemums, I did not fully realize the responsibility thus assumed, or I would have been more reluctant in accepting his kind solicitation. Although most of those present are directly or indirectly interested in this subject, yet I venture the large majority do not consider the volumes that have been written during the past decade treating upon every phase of this important branch of Floriculture. The trade papers have from time to time presented excellent cultural notes, and several books have been published by able writers, so that our files are filled with compilations of exceptional merit, and adequate to the needs of this vast country.

Confronted by these facts, it would be the height of folly to attempt to offer food for thought along new lines. The tillage has been nearly or quite complete. And furthermore, this is a very complicated subject when we consider its diversified interests. For these reasons it would seem wise to present only the most important features and presuming the majority of your members are most interested in commercial cut blooms, I will endeavor to give attention to this aspect.

The Early Varieties for Cut Bloom.

Before discussing cultural methods let us first consider best varieties for our purpose. As the early kinds are first on the market, they are naturally initial in these deliberations. I have some misgivings in mentioning those I consider best for this purpose, as it may appear egotistical on my part inasmuch as the earliest White, Yellow and Pink originated with us. Smith's Advance and Golden Glow are the earliest white and yellow and may be had from July onward. Unaka for October first is the earliest large flowering pink. There has been considerable discussion as to the propriety of having varieties which mature before the last of September; this point must be determined by those engaged in this industry. Personally, I would not advise growing in large quantities for the wholesale market, unless the crop is controlled so as to bring them in about September 15th and later. The grower who retails his products, may with impunity provide limited quantities earlier in the season, and use them to good advantage.

For early blooms the most important feature is early planting, and just when this should be done depends upon the date they are to be cut. Smith's Advance and Golden Glow planted the first of May and buds selected about June 25th should mature the last half of August. Successive plantings up to early June and securing the first bud, will give a continued crop of late October. Unaka, planted May first with buds secured August 5 to 10, should all be ready to cut the first half of October. As it is a strong grower, with stems four feet, incurved blooms over 6 inches in diameter, and very similar to Wm. Duckham in color (possibly a little brighter), it has no rival as an early pink. At the present time October Frost and Donatello are making their appearance. Both are good to follow Smith's Advance and Golden Glow, but should be planted in

May or early June to secure best results.

For October 15th to November 1st we would plant Oroba, a white coming in a few days in advance of Ivory, producing larger blooms and of a splendid sturdy, dwarf habit.

Chrysolora for yellow is unsurpassed for this period, being larger than Col. D. Appleton and 15 days earlier, has stronger stem and of the best incurved form. Gloria would be our choice for pink.

These three, like the earlier kinds, are more satisfactory when planted fairly early, not later than June 15th and secure buds about August 15th, which should insure the crop cut and out of the way before the mid-season or November varieties are ready.

Mid-Season.

This brings us up to the mid-season varieties which are so numerous, and in fact there are so many good kinds to select from it does not seem necessary to mention them. The above remarks apply to late flowering section.

Pompons, Anemones and Singles possess the desired qualities to a degree, and are of special value to those who retail their cut and cater to the best trade. They lend grace and beauty to floral arrangements; in fact, the best effects can not be attained without them. The Singles are more fragile and are not so well adapted for consignments that necessitate re-handling.

Soil is the first item to be considered under head of cultural methods. Old sods, cut thin, from a moderately firm soil and piled with one-fifth to one-sixth their bulk of cow manure, six months in advance, furnishes the best material for filling the bench. Some advocate larger quantity of manure, but we find the plants do not need it in their earlier stages of growth, also the wood is firmer and ripens better than where nitrogenous matter is abundant. We prefer giving food later when the plant is strong and the roots active.

Those who wish to utilize old soil, will meet with very good success by using half new and half old. We prefer placing the new at the bottom of the bench, and if prepared compost is not at hand, fresh cut sods chopped and put through a soil mixer will make an excellent substitute.

Planting Time.

As previously stated, the early sorts should be planted if possible early in May. We have calls for early varieties late in July, but the fallacy of such a course is apparent when we consider that instead of planting they should be selecting buds.

The mid-season and late fall flowers will do well if planted in June; it is true fairly good results are the outcome when this operation is deferred to the succeeding month, but the flowers are seldom as large and fine in finish as those which have had ample time to develop a strong plant before selecting the buds.

Early planting in only moderately rich soil gives the best stem and foliage for the commercial grower, namely, smaller leaves on short jointed and firm wooded stems. With the foundation constructed thorough and complete, the building of the bloom will practically take care of itself.

From this time on until the buds appear weeding and watering are the most urgent matters requiring attention. Less water will be required during the first stages of growth, with increased quantity as they gain strength and more foliage.

Time for Taking Buds.

The date for the buds to appear is governed to a large degree by the climatic conditions. During my visit in California (the State of many climates), I was much impressed by the fact that those portions of the state enjoying a cool air produce the earliest blooms and the late ones are from localities more torrid.

At Los Angeles I was told the first in the market come from the growers near the coast, with the late ones from the foot-hills of the mountains only 20 miles distant. No fixed dates can be given, as they vary according to the conditions of the weather during July and August. The cooler the earlier and the warmer the later this change in construction takes place.

On one occasion we had W. H. Chadwick immediately follow Ivory and at other times they have been 60 days apart. With an average season in this section, flowers for September are from buds selected about July 1 to 15; for October, August 1 to 15; for November, August 25 to September 15; for December, September 20 to October 10th. The dates given are only approximate at best as some varieties develop more rapidly than others.

The bulk of Chrysanthemums are planted from June 15th to July 15th, and those best adapted for this purpose are such as produce perfect blooms from buds selected from August 25th to late September. Many of the kinds shown at the exhibitions look beautiful, but are often misleading to the novice, for when placed under the conditions which usually prevail on commercial places are useless. It is far better to rely upon the judgment of some competent person, than to select from the show boards unless you are well versed in these matters.

Light and Nourishment.

I am pleased to state that shading is not practiced as much as in former years. Sunlight is a prime factor in producing strong, sturdy growth. A light shading is, however, highly beneficial to all varieties showing color before October and it is often necessary to continue later, provided bright sun prevails and the temperature rises above normal.

What form of nourishment to supply is a topic of considerable importance. Very few growers entirely agree on this subject. Bone meal, cow, sheep, and in fact, almost any kind of manure is beneficial, but their real value depends upon the amount of plant food they contain, when considered in ratio to price paid. All or part of those mentioned, may be essential in the production of the very largest blooms, which find their way to the exhibitions, but if my object was solely the production of high grade commercial stock, I would prefer a complete concentrated chemical fertilizer, say one containing about 50 per cent plant food. While it costs more per pound than the natural products, it will supply nearly 100 times the amount of the required elements,

namely, nitrogen, potash and phosphoric acid. To make this comparison more comprehensive, one pound of such chemicals is equal to nearly 100 pounds of manure. The first cost would be greater for the chemicals, but we should bear in mind that the entire 50 per cent plant food is available as soon as put into solution. On the other hand, the manure requires considerable labor to bring it into such a form. In the first place, chemicals are placed in a tank of water, and in a few hours are ready to apply with a hose, and in the second the material must either be used in the form of top dressing or reduced to a liquid before it is available. I am frank to admit there is less danger in injuring a crop with manure than chemicals, unless the latter is judiciously applied. Most of such materials are used too strong. Ten years ago we were applying at the rate of one ounce to five or six gallons of water, now the ratio is one to twenty. Weak solutions are much easier, affording perfect control.

Varieties of robust constitution which are usually able to assimilate more food, can be treated at shorter intervals, with the soil recommended.

Thirty pounds of such concentrated chemicals at a cost of less than \$10.00 is sufficient for 30,000 to 40,000 plants. The labor in preparing manure for such a number would alone far exceed the figures given.

Insect Control.

There are a few insects which must be kept in check, if our plants are kept in a healthy condition. Aphis are the most abundant. The past two years we have used hydrocyanic acid gas with most satisfactory results. Its advantages over the various forms of nicotine are that it kills every aphid in the house, and they do not reappear for a month or more. We have fumigated but three times since the middle of May and our stock will be clean into November.

A high grade of cyanide is most effective and we prefer the sodium to the potassium form. W. J. Keimel, Elmhurst, Ill., suggested in one of the trade papers one pound of Paris green to five pounds of brown sugar, using one ounce of this mixture to one gallon of water for thrips. We find this is equally effective in destroying the larva of the leaf tyer and does not discolor the foliage.

The achievements in floriculture are not wrought by any one thing we do, but by the many things given attention at the proper time, and chrysanthemums are no exception to this law. I think all of you will agree with me that superiority in knowledge is not as essential as the ability and energy to attend promptly to every detail, which are of vital importance in marking the degrees of our success. Nature provides a way and we endeavor to assist.

PHILADELPHIA NOTES.

Next Monday will see Roger Bros. comfortably installed in their new and more commodious quarters at 140 North 13th St.

We have been asked several times what's new in roses and carnations for 1912 that are really worth while. We venture no opinion, but the city is, in these advanced centers. Double White Killarney and Lady Hillingdon in roses, and Wodeneth or White Won-

WHITE GLORIA.

A sport from Gloria identical in every particular except color which is white with a slightly creamy cast. An introduction by Elmer D. Smith & Co.

der in carnations. To an outsider they seem to have the earmarks of winners and are worth investigating.

B. Cartledge, Samuel S. Pennock and John Westcott, the local judging committee of the Chrysanthemum Society of America have had an easy time of it so far this season. Last Saturday there was but one claimant for their attention a pink incurred from A. Lotze, Glenburnie, Md.

Edward A. Stroud, carnation grower, is branching out and has added hardy plants, shrubs and evergreens—quite an extensive and very select collection. He has specialized for several years on hardy spray chrysanthemums. He has a new one which he calls "Pink Garza," which he thinks a great deal of and expects to be able to offer to the trade in quantity next March.

The steamer Prinz Adelbert, just arrived, had a phenomenal shipment for M. Rice & Co. of this city. Christmas baskets and their new pebbled pleated paper were conspicuous elements of the importation. The basket display resulting has taken the town by storm, and largely increased store space has been found necessary to give the public an adequate idea of the extent and variety in store for the holidays.

Visitors: Bernard Hobbs, representing Mann & Brown, Richmond Va.; the two Dudleys, Parkesburg, W. Va.; H. L. Holmes, Harrisburg, Pa.; Wm. L. Farrell, Baltimore, Md.; W. C. Langbridge, Cambridge, N. Y.; Percy B. Rigby, of Pennock-Meehan Co., N. Y. City; also a number of distinguished drummers who did not call on our correspondent for fear, perhaps, they might be asked why their house did not advertise in the youngest and best of all the horticultural trade journals. Well, what else could it be? We wouldn't eat them!

NEW ENGLAND FRUIT SHOW AWARDS.

Winners of the principal prizes at the New England Fruit Show have been announced by the judges. New Hampshire won the first prize of a gold medal and \$100 for the best state exhibit, Massachusetts winning the second prize of a silver medal and \$50. Connecticut won third prize, a bronze medal and \$25. These prizes were for the best exhibit by any state or state organization of 100 boxes and twenty barrels of apples. Quality of fruit, packing and general arrangement were largely considered in awarding prizes.

C. E. Hardy won the Governor Foss cup for the best display of Baldwin apples. The silver shield given by Governor Pothier of Rhode Island for the best exhibit of Rhode Island greenings was awarded to Alfred Durgin of Newmarket, N. H. The International Apple Shippers' Association cup was captured by Conyer's Farm of Greenwich, Conn., and the \$25 offered by the W. & B. Douglas Company of Middletown, Conn., for the best barrel of King apples, was awarded to Elijah Rogers of Southington, Conn.

For display of apples of any one variety, containing two barrels, two baskets and ten plates, the following prizes were given: C. W. Hubbard of Salisbury, N. H., first (Baldwin), \$50; second, Turner Hill Farm, Ipswich (Vernon), \$25; third, C. E. Hardy of Newmarket, N. H. (Baldwin), \$25.

Morrison, Ill.—A new cucumber house of the R. R. Davis Co., just completed, has concrete foundations and pipe frame; the floor and beds are of cement. An eighty horse-power boiler has been installed.

CHICAGO NOTES.

Trade Items.

Geo. Yamakos, a nephew of Johnson of the firm of Johnson & Chronis, is opening a store at 4630 Evanston avenue.

Frank Oechslin is receiving three carloads of azaleas this week, all of which are to be used for flowering for the Chicago market.

It is reported that one of the large department stores has placed an order for fifteen thousand small shamrock plants for St. Patrick's Day.

Steve Miller expects to enter the florists' business again soon by opening a retail store on the north west side, near Milwaukee and Powell avenues.

Three horses and a wagon were stolen from the greenhouses of Vaughan's Seed Store, at Western Springs, Ill., last week and have not yet been recovered.

Lloyd Vaughan says the shipping trade demands the Killarneys and Richmonds almost exclusively in roses. The newer varieties are not so popular as these standbys.

Arthur Eichel, of the Mount Greenwood Cemetery Association, has the August Koeble place at 4228 North 40th avenue. Mr. Koeble will have charge of his mother's place at 1933 Irving Park boulevard.

The various parks will have their chrysanthemum shows, beginning early in November. The conservatories will be open till ten o'clock each evening during the display, which this year promises to be very fine.

Chicago experienced its first severe frost of the season, October 23rd, the thermometer registering 27 degrees at Frank Oechslin's and 22 degrees at Geo. Wittbold's, at Edgebrook, where considerable ice formed. The government thermometer, however, recorded 40 degrees as the lowest.

Among the real estate transfers of the past week was the sale of the property in which is located the retail store of J. Mangel, corner Wabash avenue and Monroe street. This is one of the choice corners of the downtown district and the present building will be replaced by a large office building.

The Geo. Wittbold Co. has its new rooming house well under way and it will be a great convenience in caring for the many employees necessary in so extensive a business. The floors are to be of cement and everything made sanitary as well as convenient. This firm is extremely busy filling orders for nursery stock and with the prospect of a short season orders are coming in rapidly.

Personal.

A. Chronis has returned from a trip to Greece.

P. J. Foley has lately returned from a trip to Minneapolis.

Wm. Johnson, formerly with the Batavia Greenhouse Co., is now with Vaughan & Sperry.

Frank Ayres left October 26th for Texas and Arkansas, where he will assist in settling up an estate of which he is one of the heirs.

Frank Burton is now in the office of

A Great Exposition

The First Show of the American Land and Irrigation Co. will be held November 3rd to 12th in Madison Square Garden, where the products of the soil from all parts of the country will be displayed.

SEE

\$20,000 IN AWARDS

W. E. MARSHALL & CO., 146 West 23rd Street
NEW YORK

the E. H. Hunt Co. as assistant book-keeper. A. F. Longren has gone on a trip carrying a lot of samples of new goods for the holiday trade, among which are some novelties in baskets.

T. C. Joy and bride are calling on the trade this week. Mr. Joy is the grandson of Thomas Joy, the founder of the greenhouse business at Nashville, Tenn., and was fortunate in buying up a tract of land which afterwards became a part of the city.

OBITUARY.

W. D. Oviatt.

W. D. Oviatt died suddenly at his home on Highland avenue, Rochester, N. Y., on October 9th. He was for many years a grower in his home town and had been in poor health for some time.

John Fraser.

John Fraser, florist and landscape gardener, of East Quogue, N. Y., committed suicide by shooting on October 8th. He was 60 years of age. Despondency over the death of his wife is supposed to have been the cause.

Mrs. Lillian J. Lesure.

Mrs. Lillian J. Lesure, wife of Clyde A. Lesure, florist, died at her home, 272 South street, Fitchburg, Mass., on October 19th, aged 29 years. She had a wide circle of acquaintances in this and other cities to whom the news of her death came as a severe shock.

Albert N. Cole.

Albert N. Cole died October 22 at his home on Hodges street, Mansfield, Mass., aged 84. Mr. Cole was for many years gardener on the fine estate of John Rogers. He recently resigned because of ill-health. His wife died last winter. He lived with his only child, Mrs. Egbert Cole.

Temple, Texas—J. R. Boyd informs us that he is building two houses, 20 x 90, instead of one as reported. He is starting a new floral and nursery business under the name of the Temple Seed & Floral Co., with a Mr. Damier.

INCORPORATED.

Charlottesville, Va.—The Sky Land Orchard Co., capital stock \$5,000 to \$15,000.

Melrose Park, Ill.—Elmhurst Floral Co., capital stock \$10,000. Incorporators, Herman Weiss, Paul L. Haertel and William H. Reich.

Washington, D. C.—The Washington Bulb Co., capital stock \$1,000. Incorporators, Oscar W. D'Alcorn, Edward P. Rodman, and John E. Melton.

Rochester, N. Y.—"Campbell, the Florist," capital stock \$1,000. Directors, Edward C. Campbell and Jesse P. Campbell of Rochester, and Charles Gallery of Gates.

Seed Trade

Too Much Rain.

While no reports have reached us, it seems certain that the heavy long-continued rains of the past week must have caused considerable damage to all late outstanding crops, and particularly beans and corn. Prior to the past week of rain much damage had been done to beans and it was generally understood by the growers of Michigan and Wisconsin that their bean crops had deteriorated from 25 per cent to 30 per cent within the past three weeks. We are fully prepared to hear that this damage has been further augmented another 10 per cent, by the last long-continued downpour. Comment on the weather is useless as practically everyone has already exhausted his vocabulary of adjectives. "Guss words" included.

A New High Record for Prices.

The prices, or rather, suggestive values, as they are called by the wholesale seedsmen's lingo, are just out, and they certainly establish a new high record for prices. No one has ever seen standard varieties of peas, beets, carrots, parsnips, parsley and many other items at such extreme

THOMAS ROLAND,

Nahant, Mass.

The advertisements which appear in this column have all been written by Ralph M. Ward personally. They are prepared sometimes on the spur of the moment, perhaps during his hour ride on the Reading Railroad every morning and evening, or whenever he feels so inclined and in his various moods. Of course, some you do not like, and some you tolerate, and we have been told some have done us harm. Those which have done us harm have necessarily done others good and we are not so jealous of our competition as to deny them their portion of business. Mistakes are made by Mr. Ward occasionally and sometimes big ones, but we are working away just the same, hoping to improve until we reach that age when we begin to decline, as all men do, and when that time comes we want younger blood to take the reins; continue boosting what is right and make away with the ways and means of bye-gone days. Our business is to sell bulbs—especially lily bulbs—we have no seed store—we sell wholesale only. We import what we sell direct and our sources of supply are reliable actual growers and not merely exporters or dealers. Our aim is to induce growers to buy the best and we discourage the sale of inferior bulbs—for two good reasons: first because a grower cannot succeed in handling inferior bulbs and secondly a permanent business cannot be built up in bulbs alone unless one delivers the very best that can be procured. Write for prices on Horseshoe Brand Bulbs.

prices as given in this list. We are of course, not criticising it in any way, as we assume that those who formulated these figures are better qualified to deal with the matter than we are, but we simply could not help a long breath when we first beheld these prices. It is the general opinion of the trade that abnormally high prices are unhealthy and likely to produce demoralization in some form in the not distant future. One of the usual results is that every producer will strain to the utmost to produce crops of the very short varieties, with the result, as has frequently happened, that in from one to three years an exact reversal of form has taken place. We doubt very much if prices will ever revert to the low levels of ten or fifteen years ago, but we certainly look for a sharp reaction from what in a sense may be termed "present artificial values."

An Unusual Request.

In this connection a circumstance rather unusual thing has come to our knowledge and one on which the trade seems to be more or less divided. We are informed that the representative of a great European seed house has been interviewing their customers who have contracts with them for the crop of 1912 of beets, carrots and other biennials with a view of inducing them to agree to pay an increase, varying from 4c. to 5c. per pound over the contract figures agreed upon previously. The reason for this, it appears, is that the supply of roots for these crops in 1912 is very short, many of them being so small that the farmers will not take the trouble to save and transplant them unless they receive an additional price from the seed grower. The latter firm claims it is not willing to bear this advance and cannot afford to; therefore, it has called on all of its customers to agree to pay the premium demanded by the farmers, which so far as we have heard, the seed trade of this country has unanimously agreed to do. We do not wish to criticise this concern, but it would seem to us that it was rather up to them to pay the bonus which they are asking the seed trade to pay for them, and they could have easily recouped themselves by the advanced prices which they will naturally ask during the next two or three years. However, this matter is really of only indirect interest.

We have referred already to the scarcity of seed stocks of peas, and it would seem to be the part of good enlightened business to place contracts at as early a date as possible for peas. We have been repeatedly told by well informed persons in the trade that there will not be seed stocks enough to satisfy the demand of the seedsmen and canners, and those who do not want to be left at the post should arrange for their requirements as soon as the growers have issued their contracting prices for the 1912 crop. Many tardy ones had their orders turned down last spring, and the same fate awaits the tardy again this year, only earlier than usual. We shall try to continue reporting the latest bulletins on this subject until the actual situation becomes known.

Wholesale Seedmen's League.

In looking over the list of prices issued by the Wholesale Seedmen's League, we find many items omitted

entirely, though in some instances a note informs the dealer that last year's prices are considered applicable at the present time; but there is one important item which seems to have been entirely overlooked—that is spinach. No prices are given and no mention is made of this item, which we assume is simply an oversight. We are informed that Lem W. Bowen was elected a member of the Wholesale Seedsmen's League at its recent meeting in New York, also that Mr. Bowen was elected a director. We think that the seed trade is to be warmly congratulated in securing the active cooperation of so important a house as D. M. Ferry & Co.

The Onion Crop.

We have not received information regarding the total onion crop of the country thus far this year, but such information as we have indicates that there is a heavy shortage which is fully borne out by the strong prices now ruling. Very few onions are still in the first hands—that is, the farmers. Almost all of them have been bought by the dealers who, whether in a combination or not, seem to be shipping them to market just fast enough to keep the appetite keen, without at any time causing congestion and the lowering of prices. This is generally regarded—that is the high price of onions—as an exceedingly favorable sign that onion seed will be in active demand the coming season. Experience has shown quite conclusively that when onions have sold readily at strong prices there has been active demand for seed. So mote it be.

Samuel Whitefield, for the past eleven years bookkeeper for Weeber & Don, has resigned his position to take charge of the office of W. E. Marshall & Co., 115 West 23rd Street, New York.

Wholesale Grass Seed Dealers' Association.

An adjourned meeting of the Wholesale Grass Seed Dealers' Association of the United States and Canada was held Oct. 18, at the Sinton Hotel, Cincinnati, O. This meeting, which was adjourned from the annual convention at Marblehead, Conn., last June, was called together to complete the work of the year, as the election of officers, reports of committees, etc.

The following firms were represented at the meeting: Albert Dickinson Company, Chicago; Illinois Seed Company, Chicago; Plant Seed Company, St. Louis, Mo.; Charles E. Prunty, St. Louis, Mo.; Schisler-Cornelli Company, St. Louis, Mo.; D. L. Bushnell & Co., St. Louis, Mo.; S. G. Scarlett & Co., Baltimore, Md.; J. Charles McCullough, Cincinnati; The J. M. McCullough Sons Company, Cincinnati; S. N. Flower & Co., Toledo, Ohio; Joseph Breck & Sons Corporation, Boston, Mass.; National Seed Company, Louisville, Ky.; Henry Nungesser & Co., New York, and Barteldes Seed Company, Lawrence, Kan.

The following officers were elected: President, Albert McCullough, of the J. M. McCullough Sons Company, Cincinnati; vice-president, Charles D. Boyles, of the Albert Dickinson Company, Chicago, Ill., and secretary and treasurer, S. G. Scarlett, of S. G. Scarlett & Co., Baltimore, Md.

carnations all look well.

Salem, Mass.—Henry T. Conant,
florist, Essex street, has taken a 10-
year lease of a lot a little farther
down the street. Excavation for an
office has already been made. A large
area at the back will be used for
greenhouses.

Detroit, Mich.—Geo. Brown has ap-
pointed a committee to visit Mr. Stahe-
lin's place once a month and report
to the florist club on the carnations
grown under movable houses.

The Michigan Cut Flower Exchange
has added an icebox 9 x 14 feet, prin-
cipally for carnations.

Boston, Mass.—F. H. Houghton is
now well established in his new store,
4 Park street. Old customers have
followed him to his new location and
it is thought that the move will prove
a very wise one.

Miss Comley is in charge of the
exhibit of Henry Comley at the Bos-
ton Chamber of Commerce Industrial
and Educational Exposition in Mechan-
ics' Building. It is the only floral
display there.

Harry Quint, who opened a flower
store at 199 Tremont street, Boston,
the first of October, reports business
very satisfactory.

CINCINNATI NOTES.

Mr. and Mrs. J. A. Peterson have returned from their European trip.

Chas. Pfeiffer, Jr., is taking his first vacation in years. He is visiting friends in Idaho.

P. W. Peterson carried with him a number of Flower Show posters on a business trip which he started on Monday.

Mr. and Mrs. Ray Murphy lost their infant daughter, Evelyn Ruth Murphy, on Tuesday morning. The florists sympathize with them in their sad bereavement.

C. E. Critchell and the Cincinnati Cut Flower Exchange were deprived of telephone service on Saturday last from immediately after lunch time until after closing hours. A burglar stole the lead cable, containing their wires, that ran through the basement of a nearby building, now vacant.

Callers: E. J. Fancourt of Pennock-Meehan Co., Phila.; C. M. Witsch of American Foil Co., New York; W. G. Matthews, Jr., Dayton, O.

NEWS NOTES.

Spencer, Mass.—Charles H. Green has just completed a carnation house.

Boston, Mass.—The annual meeting of the stockholders of the Boston Co-operative Flower Market was held at the market, 2 Park street, on October 23d, at 9 A. M. The following directors were elected: John McFarland, W. H. Elliott, David D. Carmichael, Ed. Wood, Robert Montgomery, Norr's F. Comley, James Wheeler, W. W. Tailby and Elijah Cartwright.

NEW FLOWER STORES.

Gary, Ind.—Walter Krysgorski.

Ardmore, Pa.—Miss Nora Ohl.

Pascoag, R. I.—Thomas Kennedy, Ward block.

Chicago, Ill.—Steve Minon, Milwaukee and Powell avenues.

Hartford, Conn.—John Brodrib has opened a floral department in the store of Wise, Smith & Co.

New Brunswick, N. J.—John Clark will soon move into a new store, 77 Church street, his present quarters, 86 Church street, being too small.

Flower Market Reports

BOSTON

Business has dropped off somewhat this week.

Chrysanthemums are accumulating and the result is as heretofore—a setback for the all-the-year-round staples in demand and in price. Roses of all varieties are plentiful and of good quality, the higher grades enjoying the best call. Carnations are better but lower in price. Lily of the valley is not up to usual high class—in fact, the most of it is in the No. 2 class. Violets abound, with prices low for this season of the year, but horse show is soon due and an improvement is to be expected. Lilies are somewhat short in supply. Gardenias vary from the small bruised and unsalable stuff which will hardly bring the price of a good carnation to the exquisite product which sells for \$3 a dozen blooms at wholesale. Orchids abundant and not easily disposed of. Outside markets are unloading cattleya surpluses on this market with ill effect on the local stock.

BUFFALO

Autumn weddings and other social functions

are in order, but there has been no special demand on any certain line; at least, it was not noticeable. On Monday, shipments were heavy, and on Tuesday (an all day rain) the demand was light. Dahlias, cosmos and gladioli were in heavy supply and it seemed as if the summer days had returned. Chrysanthemums are abundant, especially Kalb, October Frost, Monrovia, Bergmann, Polly Rose and Pacific. Blooms small and stems from eight to twenty inches, and only useful for floral work. Of the better grades some good Halliday, Tousey, Pacific Supreme and White Cloud are received. Other stock in good supply. Carnations are in poor demand, and accumulating to some extent. Colder weather is looked for, which will be well for the trade in general.

CHICAGO

A very cheerful tone now pervades the market as a whole and the

reports from the various houses bear a striking similarity to each other. Just enough stock to go around, day by day, and opportunity to see what your neighbor can supply when the big orders come in late, make the fall business seem fairly under way, as it surely is. There may be those whose books show more profitable Octobers but with out-door flowers lingering till now, the volume of sales is very gratifying. The only flowers that can really be said to be in abundant supply are the chrysanthemums of which there are more than usual for the season. It looks now as if there might prove to be an over supply before the height of the season. The pompons are now coming in also and some report sales of these in excess of the large varieties. There is a decided shortening up of the rose supply, continued cloudy weather being responsible for much of it. Beauties are fine and the demand fully equals the supply. Carnations, especially good in size and quality are seen. The finest noted this week are in white and light pink. Lily of the valley is excellent. Comparatively few violets are in, the season for them being scarcely open here. Dahlias and a few gladioli are

AMERICAN BEAUTY

A sample illustration from our general Catalogue of Ribbons and Supplies. Pattern American Beauty or No. 1614. Quality far superior to the many imitations offered. No. 40 width, \$2.00 per piece of 10 yds.; No. 80 width, \$2.75 per piece of 10 yds.

BOXWOOD SPRAYS

New crop. Fresh and glossy. No surplus wood. 50 pound crates. \$15.00 per 100 lbs.

The P/M Ribbons

For many years have been acknowledged leaders both in style and quality; each season we have added new creations more beautiful than the last, aiming always to have a ribbon of pleasing and harmonizing shades for each novelty as it is introduced, whether it be a rose, carnation or sweet pea. It matters not "A ribbon for every flower, old and new," is our slogan. This season is no exception to this, our custom. We having added many new and beautiful shades shades that cannot be found elsewhere. Customers re-ordering time after time, demonstrates to us that the P/M quality ribbons are and must be by far the best. Samples and prices for the asking.

all that is left of the out-door stock and the last are on the counters this week. There is a good supply of all kinds of green stock, home grown and from the south.

The words "variable and easy" describe very aptly the condition of the market. It is variable be-

cause the demand occasionally slackens for a day or so. It is easy because the supply is as a whole larger than the demand. The outside flowers, cosmos, dahlias, gladioli, are still in the market and are holding down prices. Last week the market on tea roses was very light. This week thus far it has

Flower Market Reports.

(Continued from page 573)

been easier but all are selling nicely. The cut of American Beauties is letting up somewhat. All the roses are good. White carnations are in a very heavy supply and consequently do not sell up as quickly as the others. The prices on all are easy. Chrysanthemums are in heavy supply. All the choicer and better varieties sell nicely if good and clean and not bruised. Estelle alone moves slowly but then the supply is so large of this last that the sales are not as noticeable as in the other varieties. Lilies, while not enjoying a good call, still are good property. Lily of the valley, double and local single violets, orchids and pansies sell quickly. There is a good market for greens.

The annual experience
DETROIT that chrysanthemums need cool, crisp weather to become quick sellers is being proven again and the many rainy days and comparatively warm weather of the past week have kept the demand for flowers in general and chrysanthemums in particular far below the supply. Pompons appear to fare better than the large varieties, being very useful for table decorations.

Mild weather continues to favor outdoor flowers—dahlias, cosmos and some chrysanthemums. The rose crop is not particularly heavy but demand lags; so, too, it is with carnations—they are not even in fair demand. Violet shipments are light—the demand equally so. There is no brisk demand for anything, gardenias excepted because of light supply. Chrysanthemums are in full swing and command the situation. Prices on the better grades are, perhaps, not so high as a year ago but seem to equal on the medium grades. The early variety, Polly Rose, Monrovia, Carmolita, Early Snow and Pacific Supreme are by no means over. Bonnafton and Appleton are here also, so taken altogether the supply is large and considering the general business conditions they are doing as well in price as could be expected. It would seem that there are just enough of cattleyas in the market and good flowers sell readily.

What between
PHILADELPHIA baseball and bad weather it was a hard week for bootblacks and the flower business. We have not had such a solid week of rain at this season for many years. There was very little business—and no chance at all—

MISCELLANEOUS

	Last Half of Week ending Oct. 21 1911		First Half of Week beginning Oct. 23 1911	
Cattleyas.....	25.00	to 40.00	35.00	to 50.00
Lilies, Longiflorum.....	5.00	to 10.00	6.00	to 10.00
Lily of the Valley.....	1.00	to 3.00	1.00	to 2.00
Chrysanthemums.....	4.00	to 16.00	4.00	to 16.00
Daisies.....	.10	to .25	.10	to .25
Violets.....	.15	to .40	.25	to .50
Gardenias.....	12.00	to 25.00	12.00	to 25.00
Adiantum.....	.50	to .75	.50	to .75
Smilax.....	6.00	to 8.00	6.00	to 8.00
Asparagus Plumosus, strings.....	to 35.00	to 35.00
" " & Spreng. (100 bchs).....	10.00	to 20.00	10.00	to 20.00

towards the end of the week—to work off the accumulations at any price. So, the less said about the tragic third week of October, the better. Let us discuss the nebular hypothesis of the creation as a diversion. At this writing, (Oct. 24), sun has been out two days, and the bad dream is at an end.

The weather continues to be unsettled and comparatively warm for this time of the year. The market for roses is improving and the stock is coming in good. Locally-grown American Beauties were never better; Radiance is all that its name implies; Mrs. Taft slightly more in demand than heretofore and Richmond coming in in considerably better shape. Lily of the valley is going good and so are carnations. Pink and white still lead in sales although there is quite a little call for reds. Lilies are going slow, due to the fact that there are plenty of chrysanthemums of fine quality and in all the colors. Dahlias are of very good quality but are in little demand. Smilax is holding fire in the local market; adiantum is moving well and Asparagus plumosus is in good demand but Sprengeri is not being called for very much. There are plenty of Oncidium Rogersii on the market and the general demand for orchids equals the supply as is the case also with gardenias; in other words, there are just enough of each. Violets are coming in good.

The local market was
ST. LOUIS in excellent condition all of the last week. The wholesalers were receiving daily a fine assortment, all of which had a fairly good demand, but not large enough to consume all the stock. Prices were not too high. Carnations are coming in much better of late.

Middletown, N. Y.—The business of Mr. Gilbert has been taken over by Jas. Lough of Staten Island, who will grow a general line of stock.

NEWS NOTES.

Logan, Ohio—J. Turner, of Pittsburgh, has purchased the greenhouse of Isaiah Vous.

Springfield, Ill.—A greenhouse will be opened here in the near future by W. Y. Perry and wife.

Upton, Mass.—The Oak Grove Nursery, L. C. Fiske, proprietor, have discontinued business.

Florence, Mass.—F. D. Keyes has finished his new greenhouse and planted it to a general line of stock.

WASHINGTON NOTES.

Hans R. Schwartz, recently with Adolph Kaiser of Annapolis, Md., has entered the employ of J. H. Small & Sons.

Alexander B. Garden of Anacostia is very active in the campaign looking toward the Sunday closing of all stores in Anacostia.

Mr. and Mrs. C. L. Jenkins last week celebrated their silver wedding surrounded by intimate friends and relatives, at their home in Suitland, Prince George County, Md.

Work on the new front which is being erected at the store of Z. D. Blackstone on Fourteenth street is progressing rapidly and upon completion the store will be one of the finest in the city.

The Washington Florists' Company, Thirteenth and F streets, N. W., are showing some very remarkable chrysanthemums and have a fine window display with these as the leaders. The background consists of a rustic arch from which is suspended vari-colored pennants bearing the word "Washington."

Miss Florence McNeice, who was formerly connected with her mother, Mrs. George McNeice, in the florist business at 108th street and Broadway, New York, and who was lately with W. J. Palmer & Son of Buffalo, N. Y., has entered the employ of F. H. Kramer and now smilingly waits upon his customers at the F street store.

O. W. D'Alcorn of Congress Heights, D. C., has called upon the local police to aid in recovering five thousand tulip bulbs which were stolen recently from a barn on the premises of the Washington Bulb Company of which Mr. D'Alcorn is the manager. The bulbs are valued at \$125 and a reward has been offered for their return.

There is another rumor rampant that Secretary of Agriculture Wilson is about to tender his resignation to President Taft, this to be effective on November 15. Former Representative Scott of Kansas, who was chairman of the House committee on agriculture is mentioned as his successor. There has been no formal announcement and, perhaps, there will be none.

The department store of S. Kanns & Sons Co., is handsomely decorated this week with chrysanthemums and American Beauty roses and enormous quantities of greens, ferns and palms, in honor of the firm's eighteenth birthday. In the center of the store is a large summer house completely covered with asparagus and other greens and gorgeous home-grown American Beauty roses. This is further set off by myriads of colored electric lights. In the center is a large vase containing long-stem Beauties. This display is a gift from the employees of the store and was furnished by Gude Bros., who also did the interior decorating. Kann's store is not a small one by any means

POTASH

Direct from the German Mines
But it takes time to get it

See your dealer now, before he contracts for his goods, and urge him to get good up-to-date brands, containing 6 to 10 per cent. potash, and to carry POTASH SALTS in stock.

There is profit in such goods both for you and your dealer.

You get more plant food for your money, your fertilizer is

better balanced, your soil fertility is conserved, and your crops are larger and of better quality. **Potash Pays.**

We will sell you or your dealer Potash in any amount from 200 lbs. up. Write now for prices and for free pamphlets giving just the facts you are looking for about improving crops and soils.

Aphine

The Insecticide that kills plant Lice of every species

Just the remedy for the black aphids on chrysanthemums—red spider and thrips on carnations—green fly on roses—mealy bug on gardenias and crotons—scale on ferns, palms and other decorative stock.

\$2.50 per gallon, \$1.00 per quart.

FUNGINE

Fungine has no equal for carnation rust, rust on chrysanthemums and mildew on roses.

\$2.00 per gallon, 75c. per quart.

There is but one convincing way for you to become familiar with the merits of Aphine and Fungine, and that is—test them out yourself—it will prove worth your while.

What the Users Say

KROESCHELL BOILER
Half the Coal and Half the Work.

"Your No. 13 boiler is carrying 25,000 sq. ft. of glass and I can keep it at 60 degrees in the coldest weather without any trouble. I have three other types of boilers also heating a range of 25,000 sq. ft. of glass, but the No. 13 Kroeschell Boiler **ONLY TAKES HALF THE COAL** and half the work to get the same results."

J. G. FRISZ, Vincennes, Ind.

P. S.—Mr. J. G. Frisz, of Vincennes, Ind., has the largest range of glass in Indiana devoted to vegetable forcing.

A REASON WHY HOUSE

The reason why that work room is so large and business like looking, in proportion to the size of the greenhouse is because the owner intends adding a large connected house alongside this one. It will be 300 or so feet long. It is a house planned with a reason — just as all houses should be planned. That's our way of doing it. Planning it with an eye for what the future may develop. Plan right—house right—heating right—and right price combined with pleasant dealing, makes a combination you can't beat—or equal. Write us.

Hitchings & Company Spring & Louisa Streets
ELIZABETH, N. J.

LILIUM HARRISII

(The Bermuda Easter Lily)

LET US supply your wants in Lilies this season

We think we can make it to your advantage to do so, as regards both quality and price.

The stock that we offer is not gathered indiscriminately from all kinds of sources, but is grown for us by a few selected growers, whose stocks have been worked up from the true, original stock. In order to ensure the health of the product, the bulbs are not grown on the same field oftener than one season, other crops being grown on the field the preceding year. The ground is thoroughly manured when the previous crop is grown, leaving it in a high state of cultivation, and when the lily bulbs are planted no fresh manure is used, and this prevents disease and ensures a crop of strong, healthy bulbs.

In addition to this, we do not dig our bulbs as early as they are usually dug, but leave them in the ground until they are thoroughly ripened and matured. When Harrisii is good, it leaves little to be desired. There is very little, if any, stock obtainable as good as the stock that we are offering. We are supplying only this one grade of selected stock, and when this is disposed of, we shall have no more to offer.

While the quality of the stock that we offer is of the highest, our prices are as low as, or lower than, the prices of those who offer the ordinary stock gathered from indiscriminate sources. We are sure buyers will find our stock very satisfactory, and much more so than the Japan-grown Longiflorum, which has badly deteriorated in recent years.

Bear in mind that we were the original introducers of Harrisii in Bermuda, and that we have exceptional facilities for obtaining our present supplies. Also take note that the smallest bulbs that we offer are 6-7 inch bulbs, not 5-7 inch, as usually offered.

6-7 inch bulbs, 335 to the case, \$15.00 per case; full thousand lots, \$40.00 per 1,000.

7-9 inch bulbs, 200 to the case, \$16.00 per case; full thousand lots, \$75.00 per 1,000.

9-11 inch bulbs, 100 to the case, \$18.00 per case; full thousand lots, \$175.00 per 1,000.

FERNS

We have an exceptionally nice lot of ferns in the following varieties,—good, bushy, well-grown plants that will please the most critical buyers. Plants have been grown in pots, and are thoroughly well established and nicely finished.

Nephrolepis Bostoniensis and Pierstoni, 6-in. pots.....\$0.50 each

Nephrolepis Elegantissima, Pierstoni, Bostoniensis, and Harrisii, heavy 8-in. plants.....\$1.00 to 1.50 each

Nephrolepis Elegantissima, Bostoniensis, and Harrisii, heavy 10-in. plants.....2.50 each

DAHLIAS Every Day in the Year

SPECIAL NOTICE

The MacNiff Horticultural Co.

62 VESEY STREET, near Greenwich Street, NEW YORK

Wish to announce a special sale on **Wednesday, November 1st**, at eleven o'clock a.m., of **Holland Stock**, consisting of Roses, Rhododendrons, Evergreens, Magnolias, Azaleas, Hydrangeas, and a general assortment of Nursery stock. Also Decorative Palms, Ferns and Bulbs.

A SPECIAL OFFER

PAPER WHITE GRANDIFLORA NARCISSUS

1250 to case at \$8.00 per 1000. *Cash with orders.*

R. W. MacNIFF, President and Auctioneer

LOUIS SCHMUTZ, Secretary

THE LATEST SILVER MEDAL ROSE

The new Sargent rose, originated by Jackson Dawson, now offered for the first time for fall 1912 delivery

This seedling combines the good qualities of R. Wichuraiana, R. Crimson Rambler and R. Baroness Rothschild which have been used in its evolution. The flowers are single, about three inches across, pale rose in color and produced in greatest profusion in pyramidal clusters all along the strong branches, blooming from the middle of May till end of June. The foliage is a beautiful glossy green and remains in good condition till late fall.

As this stock is limited book your orders early. \$1.50 each

Eastern Nurseries, 1090 Center St., Jamaica Plain, Mass.

HENRY S. DAWSON, Mgr.

Shrubs

of large sizes in quantity

Herbaceous Plants

in large assortment in quantity

Privet

White & Red in large quantities

The Elizabeth Nursery Co.

ELIZABETH, N. J.

FOR COLD FRAMES

STRAW MATS

6 x 6, - \$1.50, \$17.00 doz.

BURLAP MATS

6 1/4 x 6 1/4, \$1.20, \$14.00 doz.

WM. ELLIOTT & SONS,

42 Vesey St., New York

LORRAINE BEGONIAS

Strong 2 1/4 in. stock, ready for 3 1/4 in.

Per 100, \$15.00; 250 at \$14.00 per 100.

THOMAS ROLAND,

Nahant, Mass.

Primula Chinese

(New Christmas Red), 3-inch, \$7.00 per 100; 2 1/2 inch, \$5.00 per 100.

FERN FLATS

"Extra Strong," Winstettii, Wilsonii, Mayii, Albo Lineata, Adiantoides, \$4.75 per flat. Everything 2 seasons in Plants and Cuttings.

Seasonable Notes on Culture of Florists' Stock

CAMELLIAS

To have these plants in good flower and shape by Christmas they should be moved into a house that stands from 48 to 50 degrees at night. Camellias cannot be hurried along by giving them heat, as they will not endure forcing without a heavy loss of buds. Admit with care daily sufficient quantities of fresh air to keep the temperature from running up too high; 60 or 65 is plenty, high enough with sunshine. Give them a spraying on all good days until the flowers begin to show color. Watering is a point in their culture which requires very careful attention, as neglect in this matter will result in failure. So go over them and see that the roots are in an even moist condition. Neglect in this matter even for a short time either by letting them become dry or have the soil in a soaking condition will bring down the buds and destroy all hopes of flowers. When they are in flower they will keep in a better shape if given a temperature of about 45 degrees at night with a liberal watering when they need it. When well grown these old favorites have but few equals among the ornamental greenhouse shrubs and they are rapidly regaining favor with the trade as small decorative pot plants.

CARNATIONS

The plants should now be well advanced in growth, but no matter how well a house may appear, there are usually a few plants that will be in a weak state. It is a good plan to dust a little air-slacked lime around where they are found; this will be a good guide when you are watering and at the same time will benefit the plant. Watch these weaker plants very carefully now as they require much less water than their more vigorous neighbors; by so doing you will gradually convert them into good stock. Varieties that have been yielding a continuous cut should have no excessive forcing to increase returns. Carnations do not show exposure to sudden changes in the temperature as much as roses, but they are affected by it just the same. Ventilation will need a great deal of attention now, and with the variable weather we are bound to have it is better to raise and lower the ventilators gradually. This may necessitate more trips around your houses, but it will encourage increased vigor in your plants. Don't overlook giving proper supports as sunlight is getting less each day now, and each growth should be kept in an upright position. If your plants are covered with buds and in good health, with small fibrous roots coming to the surface of the soil, a light mulch will do them good. Disbud regularly to one bud.

GARDENIAS

Gardenias that were set out in the benches early in the summer and given good care from the start should now be a thrifty lot of plants. To handle these plants is no easy task. They require continued watchfulness in ventilation, atmospheric moisture, watering, temperature and cleanliness. Now that we will have sharp, cold winds, cool and frosty nights, alternated with sun-warmed days, causing extremes in outside conditions, great care in ventilation will be needed to equalize as far as possible the temperature inside, which during sunshine can run up to 78 degrees, and at night stay at or about 68 degrees. Keep them sprayed on all good days and damp down the house two or three times a day for they like a superabundance of moisture in the air all the time. If they are allowed to suffer for the want

of atmospheric humidity they will quickly drop their buds, but, on the other hand, never let it approach a point suggestive of humid stagnancy. Examine your benches from time to time to ascertain the condition of the soil. While they should not become dry at the root, never let them get in an over-saturated state, but endeavor to keep the soil sweet and all will be well. Keep your plants clear of greenfly and mealy bug by frequent fumigation and careful syringing.

PANDANUS VEITCHII

Now that we can rely on more steady fire heat it is a good time to propagate a batch of these plants which by next winter, if grown right along, will easily reach a 5 or 6-inch pot. Plants that are throwing a number of side shoots can be relieved of these suckers. When they have gained some substance and size, they should be rubbed off close to the parent plant and placed in warm cutting bench. With proper moisture and some shade they will be ready to pot off in nine or ten weeks. Give them a house where the temperature is from 65 to 70 degrees at night with all the light possible and good amount of moisture and they will make rapid growth. Give all your pandanus a bench where they will have full sun where they will assume that intense coloring which is a decided feature in all well grown Pandanus Veitchii.

ODONTOGLOSSUMS

This is the best time for repotting or top-dressing these orchids, now that the warm weather is past, and the best general compost to use is a mixture of the softest part of fern fibre and sphagnum moss chopped up and well mixed together. A large number of odontoglossums will do well under pot culture, but those that have pendulous flower scapes or creeping rhizomes should be grown in baskets. From now on and during the winter the temperature should range from 48 to 50 degrees at night with the exception of *O. citrosimum* which should have from 8 to 10 degrees warmer. The day temperature for these orchids with sun should never rise much above 65 degrees as they grow better with this weak solar heat. Ventilation should be given at all times when possible, in greater or less quantity according to the outside conditions so as to keep the atmosphere from becoming stagnant. Care must be taken never to let the compost remain for any length of time in a dry state. Now that we have the cool weather which is suitable to their growth give them every attention. Keep your houses clear of slugs and snails as these are among their worst enemies.

POT ROSES

Roses that were grown during the summer either in the field or in pots will from now on require less water at the roots so as to open up the wood and give them a rest before they are started on their gradual stage of forcing, which should not begin before January. Lay the rose pots on their sides when there are heavy rains of too long duration. Leave them outside until they have had a few good frosts which are very beneficial for hybrid perpetuals, early roses, and ramblers. When the winter weather sets in they should be sheltered so that the freezing and thawing will be so gradual that no harm will be done. A deep frame that can be covered is the best place for them.

John J. M. Farrell

Mr. Farrell's next issue will be on the following: Amaryllids; Gladioli for forcing; Lilium Multilobum and Giganteum; Marguerites; Preparation of soil for Next Year; Roman Hyacinths for Christmas.

New Plants from China

MICROMELES FOLIGNERI

A new hardy tree, allied to Sorbus, with corymbs of white flowers, followed by orange-red fruit. Leave ovate-lanceolate, silvery-white on under side. Photograph of 9 year-old tree, 15 ft. high.

HEDICHOENGLERSON SOLITII

A new Chinese species, having bright ivory-pink flowers. Introduced for the first time in Messrs. Veitch's Coombe Wood Nursery.

AMPELOPSIS MEGALOPHYLLA

An extraordinary vine, with decompose leaves like *Aralia spinosa*, $2\frac{1}{2}$ — $3\frac{1}{2}$ ft. across. Grows 10-15 ft. in a season and is perfectly hardy.

SENECIO WILSONIANUS

Flower bright yellow on spikes 4—5 ft. tall. A grand subject for planting edges of streams and ponds.

BUDDLEIA VARIABILIS VAR. *MAGNIFICA* (FLOWERING SPRAY)

A truly magnificent plant flowering in late August and September. The terminal inflorescences are 2—2½ ft. long densely studded with light violet-purple flowers. See Horticulture—Oct. 7, p. 494.

EPIMANNIA ANGULATA

A greenhouse plant with ivory-pink flowers growing 6 ft. tall. The probable forerunner of a new race of spring flowering plants suitable for general decorative purposes.

We present these two pages of illustrations of new plants with the purpose of supplementing the earnest address by E. H. Wilson, which appears elsewhere in this issue. We have selected a tree, a vine, a shrub, an evergreen, a succulent plant and a greenhouse plant. To quote Mr. Wilson:

"If any of you take up six of these to concentrate here and to keep close to, they themselves will force you to take up as many others as you can acquire."

The revival of horticulture in our country is a thing of which we are all proud and enthusiastic with which the leaders in the expected horticultural revival seek to rally and spur on their fellows. Innumerable agencies are at work to turn the hearts of the people countryward and it would be to the everlasting humiliation of the horticultural profession should it lag behind.

But we have faith that the seed now being sown will bear good fruit and look to see, as a result of the educational uplift now inaugurated, the coming to the front of men who will become illustrious as leaders and attain to exalted station in the annals of American horticulture.

The florist
an authority?

A correspondent in this issue reiterates the oft-repeated criticism of the lack of knowledge on the part of the average flower store salesman as regards the names of the flowers he sells. It is true that there are exceptions but in a majority of instances we think it will be found that our correspondent's statement is borne out. This is all the more regrettable because of the growing disposition of the public and of the newspapers to look to the florist for correct information on plant and flower matters. It was encouraging to note, a few days ago, where a prominent daily, having received an absurd sensational statement concerning a certain flower, published it with the comment that "the florists were inclined to brand the thing as a fake." It should be a matter of pride to the florist that the public should look up to him as an authority on floricultural matters instead of swallowing without question all kinds of nonsensical stuff as they have been all too ready to do in the past, and he should strive in every possible manner to make himself worthy of this very desirable and proper confidence.

Marketing
flowers

The Rural New Yorker has been carrying on a vigorous denunciation of the middlemen and the system of marketing farm and garden product through this means. It may be very desirable that the producer and consumer of these goods should be brought more directly together and the Rural New Yorker may be justified in its contention that there are grievous wrongs in the prevailing system and that the cost of getting the farmer's wares to the public is out of all reasonable proportion to the price the farmer gets. On this question we are not well informed and so have nothing to say. But when our bustling contemporary extends its attack so as to include the commission men in the cut flower business, as it has in its latest issue, we are impelled to question its knowledge of that subject. Certainly some of the statements regarding the situation in the New York wholesale flower trade seem to be based on a misconception if not on absolute misinformation. The incentive to the establishment of cooperative selling of flowers, as we recall it, was not so much to put a stop to "the absorption of profits by greedy non-producers" (as the Rural New Yorker asserts) as it was to secure a slice of the repeated enormous profits of the retailers through the establishment of higher and more stable wholesale values. Whether this end was attained does not matter for now. It is an evident truth that "crop production without profitable marketing is labor thrown away," and that the legitimate function of the middleman is to serve producer and consumer as a medium through which maximum benefit can come to both. Whether this has or has not been fully accomplished in the New York flower business may also be a debatable question, but that a better method of marketing flowers in a community like New York, other than through an honest, capable and industrious commission dealer has yet been devised, we think will involve some difficulty in proving, while the direct implication of dishonesty on the part of the flower commission men as a class is nothing less than an outrage. Theory and conditions in business don't always fit together.

Fruit and Vegetables under Glass

POT FRUIT TREES

Pot fruit trees of all kinds should now be thoroughly overhauled, pruned, repotted and prepared for winter quarters. Where a quantity of trees have to be dealt with it is best to erect a temporary potting bench in some convenient spot outside. The less the trees are started around the better at this time of year as the buds are easily rubbed off, especially so with peaches and nectarines. Carrying them to and from the potting shed, through doors, etc., is always to be avoided if possible; then again head room is often limited. All this can be alleviated by the erection of a temporary bench if sufficient trees are on hand to justify this little extra time being spent. A number of clean pots must be got together and properly drained, this is an essential point; later on in the growing season a water-logged pot is deplorable. The soil should consist of half-decayed loam, with plenty of lime rubble or plaster broken up small, mixed into it. Potting will be light if the trees were properly disbudded, but it will be wise to look them over, removing any wood which is too crowded and also any that may have died back. Trees which have had runs added to the pot to allow of top dressing, will need to have these removed, and the only disadvantage to them will be discovered; viz., a quantity of surface roots will have found their way up and when it comes to repotting they are found to be too high. After throwing off the pot remove the old crocks and as much of the bottom soil as possible; shake off all the top dressing, carefully preserving all the fibrous roots and remove all the top soil you can. Trees that have made a quantity of roots will have to be given a shift, but do not give it unless absolutely necessary. If a sufficient quantity of the old soil can be removed from the ball to allow of its going back into the same size pot, put it back again. If a shift is necessary make it as small as you can for there is no advantage in rushing the trees on into very large pots or tubs. Proportionately no more fruit is obtained and they are more easily handled in a smaller pot. Trees have been known to grow in the same sized pots for years and carry a good crop right along. When potting, the soil must be worked down thoroughly and crammed firm between the ball and pot. This is sometimes a difficult job with only a small space to fill, nevertheless no holes must be left, in anticipation of the best results. Sufficient room must be left to allow of watering. Immediately after potting they should receive a good soaking and also be syringed over if fine. Should it be contemplated to leave them outside for sometime, the pots should be plunged in leaves and covered over with straw manure to protect them from being killed by frost. If a cold house is available they can be transferred to it right away and remain there until starting. Do not allow them to become dry as the flower buds are liable to fall.

MELONS FOR CHRISTMAS

Melons for Christmas now swelling must be kept going with a little feed. Keep the beds well moist, but avoid a continual sodden condition. This treatment will suit them until the fruit shows signs of ripening, when a little drier atmosphere and soil will be beneficial. With sunless days rather than attack some stems; cut away the seed leaves, also the first whorl of leaves as a preventive, but should the dread disease make an appearance, expose the affected part to all the sun and light possible and rub in fresh-slacked lime. Dull warm days seem to invite canker sooner than anything. In

the cold weather with plenty of fire heat little is seen of it.

TOMATOES IN POTS

Tomatoes in pots can be made quite a profitable crop. I would not advise pot work where the plants can be grown on a bench with less trouble and equally good results, but where up trees, when a bench cannot be given up to them and you can be worked in successfully. One advantage of pots is that the plants can be potted up and made to occupy a small space for a time, then as cabbages, etc., and other crops are cleared off they can be stood on the benches and receive no check. Younger plants can be planted on the benches but nothing larger than out of six inch should be used. Varying sizes in pots are used for tomatoes. I have seen four nice trusses taken off a six-inch pot. A twelve-inch is the most suitable size. When potting into the finals leave ample room for top dressing after two or three trusses of fruit have set. Plants growing in the benches and now having three or four trusses of fruit partly developed will be benefited with a top dressing of fairly rich soil.

CUCUMBERS

Cucumbers now cropping will need feeding. If surface roots are visible, add a top dressing containing some manure. Keep the young growths stopped at every third or fourth joint and where two or more fruits show at a joint reduce them to one. As the foliage becomes old and worn out cut it away and tie in young growths. Syringe whenever possible to keep off red spider which this plant is very susceptible to. Fumigate on the very first appearance of green fly.

George H. Benson.

Primula pulverulenta

(See color illustration.)

In habit and foliage this new *Primula* resembles the well-known *P. japonica* but has flower-scapes 3 ft. or more tall, only bearing 9 to 11 whorls of flowers. The individual flowers are a third larger than those of *P. japonica*, rich crimson in color (darker around the eye) and often twenty or more in a single whorl. The scapes are clothed with a downy tomentum (hence the specific name—*pulverulenta*) and it is this peculiarity together with its large better colored flowers and taller scapes, that gives this new plant the advantage over the old *japonica*. *P. pulverulenta* grows under the same cultural conditions as *P. japonica* but will bear more sun than the latter species. It is a semi-perennial of a good growth and is very hardy, remaining in flower for six weeks to two months.

A native of the China-Tibetan border land between 6,000 and 9,000 feet altitude, *Primula pulverulenta* was discovered and introduced to Messrs. Veitch's establishment by me in 1904.

The magnificent flower in 1905, is of one of the best plants to flower under cultivation.

S. W. Wilson.

NEW CHINESE PLANTS

An Address Before the Horticultural Club of Boston, by E. H. Wilson, November 1, 1911.

Twelve years ago April 11th, last, I left England on my first trip to China in quest of new plants. Three other journeys have followed this first one. Fortune has invariably been kind. True, there have been setbacks, disappointments, accidents and minor annoyances, but on the whole, good fortune has kept with me. The Botanical, Horticultural and lay press have thought fit to publish much that is of most complimentary character. That grand old periodical, the Botanical Magazine, has, to date, figured no fewer than fifty-eight of my introductions. The Horticultural press, the Gardeners' Chronicle in particular, have figured many more than this number.

Corydalis thalictrifolia was the first of many new plants to be exhibited before the Royal Horticultural Society of London, on June 10th, 1902, and it received their highest award—a first class certificate of merit. Since that date this same Society has given some sixty-three awards of merit and certificates and six gold medals. These awards are adjudged by competent and impartial critics and hallmark the plants they are given to. On this side, as far as my knowledge goes, one award only—a silver medal to *Lilium Sargentiae* last summer—has been given to these plants.

I give prominence to these facts, not in any spirit of braggadocio or conceit, but simply in order to lay stress upon the value the plants are conceived to possess, across the water. In response to a request from our President, Mr. John K. M. L. Farquhar, I am about to speak of these new introductions of mine and in so doing I will exhibit as much broad-minded impartiality as possible. In all earnestness, frankness and sincerity, these remarks are conceived and I speak of things that are, as they are, drawing no fanciful pictures and spinning no "old traveler's yarn."

My two first journeys were promoted by the nursery firm of James Veitch & Sons, London, England—a firm well known to you all and to every nurseryman, amateur and professional gardener in the world. Of the twenty-three travelers and collectors dispatched by this firm to various parts of the world, I was the last but one. Whilst the collecting work conducted and financed by this firm was promoted in the instincts of true business, yet, and it cannot be gainsaid, this firm has done more in the interests of true horticulture than any other firm or institution extant. With characteristic liberality living plants and herbarium specimens have always been freely distributed among the botanical institutions of Europe and this country. Nevertheless, my journeys for Messrs. Veitch, like those of their other travelers, were business ventures and were I still connected with this firm I should feel precluded, for obvious reasons, from giving publicity to this address.

My two last journeys were promoted by Prof. Charles S. Sargent, Director of the Arnold Arboretum, solely in the interests of scientific horticulture; they had no connection with business in any shape or form. Prof. Sargent

had distributed the results of these expeditions with an open hand, where-soever and to whomsoever he felt would take real interest in the matter. It is getting time now to take stock, investigate and call the score.

I mention these facts in detail in order to emphasize that whether you or others take up, develop and utilize the material I have been privileged to introduce I shall not benefit, pecuniarily, a single cent. Beyond a real love for the plants themselves and a genuine desire to see them as widely cultivated and appreciated as they deserve to be, I have no interest whatsoever.

I admit my opportunities have been exceedingly limited, but in no single instance, in this country, have I seen full justice done to these newcomers from China. Give a few of them the

E. H. WILSON

attention you lavish on your roses, carnations, lilacs, peonies, etc., and judge by results. Some will doubtless say: "It is all very well to talk of plants which thrive in England, but here we have a very different climate to contend with. Our winters are more severe, our summers hotter, the drought greater, etc." Admitted, but don't take a narrow view of things. Look at the range of climate you have in this vast continent. From northern Maine to southern Florida; from Boston to San Francisco, surely somewhere there are congenial spots for all.

As far as New England is concerned the question of these newcomers being able to withstand the severe winters, is of course of paramount importance. Experiments alone can prove this, but I would point out the well-known fact of deciduous trees and shrubs from Japan and North China succeeding better here, around Boston, than in England. Give these newcomers from Western China a fair chance and they will win through, creditably enough. There are plenty of them to pick and choose from and if

only 50 first-class plants win through, is the trial not worth attempting? Now, suppose that out of the whole mass there are only a dozen equalling *Berberis Thunbergii* and *Clematis paniculata*, will the trial prove nothing but a costly failure? Suppose we add only two good evergreens, has nothing been accomplished? Reduce the possibilities and probabilities to bed-rock proportions and it is obvious that the game is worth the candle!

Some may advance that stock argument:—"that we lack here an appreciative public." Gentlemen, I submit, this is a poor argument for business men to voice. Make your goods talk, as they have to in every line of business, bring your goods before the public and, if they are worthy, the public will respond. The Arnold Arboretum gave you *Berberis Thunbergii*; it gave you *Azalea Kaempferi* and heaps of other notable plants; take up some more of its introductions, put your best work into them and let the proof of the pudding be in the eating.

Acting on a suggestion I published, in HORTICULTURE, through the courtesy of the editor, our esteemed fellow member, Wm. J. Stewart, a series of thirteen short articles, entitled Plant Novelties from China, commencing Jan. 1st, 1910. I have recently questioned the editor concerning these articles with the result that, while they have elicited some favorable comment, yet neither he nor I feel that they have attracted anything like the attention the subject deserves. Tonight I perforce, try again.

Under ten different headings I propose to discuss very briefly, just sixty plants. I have here to show you illustrations and photographs of the majority, and, save the herbs, through the courtesy of Prof. Sargent, dried specimens of the actual plants themselves.

Six Herbaceous Plants.

Astilbe grandis (5 to 6 ft. tall, flowers pure white), *Senecio clivorum* (4 to 6 ft. tall, rich golden-yellow flowers), *Primula pulverulenta* (flowers rich crimson on scapes 3 to 4 ft. high), *Artemisia lactiflora* (3 to 4 ft. tall, flowers milk white), *Aconitum Wilsonii* (6 to 7 ft. tall, flowers deep blue, opening in September), *Paeonia Veitchii* (2½ to 4 ft., flowers deep red). Here are my six herbaceous plants, every one of them perfectly hardy here in Boston, strong growing, free-flowering and vigorous in habit.

The first three are happiest when in close proximity to water—a stream or pond side free of rank weeds is the ideal situation. The Aconite and Wormwood require nothing more than the average herbaceous border affords but they should not be allowed to suffer from drought. The Paeony requires only to be grown in the ordinary way of herbaceous paeonies.

Good, strong loam, leaf soil and cow dung in the usual proportions will suit them all. Being good species (like all the plants I shall enumerate) they come true from seed and are also readily propagated by division. Grown singly as specimens, in small clumps or in masses they are fascinatingly effective.

Six Hardy Climbers.

There is an admitted scarcity of good, hardy, ornamental climbers—plants needed in every park and garden. Here are six: *Clematis montana rubens* (6 to 15 ft. tall, flowers rosy red, late May), *Clematis montana Wilsonii* (8 to 20 ft. tall, flowers white, July), *Clematis nutans* (10 to 15 ft. flowers, pale-yellow, September), *Lonicera tragophylla* (10 to 15 ft. tall, flowers golden-yellow, June), *Vitis Davidii* var. *Veitchii* (10 to 20 ft. tall, stems spiny, leaves highly colored in autumn), *Vitis flexuosa* var. *parvifolia* (4 to 10 ft. tall, leaves small with shining metallic lustre). For any and every purpose that woody-climbing plants are needed these six are confidently recommended. The four flowering climbers each blossom in different seasons and collectively, span the whole summer and autumn season. The honeysuckle is best in partial shade, being a woodland plant, and does not like the knife. One and all are of simple culture, easily propagated from seeds or cuttings, in the usual way.

Six Flowering Shrubs.

In recent years there has been an enormously increasing interest taken in outdoor horticulture generally and flowering shrubs have, at last, entered into their own. With a better appreciation of their needs in the matter of pruning and planting for effect, they would give even better results than is commonly seen—good as these usually are. Of spring-flowering shrubs we are, fortunately, well supplied, but shrubs flowering in August and September are decidedly scarce. Early-flowering or late-flowering there is always room at the top. Five of the following cover the season from early June to September, the sixth, *Cotoneaster Dielsiana*, is at the moment of writing, Oct. 31st, a mass of bright crimson scarlet fruits, with its neat foliage assuming various shades of orange: *Deutzia Wilsonii* (3 to 6 ft. tall, flowers pure white, early June), *Spiraea Henryii* (3 to 5 ft. tall, flowers pure white, early July), *Buddleia variabilis magnifica* (5 to 10 ft. tall, flowers rich violet-purple, September), *Rosa Moyesii* (6 to 10 ft. tall, flowers dark blood-red, shaded velvety maroon, July), *Dipelta ventricosa* (4 to 10 ft. tall, flowers rosy-pink with orange throat, June), *Cotoneaster Dielsiana* (6 to 8 ft. tall, fruits bright crimson-scarlet retained well into the winter).

The rose has the darkest and richest colored flowers of any wild species and is well worth the attention of hybridists. The *Dipelta* is a new genus, allied to *Diervilla*. Like the above mentioned climbers, these shrubs require no special soil or situation, are quite hardy, root easily from cuttings and, save the *Buddleia*, come true from seed.

Six Evergreens.

If there is one class of plants more badly needed here in New England than another, it is, unquestionably, broad-leaved evergreens. In nothing is the poverty of the native flora or gardens more marked. Now broad-leaved evergreens are a feature of rain forest floras of temperate climates and, in a general way, are always associated with woodland and forest vegetation. Drought, whether it be caused by frozen soil around the roots

or by lack of water in the soil, is deadly to them. It is not so much low temperature as the hot sun in March and April when the ground is frozen and the hot, dry summers that render the cultivation of these evergreens so difficult here in New England. By judicious care in planting, with especial reference to the matter, site and moisture, much can be done to minimize these evils. Granted the exercise of these important details the following six are calculated to withstand the worst this New England climate has in store: *Berberis Wallichiana* (true Chinese type, not the plant generally grown under this name), *Ilex Pernyi* (5 to 18 ft. high, densely crowded with small spiny leaves), *Viburnum rhytidophyllum* (5 to 8 ft. tall, flowers white, fruits black, leaves 6 inches long, wrinkled above, densely filled beneath), *Lonicera nitida*, (3 to 5 ft. tall, flowers small, creamy white, fragrant, fruits blue-purple, leaves small, shining green), *Sarcococca ruscifolia* (3 to 5 ft. tall, flowers inconspicuous, fruits dark red, foliage small, shining green), *Stranvaesia undulata* (5 to 10 ft. tall, flowers white in flat corymbs 4 to 5 inches across, fruits scarlet, leaves assuming fine crimson tints in late autumn and winter and retained until the new foliage develops the following spring).

These six are, for evergreens, fairly easily propagated by cutting and readily raised from seed. The Barberry is a particularly useful subject and will some day be largely used for making hedges around houses, etc. Its dark green, stiff, leathery foliage, fringed by spiny bristles, is pleasing at all seasons.

Six Trees.

We are well off for trees, but the following six are particularly ornamental: *Micromela Folgerii* (a graceful and elegant tree, 10 to 25 feet tall, with corymbs of white flowers followed by orange-red fruits, leaves white on under side), *Styrax Hemsleyanus* (20 to 40 feet tall, flowers in white, large, erect in racemes), *Cornus Wilsoniana* (20 to 40 feet, flowers, white in corymbs), *Davidia involucreata* (35 to 50 feet tall, pyramidal in outline with two huge, white bracts subtending the flowers), *Populus lasiocarpa* (40 to 60 feet tall, with leaves 8 to 12 inches long, 10 inches wide the largest leaved poplar known), *Eucommia ulmoides* (30 to 50 feet tall, the only hardy rubber producing tree in the world).

The *Eucommia* and *Davidia* are monotypes and two of the most interesting trees known to science. The *Davidia*, with its huge bracts, is the most strikingly beautiful of all trees in the temperate flora. A young tree, nine years old from seed, flowered in England this year for the first time; cut sprays were exhibited at the Temple Show and the plant was unanimously awarded a first-class certificate of merit.

Six Conifers.

Western China is particularly rich in conifers, especially spruces and silver-fir. A great many are now in cultivation, but it is too early to speak of their hardiness or adaptability to cultivation generally. The following six are particularly handsome trees in their native haunts: *Abies recurvata*, *Abies Fargesii*, *Picea complanata*, *Picea purpurea*, *Pinus Wilsonii* and

Pinus Armandii. The last-named is a white pine and has, for several years, been in cultivation with Mr. Walter Hancewell at Wellesley and in the Arnold Arboretum. It is quite hardy, grows freely and promises to be a useful addition to the pinetum.

Six Brambles.

A remarkable feature of the Chinese flora is its wealth in handsome ornamental brambles. Several of them are worth cultivating as a future source of new berries, others are valuable for their handsome foliage, white stems, and graceful habit: *Rubus innominatus* (6 to 10 feet tall, fruits orange-red in thyrsoid panicles, of good flavor, ripe in September), *R. anabilis* (4 to 6 feet, flowers large, white, solitary, fruit red, with splendid flavor, ripe in July), *R. lasiostylus* (6 to 8 feet tall, stems pure white, bristly and very ornamental), *R. pileatus* (5 to 8 feet tall, stems glaucous in winter, fruits orange, delicious flavor), *R. bambusarum* (8 to 12 feet tall, leaves three foliolate on whip-like branches), *R. flagelliformis* (8 to 10 feet tall, leaves ovate with velvety markings, branches whip-like). The last two thrive best in shade, being woodland species.

Rhododendrons.

About one hundred and fifty species of rhododendron are known from China, and nearly a hundred of these are now in cultivation. How many will succeed here, around Boston, is a moot point, but surely an odd one or so may reasonably be expected to win through. In China these rhododendrons vary from tiny shrubs, 6 inches to a foot tall, on the Alpine moorlands, to trees in the forests depths 50 feet or more tall. The flowers are of every hue—yellow being amongst them, too. *Rhod. micranthum* has small trusses of *Ledum*-like white flowers and promises to be hardy hereabouts. It flowers in a small state and is a floriferous and pleasing shrub. *R. flavidum* and *R. ambiguum* are both small growing species with yellow flowers which quite probably will be hardy in this neighborhood.

Willows.

Willows are abundant in Western China and some of them are remarkably "unwillow-like" in appearance. I have here specimens of two species. One, *S. Bockii*, is worth growing as an autumn flowering shrub. The catkins are white (yellow anthers in the male), borne on the current season's growth (an almost unique character) and in such profusion as to warrant its being classed as a shrub with ornamental flowers. The other, *Salix magnifica*, is worth growing as a foliage plant! The largest leaf on the specimen before you measures, excluding the petiole, 8 inches in length, and is 5¼ inches wide. Can you conceive any plant more unlike a willow than this one?

Hardy Orchids.

Some of you present make a locality of orchids. Now China is not a good orchid country, although several fine *Dendrobiums* are found there, including one of the most popular of all, *D. nobile*. Among the terrestrial orchids several fine *Cypripediums* occur. I would draw your

attention to three: *C. tibeticum*, *C. Franchetii* and *C. luteum*. All three are hardy, good growers and well worth growing. The first-named grows 6 to 10 inches tall and has very large, dark red flowers. The second grows 15 to 20 inches tall and has rosy-pink flowers in the way of the Siberian *C. macranthon*. The third is a yellow spectabile.

Lilies.

Lilies—some forty species of these favorite flowers are known from China and quite a number are now in cultivation. During the past season Messrs. Farquhar & Co., of this city, have exhibited, on several occasions, two of these new Chinese lilies, namely, *L. Sargentiae* and *L. myriophyllum*. Both are quite hardy, of vigorous constitution, and revel in loam and sunshine. I would draw your attention to two others having reflexed, not tubular flowers. *Lilium sutchuenense* and *L. Duchartrei* are their names. Here are illustrations of them, drawn from plants which flowered with Messrs. Veitch a few years ago. The first named is a refined tigrinum with slender, elegant foliage and bright scarlet flowers. It likes loam and sunshine and having a small bulb, will flower well the second year from seed. *L. Duchartrei* is the only peat-loving lily I know of in China; the flowers are white spotted and splashed with vinous purple. Its constitution is not so vigorous as the others and it requires careful cultivation, though its hardiness, since it comes from 9,000 to 11,000 feet altitude, is assured.

New Greenhouse Plants.

So far I have dealt with hardy plants, but some of you are growers interested only in greenhouse plants of decorative value. These hardy plants are not in your line exactly, but I have reserved a final half dozen for your especial line of business. Here they are with an extra one thrown in: *Rehmannia Henryi*, *Corydalis Wilsonii*, *Buddleia asiatica*, *B. officinalis*, *Jasminum primulinum*, *Parthenocissus Henryana* and *Clematis Armandii*.

Most of you are, by this time, familiar with *Rehmannia angulata*; *R. Henryi* is its white-flowered counterpart only it does not exceed 18 inches in height. By crossing and selecting from the progeny, a new type of early spring flowering plants may be evolved far exceeding the parents' form in beauty and general usefulness.

The *Corydalis* is a golden-yellow fumewort, with glaucous much divided foliage and erect racemes of flowers—an admirable subject for pot or basket culture, flowering in February and March.

Buddleia asiatica has pure white flowers, *B. officinalis* rosy-lilac colored flowers, produced in January and February. Cuttings rooted in the spring and grown on in 5 to 6-inch pots will flower the following winter. A liberal diet, plenty of water and full exposure to the light are the essentials. The flowers are borne in terminal, caudate panicles as in *B. variabilis*, so the pinching back must be done early in the season. The flowers are delightfully fragrant and for table and house decoration generally, they are admirably suited.

The *Jasminum* is fairly well known

further south but it is worth the growers' attention here. The large yellow flowers are borne axillary on the current season's wood. Cuttings rooted in spring and grown on in 5 to 6-inch pots will make nice stuff for table decoration in the winter months—January and February. The vine has five foliolate leaves, some 5 inches long and 6 inches wide, with a pure white stripe down the primary and secondary veins. In the late autumn the green parts assume wonderful shades of crimson and scarlet if kept in a frost-proof greenhouse. Cuttings rooted in the spring and grown on in 6-inch pots will make plants, 4 ft. high, with many stems and dense masses of foliage. For decorative work at Thanksgiving and Christmas this plant has a great future before it.

The New Zealand *Clematis indivisa* is well known to you all. *Clematis Armandii* is a similar but better plant. Grow this newcomer in the same way as our old friend from "down under" and you have something worth while. There are two forms of this *Armandii*, one with white, the other with rosy-red flowers, both flower in March and April.

All these plants are of simple culture requiring only the ordinary attention of cool greenhouse plants. Give them not too much root room, feed them well, keep them near the light in winter and the results are assured.

With exception of the willows, *Styrax Hemsleyanus* and five of the conifers, the plants above mentioned are all purchasable or will be, in the spring. In several groups 'twould be easy to increase the number very considerably but time and space forbid. If any of you take up six of the sixty enumerated here and do them justice, they themselves will force you to take up as many others as you can acquire.

If you purchase from a seedsman a packet of seeds in the ordinary way and they fail to germinate, damp off or die, you can, by purchase, obtain the same thing again with little trouble and expense. If you buy ordinary plants the same obtains.

It is otherwise with plants culled from the wilds. The time and expense involved in obtaining new plants from remote regions are not the only reasons for taking good care of them when they arrive. I should like to draw your attention to a fact that few realize the seriousness of—and this has especial reference to trees. China is practically deforested and no attempt at reforestation is being made and every year trees become more scarce. The life of many species hinges on a comparatively small number of individuals and axe and fire may destroy them at any moment. Ten, twenty, or a hundred years may elapse before some of these rare trees and shrubs are again introduced to our gardens and some may be utterly wiped out of existence before the next collector has opportunity of visiting their present haunts.

Gentlemen, my task is done, I have spoken frankly and earnestly on behalf of those who so far have not, in this country, had a fair opportunity given them to speak for themselves. How far the time has been well or ill-spent depends upon you and others truly interested in horticulture.

BRITISH HORTICULTURE.

The Sweet Pea Trials.

The National Sweet Pea Society has recently published the official report of the trials of new varieties. A first class certificate has been awarded to Thomas Stevenson, sent by Dobbie & Co., of Edinburgh, also to Barbara, sent by Robert Holmes, of Tuckwood Farm, Norwich, the raiser being H. A. Perkin, of Reigate, Surrey. The following is a list of varieties receiving awards of merit, together with the names of the senders: F. Seymour Davis—F. Seymour Davis, Farnham. Mauve Queen—Dobbie & Co., of Edinburgh. Red Star—A. Malcolm, Duns, Berwick. May Campbell—Messrs Dobbie. Mrs. B. Gilbert—Gilbert & Son, Dyke, Bourne, Lincolnshire. The Committee of the Society has approved a set of recommendations for the arrangement of the trials next year. It has been decided to have a duplicate set of trials on heavy soil at least 100 miles north of London. The Floral Committee will pay one visit to each set, point each stock, and make its awards on the results thus arrived at. Under these conditions a scale of points will be prepared prior to the first visit, and all stocks obtaining a certain aggregate of points will be voted upon. The Floral Committee has also rendered a useful service in preparing a revised list of up-to-date varieties, classified under their respective colors, and also a classification of too-much-alike varieties. Not more than one of the bracketed varieties is to be shown on the same competitive stand at any of the Society's exhibitions. With the multiplicity of new sorts this list is very necessary.

Early Chrysanthemums.

The first show of the season of the National Chrysanthemum Society at the Crystal Palace early in October was not a large one. A bigger display will be made in the second show in November. There was an interesting array of new varieties, first-class certificates being awarded to the following: Bronze Goacher, a bronze sport from Goacher's Crimson, a popular variety on this side, shown by W. Wells & Co., of Merstham, Surrey. Miss E. Finch, a terra-cotta single, shown by M. F. Brazier, of the Nurseries, Caterham, Surrey. Emperor, a decorative variety, with bright crimson petals, and bronze reverse, shown by Lowe & Shawyer, of Uxbridge. The same firm received a commended award for Eskimo, a creamy white decorative variety. H. W. Thorp, of Durrington, Worthing, Sussex, received commended awards for Roundabout, golden bronze decorative variety, and Phoebe, a Japanese variety, with silvery pink petals.

W. H. Adsett.

A correspondent of the Gardeners' Chronicle states that *Ficus pandurata* is incorrectly named, the proper designation being *Ficus lyrata*, a name given to it previous to its introduction by Sander as *F. pandurata*. We think, however, it is *pandurata* for keeps so far as the trade is concerned.

THE EXHIBITIONS

MORRIS COUNTY GARDENERS' AND FLORISTS' SOCIETY.

The sixteenth annual flower show of this society was held in Assembly Hall, Madison, N. J., Oct. 26 and 27, and in addition there was held the annual convention of the National Gardeners' Association, the members of which were entertained at a banquet in the evening which altogether made it a memorable event in the horticultural history of this thriving country town. Madison is known the world over as the glass-covered rose garden of New Jersey and before those gigantic western establishments were brought into being Madison held the undisputed reputation of having the greatest area of rose houses in the universe. Naturally in such a place one would only expect to see a great and grand showing of roses on exhibition on such an occasion as this but for some reason there was not much more than one would see at the average show. The show as a whole was exceptionally fine, magnificent blooms most artistically arranged. It was all clean, elegant stock and all concerned deserve much credit. It does one good to visit Madison and meet the progressive men who do so much to advance horticulture not only in their own locality but all over the world. Many promising new things were shown. Totty's Sunburst rose radiated its grandeur all over and by its great qualities won many special prizes and many hearts. Mr. Totty also showed a vase of a new pink rose, No. 190, with splendid habit, perfect growth and flower. It will be a favorite. L. B. Coddington's Rose Queen appealed to us strongly; it is a lovely pink rose. E. H. Behre showed two blooms of new roses, babies of the future. Chas. H. Totty displayed a table of greenhorn chrysanthemums that will no doubt become prominent citizens ere long. It must be understood that this was the first exhibition of chrysanthemums about New York this season. Many good sorts were not available. Mrs. D. Syme was the leading flower of the show. Wodenethe the queen of carnations, and Sunburst shed glory in their respective lines.

There are always a few most popular classes in chrysanthemums in which the private gardeners with extensive facilities make special efforts to excel and the varieties winning are considered the best standard varieties to have. Thus in the class calling for 24 blooms, 24 varieties, there were several exhibitors, all of them showing grand blooms which taken collectively, were the largest flowers we have seen in many years. Wm. Duckham won first with the varieties D. B. Crane, Alice Lemon, Montigny, W. Woodmason, George Luck, President Viger, Countess of Granard, L. Morrison, Beatrice May, Frank Payne, W. M. Moor, Mrs. J. Hartman, H. E. Converse, L. Rosseau, F. T. Mew, Naceur-Bey, Mary Farnworth, O. G. Kelly, Mrs. H. Stevens, Lady Hopetoun, Mrs. D. Syme, Mrs. Lopes, Onunda and a seedling 43. Most prominent among the single varieties in the different winning classes were Mrs. H. J. Hampson, Chas. Graves, Bessie Payne, Katie

Covell, J. H. G. Williams, Mary Pope, Peter Pan, Ladysmith. There is a great future for good clean single chrysanthemums. The live wire in the Kingdom of Horticulture—"Bob" Schultz—attended to having neat lists of awards typewritten for the press. The flowers were auctioned off for the society's funds on the closing night. All in all it was a show that many a city could be proud of.

Cut Flowers—Chrysanthemums.

36 flowers, 6 varieties—Mrs. D. Willis James, gard. Wm. H. Duckham, 1st; Dudley Olcott, gard. C. Barbanes, 2nd.

18 flowers in 6 varieties—Spring Brook Farm, gard. J. Lindabury, 1st; Dr. D. H. McAlpin, gard. J. Downing, 2nd; O. H. Kahn, gard. Jas. Fraser, 3d.

12 flowers, 12 varieties—E. H. Wells, gard. Alec Robinson, 1st; Dr. D. H. McAlpin, 2nd.

10 flowers, any white variety—M. C. D. Borden, gard. Wm. Turner, 1st with Beatrice May; Mrs. D. Willis James, 2nd.

10 flowers, pink—Mrs. D. Willis James.

24 flowers, 24 varieties, 12 inch stems—Mrs. D. Willis James, 1st; M. C. D. Borden, 2nd.

3 vases of 6, pink, white and yellow—C. W. Harkness, gard. E. Wilde, 1st with Alice Lemon, Cheltoni, Mrs. D. Syme; Mrs. John Crosby Brown, gard. Peter Duff, 2nd.

12 flowers, 12 varieties—C. W. Harkness, 1st; Spring Brook Farm, 2nd; Otto H. Kahn, 3rd.

Stump & Walter prize, 6 flowers, 6 varieties—E. H. Wells, 1st; Mrs. J. Crosby Brown, 2nd; Charles R. Heddon, gard. A. Michael, 3rd.

6 flowers, any pink—Otto H. Kahn, 1st with Wm. Duckham.

6 flowers, any white—Mrs. J. C. Brown, 1st with Mrs. D. Syme; E. H. Wells, 2nd.

6 flowers, any yellow—Spring Brook Farm, 1st; O. H. Kahn, 2nd.

6 flowers, any crimson—O. H. Kahn, 1st with Pickett's Crimson.

6 flowers, any bronze—O. H. Kahn, 1st with Rose Pickett.

Vase arranged for effect—D. H. McAlpin, 1st; O. H. Kahn, 2nd.

Display of Pompons—H. Gaut, Glen Cove, L. I., 1st; Chas. H. Totty, 2nd.

12 vases single—J. W. Everitt, Glen Cove, N. Y., 1st; H. Gaut, 2nd.

6 vases single—Mrs. Cromwell, Summit, gard. John Watson, 1st; J. W. Everitt, 2nd.

Largest flower at the show—C. W. Harkness, 1st with Alice Lemon; O. H. Kahn, 2nd with L. Rosseau.

Elmer D. Smith prize, 6 flowers of Morristown—Charles H. Totty.

John Yeomans prize for 6 flowers of Wm. Turner—Chas. H. Totty.

Commercial Classics—10 flowers white—Mrs. D. Syme; 10 flowers, yellow, Mary Donnan; 10 flowers, pink, F. C. Nash; 10 flowers any other color—Chas. H. Totty 1st in each.

Roses.

18 American Beauties—L. A. Noe, 1st.

12 American Beauties—L. M. Noe, 1st; P. A. B. Widener, Ogontz, Pa., gard. Wm. Kleinhelm, 2nd.

25 Bridesmaids and 25 Brides—L. A. Noe, 1st.

25 Richmonds—L. B. Coddington, 1st.

L. A. Noe, 2nd; Chatham Rose Co., 3rd.

25 pink Killarney—L. B. Coddington, 1st.

L. A. Noe, 2nd.

25 white Killarney—L. A. Noe, 1st; L. B. Coddington, 2nd; Edward H. Behre, 3rd.

Any other pink—Chas. H. Totty, 1st with Radiance; Edward H. Behre, 2nd; The Noe Farm, 3rd.

25 any yellow—Charles H. Totty, 1st with Lady Hillbloom; L. B. Coddington, 2nd.

12 Bridesmaids—Robt. M. Schultz, 1st.

A. C. Van Gasbeck, gard. J. Dervan, 2nd.

12 Richmonds—Chas. H. Totty, 1st; P. A. B. Widener, 2nd; C. W. Work, gard. Wm. Kleinhelm, 3rd.

12 pink Killarney—P. A. B. Widener, 1st.

John R. Mitchell, 2nd; A. C. Van Gasbeck, 3rd.

12 white Killarney—P. A. B. Widener, 1st; C. W. Work, 2nd; A. P. Smith, 3rd.

12 any other pink—L. B. Coddington, 1st; P. A. B. Widener, 2nd; A. P. Smith, 3rd.

12 any other yellow—J. F. Dryden, gard.

A. Morrison, 1st with Perle des Jardines; Mrs. D. Willis James, 2nd.

12 any undisseminated rose seedling—Chas. H. Totty, Madison, N. J., 1st with No. 190.

Badgley, Riedel & Meyer prize Best set of 25 roses other than American Beauties—Chas. H. Totty, 1st with Sunburst.

Carnations.

25 pink—Mrs. D. Willis James, 1st with Mrs. C. W. Ward; P. A. B. Widener, 2nd; G. F. Neipp, 3rd.

25 white—P. A. B. Widener, 1st with White Perfection; G. F. Neipp, 2nd.

25 red—G. F. Neipp.

25 any other color—Mrs. D. Willis James, 1st; Dr. D. H. McAlpin, 2nd.

12 pink—C. W. Harkness, 1st; Glimpsewood Manor, gard. H. B. Vyse, 2nd; O. H. Kahn, 3rd.

12 white—Mrs. D. Willis James, 1st with Wodenethe; S. M. & A. Colgate, gard. Wm. Read, 2nd.

12 red—Mrs. Cromwell, gard. John Watson.

12 any other color—Mrs. Cromwell.

18 blooms, any undisseminated variety—Wm. H. Duckham, 1st with a fine large scarlet; Charles H. Totty, 2nd.

Badgley, Riedel & Meyer prize, best 25 blooms one variety—G. F. Neipp.

Double violets—Richard Langle, White Plains, N. Y.

Single violets—Mrs. J. C. Brown, 1st; Richard Langle, White Plains, N. Y., 2nd.

Plants.

Group of chrysanthemum and foliage plants arranged for effect on 50 square feet—Dr. D. H. McAlpin, 1st; Glimpsewood Manor, 2nd.

Specimen chrysanthemum plant, white—Mrs. John Crosby Brown with Lady Lydia.

Specimen chrysanthemum, yellow—Mrs. J. C. Brown, 1st; Dr. D. H. McAlpin, 2nd.

12 plants, 12 varieties, single stem—Dr. D. H. McAlpin.

6 plants, single stem—Mrs. J. Crosby Brown.

Begonia Lorraine—Chas. W. Harkness.

4 foot table of orchid and fern plants—Mrs. D. Willis James.

Arthur T. Boddington prize for 12 varieties of vegetables—Glimpsewood Manor, 1st; O. H. Kahn, 2nd.

Peter Henderson Co. prize for 8 varieties of vegetables—O. H. Kahn, 1st; Glimpsewood Manor, 2nd.

5 plates, 5 varieties of apples—Dr. D. H. McAlpin, 1st; John C. Lyle, Tenafly, N. J., 2nd; Joe Kennedy, 2nd.

Greenhouse grapes—M. C. D. Borden, 1st with Barbarossa and Lady Hunt; Glimpsewood Manor, 2nd.

2 bunches green house grapes—Glimpsewood Manor, 1st with Gros Colman, Muscat of Alexandria.

Harry A. Bunyard prize for collection of Nerines and ferns in pots was won by W. H. Duckham with a splendidly grown lot of these two little known brilliant flowers.

Chas. Weber, Lynbrook, L. I., was awarded Certificate of Merit for deep pink carnation "Brooklyn."

Cultural Certificate to G. F. Neipp for 50 carnations, 10 varieties.

Cultural Certificate to James D. Cockcroft, Northport, L. I., for deep pink seedling carnation, No. 240.

Wm. Tricker, Arlington, N. J., exhibited his new Vinca Minor Anna.

Lager & Hurrell made a splendid and very notable display of orchids.

Carl Schaefer, of Tuxedo Park, N. Y., got a certificate of merit for new chrysanthemum, Ramona.

C. H. Totty showed a grand lot of single and pompon chrysanthemums.

H. A. Dreer had a fine table of dahlias and ferns.

W. A. Manda's group was very fine, including many prime novelties.

Thomas Jones showed cut-leaves, etc., in excellent form.

J. IVERA DONLAN.

Harry A. Bunyard prize for collection of Nerines and ferns in pots was won by W. H. Duckham with a splendidly grown lot of these two little known brilliant flowers.

Chas. Weber, Lynbrook, L. I., was awarded Certificate of Merit for deep pink carnation "Brooklyn."

Lager & Hurrell made a splendid and very notable display of orchids.

Carl Schaefer, of Tuxedo Park, N. Y., got a certificate of merit for new chrysanthemum, Ramona.

C. H. Totty showed a grand lot of single and pompon chrysanthemums.

the use of painted woodland scenery on the stage with Jenkins' splendidly arranged group of plants blended. Teteto gave a most pleasing effect. Unfortunately Tarrytown, although a millionaires town, does not own a hall large enough for this society's exhibitions. Many classes for plants must necessarily be left out. All the exhibits were of the highest order. The vegetables both tormented empty stomachs and shouted in every language for cooks. It was pretty hard to stand near the fruit tables and keep muttering to one's self "Thou shalt not steal."

Prize List—Chrysanthemum Blooms.

F. D. Archibald prize for 12 blooms on 15-inch stems. Robert Angus, first, with grand blooms of Lenox, Beatrice May, Mrs. W. Duckham, Chas. Totty, Omunda, Morristown, Mary Mason, Frank Payne, W. Woodhinson, Mrs. W. Knox, Lady Hopetoun and F. S. Vallis. There were several entries in this class, all of them very fine. Geo. Middleton won second.

P. Heermans' prize calling for 20 blooms on 15-inch stems, seemed to have been one on which the most prominent gardeners set their hearts. There were four entries and all of them elegant. Allen J. Jenkins, Tuxedo Park, N. Y., succeeded in getting first. His collection consisted of Mrs. W. Duckham, Mrs. C. H. Totty, Morristown, Perle, Rene, Rose Pockett, Mary Mason, F. S. Vallis, O. H. Bromhead, Tarrytown, Mrs. D. Syme, Mrs. J. C. Neil, Brighthurst, Mrs. H. Partridge, Hon. Mrs. Lopes, P. Payne, Omunda, J. W. Moliniaux, R. Vallis, Naomah, Mrs. L. Thorn, Robert Angus and Geo. Middleton won second and third in this class.

The **Parson U-Pur Company's** prize for the most effectively arranged table of decorative plants was captured by Robert Angus with a splendidly arranged lot of highly colored crotons, dracenias, etc. Allen J. Jenkins won second.

C. P. Johnson's prize for collection of single chrysanthemum blooms brought out a gorgeous lot of blooms. Thos. Archibald, Manhattan, N. Y., won first, putting up 20 cases of the most beautiful varieties being known. Lowell, Alice Cate, Carrie Wells, Mrs. R. Anderson, Ronald Beauty, Sylvia Stone and Camille's Yellow. P. W. Popp also from Manhattan, won second. John Canning was another competitor in this class and we could not do justice to the show without complimenting him on their great beauty, for in addition to the above varieties his Jane Russell, Miss E. Partridge and a grand new seedling named Doris's especially appealed to us. His were the future flowers.

David MacFarlane's prize for three blooms was a popular class, there being ten entries. Allen J. Jenkins got first with F. C. Nash, Beatrice May and F. S. Vallis. Edw. Trotheway came second. It seemed to us that the judges had pet varieties when looking over this lot, else Wells' late Pink Wm. Turner and Mary Donnellan might have been in the finish.

Adelson Johnson's prize for most effectively arranged vase of 18 chrysanthemums with six foliage brought out four fine lots, first going to Edw. Trotheway and second to Geo. Wittlinger.

Mrs. J. B. Trever's prize for 12 blooms, one variety, had five competitors. Allen J. Jenkins captured first with Pockett's Crimson and W. C. Roberts second with Mary Donnellan.

Mrs. William Church's Osborn prize for 36 blooms, six of each. Geo. Middleton won first with Glenview, Muza, Brighthurst, Beatrice May, Mrs. J. E. Lonne and F. S. Vallis.

William Rockefeller's prize for 18 blooms, 6 var., 24 inch stems. Six aspiring gardeners tried to land this cup. John Canning of Ardsley won out with grand Pres. Vigor, Mrs. L. Stone, Wm. Woodhinson, Gladys Blackham, Mrs. H. Stevens and Lady Hopetoun. Allen J. Jenkins came in second and the society left.

A. T. Belding's prize, 6 blooms, 6 varieties. Thos. A. Lee secured first with J. C. Neil, Mrs. J. A. Miller, Glenview, Chas. Deutschman, May and Gladys Blackham, P. W. Popp and second. Abel Weeks, third.

Chas. MacFarlane's prize for 24 blooms, 4 varieties, on 30-inch stems, had four aspirants. John Canning got first with the assistance of M. J. Mason, Beatrice May, Mrs. H. Stevens and Wm. Woodhinson.

Charles Vanderbilt's prize for largest bloom at the show went to Allen J. Jenkins.

for the largest F. S. Vallis we have seen this season.

Thos. D. Smith & Co.'s prize for 6 blooms of 15-inch stems. Wm. Jamieson, first; Geo. Middleton, second. Twelve blooms, 1 variety, first, Thos. A. Lee, with Beatrice May, Mrs. J. A. Miller, Chas. Deutschman and Lady Hopetoun, second. Six white, W. C. Roberts, first, with Beatrice May, Allen Jenkins, second. Yellow, Allen J. Jenkins, first, with Mrs. J. C. Neil, W. C. Roberts, second. Six pink, W. C. Roberts, first, with Lady Hopetoun, Geo. Middleton, second. Six crimson, Geo. Middleton, first, with Pockett's Crimson, W. C. Roberts, second. Violets, 50 double. First, Chas. Deutschman. Fifty single, Abel Weeks, first, Geo. Wittlinger, second. One hundred double. First, Richard Langle; 100 single, Claude Wilson, first, with a grand bunch of Gey, Honick, Richard Langle, second, with Princess of Wales.

Wm. F. McCord's prize for three plants of Begonia de Lorraine brought forth a large tableful of that glowing pink color, resulting in Wm. Jamieson capturing first prize, silver cup, and John Canning, second. The five entries in 5-inch pots made a fine showing. Jamieson also won first in the class for specimen Lorraine.

W. A. Read's silver cup for most effectively arranged group of palms, flowering and foliage plants covering 100 sq. ft.: Allen J. Jenkins, first; Robert Angus, second.

Robert C. Clowry's cup for most effectively arranged display of orchids, ferns and foliage plants covering 25 sq. ft., was won by Allen J. Jenkins with a very graceful arrangement emphasized by Oncidium varicosum and brightened with cattleyas. Wm. Jamieson won the W. E. Marshall Co. prize offered for second in this class. John Brunger also arranged a table in which were some splendid cattleyas, as was also the group put up by Wm. Ingles. These tables were the diamonds of the show.

The prize for specimen Kentia went to Geo. Wittlinger for a noble K. Belmoreana.

Six plants in 5-inch pots suitable for table decoration: First, Robert Angus; second, John Canning.

Six ferns for table decoration: Theo. Trevelhan, first; Claude Wilson, second.

Specimen fern: John Canning, first, with a beautiful Neph. Whitmanii.

P. W. Popp's prize for a fine display of dahlias in all types.

The fruit and vegetable classes were well filled. George Wittlinger, A. MacDonald, W. C. Roberts, E. F. Neubrand, Mrs. W. H. Pullan and W. Brown figured in the fruit awards. In the vegetable classes the principal winners were Edward Kane, Wm. Brock, Thos. A. Lee, John Heermans, Chas. Deutschman, R. Angus, John Canning, G. Wittlinger, Geo. Slater, Geo. Middleton, F. R. Pierson Co. exhibited, not for competition, an immense bank of most interesting novelties in plants and flowers ranging from the newest roses and chrysanthemums to the most beautiful classes of new ferns which this firm is noted for all embraced the front of the stage and were especially attractive in color and arrangement.

Robert Main, Gloversville, N. Y., showed vases of carnations among which was a new white seedling.

Scott Bros., of Elmsford, made a fine showing of chrysanthemums in all classes, not for competition. Among them were many beautiful singles. They also displayed many new roses.

The judges for the first day were J. W. Everitt, J. McQueen, Alex Thompson.

The second day brought forth some splendid entries for table decoration prizes, roses, carnations and baskets of flowers. The results on this and the third day will appear in next week's issue.

J. IVERA DONLAN.

LENOX (MASS.) HORTICULTURAL SOCIETY.

The first of the "Big Guns" in the Exhibition season were fired last week, Lenox, Mass., and Madison, N. J., being perhaps the most important. Lenox

is always a good starter. Amongst the cool of the Berkshire Hills the chrysanthemums seem always to come along at least a week earlier than they do around New York, and the quality and size of the blooms put up forms a very good augury for what to expect in other sections.

The entries in the large bloom classes in Lenox did not seem to be quite as numerous as in former years, but the quality was fully maintained. Amongst the most noticeable of the new varieties were Lenox, Morristown, Tarrytown, Chrysolora, Wm. Turner, F. E. Nash, F. E. Quittenten, Lady Carmichael, Mary Farnsworth, Mary Poulton, Francis Jolliffe and W. H. Thornton. Among the older varieties those that stood out most prominent were Mrs. Stevens, Lady Hopetoun, Mrs. J. C. Neil, Reginald Vallis, Mrs. L. Thorn, Mrs. D. Syme, Gladys Blackburn, Pockett's Crimson, M. V. Venosta and Hon. Mrs. Lopes.

In specimen chrysanthemum plants, Robt. Spiers, gardener to Mrs. J. E. Parsons, carried off the honors in all three classes with well grown, evenly balanced plants. The groups of miscellaneous plants, arranged for effect, which have always been the leading feature of the Lenox Exhibition, were fully up to former years; a distinctly educational feature, and well worth travelling miles to see.

The arrangement this year was again different from former years, and the novelty of the change added fresh interest to the whole show. A good deal of forethought co-operation seems to be given to these novel features and changes in arrangement, by the exhibitors in Lenox. They seem to get together and plan these things in advance and work them out in perfect harmony, and each time you travel to Lenox you may be assured of something new and suprising in the way that the whole exhibition and arrangement is put together. It is a distinctly taking feature with patrons, and one worthy of emulation. So many of our exhibitions are killed with the staleness of the same arrangement year after year. The plants may be the same old plants, and the same old cork bark may be in use, but the artist mind that can give this kaleidoscope effect keeps the public interested, and if they were copied in our larger and more populous centers there would be much less grumbling at the lack of patronage and smallness of gate receipts. Formerly the groups were backed against the wall in effective arrangements and we would sometimes hear the argument "well it is easy to arrange plants with a nice wall as a back-ground," but this year they were arranged in circular groups in the middle of the hall and they were just as effective as ever, perhaps more so. In grouping plants it should always be borne in mind that quality and not quantity counts, and no arrangement can be so effective where the beauty of the bulk of the material is spoiled by overcrowding. In Lenox they have undoubtedly got the material to work with, as well-grown specimens as one would wish to see, but they are always arranged so that the fine individual qualities of each plant are used to the best advantage. There were four such groups this year and it is safe to say that, as usual, the poorest one would easily be the prize winner in any of the other exhibits the writer visits.

The Pacific Garden for October gives a portrait with full-page biographical sketch of Edwin Lonsdale, as the first of a series of notes to be published of men who have been successful in forest breeding and improvement. All who know the genial Lonsdale will be ready to subscribe to the sentiment expressed by the author, that "to meet the man, one of nature's noblemen, is a benediction."

CLUBS AND SOCIETIES

NATIONAL ASSOCIATION OF GARDENERS.

In connection with the 16th annual exhibition of the Morris County Gardeners' and Florists' Society a session of the Gardeners' Association of America was held in the lecture room.

This association was incorporated under the laws of the State of New Jersey in July last and the annual convention was held on Friday, October 27, during the flower show at Madison, N. J. It was well attended and great interest was taken in all the proceedings. The lengthy constitution and by-laws were read and adopted and letters were read from the Mayor and Board of Trade of Buffalo, N. Y., inviting the association to meet in that city next year. Mr. J. Downing, president of the Morris County Gardeners' and Florists' Society, welcomed the assemblage to Madison and expressed hopes for the future of the society. The election of officers resulted in having for president, Thomas H. Logan, Jenkintown, Pa.; first vice-president, Martin E. Tilletson, Great Neck, L. I.; second vice-president, W. Rennie, Pasadena, Cal.; secretary, M. C. Ebel, Madison, N. J.; treasurer, R. H. Caverly, Lowell, Mass.

J. Otto Thilow made an eloquent address. He spoke in approval of the proposition to widen the sphere of activity of the Gardeners' Association and gave great credit to the great influence of the private estates, public parks, school gardens, embellishment of factory grounds, etc., in the advancement of horticulture in this country. He said that the demand for gardeners of ability is increasing rapidly and wonderful opportunities are now in sight for able men. In Europe they have reached the stage of civilization where they can't do without flowers and we, in this land of homes, are progressing in the same direction. The gardener should now assume a more aggressive stand and not keep himself so much to himself. Be earnest; be enthusiastic; drill and sing horticulture into the ears of the people. He closed with an urgent plea for the prevention of further forest depletion.

J. K. M. L. Farquhar was the next speaker, his topic being the "Gardeners' Opportunity as Presented Today"—such an opportunity, Mr. Farquhar declared, as had never occurred in this or any other country. The gardener, he said, is to take a higher position, with a recognition and recompense more in keeping with his services. He would have the gardener prepare for this by making himself master of his calling. The outdoor department of horticulture is the most important at the present time. Too many of the craft are deficient in knowledge of essentials and there is imminent danger of the gardeners being supplanted by students with a college-acquired scientific education, but lacking horticultural knowledge. The gardener should know soil constituents, the fundamen-

tal requirements for tree growth and vegetable culture; should have an all-round equipment in the use of hardy perennials and shrubs, the laying out and development of grounds, the use of the level, the making of drains and care of lawns, plant physiology, entomology, the forcing of fruit and vegetables under glass, as well as exotic plants and flowers. The "tree doctor" is an encroachment on the gardeners' domain which the gardener should by his own knowledge be able to repel and a large proportion of the landscape architects are equally superfluous. The gardener should be in a position to do all these things and be able to so lead his employer that he would come to him for counsel in all such operations instead of depending upon book-taught interlopers for advice on matters which the latter are accustomed to assert the gardener does not understand. "Learn, learn, learn," was the burden of Mr. Farquhar's appeal and it made an almost sensational impression upon his audience.

C. H. Totty then addressed the Association on the subject of the "Proposed National Flower Show in New York, in 1913, Its Aims, and the Gardeners' Duty and Privilege in the Great Enterprise." Everything should be done to help along the great movement to induce the people to have their own home, own flower garden, own fruits and vegetables. The gardeners' power for good in this great upward movement is immeasurable. The flower show can be made to do much effective work to this end. The gardeners should enthusiastically support the S. A. F. and personally as well as in their organized capacity co-operate with the S. A. F. in its commendable project.

Wm. J. Stewart, John Young and W. E. Maynard were also called upon and gave unstinted approval to the sentiments expressed by the previous speakers.

Following adjournment the members and visitors were invited to dinner at the American House, after which speeches were again in order. J. Austin Shaw complimented the Morris County organization on the success of its exhibition and predicted an unprecedented display at the National Flower Show in New York. "Baby" Foley from Chicago avowed he was celebrating his birthday and removed his coat for greater freedom as he addressed his audience as "Fellow gentlemen and gardeners, newspaper men and barnacles," and related some of his past performances, closing with a cordial invitation to all to come to Chicago S. A. F. Convention next summer. E. O. Orpet spoke interestingly of his experiences in gardening in the west. H. A. Bunyard said that the Gardeners' Association should stand on its own bottom as a gardeners' organization and leave the general field to the Society of American Florists. M. C. Ebel, R. M. Schultz and C. H. Totty all spoke words of welcome on behalf of the local society. Other speakers were J. H. Pepper, Wm. J. Stewart, Joseph A. Manda and Robt. Bottomley. The services closed with the singing of "Auld Lang Syne."

MASSACHUSETTS HORTICULTURAL SOCIETY.

The Committee on Gardens of the Massachusetts Horticultural Society represents one of the departments of the society's work the object of which is to encourage the development and ornamentation of private grounds of large and small estates. Premiums and medals are offered in recognition of tasteful planting and arrangement and for successful results in garden making.

The Committee has completed its visits of inspection for the current year and announces its awards as follows:

H. H. Hunnewell Triennial Premium.

For an estate of not less than three acres planted in the most tasteful and effective manner, with the most desirable ornamental trees and shrubs, and kept in the best order for three consecutive years: First—Col. Harry E. Converse, Marion; Second—Andrew Gray Weeks, Marion. For a garden of spring-flowering plants: First—George E. Barnard, Ipswich.

Society Prizes.

For a garden of summer or fall-flowering plants: First—George E. Barnard, Ipswich.

For a garden or collection of peonies: First—Wilton Lockwood, South Orleans.

For a garden or collection of hardy roses: First—Col. H. E. Converse, Marion; Second—Wilton Lockwood, South Orleans.

For a garden or collection of irises: First—Dr. Harris Kennedy, Milton.

For a rock garden: First—Charles W. Parker, Marblehead; Second—George E. Barnard, Ipswich.

For a water garden: First—Col. H. E. Converse, Marion; Second—George E. Barnard, Ipswich.

For a garden of large or small fruits: First—Dr. W. G. Kendall, Atlantic; Second—George E. Barnard, Ipswich.

For a vegetable garden: First—Oliver Ames, North Easton; Second—George E. Barnard, Ipswich.

Special Awards.

C. S. Eaton, Marblehead, Honorable Mention for vegetable garden. Mrs. H. R. Foote, Marblehead, First Class Cultural Certificate for rose garden. F. A. Smith, Ipswich, First Class Cultural Certificate for apple culture. David F. Roy, Silver Medal for superintendence of Converse estate, Marion. James Marlborough, Silver Medal for superintendence of Proctor estate, Topsfield.

The annual chrysanthemum exhibition of the Massachusetts Horticultural Society will be held at Horticultural Hall, Thursday to Sunday, November 9 to 12. From the entries already promised a brilliant show is assured. In addition to the display of chrysanthemums there are classes for orchids and for groups of flowering and foliage plants. There will be also exhibits of fruits, native and foreign, arranged for decorative effect with autumn foliage and berried shrubs. A popular ladies' orchestra will furnish music every afternoon and evening.

WM. P. RICH, Secretary.

AMERICAN ROSE SOCIETY.

The supporters of the American Rose Society are responding finely to the request for a guarantee fund to enable the society to offer a first-class prize list for the coming joint exhibition at Detroit. Several amateurs have come forward—Samuel Thorne, of Millbrook, N. Y., and Mrs. E. M. Sharpe of Wilkesbarre. Also ex-President W. H. Elliott, August Poehlmann, and "A Friend."

The Detroit show will be made a public popular exhibition. The Wayne

Pavilion is virtually a Crystal Palace, so situated that thousands of people can visit it. The dates are January 10, 11 and 12, 1912; admission is fixed at 25 cents straight, no cuts. The roses and carnations will occupy the floor and the sides will be well decorated. Chicago will be represented and Canada will do her best. Detroit is very central and with R. R. facilities unsurpassed. At Boston last spring it was noticeable that, no matter what the other attractions, the crowd surged toward the roses every day the show was open.

President Farenwald has called a meeting to prepare the prize list and as soon as completed the same will be sent out without delay. The Rose Society is making an effort to secure a list of accurate registrations and there arises from time to time conflicting claims as to priority of names. Silver medals have been sent to Robert Scott & Son, Sharon Hill, Pa., and to S. J. Reuter & Son, Westerly, R. I. A gold medal was voted to M. H. Walsh of Woods Hole, Mass., in recognition of the work done by him in the development of climbing roses, a line of floriculture that has taken hold of the American public for summer home decoration in a manner that is visible the country over, literally exemplifying the motto "A Rose for Every Home, a Bush for Every Garden."

BENJAMIN HAMMOND,

Secretary.

Fishkill-on-Hudson, N. Y.

CHRYSANTHEMUM SOCIETY OF AMERICA.

Work of Committees.

Cincinnati, Ohio, Oct. 21.—Alice Solomon, Inc., color white, exhibited by the E. G. Hill Co., Richmond, Ind., Commercial scale: Color 18, form 12, fullness 8, stem 15, foliage 12, substance 10, size 8; total 83.

New York, Oct. 21.—Jennie, Jap., color white, blush tint, exhibited by Alfred J. Loveless, Lenox, Mass. Commercial scale: Color 16, form 12, fullness 10, stem 12, foliage 14, substance 14, size 9; total 87.

Reports of examining committees C. S. A. are as follows:

Chicago, October 28. Arthur Orr, lemon yellow, Inc.; scored 81 points; exhibited by Peter Schilt, Evanston, Ill.

Chicago, October 28. Esthetic, lemon yellow, Inc., 87 points; exhibited by Elmer D. Smith & Co., Adrian, Mich.

Chicago, October 28. Pink Gem, pink, Inc., 90 points; exhibited by Elmer D. Smith, Adrian, Mich.

Cincinnati, October 28. Pink Gem, pink Inc., 87 points; exhibited by Elmer D. Smith, Adrian, Mich.

Cincinnati, October 28. No. 10-1909, white Inc., 80 points; exhibited by H. W. Riemann, Indianapolis, Ind.

New York, October 28. Sport of Brighthurst, bronze, 85 points, Ex. scale; exhibited by Alfred J. Loveless, Lenox, Mass.

Philadelphia, October 21. Mrs. Bartlett E. Hayward, pink Inc., scored 85 points; exhibited by G. A. Lotze, Glen Burnie, Md.

CHAS. W. JOHNSON, Sec'y.

A REUNION PLANNED.

It is the wish of many of the members of the old New York Gardeners' Society, which did much to encourage horticultural shows and societies many

years ago in New York and surrounding towns that a reunion of the "Old Guard" gardeners and friends should be held this winter in New York City. Would be glad to hear from all of them on the matter. Address J. Ivera Donlan, care Walter F. Sheridan, 133 West 28th St., New York City.

THE PHILADELPHIA SHOW.

The Pennsylvania Horticultural Society is making a special effort to put up the best show in years. Some time since, a joint committee with this end in view was appointed by the society and the Florists' Club of Philadelphia. J. Otto Thilow is chairman of this committee and that assures plenty of activity of the kind that counts. The cooperation and support of the commercial interests is especially sought and those who have novelties or anything of special value or interest either in chrysanthemums or anything else are urged to send them, to arrive at Horticultural Hall, Philadelphia, by Tuesday morning, November 7, and they will be properly cared for.

PERSONAL.

J. Chas. Murphy has finished his new addition to his plant.

Joseph E. Rolker, of August Rolker & Sons, New York, is now in Europe on a business trip.

J. Max Nitzschke, formerly with J. J. Habermehl's Sons, Philadelphia, is now with Sidney Hoffman, 61 Massachusetts avenue, Boston, Mass.

Charles E. Greening, of the Greening Nursery Co., Monroe, Mich., was operated on for appendicitis on October 20. At last reports he was rapidly recovering.

Mr. and Mrs. Otto A. Asperger of the Pahud Floral Co., Indianapolis, Ind., are in the east on their wedding trip and when in Philadelphia were guests of M. Rice & Co.

Harry Thorne for the past two and a half years employed in the greenhouses at the estate of Nelson W. Aldrich, has been appointed head gardener to F. F. Peabody, Albany, N. Y.

H. E. Bates of the King Construction Co. and Miss Jean Hay Hoey of Wayne, Pa., were married on September 7, at Wayne and have just returned from their wedding trip to the Weirs, Lake Winnepesaukee, N. H. Mr. and Mrs. Bates will reside at Washington Heights, New York City.

J. Ames Fraser for some years assistant gardener at the H. McK. Twombly estate, Newport, R. I., is now located at East Quogue, L. I., succeeding his late father in the florist business and John Booth, formerly at the Thayer estate, Lancaster, Mass., has succeeded Mr. Fraser at the Twombly place.

Visiting Providence—Walter Mott, representing Wm. Elliott & Sons., New York.

Boston visitors—John Dunbar, Supt. of Parks, Rochester, N. Y.; George C. Watson, Phila., Pa.

Cincinnati visitors—Martin Reukauf, representing H. Bayersdorfer & Co., Phila., and B. N. Schwartz of New York.

Visiting New York—J. K. M. L. Farquhar, Boston; W. P. Craig, Phila., Pa.; George C. Watson, Phila., Pa.; Herbert, Atco, N. J.; P. J. Foley, Chicago; E. O. Orpet, Lake Forest, Ill.

DURING RECESS.

Chicago Bowling, Oct. 25.

The next meet will be on Monday, Nov. 20th.

BOSTON FLOWER EXCHANGE.

The annual banquet of the Boston Flower Exchange, Inc., was held at Young's Hotel on October 28 at 8 P. M.. About one hundred stock holders and guests were present and it was a very pleasant enjoyable affair. Wm. C. Stickel presided and proved, as usual, a very witty toastmaster. Among the speakers were J. T. Butterworth, Thomas Pegler, Wm. H. Elliott, A. C. Parker and W. J. Thurston. W. N. Craig and Robert Cameron spoke for the trade press. The meeting opened with the reading of a letter from E. Allan Peirce which was simply a prospective of what the Flower Growers' Association was doing and intended to do and what a similar combination was doing in New York. The old officers and board of directors were re-elected. A resolution was passed instructing the clerks of the meeting to forward a letter of condolence to E. Allan Peirce on the death of his little daughter, which was done.

INCORPORATED.

Bedford Hills, N. Y.—E. C. Haines & Co., general nursery and florist business. Capital stock \$75,000. Incorporators, E. C. Haines, E. Kratsch, W. R. Adams, Bedford Hills.

Newport, R. I.—Florists here had a busy time last week getting out wreaths for the funeral of Ida Lewis, the Grace Darling of America. So numerous were the floral tributes that two carriages were taxed to their capacity in carrying them to the cemetery. The flowers included nearly every kind in season. The gardening craft was honored on this occasion by James McLeish, the well-known grape grower being selected as one of the honorary bearers. Mr. McLeish has been a near neighbor of the heroine for a great many years.

ROOM FOR IMPROVEMENT.

Dear Sir—I have read in your columns with interest and enjoyment the fine, vigorous address of Mr. Farquhar in New York and the notable letter from Professor Sargent concerning the lack of interest shown by our commercial horticulturists in the scientific side of their profession. I am very closely in touch with many amateur flower gardeners and I appreciate to the full, from their standpoint, all that these gentlemen have said. During the twenty years in which I have been in a position to know, my experience has been that if one wanted any English, French, German or Dutch novelty, one must write abroad, not to mention the impossibility of getting here named varieties of plants for years cultivated in England and on the continent,—plants perfectly suited to our climate, but which our seedsmen and nurserymen have disregarded entirely.

It is the exception, too, to find a florist who knows, except for roses, carnations and a few other things the names of the various varieties of flowers which he offers for sale. Lately I had occasion to buy some small autumn chrysanthemums of a large metropolitan firm of florists. The flowers were of so fine a form and color that I asked for their name and received the information that they were called "baby chrysanthemums!" Very courteous was this reply, but it felt like a slap in the face!

For the intelligent and enthusiastic men who deal in these wonderful wares of flowers, such as several whom I might name, the advanced amateur gardener in America should give Heaven thanks! The Garden Club of Michigan, an association of women to the number of fifty, has just been organized. They band together at a fortnightly meeting, for the seedsmen of

this country in a few instances are now showing their desire to offer what amateurs who travel, read and adapt to their own climate and needs, should and will have. An era of "Gardening finely" is here, and with Mr. Farquhar I express the hope that our countrymen who deal in flowers and allied stock may seize the opportunities now crowding upon them. Let them buy abroad, sell here, profit greatly, but above all—study!

Very truly yours, K.
Michigan.

NEW MALLOWS.

A few weeks ago we had the pleasure of seeing a plantation in bloom, of the new hybrid marshmallows which Bobbink & Atkins, Rutherford, N. J., have been working up for some years. They are indescribably beautiful and showy and must be seen to be properly appreciated. The flowers run from eight to eleven inches in diameter, in brilliant tints of pink, salmon and crimson and are produced in great profusion, being at their best in latter part of August. These mallows are entirely distinct from and vastly superior to anything in this line yet produced.

This firm has established a fine rose garden which promises to be a great attraction at their nurseries. So far as we know it is the only attempt at a rose garden by any commercial concern in this country. There are now 5000 plants in over 300 varieties and they are making a vigorous growth. The enclosure is surrounded by a rustic cedar fence on which the climbing roses will be trained.

FALL-BEARING STRAWBERRIES.

We have received from L. J. Farmer of Pulaski, N. Y., a sample box of his Fall-Bearing strawberries. The

berries are of fair size, good color and flavor. There are two varieties, Francis and Americus. Mr. Farmer writes about them as follows:

These plants were grown in the open and unprotected. They were set last spring and all blossoms kept off until Aug. 20th. We began picking ripe fruit Sep. 10th, and they will continue to fruit until the hardest freezing weather. We are having wonderful success with them, having grown the improved varieties for three years now. Last year from 500 plants set May 1st we gathered during Aug., Sept. and Oct. 400 quarts of berries and sold them at the leading hotels and grocers at 25c. per quart. The 500 plants were set $3\frac{1}{2}$ x 1 ft. and occupied 1-25 of an acre. It will be seen that they yielded over 8000 quarts to the acre, netting something like \$2,000 to the acre.

C. HARMAN PAYNE.

The Journal of Horticulture, London, Eng., for September 28, contains an extended and very interesting biography of our esteemed European correspondent, C. Harman Payne. As there stated, Mr. Payne's position in the horticultural world is almost unique. His experience and services to the cause have been almost wholly literary, but he has exercised no small influence at home and abroad, and few men not directly in the trade are more widely known. For a quarter of a century his efforts on behalf of the chrysanthemum in England and on the continent have been unceasing and he holds exalted position among the chrysanthemum experts everywhere. His horticultural library is rich in antique and rare volumes and is very extensive in its general collection.

Boddington's "Quality" Tulips

Decoration-Day or May-Flowering; Darwin, etc.

Live, up-to-date and progressive, we might say aggressive, florists are planting more and more every year, the above useful and profit-bearing Tulips—because once planted they bloom from year to year with increasing value. With their immense flowers and long stems, (sometimes nearly three feet) and variety of colors, they sell as quickly again as the early varieties and come at a season when they are always welcome.

	100	1000
Bizarres. Handsome, rich flowers, with yellow ground, feathered or striped with crimson, purple and white, finest mixed.....	\$1.00	\$9.00
Bouton d'Or. Has deep clear yellow, globular, medium sized blossoms, with curious black-anthered stamens.....	1.00	8.75
Bybloems (Violets). Late Tulips with white ground, blotched, striped or feathered with blue purple, violet, blue or black; finest mixed.....	1.25	10.00
Bybloems (Roses). Superfine mixed.....	1.25	10.00
Darwins. Very large flowers of good shape, on tall, strong stems; for brilliancy of color they surpass any other Tulip; they include every known shade from the lightest tint to the brightest hue; finest mixed.....	.85	7.50
Elegans. Dark crimson, beautifully reflexed.....	1.75	15.50
Gesneriana spathulata, or major. This variety has long been in cultivation. The beautifully curved flowers are brilliant scarlet with a bluish-black center, on tall stems. A large group of this Tulip massed by itself looks very striking.....	1.25	10.75
Gesneriana macrospila. Crimson-scarlet, black and yellow center.....	.85	7.50
Golden Eagle. A showy and attractive variety, color a rich deep yellow red. It blooms about the same time as Gesneriana major.....	.85	7.50

	100	1000
Golden Crown. Is a showy and attractive variety, with a rich deep yellow color, and the petals edged and tinged with red. It blooms about the same time as Gesneriana major.....	.75	6.00
Maiden's Blush or Picotee. Clear white, margined on the edge with pink. The flower is beautifully curved, but it is somewhat difficult to give a correct idea of the color. When it opens the petals are white and margined or penciled with pink to cerise. After two or three days the flowers change to a deep rose, and, unless one is acquainted with it it would not be recognized as the same Tulip. It stands remarkably well when cut.....	1.00	8.75
Parisian White. Rich lemon-yellow, with deeper center.....	1.25	10.00
Royal White. Pure white.....	2.00	18.00
Vitellina. Pale primrose, passing off to pure white, a tall and exceedingly handsome variety.....	1.75	15.50
Boddington's "Quality" Superfine Mixture May-flowering Tulips, for acclimating, and for planting in herbaceous or shrubbery borders.....	.75	6.50

Choice May-Flowering, or Decoration-Day Tulips

	100	1000
CALEDONIA. Bright orange, very beautiful variety.....	\$1.25	\$10.00
GESNERIANA IXIODES. Beautiful yellow, with black center.....	4.25	40.00
ELLEN WILLMOTT. Undoubtedly the finest May-flowering Tulip; flowers very large, beautiful form and of a soft creamy yellow; very fragrant.....	4.50	42.00
GALA BEAUTY, or COLUMBIA. Blotched vermillion and golden yellow.....	7.25	70.00

	100	1000
INGLEScombe SCARLET. Very brilliant scarlet, black base; a grand variety.....	1.75	16.00
INGLEScombe YELLOW. A large canary-yellow flower of perfect form, glossy and very beautiful.....	5.75	55.00
LUCIFER. Bright terra-cotta-orange, very pretty \$1.50 per doz.....	11.00	
PRIMROSE BEAUTY. Color soft primrose, changing to white.....	3.00	28.00
THE FAWN. Very large oval flower, light grayish rose, changing to soft rosy white.....	3.75	35.00

Darwin Tulips (To Name)

Darwin Tulips are among the most varied and beautiful of all the late Tulips. Planted in the border they come into flower in late May and June. Flowers are large and borne upon tall, erect stems. Like the May-flowering Tulips they are indispensable for Decoration Day.

	100	1000
Ant. Roozen. Large flowering; rosy pink.....	\$3.00	\$27.50
Bronze Queen. Extra-large flower light yellow.....	2.25	20.50
Bourne de La Tonnaye. Clear rosy carmine.....	1.50	14.00
Dream. Soft lilac.....	1.75	15.50
GLOW. Brilliant growing vermillion, center blue, margined white.....	1.80	17.00

	100	1000
King Harold. Purple red; very unique.....	1.75	15.50
Loveliness. Soft rosy carmine; exquisite color.....	1.75	15.50
Margaret (Gretchen). Beautiful globular flower, outside blush, inside soft blush-rose.....	1.25	10.00
Mrs. Krelage. Large flower, soft rose, margined blush; very beautiful.....	2.75	26.00
Painted Lady. Creamy white.....	1.75	15.00
Pride of Haarlem. Rose, with blue base; flowers of great size and fine form.....	2.00	18.00
Rev. Fawbank. Vivid heliotrope-lilac, slightly bordered.....	2.50	22.00
Darwins, Mixed. All colors, in splendid variety.....	.85	7.50

SINGLE NAMED TULIPS

Single Hyacinth, "Named Bedding"

	100	1000
Artus. Dark scarlet.....	\$0.85	\$7.50
Belle Alliance. Scarlet; good bedder.....	1.65	15.50
Cardinal's Hat. Dark red.....	.80	7.00
Canary Bird. Beautiful late yellow.....	1.00	7.50
Chrysolora. Pure yellow; handsome flower.....	.85	6.50
Cottage Maid. Rosy pink, white striped; excellent forcer; "Quality Brand".....	1.25	10.00
Cramoie Brillante. Bright scarlet.....	1.00	8.75
Crimson King. Bright crimson; showy bedder.....	.85	7.50
Due van Thol. Red and yellow.....	1.00	8.00
Due van Thol. Crimson.....	1.00	8.50
Due van Thol. White (maximus) (true).....	.85	7.00
Due van Thol. Scarlet.....	1.25	12.00
Due van Thol. Rose.....	1.25	10.00
Due van Thol. Yellow.....	1.75	15.00
Duchesse de Parma. Orange red yellow shaded.....	1.00	8.75
Golden Queen. Very large yellow; fine globular form; the finest of its color.....	1.75	15.50
Joost van Vondel. Cherry red, white-feathered.....	1.25	12.00
Kelzerskroon. Red, with broad yellow edge.....	1.00	9.50

All First Size Flowering Bulbs Only

	100	1000

La Reine. First size.....	.75	5.75

Single Tulips to Color

	\$0.75	\$7.00
Red, mixed, to color.....		
White, mixed to color.....	.75	7.00
Yellow, mixed to color.....	.75	7.00
Pink and Rose, mixed to color.....	.75	7.00

Superfine Mixed Single Tulips

This mixture is made up of equal proportions of the best bedding Tulips, comprising a variation of color and shades that make them very effective when massed in beds. 75 cts. per 100; \$7.00 per 1000.

Fine Mixed Single Tulips

A mixture of good bedding Tulips for planting or selling over the counter to your retail customers. 60 cts. per 100, \$5.50 per 1000.

ARTHUR T. BODDINGTON, Seedsman, 342 West 14th St. NEW YORK CITY

Obituary

Charles Pflomm.

Charles Pflomm, a pioneer Connecticut florist, died in Middletown recently, aged 78 years.

George M. Woodward.

George M. Woodward, gardener for J. J. Mitchell, Lake Geneva, Wis., died on October 24, aged 63 years. He was born in Malvern, England, and came to America 35 years ago.

Benjamin R. Wilson.

Benjamin R. Wilson, one of the best known residents of Bristol county as a seedman and gardener, died at his home in Bristol, R. I., on Oct. 26 as the result of a paralytic shock. He was in his 62nd year. He had a shock last spring and since that time his health had been gradually failing to the end. He was prominently identified with affairs in his native town and was considered an authority on seeds and garden work.

He is survived by a daughter, Miss Lillian M. Wilson of Bristol; a brother, Charles C. Wilson also of Bristol; and a sister, Mrs. John W. Wright of Providence.

Mrs. Elsie Martini.

Mrs. Elsie Martini, aged 39 years, wife of A. Martini, head gardener at "Loramoor" Lake Geneva, Wis., died October 22nd. of tetanus resulting from a broken limb received in a runaway accident. The death of Mrs. Martini came as a shock to the many friends of the family as it was hoped she was recovering from the result of the accident. Mr. Martini, formerly with Ernst Wienhoeber Co., Chicago, came with his family to Lake Geneva, a year ago last June and they have made a great many friends in this community who sympathize with the bereaved husband and children in their deep sorrow. Deceased was a woman of sterling character and beloved by all who knew her. The funeral was attended by the members of the Gardeners' Association and a large concourse of sorrowing friends. The floral tributes from members of the Association and other friends were beautiful beyond description and expressed in a measure the esteem in which Mrs. Martini was held by her associates.

John Lamb.

A brief telegram as we go to press announces the sudden death of John Lamb, a distinguished Philadelphia lawyer, who for many years was closely allied with the horticultural trade of that locality, and held in the highest esteem both socially and professionally, by all who knew him. Mr. Lamb was born in Scotland and came to Philadelphia in his infancy with his parents. He became a great lawyer and enjoyed a large private practice besides being latterly counsel for the Reading. He is survived by a widow and many boys and girls. His oldest son, William, has been associated in his father's law practice for several years. One brother was in the florists' business and at the time of his death was foreman on the establishment of John Burton at

Chestnut Hill. Another brother, Rev. James Lamb, is rector of the Episcopal church at Radnor. Mr. Lamb was of a very genial disposition and made friends everywhere, high and low, rich and poor. He was a thorough democrat with a small d was gifted with a shrewd and far-seeing mind and had a fund of grim humor which flashed out in unexpected places—often almost upsetting the grave dignity of judges when trying cases in court. He was a member of the Florists' Club of Philadelphia and for many years took an active part in all its social activities. A warm-hearted, gentle, kindly man. We will all miss him—especially those who had the good fortune to be particularly intimate with him. G. C. W.

NEWS NOTES.

Bellingham, Wash.—The greenhouses of S. M. Wile have been purchased by J. W. Kincaid.

Rockport, Mass.—It is rumored that a Boston florist will build a range of 500-foot greenhouses here for rose growing in the near future.

New Orleans, La.—Robert Reinecke, 3826 Dryades street, will start a nursery on 40 acres of land recently purchased in St. Bernard.

Johnson City, Tenn.—Swan & Chegin, dealers in evergreens, are succeeded by S. A. Swan. They were formerly located in Hunt Dale, N. C.

Bradford, Pa.—The greenhouses of W. C. Rockwell have been purchased by Wilson & Rickerson, who with this addition have about 25,000 feet of glass.

Warren, Ohio—The greenhouses of A. T. Hoyt, 505 W. Market street, have been purchased by Thomas Fletcher, who will remove them to his place on Wood street.

Philadelphia, Pa.—On November 1, John W. McIntyre, wholesale cut flower dealer, moved to 1713 Ranstead street from his present location at 1601.

Norton, Mass.—F. B. Luther writes HORTICULTURE that the building of his greenhouses recently reported is held up owing to a land deal which will not be settled till sometime this winter.

Norwood, R. I.—N. D. Pierce, proprietor of the Home Nursery, writes HORTICULTURE that the report generally circulated that he is building or contemplating building or adding to his present plant is erroneous.

New York, N. Y.—R. J. Irwin, who has recently opened headquarters here in general horticultural line, has just returned from a trip in New York State which gave him very encouraging results.

Wyomissing, Pa.—Bertrand H. Farr, proprietor of the Wyomissing Nursery and president of the American Peony Society, writes that he is building a packing shed and storage for plants, 28 x 100. He has a nursery of 20 acres.

Elizabeth, N. J.—The Wilson Plant Oil & Fertilizer Co. have removed their office from New York City to Elizabeth, N. J., where they have a large new plant and can handle the business to better advantage. Mr. Creighton and Mr. Watson are still interested in the company.

CHICAGO NOTES.

Trade Notes.

J. Schoepfle has finished the Post Office building and new greenhouses at 933 Belmont Ave.

The A. Henderson Co., is having a very busy season. Mr. Muller and Mr. Reburn are both on the road again this week.

J. Mangel had a butterfly luncheon decoration at the Blackstone Monday. Baskets of flowers were used on the tables and floral butterflies of tiny yellow pompons, violets, etc., were among the flowers.

The preliminary premium lists of the Milwaukee and Cincinnati flower shows have reached Chicago and no doubt will attract the growers here. The Milwaukee show will be held at the Auditorium from Nov. 15 to 19 inclusive and the Cincinnati show from Nov. 13 to 18.

Geo. Fisher, Chicago buyer of the Fisher Floral Co., says that the firm moved into its new store in the Burdick block Kalamazoo, Mich., last Saturday. The local press speaks very highly of the location and appearance of the store and also of the business ability of the firm.

The wholesalers experienced a very busy week end as the shipping day for New Orleans fell on Saturday and Sunday. All Souls Day and All Saints Day called for thousands of chrysanthemums, roses and carnations, and in some stores the force worked till midnight on Saturday and all day Sunday getting up their shipments.

Personal.

Frank Miller, an employe of J. P. Brooks of Morton Grove, quite seriously injured both wrists by falling upon some nails in the yard Sunday morning, and is laid up for the present.

Fred Krauss is back again with the E. F. Winterson Co., after several weeks' absence.

Harry Klunder has moved a few doors west and is now with Harry Rowe.

J. Propp has taken a position with the Alpha Floral Co.

Carl Beu is about again after a week's illness.

Miss Minnie Zalud is the latest addition to the force at J. Mangel's.

Visitors—Mrs. J. M. Smely, Aurora, Ill.; Ch. Lund, Wausaw, Wis.; J. A. Muller of Julius Roehrs Co., Rutherford, N. J.; W. F. Kasting, Buffalo, N. Y.; Fred C. Weber, St. Louis, Mo.; F. A. Gussenbauer, Adrian, Mich.; C. Peterson, Escanaba, Mich.

NEWS NOTES.

Baltimore.—Thomas Meehan & Sons of Philadelphia, Pa., are doing the landscape work around the court house at Towson.

All eyes are trained on the coming Maryland Week Exposition to be held under the auspices of the Maryland State Horticultural Society, December 4 to 9, inclusive. Prominent speakers will attend and the display will be large, being held in the Fifth Regiment Armory.

The record price for flowers last month was \$4.50 paid for sixteen faded roses and what might have been asparagus foliage, at the sale of unclaimed freight from the Baltimore & Ohio Railroad Co.

DREER'S SEASONABLE SPECIALS

COCOS WEDDELIANA

PALMS, FERNS, ARAUCARIAS, PANDANUS, ETC.

A special offer of the above has just been mailed to the trade. If you did not receive a copy and are interested write us.

DAHLIAS

A special catalogue offering 200 standard up-to-date varieties will be sent for the asking. It will pay you to consult this before making up your 1912 catalogue.

SPECIAL OFFERS OF JAPANESE IRIS, PAEONIES AND HARDY PERENNIAL PHLOXES are also still in force.

SPECIAL CIRCULARS offering **SEASONABLE STOCKS** are made throughout the season. If you are in the **TRADE** and do not receive copies write us and have your name on our mailing list.

For complete lines of Seasonable Florists' Stock, consult our current Wholesale List, issued September 1st.

RUTHERFORD, N. J.

WASHINGTON NOTES.

William R. Smith is reported as being quite seriously ill at the Providence Hospital.

The next meeting of the Florists' Club of Washington is slated for Tuesday evening, November 7.

Mr. and Mrs. Adolphus Gude of Anacostia have announced that their daughter Marie will be married to Mr. Charles DeShields of this city on the evening of November 15.

C. J. Saunders is making quite a showing at the new location at 1415 U street, N. W. This, by reason of its close proximity to the railway transfer point, should prove a good stand.

The Washington Florists Co. last week reopened their branch store at 1707 Fourteenth street, N. W., for the fall and winter season with Mr. W. S. Fisher in charge. The store has been closed all summer.

Work is progressing on the new store of J. H. Small & Sons but no definite date has been set for the removal. The new quarters are in the recently constructed Southern Building on H at Fifteenth street, N. W.

D. G. Grillbortzer and Charles Kramer have been appointed as members of committee of the Retail Merchants' Association of Alexandria, Va., the former to that on reception and entertainments, the latter to streets, roads and parks.

The Department of Agriculture is holding its tenth annual chrysanthemum show at the propagating gardens. Fourteenth and B streets, N. W. The show is open from 9.00 a. m. until 9.00 p. m., and ends on Sunday, November 5. Members of the greenhouse force competent to do so, are on hand to explain the different varieties and their history to the public and thousands are taking advantage of the opportunity of seeing the exhibition. Something like fifty new varieties are being shown.

A number of new men have entered the employ of local stores during the past week or ten days, among these being: Harry Cunningham of Hampton, Va., with J. H. Small & Sons; William F. Gutshall, now at F. H. Kramer's F street store, was formerly located at the United States Propagating Gardens, as was Benjamin Russell, who is now employed at Kramer's greenhouses in Anacostia. E. J. Reynolds has joined the Washington Florists Company's forces, having come to this city from San Francisco, Cal., where he was employed by the Art Flower Co. Mr. Reynolds has been located in Denver and on the coast for several years, prior to which time he was in Newark, N. J., and other nearby cities. He is well known on both coasts.

The Washington Florists Co. had an exceptionally fine Halloween window last week. They had a reproduction of the old witch and her broom sitting on the last quarter of the moon with her old black cat with one eye white and the other blue, these and that of the witch being formed by electric lights. The figures were suspended from the ceiling. The window was decorated in imitation of a farm yard. There were pumpkins, ears of corn and other farm truck on the moss covered floor, surrounded by yellow and white dahlias and chrysanthemums and Killarney roses.

Nearly all the florists in town fur-

ENGLISH ELMS WANTED

Several hundred English "field" Elms. This is the type frequently seen in Boston and other places in the Eastern States, in large specimens. Old trees can often be identified by their habit of suckering. Trees should preferably be about 15 feet high and 3 inches in diameter. State particulars, giving prices, sizes, location, etc. Address

OLMSTED BROS., Landscape Architects

BROOKLINE, MASS.

nished flowers on the occasion of the grand opening of the "Greater Palais Royal" and marking the opening of a new building, an addition to this already large department store. To Gude Bros. fell the work of decorating the store and in this large quantities of chrysanthemums, American Beauty and other roses, string smilax, autumn leaves and potted ferns and palms were used. F. H. Kramer furnished a number of pieces, among them being an enormous horseshoe of vari-colored dahlias. C. J. Saunders furnished a number of pieces all of which were well made of white and yellow chrysanthemums, ferns, smilax, autumn leaves and yellow satin ribbon. J. H. Small & Sons supplied a green rustic basket filled with white and yellow chrysanthemums, American Beauties, etc. Mayberry & Hoover's contribution to the show consisted of a handsome basketful of dahlias. Marche & Co. furnished a basket of dahlias and Richmonds; George C. Shaffer a basket of Beauties and chrysanthemums, and other florists did their share. There were probably thirty or forty more pieces furnished by the different florists on exhibition during the early part of the week but space does not permit of mention of more than perhaps the leaders.

CLARENCE L. LINZ.

PHILADELPHIA NOTES.

A good frost would help stir things up. We want the geranium, the sage and the dahlia off the lawns. Then there will be something doing in tulips and hyacinths and such! It would help the cut flower business also. People will not buy while they still have plenty of good flowers on their own grounds. Come on—old frosty pow!

The burning question among the wholesalers is—why should we be asked to send special and deliver free—a twenty-five cent bunch of flowers—ten miles. The free delivery system is badly abused and relief must come. They don't do it in other big cities. Here's something for the new regime in the Florists' Club to wrestle with.

"Progress in Floriculture" is the subject of a free lecture to florists, by Robert Craig, to be given under the auspices of the Henry F. Michell Co., Saturday, November 25th, 1911, at 3 P. M., at their newly appointed "Lecture Hall," located on their main floor at 518 Market street, Philadelphia. Mr. Craig's ability not only as a grower but also as an accomplished speaker is a guarantee of a pleasant and instructive afternoon.

About the first of December Frank W. Power, Sec'y. of the Oregon Horticultural Society contemplates opening a Horticultural Correspondence School in connection with his other work at Portland, Ore. Courses will be given in the following subjects and later on others will be added: Soils and their adaptability to different fruits; insect pests and their remedies; fungus diseases and their remedies; planting fruit trees, vines, etc; care and cultivation of the orchard; grading and packing fruit for the market; how to market the products of the orchard; pre-cooling of fruit before shipment; irrigation; budding and grafting in the nursery; fertilizers; salesmanship (a special course for nursery salesmen). Address 1206 Yeon St.

At the first meeting of the Pasadena (Cal.) Gardeners' Association held in September, the proposition to change the name of the Association to The Pasadena Horticultural Society, was unanimously adopted.

NEWS NOTES.

Kansas City, Mo.—Sam Murray, busily engaged in the annual task of tying Lorraine begonias, which are truly grand this year, found time last week to run over to Kinsely, Kansas, three hundred miles away, and execute with great success a \$1400 wedding decoration. Of course, Miss Hayden was on the job also. Undertakings of this kind are only passing incidents in the life of this busy young lady who stands in the first rank on floral work.

Portland, Ore.—Martin & Forbes write HORTICULTURE that they have built one house, 25 x 100, in addition to the four recently reported. This new range is on a 50-acre tract purchased last spring and will be devoted almost entirely to the growing of roses and carnations for their own retail trade. The old plant of 100,000 feet of glass will now be given over almost entirely to plant growing. The new plant will be added to as the demand grows.

Seed Trade

Mr. Grenell Will Not Retire.

In our issue of Oct. 21st, we stated under the head of "Seed Trade Notes" what we supposed was, and which we have since learned is a matter of general knowledge, that W. H. Grenell, had announced his intention of selling a large part of his seed stock, and accepting no contracts for the 1912 crop.

In a circular letter sent out by Mr. Grenell, he had stated this fact, after giving his various reasons for arriving at this decision. Now we have not the slightest intention of butting into Mr. Grenell's affairs or misrepresenting him in any way, but simply printed what we thought would be an item of general interest to the trade.

Mr. Grenell has written us protesting against the item we published, and saying that he has no intention of retiring from the seed-growing business, and that he intends to grow peas and beans on contract for 1912, the same as he has for the past thirty years or more. We are glad to give Mr. Grenell's denial of his intention to retire the same publicity we did the other statement, and while there may be an apparent inconsistency and contradiction in these statements, he can no doubt reconcile them and we wish him success, as heretofore, in his business.

The Advance in Pea Prices.

Just at the present time, there is very little of interest worthy of note in the trade. Nearly everyone is busy with bulbs and other fall requisites, and the seed end of the business has not received much attention for the coming year as yet. There is one matter, however, which will doubtless attract much attention in the near future and that is the contracting prices for peas for the crop of 1912. While so far as we know, no contracts have yet been booked, we are informed that prices will show a sharp advance over last year's, ranging from fifty cents to one dollar per bushel. Just how the trade will view this advance remains to be seen, but from the seed grower's point of view, it is inevitable and we are inclined to think that when the trade fully appreciates the difficulties which beset the seed grower, they will consider that the advanced prices are not unreasonable or unjustifiable.

For the past five years, the growers have suffered losses, varying from a few thousands of dollars to many thousands, and it is doubtful if any of them have made a dollar for an average of more than five years, but this is a matter that calls for special treatment and we shall no doubt have occasion to refer to it again in the near future.

The Bean Situation.

It may not be amiss to call attention to the rather odd fact that whereas peas have for the past three years as a seed crop been largely a failure, beans have been a fairly good crop, and though the deliveries this year will fall considerably below estimates of a month or six weeks ago, it will be owing to a wet harvest, which has caused serious damage to all bean crops not under cover. However, there

Orange, Conn. 82 Day Street, New York City.

will be no famine prices as we have remarked before, excepting on a very small number of varieties, of which practically none were carried over from last year. For this reason it will be much easier to get acreage for beans, and there will be only a slight advance in growing prices over last year.

Seed Trade in New Zealand.

From Vice Consul General Henry D. Baker, on Special Service in New Zealand.

The seed business of New Zealand is of considerable importance, over \$600,000 worth of grass, clover, and other seeds being exported from the Dominion in 1910, and about \$500,000 imported. During the next few months the New Zealand seed market should possess an exceptional interest for American seed growers and dealers, as owing to the recent drought seeds are now very scarce and are selling for prices about 40 per cent higher than a year ago.

Seed-Grain from Sweden.

Sweden is a country whose agricultural conditions are not as favorable as those of the more southern parts of Europe. The Swedish farmer has

A hundred-story office building is proposed for erection in New York City, to be over 1000 feet in height. A fifty story one is now being constructed two blocks from our office. These fine edifices are monuments to master minds of the present day. One thinks only of the height and magnificence of the building, but the principle part of such construction lies almost without regard—the foundation. Just think of the weight of a hundred story building—better still go to the top of a twenty story one to think about it. The average man has no conception of the immensity of the undertaking. The building is appreciated as an end without regard to the means. That's the way with lily bulbs. A grower appreciates an excellent crop of flowers, but he seldom considers that the foundation of his successful crop was carefully laid in Japan or in Bermuda by painstaking and patient bulb growers—men who love bulbs and their propagating. The best flowers always come from the best bulbs. Horseshoe Brand lily bulbs are the best you can buy anywhere in the world. There are none better grown. They are cultivated and exported to support the highest class of trade and to satisfy the most careless growers. There could be no surer foundation to success in lily growing than these bulbs, and you need them in your business. They are worth all they cost and more often more. Write us.

Ralph M. Ward & Co.

12 West Broadway

NEW YORK CITY

Not How Cheap
But How Good

to use all his skill to make the soil produce enough to get a benefit out of his work. The Swedish government has spent large sums for scientific research regarding soil improvement and particularly in the selection of the best grades of seed.

A little pamphlet, entitled "Svaloef" is sent out free of charge by Loechner & Co., 11 Warren street, New York, who have been appointed sole agents for the All. Svenska Utsaedes Aktiebolaget, Svaloef, Sweden, the distributors of this seed-grain, so famous in Europe, grown under government supervision.

Anybody interested should ask for a copy of the pamphlet, which certainly is interesting.

CUCUMBER LOSSES AT ROCKY FORD.

Editor HORTICULTURE: We noticed in a recent issue of HORTICULTURE, your remarks in relation to the cucumber crop and in connection with same, wish to advise that we have received notice from our growers at Rocky Ford, Colo., stating that they had a severe snow storm in the Arkansas Valley at Rocky Ford last Friday and that one-third of the cucumber crop was still in the fields. This may make a serious loss of the cucumber crops in that locality, especially if the cucumber become soft on account of the snow and cold weather followed by warm weather; also if the seed in the pits which have been harvested become chilled or frozen. The growers are guarding against loss all they can, but it is difficult to save the crops under the above conditions. Trusting this may be of interest to you, we remain

Yours truly,

WESTERN SEED & IRRIGATION CO.
Fremont, Neb., Oct. 25, 1911.

Notes.

Ralph M. Ward & Company announce that Mr. Ad. Goldenberg, a salesman, is no longer in their employ.

New Haven, Conn.—The Frank S. Platt Co., seedsmen, have opened a new store at 446 State street.

Hamilton, Ohio—Emil A. Kunz has purchased an interest in the Rothenbush seed and fruit store on High street. The business will now be known as the Rothenbush Fruit & Seed Co.

Charleston, S. C.—Arcade Floral Shop, 303 King street, Frank W. Kummer, proprietor.

Buffalo, N. Y.—Theo. M. Clausins, 24 Grant street; George Patschke, 1020 Genesee street.

Wilkesbarre, Pa.—Cash Flower Store, South Main street, branch store of Ira G. Marvin, who has a store at 53 North Main street, with greenhouses at 53 North Main street.

Tullahoma, Tenn.—Wm. Brittain has purchased all the properties, orchards and nursery stock of the Tullahoma Nursery and Orchard Co., and will continue the business under the same name.

West Chester, Pa.—A flower store has been opened at 20 North High street by the new firm, Lorgus Co. Martin Lorgus, president; Geo. Achel is, vice-president; Rudolph Lorgus, treasurer; Martha G. Lear, secretary; Rudolph Lorgus, manager.

BOSTON NOTES.

A new flower shop is being built at 134 Massachusetts avenue for Charles Fine, formerly with "Fine the Florist," 202 Dartmouth street.

Mathew F. Ruane, 121 Moody street, Waltham, visited the flower market the past week for the first time since his accident. He is doing a good business at his store for so new a venture.

A temporary retail flower store has been opened, until after the holidays, at 169 Tremont street by A. Caplan, whose main store is at 144 Massachusetts avenue. This new venture is doing business under the name of the Flower Growers' Exchange and A. S. Caplan is manager; Arthur Robbins, buyer; H. Lerner, treasurer. Mr. Caplan entered the field in 1897, working for Henry Penn. His store on Massachusetts avenue has just had a new front put in and a fine delivery wagon has been added to the equipment.

IN BANKRUPTCY.

Boston, Mass.—George G. Soloman, florist, in Houghton & Dutton's. Liabilities, \$12,106; assets, \$1,062.

DETROIT NOTES.

Chas. Greening of Munroe, Mich., is at Harper Hospital for an operation for appendicitis.

Harry Rackham has opened his new store on Woodward avenue. Having passed all his life in the florist business he has become well acquainted with the many expenses connected with the retailing of flowers and is therefore a most welcome competitor in the local field.

A colonial archway leads into a well-ventilated conservatory with centre-bench and side benches. The walls are covered with tuffa. There is a very light and well ventilated workroom, 11x42. The rear part is a two-story building containing room for two outos and sleeping quarters and storage rooms upstairs.

After many weeks of tedious waiting B. Schroeter has finally the satisfaction to occupy his new store. The store is 30x36 with a white brick front, two windows with platforms of small white enamel tiles. To the right is an icebox 13x10 and 4 feet deep, while to the left is a cosy place furnished with brown reed furniture and adjoining is the counter and an enclosed private office. FRANK DANZER.

Flower Market Reports

BOSTON Business in Boston is "on the blink." Indeed, the wholesale markets are experiencing the worst swamping they have had for a long time. Chrysanthemums are a veritable avalanche and are partly responsible for the present sluggish conditions. They are magnificent as to quality but the sales are very closely limited to the medium grades. Carnations are also of excellent quality but are being received in unwieldy quantities, the whites having the best of the call. Roses are unloaded with difficulty, especially the older varieties. The newer sorts, such as Lady Hillingdon, Taft and Mrs. Ward are enjoying the lion's share of such demand as exists. Orchids are suffering with the rest. Cattleyas are moving slowly and oncidiums which are of superb quality stay in wholesalers' hands. Lilies and lily of the valley are also in the dumps. Violets are poor in quality and thus far have had little appreciation in this market.

BUFFALO Flowers of all kinds were plentiful the past week and high prices were out of the question. Cold weather was looked for and was had though it did not check the heavy supply. The recent frosts have cut the out door stock out entirely but heavy receipts in ordinary chrysanthemums have blocked the market. Some select stock is now had and have sold satisfactorily. Carnations, roses, violets, lily of the valley and everything is had in plentiful supply. Asparagus, adiantum and all other greens also in good supply.

CHICAGO Last week emphasized the change that has come over the market during the past month. If the first part of October was not equal in volume of trade to that of some other years the closing week has changed the totals and both home and shipping trade were excellent. Customers no longer made their own prices, but promptly secured the stock and were glad to get it at a fair valuation. Medium and poor stock had been a little hard to move, especially in chrysanthemums, of which there has been so far an unusual proportion of stock that tends to keep down prices, but was nearly all cleaned up Saturday and Sunday. The southern orders took away many of the larger chrysanthemums, as All Souls' Day usually does, and left the home market in good shape for the new week. The early chrysanthemums are about gone and the later ones are in a little earlier than usual. Pompons are getting more plentiful and a good supply of Zonobia is seen. The demand for cattleyas is reported as a little slow. Roses of all kinds are moving promptly and the scarcity of short stock is noticeable, the standard varieties still having the preference. Carnations are especially fine and the most fastidious buyer could ask for nothing better. Lily of the valley is good and the supply keeps up to the demand. Excellent green of all kinds to be had.

The market during the past fortnight has been marked by a gradual accumulation of white roses and longiflorum lilies and a heavy glut of Estelle chrysanthemums. By

AMERICAN BEAUTY

A sample illustration from our general Catalogue of Ribbons and Supplies, Pattern American Beauty or No. 1614. Quality far superior to the many imitations offered. No. 40 width, \$2.00 per piece of 10 yds.; No. 80 width, \$2.75 per piece of 10 yds.

BOXWOOD SPRAYS

New crop. Fresh and glossy. No surplus wood. 50 pound crates, \$15.00 per 100 lbs.

The (P/M) Ribbons

For many years have been acknowledged leaders both in style and quality; each season we have added new creations more beautiful than the last aiming always to have a ribbon of pleasing and harmonizing shades for each novelty as it is introduced, whether it be a rose, carnation or sweet pea, it matters not. "A ribbon for every flower, old and new," is our slogan. This season is no exception to this, our custom. We having added many new and beautiful shades that cannot be found elsewhere. Customers re-ordering time after time, demonstrates to us that the P/M quality ribbons are and must be by far the best. Samples and prices for the asking.

the time this is from the press this last will be entirely over, while the first may be over if there should be much colder weather or a very increased demand for same, or a great tightening effect in the wholesale houses. The general average business has been good and is getting better. Prices are slowly returning to higher levels. The start of this week failed

to start with its accustomed rush. The American Beauty cut is letting a somewhat and consequently they sell in a hurry each day. Pink roses, too, clean up nicely. Most all the offerings are of good quality and have a very long fine stem for this time of the year. Carnations are very much in demand and at the end of last week

Flower Market Reports.

(Continued from page 641)

and beginning of this showed tendencies to run short. The red are now showing their good colors and the Rose Pink Enchantress has its cold weather hue. Most of the offerings are now long-stemmed. Chrysanthemums of course are the blooms that are in demand. The varieties with good well formed flowers have little trouble in finding a market. The demand for lily of the valley and orchids has slackened a little, while all violets both double and single sell well. Boxwood has been added to the green goods line and new galax will be here within a week.

NEW YORK The situation has been quite unsatisfactory here, from the viewpoint of the grower and wholesale dealer for the past two weeks. There is a heavy influx of chrysanthemums and other staples which coming upon a low-spirited market has had a very depressing effect on values. Sales have lagged and where large quantities are concerned have been effected only at a considerable sacrifice on price. All the mid-season and many of the late chrysanthemums are on the regular daily list now. Robinson, Taft and other large flowered sorts are apparently less popular with the buyer than the old standard commercial variety, Ivory. Lilies are selling very low. Roses are very abundant. Colder weather is needed.

PHILADELPHIA Last week started out in much better shape owing to clear weather, less baseball and more football, the latter being a help to the flower business and the former a detriment. Plenty of stock all along the line, particularly roses, carnations, and chrysanthemums. We are getting the last of the early chrysanthemums and are starting on the mid-season varieties which meant a week of medium-class bloom with very few specimen flowers coming to the market; prices low, the poorer stock being sold at any figure that could be gotten and no reasonable offer refused. Quite a few pompons coming in with some beautiful flowers in the spray varieties in pink, yellows and whites, including the pink and yellow Garza which are very beautiful indeed. These and the ordinary pompons are becoming more popular every year and will continue so as they are very valuable for all kinds of work, not only for vase work but in decorating effects. With the cooler weather carnations are still im-

proving, better stems and better quality. Prices are also improving but are ruling low. Roses are improving in quality, prices holding fairly good although low. The novelties, particularly Mrs. Taft, are selling well. This is a grand rose and bound to be a winner, providing it is a money-maker from the grower's standpoint. Gardenias are still scarce and the quality medium. The prospects are that they will be more plentiful and the quality better shortly. It is to be hoped so, anyway, as there is a good demand for them. The glut of cattleyas is somewhat over, the growers reporting a shortening up of crops which will have a tendency to stiffen the prices, and then too with a better demand, we should find the orchid market in much better shape. Lily of the valley is selling well, quality good. Greens are generally moving slowly; supply plentiful. Dahlias held on longer than usual this year; in fact, too long for the greenhouse men, as quantities of dahlias were moved after chrysanthemums became plentiful, thus cheapening the prices on all kinds of flowers. We believe it would have been better for the business if we had had frost a little earlier, although of course the dahlia man is expected to have his innings and this year has been a good one for him although prices have not been high at any time but immense quantities of dahlias were moved all over the country.

PROVIDENCE A general improved condition has been noticeable in the market during the past week and with an increase in the supply of stock there has also been a stiffening of prices, indicating a healthy condition of trade. The popular carnation is coming in good quantities and the quality is excellent. The quality of the chrysanthemums on the market is much better and in another week this flower will be at its height. Choice blooms are bringing \$12 to \$14 per 100 and the demand is very fair. Although not as plenty as they have

been, there is a fine crop of roses in the market, with the supply in excess of the demand. There are a lot of violets with a dull market at 50 cents

DREER'S "Riverton Special" Plant Tub

No.	Diam.	Each	Dos.	100
10	20 in.	\$1.45	\$16.00	\$130.00
20	18 in.	1.30	14.00	115.00
30	16 in.	1.00	11.25	92.00
40	14 in.	.65	7.00	66.00
50	12 in.	.45	5.00	40.00
60	10 in.	.38	4.00	32.00
70	8 in.	.30	3.50	28.00

Manufactured for us exclusively. The best tub ever introduced. The neatest, lightest and cheapest. Painted green, with electric welded hoops. The four largest sizes have drop handles.

HENRY A. DREER, Seeds, Plants, Bulbs and Supplies, 714 Chestnut Street, Philadelphia, Pa.

Flower Market Reports

(Continued from page 643)

per 100. There has been a good demand for green and decorative goods for Hallowe'en. A considerable quantity of mignonette was disposed of during the week at \$3 per 100.

The wholesalers say ST. LOUIS that last week was a good one with them and all fancy stock sold well. Plenty of stock is being consigned to this market, chrysanthemums being quite heavy at present and bringing a good price. Roses of all usual varieties are most plentiful. Carnations are somewhat scarce. Violets are looking better each day. The frost of the past week has killed off all outdoor stock—the retailers all say that the business has picked up greatly since the cold weather set in.

The decided change in the weather last week and the exceptional number of large weddings and funerals created a great boom locally. In addition to this several of the large department stores celebrated anniversaries and these called for large quantities of cut flowers. The frost of Thursday and Friday nights killed off a lot of the outdoor stock, much to the delight of those operating houses. Cosmos and dahlias will soon be memories and their going brings in the chrysanthemum, which, at this writing, is coming into the market in excellent shape. One local firm is cutting between two and four thousand blooms daily and are disposing of all they cut. All stock is very plentiful with the possible exception of carnations, which, however, are of fine quality. Orchids and gardenias are plentiful and the supply and demand are about equal. The northern violets are very good, indeed, and are being sold in larger quantities. Lily of the valley is going good and greens are also moving well. Roses are more plentiful and in better shape than they have been. Business has been very good and there has been little cause for complaint.

kills plant Lice
of every species*

Just the remedy for the black aphids on chrysanthemums—red spider and thrips on carnations—green fly on roses—mealy bug on gardenias and crotons—scale on ferns, palms and other decorative stock.

\$2.50 per gallon, \$1.00 per quart.

FUNGINE

Fungine has no equal for carnation rust, rust on chrysanthemums and mildew on roses.

\$2.00 per gallon, 75c. per quart.

There is but one convincing way for you to become familiar with the merits of Aphine and Fungine, and that is—test them out yourself—it will prove worth your while.

MASTICA

FOR *Greenhouse Glazing*

USE IT NOW.

F. O. PIERCE CO.
 12 W. BROADWAY
 NEW YORK

Plastica is elastic and tenacious, admits of expansion and contraction. Putty becomes hard and brittle. Broken glass more easily removed without breaking of other glass as occurs with hard putty. Lasts longer than putty. Easy to apply.

**Dreer's Peerless
Glazing Points
For Greenhouses**

Drive easy and true, because both bevels are on the same side. Can't twist and break the glass in driving. Galvanized and will not rust. No rights or lefts.

The Peerless Glazing Point is patented. No others like it. Order from your dealer or direct from us.

1000, 75¢, postpaid.
Samples free.

HENRY A. DREER,
714 Chestnut Street,
Philadelphia.

An illustration showing a Peerless Glazing Point being driven into a glass pane. The point is a small metal fastener with two beveled sides. The glass pane is held in a frame. The text "FULL SIZE No. 2" is printed on the right side of the illustration.

What the Users say

KROESCHELL BOILER

Half the Coal and Half the Work.

"Your No. 13 boiler is carrying 25,000 sq. ft. of glass and I can keep it at 60 degrees in the coldest weather without any trouble. I have three other types of boilers also heating a range of 25,000 sq. ft. of glass, but the No. 13 Kroeschell Boiler **ONLY TAKES HALF THE COAL** and half the work to get the same results."

P. S.—Mr. J. G. Frisz, of Vincennes, Ind., has the largest range of glass in Indiana devoted to vegetable forcing.

This is the U-Bar.
The Bar That
Makes U-Bar
Greenhouses the
Famous Green-
houses they Are.

HERE is a beautiful formal sunken garden, flanked on two sides by U-Bar greenhouses. These houses replaced those of other constructions that were torn down because they were not in keeping. The U-Bar was chosen because of its airy gracefulness, durability and unmatched productiveness. These are the points on which it wins out. Always it is a case of superior points—and not one of mere price. The best, of course, must cost more. But U-Bar houses are worth a good deal more than their difference in cost. The catalog both tells and shows why. Send for it.

LILIUM HARRISII

(The Bermuda Easter Lily)

LET US supply your wants in Lilies this season

We think we can make it to your advantage to do so, as regards both quality and price.

The stock that we offer is not gathered indiscriminately from all kinds of sources, but is grown for us by a few selected growers, whose stocks have been worked up from the true, original stock. In order to ensure the health of the product, the bulbs are not grown on the same field oftener than one season, other crops being grown on the field the preceding year. The ground is thoroughly manured when the previous crop is grown, leaving it in a high state of cultivation, and when the lily bulbs are planted no fresh manure is used, and this prevents disease and ensures a crop of strong, healthy bulbs.

In addition to this, we do not dig our bulbs as early as they are usually dug, but leave them in the ground until they are thoroughly ripened and matured. When Harrisii is good, it leaves little to be desired. There is very little, if any, stock obtainable as good as the stock that we are offering. We are supplying only this one grade of selected stock, and when this is disposed of, we shall have no more to offer.

While the quality of the stock that we offer is of the highest, our prices are as low as, or lower than, the prices of those who offer the ordinary stock gathered from indiscriminate sources. We are sure buyers will find our stock very satisfactory, and much more so than the Japan-grown Longiflorum, which has badly deteriorated in recent years.

Bear in mind that we were the original introducers of Harrisii in Bermuda, and that we have exceptional facilities for obtaining our present supplies. Also take note that the smallest bulbs that we offer are 6-7 inch bulbs, not 5-7 inch, as usually offered.

6-7 inch bulbs, 335 to the case, \$15.00 per case; full thousand lots, \$40.00 per 1,000.

7-9 inch bulbs, 200 to the case, \$16.00 per case; full thousand lots, \$75.00 per 1,000.

9-11 inch bulbs, 100 to the case, \$18.00 per case; full thousand lots, \$175.00 per 1,000.

FERNS

We have an exceptionally nice lot of ferns in the following varieties,—good, bushy, well-grown plants that will please the most critical buyers. Plants have been grown in pots, and are thoroughly well established and nicely finished.

Nephrolepis Bostoniensis and Piersoni, 6-in. pots.....	\$0.50 each
Nephrolepis Elegantissima, Piersoni, Bostoniensis, and Harrisii, heavy 8-in. plants.....	\$1.00 to 1.50 each
Nephrolepis Elegantissima, Bostoniensis, and Harrisii, heavy 10-in. plants	2.50 each

DAHLIAS Every Day in the Year

Boddington's "Quality" Tulips

Decoration-Day or May-Flowering, Darwin, etc.

Live, up to date and progressive, we might say aggressive, florists are planting more and more every year, the above useful and profit-bearing Tulips, because once planted they bloom from year to year with increasing value. With their immense flowers and long stems, (sometimes nearly three feet) and variety of colors, they sell as quickly again as the early varieties and come at a season when they are always welcome.

Bizarres. Handsome, rich flowers, with yellow ground, feathered or striped with crimson, purple and white; finest mixed.	100	1000
Bouton d'Or. Has deep clear yellow, globular, medium-sized blossoms, with curious black-anthered stamens.	\$1.00	\$9.00
Bybloems (Violets). Late Tulips with white ground, blotched, striped or feathered with blue, purple, violet, blue or black; finest mixed.	1.00	8.75
Bybloems (Roses). Superfine mixed.	1.25	10.00
\$1.25 per 100; \$10.00 per 1000		

Darwins. Very large flowers of good shape, on tall, strong stems; for brilliancy of color they surpass any other Tulip; they include every known shade from the lightest tint to the brightest hue; finest mixed.

85c. per 100; \$7.50 per 1000

Gesneriana macropila. Crimson-scarlet, black and yellow center.

85c. per 100; \$7.50 per 1000

Golden Eagle. A showy and attractive variety, color a rich deep yellow red. It blooms about the same time as Gesneriana major.

85c. per 100; \$7.50 per 1000

Golden Crown. Is a showy and attractive variety, with a rich deep yellow color, and the petals edged and tinged with red. It blooms about the same time as Gesneriana major.

75c. per 100; \$6.00 per 1000

Parisian White. Rich lemon-yellow, with deeper center.

\$1.25 per 100; \$10.00 per 1000

Royal White. Pure white.

\$2.00 per 100; \$18.00 per 1000

Virellina. Pale primrose, passing off to pure white, tall and exceedingly handsome variety.

\$1.75 per 100; \$15.50 per 1000

Boddington's "Quality" Superfine Mixture May-Flowering Tulips, for acclimating, and for planting in herbaceous or shrubby places.	100	1000
	\$0.75	\$6.50

CHOICE MAY-FLOWERING, OR DECORATION-DAY TULIPS

CALEDONIA. Bright orange, very beautiful.	100	1000
GESNERIANA INDIEN. Beautiful yellow.	\$1.25	\$10.00
ELLEN WILLMOTT. Undoubtedly the finest May-flowering Tulip, flowers very large, medium-sized and of a soft cream yellow; fine.	4.25	40.00
INGLESCOMBE SCARLET. Very brilliant grand variety.	4.50	42.00
INGLESCOMBE YELLOW. A large canary-colored flower of perfect form, glossy and pure.	1.75	16.00
PRIMROSE BEAUTY. Clear soft primrose, changing to white.	5.75	55.00
	3.00	28.00

Darwin Tulips (To Name)

Darwin Tulips are among the most varied and beautiful of all the late Tulips. Planted in the border they come into flower in late May and June. Flowers are large and borne upon tall, erect stems. Like the May-flowering Tulips they are indispensable for Decoration Day.

Ant. Roozen. Large flowering; rosy pink.

\$3.00 per 100; \$27.50 per 1000

Bronze Queen. Extra-large flower light yellow.

\$2.25 per 100; \$20.50 per 1000

Baronne de La Tonnaye. Clear rosy carmine.

\$1.50 per 100; \$14.00 per 1000

Dream. Soft lilac.

\$1.75 per 100; \$15.50 per 1000

GLOW. Brilliant growing vermillion, center blue, margined white.

\$1.80 per 100; \$17.00 per 1000

King Harold. Purple-red; very unique.

\$1.75 per 100; \$15.50 per 1000

Loveliness. Soft rosy carmine; exquisite color.

\$1.75 per 100; \$15.50 per 1000

Mrs. Krelage. Large flower, soft rose, margined bluish; very beautiful.

\$2.75 per 100; \$26.00 per 1000

Painted Lady. Creamy white.

\$1.75 per 100; \$15.00 per 1000

Pride of Haarlem. Rose with blue base; flowers of great size and fine form.

\$2.00 per 100; \$18.00 per 1000

Rex. Ewbank. Vivid heliotrope-lilac, slightly bordered.

\$2.50 per 100; \$22.00 per 1000

Darwins, Mixed. All colors, in splendid variety.

85c. per 100; \$7.50 per 1000

DARWIN TULIPS

SINGLE NAMED TULIPS

Joost van Vondel. Cherry-red, white feathered.	1.25	12.00
La Reine. White, slightly rose shaded, good form and bedder.	.85	7.50
La Reine. First size.	.75	5.75

ARTHUR T. BODDINGTON, Seedsman, 342 West 14th St. NEW YORK CITY

Seasonable Notes on Culture of Florists' Stock

AZALEA MOLLEIS

These plants are excellent for forcing all through the winter and every florist should grow a few as they have some very charming colors not seen in the evergreen ones. Pot them as soon as you receive them, give a good soaking of water at the roots, and store away in some coldframe and keep cool until they are wanted for forcing. They can be forced into blooming in 6 or 7 weeks if given a temperature of about 55 degrees at night with a rise of 15 degrees through the day with sunshine. Syringe freely and the plants will break away quickly. When the flowers are all nicely expanded they will last longer and be better for the customer if kept 10 or 15 degrees cooler. It does not pay to start too many together as they do not keep so long as the Indian azaleas.

GLADIOLI FOR FORCING

All the small-bulbed gladioli such as Colvillei The Bride, Peach Blossom, Crimson Queen, Mathilde, Blushing Bride and others that were started in September and grown in a cold frame, if not already removed to a cool greenhouse should be so treated now. They should stay there until after the first week in January when the boxes or flats will be well-filled with roots and a top growth started. Don't give them too high a temperature for it will only make them grow weak and spindly and the flowers will lack substance. Keep the temperature as near 50 degrees at night as possible as this is as high as they seem to care for. Some weak liquid manure about once a week will help the size of the flower. Some time during this month all the large-bulbed kinds such as America, Augusta, Mrs. Francis King, Shakespeare, Brenchleyensis, and others can be planted in boxes which should be from 6 to 8 inches deep or they can be planted where the chrysanthemums have been. Planted anywhere from the last of this month until middle of December flowers will be ready to cut about the middle of March. It is better to make successive plantings about every two weeks thereby prolonging the season. They like a good rich compost, say about two-thirds of well-decayed sod and one-third well-rotted barnyard manure. Give them ten inches between the rows and four inches between the bulbs will be ample. Maintain a free circulation of air when possible.

LILIUM MULTIFLORUM AND GIGANTEUM

Pot these bulbs as soon as you get them as they don't gain anything by being left lying around and as Easter comes on April 7th next year it will take all their time to make roots and some hard forcing later on to have them on time. The pots generally used are 5 or 6-inch according to the size of the bulbs. Place them beneath a bench in a cool house where they will not get much drip, as that is sure to sodden and sour the soil. See that the soil is just kept moderately moist. In eight or ten weeks they will have made a few roots. These lilies want very little water until they have made some good roots, but when they have filled their pots with roots they will want an abundance of water. Give them a bench in a cool house when they have made a growth of a few inches. The giganteums that you want to retard for later should be placed in a cold frame and pro-

tected with sash until after the New Year and then removed to the cold frame you have, with plenty of ventilation.

MEMORIAL DIES

Plants intended for Easter flowering should be potted until the middle of December so as to have them nice and strong. Plants that have roots potted filled with roots will require a copious supply of water. If they are in 5 and 6 pots and well potted they should be repotted into 7 or 8-inch pots, using a rich compost of three parts loam to one part of broken up cow manure, with a good sprinkling of fine bone and a little soot. Be sure to pot them firmly. Grown on in a cool house with plenty of light, by spring they will be blooming freely and will make good salable Easter stock. Now is a good time to insert a batch of cuttings as these will make excellent stock when grown on up to a 5 or 6-inch for late spring flowering and especially for Memorial Day.

PREPARING LAND FOR NEXT YEAR

Every florist who has land in which to grow his stock should always make it an aim to restore to the soil some of the organic and mineral substances which have been taken away by previous crops. The first thing that suggests itself is manuring as an expedient in upholding its fertility. Now is a good time to give your land a liberal dressing of coarse barnyard manure and by plow or digging now instead of in the spring you will gain a whole lot in texture and fertility. This is about the only means of bringing heavy soils into proper condition for early planting. The freezing and thawing that it goes through during the winter makes it free from all acidity and soggy and leaves it in a finely pulverized form for final preparation in the spring. Give your crops a change from one piece of ground to another every year as the nourishing substances essential for one particular kind of plants differ from those needed by another. Some florists' establishments have quite a lot of land under cultivation so can reclaim their worn-out land by running it in grass crops for a few years when it will again be fit as tillable land. For those that have only a comparatively small parcel of land and cannot afford to let it lie idle for this time there is nothing better than subsoiling, the subsoil plow following after an ordinary plow loosening the lower layer of soil and fairly well intermixing the two. Where the ground area is very limited there is nothing better than the more thorough going procedure of trenching, with a heavy coat of manure intermixed with the surface soil.

ROMAN HYACINTHS FOR CHRISTMAS

To have these bulbs in flower and in good shape for Christmas they should first of all have good roots with a top growth of two or three inches before they are brought into heat, otherwise they will be a failure. Give them a temperature of 50 degrees for the first ten days and 60 degrees up until the flowers are well opened, when they should expand their flowers full open in a house that is much cooler with plenty of fresh air. They should be allowed from 6 to 7 weeks to perfect themselves.

John J. M. Farrell

Mr. Farrell, 1001 N. 1st St., St. Paul, Minn. will be on the farm at 1001 N. 1st St., St. Paul, Minn. for the winter. He will be on the farm at 1001 N. 1st St., St. Paul, Minn. for the winter.

"Flowers"	686

A noble
 gift

Congratulations to Rochester on the opening of her splendid park conservatory. No municipal park system is adequately equipped without such structures. Where they have been supplied the interest displayed by the public and the throngs of people that frequent them on special floral show days ought to confound and silence any argument that could possibly be advanced for their exclusion. All honor to the benefactress who chose this utilitarian form of memorial instead of mediaeval stained glass windows and marble sculptures. Her example is worthy of emulation.

What the
 dahlia needs

We have all heard from time to time more or less disparagement of the dahlia as a desirable garden ornament. No doubt the criticisms are founded on grounds more or less substantial and valid but the perusal of a communication such as we give publicity to in another page of this paper is calculated to start new trains of thought and suggest inquiry as to whether it is the dahlia itself or its promoters and sponsors that are most to blame. The letter of Mr. Betscher from which we quote was a private one and we have quoted from it without permission, but we think it is the sort of talk which should have wide publicity and of which we have not nearly enough. We have heretofore urged in these columns, on behalf of the dahlia and its needs towards future popularity, that on the matters of color, form and size, for instance, we might well afford to let it stand where it is for a time, while we try to develop in it the qualities of more compact and less rampant growth, earlier and more abundant blooming and more upright flowers on taller and stiffer stalks. Put into the quest for these qualities the same amount of effort which has been expended on color and form of flower and it will not take long to move the dahlia away up towards the top of the list of garden favorites.

Enthusiasm

Among the essentials for success in any venture it is safe to say that no one qualification counts for more than enthusiasm. It has been said that "without enthusiasm the man's other good qualities are nearly lost." True as this is of an individual it is even more so of an association. This was deeply impressed upon us by the hearty zeal and confident self-reliance which characterized the meeting in Boston last Saturday in the interests of the Sweet Pea Society of America and the exhibition which is to be held in Boston next summer by that young organization and the Massachusetts Horticultural Society jointly. The optimism which prevailed was not of the "castles in the air" kind but was of the most substantial character and so infectious that every one present was filled with its ardor. George C. Watson, who only looked in on the meeting for a few moments on his way to Philadelphia was so imbued with its influence that he was impelled to write us in glowing words about the Great Power which seems now to be inspiring so many to work for the elevation and advancement of American horticulture. Mark the sweet pea demonstration of next July as destined to be an eye-opener as to what well-directed enthusiasm can accomplish. Then consider whether any club or society in which you are enrolled is lacking in that respect and get busy. There's no excuse for a decadent society in these days of inspiring horticultural outlook.

Fruit and Vegetables under Glass

CLEANING AND RENOVATING EARLY VINERIES

The early vinery for starting December 1st, the earliest practical date, should now be thoroughly cleaned and renovated ready to start away as December comes in. Pot vines are sometimes started through November, but this is early enough for any in borders. The leaves having fallen, prune the laterals back to two eyes; young canes not having filled their allotted space can have an extension of about three feet. A sharp knife is preferable to secateurs for pruning vines; a cleaner cut is made with less liability to bruise the wood. As a preventive against bleeding later on, dress all cuts with "styptic," a special preparation for the purpose obtainable from the seed stores. A little prevention is worth a lot of cure later on. A bleeding vine is one of the most unwelcome things one could have. Sometimes all efforts to staunch the wound prove futile. Have the whole house thoroughly washed down—glass, woodwork, walls, etc.; this helps to do away with any pests or diseases which may have been prevalent during the past season, as well as giving the house a clean appearance. Cleaning of the vines is a self-adjusting duty. If during the past season they were clean—no mealy bug, red spider, etc., little scraping of the rod and spurs is necessary; the hand rubbed around them to remove any loose bark will suffice. On the other hand if pests were prevalent every bit of loose bark should be removed, excavating the hiding pests and making it easier for the winter wash to do its work. Avoid scraping the vines down to the live tissues as that is very injurious—the vine in its natural state sheds its bark itself naturally. As will be seen by the foregoing notes the cleanliness of the vines during last year's growth will determine what the nature of the winter wash should be. If mealy bug, for instance, was troublesome use a strong insecticide taking care to keep it off the eyes while thoroughly working it into all the crevices and holes. As an ordinary preventive winter wash Gishurst's Compound is safe and effective. Rods can be washed more than once with this if thought necessary.

Any renovation of the border if not already done should be pushed on at once. Cow manure or other mulching must be carefully got off. If no surface roots are visible an inch or two of the top soil can be taken off and replaced with fresh loam. It is not wise to force a house so early if the border has to undergo any severe overhauling. Younger vines not having the soil extended to its limit can have an addition if they have filled up what they have with roots. This is similar to making a new border, which I will deal with in a later issue. Keep the house as cool as possible until time for starting; five or six degrees of frost will be beneficial to them, but do not allow it to enter the border. This winter cleaning I have treated at length as it applies to all vineries as their turn comes and much of next year's success depends on it.

STRAWBERRIES FOR FORCING

Preparation must now be made for plunging the pots so as to prevent their bursting as the soil freezes up. If frames and sash can be spared for them, plunge them in these about one foot from the glass. Keep the sash off until very severe weather sets in. Should the frames be occupied with other stock make a temporary frame to keep the leaves from blowing about and some straw or other suitable material must be handy to cover them over in severe weather. See that the pots are kept

level and the plants are pressed as tightly as possible in between each pot, leaving no cold spaces for the frost to work in. This also is applicable to pot vines. These are best sown between 10 or 12 degrees of frost, but the pots must be covered.

TOO GOOD TO BE ILLUSTRATED

In our issue of November 1910, we were able to show a picture of a peach tree with a year's root growth exposed and the same pruned and ready to be covered with soil.

Above is a picture of one of the same trees, showing the result of root pruning. Notice the quantity of fibrous (feeding) roots, and the break where each strong root was cut back last year. This tree carried a good crop last summer and looks promising for the coming year.

FORCING RHUBARB

It may seem early for forcing rhubarb, but if the roots were lifted and subjected to a few frosts, there will be no difficulty in getting it in for Christmas. It seems essential that the roots should be in a dormant condition before starting. Make sure that several frosts have done this work before commencing. It will pay to furnish all early forcing rhubarb with cotton-wool. If some of the heating pipes do not do this make up some hot bed material of stable manure and leaves in equal parts. Place the roots on these, cover over with loose soil, give a liberal supply of water while growing, and keep a night temperature of about 60 degrees. Growth will be more rapid if the light is excluded (See *Burton's Dictionary*, p. 683 for address of person offering rhubarb roots for forcing.)

HORTICULTURE

THE EXHIBITIONS

November 11, 1911

RED BANK, N. J.

That which is accomplished under most difficulties deserves highest praise and in this manner do we consider the 14th annual exhibition of the Monmouth County Horticultural Society held at the armory, Red Bank, Nov. 2nd and 3rd. In the first place one had to climb up a dark stairway to a very unattractive room. Then again there were many absent from the benches of this show who held prominent places there in other years. Therefore the entire thing depended on a few brave hearts and right nobly did they respond. Consequently we praise rather than criticize. It has been deeply impressed upon the minds of competitors at all the exhibitions in and around New York that a few men from New Jersey not only helped very considerably to make all the shows successful but also won many of the principal awards. We hope the next show given at Red Bank will be remarkable for the amount of outside competitors. They deserve it, and reciprocity in this manner will bear good fruit. The quality of blooms shown here were equal to and in many cases superior to those seen elsewhere. After the judging a mixed battalion of good-fellows escorted the judges, Messrs. William Duckham, Peter Duff and John Brunger to the Globe Hotel where a delightful dinner and conversation was indulged in. Bright indeed were the unset jewels of rhetoric that shone in that jolly crowd on all topics from pumpkin mother's pie to Jersey lighting politics. Charlie McTaggart being the only seedman present had to give a skil on seeds. A searching party was sent out for Al. Rickards who got his squad 'round some corner into some unknown cosey place. It's always a misfortune to miss 'Al.' There was very considerable fun on the alleys at Sheridan's and was sorry we had to leave it all there.

The Awards.

Chrysanthemums Vase of 25 blooms, other 100, 20, arranged for effect. 1st, George H. Hale with a splendid lot of white flowers and sprays of pompons. 2nd, Oliver McIntosh, 20 blooms, 6 vase. 1st, Wm. Turner, with Merstham Moss, Mary Mason, Wells' Late Pink, Nellie Pickett, Cheltoni and Glenview. 2nd, Geo. H. Hale. 24 blooms, 24 vase. 1st, Wm. Turner, whose wonderful set consisted of Omunda, Maiza, W. Mease, Mrs. C. H. Totty, Beatrice May, Mrs. J. C. Dunne, Jessie Morrison, Lady Carnarvon, Mrs. Stearns, Letoxy, Gladys Blackburn, C. H. Totty, Mary Donnellan, Pickett's Green, Wm. Duckham, Nellie Pickett, Mrs. A. 200, Merstham's Bush, Mrs. D. Scott, Cheltoni, Glenview, Mary Mason, Rose Pickett and Mrs. H. Partridge. Geo. H. Hale was second. 18 blooms, 6 vase. 1st, James Kennedy, with V. S. Scott, Donnellan, Rose Pickett and Wells' Late Pink; 2nd, Frank Logan; 3rd, W. D. 12 blooms, 12 vase. 1st, Wm. Dwyer; 2nd, A. Bauer; 3rd, Frank Logan. In the six 100m classes, the winners of 1st were Jas. Kennedy, G. H. Hale, B. Wyckoff, Wm. Turner. The gold, silver and bronze medals for three blooms of William Turner were won by A. Bauer, Wm. Turner, B. Wyckoff respectively. Vase of singles winning 1st for G. H. Hale were the finest seen at any of the shows. W. W. Kennedy & Sons won a "special" for a remarkably fine collection of pompons and single varieties, as also did Thos. Meahan & Sons for lovely chrysanthemums and H. C. for a fine display of the blooms of Buck, Hay, chrysanthemums. For group of pompons, chrysanthemums and foliage plants the winners were H. Kettel, 1st and J. Ken-

nedy, 2nd. Group of ornamental foliaged plants, Kettel, 1st. Wm. Dowlen won all the lush plant prizes with well-trained specimens. Specimen foliage plant, Wm. Turner, with Pandanus Sanderli. Palm: W. Turner, H. Kettel. Carnations—H. Kettel, 1st, in crimson, white, light pink and any other color, with Harlowarden, White Wonder, Enchantress and rose pink Enchantress, respectively; G. H. Hale 1st, in scarlet, dark pink and 25 any variety, with Beacon, Mrs. C. W. Ward and White Perfection, respectively. Roses—A. Bauer 1st on American Beauty, Wm. Turner 1st on all others. Violets—G. H. Hale 1st, O. McIntosh 2nd. Grapes—Wm. Turner 1st, with Black Alicante and Lady Hutton; G. H. Hale, 2nd. O. McIntosh special for seedling apple.

J. IVERA DONLAN.

AMERICAN INSTITUTE.

The annual Chrysanthemum Show of the American Institute was held in their rooms at the Berkeley Lyceum, New York, on November 1st, 2nd and 3rd. It was as usual a very pleasing success. The classes were well arranged. The prizes, good solid cash in plentiful proportion, brought out both quality and novelty seen no where else. No such display of anemone chrysanthemums was seen at any other show, and then again the incurved and reflexed types were each provided for separately, thus bringing forward many otherwise neglected beauties and affording each a fair chance. Music and attendance and the ever infectious smile and witticisms of the manager, William Rickards, made all hands happy. Wm. Eagleson, the secretary, and his attendants deserve much credit for their courtesy and efficiency.

Awards.

For thirty flowers, thirty varieties, Geo. Middleton was 1st Wm. Vert, 2nd. Twenty do. Middleton 1st and Robert Speirs 2nd. Twenty-five, one variety, W. Vert 1st with P. E. Nash and R. Speirs 2nd. On vases of long-stemmed flowers, 1st went to W. Dowlen for plume varieties, G. H. Hale for singles and for anemones, and C. D. Schaeffer for yellow, the variety being his new Ramapo. 2nd in these classes went to G. H. Hale, A. Wynne, J. S. Lyle and J. Devan, respectively. For twenty vases of pompons and ten vases of pompons, W. J. Sealey 1st, and C. H. Rice 2nd. J. W. Everett got a special for this class. In the classes for ten flowers, J. W. Everett was 1st on yellow and bronze, Wm. Turner on crimson, Alan Alexander on pink, J. T. Burns on white, George Middleton on ten varieties and W. Vert on two varieties with 10 high stems. Mosses, Turner, Vert, Hale, E. MacKenzie and Jos. Kennedy were 2nd in these classes. The 1st winners in the classes for six flowers were C. H. Totty, his seedling Mrs. P. Turner leading in the "any other color" class; John Dorem, whose seedling No. 1 was the winner in pink, Wm. Turner, A. Alexander, Alex. Robertson, J. S. Lyle, W. Vert, 1st the anemone sixes, Wm. Dowlen, J. S. Lyle and G. H. Hale were 1st.

On bush plants and standards Peter Duff carried four firsts, Wm. Turner one and W. Cordes two, the latter winning also on single stem plants. On group of flowering and foliage plants, 1st was won by Harry Turner with a very attractive display of well grown plants made dazzling by a grouping of his famous celosias. Lager & Hurrell captured 1st in the class for group of Orchids with a grand lot of choice gems and Julius Roehrs Co. got a special for display of specimen Orchids.

Geo. Middleton and J. D. Cockeroff 1st and J. T. Burns 2nd was the result on carnations. C. H. Totty showed a vase of his great white Wonder. The winning exhibit in the rose classes were L. A. Noe's Peonies White and Pink Killbuck, C. H. Totty's Red and Sunburst. Totty showed a vase of Rose Queen, not for competition. Max Schneider and H. Turner, 1st and 2nd on violets. Chas. Webber 1st on specimen palm and ferns.

EXHIBITION AT STAMFORD, CONN.

The first annual exhibition of the Westchester and Fairfield Horticultural Society held in the Casino at Stamford, Conn., on Nov. 3rd and 4th was a great success in every way. This young, vigorous society has certainly done wonderfully well. The exhibits on this occasion came largely from the magnificent establishments of the millionaires along and adjacent to the shore of Long Island Sound and where expert gardeners who have served their years of apprenticeship in the horticultural profession in many parts of the world are employed. Stamford, a large manufacturing town with many saloons, Chinese laundries and immense churches is minus a decent-sized exhibition hall, consequently this most creditable display had to be jammed into a small room. This is the first time probably that the need of a larger hall has been brought practically to the notice of the citizens of the town and it ought to be the means of getting one. All the most prominent people of the section visited the show. Whole families were brought out in autos and jumped about in glee over their pets. During the afternoon people had to wait outside until room to get in was made. It was all pleasingly inspiring to the promoters and those who had to do the work. Geraniums and orchids were elegant, carnations plentiful, chrysanthemums of good size and the table decorations were excellent.

The Awards.

Chrysanthemum Plants—Single stem, one flower, Thos. Aitcheson, 1st; A. Belschke, 2nd. Specimen bush, W. J. Sealey, 1st on white with Garza; J. T. Burns, 2nd. Sealey, first on pink with Annie Laurie; 2nd, W. H. McGinness. Sealey, first on any other color; Jas. Stuart, 2nd. Alex. Geddes, 1st on standard; E. MacKenzie, 2nd.

In the classes for six chrysanthemum blooms, Jas. Stuart was 1st on white with Mrs. D. Syme; J. T. Burns, 2nd. J. T. Burns 1st on pink with Pros. Viger and on yellow with Mary Donnellan; Adam Peterson, 2nd. Thos. Aitcheson 1st on crimson with Pickett's Crimson, James Stuart 1st on "any other color" with Mary Mason.

In the classes for three blooms W. Smith, Thos. Stentiford, Alex. Geddes and Thos. Harvey were the winners. The largest bloom shown was Alice Lemon by A. Brieschke. On eighteen blooms in eighteen varieties, six varieties and three varieties, the winners were Jas. Stuart, E. MacKenzie and Adam Peterson, respectively; Messrs. MacKenzie, Brieschke and Burns winning second respectively. Twelve blooms in twelve varieties brought out a fine first display, the varieties being Omunda, Lady Hopetoun, Rose Pickett, Leslie Morrison, Cheltoni, Merza, Mrs. F. Plant, F. S. Nash, Mrs. J. C. Nod, Mrs. D. Syme, Mrs. J. E. Dunne, T. Aitcheson and A. Peterson were 2nd and 3rd. Wm. Smith, T. W. Stobo and A. Geddes were 1st, 2nd and 3rd on six blooms, six varieties. The class for twenty-five vases, twenty-five varieties of singles brought out a splendid winning set from Jas. Stuart. These were the best grown lot of singles shown in all the exhibitions around New York and consisted of the following: Merstham Jewel, Carrie Wells, Elsie Neville, The King, Irene Cragg, Grace Trouver, H. M. Smith, Caladonia, Pogassons, Felix, Jessie Curtis, Merstham Fint, Mrs. R. C. Pulling, Sylvia Shade, Merstham White, Mary Richardson, Cannell's Yellow, Ronpell Beauty and Kittie Bannan. Second prize went to Thos. Bell, whose collection also was eloquently beautiful. Winners in the pompon classes were E. MacKenzie, W. J. Sealey and Thos. Bell. Adam Peterson won 1st on a vase of chrysanthemums and foliage arranged for effect with a notable vase of Lillian Doty. Mr. Sealey also showed a very fine collection of new chrysanthemums and roses.

and Scott Bros. of Elmsford a large group of standard varieties not for competition. Thos. Stentiford was first on zinerias. Geo. Macrae on single and W. H. McGuinness on double violets. On foreign grapes, A. Petersen was 1st and W. J. Sealey, 2nd. On collection of vegetables, A. Geddes, 1st; A. Petersen, 2nd. Group of foliage and flowering plants, A. Bieschke, 1st; John Grant, 2nd. Palm, A. Bieschke, 1st; Rott Williamson, 2nd. Table plants, E. MacKenzie, 1st; R. Allen, 2nd. Geraniums, Alex. Geddes, 1st; R. A. Allen, 2nd. A. Petersen, 3rd. Adiantum, Jas. Stuart, 1st. Lorraine Begonias—Thos. Stentiford, 1st; E. MacKenzie, 2nd. Orchids, A. Petersen, 1st; Geo. Macrae, 2nd. Table of orchids, John T. Burns, 1st. Group of orchids, commercially, Carrillo & Baldwin, 1st. Table decorations, Robert Williamson 1st with Lorraine begonia and adiantum; Thos. Aitcheson 2nd, Lorraine begonia and lily of the valley with ferns. The winners in the carnation classes were J. T. Burns, 1st; W. Stoba, 2nd. Aitcheson, 3rd. Ryan A. Alino, 4th. Wynne, 5th. Engelman, 6th. In seedling classes, A. Wynne and R. Engelman had promising creations.

In the rose classes A. Petersen was the leading winner. Other winners were Alex. Geddes, Geo. Macrae, Jas. Stuart, John Grant and W. H. McGuinness.

Fruit and vegetable classes were well filled.

MT. KISCO, N. Y.

The ninth annual exhibition of the Northern Westchester County Horticultural and Agricultural Society was given at Whitlock's Garage, Mt. Kisco, on Nov. 3rd, 4th and 5th. It was the only place available in this thriving village 'mid big domains, so the automobiles were shoved into barns and Miss Flora reigned in their stead. There were many almost unsurmountable obstacles in the way of location, —the barn-like structure, and above all the flower-killing oil smells and it required courage and go-aheadedness to get up a show under such difficulties, but somehow it was done, and poked away, as it were, in this garage loft, away up mid the hills of Westchester, we found warm hearts, bright spirits and flowers equal to many we have seen in large cities. We only hope that another year will provide a more suitable hall for these persistent missionaries in a good cause.

The Awards.

The Bailey Cup, value \$100.00, yearly offered at this Society's shows, is a much coveted prize and usually there is keen competition, coming from distant points. This year it was offered for 24 chrysanthemum blooms in not less than 8 varieties, and was won by William Duckham, Madison, N. J., with magnificent blooms of Beatrice May, Mrs. Lopes, Mary Mason, W. W. Dingason, Lady Hopeman, Geo. Locke, Mrs. G. C. Kelly, Frank Payne, Orlando, L. Rossignol, Mrs. D. S. Sime, E. S. Vallis, Pickett's Crimson, H. E. Coyle, Mrs. Stevens, Seedling 43, Pres. Viner, Mary Fenworth and Chelton. On the six bloom class, Daniel Gordon was 1st throughout. Robert Hunter and M. J. O'Brien, second. The cup for twelve blooms in six varieties, was won by D. Gordon; R. Angus and Alex. Thompson, 2nd and 3rd. The bush plants were finely trained and well grown. John Canning was 1st with six from Annie Laurie; J. McGuinness and D. Fraser, 2nd and 3rd. Twenty single stem and flower, W. Will 1st; Light D. D. Fraser, 2nd; Three blooms to a pot, D. Fraser, 1st. Collection of roses, Alex. Thompson, 1st. Collection of carnations, Arthur Rose, 1st; H. Spavins, 2nd. Twelve carnations, A. Rose, 1st; McGuinness, 2nd. A. Rose, 3rd. J. T. Sutton, Collection of orchid plants, 1st. H. Spavins; his plants were surprisingly good and were easily the best exhibit at the show. Collection of orchids by private gardeners only, M. J. O'Brien, 1st. Group of decorative plants, H. Spavins. Some exhibitor won firsts for specimen palm, 2 adiantums, specimen fern, collection of ferns, collection of begonias, house plants, and second for table plants. In each class he was beaten by R. Angus. Carnations, 1st, Wm. Will; 2nd, D. Fraser, M. J. O'Brien took 1st in apples and pears, and Chas. Phillips, 1st in vegetables. There

Table Decorations at Tarrytown Exhibition.

were five small table decorations. Winners: W. Will, A. Thompson, M. J. O'Brien. All were poor and in the classes for lady decorators, won by Miss Mills 1st, and Miss Harriman 2nd, they were a cruel joke on art. The judges were N. Butterbach, W. W. Kennedy and V. L. Corbet.

We had almost forgotten the miniature formal flower garden designed by William Will. It was well done and a first prize was the result.

J. IVERA DONLAN.

RHODE ISLAND HORTICULTURAL SOCIETY.

The annual autumn show of the Rhode Island Horticultural Society was held in Elysium Hall, Providence, R. I., Nov. 4 and 5, and the exhibit was far superior to any in recent years.

A new departure was made in the decorative scheme by the introduction of mantel decorations and the corners of the hall were given over to foliage displays and garden evergreens giving a harmonizing and very artistic setting. The cut flower section was also a centre of attraction. Three large tables were laden with vases containing choice specimens of single and double chrysanthemums, carnations and roses. A noticeable contrast in the make-up of the show was in evidence through the activity and cooperation of the members of the Florists' and Gardeners' Club, particular attention being given to the quality rather than the quantity of the exhibits. The show management expressed much satisfaction in the manner in which the growers and commercial men came forward in support of the endeavors of the society and as a result it is felt that, as a whole, they were well repaid for their efforts.

The judges were Eugene McCarren and Cornelius Hofstra, both of Providence. A joint exhibition of fruit by the society and a Rhode Island Boys Corn Show under the Rhode Island State Board of Agriculture were held in connection with the flower show. The following awards were made:

Roses—Killarney, Burke & Burns, Cranston, Carnations—John A. Macrae, Providence, first; Alexander Macrae, second; Violets—J. Kopelman & Co., Mantel decorations—William Appleton, Palms and foliage plants—C. H. Hunt, first; William Appleton, second; Garden Japanese—

greens—William Appleton, special mention and gratuity. Chrysanthemums—12 white, Alexander Macrae; 12 yellow, F. S. Peck, Barrington, first; Alexander Macrae, Providence, second; 12 any other color, F. S. Peck; vase of large mixed varieties, F. S. Peck, gratuity; collection of single, Alfred M. Powell, gratuity; F. S. Peck, gratuity. S. A. G.

TARRYTOWN (N. Y.) EXHIBITION.

Continued List of Prizes.

The second day of the show at Tarrytown added much to the interest. There were seven in the class for table decorations by private gardeners, all of them most creditable. First prize was won by John Heermans. His design consisted of the English style of small vases dotted about the table. They were filled with alternate pink and white Killarneys and carnations fern with a radiation of Dracaena indivisa foliage from the central vase. John Canning got second with a centerpiece of Killarney roses and Eucharis enclosed in a wreath of Richmond and lily of the valley; corsages of lily of the valley and ferns with red ribbon. The table was garlanded on the outside with smilax and red ribbon.

In the cut rose classes the principal winners were W. Brock, W. C. Roberts, W. McLean, E. Tretheway, George Middleton, R. Angus, J. Heermans, T. W. Stoba. The Lord & Burman gold medal was won by W. Brock with Lady Hillingdon, Double White Killarney and Double Pink Killarney. Adolph Lewisohn cup for best in bouquet was captured by Harry Brown, and the Mrs. Osborn prize by W. C. Roberts with new rose Radiance.

On carnations the principal winners were W. C. Roberts, Geo. Middleton, T. W. Stoba, R. Angus, Chas. Barton with seedling, J. W. Smith. The winning varieties in carnations were Helen Gould in variegated, Eucharis in light pink, Mrs. C. W. Ward in dark pink, Barton in scarlet, and White Eucharis in white.

Robert Angus won the Miss Potter cup for 12 chrysanthemums, 12 roses and 12 carnations in best condition (fill and show), and W. C. Roberts won the F. W. Pearson Co's sweepstake cup as the holder of most points at the show. Verily he that hath shall be given."

New Orleans, La.—There was a steady stream of visitors—2,000 or more—on October 29 at the grounds of the Metairie Ridge Nursery on the occasion of the fall opening to the public. Mayor Behrman, who was present, made an address in very complimentary vein and Mr. Papworth responded appreciatively. Refreshments were served and the visiting ladies received souvenirs and flowers.

BRITISH HORTICULTURE.

The International Horticultural Exhibition.

Committees have been appointed in various counties to assist in the organization of the Royal International Horticultural exhibition to be held in London next year. Some correspondence has taken place in the press as to the charges proposed to be made for admission. The directors have now decided to provide special facilities to professional gardeners, and also reductions in the charges to the general public. The size of the ground at Chelsea is 21 acres; seven acres are occupied by trees, shrubs, and the remaining 14 acres will be available for the marquees, out-door exhibits, administrative offices, etc. Numerous applications have been received from British growers for space in the floricultural section, whilst the foreign department will be of a very representative character. A splendid list of special prizes is being got together. There will be a special section for horticultural sundries. The exhibits will be given prominent positions in the grounds, both under cover and in the open. In every case the awards will be made by special jurymen, as is the case at the chief European exhibitions. It is expected that the event will attract nurserymen and florists from all parts of the world, so that a favorable opportunity will be afforded for an interchange of ideas on international trade matters.

Spring Bulb Show.

A special exhibition of forced spring bulbs is being arranged by the Royal Horticultural Society to take place in March next year, the object being to determine the varieties most suitable for gentle forcing. The trade as well as amateur growers are invited to compete. The society medals and prizes will be presented by the General Bulb Growers of Haarlem. The trade growers' classes include a collection of 100 hyacinths in 20 named varieties, five blooms of each variety; and a collection of 120 hyacinths in 12 varieties in pans, 10 bulbs of one variety in each pan. The gold medal of the Haarlem Society is to be awarded for the best exhibit. There is also a special prize for bulbs grown in moss, fibre, or similar material. W. H. ADSETT.

ROSES IN CUBA.

Secretary Benj. Hammond of the American Rose Society, has received the following communication from Holguin, Cuba:

Dear Mr. Hammond: I am very much interested in roses but I find it very hard to take the descriptions of the American rose firms and make them all give the results described. I have the following kinds which have done very well for me in Cuba, and I should be very glad if you would suggest some other additions, and where they can be secured, and I shall be glad to try them out. I had them all on a non-blooming stock we have here in Cuba. It is very easily rooted, and a very vigorous grower, and one that if it would stand the cold I believe would be a magnificent stock for the American rose grower.

There is small demand among the Americans for roses here; but the Cubans are great flower lovers, and all the patios are small gardens of flowers.

This is the list mentioned: American Beauty, Paul Neyron, Killarney, Maman Cochet, White Marechal Niel, Perle des Jardines, Helen Gould, Kaiserin Aug. Victoria, and a few others whose names I have missed, but they have nothing striking about them. The Cubans like the roses with color. Very truly yours, T. R. TOWNS.

A BERMUDA LETTER.

Editor HORTICULTURE:

Dear Sir—I enclose a little picture of Araucarias or "Norfolk Island Pines" growing at Sunnylands. This was taken about four weeks ago. These trees have been growing about fifteen years and are at least fifty feet high. One of the trees has several large cones on its topmost branches. I have another large pine on the farm which is about seventy feet high and has quite a crop of cones thereon. And from now on I hope to have plenty of seed and can grow my own plants instead of buying abroad. If these cones are as good as other seeds grown on the place like Pandanus utilis, Phoenix, Latanias and Cycas revoluta, I ask for nothing better as they are all about 99 per cent. germination. Of the cycas seeds I will have a crop of about

20 bushels as they are all ripe for gathering.

The Ficus pandurata grows well and takes kindly to our soil and climate. In October, 1910, I planted a good specimen in the garden near the house. It was two feet high at time of planting, today it is ten feet high, and with handsome lateral branches, and with the large fiddle-shaped leaves over fifteen inches in length.

I have been experimenting with different trees, to find what will grow and also fast growing trees. Our islands are quite popular as a winter and summer resort and we are needing such trees to decorate our highways to make it more attractive to our northern visitors. Possibly you or your readers may be able to suggest some other trees that would do well in a climate like this, where the temperature never goes below 50 in winter and seldom over 85 in summer.

Yours very truly

THEODORE OUTERBRIDGE.
Sunnylands, Bermuda.

GLADIOLUS AND DAHLIA NOTES.

C. Betscher, of Canal Dover, Ohio, has been doing a vast amount of gladiolus hybridizing the past summer. With the very fine seedlings already produced and the finest of the Childs, Lemoine, Vilmorin and Pfister productions, his stock is taking high position in the most advanced class. Relatively, as visitors assure us, the Betscher seedlings are grand and in a distinct class by themselves. In a recent letter from Mr. Betscher he writes as follows:

Several of these new seedlings are simply remarkable but only what we bred for. I have done a very large amount of this very expensive work with slow progress making. Now I have the "Eld" where it is maturing very well and much, hence, with 25 lbs. of seed of all this best blood crossed with best buyable, we know that the results will be very advanced.

We are breeding several distinct types, one a yellow strain, blooming from early July to November. These show some rich yellows in all tints and times. A very tall type, these are going to be a striking type. Some we cut over 6 feet tall, unusual substance; many of these are very late, needing 6 to 7 months to bloom, while the earliest blooms in 60 days.

Of dahlias we bought over 150 new ones, but find only a very few that are equal to our old list. These were by instruction the pick of over 2500 sorts, so there must be almost 2,450 sorts on the market today that possess very little to commend them to the buyer who wants good blooms in at least reasonable numbers. We have 1,250 of a well recommended sort that has not given us a single bloom up to Oct. 20th; many others in the same class. Now, how can the dahlia be made popular with such "to date" sorts? In such sorts as Floradora, J. H. Jackson, W. Swan, etc., we had a sea of brilliancy, an ocean of color never before equaled, although no rain more than a sprinkle from April to Aug. 17, after which we had ideal conditions until Oct. 20; so that while plants had an awful struggle until then, after that date they simply were magical. Still, many sorts did not show up at all. To offer these sorts is simply retarding the sale of good ones and, putting it truthfully, flavors of obtaining money without giving value for it. Yet our societies seem dead to it, our methods of trial and introduction are very weak or ancient. We all ought to do better and keep on doing it seriously, zealously, hopefully cheerfully.

C. BETSCHER

A ROSE LIST.

"The Garden," London, has recently published the last installment of a list of roses, giving parentage, raiser, date of introduction, etc., which has been running in weekly chapters since last May, compiled by Mr. Robert Daniel. As stated in the introduction the task undertaken by the compiler was one of great magnitude and the information given will prove useful to many. Such work is always largely a labor of love and rarely appreciated as it should be but it is to be regretted that in the present instance it is so woefully incomplete. In all, about 1400 varieties are listed which is really but a fraction of what a list anywhere near complete of varieties of which the parentage is on record would be. If only obscure or obsolete varieties were omitted no great fault might be found but when one looks in vain for Queen of the Prairies, Baltimore Belle, Andre Schwartz, W. F. Bennett, Mrs. W. J. Grant (Belle Siebrecht) Gruss an Teplitz, The Dawson, American Beauty, My Maryland, etc., etc., all varieties that have been in the limelight more or less continuously during recent years, one's estimate of the value of the compiler's effort gets a rude jolt. We notice that "M. Natick" is given as the raiser of Wellesley Alexander. Montgomery would sound better.

CLUBS AND SOCIETIES

NATIONAL SWEET PEA SOCIETY OF AMERICA.

At the executive meeting of the National Sweet Pea Society of America, held at the Parker House, Boston, Mass., November 3rd, President Sim presiding, it was decided that the fourth summer and annual exhibition and convention of the society should be held in Boston, Mass., July 13th and 14th, 1912, in conjunction with the Massachusetts Horticultural Society's exhibition. Four hundred dollars was set aside to be offered for prizes as follows: \$100 for wholesale growers, \$100 for private gardeners, \$100 for the amateur, \$100 for retail florists.

The above will be in addition to the general list of special prizes donated, also apart from the prizes offered by the Massachusetts Horticultural Society.

There will be a meeting of the schedule committee in Boston about the middle of this month; suggestions and prizes for this schedule are invited. We shall hope to have this published not later than the first of December.

HARRY A. BUNYARD, Sec'y.
342 West 14th St., New York, N. Y.

FLORISTS' CLUB OF WASHINGTON.

This club held its November meeting in its rooms at 1214 F street, N. W., at which place they have decided to continue holding their meetings. The question was put to the club following the receipt of the membership committee's report and the vote to stay was unanimous. Louis R. Freeman and Clarence L. Linz representing HORTICULTURE were duly elected to membership.

The serious illness of William R. Smith was reported to the club and it was voted that a letter be sent him hoping for his speedy recovery. President Mayberry reported having visited him only to find him very low. Mr. Smith is known and beloved from coast to coast and the news of his illness will cause sympathetic anxiety everywhere.

Following adjournment the members partook of a buffet supper and listened to the music and other entertainment. This was given in the grotto which was artistically decorated with American flags and bunting for the occasion.

C. L. LINZ.

MASSACHUSETTS HORTICULTURAL SOCIETY.

The annual meeting of the Massachusetts Horticultural Society for the election of officers for the ensuing year, and the transaction of such other business as may be legally presented, will be held at Horticultural Hall, Boston, at 12 o'clock, noon, on Saturday, November 18, 1911. The officers to be elected are a president; a vice-president (for two years); one trustee (for one year); four trustees (for three years); a delegate to the State Board of Agriculture (for three years); a nominating committee of five members. The election will be by Australian Ballot and the polls will be open continuously between the hours of twelve, noon, and four in the afternoon.

WILLIAM P. RICH, Sec'y.

CHICAGO FLORISTS' CLUB.

This club held its regular meeting Nov. 2, with a good attendance, including all the officers. The meeting was somewhat in the nature of a flower show and a very creditable exhibition of the season's blooms awaited the coming of the members. Applicants for membership included Chas. W. Erne, 30 E. Randolph street, Chicago; Edward H. Gale, 108 E. Delaware street, Chicago; A. Vander-Pohl, 3811 Harrison street, Chicago; James B. Foley, 26th street and Western avenue, Chicago; Isaac Cassidy, 26th street and Western avenue, Chicago; Wm. F. Kasting, Buffalo, N. Y.; Chas. J. Bond, Naperville, Ill.; Louis Lickenger, Andrew Bensen, Ed. Toeple, Guy French, Tony Gable, Dick Salm, all of Morton Grove, Ill.

An invitation to visit the St. Louis flower show Nov. 7 to 11 was read. Short speeches were made by visitors E. G. Hill, Richmond, Ind., W. R. Pierson, Cromwell, Conn., H. Roth, LaFayette, Ind., and R. M. Groves, Adams, Mass.

The judges on carnations were John Then, John Zeck and H. Yepsen. Three seedlings were exhibited by the Chicago Carnation Co., No. 150 scoring 88 points, No. 186 86 points and No. 49 87 points. Two of these are scarlets, one easily five inches in diameter and the other a dark pink, all to be disseminated this season. Mr. Keimels, D. A. Robertson and A. Erickson were the judges of roses. Killarney Queen scored 88 and Double White Killarney 87, both exhibited by A. N. Pierson, and a seedling red rose by H. Roth was given special mention. An exhibit of orchids was made by Chas. J. Bond of Naperville, Ill., and awarded the club certificate. Mr. Pierson extended invitation to the club to attend the meeting of the American Rose Society at Detroit in January, 1912.

FLORISTS' CLUB OF PHILADELPHIA.

Nothing really happened at the regular monthly meeting of the above club. We all sat through the three hours - waiting - but nothing happened! The meeting was memorable for one thing. It had a good president in J. Otto Thilow. He rushed things through in spite of interruptions and he got all his new committees appointed—just as he had planned them. And by the looks of them, they look like some thinking. As a new shuffle, we haven't had anything like it for many years. How it will work out goodness only knows; but it looks hopeful. Our advice to the president is to boss his job, and above all to pay no attention to the "Wiseheimers."

PENNSYLVANIA HORTICULTURAL SOCIETY.

The Flower Show now on in Horticultural Hall, Phila., is much better than for four or five years back in arrangement, quantity and quality, both in cut blooms and specimen plants as well as in the decorative departments. All greatly ahead—thanks to the hustle of Stroud, Thilow and many others. Full account next week.

STATE FLORISTS' ASSOCIATION OF INDIANA.

About fifty florists attended the November meeting of the Indiana State Florists' Association at Richmond last Tuesday at the E. G. Hill Co. greenhouses, where the business session of the morning was held. Short talks were given by W. W. Coles of Kokomo; J. S. Stuart, Anderson; M. Heller, New Castle; H. L. Weigand, Indianapolis; N. H. Gano, Martinsville; Theodore Dörner, Lafayette; Roger Murphy, Urbana, Ohio; B. F. Hensley, Knightstown, and W. H. Elverson, New Brighton, Pa. Joseph H. Hill and E. G. Hill also gave short talks on the work they are carrying on. Nine new members were added, making the membership total almost 100.

At noon a luncheon was served, after which automobiles carried the florists on an inspection trip to the Graves, Gause, Knopf and Lemon greenhouses, and the Advance Machine Company's plant. The next meeting will be at Indianapolis, December 4, and the annual meeting will be at the same place, January 17.

CHRYSANthemum SOCIETY OF AMERICA.

Work of Committees.

Exhibited by Elmer D. Smith & Co., Adrian, Mich., at Chicago, Nov. 2nd: Christy Mathewson, Jap, white, 90 points, exhibition scale.

Smith's Sensation, Jap, pink, Inc., 87 points, exhibition scale.

White Perfection, Jap, Inc., 88 points, commercial scale.

Exhibited by E. G. Hill Co., Richmond, Ind.:

August Daisy, Jap, orange yellow, 87 points, exhibition scale.

August Daisy, Jap, orange yellow, 92 points, commercial scale.

Hirondale, Jap, Inc., pink, 86 points, exhibition scale.

Hirondale, Jap., Inc., pink, 91 points, commercial scale.

Petite Yvonne, Jap, white, 81 points, commercial scale.

CHAS. W. JOHNSON, Secy.

CLUB AND SOCIETY NOTES.

The meeting of the New York Florists' Club on Monday night, Nov. 13, will be ladies' night and a fine entertainment is promised.

One would imagine that the office of president of the New York Florists' Club would be dignified enough to have invitations sent to visit the local shows, but never a one came, and when one considers the good fellow and hard worker that occupies that position at present, along with the vast work done by the club, the neglect seems all the more inexcusable.

The annual meeting of the North Shore Horticultural Society and election of officers took place Friday evening, November 3. Herbert Shaw was elected president; Herman Sanford, vice-president; James Salter, clerk; John Jaffrey, treasurer; and Robert A. Mitchell, librarian. The executive committee is: F. F. Brasch, A. E. Parsons, Joseph Clark, John Chapman and Eric H. Wetterlow.

CHRYSANTHEMUM SOCIETY OF AMERICA.

Address by President Elmer D. Smith before the Chrysanthemum Society of America at St. Louis.

To the Members of the Chrysanthemum Society of America:

This is our tenth annual joint meeting and exhibition and as we will soon be making history in a new decade, permit me to briefly refer to what has taken place since the Chrysanthemum Society of America was organized.

This society was instituted at Buffalo, New York, in August, 1890, and from that time until the first exhibition was held in Chicago in 1902 the annual meetings were held in the summer during the convention of the Society of American Florists and Ornamental Horticulturists.

The establishment of annual exhibitions with executive sessions, seemed to give the society new life. To my mind the most worthy and beneficial act the society performed during its existence was that of appointing committees to commend such new varieties as they consider improvements and worthy of being disseminated.

We owe much to these committees who meet yearly at intervals during the flowering season at Boston, New York, Philadelphia, Cincinnati and Chicago to inspect and pass judgment upon these new candidates. The unselfish devotion they have given in time and money to this work enables the society to point out to the buying public the best kinds for their purpose. Their unbiased judgment is clearly set forth by the fact that the majority of the most popular kinds today have received their approval.

You may question the truth of this statement by citing some which have not come up to your expectations, but if you will scan the list of varieties now conceded as our best commercial sorts you will find the large majority have been certificated by this society through its committees. It is not to be expected they can determine such defects as are either constitutional or controlled by cultural methods such as diseases, lack of fullness or adversity of propagation. No mortal optics are so keen as to detect such blemishes from the six blooms submitted. Every one interested in chrysanthemums should sing praise to these men who so unselfishly and possibly unconsciously have done so much to benefit us all.

I doubt if many of us fully appreciate how general and far reaching are the advantages we now enjoy and that this boon is largely due to the benevolent spirit of these committeemen. Since their inauguration there has been a wonderful curtailment in the number of novelties offered. In 1893 there were disseminated 180 of American origin and 130 foreign or 310 new varieties were brought out in a single year. Under such conditions it was very difficult to select the most suitable and in those days when there was no safe guard against imposition it was not unusual for introducers to include varieties of little merit. Since the appointment of these committees in 1894 these numbers have grown less year by year until the offerings for the present are 20 American and 55 Foreign, of which 15 were certificated by this society. And so I say all do not appreciate what has been bestowed upon us, the introducers are

seeking higher standards in preference to large numbers and the purchasers, whether commercial growers, private gardeners or amateurs have greater confidence in those kinds which are sufficiently meritorious to pass their critical examination.

Although our membership is slightly on the increase rather than waning, the society has not received full value in return for this service given all lovers of the Queen of Autumn. We have received the hearty support of only a small portion of those interested in this important branch of floriculture. We have been unable to impress upon the many the importance and our earnest desire of their hearty cooperation.

As previously stated the time was when the reports of exhibitions was our chief guidance in making selections, but now the nuts are all cracked and the meats are placed before you. This one feature alone should be of sufficient importance to secure the membership of every grower interested in the best and latest kinds. All the society demands is \$2 annual membership fee and I venture most of us spend this small amount in some frivolous way without benefit to ourselves or to any worthy cause. It seems strange with the vast number infinitely interested that so small a portion can not or do not see they owe a moral obligation in supporting so worthy a cause.

We want your counsel and advice, we want you to assist in formulating new plans whereby greater benefit will exist. You can assist us, I mean all of you. If you grow but a few hundred plants it is worth more than the paltry sum we ask to receive our annual report and feel you are associated with those whose endeavors are the betterment of all. A brighter future with greater achievements will be wrought by putting into force the proverb, "Heaven helps those who help themselves."

Just a few words on what has been accomplished during the past decade toward improvement of varieties in this country. In 1902 our earliest white Mme. Bergman was seen on the market early in October, now we can have larger and better flowers in July if desired. The same may be said regarding the yellows. Pinks have not advanced in the same ratio, although Unaka may be had in fine form the first week of October. We have also been given such good varieties as Dolly Dimple, Golden Eagle, Lynnwood Hall, Chrysolora and others which show marked advances in their particular color and type.

During the past few years equal gains are manifest in the exhibition section. Such newcomers as F. E. Nash, Lenox, Glen Cove and Morristown compare favorably in size and finish with the importations. The limit has not been reached and if we progress we must have better qualities, for when we consider the qualities requisite for the best commercial and exhibition sorts it does not take long to discern wherein most of them are deficient. In the commercials we might have better midseason whites, a good pink as early as Golden Glow; a type with foliage up to the bloom, which some of the later productions are showing a marked tendency and many of the exhibition varieties would be greatly enhanced if foliage could be supplanted for the long bare neck,

while others would add to the appearance of our exhibitions if their stems were stiffer.

While this society allows artificial supports I predict the time is not far distant when this measure will be repealed. To my mind those which can not sustain their blooms are of slight consequence regardless of other qualifications and artificial supports in all classes calling for vases of twelve blooms or more should be eliminated. Why should we encourage retrogradation rather than insist that our standard of excellence shall ever continue upward? There are qualities other than size that appeal to the refined and we should not forget that color and form are the fundamental principles underlying beauty as nature presents it nor should we degrade these two characteristics in our efforts to increase size.

The trade papers have been generous in devoting their space to our notices without compensation to whom we should extend our sincere thanks. Let us hope for greater achievements and focus our force and energy to that end, so that when the hour glass of time marks the closing of the next decade we will then realize how weak we are at present. As a society we have obligations to perform. Let us all join hands in an efforts to increase our usefulness for the betterment of all. In union there is strength and earnest endeavor leads to success.

THE BOSTON LANDSCAPE CLASSES.

The landscape gardening classes of the Gardeners' and Florists' Club of Boston had their first session of the present season at Horticultural Hall, on Tuesday evening, November 7. The teacher is Raymond W. Aldrich, who has an efficient assistant, so that students will be well cared for. The charges are the same as in previous years, viz.: 50 cents per lesson. The classes will run for approximately five months.

Meetings will be held on Tuesday evening of each week, except the week of club meetings, when they will be held on Monday evenings. In addition to drawing plans, etc., it is hoped to arrange for several practical talks during the season, and also at least one field day for practical work, probably in the Boston Park System.

Instruments needed, also scales, pencils, rubbers and thumb tacks will cost about \$2.50. The cost of paper and other supplies for the full season may reach \$2.00 additional. These are the total costs apart from tuition fees.

The desire is to benefit young men at a low cost, and make them better fitted for filling places of responsibility. The lack of outdoor gardening continues to be the greatest deterrent to success with many and all who attend these classes will find it a most excellent investment, enhancing greatly as it will their chances for further advancement.

We read with interest in the news columns of one of our contemporaries, issue of Nov. 2, 1911, that George Parker, florist, Dorchester, Mass., and Miss Ida Spargo had been married on Wednesday evening, Oct. 25. As the interesting event thus recorded, took place some thirty years ago, the news-gathering facilities of our esteemed contemporary would seem to be just a little antiquated.

THE NEW BREITMEYER STORE, DETROIT, MICH.

The Refrigerator.

PERSONAL.

C. H. Totty, Madison, N. J., started last Monday on a western trip.

Peter T. Devoy, of Poughkeepsie, is reported as very low with pneumonia.

H. A. Kettel and family of Rumson, N. J., have gone on a trip to old friends and scenes in Europe.

R. Vincent, Jr., Whitmarsh, Md., is on a visit to several western cities where he is scheduled to lecture on his recent European trip.

We regret to have to announce that latest news from Wm. R. Smith of Washington is that he is still very low and there is much uneasiness as to the prospects for his ultimate recovery.

The engagement of Henry Sargent Dawson, youngest son of Jackson Dawson and Miss Pauline Fenner Mason of Dorchester, Mass., has been announced. The marriage will take place next June.

Prof. A. J. Cook, dean of the department of science of Pomona College, California, and a graduate of the Michigan Agricultural College, has been appointed commissioner of horticulture for California by Governor Hiram Johnson.

All will be glad to learn that the late C. N. Bliss substantially expressed his appreciation of the services rendered by his energetic and able superintendent, N. Butterbach of Oceanic, N. J., whose daughter will be married to James McCann on Dec. 2nd. This will be a great green letter day at Red Bank.

Boston visitors: W. Atlee Burpee and George C. Watson, Philadelphia.; H. A. Bunyard, New York City; C. H. Totty, Madison, N. J.; Ed. Kirk, Bar Harbor, Me.; Mrs. W. Bridgeman, Rhinebeck, N. Y.; Mr. and Mrs. Harry Bayersdorfer, Phila.

Buffalo is about to establish a municipal nursery where trees for street and avenue planting will be raised, under the supervision of City Forester Filler. About 40 or 50 acres of land will be required but the location has not yet been selected.

POT-GROWN GRAPES.

Our cover illustration shows a fine Black Hamburg in fruit, not, as might be imagined, the product of some private conservatory but grown for commercial use by a commercial florist. Mr. Murray is doing good missionary work for the florist's business in its higher possibilities and can see something in his vocation above and beyond the mere sticking of wired blossoms in a wire frame. He writes us that he uses these finely fruited vines for basket and punch bowl work, arranging them so that the bunches of grapes hang down from the handle.

NEWS NOTES.

Halifax, Mass.—The Halifax Garden Company have announced their 1911 fall chrysanthemum show and visit to the greenhouses, to be held Saturday, Nov. 11, 2 to 5.30 P. M., and Sunday, Nov. 12, 8 A. M. to 5 P. M., at the greenhouses. A cordial invitation is extended to the public.

North Dighton, Mass.—Geo. H. Walker of North Dighton has purchased the entire stock of cactus dahlia tubers, including two acres from J. P. Bodge, Fall River, Mass., who is retiring from the business. Mr. Walker has been very busy the past week digging and trucking them home for storage.

New Springfield, N. Y. — Emil Schraeder, a well known grower, was aroused early on Tuesday, Nov. 7, by a burglar alarm, and hurrying to his yard with a shotgun discovered a burglar who was robbing his poultry coops. The burglar knocked Schraeder down and was about to seize the gun when the florist pulled the trigger. The burglar fell dead in a heap with a charge of buckshot in his head.

The Lamberton Memorial Conservatory at Highland Park, Rochester, N. Y., was formally dedicated with appropriate exercises on October 30. The presentation speech was made by President A. B. Lamberton of the park board, who was introduced by W. C. Barry and the acceptance was voiced by Mayor Edgerton. A grand display of chrysanthemums is now on and this will be followed by a series of public floral displays throughout the season, from 10 A. M. to 5 P. M., daily.

CINCINNATI NOTES.

The flower show will be held Nov. 13-18 inclusive. Superintendent Wm. Murphy of the exhibition has laid out the Horticultural Hall as a flower garden. The silver cups worth easily double their advertised value have been placed on exhibition in a prominent show window on Walnut street, between 4th and 5th avenues. The entries up to the time of writing are large and indications point to an augmentation before the end of the week. The mayor will make an opening address on Monday, the opening day of the affair. Visitors should not forget the smoker on Thursday at the Bismark Rathskeller. The committeemen in charge promise a good time for everyone.

The meeting of Cincinnati Florists' Society was held at Cincinnati Cut Flower Exchange at 24 3rd Avenue, East, on Saturday, Nov. 11, 1911.

Albert McCullough started for Florida this week for a stay for over a month.

Thos. Windram has gone to Florida to his asparagus farms.

Harry Schwartz, Gus Adrian and Max Rudolph were at the Indiana State Florists' Association meeting at Richmond on Tuesday.

Visitors: R. Groves, Adams, Mass., and J. Broxey, Dayton, O.

DURING RECESS.

New York Bowlers.

The attendance at the New York bowling on Friday, November 3rd, was apparently affected by the numerous calls at exhibitions. The scores were as follows:

Ch'dwick,	193 222 194	Holt,	137 148 154
Young,	191 162 165	Shaw,	110 133 118

CHICAGO NOTES.

Chrysanthemum Shows at the Parks.

Nov. 1st Garfield Park Chrysanthemum Show was announced as ready for the public and promptly the public showed its appreciation by keeping up a steady stream of admirers pouring through the doors. Sunday, by actual count, over 10,000 people passed into the conservatories. A special feature of this year's exhibit is the large center bed, irregular in shape and containing one thousand single-stem plants. Two hundred varieties of these huge beauties are a sight never to be forgotten.

Lincoln Park conservatories were ready with their annual display Sunday. As is always the case, this park being centrally located has the most visitors and the exhibit will continue six weeks.

Business Changes.

Friedman's new store, known as the Western Floral Co., on Congress street, opens this week.

Edw. Lester, who opened a small retail store in the down-town district about a month ago, has decided to give his attention to something else or seek a less expensive district.

Chas. Erne tried the wholesale end of the business for a couple of days last week, using a part of the space of the Chicago Carnation Co., which proved too small for his purpose.

McNally has sold his retail store to Max Cohen, who has had several years' experience with the Amling Co., Poehlmann Bros. Co. and others, and is ably fitted to take up the florists' business for himself.

Mrs. Flora M. Wintermeyer, 750 Throop street, has transferred the paper box manufacturing business of her late husband, J. C. Wintermeyer, to the D. M. Goodwillie Co. Jas. Vlcek, salesman, will go with the new owners.

The Chicago Rose Co. of Libertyville, Ill., has sold out to two former employes of Bassett and Washburn for \$13,000. J. G. Schumann, an expert rose grower, and Joseph Kohout, a successful carnation grower, comprise the new firm.

Charlie Zapfe, for twelve years in J. A. Budlong's wholesale store, leaves Saturday night to open a retail store at 61st street and S. Park avenue. The store was leased on the 1st and is now being equipped with everything up-to-date throughout.

Clifford Pruner has forsaken indoor life and returned to the road, where he has spent many years of his life. He is with the same firm, the E. H. Hunt Co., and started for the southwest Monday with a full line of samples. Raleigh H. Starbuck, of the same firm, comes in from the road to take his place.

The son and daughters of the late Joseph Klimmer have incorporated under the name of Klimmer's Greenhouses and will carry on the business which their father so successfully founded many years ago at Forest Park and was actively engaged in till within a few months of his death last year. Capital stock \$5000.

One of the most important recent transfers among the down-town florists was arranged for this week and

J. Mangel becomes the owner of the Palmer House Flower Store, so long owned by Harry Rowe. The transfer takes place March 1, 1912. As stated in this column last week, the building in which J. Mangel has had his store for many years is to be torn down and a new location was necessary, hence the purchase of the Harry Rowe store, which is one of the finest in the city and just a few doors west.

Trade News.

Harry Rowe will open a new store after he gives up his present one, the exact location of which is not yet determined.

Phil Schupp, manager for J. A. Budlong, is pleased with the result of eliminating Bridesmaids from the stock grown this year. My Maryland and Killarney are so satisfactory that he thinks they will be used exclusively for pink in the near future.

The Chicago Carnation Co. have added a mimeograph and addressograph to their office equipment and are rapidly getting to the front in their ability to handle successfully a large output of carnations and chrysanthemums. Manager Pyfer left Monday night for the St. Louis, Mo., Flower Show.

Personal.

Thos. Franks of Champaign, was proudly introducing his bride to his friends in the wholesale market last week.

Ed. P. Hauswirth is receiving a hearty welcome from his friends among the florists after his absence from the city for the past two years. He is now city salesman at Vaughan's Seed Store.

Mrs. Edson Haas, 5455 W. Lake St., is very ill following an operation for appendicitis with other complications.

Mrs. Geo. Hartung of Mt. Pullman, is recovering from a recent operation at Pullman hospital.

Word has just been received here that the son of R. S. Petts of Crawfordsville, Ind., was burned to death Sunday, Nov. 5. No particulars have been received, but the family have the sympathy of the trade.

Visitors:—W. R. Pierson, Cromwell, Conn.; R. M. Groves, Adams, Mass.; E. G. Hill, Richmond, Ind.; H. Roth, Lafayette, Ind.; Chas. J. Bond, Naperville, Ill.; A. F. Augspurger, Peoria, Ill.; Mrs. Rennison, Sioux City, Ia.; F. J. Farney, of M. Rice & Co., Phila.; R. H. Simmons, La Salle, Ill.; Mrs. M. D. Reimers, Louisville, Ky.; Mr. and Mrs. Thos. Franks, Champaign, Ill.; Harry Philpott, Winnipeg, Man.; Chas. Schaefer, Kankakee, Ill.

Des Moines, Iowa.—The Iowa Seed Company celebrated the completion of their extensive new range of greenhouses by giving a flower show on Nov. 1 and 2, to which the public were invited and free souvenirs given to the lady visitors. There are 32 houses in the entire range and they contain in addition to the usual stock in such establishments many rare plants not often found in commercial greenhouses. Although somewhat inconveniently located—being about six blocks from the street car line—they were crowded during the reception days.

INCORPORATED.

Westminster, Vt.—The Connecticut Valley Orchard Co., capital stock \$10,000. Incorporators, E. G. Tuthill, J. Dascomb, Geo. H. Dascomb.

Camden, N. J.—Pittsburgh Florists' Exchange, capital stock \$15,000. Incorporators, V. A. Murray, Harvey L. Lechner, Julian H. Kendig.

Fort Atkinson, Wis.—The Ellison Bay Orchard Co., capital stock \$40,000. Incorporators, W. T. Clark, C. T. Telfer, A. J. Edwards, R. J. Coe.

Indianapolis, Ind.—The Minnesota Orchard Co., capital stock \$50,000. Directors, R. S. Kennedy, Geo. A. Smith, Arthur Christofferson, Julius Harvet, and Wm. H. Dye.

Forest Park, Ill.—Klimmer's Greenhouses, general seed and florist business, capital stock \$5,000. Incorporators, Augusta Klimmer, Frank Klimmer, Minnie Klimmer and Lillie Zander.

Seaford, Del.—The Woodland Orchard Co., capital stock \$100,000. Incorporators, Orlando Harrison, Berlin, Md.; C. Donoho, Seaford; A. H. Hardesty, Dover; F. P. Adkins, Salisbury, Md.

Port Ewen, N. Y.—The Francis Howard Corporation, capital stock \$250,000. To do a landscape gardening business. Incorporators, D. Cahart, B. B. Cattel and A. P. Hallett, all of New York city.

Romney, W. Va.—Potomac Highlands Orchard Co., capital stock \$10,000. Incorporators, M. E. Ailes, of Washington, D. C., Eugene E. Ailes and John J. Cornwell, of Romney, A. S. Ailes and C. C. Ailes, of Okonoko, W. Va.

WASHINGTON NOTES.

J. Harper Hetherington, formerly with F. H. Kramer, is now with the Washington Florists' Co.

Robert Schock called on many of the local florists last week in the interests of M. Rice & Co., of Philadelphia. Mr. Schock reports business to be quite good with him on this trip. Among other traveling men in town were Mr. Knight, of Knight & Struck, and Mr. Goudy, with H. A. Dreer, Philadelphia.

F. H. Kramer gave a surprise party for Miss Olive, daughter of Sergeant Charles A. Stevens of Anacostia on the occasion of her fourteenth birthday. Among the florists of Anacostia, who were present were Mr. and Mrs. F. H. Kramer and Mr. and Mrs. Adolphus Gude. A very pleasant evening was spent.

A good many merchants in different lines are employing cut flowers in the decoration of their display windows and stores and there are quite a number of opportunities to make contracts for the supply of flowers in season. Jewelers, opticians and shoe merchants, showing shoes for evening wear, utilize flowers to a greater or lesser extent.

Gude Bros., 1214 F Street, N. W., last week held a grand flower show on their own account. Ninety or a hundred varieties of chrysanthemums were displayed, some of them with up to six-foot stems. For a depth of 180 ft. and a width of 40 ft., the entire street floor was a mass of color set off by ferns and palms. Myriads of small power electric lights in all colors softened the intense light of the higher power Tungstens. The walls were covered with southern smilax. In the greenhouse at the rear was a rustic bower fifteen feet in height covered with smilax, American Beauty and Radiance roses while around this were jars of chrysanthemums and Beauties. A remarkable part of this display was the fact that the Radiance roses placed on Sunday remained intact the following Saturday. The store was packed from opening until closing, people coming from long distances, and in all sorts of equipages, to view this handsome scene.

ST. LOUIS NOTES.

The A. Brix Floral Co., who run a retail store at 1518 St. Louis Ave., have leased their green house plant at McLaren and Mead Ave. to Albert Hirlmann.

J. J. Beneke, Jr., son of J. J. Beneke, was married last week to Miss Viola Walsh. Mr. Beneke was formerly with his father and is now with the Wesco Electrical Co. as assistant purchasing agent.

The Retail Florists' Association's bill No. 13 before the House of Delegates, to prohibit crepe pulling, was defeated last week at the meeting of the House. The members say the bill was not properly made up as presented. They will try again.

The Bentzen Floral Co. have sold their stock and leased the greenhouses at 4025 Marcus avenue to Joe Hamerle who was until recently foreman of the Grimm & Gorley greenhouse plants. The Bentzens will devote all their time to their retail store at 3118 N. Grand Ave.

BOSTON NOTES.

A shipment of about 30,000 fine azaleas has been received by the Wm. W. Edgar Co. of Waverly.

Some new and valuable orchids from England have been recently added to the collection of J. T. Butterworth of South Framingham.

Between landscape work and his new flower store at 199 Tremont street, Harry Quint is kept very busy. Mr. Quint is a graduate of one of the foremost agricultural schools and is a landscape artist of no mean ability. He comes from a family of florists.

At the meeting of the stockholders of the Boston Co-operative Flower Market, 2 Park street, on Nov. 4, John McFarland was elected president, Donald Carmichael treasurer and William W. Tailby clerk. These with the following comprise the board of directors: Edward Wood, Robert Montgomery, Norris F. Comley, William H. Elliott, James Wheeler and Elijah Cartwright. A 10 per cent. dividend was declared and a good surplus left in the treasury.

About three centuries ago there lived in North Europe a man by name of Ochus Bochus. He was a born conjurer and it became customary in those days for a conjurer to say "Ochus Bochus" when he performed a trick, instead of firing off a pistol like sleight-of-hand professors do nowadays. Later day spelling changed the phrase to "Hocus-pocus," which means tricky. Now in the bulb business there are salesmen who would fare better if they would only come right out and say "Hocus-pocus" when they make a sale and be done with it; for Hocus-pocus sales bounce back like a rubber ball, and it's the back-draft that hurts business. If every salesman had to face the back-draft he would be more careful in his sales. Look out for the Hocus-pocus salesmen; those promisers who change their name to John Doe after the sale is made. Buy good bulbs, pay enough for them, and then insist upon getting what you pay for. In lily bulbs there is no better brand than Horseshoe Brand, and if you buy them there is no need of empty promises and persuasive methods because they must make good to uphold their good name. No Hocus-pocus about them, that's a sure thing, and no secrets in their make-up. Prices are as reasonable as we can afford. Write us.

*Easter Lily Bulbs for
Immediate Delivery*

THE LATEST SIL

**The new Sargent rose originated by Jackson Dawson,
now offered for the first time for fall 1912 delivery**

This seedling combines the good qualities of R. Wichuraiana, R. Crimson Rambler and R. Baroness Rothschild which have been used in its evolution. The flowers are single, about three inches across, pale rose in color and produced in greatest profusion in pyramidal clusters all along the strong branches, blooming from the middle of May till end of June. The foliage is a beautiful glossy green and remains in good condition till late fall.

As this stock is limited book your orders early. \$1.50 each

Silver Medal awarded to Jackson Dawson for Prof. C. S. Sargent Rose by the Massachusetts Horticultural Society, June 26th, 1909

Sudbury, Mass., second. H. F. Hall, Brighton, Mass., Hybrid Squashes, first. Waban Gardens, Waban, Mass., general exhibit, first.

Cucumbers—H. F. Hall, Brighton, Mass., best box packed for market, first.

Noxious Seed Laws or the Restraint of Seed Trade.

We note from time to time in your valuable paper the announcement of some new seed law being placed on the statute books in the various States. Taking them as they are, we find they are all more or less drawn along the same lines, with the exception that some of them are more stringent than others, as they prohibit the sale of seeds containing certain weed seeds which in that particular State are considered noxious.

For instance, in North Dakota quack grass and Canada thistle are termed noxious seeds; in West Virginia dodder is termed a noxious seed; in North Carolina cheat (or chess) is also termed a noxious seed, and there are no doubt other States where similar laws are enacted.

The intent of any such legislation—if it were possible, is all right, but who can control Dame Nature that produces both pure and noxious seeds. We do not think there is today a pure seed law on the statute books that would be upheld before any Supreme Court, and further don't think it possible to have seed legislation, unless it be along the lines of adulteration or misbranding of seeds.

SPEAKING OF THANKSGIVING

You'll need Baskets—lots of them for Chrysanthemums, American Beauties, Carnations. It's time to stock up. We have the finest and most varied stock of Standard, Special and Novelty Baskets and Stands, in Willow and Braid, Wicker, Metal, Rattan, Twig and Rush—in natural, antique, or art colors—simple or elaborate, in endless variety and sizes. Over thirty pages of photographs of baskets in our New Catalogue, showing hundreds of styles, and fully described. This superb album of florists' supplies, 11 x 14, over 100 pages of illustrations, prices and descriptive matter, is the most elaborate ever issued. A copy goes free to your address on request.

Flower Market Reports

BOSTON The present week with its sunny skies and chrysanthemum invasion shows no improvement over the preceding week, and there is no immediate prospect for any change for the better. Dealers are pessimistic and see a troublesome fortnight ahead. Chrysanthemums are at their height of quality and quantity. That good old standby Major Bonnaillon maintains the lead in popularity and general usefulness. Carnations are up to prize winning quality but that does not help them greatly on price obtainable. Roses are also very good. Gardenias more plentiful and improving in quality.

Trade is good and the **CHICAGO** market is in a very satisfactory condition. Stock is just plentiful enough to keep prices right and quality is excellent. Chrysanthemums are queens of the day and every possible variation of this favorite is now to be had, the pompons receiving their full share of attention. It is a question if the absence of the annual flower show has not increased rather than lessened the local sale of chrysanthemums this fall. Those who grow the big fancy blooms are having orders for them from the exhibitors at the neighboring shows and they bring fancy prices accordingly. Violets, both single and double, are selling at moderate prices and do not take an important place in the market yet. Lily of the valley is of several grades, the best selling most readily. Roses cannot be said to be scarce but there are few left each day and large orders are usually followed by a search for stock. My Maryland is a favorite at this time, quality and color both being very good. Cattleyas are in good demand. Cosmos grown under glass are a new addition this year, some blooms at J. A. Budlong's being four or more inches in diameter and they are taking well, being excellent keepers.

Business runs along **CINCINNATI** merrily. The supply is large and the demand very good. The call from the shipping trade is large. The over supply of small chrysanthemums is at an end, while the glut of white roses, owing to very large offerings, continues in spite of good sales. Other colors clean up quickly each day. More carnations could easily be used. The darker shades are coming in stronger and are selling as well as the lighter ones. All good chrysanthemums move quickly with the medium sizes as the most favored by the buyers. Easter lilies are again good property for the wholesalers. The supply of violets, both double and single is far short of the request for same. Lily of the valley and orchids are enjoying a good market. All lines of greens are in demand and there is a good supply of the same.

The conditions prevalent in the wholesale market generally are still as they have been reported for the past two weeks with the situation even more aggravated on some lines. Accumulations of many staples are on all sides and no reasonable outlet is

BOX-WOOD SPRAYS

open to the holders. It is at such times as this that New York growers and dealers feel keenly the need of the extensive shipping outlets they once enjoyed, and it should be a very proper subject for them to take under serious consideration to ascertain, if possible, the reasons for the elimination of New York's out-of-town demand while other large markets have

been able to hold theirs thus far, and whether it may be possible to regain any part of what has been lost. It is evident to everyone that for a very considerable portion of the year—the period increasing, too, with each year—the production of flowers for this market is too large for the local needs and the train of evils that follow in

Flower Market Reports.

(Continued from page 677)

consequence of such a situation is a long one and widespread, and not only disastrous but degrading to the entire floral industry. When the subject does finally force itself for attention and action it will call for the exercise of the best ability and brains which every department can jointly supply, and it will have to be worked out on much broader lines than mere details of marketing and salesmen's commissions.

Trading here the past week was not particularly brisk. It might be called a fair week, but lacking in tone. That "life and snap" which traders so love to see was conspicuous by its absence. Chrysanthemums are now the leaders, of course, and there are some grand flowers coming in. That glorious variety, Bonnaffon, is easily the peer of them all, and is a prime favorite with growers, wholesalers, retailers and the public. Other good ones just now are Maud Dean, Dr. Enguehard and Appleton. Roses are plentiful and quality fully up to standard for the season. The best seller at present is American Beauty and it is showing splendid all-around form. Killarneys are also excellent, especially the double pink. Richmonds have improved greatly. Mrs. Taft is coming in in quantity and in conspicuously good form. The orchid market is now in much better shape and the demand is good for the three principal sorts on offer: cattleya, dendrobium and oncidium. There is more activity also in the carnation market and while prices have not advanced they hold firmer to quoted rates. Violets are almost worthy of being called a bright spot in the market. They move off very well and at satisfactory figures. Outside stock is over, even the ironclad cosmos having at last succumbed in this vicinity. The greens market is still rather sluggish, although adiantum is selling better. New crop wild smilax is selling well at the reduced price this season.

Washington was last week visited by a killing frost which about caused the end of outdoor stock. Dahlias and cosmos are not so plentiful for which indoor growers are duly thankful and their stock is coming along in much better shape. There has been somewhat of a scarcity of roses and carnations but what has come into the market moved well. The

Asparagus Plumosus, strings..... to 35.00 to 35.00
" " & Spreng. (100 bchs).....	10.00 to 20.00	10.00 to 20.00

demand for greens has slackened up perceptibly, probably due to the fact that there is plenty to be had. Lily of the valley is moving along well. Smilax is going slow. Chrysanthemums are bringing low figures; they are of exceptionally good quality however. Cattleyas are not as plentiful as heretofore—in fact, the supply hardly meets the demand so far as good stock is concerned. New York violets are good and are selling to advantage. As to roses, locally-grown American Beauties, Enchanter, Richmond and other high-grade varieties never were better and are holding price well. The call for flowers and greens in large quantities has diminished and business is quiet as compared with past weeks.

Business has become more steady during the last week. Buying has been quite heavy all week—there has been plenty of good stock to supply it. Wholesale consignments have not been very heavy. Chrysanthemums have the call and are selling well. Of roses the market has plenty but carnations are not in plenty. Prices on general stock remain as at last report.

PHILADELPHIA NOTES.

A very important suit was decided in favor of M. Rice & Co. before the full board of Custom Appraisers in New York last week, M. Rice & Co.'s contentions being sustained on every point. A very unusual occurrence.

Visitors: William J. Halliday, Baltimore, Md.; Phil. Foley, Chicago, Ills.; Stephen Mortensen, Southampton, Pa.; John R. Andre, Doylestown, Pa.; W. A. Simpson, Baltimore, Md.

Cambridge, Mass.—A partnership has been formed by Myer Wax and Michael R. Friedman to take over the business of the dissolved partnership of Myer Wax and Jennie Fenzl. They have been doing business under the name of "Wax, the Florist," at 676 Massachusetts avenue.

Ithaca, N. Y.—A. C. Beal has been appointed professor of horticulture at Cornell University.

AMERICAN APPLES ABROAD.

American apples, once tasted in a Dutch family, are used continually thereafter, but Vice Consul D. P. De Young, of Amsterdam, adds that owing to indirect shipments prices are higher and the condition of fruit poorer. Baldwin and similar red apples are in greatest demand. Local dealers desire smaller barrels or boxes. The addresses of the two large importers of apples in Amsterdam may be obtained from the Bureau of Manufactures, Department of Agriculture, Washington, D. C.

Consul Albert W. Swalm, Southampton, England, suggests that exporters of American apples should bear in mind that the English crop this season is one of the best and also one of the largest for many years, pears and plums being also abundant. The apple supply for autumn and early winter is far in excess of any for several years, which will keep down the price of all those imported until stocks have been consumed. Early consignments of American fruit for auction in England might, therefore, prove bad ventures for the shipper.

Finer English apples have not been seen in market for many years, and the reports from the orchard districts are most flattering. The further fact that many new orchards are coming into bearing this year should also be considered. In dessert apples alone there may be a fair market for good American varieties of established name.

An Australasian order for 58 carloads, comprising 28,200 boxes of apples, is being filled in the State of Washington. The initial shipment consists of eight carloads of Yakima Jonathans.

Just the remedy for the black aphids on chrysanthemums, red spider and thrips on carnations, green fly on roses, mealy bug on gardenias and crotchets, scale on ferns, palms and other decorative stock.

\$2.50 per gallon, \$1.00 per quart.
U. S. AND CANADA.

FUNGINE

Fungine has no equal for carnation rust, rust on chrysanthemums and mildew on roses.

\$2.00 per gallon, 75c. per quart.
U. S. AND CANADA.

There is but one convincing way for you to become familiar with the merits of Aphine and Fungine, and that is test them out yourself—it will prove worth your while.

Obituary

L. Gibson.

L. Gibson, florist, Twentieth and Grayson streets, Louisville, Ky., died on Oct. 24, aged 69 years. He was born at Bloomfield, Ky., and was a veteran of the Civil war, in which he lost an arm.

Patrick Birmingham.

Patrick Birmingham, an old St. Louis, Mo., landscape gardener, was found dead in his room at 1800 S. Compton avenue. He was asphyxiated by gas. It is claimed that Mr. Birmingham made Reservoir Park the beauty spot it is. He was 70 years old and leaves two sons to mourn his loss.

Charles Zimmerman.

On Oct. 3, Charles Zimmerman, of the firm of Chas. Zimmerman & Sons, 7150 Cottage Grove avenue, Chicago, Ill., died at his home, aged 64 years. Born in Switzerland, he came to this country in 1871, working at his profession in the east, going west to accept the position of gardener on the J. J. Mitchell estate in Chicago. He and his son established their florist business fourteen years ago. A son and daughter survive him.

Norman J. Coleman.

Norman J. Coleman, well known among the nurserymen throughout the country, died suddenly on Friday, November 3rd on the Wabash train coming home to St. Louis, with his son-in-law. He was 84 years old. Mr. Coleman was Secretary of Agriculture in President Cleveland's administration, ex-president of the American Association of Nurserymen and editor of Coleman's Rural World. He leaves a son and two daughters, and a host of friends to mourn his loss. The funeral took place Monday, November 16, from his late residence 5599 Detroit boulevard and many beautiful floral offerings were sent by friends, both local and abroad.

George Woodward.

The death of Geo. Woodward, while not entirely unexpected, came as a shock to many of his friends who had hoped for his entire recovery from a long illness. George M. Woodward came to this country from England when a boy and was for many years a private gardener in the suburban towns about Chicago. Two years ago he opened a retail flower store on Lake avenue which failing health compelled him to give up. For several

NEWS NOTES.

Franklin, Mass.—M. J. Van Leeuwen is installing a new boiler at his greenhouse.

Northboro, Mass.—The foundation for two boilers is being built at the greenhouses of Ralph L. Wadsworth, Pleasant street.

Franklin, Mass.—The Van Leeuwen greenhouses on Central street, were damaged by fire on Oct. 29. The quick work of neighbors prevented a serious loss.

Libertyville, Ill.—The greenhouses of the Chicago Rose Co. have been bought by Joseph Kohout and J. G. Schumann, who will do business under the firm name of Schumann & Kohout. Both were previously in the employ of Bassett & Washburn.

Fond du Lac, Wis.—The greenhouses of the Haentze Company sustained a \$500 loss Friday night, October 27, when the boiler in rose and carnation section blew out, partially wrecking the buildings, and exposing 3000 rose plants to the blighting cold. The explosion was caused by the stoppage of an outlet pipe. Prompt work prevented a fire following the explosion.

"FLOWERS."

The Suburban Press, publishers of Suburban Life, will issue a new monthly magazine called "Flowers," the first number to appear the first week in January, 1912.

This new magazine will be devoted exclusively to flowers, both cultivated and wild, giving the history of flowers; treating of wild flowers of field and forest; telling how the flowers got their names, the special flower for each month, etc. The culture of flowers will also be considered.

"Flowers" will be about the same size as "Life," and illustrated with half-tones direct from photographs. Subscription price, \$1.00 a year.

Dennis T. Connor, who has been Philadelphia representative of the Lord & Burnham Company for a number of years, has severed his connection with that company and will hereafter represent the Foley Manufacturing Co. of Chicago, who have decided to establish branch offices in Philadelphia and New York. The Foley people are fortunate in getting the services of a man of Mr. Connor's ability and wide acquaintance among the commercial and professional people.

Dreer's Peerless Glazing Points

For Greenhouses

Drive easy and true, because both bevels are on the same side. Can't twist and break the glass in driving. Galvanized and will not rust. No rights or lefts.

The Peerless Glazing Point is patented. No others like it. Order from your dealer or direct from us.

1000, 75c. postpaid. Samples free.

HENRY A. DREER, 714 Chestnut Street, Philadelphia.

FULL SIZE No. 2

MASTICA

FOR Greenhouse Glazing

USE IT NOW.

F. O. PIERCE CO. 12 W. BROADWAY NEW YORK

Mastica is elastic and tenacious, admits of expansion and contraction. Putty becomes hard and brittle. Broken glass more easily removed without breaking of other glass as occurs with hard putty. Lasts longer than putty. Easy to apply.

HORTICULTURE.

At Belle Haven Conn., We Built This Curved Eave House for F. C. Ravolle. That is the Gardener, L. Repaci Standing By The Door

IT'S one of our curved eave "fit in houses." We call it "fit in" because it fits in, in a most attractive way between the gardener's bungalow cottage and the other nearby buildings.

Its placing and treatment were carefully considered in relation to the surroundings. And that's why so many of our houses are especially attractive. They are something more than mere greenhouses—they are an ornamental, interesting part of the grounds.

But back of it all is the best construction money can buy and a building experience covering twice as many years as the next oldest in the business.

And these are the things that count with you—and count big.

Send for that 100 page catalog.

Send along your employer's name also and we will see that he gets one.

LILIUM HARRISII

(The Bermuda Easter Lily)

LET US supply your wants in Lilies this season

We think we can make it to your advantage to do so, as regards both quality and price.

The stock that we offer is not gathered indiscriminately from all kinds of sources, but is grown for us by a few selected growers, whose stocks have been worked up from the true, original stock. In order to ensure the health of the product, the bulbs are not grown on the same field oftener than one season, other crops being grown on the field the preceding year. The ground is thoroughly manured when the previous crop is grown, leaving it in a high state of cultivation, and when the lily bulbs are planted no fresh manure is used, and this prevents disease and ensures a crop of strong, healthy bulbs.

In addition to this we do not dig our bulbs as early as they are usually dug, but leave them in the ground until they are thoroughly ripened and matured. When Harrisii is good, it leaves little to be desired. There is very little, if any, stock obtainable as good as the stock that we are offering. We are supplying only this one grade of selected stock, and when this is disposed of, we shall have no more to offer.

While the quality of the stock that we offer is of the highest, our prices are as low as, or lower than, the prices of those who offer the ordinary stock gathered from indiscriminate sources. We are sure buyers will find our stock very satisfactory, and much more so than the Japan-grown Longiflorum, which has badly deteriorated in recent years.

Bear in mind that we were the original introducers of Harrisii in Bermuda, and that we have exceptional facilities for obtaining our present supplies. Also take note that the smallest bulbs that we offer are 6-7 inch bulbs, not 5-7 inch, as usually offered.

6-7 inch bulbs, 335 to the case, \$15.00 per case; full thousand lots, \$40.00 per 1,000.

7-9 inch bulbs, 200 to the case, \$16.00 per case; full thousand lots, \$75.00 per 1,000.

9-11 inch bulbs, 100 to the case, \$18.00 per case; full thousand lots, \$175.00 per 1,000.

FERNS

We have an exceptionally nice lot of ferns in the following varieties,—good, bushy, well-grown plants that will please the most critical buyers. Plants have been grown in pots, and are thoroughly well established and nicely finished.

Nephrolepis Bostoniensis and Piersoni, 6-in. pots.....\$0.50 each

Nephrolepis Elegantiissima, Piersoni, Bostoniensis, and Harrisii, heavy 8-in. plants.....\$1.00 to 1.50 each

Nephrolepis Elegantiissima, Bostoniensis, and Harrisii, heavy 10-in. plants 2.50 each

THE LATEST SILVER MEDAL ROSE

The new Sargent rose, originated by Jackson Dawson, now offered for the first time for fall 1912 delivery

This seedling combines the good qualities of R. Wichuraiana, R. Crimson Rambler and R. Baroness Rothschild which have been used in its evolution. The flowers are single, about three inches across, pale rose in color and produced in greatest profusion in pyramidal clusters all along the strong branches, blooming from the middle of May till end of June. The foliage is a beautiful glossy green and remains in good condition till late fall.

As this stock is limited book your orders early. \$1.50 each

Boddington's "Quality" Tulips

Decoration-Day or May-Flowering, Darwin, etc.

Live, up-to-date and progressive, we might say aggressive, florists are planting more and more every year, the above useful and profit-bearing Tulips—because once planted they bloom from year to year with increasing value. With their immense flowers and long stems, (sometimes nearly three feet) and variety of colors, they sell as quickly again as the early varieties and come at a season when they are always welcome.

	100	1000
Bizarres. Handsome, rich flowers, with yellow ground, feathered or striped with crimson, purple and white; finest mixed.....	\$1.00	\$9.00
Bouton d'Or. Has deep clear yellow, globular, medium-sized blossoms, with curious black-anthered stamens.....	1.00	8.75
Bybloems (Violets). Late Tulips with white ground, blotched, striped or feathered with lilac purple, violet, blue or black; finest mixed.....	1.25	10.00
Bybloems (Roses). Superfine mixed.		
\$1.25 per 100; \$10.00 per 1000		

Darwins. Very large flowers of good shape, on tall, strong stems; for brilliancy of color they surpass any other Tulip; they include every known shade from the lightest tint to the brightest hue; finest mixed.

85c. per 100; \$7.50 per 1000

Gesneriana macrospila. Crimson-scarlet, black and yellow center.

85c. per 100; \$7.50 per 1000

Golden Eagle. A showy and attractive variety, color a rich deep yellow red. It blooms about the same time as Gesneriana major.

85c. per 100; \$7.50 per 1000

Golden Crown. Is a showy and attractive variety, with a rich deep yellow color, and the petals edged and tinged with red. It blooms about the same time as Gesneriana major.

75c. per 100; \$6.00 per 1000

Parisian White. Rich lemon-yellow, with deeper center.

\$1.25 per 100; \$10.00 per 1000

Royal White. Pure white.

\$2.00 per 100; \$18.00 per 1000

Vitellina. Pale primrose, passing off to pure white, a tall and exceedingly handsome variety.

\$1.75 per 100; \$15.50 per 1000

Boddington's "Quality" Superfine Mixture May-flowering Tulips, for acclimating, and for planting in herbaceous or shrubby borders.....

\$0.75 \$6.50

CHOICE MAY-FLOWERING, OR DECORATION-DAY TULIPS

	100	1000
CALEDONIA. Bright orange, very beautiful variety.....	\$1.25	\$10.00
GESNERIANA IXIODES. Beautiful yellow, with black center.....	4.25	40.00
ELLEN WILLMOTT. Undoubtedly the finest May-flowering Tulip; flowers very large, beautiful form and of a soft creamy yellow; very fragrant.....	4.50	42.00
INGLESOMBE SCARLET. Very brilliant scarlet black base; a grand variety.....	1.75	16.00
INGLESOMBE YELLOW. A large canary yellow flower of perfect form, glossy and very beautiful.....	5.75	55.00
PRIMROSE BEAUTY. Color soft primrose, changing to white.....	3.00	28.00

Darwin Tulips

(To Name)

Darwin Tulips are among the most varied and beautiful of all the late Tulips. Planted in the border they come into flower in late May and June. Flowers are large and borne upon tall, erect stems. Like the May-flowering Tulips they are indispensable for Decoration Day.

Ant. Roozen. Large flowering; rosy pink.
\$3.00 per 100; \$27.50 per 1000

Bronze Queen. Extra-large flower light yellow.
\$2.25 per 100; \$20.50 per 1000

Baronne de La Tonnaye. Clear rosy carmine.
\$1.50 per 100; \$14.00 per 1000

Dream. Soft lilac.
\$1.75 per 100; \$15.50 per 1000

GLOW. Brilliant growing vermillion, center blue, margined white.
\$1.80 per 100; \$17.00 per 1000

King Harold. Purple-red; very unique.
\$1.75 per 100; \$15.50 per 1000

Loveliness. Soft rosy carmine; exquisite color.
\$1.75 per 100; \$15.50 per 1000

Mrs. Krelage. Large flower, soft rose, margined blush; very beautiful.
\$2.75 per 100; \$26.00 per 1000

Painted Lady. Creamy white.
\$1.75 per 100; \$15.00 per 1000

Pride of Haarlem. Rose with blue base; flowers of great size and fine form.
\$2.00 per 100; \$18.00 per 1000

Rev. Ewbank. Vivid heliotrope-lilac, slightly bordered.
\$2.50 per 100; \$22.00 per 1000

Darwins, Mixed. All colors, in splendid variety.
85c. per 100; \$7.50 per 1000

ARTHUR T. BODDINGTON, Seedsman, 342 West 14th St. NEW YORK CITY

Seasonable Notes on Culture of Florists' Stock

CARE OF CATTLEYAS

All Cattleyas that have flowered during the latter part of the summer, such as *C. bicolor*, *C. granulosa*, *C. gigas*, *C. Gaskelliana*, *C. Harrisoniae*, *C. Eldorado*, *C. Loddegesii*, *C. Luddemanniana*, *C. Leopodii* and *C. Schottfeldiana*, and have had a good rest should be given new compost. It is better to wait until the new growths begin to show with new roots just pushing before re-potting. This is the best time to overhaul these orchids, for at this stage they become quickly re-established in their new compost. As to the best potting material to use there is a diversity of opinion. While some still like to use soft fibrous peat and live sphagnum moss intermixed, others prefer clear osmunda fibre; they can be grown good with either. Give the pots or baskets half their depth of crocks with some charcoal to insure good drainage. When potting bring the new compost well up to the base of the pseudo-bulb and see that they are potted moderately firm. If any portion of the plant should be unsteady and sway, tie the pseudo-bulb to a neat stake, for a plant lying loose will never do well. Give them a shady part of the house for a little while and keep the floors and benches well damped down so as to have sufficient moisture in the atmosphere. When they begin to take a hold of the new compost little or no shading will be needed until the sun becomes more powerful. Be exceedingly careful in watering now as very little will be required at the roots until later on, but syringe over the plants once or twice a day in fine weather and give them a temperature of from 55 to 58 degrees at night.

CINERARIAS

The early plants that are now in 6-inch pots with the flower stems well advanced should be attended to with manure water about once a week as they like a liberal supply to meet the quick growth and free-rooting which soon exhausts the soil in the pots. Give them sufficient room between the plants to prevent them from getting drawn. Syringe the plants overhead on all fine days until flowers begin to open, and keep the paths and material on which the pots are standing, damp, as they dislike a dry atmosphere. Those that are intended for Christmas should be kept in a temperature as near 45 degrees as possible; anything higher will ruin your crops. All those that show a disposition to be later can be given a temperature of about 40 degrees which will bring them into flower during January and February. Seed that was sown from August 15 up to the first week in September and grown in flats should now be ready for 3-inch pots. Use a soil composed of three parts of fibrous loam and two of leaf mold with a good sprinkling of sand for the first potting. Keep close for a few days until the roots take hold of the new soil, when they should be given a place near the glass in a house where the temperature runs near 40 degrees at night. Never let them approach anything like a pot-bound condition before giving them a shift, until flowering size is reached. For the second potting and others that are to follow leave out all leaf mold, but give them a rich compost of two-thirds fibrous loam to one-third of well-decayed cow manure with a dash of guano and soot. Fumigate often for the aphids.

BOUGAINVILLEAS

We have now come to the season when these plants should have their necessary rest in order to ripen up their growth, which is essential for good results. From

now and during December water should be withheld until the plants show signs of flagging and then only a little should be given—just enough to freshen them up—but do this gradually until only enough moisture exists in the soil to prevent their becoming absolutely dry which would endanger them. Keep the atmosphere cool and dry by free ventilation whenever possible. Such treatment will greatly assist the wood in maturing to the proper condition for forcing later on. They should be kept in this state until the close of the year and in a house that has a night temperature of 50 degrees until they are started into active growth when they should have 60 to 65 degrees at night.

FORCING IRISES

When forcing a batch of Spanish irises let them be grown cool, as they will not stand anything like forcing hard. The general temperature demanded by these plants are a night temperature of 40 to 45, with 10 to 15 degrees more during the day with sun heat. The general practice is to grow them in flats 4 or 5 inches deep, using a rich compost of two-thirds well-decayed sod and about one-third of well-rotted manure. A flat 12 by 24 inches will hold 45 to 50 roots. There is an advantage in planting them in flats as they can be moved around at will and also be kept in a frame until wanted for forcing. The soil should never be allowed to become dry as they always want a copious supply of water. Be careful not to give heavy fumigations where they are as it will cause the ends of the leaves to turn brown. As growth starts give them some weak liquid manure once a week.

LILY OF THE VALLEY

Newly imported pips that are arriving now should be secured and repacked in an upright position into boxes, placing some sand or soil under, over and between the bunches; this will make handling better, when bringing them in. The most convenient place for these boxes is a cold frame where they can remain until wanted for forcing. After placing them in the frame give them a good watering. When the weather gets colder place some sash over them and also cover the tops with 3 or 4 inches of hay or straw. This will lessen time and labor when they are brought in. These pips cannot, with any success, be forced before the beginning of the New Year. For the December crop of flowers cold storage pips should be relied upon. Pips that are intended for cold storage should be boxed up not later than February as they must be in an absolutely dormant condition when they are removed to the cold storage plant.

POTTING SOIL FOR THE WINTER

Now is the time to prepare some potting soil for winter use. Soil that was piled up in July with a layer of manure and a layer of sod and chopped down with two or three good turnings so as to thoroughly mix the whole mass into the proper shape will do for most of your plants. Make it up now to have a good pile of this soil, and when needed spread under cover where it can be kept in a dry condition. When left out in the open, it gets saturated with water and then keeps in a frozen condition for weeks, requiring some little time to dry when brought in in that condition. So seize the opportunity now and lay in a good supply for potting.

John J. M. Farrell

Mr. Farrell's next lecture will be on the following: Allamandas; Azaleas; Begonias; Camellias; Herbarious Borders, Etc.; Cyclamens; Lilacs; Spachulias; and Double Roses.

From all the accounts that have reached us it would appear that the fall shows have come off well this season in most places. One or two exceptions only have been noted. In fact, great progress has

been made in some instances as in the case of Providence and Philadelphia, where local apathy had prevailed for a number of years. Where there is indifference it is usually not difficult to find a cause. In both of the places above mentioned it seems to have been due in large degree to an absence of concert and the co-operative spirit between the commercial and amateur elements. There are other organizations where the same lack of a common purpose between these wings of the membership is unquestionably retarding progress and working to the disadvantage of these societies and against the best interests of horticulture. These interests can only be nourished and strengthened where florists, gardeners and amateurs stand shoulder to shoulder in the work that societies should do, each recognizing in the fullest sense the indispensability of the other.

Vicissitudes of the flower market

Wholesale flower market reports this week reflect the sudden and very severe weather which during the past few days has overspread practically the entire country. While these blizzards are anything but comfortable to face, and while they make a gaping hole in the coal pile, yet there is probably no flower grower or wholesale dealer who does not welcome their coming, for they do much to place the market on a substantial basis and to establish prices approaching winter values, which once started are pretty sure to have some permanency. Two distinct facts seem to be brought out by this year's experience. One is that the single and pompon chrysanthemums are coming in to a much greater popular appreciation for cut flower uses. Men of good artistic perception have anticipated this for a number of years, but the change was slow in coming and the craze for bigness has died very hard. The other noticeable feature in the flower demand is the widespread interest in the new roses, of which several have already made, or are about to make, their debut—and the newer and more novel the new comer the more it is wanted. It is not so very long since it was charged that the custom of the retailers was to discourage the introduction of new varieties of roses and of the growers to exercise timidity and caution in touching them. That the sentiment has changed must be a great satisfaction to the introducers and the outlook for their hitherto poorly-requited efforts is a great encouragement for them. Henceforth the carnation and the chrysanthemum will have to share a good slice of the novelty market with the Queen of Flowers.

Prepare Now

for our Seventh Anniversary and Holiday Number. As heretofore it will be a worthy exponent of horticulture in its best sense, well filled with the sort of reading matter that will command perusal. That is the kind of paper which is of the highest value to the advertiser and we hope the trade will respond generously to this call for early advertising orders. The issue will be published under date of December 9, but all advertising space should be secured and copy in our hands not later than December 4, and as much earlier as possible.

Write Us About It Now

Fruit and Vegetables Under Glass

CLEANING PEACH HOUSES

A peach house should have a thorough cleaning before starting, similar to what we advocated for a vinery in last week's issue. The coming of the trees themselves, naturally, is different. Houses intended for starting December 1st, should now be pruned and all the old ties cut away, separating the trees from the wires entirely; they can be tied up roughly to the main branches to get them out of the way. When growing on the old system of a trellis near the glass it will be found necessary to bundle them together before commencing to wash the house down. This latter job is not one of the pleasantest and helpers are apt to miss so much at times that this must be watched, as a little red spider left in a corner is sufficient to stock the house next season. Providing the trees are clean, a spray over with some approved insecticide as a preventive is all that will be necessary. Should any pests have been troublesome, now is the time to wage war against them. Tie the trees in again, taking care each growth has sufficient room to swell where the tie encircles it. A tight tie now will result in a cut growth before next fall. Where the stronger wood comes in contact with angle irons or other stronger parts of the trellis, a piece of wood or rubber should be placed between them. Old hose cut through the center answers this purpose well. This will serve as a non-conductor, as those parts of a trellis get very hot during the hot weather and a branch continually pressing on them soon commences to "gum," causing a loss of sap. As the new wood is being replaced it affords an opportunity to check the pruning, i. e., if the growths appear to be crowded and if there is insufficient room for next year's growth cut some more of them away. A crowded tree is unsatisfactory in every way. Tying and training a peach or nectarine tree is quite an art to get them to perfection and repays any time spent in this direction during the winter season. Trees that were root-pruned previously will have their borders in shape, others that have not been done must have any mulchings carefully removed and will be benefited with a top dressing of new soil. Remove an inch or two of the existing top soil, taking care not to injure any fibrous roots which may have been drawn to the surface by the mulching and replace it with new. A peach does not require a rich soil but it must be porous. Old bricks broken up small will be an acquisition to any heavy soil for this purpose. Keep the houses as cool as possible until time of starting. It does not damage any inside peach to let them have several degrees of frost. The 1st of December is the earliest date advisable to start trees into growth; even then trees in pots will respond to treatment quicker.

POT VINES

As the amount of frost increases and there is danger of more than twelve or fifteen degrees being registered, pot vines should have protection for the remaining few weeks before starting. A cold house will do for them but it is not necessary that they should go under glass. A barn will answer the purpose well. Mice are very partial to the bark of the vine during the winter months when other food is scarce. Vines must not be forgotten on this account and they will also require a little water. Keep them on the dry side but not dust dry.

CHICORY

Chicory will now need storing away where it is accessible during the bad weather. A cool cellar or barn

where it can be covered over with earth to prevent shrivelling will answer the purpose well. A batch can be started to force, providing it has already tasted a little frost. Like all other roots being forced into growth it enjoys a little bottom heat. Growth is so much quicker and better that it pays for the extra amount of labor entailed. Chicory is not at all particular as to its position. Dark corners, underneath benches or in cellars, all come alike to it so long as a good moist heat is given. Sixty is a suitable bottom heat with an atmospheric temperature of 55 to 60 by night, with an advance by day. Plant the roots in the soil the same depth as they were in the garden. Large pots are sometimes used successfully to force chicory. These are placed near a heating pipe and the back of soil soon attains a sufficient heat to promote growth.

ASPARAGUS

Asparagus clumps intended for forcing must not be allowed to freeze up so that it is impossible to move them, although so much frost they must have. With a severe spell setting in either lift enough roots and store them or spread a good thickness of straw manure over the bed.

TOMATOES NOT SETTING

At this time of the year with short days and little sun heat, tomatoes sometimes refuse to set their fruit, certain varieties being greater offenders in this respect than others. Should they show this falling off keep the house a little dryer and also the roots. Give just enough water to keep the plants in a healthy condition. Where setting has been real bad resort to a soft-haired brush, distributing the pollen with it each day about noon, when the house is dry and has air on. Bad setting, as a rule, can be traced to too much humidity in the air. Lessen this and raise the vents a little more. Give each plant a shake each day about noon and there should be no trouble in this respect. This method of shaking the vines is making sure of a set during the bad weather.

STORING WINTER CABBAGE

Before the very severe weather sets in make provision for protecting winter cabbage. State and locality must govern and modify the extent of this, as it does all things written about. What is good for the goose is good for the gander too, the old proverb says, but I guess he can put up the stiffest fight, so we have to make some allowance. Some lean them on their sides, others bury a quantity together while cellars are requisites of others. When using the latter keep them cool and admit some air.

George H. Benson.

A Superb Cattleya

Our cover illustration this week depicts a specimen Cattleya hybrid which the owner, W. A. Mania of South Orange, N. J., informs us is the largest in cultivation. It has opened one hundred and forty-six flowers this year, all large and beautifully colored, most of the growths carrying from four to five flowers each and some six. As the picture shows it is a beautiful well-proportioned plant, all in one piece and it is surprising that it should be so large a plant and at the same time so fine in size and color of flowers.

THE EXHIBITIONS

MASSACHUSETTS HORTICULTURAL SOCIETY.

The Autumn Exhibition at Horticultural Hall, Boston, presented quite a different aspect to the visitor as compared with the corresponding shows a few years ago. No longer can it fairly be called a Chrysanthemum Show for while these are still largely represented yet they do not by any means predominate. In the plant classes there was practically no competition. Only one exhibitor appeared in the specimen bush plants which in the past were regarded as a distinguishing and unrivalled feature of the Boston exhibition. It cost that exhibitor \$150 to transport his six plants to the hall! On chrysanthemum cut blooms the short stem classes are almost extinct, the long stem classes barely hold their own and the singles have become more numerous. But, while all this is true and while the halls looked rather "thin" in spots because of the absence of the accustomed long ranks of enormous blooms, yet the show was a notable one in some respects and presented more than the usual proportion of novel-

ling begonia (*B. incarnata* × a tuberous rooted variety), flowers gorgeous crimson, 2 to 3 in. across; foliage massive, *incarnata* habit of plant. To Duncan Finlayson for *Cattleya bicolor* × *C. labiata*. To C. H. Totty for rose Sunburst. To Thos. E. Proctor, gard. James Marlborough, for seedling chrysanthemum Emmy Lou.

Honorable mention. To Strout & Co. for light pink seedling carnation (*Beacon Victory*). To E. S. Webster for *Celosia Thompsoni* pyramidalis. To H. H. Barrows & Son for *Nephrolepis Whitmani* var. compacta. To A. A. Pembroke for light pink carnation Beverly.

The sole exhibitor of specimen bush chrysanthemums was Thos. E. Proctor, gard. Jas. Marlborough. They were very fine, among them being Mayor Weaver—which won the silver as best plant in the show—and Emmy

and W. W. Edgar Co. a fine group of cyclamen and Lorraines.

In the cut flower section E. A. Clark, gard. Alex McKay, swept all the prizes but one on the vases of ten long-stemmed chrysanthemums. His best were Rose Pockett, Leslie Morrison, Col. Appleton, Mrs. Wm. Duckham. James Nicol scooped one 1st here. Mr. McKay also won out on the mammoth vase of seventy-five long-stemmed flowers with a superb exhibit, W. W. Edgar Co. winning 2nd and 3rd. Twelve Jap. Incurved and twelve reflexed, H. E. Converse. Pompons, E. K. Butler, 1st, P. B. Robb, 2nd. Singles, Geo. Page 1st, W. A. Riggs 2nd, H. E. Converse 3rd.

The table decorations were by Ed. MacMulkin, Sidney Hoffman and Mrs. E. M. Gill, who won in order named. MacMulkin's flowers were Garza and yellow pompons, with adiantums. Hoffman had bronze and yellow pompons and "baby" pompons. Mrs. Gill used Garza and yellow pompons.

James Wheeler showed some handsome antirrhinums, R. Engelman, carnation Heart of the Berkshires, Mrs. Gill, display of chrysanthemums,

Specimen Plants at the Boston Show.

ties and novel features. To best illustrate this fact we shall begin this account where we generally end—that is, with the awards of special medals and certificates.

Silver medal to E. S. Webster, gard. Wm. Downs, for Begonias Elatior and Winter Cheer. They were grand.

Cultural silver medal to James Nicol for vase of chrysanthemum Mrs. Jerome Jones. This was simply superb.

Bronze medal to Wm. Sim for display of pansies. Here were over 500 enormous blooms of the highest strain and covering an endless range of colors and markings, each flower in an individual bottle hidden under the flat white surface on which they were displayed. They created a sensation.

Certificates of merit. To George Melvin for hybrid *Solanum Capsicum capsicastrum* Melvini, fruit orange, somewhat pointed. To S. J. Reuter & Son for rose Improved Double White Killarney. To A. N. Pierson for Killarney Queen and Double White Killarney. To E. H. Wetterlow for seed-

Lou, which was certificated as a seedling. Wm. H. Elliott was the only exhibitor of 25 plants, commercial specimens. These were, as usual, excellent. H. E. Converse, gard. D. F. Roy, was 1st on single flowering varieties and Mrs. Lester Leland, gard. E. H. Wetterlow, 1st on 6-stem plants.

Ed. MacMulkin put up a mammoth group, 300 sq. ft. of foliage and flowering plants, splendidly arranged. This took 1st and a similar group from W. W. Edgar Co. took 2nd. On Kentias Wm. Whitman 1st, and on Arecas Mrs. Frederick Ayer 1st. The orchid groups were a great attraction, the exhibitors being Wheeler & Co. who won 1st, with a beautifully arranged display, Paul de Nave, 2nd, and J. T. Butterworth 3rd. In addition to the foregoing, Thomas Roland made a fine display of choice foliage and flowering plants, Mrs. Francis Peabody a group of Begonia Gloire de Lorraine, W. T. Walke an artistic pyramidal group of Begonia Gloire de Lorraine, Mrs. F. Ayer, variegated pine apple

Strout & Co. and A. A. Pembroke, carnations in variety.

The fruit display was very extensive and was finely set off by a generous display of fruiting shrubs contributed by Superintendent Pettigrew of the Boston Park Department.

WORCESTER COUNTY HORTICULTURAL SOCIETY.

The annual chrysanthemum show of this Society, held at Worcester, Mass., on November 9-10 is recorded as the best as to quality and artistic arrangement ever seen in Worcester and the attendance surpassed that of any previous occasion. The lay-out was planned by and carried out under the direction of the president E. W. Breed. Among the principal exhibitors and prize winners were H. F. A. Lange, Geo. W. Knowlton, Mrs. John C. Whitin, E. W. Breed, Worcester Conservatories, John Gunn, Chas. D. Mackin and Charles Potter. There was a good display of apples in the fruit section.

FALL SHOW IN PHILADELPHIA.

Great efforts were made this year by a committee from the Pennsylvania Horticultural Society and Florists' Club of Philadelphia to bring the Annual Fall Show up to the standard that used to prevail a dozen years ago before the time honored P. H. S. institution had sunk into "inocuous desuetude," or, in other words, to the point where even its own elected president for the year called its exhibitions a farce and a disgrace; and, it must be said for the committee, that in spite of every discouragement possible, they succeeded far beyond what anyone could have hoped for. The show last week is away ahead of anything we have had in recent years in quantity, quality and arrangement, and indicates clearly that if the path mapped out by the present committee is faithfully followed greater things may be confidently looked for. We think the committee well deserves the full measure of public appreciation implied in the words "well done, good and faithful servants."

In the brief space at our disposal we can only touch on a few of the chief features, and if any good thing has gone unmentioned our readers are assured that any such omission is unintentional and purely an oversight.

Bay trees and conifers were freely used in front of the hall and at the various doorways. A liberal contributor to this was the W. H. Moon Co. Edward A. Stroud had four fine groups of hardy single chrysanthemums massed between and at sides of these entrance doorways, a most valuable attraction. These were all his own seedling varieties and were worthily honored with a silver medal. Among the most striking in this collection we may mention Mary Colladay, a pink of the Garza type, Mikado, a bright yellow, and Janet Hay, a lovely white. The beautiful central

stairway was finely adorned with specimen plants of prize winners, and to the right and left of the entrance many interesting things. The new roses on this vantage point compelled everybody to stop and look them over. The cynosure of all eyes was the sensational new one sent down by Alex. Montgomery from Massachusetts, Mme. Chas. Russell, the first time this has ever been seen here; a glorious cerise pink flower, gigantic in size, on four-foot stems, cup shaped, fragrant, and as large as the best American Beauty. It has splendid dark, glossy, leathery foliage. We do not know the parentage, but they say that Dr. Huey says that it is a cross between Mrs. Jardine and American Beauty. The Pennock-Meehan Co. exhibited their great new varieties, the Double White Killarney and Killarney Queen—of the Budlong strain; that is of the Double White Killarney, as this has sported in more than one place, but the Budlong strain is vastly superior. A fine new crimson-scarlet carnation, Miss Dimple Widener, from the expert hands of that good all-round gardener, Wm. Kleinheinz, looked like a winner and worth investigating by our commercial experts.

Passing to the left before ascending the stairway we come to two miniature gardens—one by an amateur (Herman van Gloeden), the other by a commercial florist (Adolph Mueller). The van Gloeden design was most artistic and suggestive, and contained many features of a highly educational nature, and well deserved the special premium awarded. C. F. Krueger made a good display of filled window boxes in various styles, suitable for mild fall and summer temperatures, the plants used being mostly chrysanthemums, crotons, pandanus, ferns, etc.

The main stairway was lined on both sides with specimen chrysanthem-

ums in pots, mostly taken from the prize winning groups, a commendable idea from spectacular viewpoint, but according to the schedule meant that a flower show meant to show us the difference between good, better and best culture? Are we Barnum to get the pennies or a pathfinder showing the road to higher things in Horticulture? If you want to be both at the same time you ought to be able to devise a way of doing it without bursting up your groups.

Well grown plants of Mrs. Frank Thompson graced the foot of stairway—one at each side by the two Davids; David Ingram and David Aiken. This Thompson variety is outclassed long ago. Let the generous donors of the prize offer it for a newer and better variety and thus encourage improvement.

The judges had a hard job deciding between the two magnificent exhibits at middle landing of stairway—25 blooms with foliage, vase arranged for effect, it was nip and tuck between Kleinheinz and Robertson. Both were magnificent. Here also appeared the best twelve of that fine variety, Lynwood Hall, grown by T. Gaynor, who has the distinction of being about the only gardener in the show representing a title—his employer being the Countess Santa Eulalia. Above this was massed a group of Cibotium Schiedei which was awarded a certificate of merit. This came from Dreer's. Further up the stairway we noticed some fine flowers from Tom Holland, Berwyn, and a first prize vase of bronze from Joseph Pratt—no name to them—a grave defect not only on this but all over the show. We have danced and raved and gesticulated and hurled insults and invective at friend and foe alike for many years on this point yet the supposedly intelligent multitude pass on unheeding just as if they were all members of a deaf, dumb and blind asylum. What's an exhibition for if it doesn't tell people the names of things? Some day we shall buy us a meat axe and use that instead of our gentle pen. John Kuhn had a couple of splendid vases of Yellow Chadwick not for competition. Axel Lindroth made something of a name for himself in various classes notwithstanding his odd patronymic, and Frank Birnbrauer sent some excellent pink antirrhinum. And now, among the tang and haze of the fall chrysanthemums we come on a Sunburst. This one is the Sunburst rose from C. H. Totty. A big flower, lovely color like pale sherry blended and shimmery with lively tints of white, blush and orange, the general effect being at just before the dawn. Edward Towill exhibited a new crimson rose—after the style of Richmond but larger and more fragrant. It is a cross between Mrs. J. B. Clark and Richmond, the former being the seed parent. A wonderful keeper, Mr. Towill says. Its fragrance is delicious almost as fine as American Beauty in that respect. Cultural certificates were awarded to groups of Ananas sativa variegata and Araucaria robusta coming from Dreer's. Fine and showing the highest perfection in culture. Robertson and Batchelor have exhibited themselves on two hardy chrysanthemum groups trained for effect with foliage, flowers and fruit. We think Robertson had the best stuff, and his arrangement was more open

Vase of Mrs. Jerome Jones at Boston Show.

and artistic. Even at that it could have been still more open and pleasing. Don't crowd! W. F. LaCroix sent in some beautiful white blue-splendid for so early in the season. Cut heliotrope—a big vase came from Louis Burk. There were a number of standard heliotrope plants in pots that kept finely.

One of the most striking things in chrysanthemums was Wm. Turner. It was a moot question whether this or Mrs. David Syme was the best as a fancy white. Robertson says that Turner will give a bigger percentage of perfect blooms but that Syme is earlier, so it seems to be a case of—we want them both. Other good ones in this connection were Tarrytown, a bluish pink, Fair Acre, a pale lemon and Glen Cove, pink.

The Widener collection of orchids was one of the best things in the show outside of the unique Burk exhibit in that section. Alphonse Perlat also put up a fine orchid display in which were some rare hybrid cypripediums but the hero of the occasion in orchids was undoubtedly Louis Burk. Nothing quite as good has ever been done here before. There were 52 varieties in glass case specially built for the occasion, occupying the entire east end of the main hall, electric lighted, mixed with ferns and foliage, numbered and labelled, and with a numbered catalogue hanging outside so that he who ran might read. The whole story was there and everybody who came along got it all plain, simple, correct. We felt like turning somersaults with joy to see all our cherished ideals about naming and so forth so beautifully carried out and on so fine an exhibit. If plastered from top to bottom with highest awards it would have but poorly expressed our feelings. A million welcomes and a hundred million hosannas, Mr. Burk, on your maiden appearance.

The center of the main hall contained the groups of foliage and flowering plants—all well done and very attractive, especially the middle group of crotons by John Hobson, big plants beautifully grown, and with smaller specimens round the margin by the Robert Craig Co. Penfield, Burk, Pepper, Newbold, were all prominent in this section.

The front of the stage was as usual occupied by Dreer with a general collection of new and choice foliage plants among these being the new Farleyense, Glory of Mordrecht. This group was awarded a certificate of merit, with a special on the Glory and a similar award was made for a splendid group of Phoenix Roebeleni. Specials were also awarded to Newbold and Wanamaker for well grown plants of single chrysanthemums. The Newbold lot had three very striking sorts, namely Ethel Beir, red bronze, Mersham, light bronze and Sylvia Slade, a bright crimson with a narrow band of white around the yellow center.

Julius Roehrs showed his appreciation of what horticulture in Philadelphia is worth, by sending a hatful of orchids. If a thing is worth doing at all it is worth doing well. Julius—take it from us—the fault does not lie with Philadelphia entirely. Of course you have had some sad experiences—but this year was different. J. A. Muller represented the firm.

Tom Long came along with a good collection of specimen foliage plants. Labels not very good, but better than Dodd's or Wanamaker in same classes. Wanamaker and Drexel must be awful hard up if they can't afford a few cents for proper card markers. In the middle of the foyer the Pepper group of foliage and flowering plants were an attraction and deservedly won a prize. The arrangement was artistic and above the average. Wanamaker came in here on another section and won first with a distinguished and select collection. For big specimen foliage plants Widener was away ahead. McFadden took the honors in marantas. What is ananassa salvia variegata? This appeared in a Penfield exhibit, class 84. Far be it from us to suggest that this may be only another instance of sloppy spelling, and thereby disseminating misinformation. In cut carnations Widener and Wanamaker divided the honors. Mrs. C. W. Ward was the star in both lots.

John Welsh Young exhibited a vase of Double Pink Killarney in a frame. Was this in honor of the flower or of the exhibitor? Both are good; but was there any good reason for a frame for either? If we chopped off monarchy to make us all democratic, why assume frames to give adventitious value? John, why not let your flowers stand alongside the other fellow's, naked and unashamed, and let them be judged on their merits?

In the lower hall the most striking eye catcher was a model conservatory erected by the Lord & Burnham Company, showing what they can do for \$500.00, including heating and everything complete. This was further made attractive by being filled with a nice collection of foliage and flowering plants. Outside the structure was bordered with a flower bed scroll of hardy chrysanthemums, the latter work being executed in fine shape by the H. F. Michell Co. In this lower hall the usual displays were made by the leading seedsmen. These consisted of bulbs and sundries, mostly. Waterer's, Dreer's and Michell's were the most attractive of these exhibits. The Amon Heights Nurseries put up a display of hardy chrysanthemums. The sign did not give the address of this concern, which would have helped them some if they had taken advantage of their opportunity. Devon, Meehan, Michell and Burpee each showed elaborate collections of hardy chrysanthemums. The latter exhibit was especially fine containing many rare and beautiful varieties. It was labeled the Burpee new and improved strain, and the card stated that the flowers had been grown on plants produced from seed sown last March. That fact, so plainly stated, was of high educational value to the average visitor, and it seemed to surprise many to learn that this beautiful hardy perennial could be flowered the first season from March-sown seed. The latest in lawn mowers, "The Graham," was exhibited by the Philadelphia Lawn Mower Co. Fruits and vegetables were very fine.

Among the distinguished visitors from a distance were John Donaldson, Charles W. Scott, Henry Robertson, John Miesem, F. W. Kelsey, Patrick O'Mara, all of New York; George Stewart, Tuxedo; Robert Hurler, from Duke's, Somerville, N. J.; J. F. Hiss, of W. A. Simpson & Co., Baltimore,

Md.; Wm. Nicholson, Framingham, Mass.; Wm. Swayne, Kennett; R. Montgomery, Natick, Mass. Last but not least among the visitors was the Hon. John Wanamaker, who under the pilotage of John Dodds made a tour of the show, and was as keenly interested as a boy. It is seldom this busy man of affairs gets time to go to a flower show, consequently we were justified in looking on this as something of an event.

List of Awards.

Chrysanthemum Plants—Four plants, four varieties—1st, Mrs. F. C. Penfield, gard. John McCleary; 2nd, C. B. Newbold, gard. Samuel Batchelor. Three plants, three varieties, pink—1st, Mrs. F. C. Penfield; 2nd, C. B. Newbold. Three plants, three varieties, introduced in 1911—1st, Mrs. F. C. Penfield; 2nd, Mrs. Joseph F. Sinnott, gard. David Ingram. Specimen plants in not over fourteen-inch pots—1st, Mrs. George H. McFadden, gard. David Aiken; 2nd, Mrs. Joseph F. Sinnott. Specimen plant in not over fourteen-inch pot—1st, Mrs. F. C. Penfield; 2nd, Mrs. George H. McFadden. Six plants, one variety, in not over six-inch pot—1st, Mrs. F. C. Penfield; 2nd, John W. Pepper, gard. William Robertson. Eight plants, four each of white and yellow, one bloom to a plant—1st, P. A. B. Widener, gard. Wm. Kleinheinz; 2nd, Mrs. F. C. Penfield. Six plants, yellow, in not over six-inch pot—1st, Mrs. R. B. Ellison, gard. Axel Lindroth; 2nd, Mrs. Chas. Wheeler, gard. William Fowler. Six plants, any color, in not over six-inch pots—1st, Mrs. R. B. Ellison; 2nd, Mrs. Chas. Wheeler. Six plants of Old Gold, single stems—1st, Mrs. R. B. Ellison; 2nd, Mrs. Charles Wheeler. Six plants Mrs. Wm. Duckham—1st, Mrs. R. B. Ellison; 2nd, Mrs. Charles Wheeler.

Chrysanthemum Cut Flowers—Vase of six blooms Mrs. Frank Thomson: 1st, P. A. B. Widener; 2nd, J. W. Pepper. Four vases, five blooms each, white, pink, yellow, any other color—1st, John Wanamaker, gard. John H. Dodds; 2nd, P. A. B. Widener. Vase of twenty-five blooms—1st, P. A. B. Widener; 2nd, J. W. Pepper. Fifty blooms—1st, Mrs. F. C. Penfield; 2nd, J. W. Pepper. Vase of twelve blooms Lynnewood Hall—1st, Countess Santa Eulalia, gard. Thomas Gaylor; 2nd, P. A. B. Widener. Twelve blooms—1st, J. W. Pepper; 2nd, John Wanamaker. Six vases, six varieties, five blooms each—1st, John Wanamaker; 2nd, P. A. B. Widener. Display of hardy chrysanthemums—1st, J. W. Pepper; 2nd, C. B. Newbold. Vase of six blooms T. D. M. Cardeza—1st, J. W. Geary, gard. James Bell; 2nd, P. A. B. Widener. Vase of five blooms Beatrice May—1st, Mrs. R. B. Ellison; 2nd, Thomas J. Holland. Five blooms Colonel Appleton—1st, Mrs. Henry G. Stetson, gard. Joseph Pratt; 2nd, Mrs. Joseph F. Sinnott. Five blooms O. H. Broomhead—1st, Thomas Holland; 2nd, Mrs. R. B. Ellison. Five blooms—1st, Mrs. R. B. Ellison; 2nd, C. H. Clark, gard. James Slowey. Five blooms—1st, C. H. Clark; 2nd, Mrs. Henry G. Stetson. Five blooms—1st, Mrs. R. B. Ellison; 2nd, Thomas J. Holland. Five blooms—1st, Mrs. Henry G. Stetson; 2nd, Thos. J. Holland. Six blooms Mrs. Jos. F. Sinnott—1st, Mrs. George H. McFadden; 2nd, Mrs. R. B. Ellison.

HORTICULTURAL SOCIETY OF NEW YORK.

We present herewith a detailed report of the exhibits at the show in New York City, which we could not find room for in last week's issue. There was a total attendance of 45,000, of whom 26,000 attended on Sunday afternoon.

Chrysanthemum Plants.

John Canning, gardener for Adolph Lewishohn, put before the visitors three plants, the equals of which have never been seen in New York to say the least, and to which a special gold medal was awarded. For yellow, R. F. Felton, 10 ft. in diameter; for white, a 12 ft. specimen of Lady Lydia, said to bear 1200 flowers; and for pink, a 10 ft. plant of Annie Laurie. The seconds in these classes were won by Harry Turner, gard. for S. Untermyer, with smaller but elegant stock. His seedling bronze, No. 1, took 1st prize in the "any other color" class, and a 400-flower Garza won 1st in the anemone class. Wm. Cordes, gard. for F. V. Burton, won in all

the "Standard" classes and in six varieties grown to the flower, with J. C. Canning, 2nd.

Chrysanthemum Blooms.

Harry Turner won on 12 one's, pink, yellow and white, with O. H. B. second, F. S. Vallis and Mrs. D. Syne, 3rd, actively, and on "any other color" with Mary Mason, J. W. Everett, gard. to J. F. Pratt, being 2nd. On the classes for 18's, Robert Bottomley, 2nd, for W. H. Liscie, won in pink with F. E. Nash, J. W. Everett in yellow with Mary Donahoe, James Stuart, gard. for Mrs. F. A. Constable, in white, with Mrs. D. Syne and in "any other color" with Rose Pickett, J. W. Everett being second. On twenty-five varieties with 12-inch stem, James Stuart 1st, H. Turner 2nd, and on twelve varieties Alex. McKenzie 1st, H. Turner 2nd. Collection of hardys, H. Gaut 1st, P. W. Popp 2nd. Collection of singles, Jas. Stuart and J. W. Everett. Twenty-five varieties and on twelve varieties of pompons, W. J. Sealey and H. Gaut. C. H. Totty exhibited one hundred vases with one hundred varieties of single, pompon and anemone chrysanthemums. Splendid displays were also made by R. Vincent, Jr. & Sons, Thos. Meehan & Son, Scott Bros., Doubleday-Page Co.

five varieties. On the orchid spray classes, J. A. Manda, Wm. Cordes and F. P. Mossman were winners, the latter showing a six flowered spike of *C. labata*.

Decorative Plants.

100 ft. group flowering and foliage plants—1st, Harry Turner, 2d, 200 ft. Wm. Cordes. Display of *Neprolepis exaltata* and its varieties, F. R. Pierson Co. with fourteen varieties, all demanding place where ferns are used. Begonia Gloire de Lorraine 1st, James Rechs Co., 2nd, Wm. Reid, Celosia Thompson, W. Cordes. Twelve crotons, Chas. Webber, gard. to Mrs. J. Hood Wright, six do., Wm. Cordes. Specimen Boston fern; 1st, Harry Turner, 2nd, F. R. Pierson Co. Davallia, Chas. Webber, Rhapis, Wm. Cordes, 2nd. Geo. Glatras showed *Neprolepis Glatrasii*.

Roses.

In the rose classes, L. A. Noe won four 1sts, L. B. Coddington two, F. R. Pierson Co., one, John Dervan five. From A. N. Pierson came Killarney Queen and Double White Killarney. From C. H. Totty, Sunburst, and it made a sensation. On the fourth day they were still in glorious condition. The three novelties were each awarded a silver medal.

Specimen Chrysanthemum Lady Lydia at New York Show.

and P. W. Popp, all of which formed a great galaxy of surpassing beauty.

Orchid Plants.

As mentioned last week the orchids were the great feature. For collection not less than twenty-five species and varieties. Lager & Hurrell were 1st with a table of great beauty and rarity. They won out also in the novelty class for plant not previously shown before this Society with *Brasso-Cattleya x Imperatrice de Russie*. Wm. Cordes won the gold medal for collection of not less than twelve species. J. P. Mossman, gard. to Clement Moore, won on three hybrids with *Brasso-Laelia x Veitchii*, *Cattleya x Portia* and *Brasso-Cattleya x Portia* and *Brasso-Cattleya x Maronae*. Julius Roehrs Co. were second in this class with *Cattleya x Portia*, *Cattleya x Petersii* and *Cattleya x Princess*. On specimen hybrid Roehrs won with a grand plant of *Brasso-Cattleya x heatonensis*, which also won the silver medal sweepstake. J. P. Mossman was 2nd with *Brasso-Cattleya x Sedeni*. Wm. Cordes won the silver medal for two orchids showing highest excellence in culture. 1st on *Vanda coerulea*, six *cattleyas* and *laelias*, six plants six varieties, six *cypripediums* and three *C. labata*. Specimen *cattleya*, Lager & Hurrell 1st, Wm. Cordes 2nd. *Oncidium*, J. A. Manda 1st. *Cypripedium*, Edwin Thomas, with *C. insigne Sanderiae*, ten flowers. *Dendrobium*, Lager & Hurrell. Julius Roehrs Co. showed, not for competition, a splendid lot of commercial size orchids in bloom, for which a silver medal was awarded. Lager & Hurrell received a silver medal for a grand specimen of *Vanda Sanderiana*.

Orchid Flowers.

Joseph A. Manda won 1st on collection arranged for effect, with a very choice group well set up; Siebrecht & Sons, 2nd. Mr. Manda was first also on collection of *cypripediums*, of which he showed fifty-

old there last week. The only booth set up by the Retail Florists' Association, in which the different districts of the association exhibited during the week, but not for competition. Overing Bros., the Metropolitan Floral Co., C. H. Weber & Co. and Young & Sons Co. exhibited some pretty work in the booth. The St. Louis Park Department helped out greatly in filling up the big hall by making a great display at the south end of the hall of decorative and blooming plants. Gorman & Gorly were the only exhibitors for the Shaw prizes, and were awarded all the firsts. The weather was perfect throughout the week, but the paid attendance was as usual, not up to expectations. The judges for the week were Fred H. Bruenig John Steidle R. F. Tesson, C. Bergestermann and Jules Burdet. Visitors during the week were Richard Vincent, Jr., President-elect of the S. A. F.; George Asmus, President of the S. A. F.; H. E. Philpott, President of the Chicago Florists' Club; A. T. Pfyer, Phil Foley, C. W. Johnson, Guy Reyburn, Aug. Poehlmann, E. F. Winterson, Adam Zender and Tim Waters, all of Chicago; Wallace R. Pierson, Cromwell, Conn.; Elmer D. Smith, Adrian, Mich.; C. H. Totty and W. H. Duckham, Madison, N. J.; Geo. Jack, Springfield, Ill.; W. J. Vesey, Jr., Fort Wayne, Ind.; A. F. J. Baur, Indianapolis, Ind.; H. Balsley, Detroit, Mich.; J. D. Carmody, Evansville, Ind.; W. J. Gullett Lincoln, Ill.; Morris Levine, New York; J. A. Peterson, Cincinnati, Ohio; Andrew Vliad, Boston; James E. Jones, A. C. Mann, Richmond; C. J. Gaupp, Springfield, Ill.; J. F. Ammann and H. Blixen, Edwardsville; E. W. Guy, A. S. Halsted, C. Halsted, H. Edmunds, G. Grossoot, A. G. Fehr, Ed. Schoenberge, all of Belleville, Ill.

The society entertained the visitors with a banquet on Wednesday evening at the American Hotel, and the St. Louis Florists' Club took them in hand on Thursday afternoon to their meeting, after which a dinner was served at Lippe's, at which 81 attended, and it was a most enjoyable affair.

Prizes Awarded.

Display of decorative plants—1st, Wm. Schray & Sons; 2nd, C. C. Sanders; 3rd, Grimm & Gorly. Group variegated foliage plants—1st, Wm. Schray & Sons; 2nd, C. C. Sanders. 5 Kentias 1st, Wm. Schray & Sons; 2nd, Grimm & Gorly. 5 Arecas—1st, Koenig Floral Co. Specimen palm—1st, Wm. Schray & Sons; 2d, Grimm & Gorly. *Ficus pandurata* 1st, Koenig Floral Co. *Ficus elastica* 1st, Wm. Schray & Sons. 3 *Neprolepis Bostoniensis* 1st, Grimm & Gorly; 2nd, Wm. Schray & Sons. 5 *Neprolepis* 1st, H. J. Jenemann; 2nd, Wm. Schray & Sons. 18 bernal plants—1st, Koenig Floral Co.; 2nd; C. C. Sanders.

Carnations.

For fifty blooms Lawson shade, J. D. Cockeroff won with his seedling 310, which also won the prize for twenty-five of a variety not yet in commerce. Other carnation winners were Wm. Cordes and Max Schneider. C. H. Totty put up a large vase of *Wodenethe* and Chas. Weber his new Brooklyn, which received a certificate of merit. J. I. DONLAN.

THE ST. LOUIS FLOWER SHOW.

The Fifth Annual Flower Show opened its doors on Tuesday noon, November 7th, with a very nice display in all classes for the first day. The overhead decoration was of bunting and flags left over from a show

Display of Orchid Blooms by Jos. A. Manda at New York Show.

25 blooming plants, eight or more varieties. Chrysanthemums—Excluded—1st, Wm. Schray & Sons; 2nd, C. C. Sanders; 3rd, F. J. Fillmore & Sons. 12 Geraniums in bloom—1st, Koenig Floral Co.; 2nd, C. C. Sanders. Blooming plant, other than Chrysanthemum—1st, Koenig Floral Co.; 2nd, Wm. Schray & Sons. Fern Dish—1st, Wm. Schray & Sons; 2nd, C. C. Sanders. Pair standard bay trees—1st, Henry Young & Son; 2nd, Wm. Schray & Sons. 12 Begonias—1st, C. C. Sanders. Group Chrysanthemum plants to occupy 100 square feet with Ferns, Palms or accessories—1st, Wm. Bruecker; 2nd, Koenig Floral Co.; 3rd, C. C. Sanders. 18 Pompoms—1st, John Steidle; 2nd, Koenig Floral Co. 18 Anemones or single varieties—1st, Koenig Floral Co.; 2nd, C. C. Sanders. Specimen white chrysanthemum—1st, Grimm & Gorly; 2nd, Wm. Schray & Sons; 3rd, Koenig Floral Co. Specimen yellow—1st, Grimm & Gorly; 2nd, Koenig Floral Co. Specimen, any other color—1st, Koenig Floral Co.; 2nd, Chas. F. A. Steidle. Group of decorative plants, other than palms or ferns—1st, C. C. Sanders; 2nd, Wm. Schray & Sons. 25 Chrysanthemum plants, single stem—1st, Koenig Floral Co.; 2nd, C. C. Sanders. 12 plants, white chrysanthemum—1st, Koenig Floral Co. 12 plants, yellow—1st, Koenig Floral Co. 12 plants, any other color—1st, Koenig Floral Co. 5 plants, white—1st, Wm. Schray & Sons; 2nd, Koenig Floral Co. 5 plants, yellow—1st, Koenig Floral Co.; 2nd, Grimm & Gorly. 5 plants, any other color—1st, Koenig Floral Co.; 2nd, Grimm & Gorly. 3 plants, white chrysanthemum—1st, Wm. Schray & Sons; 2nd, Koenig Floral Co.; 3rd, F. J. Fillmore. 3 plants, yellow—1st, Koenig Floral Co. 3 plants, any other color—1st, Koenig Floral Co.; 2nd, F. J. Fillmore. Collection of hardy evergreens, twenty or more varieties—1st, C. C. Sanders. 100 blooms chrysanthemums, one variety in vase—1st, The E. G. Hill Co., with Chas. Razer; 2nd, Poehlmann Bros. Co., with W. H. Chadwick. 50 blooms, 5 varieties, 10 blooms in each vase—1st, The E. G. Hill Co.; 2nd, Elmer D. Smith & Co.; 3rd, Mt. Greenwood Cemetery Association. 4 vases carnations, 4 varieties, 50 blooms in each vase—1st, Chicago Carnation Co.; 2nd, A. C. Brown; 3rd, Poehlmann Bros. Co. 25 blooms of any new carnation seedling not yet disseminated.—Certificate of merit to Chicago Carnation Co. 25 blooms, white, introduction since 1908.—Certificate of merit to Chicago Carnation Co. 25 blooms, pink, introduction since 1908.—Certificate of merit to Chicago Carnation Co. 50 American Beauty Roses—1st, Poehlmann Bros. Co. 6 vases, 6 varieties Roses, 25 blooms in each vase—1st, Poehlmann Bros. Co.; 2nd, A. C. Brown. 25 blooms, any new seedling Rose, not yet disseminated.—Certificate of merit to A. N. Pierson, Inc., for Double White Killarney. 25 roses, pink, introduction since 1908.—Certificate of merit to Poehlmann Bros. for Dark Pink Killarney. 25 roses, any other color, introduction since 1908.—Certificate of merit to Poehlmann Bros. Co. Floral display, not less than four pieces—1st, Grimm & Gorly, design work representing the four ages. 25 blooms, chrysanthemums, white, one variety—1st, Elmer D. Smith & Co., with Naomah; 2nd, Poehlmann Bros. Co., with Chadwick; 3rd, W. J. and M. S. Vesey, with Lynwood Hall. 25 blooms, yellow, one variety—1st, Elmer D. Smith & Co., with Appleton; 2nd, Mt. Greenwood Cemetery Association, with Mary Donnellan; 3rd, Poehlmann Bros. Co., with Dolly Dimple. 25 blooms, any other color—1st, E. G. Hill Co., with Glenview; 2nd, Elmer D. Smith & Co., with Glenview; 3rd, Mt. Greenwood Cemetery Association, with Brutus. Display of pompoms—1st, E. G. Hill Co.; 2nd, C. H. Totty; 3rd, Mt. Greenwood Cemetery Association. Hammer of Chrysanthemums—1st, Grimm & Gorly. Table decoration—1st, Koenig Floral Co. 50 Chrysanthemums arranged for effect—1st, Koenig Floral Co. Handle basket of chrysanthemums (Retail Florists' Association Prize)—1st, Grimm & Gorly.

C. S. A. Prizes.

10 Chrysanthemum blooms of any one variety—Silver Cup to Elmer D. Smith & Co. for Naomah. 10 blooms, Mrs. Jerome Jones—1st, C. H. Totty; 2nd, Koenig Floral Co. 12 blooms in 12 varieties, introductions of 1910 and 1911 (Elmer D. Smith prize)—1st, Wm. H. Duckham; 2nd, Elmer D. Smith & Co. 3 blooms, Mrs. G. C. Kelly (Wm. Wells prize)—1st, Wm. H. Duckham; 2nd, 6 sprays of single Chrysanthemums—Miss Hilda Wells (Wm. Wells prize)—1st, David F. Roy; 2nd, Elmer D. Smith & Co. 6 blooms, F. E. Nash (Chas. H. Totty prize)—1st, Wm. H. Duckham. 6 blooms, yellow seedling, of American origin

View in the Cincinnati Show.

(Henry A. Dreer prize)—Special to Elmer D. Smith & Co., with Aesthetic. 6 blooms, white seedling, of American origin (Philip J. Foley prize)—Special to Elmer D. Smith & Co., with Nontero. 10 blooms, pink Chrysanthemums, of American origin (J. C. Vaughan prize)—Silver Cup to C. H. Totty—seedling from White Duckham. 6 blooms, crimson or bronze seedling of American origin (Peter Henderson prize)—Special to C. H. Totty for seedling No. 67. 10 blooms, any other color never before exhibited in this country. (Lord & Burnham prize)—Gold Medal to C. H. Totty for Annie L. Angus. 10 blooms Emberta (E. G. Hill prize)—Special to F. H. Lemon Co. Best 10 blooms—Special to C. H. Totty. 10 blooms, Golden Gem (E. G. Hill prize)—Special to F. H. Lemon Co. 30 blooms, 6 varieties and 5 blooms each (Hitcheings prize)—Silver Cup to Wm. H. Duckham. Chrysanthemums—50 blooms, 20 or more varieties—1st, C. H. Totty; 2nd, Elmer D. Smith & Co.; 3rd, The E. G. Hill Co. 25 blooms, 25 varieties—1st, W. H. Duckham; 2nd, Elmer D. Smith & Co.; 3rd, E. G. Hill Co. 12 blooms Chadwick—1st, Poehlmann Bros. Co.; 2nd, E. G. Hill Co. 12 blooms Emberta—E. G. Hill Co. 12 any other variety—1st, Poehlmann Bros. Co., with T. Eaton; 2nd, Elmer D. Smith & Co., with Naomah; 3rd, C. H. Totty with Lady Carmichael. 12 blooms Dr. Enguehard—1st, W. J. and M. S. Vesey. 12 blooms, any other variety—1st, E. G. Hill Co., with Wells Late Pink; 2nd, E. Smith, with Manhattan; 3rd, Mt. Greenwood Cem. Assn., with Mayor Weaver. 12 Golden Wedding—1st, E. G. Hill Co. 12 Maj. Bonaffon—1st, E. G. Hill Co.; 2nd, Poehlmann Bros. Co.; 3rd, W. J. and M. S. Vesey. 12 Col. Appleton—1st, Elmer D. Smith & Co.; 2nd, Poehlmann Bros. Co. 12 blooms, any other yellow—1st, E. G. Hill Co., with Yellow Eaton; 2nd, W. J. and M. S. Vesey with Golden Chadwick. 12 any other color—1st, C. H. Totty with G. C. Kelly; 2nd, E. G. Hill Co., with Pickett's Crimson; 3rd, Elmer D. Smith & Co., with Glenview. 50 Richmond roses—1st, Poehlmann Bros. Co. 50 Cardinal roses—1st, A. C. Brown. 50 Killarney pink—1st, Poehlmann Bros. Co.; 2nd, A. and H. Werner. 50 Killarney white—1st, Poehlmann Bros. Co.; 2nd, A. and H. Werner. 50 My Maryland—1st, Poehlmann Bros. Co. 50 Carnations, white—1st, Mt. Greenwood Cem. Assn., with Seedling; 2nd, Poehlmann Bros. Co., with White Enchantress; 3rd, A. C. Brown with White Enchantress. 50 light pink—1st, Poehlmann Bros. Co., with Enchantress; 2nd, Chicago Car. Co., with Pink Delight; 3rd, E. G. Hill Co., with Pink Delight. 50 dark pink—1st, Mt. Greenwood Cem. Assn., with Mrs. C. W. Ward; 2nd, Poehlmann Bros., with Mrs. C. W. Ward; 3rd, Chicago Car. Co., with Washington. 50 red—1st, Chicago Carnation Co., with Seedling 186; 2nd, Mt. Greenwood Cem. Assn., with Seedling 3508A; 3rd, Poehlmann Bros. Co., with Scarlet Glow. 50 any other color—1st, Mt. Greenwood Cem. Assn., with Mrs. H. E. McCrea. 50 roses, any other color—1st, Poehlmann Bros. Co., Bridal Bouquet—1st, Grimm & Gorly; 2nd, Henry Young & Son. 50 Carnations, one or more varieties—1st, Chicago Car. Co.; 2nd, Poehlmann Bros. Co.; 3rd, Mt. Greenwood Cem. Assn. Display of violets and lily of the valley—1st, Henry F. W. Aul; 2nd, Grimm & Gorly. Floral arrangement, "Engagement Gift"—1st, Grimm & Gorly. 100 roses arranged for effect—1st, Grimm & Gorly.

THE CINCINNATI SHOW.

The first flower show of any size that has been held in Cincinnati in seventeen years was opened on Monday of this week. From an artistic point of view the show on Monday and Tuesday was good but from a financial standpoint the opening days were far from being a howling success. Some of the shipments of chrysanthemums were caught in the sudden fall in the temperature. One, that of C. H. Totty of Madison, N. J., was entirely frozen. Judging from the appearance of the stock every one of the blooms would easily have been in the money were it not for the misfortune. On Tuesday evening Mr. Vincent gave a lecture, illustrated with stereopticon, on his European trip, particularly Holland. The carnations staged on that day were said to be some of the very best ever exhibited thus early in the season.

Prize Awards—First Day.

Chrysanthemum Plants—On specimen plants John Fries won five 1sts and two 3rds; Chas. Pfaffer one 1st, two 2nds, two 3rds; E. H. Fries one 1st, five 2nds, one 3rd. Six pompoms E. H. Fries 1st, R. Witterstaetter 2nd, E. Dellar 3rd. Six single pompoms, Witterstaetter 1st, Dellar 2nd, and on anemones the same. John Fries, best group; E. H. Fries, 2nd.

Chrysanthemum Bloom—On the classes for fifty blooms of specified color, Poehlmann Bros. won two 1sts; E. G. Hill Co., five 1sts, three 2nds; Elmer D. Smith, two 1sts, one 2nd, one 3rd; Henry Schwartz, one 2nd; E. Witterstaetter, one 3rd. On the classes for twelve blooms of specified color, E. D. Smith & Co., one 1st, three 2nds; E. G. Hill Co., six 1sts, one 2nd; R. Witterstaetter, one 1st, one 2nd; Theo. Rock, one 2nd. On one bloom each, 24 varieties: Hill 1st, Smith 2nd. Display of singles and display of pompoms: Hill 1st, Hartje & Elder 2nd, Witterstaetter 3rd in each.

Decorative Plants—Group: A. Sunderbruch & Sons 1st, G. Brunner's Sons 2nd, Max Rudolph 3rd. Pandanus, Lorraine begonias, begonias other than Lorraine: J. A. Peterson 1st on each, and in addition Mr. Peterson was awarded the S. A. F. silver medal for new begonia Westwood. On all the Boston fern classes, R. Witterstaetter 1st, except hanging baskets, where Ed. Dellar bested him. A. N. Pierson was awarded certificates of merit for Killarney Queen and Double White Killarney roses.

Second Day.

Carnations—On the classes for 100 blooms of specified color, Poehlmann Bros. won two 1sts, two 2nds; Chicago Carnation Co., three 1sts; Chas. Knopf Floral Co., one 1st, three 2nds; E. G. Hill Co., one 2nd. On the classes for 50 blooms of specified color, Poehlmann Bros., three 1sts, one 2nd; Chicago Carnation Co., one 1st, one 2nd; Chas. Knopf Floral Co., one 1st, one 2nd; E. G. Hill Co., two 2nds. On the 50s of 1911 introductions, Chicago Carnation Co. won four 1sts; Poehlmann Bros., one 1st; Chas. Knopf, one 2nd. Certificates of merit were

awarded to E. G. Hill Co., R. Witterstaetter, Chicago Carnation Co., Baur & Steinkamp and Murphy & Skidelsky. The sweepstakes silver cup for best seedling in above classes was won by R. Witterstaetter. Certificates were awarded to H. W. Riemann and Elmer D. Smith & Co., but for what our correspondent failed to state. H. W. Riemann won the silver cup for best seedling in the classes for six blooms. Poehlmann Bros., 1st, on Lily of the valley, and A. S. Burns, Jr., for lilies.

NEW JERSEY FLORICULTURAL SOCIETY.

The New Jersey Floricultural Society held their seventeenth annual chrysanthemum show in Lindsley Hall, Orange, on Nov. 10th.

Lager & Hurrell captured the silver cup offered by John R. LeCount for the best display of orchids. Julius Roehrs Co. was second. These groups of orchids were the finest ever exhibited before the Society and taxed the judges' skill before giving their decision. In the chrysanthemum classes James N. Jarnie, gard. Andrew Nichol, was the winner in the class for the twelve best blooms; 2d, A. C. Von Gaasbeck, gard. John J. Dervan; 3rd, S. M. & A. Colgate, gard. Wm. Reid.

Nathan Smith & Son donated a prize for the best six novelty chrysanthemums of 1911 which was won by James N. Jarnie; 2nd, S. M. & A. Colgate.

Mrs. J. C. Brown, gard. Peter Duff, exhibited an immense specimen of Garza with 800 flowers which received a first class certificate. Two vases of chrysanthemums, A. C. Von Gaasbeck, first class certificate, and two vases of roses, certificate of merit; group of chrysanthemums, Mrs. F. H. Dykeman, first class certificate; carnations, Popkins & Collins, first class certificate, and chrysanthemums, certificate of merit; Cattleya Lablata, Wm. Runkle, gard. D. Kindsgrab, first class certificate; chrysanthemums, Thos. Edison, gard. Geo. B. Wilson, certificate of merit; standard chrysanthemums, Charles Hathaway, gard. Max Schneider, certificate of merit; violets, Chas. Hathaway, first class certificate, and chrysanthemums, certificate of merit; chrysanthemums, S. M. & A. Colgate, certificate of merit.

In the monthly competition for points the following awards were made in Class A: Vanda Sanderiana, Lager & Hurrell, 95 points; Cattleya maxima, Thomas Jones, 92; Oncidium varicosum, S. M. & A. Colgate, 91; Killarney roses, 85; carnations, 95; carnations, Essex County Country Club, gard. Frank Drews, 85. Class B, chrysanthemums, Chas. Hathaway, 85; carnations, Fritz Berglund, 78.

Next meeting election of officers will take place.

WILLIAM REID, Sec'y.

DETROIT SHOW.

Detroit florists went with all the enthusiasm possible into the new venture of a Fall Show and the event was a huge success, and more friendly feeling even after the judges. Wm. Craig of Philadelphia, and Geo. Rockham and R. K. Stack of Detroit had passed their verdict, which, as is always the case, shatters some expectations and ambitions.

Prize Awards.

Chrysanthemum, Best Single Cup for 50 one kind, 1st, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

or more varieties in vase, Thos. Browne, 2nd, Fred Pautke, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

Carnations. The Kroeschell cup for 100 blooms one variety was won by Robert Klage. In the classes for 50 blooms, specified colors, Robt. Klage won three 1sts, one 2nd; A. J. Stahlton, two 1sts, two 2nds; A. Von Boeslager, one 1st, one 2nd; Thos. Browne and F. Miesel, each one 2nd. For vase of undissected varieties, Fred. Breitmeyer 1st, Thos. Browne 2nd.

Roses—Fifty American Beauty, Fred Breitmeyer; twenty-five Beauty, do. In the classes for 25 roses, color specified, Robt. Klage won one first; Chas. Plumb, two firsts; F. Breitmeyer, one first, three thirds. Miscellaneous Flowers—Violets, F. Breitmeyer, first; Robt. Klage, second; Lily of the valley, Robt. Klage; cosmos, do.

Miscellaneous Plants—Hupprich prizes for Lorraine begonias, M. Bloy, first; Chas. Plumb, second; do for cyclamen, Fred Miesel, first; E. Schroeter, second; do, prim. roses, G. Taepke, first; Ed. Beard, second; table plants, M. Bloy, first; Chas. Plumb, second; fern, M. Bloy, first; F. Miesel, second; orchids, Kenneth Anderson cup to E. Schroeter; Mrs. Newberry prize of \$50 in gold for best display of Helen Newberry pompon chrysanthemums, won by Fred. Pautke.

Special mention to Elmer D. Smith of Adrian for exhibiting a superb collection of 45 varieties of show blooms without competition.

Among the retailers who put a finishing touch on the show with choice table decorations and baskets were: John Breitmeyer's Sons, S. Bamb Floral Co., Harry Rockham, McHugh Floral Co., E. A. Feters, Robert Jean, Wm. B. Brown, Gust. Taepke. The committee in charge of this show were: Frank Danzer, Thos. Browne, Albert Pochelon, M. Bloy, Chas. H. Plumb, John H. Davidson. These appointed Albert Sylvester as superintendent.

FRANK DANZER.

NEW LONDON HORTICULTURAL SOCIETY.

The Chrysanthemum and Fruit Show of this society was held on November 7 and 8, at the courthouse, New London, Conn. It was exceptionally fine, and was well patronized by the public. The principal winners in the chrysanthemum classes were: S. Jordan, gardener for E. S. Harkness, with three firsts and one special; John P. Silve, gardener for Dr. W. Appleton, two firsts, three seconds and one special; E. Evans, gardener for Mrs. Wm. Schall, one second and one special; John Malona, gardener for Mrs. C. S. Guthrie, four firsts and two seconds; Gustav Newman, gardener for Mrs. A. Mitchell, one first and one second; F. A. Smith, one first (com'l.); E. W. Clark, one first, one second and one special (com'l.). E. A. Smith had 20 the carnation and violet premiums. John Malona won on specimen of flowering and foliage plants, and S. Jordan got a certificate of merit for nephrolepis.

PHILADELPHIA NOTES.

First prize on American Beauty rose went to Duke's, Somerville. Mark one for Andrew Macdonald.

We are pleased to report that our old and esteemed friend, John A. Cook, of Beverly, N. J., is about again, after a long siege of sickness.

A silver medal was awarded to Mme. Charles Russell—the new rose from Waban. Another feather in the cap of Alexander Montgomery.

Lillium gloriosum superbum grandiflorum is the magnificent bunch of adjectives tacked on to an exhibit by John G. Gardner. Please don't blame John for the name. He didn't do it. It's a rather curious looking thing—for a lily—but that's all. Forget the rest.

The world do move. Put three things down as remarkable happenings in 1911. Philadelphia was swift enough to beat New York in the national game; she put up the best fall flower show seen in ten years; and she licked the political gang who have made her name a byword in the nation for the past thirty years! That is some going for one year. Who said we were slow?

Among the many pleasing and progressive results of the recent election is the emphatic endorsement of "Washburn and Good Roads," by Doylestown township. It is supervisor Washburn now. We congratulate the doctor some, but the citizens of the locality more. Among the latter are W. Atlee Burpee and Howard M. Earl—both of whom tore themselves away from their engrossing activities to put in a few licks for good citizenship.

The free lectures of the Michell Co. are "taking" with the public unusually well this season. The latest, given on the 13th inst., was by Maurice Fuld, his subject being "Perennials and hardy bulbs." The next lecture will be on November 25th, Saturday, 3 P. M., by Robert Craig, "Progress in Floriculture." December 4th, Professor Corbett will talk on "Farming in general." January 8th, Professor Wiershoffer on "Poultry." March 12th Professor Stewart, "Vegetable Garden." To meet the increasing popularity of this feature the Michell Co. have decided to remove the obstructing mezzanine and build a gallery instead—and to make a complete lecture hall for the comfort of the audience. Contracts have already been given out for these alterations.

Visitors: Jno A. Schwartz, Joy Floral Co., Nashville, Tenn.; Daniel E. Gorman, Williamsport, Pa.; Miss Dunlop, Lancaster, Pa.; John F. Horn, Albiontown, Pa.; W. R. Pearson, Cromwell, Conn.

NEWS NOTES.

Louisville, Ky.—A permit to move his greenhouses at 1231 South Brook street has been issued to R. W. Beutel.

Yalesville, Conn.—Barnes Bros. have purchased 100 acres of land which they will use for a peach nursery.

Fall River, Mass.—Proposals for building a greenhouse near the pumping station are solicited by Watuppa Water Board, Daniel J. Sullivan, president.

CLUBS AND SOCIETIES

PITTSBURGH FLORISTS' AND GARDENERS' SOCIETY.

Our expectations for a rousing meeting on Nov. 7th were abundantly realized, for it was Chrysanthemum Night, which always brings out a good attendance. The display of varieties was large and the quality good, and as has happened before at our meetings, the graceful and artistic singles competed strongly with the big doubles.

C. H. Totty, Madison, N. J., showed in doubles, Wm. Turner, Lady Carmichael and Annie L. Angus. Of these Wm. Turner drew special attention from the growers as a good commercial variety. It is a big white with the Appleton shape. Mr. Totty also exhibited a collection of singles, of which the most striking were Sylvia Slade and Hilda Wells, both crimson and E. Nottell, cream white. Merstham Gem and Emma L. Davis were also noticeable. The judging committee, Neil McCallum and David Fraser, awarded to Mr. Totty a cultural certificate for his display, considering Wm. Turner the best of the new doubles, and Sylvia Slade and E. Nottell the best singles of their color ever shown before the club.

Mr. Jenkinson, gardener for A. H. Peacock, showed 3 vases of standard doubles. For the private conservatory he considered Yellow Miller the best yellow and Beatrice May, the best white. The committee awarded him a cultural certificate.

W. A. Morten, an enthusiastic amateur, showed a vase of standard varieties grown under difficulties, which the committee considered a credit to him and awarded him a cultural certificate. Mr. Phillips, gardener for H. J. Heinz had a good display for which he was awarded a certificate of merit.

Fred Wissenbach, showed single and double chrysanthemums and Celosia, Pride of Castle Gould; cultural certificate. Pittsburg Cut Flower Co. showed fine single and double chrysanthemums. Among the singles Mary Richardson and Jno Gossimier were noticeable, and Lady Lee, a white, was especially charming. Of the doubles, Fred Burki, speaking for the Company, especially likes Thanksgiving Queen, a fine white. Brutus is the only bronze he grows. Maud Dean always comes good and can be planted close. Appleton is still a good commercial yellow. The committee awarded a cultural certificate and highly commended Appleton.

Homewood Cemetery, Wm. Allen, supt., showed a fine collection of doubles and a vase of blooms; certificate of merit. Walter James, gardener for Rev. Hilliard, Pittsburgh, showed collection of cut blooms—cultural certificate.

C. H. Godwin of Godwin Bros., Bridgeville, showed standard commercials. He thinks Early Snow the best early white, and called attention to the fact that he found the early varieties keep better than the late ones; certificate of merit. Randolph & McClements, among yellows like Negoya, which stands handling and lasts well, and Mrs. Geo. Wells and Clara Wells; certificate of merit.

The Bureau of Parks had an inter-

esting collection. No variety attracts more attention at the Park greenhouses than Reine du Japon, the petals of which are something like a cactus dahlia but longer and finer. They think Wm. Turner the best white double, and they certainly grow it to perfection; cultural certificate. Elliott Nursery Co. showed an Euonymus that they think better than radicans. Subject for next meeting—Everybody Bring a Plant.

H. P. JOSLIN, Sec'y.

NASSAU COUNTY HORTICULTURAL SOCIETY.

The regular monthly meeting of the Nassau County Horticultural Society was held in Pembroke Hall. President Trepass presiding on Thursday evening, Nov. 9th. The manager of the fall show, Geo. Barton, and all those that helped him in his many and arduous duties received a very hearty vote of thanks from the members. Felix Mense offered a gold medal for the best 100 single violets to be competed for at the December meeting.

President Trepass took occasion to present to Henry Gaut the Stumpp & Walter silver cup which he won at the fall show for the best group of chrysanthemums, also the Mrs. F. S. Smithers cup for the best collection of hardy chrysanthemums. Henry Cliffe was presented with the Rickards Bros cup which he won for the best 18 blooms of chrysanthemums.

The result of the competition for the society's prize was as follows:

Chrysanthemums, pink, Henry Gaut; white, Henry Cliffe; yellow, Paul Reul. For two vases of seedling chrysanthemums a certificate of merit was awarded John F. Johnstone. For tomatoes Stirling Castle, honorable mention to F. Petroccia. For lettuce, cultural certificate to F. Petroccia.

The Society's prize in December will be for carnations, 12 white, 12 pink, 12 red. The election of officers will be held at the December meeting and that meeting and all others until further notice will be held in the afternoons, at 2 p. m.

E. WESTLAKE, Cor. Sec'y.

GARDENERS' AND FLORISTS' CLUB OF BOSTON.

At the meeting on the 14th there was a large attendance, the principal business being nomination of officers for next year. The result was as follows: For president, Thomas Pegler; vice-president, Wm. J. Kennedy; secretary, W. N. Craig; treasurer, Peter Fisher; executive committee, W. J. Patterson, Peter Miller, Herman Barch, J. Van Baarda, A. E. Thatcher.

On motion of J. K. M. L. Farquhar the sum of \$50 was donated towards the Sweet Pea Society of America meeting to be held in Boston next July.

In the absence of a special lecture, Mr. Van der Vort gave an interesting short talk, speaking chiefly of some of the better flowering shrubs.

A very spirited discussion took place regarding closer relations with Amherst College. Seven new members were proposed.

NEWPORT HORTICULTURAL SOCIETY.

An important meeting of this Society was held on the evening of Nov. 14, the principal business being to consider the matter of co-operating with the new "Garden Association" in holding an out-door exhibition next June, as the Association some time ago suggested to the Society. After opening the meeting President Meikle stated that J. McLeish, A. MacLellan and himself as a committee from the Society had had an interesting interview with officers of the Association and learned that that organization is planning to have a very extensive display with many new and foreign ideas worked into the arrangements. It is expected that some of the features will be fancy plantings of shrubs, evergreens, annual and perennial plants in flower, and that encouragement will be given to bring exhibits from far and near. The exhibition will also be somewhat of a society event as the members of the Association are mostly owners of Newport estates. The information given about the plan of co-operation seemed to be agreeable to the members present, and it was unanimously voted to join in the undertaking.

Another pleasing feature of the meeting was the presentation of the silver cups to winners at the September Show. The honor of presenting these was given to Treasurer A. K. McMahon, who made a very pleasant speech in each case. John Mahan, gardener for H. D. Anchincloss, was the recipient of the Henry A. Dreer cup for collection of hardy perennial flowers, and also the Joseph Breck & Sons cup for collection of annuals. Wm. Grey is the happy possessor of the Stumpp & Walter Co. cup for a collection of vegetables, and J. Robertson is now the owner of the Rickards Bros.' cup for a table decoration. This pleasing ceremony was closely followed by rounds of cigars from the cup owners.

J. R.

ST. LOUIS FLORIST CLUB.

The club held a very interesting meeting last week, Nov. 9. It was the largest attended meeting the club has had for many years—no less than 90 being present. It was also noted for many distinguished visitors from different parts of the country. Among them were President Asmus, President-Elect Vincent, Jr. and Vice-President-Elect Poehlemann of the Society of American Florists, H. A. Philpott and A. T. Pyfer, president and secretary of the Chicago Florists' Club, Elmer D. Smith, C. H. Totty, W. H. Duckham, E. Mann, A. F. J. Bauer, Wallace R. Pierson, Phil. Foley, C. W. Johnson and W. J. Vesey, Jr. The meeting adjourned early to Lippe's Cafe for a dinner with all the visitors at the head table. After a good meal President Windler made an address of welcome and announced Fred. Ammann as toastmaster, who drew out some enjoyable speeches from the guests. At the close of the talks the party were taken in a body to the flower show at the Coliseum.

AMERICAN ROSE SOCIETY.

Prize schedule for the exhibition at Detroit, Jan. 10, 11, 12, 1912. Division A.—Display of Cut Roses covering not less than 200 square feet of space, and not to contain less than 200 blooms, quality of blooms and effect to be considered, and decorative green of any kind, including plants, permitted: first prize, \$150.00; second, \$100.00; third, \$75.00.

Division B.—50 American Beauty, first prize, \$50.00; second, \$30.00; third, \$20.00; 50 Killarney; 50 Dark Pink Killarney; 50 Double Pink Killarney; 50 White Killarney; 50 Double White Killarney; 50 Richmond; 50 My Maryland; 50 Mrs. Jardine; 50 La Detroit; 50 Mrs. Aaron Ward; 50 Lady Hillingdon; 50 Melody; 50 Radiance; 50 Rose Queen; 50 Prince of Bulgaria or Antoine Rivoire; 50 any other disseminated variety, first prize, \$25.00; second \$15.00, in each class.

Division C.—25 American Beauty, first prize, \$25.00; second, \$15.00; third, \$10.00; 25 Killarney; 25 Dark Pink Killarney; 25 Double Pink Killarney; 25 White Killarney; 25 Double White Killarney; 25 Richmond; 25 My Maryland; 25 Bride; 25 Bridesmaid; 25 Golden Gate or Uncle John; 25 Sunrise or Sunset; 25 Kaiserin Augusta Victoria; 50 Bon Silene; 25 Cardinal; 25 Rhea Reid; 25 Chatenay; 25 Mrs. Potter Palmer; 25 any other disseminated variety, first prize, \$10.00; second, \$5.00 in each class.

Division D.—For New Roses not in Commerce—50 Blooms—first prize, \$50.00; second, \$25.00.

Division E.—Retailers' Prize. For Artistic Display of Cut Roses, and with such accessories as the exhibitor may desire, first prize, \$100.00; second, \$50.00; third, \$25.00.

Division F.—Open to private gardeners and amateurs only. For collection, not less than 10 blooms of each. American Beauty, first, \$6.00; second, \$4.00; Killarney; Dark Pink Killarney; Double Pink Killarney; White Killarney; Richmond; My Maryland; Bride; Bridesmaid; Golden Gate or Uncle John; Sunrise or Sunset; Bon Silene; Kaiserin Augusta Victoria; Cardinal; Rhea Reid; Chatenay; Mrs. Potter Palmer; any other disseminated variety, first, \$4.00; second \$2.00 in each.

Special Prizes.—In this section the prizes offered are for special exhibits, by one and another friend, who wishes to encourage rose culture or is an admirer of the "Queen of Flowers," and the list grows up to the opening of the exhibition, and is always a subsequent list to the general list and usually embraces a considerable number. The secretary will be happy to receive notice from any one so disposed. 1. The Society of American Florists' silver medal may be awarded for best grown Rose plant or group of plants, should there be an exhibit of sufficient merit. 2. The Dorrance Challenge Prize for the largest and best display of Cut Roses, offered by Benjamin Dorrance, Dorranceton, Pa., a valuable silver medal properly engraved.

For the best new Rose of American or foreign origin not yet disseminated, the society's medal or certificate.

BENJ. HAMMOND, Secretary.
Nov. 11th, 1911.

NEW YORK FLORISTS' CLUB.

The meeting on Monday evening, Nov. 13, was a very interesting one, with about 150 present including ladies, it being "Ladies' Night." The great event of the evening was an illustrated lecture by J. Otto Thilow, who was at his very best, which amounts to saying he was inimitable.

Officers were nominated for the coming year, as follows: President, J. B. Nugent, Jr., Joseph A. Manda, I. S. Hendrickson; Vice-President, Philip Einsman and John Rasbach; Secretary, John Young, W. G. Badgley; Treasurer, W. C. Rickards, Jr., W. H. Siebrecht, Jr., C. W. Scott; Trustees, Philip Kessler, John Donaldson, Wm. Duckham, R. G. Wilson, F. A. Bolles, Harry Turner.

There was an interesting showing of novelties on the exhibition table. The list and awards was as follows: Carnation Wodenethe, from C. H. Totty, vote of thanks; carnation seedling 310, from J. D. Cockcroft, 84 points; rose Improved White Killarney, from S. J. Reuter & Son, 85½ points and preliminary certificate; carnation Brooklyn, from Charles Weber, vote of thanks; carnation seedling No. 46, from C. H. Proctor, vote of thanks; seedling petunia, A. T. Boddington, honorable mention; rose White Killarney, Robert Simpson, vote of thanks. The committee on awards reported having visited C. H. Totty's place on October 25, to see the new rose Sunburst growing and awarded it 90 points.

The musical program which had been prepared was curtailed on account of the lateness of the hour. Mrs. Maurice Glass and J. Hayes contributed solos. The house committee looked after the inner man (and woman) in fine style.

MASSACHUSETTS HORTICULTURAL SOCIETY.

The trustees of the Massachusetts Horticultural Society announce the following list of committees of the society for the year 1912:

Finance—Walter Hunnewell, chairman, Arthur F. Estabrook, Stephen M. Weld.

Prizes and Exhibitions—John A. Pettigrew, chairman, Robert Cameron, William Downs, J. K. M. L. Farquhar, M. A. Patten, Wilfrid Wheeler.

Plants and Flowers—T. D. Hatfield, chairman, Arthur H. Fewkes, William Nicholson, Thomas Roland, William C. Rust, William Sim.

Fruits—Edward B. Wilder, chairman, William Downs, Wilfrid Wheeler.

Vegetables—Duncan Finlayson, chairman, W. N. Craig, Edward Parker.

Gardens—Charles W. Parker, chairman, Jackson Dawson, Arthur H. Fewkes, Thomas J. Grey, T. D. Hatfield, William Nicholson, William P. Rich, David F. Roy, Charles Sander, William Thatcher, Wilfrid Wheeler.

Library—Charles S. Sargent, chairman, Ernest B. Dane, George B. Dorr, Charles S. Minot.

Lectures and Publications—Robert Cameron, J. K. M. L. Farquhar, Edward B. Wilder.

Children's Gardens—H. S. Adams, chairman, Joseph Clark, H. S. Rand, William P. Rich, B. Hammond Tracy, James Wheeler.

WM. P. RICH, Sec'y.

SWEET PEA EXHIBITION FOR 1912.

The following committees have been appointed in connection with the Sweet Pea Society's Exhibition to be held in Boston in conjunction with the Massachusetts Horticultural Society's Show, July 13th and 14th, 1912.

Executive Committee—John K. M. L. Farquhar, Chairman; W. A. Burpee, A. C. Zvolanek.

Manager of the Exhibition—Robert Cameron.

Schedule Committee—James Wheeler, Chairman; Wm. N. Craig, Sidney Hoffman.

Committee on Medals—Thomas Roland.

Commercial Growers' Committee on Prizes and Rules—James Wheeler, Chairman.

Gardeners' Committee on Prizes and Rules—Wm. N. Craig, Chairman.

Retailers' Committee on Prizes and Rules—Sidney Hoffman, Chairman.

Seedsmen's Committee on Prizes and Rules—H. E. Fiske, Chairman.

Other committees will be announced later.

CHRYSANthemum SOCIETY OF AMERICA.**Work of Committees.**

Report of examining committees follow:

Exhibited at New York, Nov. 1, by Chas. H. Totty Madison, N. J., Ramopo, Yellow, Jap. Inc., com. scale 87 points; Wm. Turner, White, Jap. Inc., com. scale 93 points Ex. scale 93 points; by A. C. Van Gaasbeck, Orange, N. J., Seedling No. 1, Pink, Jap., com. scale, 85 points.

Exhibited at Chicago, Nov. 4, by Hartje & Elder, Indianapolis, Ind., Seedling No. 59, Pink, Pompon, 93 points; at Cincinnati, Nov. 4, Seedling No. 59, Pink, Pompon, 93 points.

Exhibited at Chicago, Nov. 4, by Elmer D. Smith & Co., Adrian, Mich., Clea, single, 85 points.

Exhibited at St. Louis, Nov. 9, by Elmer D. Smith & Co., Manhattan, Light Pink, Jap., com. scale 86 points, Ex. scale 83 points.

CHARLES W. JOHNSON,
Secretary.

FLORISTS' CLUB OF PHILADELPHIA.

Committees for 1911-1912, appointed Nov. 7, 1911.

Club Room.—Fred Hahman, chairman; D. T. Connor, John Westcott, Geo. Burton, John H. Dodds.

Games.—Geo. Anderson, chairman; Wm. Robertson, W. G. Rowley, Theodore Shober, Geo. Craig.

Novelties.—Robert Craig, chairman; E. A. Stroud, Wm. Kleinheinz, Harry S. Betz, Alfred M. Campbell.

Essay.—Arthur Niessen, chairman; Geo. C. Watson, Chas. E. Meehan.

Membership.—Henry F. Michell, chairman; Leo Niessen, Edward Reid.

Exhibits.—Robert Kift, chairman; A. Farenwald, J. F. Sibson.

SOCIETY OF AMERICAN FLORISTS.**Department of Registration.**

Objections having been withdrawn, public notice is hereby given that the registration of the Rose, "Oriole," by Jackson & Perkins Company of New York, Wayne County, N. Y., becomes complete.

H. B. DORNER, Secretary.
November 9, 1911.

TWO NEW CHRYSANTHEMUMS BY ELMER D. SMITH & CO.

PINK JEM

Mr. Smith writes that while his best blooms did not exceed 6 inches in diameter their pleasing shade of light pink, perfect form, ideal stem and foliage immediately places this variety in the front rank of the commercial sorts.—C. S. A. Certificate.

AESTHETIC

Exceptionally beautiful as the name implies. The petals closely incurve and are so arranged as to form distinct tiers of puffs or rolls rather than the regular contour usually seen in the incurved section. Its exquisite shade of delicate primrose as displayed by the unique form immediately appeals to those of refined taste.—C. S. A. Certificate.

DURING RECESS.

Chicago Bowling.

The scores on November 8 were as follows:

VIOLETS		CARNATIONS.	
Wetzel,	159 123 152	Loehman,	146 159 120
Huebner,	135 137 141	Barnes,	151 147 119
Huebner,	171 159 235	Wetzel,	161 130 164
Freeman,	156 161 195	Schultz,	150 182 176
Byers,	148 161 163	A. Zech,	172 201 160
ROSES		ORCHIDS.	
Huebner,	147 141 131	Huebner,	134 179 179
Huebner,	179 226 179	Graff,	130 177 177
Schulz,	147 141 149	Wetzel,	150 115 142
Wetzel,	166 141 166	Byers,	161 162 187
Freeman,	148 141 147	J. Zech,	166 151 157

The December tournament is acting as incentive to faithful practice and best efforts, some of the scores creeping up well each night.

New York Florists' Bowling Club.

There was an augmented attendance at last Friday night's meeting and consequently the thermometer of hilarity kept at the highest mark all through the performance, what with Scott's descriptions of the game and deer battles recently near Richmond, Va., where the noise was likened to that in Civil War times and the ever-flowing stream of wit and wisdom from all present—well, to say the least, it was one of those "nights." The army of ball throwers were lined up under two captains, Fenrich and Chadwick, and each contestant was emphatically advised on the best methods of delivering the spheroids. Chadwick was

in great form; we recommend a look at his figures. The scores were as follows:

Chadwick,	191 227 247	Fenrich,	170 171 195
Nugent,	104 121 126	Scott,	130 128 142
Holt,	121 159 138	Rickards,	158 114 123
Young,	156 161 114	Weston,	67 102 75
Zauggel,	157 197 129	Hanck,	93 94 103

INCORPORATED.

Louisville, Ky.—The Hall Seed Co., capital stock \$50,000.

Painesville, Ohio—The Painesville Garden & Greenhouse Co., capital stock \$20,000. Alfred E. McKee, incorporator.

Raleigh, N. C.—C. A. Lyle & Co., to do a general florist business, capital stock \$25,000. Incorporators, Frank Stronach, Mary Stronach and Norbert Stronach.

Forest Park, Ill.—Klimmer's Greenhouses, general florist and seed business; capital stock \$5,000. Incorporators, Augusta, Frank and Minnie Klimmer and Lillie Zander.

We learn from P. Ouwerkerk, representing Association Flora of Boskoop, that *Azalea mollis* is very scarce in Holland on account of the dry summer and more have been sold than can be delivered for this fall. A few years ago there were so many *Azalea mollis* grown in Holland and in Belgium that the prices came down so low that many of the growers reduced their stock for outplanting so that they will continue to be scarce for a few years to come.

CLUB AND SOCIETY NOTES.

The George Robert White medal of honor has been awarded this year by the trustees of the Massachusetts Horticultural Society to Victor Lemoine of Nancy, France.

It is stated that fully 3000 visitors attended the opening of the chrysanthemum show at the park board greenhouses in Minneapolis, on November 5. The exhibition will be open for two weeks. Louis Boeglin is the gardener in charge.

The program of the 38th Annual Convention of the Horticultural Society of Southern Illinois, has been issued. The meeting will be held at Anna, Ill., on Nov. 28 and 30. There will be an exhibit of fruit and the discussions will be on fruit topics.

At the regular meeting of the Cincinnati Florists' Society on Saturday, at the Cincinnati Cut Flower Exchange, the reports of outstanding committees were heard and approved. Fred Backmeier was elected to membership in the organization. The president appointed reception committees for the flower show.

New York, N. Y.—Fire was discovered amongst the stores on an upper floor of Kervan's in West 28th street, on Thursday evening last, and it was only by the prompt actions of the staff a very serious fire was prevented.

WASHINGTON NOTES.

Mr. Goudy visited many of the local trade last week in the interests of H. A. Dreer of Philadelphia.

Walter Hengel, late with Habermehl of Philadelphia, has entered the employ of Z. D. Blackstone.

W. A. Bollinger of Bethesda, Md., is now in Texas for a short stay on business pertaining to the Federal government.

W. F. Gude, at the annual election, was made a member of the board of directors of the Washington Board of Trade. The election was a spirited one, there being more candidates than vacancies, but Mr. Gude polled within thirty votes of the head of the ticket.

W. R. Smith is receiving the congratulations of his very many friends on his recovery from what was at first thought to be a fatal illness. Information has been given out at the Providence Hospital that he would be seen on the street before many days have passed. Mr. Smith has had quite a siege of it but has borne the pain and illness incident thereto with remarkable fortitude.

F. H. Kramer has been holding his annual show of chrysanthemums and the display has caused his store to be crowded with admiring visitors. Chrysanthemums of all varieties and colors, shapes and sizes were to be seen and some mighty good stock was shown. The greenhouse was appropriately decorated with ferns, smilax and roses and at the rear was massed a forest of palms. Japanese lanterns cast a pleasing soft toned light on the whole.

Prominent among those present at the "get together dinner" of the Retail Merchants' Association on November 8, were William F. and Adolphus Gude and Otto Bauer of the Washington Florists' Co. The dinner was held primarily to bring together merchants of all lines and for the discussion of methods tending to do away with various trade evils which now beset them. An informal reception preceded the dinner. The big dining and reception rooms of the New Ebbitt House were utilized for the occasion. An orchestra furnished music throughout the evening and a quartet and several soloists with the aid of the toastmaster kept the guests in the best of humor. There are now a number of florists who are members of this association and a campaign is to be started to get others to enroll.

Z. D. Blackstone held a reception this week following the completion of extensive alterations to his store at Fourteenth and H streets, N. W. The two sides of his store have been torn down and replaced by large display windows with mirrored pillars and top and concealed electric lights. New iceboxes have been installed and one of the walls covered with mirrors. The interior of the store has been colored French gray with a lattice work effect in white and on a sort of mezzanine floor running around the walls, potted ferns, palms and smilax have been placed. The tables are of marble with the lattice work bases made from designs furnished by Mr. Blackstone. A new system of lighting has been put in and the store is one of the handsomest in the south. With their congratulations, a number of whole-

sale firms and growers sent floral offerings and many of the local tailors have called on Mr. Blackstone wishing him continued success.
CLARENCE L. LINZ

CHICAGO NOTES.

Business Changes.

In addition to the list of business changes recorded last week H. W. Metz & Co. have gone out of the retail business at 401 S. Ashland boulevard where they have been for the last four years. Their store has been leased by J. F. Carnik & Co., a couple of young men who have for the past two years had a store at 1514 W. Chicago Ave. and will now have both places. They are remodeling the new store and greatly improving the lighting and other equipment and will have a first class store in every respect. The location is a choice one.

The Athenaeum Floral Co. has given up the store opened up four months ago on E. Van Buren St. and will make use of the basement salesroom only, hereafter.

Richard Rolston, who has had many and varied experiences in the florists' line has now abandoned the business and gone into other work.

Hallowe'en Party.

The store and office employees of the Geo. Wittbold Co. of Edgebrook, of Buckingham Place and of their North Clark street store enjoyed a banquet and social evening at the residence of Fred Wittbold. The tables were set in the large basement and these and the room were trimmed in a way suitable to the season. Dancing and games made an occasion not soon forgotten.

Miscellaneous News.

A new incorporation is under way to take over the old D. D. Johnson Co.'s business of manufacturing the Evergreen Brands of Fertilizer. Nothing to date has been completed but some excellent business men have the matter under consideration.

The E. Wienhoeber Co., for many years has had fall openings which have showed much more than ordinary taste and elegance and this year was no exception unless it was exceptionally good. Table decorations were a feature and the work in all lines was much admired during the three days' exhibition.

Invitations are out for the marriage of Martha Robakowski and Frank W. Paszkiet, Nov. 22nd, at St. Mary's Church. An all day and evening reception follows the early wedding according to the custom of that nationality. Frank is receiving his full share of attention from his fellow employees, but is a model of good nature.

The lessons to be learned from the Land Show are no longer doubted by any one and the Chicago florists are anxious to get their share. The arrangements and decorations alone are worth studying and among the varied products of the entire country are hints in plenty to the ones who are looking for them. The third annual event opens Nov. 18th.

Visitors: J. J. Karins, representing H. A. Dreer, Philadelphia; Chas. Fuhlbrugge, Kansas City, Mo.; J. G. Layton, Louisiana, Mo.; Paul M. Paley, Little Rock, Ark.; J. A. Fisher, Kalamazoo, Mich.

To try and do away with the middleman in the bulb importing business is like trying to economize on the policeman in the middle of a busy street. It's a sort of finesse that seldom works out profitably. There are so many ways a buyer can become a loser by doing his own importing that it is not policy for the average grower to do it. It is a business by itself, and it's better for most buyers to buy from an American house than a foreign one, because you can get in quick, close touch with those responsible without difficulty and expense. This alone has saved buyers many a dollar that would otherwise have been lost to brokers and other parasites whose business it is to prey upon the unwary and ignorant in all sorts of ways that cost money. Buy your bulbs and plants from good first-class American houses—in the long run you can't do better anyway, and, besides, by helping Americans you help yourself and encourage home industry. What business do you get from a man entirely foreign to this country? Who supports you and your business—the Americans or the foreigners? Support those who support you—and, above all, don't let a foreigner sail home with a mortgage on your bank account and a lien on your business.

In the interest of Horseshoe Brand Bulbs. Write for prices.

How Cheap
But How Good

Seed Trade

The Seed Disclaimer Upheld.

The following Supreme Court decree will be of considerable interest to the American seed trade:

State of Wisconsin. In Supreme Court.
Leonard Seed Company, Plaintiff and Respondent, vs. The Curry Canning Company, Defendant and Appellant.

On February 14, 1908, plaintiff and defendant entered into a contract whereby the plaintiff agreed to sell to the defendant certain varieties of seed peas. Among other things, the plaintiff agreed to furnish one thousand bushels of "Advancer" peas, such peas were to be grown during the season of 1908, to be delivered after harvest, but in season for the planting trade for the year 1909. A quantity of peas was delivered under this contract to the defendant, it giving its promissory notes in payment therefor according to the terms of the contract. The peas so sold were in turn sold by the defendant to various farmers for the purpose of planting, and under contracts by virtue of which the farmers agreed to sell the peas raised from such seed to the defendant. The plaintiff brought action upon the notes. The defendant, among other things, interposed a counterclaim setting forth that the peas furnished were not "Advancer" peas; that they were received by the defendant without knowledge of that fact; that there was no means of discovering that they were not "Advancer" peas until after they had been sowed and the seed had germinated, and that as soon as the defendant discovered that the peas were not of the variety purchased it notified plaintiff. The counterclaim further set forth that the peas were mixed with other different varieties, making it impossible to harvest them without a mixture of over-ripe peas of varieties other than "Advancer." Facts are pleaded tending to show damage, and judgment is asked for the amount thereof. On the trial the court allowed the defendant to amend its answer by setting up a new counterclaim for the purchase price of the peas. The trial court held that the peas were sold without warranty as to quality or description, and directed a verdict for the plaintiff for the amount claimed, less \$33.75. The peas were shipped from Chicago and invoiced on the basis of fifty-six pounds to the bushel. The court held that the defendant was entitled to receive sixty pounds per bushel, and hence made the foregoing reduction. From a judgment in plaintiff's favor defendant appeals.

The contract for the sale of the peas contained the following provisions:

"It is also understood and agreed that the party of the first part (plaintiff) does not give, and its agents and employees are forbidden to give, any warranty, express or implied, as to description, quality, productiveness, or any other matter, of any seeds, delivered or to be delivered by it, and that it is not, and will not be in any way responsible for the crops."

Counsel for the appellant admit "that plaintiff is freed by the terms of this contract from all liability as to the seed in question being good or bad, large or small, wrinkled or smooth, black or white, wormy, sound, vital or dead." But counsel argue that the peas furnished under the contract must be of the "Advancer" variety and that plaintiff was not relieved by its contract from liability for damage resulting from furnishing peas other than "Advancer" peas. It was practically conceded on the argument that the clause quoted was intended to exempt the plaintiff from such liability as was sought to be enforced against it under the counterclaim in this action. The concession was readily made. The peas to be delivered under the contract were described therein as "Advancer" peas. But the contract provided that no warranty express or implied was given that the peas furnished should be of the description named therein. If a dealer in seed peas can exempt itself from liability for selling bad, wormy or dead peas to a grower, no good reason is apparent why it cannot go further and say that it will not be responsible in the event of an intermixture of other peas with the variety agreed to be furnished. Neither of the parties here are under an obligation or incompetent to contract. There is no claim that the contract signed was not the one agreed upon or that both parties did not fully understand what they were agreeing to. Plaintiff plainly undertook to relieve it-

New Times, New Things

The old fertilizer formulas are giving way to the new. At every farmers' meeting one subject should be the fertilizer formula

that will furnish a balanced ration to the crop and keep up the fertility of the soil. To do this the fertilizer should contain at least as much

POTASH

as Phosphoric Acid. Our note book has condensed facts essential in farmers' meetings and plenty of space to record the new things that you hear. Let us send one to you before your Institute meets.

A supply of these is furnished by request to every institute held in several states. We will be glad to send a supply delivered free of charge to every Institute, Grange or Farmers' Club Officer on request. It contains no advertising matter.

GERMAN KALI WORKS, Inc.

Continental Building, Baltimore, Md.

Monadnock Block, Chicago, Ill.

93 Nassau Street, New York

self from liability in case of intermixture and defendant agreed that it should be relieved. It is not claimed that the contract is void because contrary to public law or to public policy, and, if not, effect should be given to it. The vendee might reject and refuse to receive the peas if they were not "Advancer" peas, or it might well be that in the event of the shipment being made in bad faith, and with the purpose and intention of committing fraud upon the vendee, an action for damages for the fraud would lie, but we have no such case before us. If it be conceded that the contract is one-sided, it must also be conceded that the parties had a right to make a one-sided contract if they saw fit.

Counsel for appellant cite the following authorities to sustain the contention that, notwithstanding the agreement of the parties, there was a warranty that the peas sold would answer the description contained in the contract, or in any event that there was a breach of a condition of the contract by the failure of the plaintiff to furnish the thing contracted for: *Josling v. Kingsford*, 13 C. B. (N. S.) 447; *Columbian L. W. & D. Co. v. Douglas*, 33 L. R. A. 105; *Shepherd v. Kain*, 5 B. & Ald. 240; *Allan v. Lake*, 18 Q. B. 590; *Weiler v. Schilz*, 17 C. B. 619. These cases do not hold that a party selling an article under a designated name may not relieve himself from liability in his contract of sale, in the event that the article delivered does not answer the description contained in the contract. Some very general language is used in the contracts of sale involved in the cases cited, and in some of them it might well be construed as being broad enough to extend to the description of the article, but in none of the cases has it been so construed. These cases were decided upon the theory that this general language was intended to refer to the quality of the article furnished and not to the description of the article itself. In *Taylor v. Bullen*, 5 Exch. Rep. 779, where an article was sold and the party undertook to relieve himself from liability in his contract of sale by stating that he would not be liable for "any defect or error whatsoever," it was held that the word "error" was broad enough to include an error in description as well as an error in quality, and that there was no liability on the part of the vendor, even though the article furnished did not answer the description of the article contracted for.

If the seller expressly refuses to warrant, there can be no excuse for raising an implied warranty. *Habensham v. Rodriguez*, 1 Speers (S. C.) 314; *Farr v. Gist*, 1 Rich. Law (S. C.) 68; *Famtelroy v. Wilcox*, 80 Ill. 477; *Lynch v. Curfman*, 65 Minn. 170.

The case of *Blizzard Brothers v. Growers' Canning Co.*, 132 N. W. (d.) 176, is directly in point. There a packet was marked "Large cheese pumpkin seed" and sold as such, when in fact it contained "Connecticut pie pumpkin seed" mixed with a few squash. On the package the following war-

ranty was printed: "While we exercise great care to have all seeds pure and reliable and true to name, our seeds are sold without any warranty, express or implied, and without any responsibility in respect to the crop." There was no evidence to show that the purchaser read this warranty, but there was evidence showing that it was a general custom among seed men to sell seeds without warranty as to quality and as to true name, and such custom was held to be binding upon the purchaser. A contract deliberately entered into between two parties exempting one of them from liability in case seeds sold are not true to name, should be as binding as a custom among dealers not to sell with a warranty that the seeds furnished are true to description.

As before stated we do not hold that, if the plaintiff acted in bad faith and with the intention of deceiving and defrauding the defendant, or even if it failed to exercise due care and caution in selecting the seed, the latter would not have a cause of

(Continued from Page 703)

action for the resulting damage. No such cause of action has been stated in the counterclaim and no claim was made on the argument that any such cause of action was relied upon or existed.

The ruling of the trial court excluding testimony tending to show that the peas furnished were not "Advance" peas, was correct on the record presented. There was present but one of two elements that were necessary to constitute a cause of action. The element of bad faith was not presented by the pleadings, and no claim was made by counsel that such bad faith existed. We find no error in the record.

By the Court.—Judgment affirmed.

Foreign Trade Opportunities.

(Inquiries in which addresses are omitted are on file at Bureau of Manufactures. In applying for address refer to file number.)

No. 7574. Vegetable and Flower Seeds.—An American consular officer in a Latin American country, in response to inquiries from the United States, writes that the leading dealer in vegetable and flower seeds in his district would be glad to enter into relations with concerns in the United States for importing their seeds at profitable figures. Hitherto he has imported most of his seeds from European countries, as he claims that prices in the United States have been too high. Firms should correspond directly with this dealer, sending him catalogues, price lists, discounts, etc. These should be in the Spanish language, and it would be advisable for prices to be quoted in local currency f.o.b. some well-known American seaport. Weights and measures should be expressed in the metric system. The consular officer also suggests that firms send catalogues and literature to the commercial organizations in the leading centers of the country, a list of which is given in the report and can be obtained from the Bureau of Manufactures.

No. 7580. Garden Seeds of Various Kinds.—A report from an American consular officer states that owing to the continued drought of the past summer, a certain country is practically without seeds for spinach, carrots, turnips and flowers. Offers should be made immediately. Names of prominent dealers, who should be addressed, are given in the report.

Notes.

Meridian, Miss.—The Kimbrough Seed Co., J. M. Kimbrough, proprietor, will open a seed store here.

Columbus, Ga.—Bradford & Meadows is a new firm that will open a seed and drug business here soon.

Little Rock, Ark.—A voluntary petition in bankruptcy has been filed by Leifer Bros. Seed Co. Liabilities \$7,000, assets \$9,000.

Articles of incorporation have been filed by the Hall Seed Co., Louisville, Ky. Capital stock \$50,000. Incorporators, E. C. Foltz, W. P. Hall and W. P. Bunton.

Indianapolis, Ind.—The Southern Seed Co., of Kentucky, has filed notice of withdrawal from that state, after its business was transferred to the Southern Seed Co., of Indiana.

ST. LOUIS NOTES.

The Eggeling Floral Co. have moved their store to the opposite corner from where they have been in business for many years. The name of the firm has been changed to Margaret Eggeling, florist.

During the big wind and rain storm on Saturday night a large plate glass window of C. Young & Sons' Co., at 1406 Olive street was broken. Luckily it kept together as the drop from 78 down to 17 degrees would have frozen them out during the night.

Wm. C. Smith and Adam Zender, the latter from Chicago, were in a big smashup the past week in which both came near losing their lives, their buggy in which they were riding being run into from the rear by an automobile. Mr. Zender came out with but a few hurts but Mr. Smith was painfully hurt about the face and body which kept him in doors all of the week. From reports he will be out this week.

The Engelmann Botanical Club held a largely attended meeting on Monday night, Nov. 13, at the Missouri Botanical Garden. Mr. Pring, who has charge of the orchid houses gave an illustrated talk on "The Evolution of the Cultivated Chrysanthemum" which was very interesting. After the meeting the members and visitors were conducted to the annual chrysanthemum show given by the Garden. This was the most enjoyable meeting the club has had for a long time. They meet every second Monday in the month at the Garden.

PERSONAL.

All will regret to learn that that prominently progressive young gardener, James Bell, is very low in the Presbyterian Hospital, N. Y., having recently undergone another very painful operation. He regretted his inability to be among the "boys" at the

shows but is in hopes of recovering soon and being able to attend the "Old Guard" reunion of the New York Gardeners' Society.

David Lumsden, instructor in floriculture and landscape gardening, New Hampshire College, Durham, N. H., has been appointed chairman of standing committee on education at the New Hampshire State Grange meeting to be held at Manchester, N. H., Dec. 19-21, 1911.

Flower Market Reports

BOSTON Local flower trade is decidedly slack and the markets which depend upon local demand for their prosperity are feeling it. With the houses that have a shipping trade business is excellent and these houses are among the best friends the markets have at such times, as they are heavy buyers and help materially to unload the surplus that otherwise would be at the mercy of the street vultures. Demand from outside points is decidedly better than from the vicinity of Boston. The New Haven fondness for violets is beginning to have its effect on that commodity and prices have advanced to a reasonable figure. Quality is good on all lines.

BUFFALO The past two weeks has found the early winter trade only fair, that is, not better than previous years. The volume of business was larger, but the prices obtained less. The cause can only be laid to the fine fall weather, which had a tendency to bring on the chrysanthemums, roses and carnations, etc., faster than they could be disposed of at good prices, consequently the accumulation of flowers was heavy and prices far below their actual value. This applies mostly to roses and carnations, though the early variety of chrysanthemums, mostly of the ordinary quality, suffered the most. Pompons had a better call, and the demand for yellow was the heaviest, though other varieties shared in the demand. The late varieties are here, and some exceptionally fine Eaton in yellow are had, also Maud Dean, Bonnafton, Balfour, Enguehard, and no complaint can be made about these, for they sell well and the prices are encouraging to the wholesaler and grower. Beauties are scarce, and prices have advanced a notch. The long grades are fine, but the shorts are only ordinary poor blooms, and sell below summer prices. Killarneys, Marylands, Richmonds, 'Maids, Brides and Perles are in good winter form—that is, all but the prices. Lily of the valley has been plentiful, also violets. There was plenty of everything, and the retailers had little or no trouble to fill any order, no matter how large. Cold weather is looked for, which will not alone check the supply, but bring down the bargain signs which have been so conspicuous in every shop window for the past months, as the time has come when the season's business should actually begin.

CHICAGO The preceding busy weeks in the wholesale market have given way to one of comparative quiet, for which the sudden drop of 59 degrees in the temperature is supposed to be responsible. Stock has not suffered in quality but rather the opposite condition obtains. Beauties are becoming scarcer. Aside from the number used locally, the various flower shows have drawn many prizeward, and the regular shipping demand has been steady also. Chrysanthemums are not generally counted as quite up to those of average years—more of the medium blooms and pompons and rather less of the fancy ones. Roses are in good supply, the highest grades being first

MEM FOR THE RETAILERS

DOUBLE PINK KILLARNEY

Our growers are cutting heavily of this grand new rose, all lengths, particularly the Fancies and Specials. Much larger and heavier buds than the Pink Killarney; lasting qualities much better.

Flower Market Reports.

(Continued from page 702)

to sell out. Carnations are all that could be desired, and a full supply is now in the market. Violets are coming in more abundantly now, but the largest demand is drifting to the more showy flowers, as is general in chrysanthemum season. Orchids, as well as violets and lily of the valley have been in especial demand recently. The first paper white narcissi were noticed last week.

Last week's market

CINCINNATI which started fair at the opening was slow

at the close and this week's started in inverse order. It was caused principally by a slack demand for flowers for work and heavy cuts of cull chrysanthemums. These naturally held the price of the latter ones down where one would expect that with the sudden advent of the very cold weather they would go sky-high. The shipping business continues good. Locally roses and carnations seem to be off crop. The pink roses are selling well, while white, owing to the continued large supply, do not clean up as readily. There is a sufficiency of choice Beauties, and a scarcity in the medium and short. Red roses are strong, but the sizes run mostly from medium to short. Other offerings include lilies, lily of the valley, double and single violets and orchids.

A decidedly better

NEW YORK feeling prevails in the wholesale district

as compared with the past three weeks. The cold weather has shortened up the supply a little of course, but not a great deal. It has also sharpened up the buying appetite and that counts and gives the seller the necessary courage to put prices back where they belong. Roses, lilies and some of the minor stocks have advanced but in chrysanthemums there is little change. Quality is good all down the list.

There has been

PHILADELPHIA some slight improvement in

general business conditions in the wholesale markets here. Some departments were worse; some better—but on the average an improvement. The chrysanthemums have probably reached their high water mark now, as to quantity and when we say quantity, we mean the vast influx of medium-grade stock that usually swamps the market at the height of the season,—this volume will decrease

from now on, as the smaller growers are cut out; higher grades will now have a chance. The big wide-awake growers realizing the all round supremacy of Bonnaffon planted heavily of this, consequently there are big cuts to offer of magnificent blooms and also plenty of fine flowers to meet more moderate requirements. Appleton—both light and dark, Dear Friend, the two Eatons, Maud Dean, and Mrs. Jorome Jones, are also cutting a wide swath in popular esteem. There are also a very few of the Golden Chadwick and White Chadwick. White Bonnaffon is to be seen but this does not seem to be in the same class with the yellow Bonnaffon, although a pretty good flower. The rose market naturally lags a little among this wealth of glory. There is no lack in quantity or quality, in the regular varieties, although American Beauty has been rather on the short side and we hear of some orders for these late in the week that could not be supplied. Violets also were in excellent demand. Prices on these held firm and all flowers that were any good cleaned up excellently. More and better gardenias. Fewer orchids. Demand good in both. Callas and mignonette are new items. Carnations and other staples holding their own at normal figures.

ST. LOUIS

The market was in pretty good condition all of last week. There was plenty of cut stock of anything seasonable and at prices within reach of all. Fancy stock was bought up by all the up-town florists at good prices. The call was for large table chrysanthemums and the commission man found no trouble in disposing of them each morning. Carnations are looking better and also some of the Violets, lily of the valley and are coming in good at present. Roses are more plentiful than any other flower just now, but they, too, seem to sell better than usual at this particular time. The retail trade has

picked up greatly since the cold weather and the trade is looking for good steady business from now on.
